Aline Ngom/Interpreter [00:00:36] [Speaking French.]

Aline Ngom/Interpreter [00:00:37] I come here with my father. Look, this guy, you know, asking me one day, give me outfit and tell me. Let's go.

Aline Ngom/Interpreter [00:01:11] [Speaking French.]

Aline Ngom/Interpreter [00:01:12] So you can say it is a family thing my grandma, my granddad, my grandpa was, you know, was a fisherman my dad fisherman. My grandfather who got me in the business lived over there and anytime he give me transportation fee, money for breakfast, I just take all the money and get transport and come here I did it time and time again he decided to get me the put me in the boat and, you know. And just send me with them.

Aline Ngom/Interpreter [00:01:43] [Speaking French.]

Aline Ngom/Interpreter [00:02:05] That's my own choice. That's the job I like most about, you know, since I was nine years old, I will spend all the time coming here. So the job is something I really like.

Aline Ngom/Interpreter [00:02:37] [Speaking French.]

Aline Ngom/Interpreter [00:02:38] It's a pleasure catching a fish especially a big fish.

Aline Ngom/Interpreter [00:02:46] And also making life from this.

Aline Ngom/Interpreter [00:02:47] [Speaking French.]

Aline Ngom/Interpreter [00:03:11] So the biggest fish I caught was 62 kilos. And we managed to put it in the boat.

James Thull [00:03:18] Wow what kind of fish?

Aline Ngom/Interpreter [00:03:18] [Speaking French.]

Aline Ngom/Interpreter [00:03:18] It's called leach in [Speaking French.]

Aline Ngom/Interpreter [00:03:18] [Speaking French.]

Aline Ngom/Interpreter [00:03:54] For example, he goes sixty seven kilometers.

Aline Ngom/Interpreter [00:03:57] [Speaking French.]

Aline Ngom/Interpreter [00:04:04] The water tempatures are changing normally now it is supposed to be not so hot but the fish are not coming because it is not normal right now.

Aline Ngom/Interpreter [00:04:04] [Speaking French.]

Aline Ngom/Interpreter [00:05:34] It's good. It's not good.

Aline Ngom/Interpreter [00:05:36] It's good because right now, if you have a case of fish, it's the value is good right now. But there are not enough fish. The fish are not there.

Aline Ngom/Interpreter [00:05:49] [Speaking French.]

Aline Ngom/Interpreter [00:06:41] So maybe fishing diving. Used to be banned. Because the divers They go where the fish are breeding and kill them there but it should be banned again.

James Thull [00:07:21] Are they netting?

Aline Ngom/Interpreter [00:07:21] No they dive sometimes they have the guns to shoot the fish.

Aline Ngom/Interpreter [00:07:21] [Speaking French.]

Aline Ngom/Interpreter [00:07:22] The second factor is the big scale fishing nets that go further and don't allow the fish to come in close where the small fisherman can catch them.

Aline Ngom/Interpreter [00:07:23] [Speaking French.]

Aline Ngom/Interpreter [00:08:29] So it depends on the species we have. There are some middle men they have the first choice to buy what they want then the rest are sold in the market.

Aline Ngom/Interpreter [00:08:33] [Speaking French.]

Aline Ngom/Interpreter [00:08:57] Grouper, Tuna, various fish species.

Aline Ngom/Interpreter [00:09:17] [Speaking French.]

Aline Ngom/Interpreter [00:09:17] Red Tuna.

James Thull [00:09:17] Very Strong? Good to eat?
