[00:00:10] For the science the problem is its never going to be with fashion. I started fishing in Minnesota with my father. So for me it bring back memories of my father. I learned to fish outside of madison.

[00:03:03] I do not really I fish for brown trout but they were introduced. When I fish in Idaho it is for Cuts.

[00:03:35] My friends fished when I was a little boy for walleye. I learned to tye flies when I was young and always enjoyed it.

[00:04:12] All of those are bog concerns One thing about Wisconsin is the fishing is good because of organizations like Trout Unlimited. I am concerned about pollution and overfishing.

[00:05:04] I think it is very important. It is one of the things that has bipartision supprt.

[00:06:41] I did see the quality of fishing improve. I have fished some of the best water in the USA. I am concerned about the long term effect. .

[00:08:19] I fished the Copper River the one Jimmy Carter fished.

[00:08:59] Dry flies.

[00:10:06] John Geirach and Ted Leeson.

[00:11:08] Very Important. It is not just about catching fish.
