

ball-ray-2015-07-21.mp4

[00:00:18] My daddy's name was Andy Rooney said Andy he should go and grow up in the mountains a lot more people to be efficient. A few days camping out. We'd love you to bring Ray with a foreign leader. The official show would not pay off the upcoming album are finished. With the brand not much. That's all the time I ever got to Trout creation. I loved it and ever since that time that man's name was Scott Harmon. And ever since then I've read everything I have had a warm place in my heart and reach laughter Tombaugh flash not really a picture. Peace of Mind me to go to the river. And preach with other people. I really enjoyed watching it. But if you doubt the myself they'll. Hit him. He'll. Take more from his organic creation induced it just does something to me. I can be tired more out of the real world and I. Come hopefully. To. Well.

[00:01:28] Some reason or other at least I care what I like the most. I like a little speck or drought or back in that case and rainbows. The Braille genome now lower. I'll have to go back to normal. I've always had a warm place in my heart that will affect the drought. Cheryl was back the drought broke out. Yeah yeah but true. And I just I was moved to collect. I feel it cold bread. They go in tighter miter heat factor. I'll get it with somebody I guess they can figure out pretty good. I know that gave you a few pointers. I know that one time when I was pretty sure I was doing a good catching fish in this old lady they told me so I should I want you to help me out with your kitchen blast fascia. He said right. He said you're trying to push too far away from you said push comes to you issues dismissed drag drag only block in the mountain which you know and that very day I started I was wearing this little bitty Porter somebody could be cheering if you listen to a lot of people note you know you can't tell.

[00:02:45] I was willing for that man to try to help me tell want to do to do better with this issue. Cause I know he's doing so much better meet his neighbors make life. And leave. He told me that he would believe what a difference I've made in my patient his boy who helped lead a tough life and showed me. And of course I got my hand on the weather map and no fingers. But I've worked it out loud and then I would tell someone by the guitar on a piece to say five or six white people would have to wait. In the mail. Until two or three or no bigger than a bold color that big loud is hard to control and they a little hole in the mountain. Now like a smaller all round the world and the drill. We never thank all the traveler and we enjoy everything on the Metro everything on the nail wet vision.

[00:03:40] You don't get a good draft. You get your major shareholder Mark. And. I've told you about last time I tried to make a pitch they should get the full force of the Christmas. I don't like people that during childhood. I don't like to hear people first. All. I'd like to know how good a time you don't want to say some of the best friends I've got. You're right. They don't feel real great about late. They know I don't approve. But I wish I go in the mountains to enjoy myself and not have to put. You know I had a good friend Ted marsh that I faced with people a great man. He learnt a lot about time flies. He bought me a lot about the fishing and leisure Ronnie Jo way peaceful.

[00:04:35] He was very experienced matter of fact he went to the White River in Arkansas and was coming home. I got to see Dad coming home and we had failed to deliver on fish to him. And I've learned a lot of little boys at church to go to church. I like to go to church history board to the mountains and his creation try to help him get him started some shot later Charles. I think really that she improved the retail patient the. You know for years and years they had closed what you could do a background and that girl might not be a scientist named Jack what about. The man you just talked to. What was your name. Can

you take care of it now. Steve. Yeah same or more of them two founders have got it opened up or we can expect crowd reach and do it legally. And I'm really proud of what they've done. But Guy I don't know. One time one that really sticks out in my mind. This old man little in your neighborhood really harsh. And he had. He was old and getting feeble. He seen me one day and he should Ray I'd love to go back in the mail for our PAGE ONE more time before I die. And so I so I must take Shall I call one of his boys. His name was dangerous sat down through the old adage all put back on the mountain for our faith should be in before he died. And I said I want you to go away. I wish I could have some happen to border with it you know. Help me get him out he's in his 80s.

[00:06:29] And only half back home Porter's Creek that you bring Brock. Then what works Justine. When I left table that had pushed up on an old tell say. Grecian. Taters. No new cornbread made of. It. He said I'll stay right here to come back. So we had his board. And he had another boy where was he. I was born her. So we wouldn't count much Finch. Go back. We fried Neil and that old man with one hand. You mean to make me happy if I can make somebody else. But it makes me feel good sheriff. You know it's better to yield it is the machine. That's. That is true. That is it. It is always been a joy to me to take your money and help cut out for me. It ain't been six major ago. Each from Indiana. He never called the trail. He should have faced you two through a year and. I think it will issue that you have not done yet. Ah so I've told you I haven't kept you from college first trial and come through for. And then he's come back again and it made me feel good to help that man catch his first train.

[00:07:42] To leave him easy for ready to talk about it is never finished and they will get you. I like to try to help. You I want to do. Challenge to me it's a big challenge. To me it be like. A. Bullhorn for the bow or humble to go you know 90 percent of the station are doing the real job drop a Irish flag and column a sacred web on Russian good colors the mother load and lead to full page. Will that drop a little to see a future. It will be Thursday or Friday. And it's a challenge it or harder. I think kitsch probably washed the feet of Neil oh gosh real good flowers that I have learned how. How did you. Catch all fish. I appreciate older but I enjoy the challenge of capture more drop like. So much water. You've done enough to see this drop like. A. World. Get your nose up. You know. That just like Turkey. Some people gather on the farm to shoot Turkey after the winter when you get out far and you. Will no one do it like this totally. It's a challenge but it will follow when you get to share with anybody to worn out the weather that you call it Journey. Feeling good about weight and you enjoy your.

[00:09:19] The year warned especially and I've got it mounted and a lot of there was an old man told me what it was like to hold a water way back in the mountain. And he said you can't get it out in break your life. He said between culture at all times and it always will round something regular. And show a piece of that fish beat in our 3 4 year. And so I decided I was going to try to catch him so I went and I called him and I thought I had it. I thought I had it landed and this whole water would just like to a mother want to be cold water but it wouldn't the river wouldn't it be in this fish. My do life Rose and wrote my life. And that broke the whole Labor line up. You know. If and this is about height. We see it. What he told me that you know but anyhow I've got a fictional show. Now I was near a patient nation trying to get you know to drop plan and. Pull through a few times you know and I was getting ready to leave. And I pull my. And they were loud. Oh my hook and I felt a little more dirty. And that might lead that beach. So I'd tap that learned to my cut who called the fluff. And tighten up on it and he moved eight feet. And I got it. I know that what natural that it has something.

[00:10:51] Yeah yeah. He was here right in behind in under a rock. I pulled only that Booger come out of it and I got it out and let me off. I was really proud of that. That's a pretty good story. Was that a brown or it was a lush green bike right. Yeah pretty smart one I guess. I was small it was big. And. I find. I find. In my ma dissipation being stopped. And hit with rolling up creek bed. Well I guess this pressure is on my wall now. It is twenty four inches long. Right. While that's a man in the world I've reached in Mogadishu. Oh yeah. Oh my God all my life goes on a date. But I fish for 15 year or more 50 year off keys to the middle. Not have never called a Rainbow trail. About an idea for a nature property in the mountains would be the vision that would come. To me. Well we train along little river. It's a trophy to absorb enough culture not brain on board and hold literally a relation hold over our shoulder. All the politicians these border towns are called it the ball Oh and then another place they call it the ball wall. Yeah. Just because they don't enough called Big Picture very narrow very nice lift.

[00:12:17] I don't catch as many big fish as I could change if I was named fish. Oh sure. Big Fish still come up over drop large I tell them to shoot teenage Braille tornadoes either a storm the rain thunder blossoms and count shapes tending to break down a wardrobe that evening. But. 16 age Brown as you can Brown catch every drop. Not colored another note a drop off color to big brown on top about not take twenty eight for a drop fly at my last. Job. Most of you know is a wolf not a keeper Shahs of Detroit and you start take a look at each. Well this should tell you the truth I'm told a place I've never really had off duty each year to have all of this. Sure when you're born and raised here and I never got to get to go along like you know and preach. I've had the opportunity to go. But I didn't go. I've only managed really old one official career away from here. Really a patient. Me and my wife went to Yellowstone National Park and our culture perfect patient to not laugh. I did. There was no patient. Nobody's allowed a dirt and a patient in a place that the biggest shock can't enter our. Lamar we ever had. They were two buffaloes. Buffalo. They put me across the river.

[00:13:52] And so I was not until a Lamar bridge I went down the river around that big band wagon and there was an old man told me I should watch my tracks you Jack. You run into a grave. He said you ain't got no problem said during the hot water. Now stick watch him bash. I said water marsh. He said I think you called Buffalo. And showed up I was to come out only to old bull. And.

[00:14:17] I got across the river and got into a big rock. Got away from. That. I guess because I like it here. Born and raised I know about Amos Greenwood Peter Lawlor I never finished. It was graveyard. Not. In the blog. Have. You found tracks on the menu. Create your show Fat. Yeah real familiar with the Lamar I'm only about 45 minutes from Yellowstone. You're kidding. So I've got fish back quite a bit like I've done. I've driven to Buffalo stuff across the river. I will make more and more of you and one oh no. Yeah and I filed for waterboarded. It wasn't much for you dream read that buffalo that had leaked but town how they call it cut me off. I got a large strike belt lock in early October. I shot. Catch. And I was using the ATM. I put a piece of flour over the net what water it would like pocket water and I put a number coil. I had a problem and they needed. An ounce of patience. I would beg Matt Lauer paged over what to call it Rocky them. Yeah either I work from across that Rocky Mountains down the shot. Of patient Craig shallow water that comes straight from trial. Yeah yeah yeah. That's one of the nice things about there is we got rookies cut through Yellowstone cut through West love.

[00:15:45] Browns rainbows and good variety. It took a lot for me it's usual for freedom of press. Hey I got it wrong. Oh yeah yeah. Yes. South Dakota. Yeah. Mount Rushmore. We

lift our we finish some rehabilitation to our operation to create I keep faith with my BlackBerry over from everything you hear. It show you pretty close to that. Probably right there in black hills yellow black truck and a cold Brown trail and rainbows. Is in for their brown family with just about twelve weeks to enjoy reassured that they will not leave football for their fans. We I would disagree like you. I don't know. About deflation. Sure. Who are you. You should be really extremely patient. Oh not be happy. Excellent. Well that's a fair answer. That's a fair answer. Yeah. I would you to take my. George I'm not the left. Well sure. Yeah yeah yeah. Well it's variance. You disappear. We have.

[00:16:59] Fly Rog and we fly. Not only. No I don't think we're doing all right. I think every time I turn around they will reduce tax on the telephone. And they don't they don't. And their mommy and daddy's nanny percent of all I talk about appear to play a mom. Some sports sports and dad is don't take a facial. And so though we're losing you do you get to be appreciable with 90 percent of going the other way. Sure. I get to drink. Yeah I can type some a little kitten outside. I won't take your boy fishing. Oh he can't reach our practice man. You see it that just wrapped up in her passport. Tell that to. Yes I do. I think they do good work. They look like they've done well. I've had large. Bleed to different from Tom. Crowder limited. They of the Little River Outfitters A they haven't they have put on a big table and armor. Let me tell you exactly Rob that they raised bacon about seventy five thousand dollars two different times. Some boy you could actually do. I can eat you know not even another gather you know literally around. They can take you away up to accept without knowledge. I believe they had me up to Craig's arm and killed Wolf and another guy out of Pennsylvania game.

[00:18:46] Thanks for your time. But I talk to feel and people. He was really. I really liked him. His name was Joel hopefully. Yeah yeah yeah. He showed me a cast. That I don't know really no cash but I did. Tell me about it. You know. Look this other man had seen him doing it. He told me to warn I told you about Ron and your wife. Yeah. He had seen this man do they call me to tell well that my Birdie colored parachute can you know with your craft and stop your bar higher and higher your name. You stop if you get bounced back straight down. And he said he's only been a day that cares and more hit words with the patient in the tail water or back. If you get started drift out of it with. And Joe Humphrey. He talked to me. But we seem to be talking much out of proportion. You know he just talked to me. You should. Good man a common man and that unguarded you said something about left Ukraine. Yeah. Laughter. He is great Castro.

[00:19:54] He's a great man. He didn't have time fooled. Oh he'll be a likely soon. You know he act and people think he know my shame level Colombia's country now I watched him feed hostage. He had more patient. He's a heck of a caster lefty. Yeah. Yeah. You know I can't care. Yeah. Joan Walsh too. Joan also as good as they get. Yeah. Oh yeah. Aw come on Joe. Look I'm the real freak. She will stay. At a place and I'll call it normal. OK. And she did she said are you doing any good. And I said well I've pitched a few you know. And I showed him a love not just as not as I can be. I thought you did some old lady you want to talking about patient well three days later I'm going top line and getting to work adapt our convention does. Not carry much stuff and earn a total stranger follow putting in all the joke you told me. Tell me do the numbers that will look they stop they so who is that like. I said I've seen Girl river birthday and I said that Joe busted I don't know. No not no matter I said natural the restoration she wanted the world.

[00:21:10] Oh well I'm blessed. She never told me that. Yeah I know what I'm saying. Yeah. She never said I could care. She did. She said You just have a nice day buddy. Sure enough she could be. Yeah yeah. I've met her. She's she's a very pleasant person.

Very nice. Now she sure is. Yeah. And I mean they all got Jim Flowers that. Called the clouds remainder of bald clouds. Give me your go. Oh yeah. Yep yep that name brings value. Maybe if enough time to fly like that. He showed how tough the bulls are to get in touch or fall down and not do good on I'll get out. So how did the people that I've seen time in the light industry get me people top like you you don't go to the beach where they come to me and they stay right where you go. They talk like a liberal. I said Yeah I'll go. And so. They do a lot of these old male people. Sure you did. I've learned a flowers from the parachute floated out of the car. I've got a certain way to ductile and fly and tie off on the poles I've come up a few times that I have learned on my own I guess because I'm a cripple halon but I can tell you parachute father will get you feet. You can progress you good. Yeah. There's German.
