

"M" Club Will Conduct Tennis Tournament Soon

RACQUET ENTHUSIASTS TO BE GIVEN CHANCE TO DEMONSTRATE THEIR SKILL IN SINGLES AND DOUBLES. AWARDS TO BE GIVEN BY "M" CLUB—SMALL ENTRY FEE TO BE CHARGED

Tennis players and enthusiasts, get on your white ducks and sport shirts and get ready for a tennis tournament. The "M" club has decided that tennis is a sport worthy of attention here at M. S. C. and accordingly have planned to hold a tournament which will be open to all men students.

The dates for this tourney have not been definitely set but it will be held sometime about the end of May or the first of June. There will be plenty of time for all participants to get into first class condition before that time.

The "M" club decided on an entrance fee of twenty-five cents from all those entering the singles, and fifty cents from each team entering the doubles. This money will be used to supply new balls for all the matches. With new balls for all the games there will be an assurance of equally live balls on all occasions.

The winner of the singles championship will be presented with a silver loving cup. This cup will be given by the "M" club. The winning team in the doubles will receive a dozen new tennis balls, also from the "M" club. This will be the first tennis tournament held here for several years. In the past the tennis tournament was a regular event of the spring quarter, but during the war it was discontinued and had not, until this year, been revived. This spring there has been a great interest taken in tennis and all the three courts have been in use whenever the weather permitted.

Any person who has ever played any tennis should get out and practice and then get into the tournament. Tennis is not a game that demands excessive strength but it does demand constant practice.

There are many in the college that would like to see a tennis match with the University. Such a match is not beyond all possibility, tho this year, one does not seem very likely to be held. However if some good material shows up something might be done along that line. At any rate next year M. S. C. should have a tennis team and the students should start in now to make that team one that will beat the "U".

Get out your tennis racket and get into the game.

Russell Davis, a graduate of M. S. C., and a post-graduate of Iowa State college has been re-appointed as assistant professor of animal husbandry in the University of British Columbia.

FANGS TO MOVE THE GRANDSTAND

SOPHOMORE SOCIETY, WITH THE AID OF THE FRESHMEN PLAN TO MOVE GRANDSTAND TO OTHER SIDE OF BASEBALL DIAMOND.

The Fangs will undertake the moving of the grandstand from the north side of the athletics field to the south side on Saturday afternoon, April 23rd., and the endeavor to remove what has constituted an obstacle to baseball teams using the field during the last few seasons.

In its present position the structure makes it difficult for the college ball squad to get any right field practice as it is so placed as to prevent any long hits into that part of the field. The question of moving it was considered last year, but nothing was done because of the work involved, and because of the lack of any definite plans as to how long the present field would be used. It now appears, however, that the field will be used until after the erection of the new gymnasium and the fixing up of the field where the track is now laid out.

Accordingly, Coach Graves has planned to remove the grandstand to a more suitable location on the field and The Fangs have offered to take charge of the work.

This should not be the work of one class on the Hill and every member of the student body should keep the afternoon of April 23rd open in order to assist the Fangs in their undertaking.

Freshmen especially should bear in mind that such work is recognized in all institutions as primarily the work of the underclassmen and that their college spirit will be measured by their application to such tasks as this one.

Mary English is back on the hill after an absence of two weeks due to illness.

Associated Students to Publish 1923 Annual

It has been made known that, contrary to rumors that have been current on the Hill for some time past, the Associated Students will in all probability undertake the publication of the next Montanan.

Current stories have had it that the recommendation of our Associated Students that this plan will be followed in the future in place of the old plan of the Junior class publishing the journal, had failed to secure the sanction of the chancellor's office to which it had been passed. This is not the case at all, according to President Atkinson. The truth of the matter is that the Chancellor's office recommended the delaying of any further action on the plan until the new financial plan under the last legislature's law, be put into operation. Under this plan all regular college moneys are sent to the central treasurer's office at Helena and it was thought that this might make it necessary to place the student activity fee under the direct control of the student officers. It has developed, however, that this will probably not be necessary, in which case the new Annual fee may be incorporated into the student activity fee. Unless something definite to the contrary be brought out in the near future, the individual classes will be relieved of the responsibility of the Annual, the Associated Students supervising the publication in the future.

Building Program Outlined By President A. Atkinson

NEW GYMNASIUM, ENGINEERING BUILDING, ENGINEERING SHOPS, BIOLOGY BUILDING AND MAIN HEATING PLANT ARE TO BE STARTED THIS SUMMER—STATE UNIVERSITY TO START SIMILAR BUILDING PROGRAM

ALUMNI PLAN A HOMECOMING DAY

LOCAL GRADUATES ARE MAKING EXTENSIVE PREPARATIONS FOR THE ENTERTAINMENT OF ALUMNI WHO WILL BE HERE FOR COMMENCEMENT.

The alumni of Montana State college will call back to Bozeman on June 14 all graduates of the institution to celebrate, in fitting style, the 25th. annual graduation of a Senior Class. This celebration on June 14 will be in the nature of a Homecoming Day. The local members of the alumni association are working hard to make this first gathering a great success, and they will act as hosts to the visitors. Montana State college now boasts of about 425 graduates, and tho they are scattered far and wide over the country, it is estimated that more than 300 will be present on June 14. Personal letters are being sent to all the alumni throughout the country, and it is certain that a vast majority will make a special effort to take part in this first annual Homecoming day and to celebrate the twenty-fifth graduation anniversary.

The Bozeman branch of the alumni association had a big meeting Thursday evening at the grain room to discuss plans for the celebration. They plan to publish a special alumni number of the Exponent in the near future which will give definite information in regard to the events of the day. A return from the recent election of alumni officers was to have been ready at this time, but because of some delay, the exact results are not yet available.

The no detailed program has been arranged, the general plans constitute a full day that will long be remembered. In the morning the graduates will meet with the faculty to discuss plans for expansion. After a luncheon on the campus, they will make a tour of inspection, and then wind things up with an elaborate banquet at Hamilton Hall, a few novel stunts, (Continued on Page Four.)

At the special faculty meeting held last Monday afternoon, President Atkinson announced the college building program which by recent action of the state board of education, is to begin here this summer. Five large buildings should be started this year, he said, and hope was expressed that the foundations would be completed by fall.

The five buildings to be erected are the main engineering building, first unit of the engineering shops, main heating plant, biology building and gymnasium. The new engineering building is to be located just east of Hamilton hall, across the street car tracks on ground recently purchased by the institution. This building will cost \$250,000, the shops unit to cost an additional \$100,000.

The new gymnasium will be erected south of the present main building, and Hamilton hall. It will be located about where the tennis courts are now placed and will extend south to the athletic field. This gymnasium is expected to cost \$225,000 and in size and general structure will be the second building on the hill.

The new biology building will be built at a cost of approximately \$175,000, and will occupy the space where the drill hall now stands, extending a little north of the front of the old frame building that has so long served as a gymnasium. In this building will be housed the departments of zoology, entomology, botany and bacteriology.

The location of the main heating plant is still in doubt. First intention was to locate the plant at about where the military barracks now stand but change in plans may place it higher on the hill. For many years the State college has been served by two heating plants, an arrangement necessary but not economical. It is planned that the new heating plant will care for the entire set of new buildings.

An additional \$100,000 has been approved by the state board for "repair and equipment" of present buildings, making a total amount of \$1,000,000 approved for the State college. The amount constitutes the largest single building program ever entered into in this state by an educational institution.

Some few weeks ago it was believed that the only buildings to be started this year would be the engineering building and the engineering shops, (Continued on Page Four.)

STOP THIEF HOLDS HOUSE ENTHRALLED

Last Saturday night the college dramatic club staged the farcical "Stop Thief" in a manner that was well worth the praise that was generously given to it by the audience.

Every character in the cast showed talent and a masterful characterization of his part. From the time of the rise of the curtain until it fell on the end of the final act the audience was held by the intricacy of the plot and the wonderful reality of the scenes.

The success of this play is due not only to the untiring work of the members of the dramatic club, but also to the work and time put on it by Miss Lindblom who coached and directed the cast in their rehearsals.

The cast was as follows:
Joan Carr Helen Chase
Mrs. Carr Evelyn Waterman
Caroline Carr Nonetta Noble
Madge Carr Dorothy Noble
Neil Eleanor Marston
Wm. Carr Leon Sayers
James Clung George VanFleet
Jameson William Lippert
Dr. Willoughby Joe Willson
Rev. Spillian Sidney Sutherland
Jack Doogan Alfred Rivines
Joe Thompson Dave Dunavon
Police Sergeant Frank Knight
O'Malley Seth Bohart
Clancy Floyd Newkirk
O'Brien Lawrence Lyndon
Chauffeur Clark Pace

ANNUAL FOR 1921 TO BE OUT SHORTLY

The class of '21 will soon have their Montanan on the Hill for distribution, provided no further unforeseen obstacles present themselves. The entire set of proof has been read by the staff and returned to the publishers and the book should be ready by May 1st, at the latest.

A large number of students who have paid their initial installment on the volume have written in to the staff and requested that they be notified as soon as the book was ready for distribution, so that they may pay the final fee. From these indications it appears that the book is assured of a ready sale among the students and among alumni and ex-students. Business Manager Bradford states that if all the books ordered are disposed of the '21 Montanan will clear all expenses incurred in the publishing.

The class of '21 has encountered more than the usual hard luck in the publication of their annual. Conditions following the war created the first real difficulty in getting any publisher to agree to put out the volume on contract. As soon as this had been adjusted, the next work was delayed by the sudden illness of Mr. Schlechten, the photographer in (Continued on Page Four.)

Miss Quaw Puts Pep In Meeting Of Aggie Club

Last Wednesday night the Agricultural club held a meeting at the grain room of the Chamber of Commerce rooms. The first part of the meeting was taken up with various forms of entertainment and the wind-up turned into a short business meeting. Miss Quaw opened the entertainment by leading the club members in community singing. Mr. Conway played the accompaniment to the numbers sung. After leading several songs, Miss Quaw called for volunteers to lead the singing. Mr. Lantz then took charge for a few minutes.

Miss Quaw also led the gathering in a few simple athletic gymnastics and when she again asked for volunteers to lead in this form of entertainment, Mr. George McFarlin took charge.

Mr. Briggs replaced Mr. O'Gard on (Continued on Page Four.)

The Winners of Cross Country To Get Ribbons

Coach Graves has announced that ribbons will be given to the winners of the first ten places in the cross country run and also to every man that wins a first place in the inter-class track meet.

In the cross country each man who places in the first ten will be given a ribbon with his place on it. These ribbons will be given to all men who place regardless of their class or whether they have won a cross country race in last years. As usual a sweater will be given to the winner of this event tho in the case of the sweater all men who have previously won a cross country sweater are barred, that is, if a man who already had won a cross country sweater should place first in the race the man taking second place would win the sweater and the man taking first would get the ribbon for first place. (Continued on Page Four.)

Co-eds Plan to Hold Speed Hiking Contest

APRIL 23 SET ASIDE FOR A SPEED HIKING CONTEST FROM MAIN HALL TO THE FISH HATCHERY—CLASS AND INTERCLASS TENNIS TOURNAMENTS TO BE HELD IN MAY

April weather and the beginning of a new quarter have doubled the interest in hiking. Nearly every day after school hours, in the afternoon, or before breakfast in the morning groups of girls can be seen starting from Hamilton Hall in hiking togs. Saturday and Sunday are being enthusiastically used for long hikes. In fact most of the girls are becoming so used to walking that a fifteen or twenty mile hike is no longer a hardship but a pleasure jaunt. There has even been talk of hiking to Livings-ton, to Mystic Lake and to the top of Mt. Baldy. The speed hiking contest is to be held the afternoon of the 23rd. of this month, provided that the weather is pleasant. The start is to be made from Main Hall and the Fish Hatchery will be the goal. Judges are to be stationed at both ends of the journey. There should be at least fifty girls signed up for this contest and there should also be some record

sprinting done. In a week or so there will be a blank on the bulletin board to be signed by all those desiring to enter this contest.

The tennis tournament is to be held sometime during May and if the girls keep up the good work which they are starting in this line, it should be well worth while. The class tournament must be played first and the winners of these separate contests will then compete in the big inter-class tournament. Explicit rules and regulations for final contests in either hiking or tennis have not yet been fully arranged for.

Target shooting is also proving very successful and very popular. Actual shooting was started this week and some excellent records have been made. It is hoped that a shooting match may be held before the year is out.

Honor Students For Quarter Announced

SEVENTY-ONE NAMES APPEAR ON HONOR ROLL FOR WINTER QUARTER—SIX OF THESE HAVE "A" FLUSHES—THIS IS NEARLY TWICE AS MANY AS DURING FALL QUARTER

When Professor Tallman averaged up the grades of the students at the college, for the winter quarter, he found that there were seventy one who had an average of over two and a quarter points for each credit that they had earned. Six of these, three girls and three boys, have "A" flushes.

This shows an increase of nearly a hundred per cent over the number on the honor roll for the fall quarter.

The list of honor students in the order of their ranking is given below.

Students making 3 points per credit. ("A" flush).
H. Smith, 21 credits; W. H. Wise, 20 credits; J. L. Hastings, 19 credits; D. Burgess, 19 credits; F. Wocasek, 18 credits; M. E. Marquis, 8 credits.

Students making 2.75 to 2.999 points per credit.

P. A. Willis, G. Mathews, M. Stranahan, C. R. Mountjoy, G. Whitacre,

M. Egan, E. Schurch, K. Cameron. Students making 2.5 to 2.749 points per credit.

R. Elmer, R. Binner, G. Cottier, P. Carnes, F. Mitchell, A. Burgess, C. Schurch, E. Keyes, T. Mechlenburg, H. Moebus, A. Moody, H. Chase, E. Ford.

Students making 2.25 to 2.499 points per credit.

R. McConnell, M. Lindsley, B. Gibbs, D. Dean, K. Kohen, K. Lippert, E. Buckingham, E. Moore, R. Kuhns, V. Willson, A. Luther, W. StClair, S. Hannah, L. Roth, H. Hollingsworth, E. Johnson, D. Ropes, J. P. Holloway, D. Tooteil, H. Tripp, H. Waite, L. McRoberts, C. R. Pace, F. Markin, E. I. Sutherland, M. Burgess, D. Savage, G. Christensen, M. Flannigan.

THE WEEKLY EXPONENT

ESTABLISHED JANUARY 1, 1910.

(Outgrowth of Monthly Exponent, Established January 1, 1895.)

OFFICE—ROOM 1, REPUBLICAN-COURIER BUILDING.

The Weekly Exponent is strictly a student enterprise. Its chief purpose is to present to its readers, each week, an accurate and complete record of the developments in college affairs during that period and to exert its full influence for the upbuilding of Montana State College. The paper is the result of voluntary effort put forth by the students who compose the staff.

Published every Friday of the College year by the staff chosen from the students of the Montana State College of Agriculture and Mechanic Arts, of the University of Montana, Bozeman Montana.

Acceptance for Mailing at Special Rate of Postage provided for in Section 1103, Act of October 3, 1917, authorized February 17, 1919.

SUBSCRIPTION RATE.

Two Dollars Per Year - - - Ten Cents Per Copy.
Students become subscribers upon payment of the regular Activity Fee.

HOW ABOUT A CAMPUS DAY?

With spring here, or almost here, why not revive an old custom at the college and follow what is the custom at a large number of other colleges, and hold a Campus Day or Work Day? Would it not help the appearance of our campus and make conditions much better on the hill if the entire student body and faculty got together and devoted one day this spring to cleaning up the campus and doing several other jobs that would not otherwise be done?

There are a number of things that might be done on such a day. The track meet is to be held at the college this year and the track is by no means in first class shape for such an event. The baseball diamond is not in good shape. The tennis courts are in need of repairs. The big "M" on Mount Baldy is in need of a new coat of paint. These are only a few of the things that could be done on the campus if the students would get together as a body and do them. It would not mean much work for any individual, yet the combined efforts of the whole group could accomplish wonders.

Such a day would not necessarily have to be all work. It could be mixed throughout with fun. In other institutions most of the day is devoted to work by the men. At noon a big lunch is served on the campus by the women students. The last two or three hours of the afternoon is devoted to a big get-together dance in the gymnasium. The result is the accomplishment of a large amount of work and a good time for all.

Why not get together and plan some such event. A great deal of good could come of it. Besides accomplishing wonders toward improving the campus it would promote a feeling of good fellowship among the members of the student body by bringing them together in a common work.

Think it over—wouldn't it be worth trying?

HAND IN YOUR IDEAS TO THE EXPONENT.

For a long time the members of the Exponent staff have tried to convey to the students their needs of, and desire for, contributions from the student body. The following article written by Miss Alice Moody as an English theme expresses all that we have tried to convey and much that we have been unable to say.

If the student body would take this article seriously and hand in suggestions, etc., whenever they can we would have a paper that would compare favorably with the best college papers published.

Following is the article by Miss Moody.

The Exponent wants news from the student body, and up to the present time there has been very little derived from the Exponent box in the library. To be sure we realize that most of us can't write news that would pass muster by the editor, but, anyway, why can't we send in ideas as often as we get them? Shall we expect most of them to be used? Certainly not, but let's not lose faith because once in a while we might give them something usable.

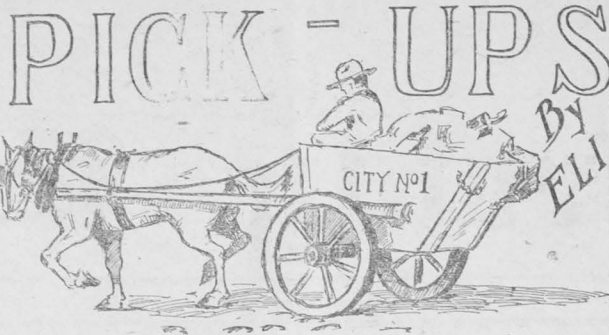

Then for another reason we should lend our efforts to get in news. It is our paper, not that of the staff. Let's begin right now to give them something newsy and unusual.

Seeds for the Home Garden

Our varieties are especially selected for the Montana home gardens, and are the best by test.

Become more independent on all sources of food supply by having a garden of your very own, and with fresh vegetables at all times. Try our seeds this spring.

Owenhouse Hardware Co.

Much as it is against our policy to go back into ancient history and dig up scandal that is old and grey, we are going to do so today. The campus Scout reports that on the night of the Shorthorn play he was wending his way across the campus old when he ran into a well known college couple trying to keep a small portion of said campus as warm as possible. He said that scene was touching—yea, even pathetic. The preliminaries were fascinating and the final clinch was terrible. Now we cannot give any names and especially of the girl since we do not know her so very well. We are, however, going to make it a point to get better acquainted as soon as possible. The boy is a long drawn out chap that spends a lot of time around the O. B. house. He made quite a rep last year as a debator. No I will not tell you who he is.

But Sid why did you do it?

Can't speak my devotion—
My knees are too quaky.

Can't write you about it—
My hand is too shaky.

Can't say it with flowers—
They cost like the devil.

But dippy about you?
I am, on the level.

Tragedy In One Scene and Three Acts.

Scene: The clothes closet in a mansion in Chelsea.

Act 1—Fall.

Hermione hangs up her bathing suit for the winter.

Act 2—Winter.

Enter Moth into closet.

Act 3—Spring.

Empty closet, gorged moth lying on floor.

There's a girl at Hamilton Hall who knows all the rare bits that are to be known as soon as they "break". Perhaps if Ruby Swanson would put some of them in the "dope box" and then remain silent until after Friday noon the rest of the crew at Hamilton Hall would enjoy the scandal in the Excuse a little better.

This is not a Hamilton Hall edition but while we are on the subject we might as well shoot our wad. When the grades for the various groups of college women were figured up for last quarter the Dean announced that next quarter the "Last shall be first."

Lola Reed and Clarice Kinnmouth decided that they wanted a ride the other day so climbed into a Buick parked in front of the main hall. Just as they had the engine started Prexy leaned from the window and requested that they have it back by five o'clock so that he could ride home.

Last week
In Helena we
Were walking past
The Placer Hotel
And standing there
In silent dignity
Stood a familiar figure
In a top hat.
He was also ringing a
Bell.
When we said
"Howdoo Mr. Atkinson,"
He batted not an
Eye but went on
Quietly ringing
His noisy bell.

Our old friend Harriet Streeter thinks that L. G.'s kisses are almost too luscious for anything. Of course it was all on a dare but you should have seen the jealous glances cast by Alice and Paul.

Miss Lind—
Says:
"If you want anything
You will have to
Ask for it."
And there were
Three girls
In the class.
When I want
Anything I don't
Ask for it—
I take it.

Stand back boys and quit crowding.

Here is a puzzle for you: Dot Noble was fixing her hair for "Stop Thief!" Those of you who saw it will remember that there was quite a considerable of it, and Dot not being as bountifully supplied by nature as the make-up required had borrowed some from one of the cisterns. A voice from the other room, "Dorothy, bring back my hair. I have a date tonight". Now three of those who are fixed as Delilah fixed Samson lived at the house and only one of the three had a date. Question: Whose hair did Dorothy Noble borrow?

One dark and stormy
Night two little
High school
Boys
Were out raiding
Ice boxes.

Their wanderings took
Them to the
Back porch of the
Chi O House.
A discussion was
Going on in the
Kitchen in regard to our
Story of two weeks
Ago.

The girls wanted to
Win the hand-painted
One, offered to the
Person who could
Unravel the mystery
Of Shorty
Sutherland's
Point.

They had discovered
The point
And discovered
The nick-name
But they couldn't
Discover the
Significance.

Baby needs a pair of shoes!

It's a horse on us. We can't either.

The other day at dinner Z. F. was presented with a couple of cans of tobacco. Tommy Astel was the presenter. Draw your own conclusions. We personally thought that Violet Milos were the Hamilton Hall favorite. At least that is what local cigarette dealer told us. Evidently somebody's is "rollin' their own."

COLLEGE BRIEFS

During the past week, the engineering building has been invaded by hosts of technically inclined co-eds. Most any time during the day some of the members of Professor Plew's class in house planning can be seen wielding architect's scale and a T-square in the draughting rooms. Professor Griffin, instructor in Art Metal Design has a class of 17 girls which meets with him in the engineering building and shops. This course is an elective, whereas the course in house planning is a prerequisite for graduation in the home economics course.

Last Friday evening several wireless messages were sent to Butte for some of the college students. On the same evening some of the more interesting parts of last week's Exponent were sent to the amateur operators of the state. These operators, most of whom are high school students, are very anxious to receive these college news items, which are sent out each week.

The local branch of the American Society of Mechanical Engineers held a short business meeting, followed by an illustrated lecture on four wheel drive trucks, in the lecture room of the engineering building, on Wednesday, April 13. Chairman Willis mentioned that in interesting moving picture on blue printing and similar processes will be given at the next meeting of the mechanicals.

Plans are being made for the annual inspection trip which is taken each spring by the upper class in animal husbandry. During this trip, which lasts about a week, a large

LANGOHR'S Green House

PHONE 95.

315 So. Tracy

number of the most important stock ranches of the state are visited. This trip supplies a practical and instructive supplement to the course in the judging, feeding and management of livestock.

The members of the animal husbandry class are preparing circulars for distribution among the Boys' and Girls' club sections of the high schools of the state. These circulars give instructions for the care and management of beef cattle, sheep, and swine which are entered in these club contests.

COLLEGE TO HAVE VISITORS DAY

A faculty committee, which met last Monday, outlined plans for the program for May 13, the day set aside as Visitors Day, which is held annually at the college for the purpose of allowing the students to become more familiar with the work of the other departments and to offer an opportunity for the people of Bozeman, together with the people from the other parts of the state, to become acquainted with the college faculty and students.

On May 13 each department of the college will give exhibitions and demonstrations. Some of the events so far arranged are livestock shows, livestock and grain judging contests, spectacular demonstrations in the engineering laboratories, a military review, and perhaps a sham battle, by the R. O. T. C. cadets, and athletic events.

The American Football Coach is asking that he be given more say in the formation of gridiron rules as we notice from a clipping we happened to run across.

UTAH-MICHIGAN DEBATE

Word was received on Wednesday from the Michigan college saying that she accepted April 26th. as the date for the Utah-Michigan debate. This will be the longest trip our Aggie debaters have ever seen.

The debate will be unique for at least two things; it will be held without judges or decision as is the custom now in Michigan, Wisconsin and Illinois; and an open forum will be conducted after the debate in which everybody present may take part.

ALFRED ATKINSON, PRESIDENT

Bozeman, Montana

BUILDING PROGRAM

(Continued from Page One.)

with the heating plant as a necessary addition. The plans for the engineering building; as far as the engineering faculty is concerned, have been worked over for some time and tentative plans are ready to turn over to the architect. Other departments which now find themselves in way of immediate new buildings have not made as detailed plans, and some time will be spent in working out the building ideas of the heads of the various departments and in getting these plans into workable form for the architects. Fred F. Willson of Bozeman is the architect in charge of drawing for the new buildings.

Faculty members at the State college have been enthused since the announcement of the big building program for the year, and the student body has rejoiced at prospects for immediate buildings to supply pressing need for additional floor space. The buildings will be ready for the autumn term of 1922, it is believed.

Word from the state capitol at Helena is reassuring. One high official is said to have predicted that the State bonds that will provide for the new buildings will be sold without trouble this summer, and that this phase of the building program is not worrying the State officials greatly. The State college here and the university at Missoula will spend the same amount this year for buildings. Money to finish the metallurgical building and stadium at the State School of Mines in Butte was voted and an amount for repair of buildings at the State Normal college at Dillon also was approved.

WINNER OF CROSS-COUNTRY

(Continued on Page Four.)

The winners of the first places in

each event of the track meet will be given a ribbon acknowledging their prowess.

This is an innovation here that should tend to greatly increase the interest in these events.

1921 ANNUAL COMING SOON

(Continued from Page One.)

charge of the photographic end of the work. After much manipulation on the part of the staff, the preliminary work was finished and the dummy forwarded to the publishers, whom it never reached, being lost in transit. A new one was prepared and the work proceeded with until a strike in the engraving departments in the east stopped all the work. No sooner had this been adjusted than the printers walked out, causing another long delay. In the meantime the members of the staff could only sit back and wait until such time as the Fates would see fit to allow the work to proceed. At present it looks as if their efforts would soon be rewarded, though the publishers have wired them that unless the volume is out by May 1st, they may expect further delay as another strike is becoming more imminent each day.

ALUMNI PLAN

(Continued from Page One.)

and an informal dance at the drill hall.

It might be well to mention at this time that our alumni are responsible to a great extent for the success of the bond issue, which made possible the recent appropriations for the erection of five new buildings on our campus. Furthermore they are the promoters of the students loan fund which is helping several students thru school.

Senior Men To Appear In Derbies Soon

The graduating seniors held a meeting at the Phi Gamma house Wednesday evening, April 14. They discussed plans for graduation and made arrangements for coming events.

Among other things the following motions were voted on and passed:

Senior men will wear derbies and carry canes beginning May 1.

Beginning May 1 seniors will appear in assembly in caps and gowns.

Bishop Faber of Helena was chosen to deliver the baccalaureate sermon at graduation.

The class will hold a picnic June 13. No place has yet been definitely decided upon as yet for the picnic.

A committee, composed of Ernest Robinson, Chairman; Dorothy Ropes, and Harold Eaton, was chosen to make arrangements for class day.

Sigwald Berg was elected treasurer of the class to fill the vacancy left by Steve Pierce, when he left school.

MISS QUAW

(Continued on Page Four.)

"The Homesteader," and the "Old Timer."

The program was closed with a debate between members of the Sophomore and Freshman classes on the program reading two selections, subject: "Resolved, that the tractor is more profitable on Montana farms than the horse." The negative, upheld by Freshmen Ross, Bell and Searles, won the unanimous favor of the judges. The affirmative was supported by Mitchell, Paugh and Dunavon.

At the short business meeting following this entertainment the plans for the next meeting's program were discussed. This program will consist of a contest on parliamentary law between members of the two lower classes. There will not be any teams chosen, but all members of the classes at the meeting will be expected to enter into the discussion.

Plans for a club picnic to be held the first part of May were also discussed and Robert McConnell was appointed to look into this matter.

All members and guests present were supplied with smokes by the club.

UTAH AGRICULTURAL COLLEGE

The Utah Agricultural College held its third annual cross-country run on Wednesday, March 29. "Chick" Hart, last year's winner again took first place, running the 2 1-2 miles in 13 minutes and 11-5 seconds. Forty others entered the cross-country run.

PROFESSOR JENNISON PURCHASES FARM

The many local friends of H. M. Jennison may be interested to know that he and his brother Robert have purchased a fruit farm in Flathead county. Mr. Jennison has been a member of the faculty the past few years and has rendered valuable service to this institution during that time.

ELK'S HALL SECURED FOR JUNIOR PROM

The Elk's hall has been secured for the Junior hop which is to be held May 28. During the year, because of a ruling the Elk's made, to the effect that they would not rent their hall for any occasion, no dances have been held in this hall. They have relented because of high up-keep of the hall, enough, at least, to allow this one dance to be held. This is the only really suitable place in Bozeman for a dance of this kind as the other hall's, Davis and Electric, are not at all satisfactory.

REVEREND KLEMMER OFFERS ASSISTANCE TO THE COLLEGE

Rev. Klemme, free of charge and on his own responsibility, has offered a course in pipe-organ playing to the advanced piano students of the college. The class which is composed of Katherine Keown, Valberg Revines, Ester Garry, Isabel Brook Janet McDonald, and Millard Peterson, meets with Rev. Klemme for lecture instructions once a week at which time he assigns a period when each student may practice on the pipe-organ at the Presbyterian church.

Rev. Klemme has always shown an active interest in the activities of the college students and has made numerous plans for their benefit. He is a talented musician and realizes the importance of music to the college student. For these reasons he is able to give valuable assistance to the students by offering this course

We were rather interested in an item that appeared in the U. A. C. Student Life a short time back, telling of the state championship games in basketball over there. The part that really took our attention was where it mentioned the fact that Floyd Romney was the star of the series. This should have a particular interest to us here inasmuch as the man is but a young scion of the Romney family who helped make athletic history at M. S. C. a few years back. Probably no other family has as long a string of athletes as the Romney family, which is quite a distinction.

FARM ACCOUNTING BOOK TO BE PUBLISHED SOON

"Farm Accounting" is the name of a new text book which is being prepared for publication by Dr. N. J. Lennes, professor of mathematics at the University; A. S. Merrill, associate professor of mathematics at the University and E. I. Currier, professor of farm management in the Montana State college at Bozeman.

The book is designed for use in the rural high schools and agricultural colleges of the country and will be accompanied by entry blanks and general information for the keeper of farm records and accounts. It will be ready for publication in June.

According to Dr. Lennes, the agriculture colleges of Minnesota, Wisconsin, Cornell, Iowa, Montana, and Illinois are co-operating with the United States bureau of agriculture in teaching of this subject in the schools is still in its infancy," he said, "and there is as yet no text book on the subject written from the point of view of the expert in farm management and farm accounting. It is most fortunate to have Professor Currier as a collaborator on this subject. His standing in this respect is best shown by the fact that he has been chosen by the United States government as one of six prominent workers in this field to assist in perfecting a system of farm accounting."

STATE COLLEGE OF WASHINGTON

State College of Washington, Pullman, Washington, March—The call for spring football has been well answered, 43 men being now at work under Coach Welch. Besides this there are many that are out for baseball and track. Most of the material is for the line with many of them from last fall's frosh squad.

Coach Welch feels that spring training will be a success and says that the material that he has to mold next year's squad from is equal to that of any school in the west.

EX-BRUIN PITCHER LEAVES

Missoula—Herbert Vitt, '20, of Butte, has withdrawn from the University on account of poor health. Vitt left for Butte Friday morning, from there he will go to California.

Vitt has for four years been a member of and three years captain of the Grizzly baseball nine. His regular position has been pitcher, although he often played shortstop and first base.

M. S. C. LOSES A MOST ACTIVE SUPPORTER

One of the most active students of M. S. C. has left for California to enter the summer sessions of the "U" of that state, at Berkeley. Miss Helen Haller was one of the busiest and most loyal co-eds of M. S. C. and her absence will be very keenly felt by not only her sorority sisters and the many friends she formed while here, but likewise by the many activities on the hill in which she took a very fond interest.

Miss Haller took part in more affairs, probably, than any single individual on the hill. She was very seldom seen standing anywhere for more than five minutes unless it be with a certain individual well known by all.

Miss Haller was a member of the Student Senate as Commissioner of Interests Social and served very well in her capacity.

The Y. W. C. A. was fortunate in having her as their President, in which position she was ever ready to assist where aid was needed.

Her musical ability as pianist in the college orchestra and the many recitals given by her has been very much appreciated as well as her work as instructor in piano in many homes of Bozeman.

The Treble Clef and Chorus will miss her ability very markedly.

The services of Miss Haller as Social Director of Hamilton Hall has been a chief factor in keeping the social affairs of the hill centered there among the girls of the Hill.

The Baptist Church will feel her absence as an organist in which position she always acted responsibly and

most loyally.

Miss Haller was also a student of which M. S. C. might always feel proud and the professors whose classes she attended always spoke highly of her as an industrious and painstaking student.

Besides her regular college work and all of the above activities she was a prime factor in her sorority, Chi Omega. She also found time to serve on many committees and was always ready to help anywhere that her services might uphold the high status of Montana State College.

Finally to judge from the foregoing one would think that Miss Haller would have no time for the pleasurable side of life, but nevertheless she found time to entertain one certain individual who no doubt feels more proud of her than any other or all of us combined.

Miss Helen Haller, to you, M. S. C. bids God-speed; and equal, if not more, success in your future location at the University of California.

ARNETT REAPPOINTED TO STATE FAIR BOARD

C. N. Arnett, vice dean of agriculture, has been reappointed, by Governor Dixon, a member of the State Board. This board has general supervision over the exhibits, awards and management of the State Fair. Other members of the board reappointed were Sid. J. Coffee, of Missoula, Pat Carney of Waterloo, O.S. Warden of Great Falls, and J. P. Kuehn of Helena.
