

GRANT APPLICATION FORM

1. Individual(s) or organization presenting proposal. Montana State University
Libraries

2. Project Title. Trout + Salmonid Collection

3. Project Director. Bruce Morton

4. MTF funds requested \$5,000. Matching Funds \$~~12~~⁵,000

5. Proposed dates of project July 1, 2003 - June 30, 2004

6. Project participants:

BRUCE MORTON, DEAN OF LIBRARIES
Name/occupation Name/ occupation

KIM ALLEN SCOTT, SPECIAL COLLECTION LIBRARIAN
Name/occupation Name/occupation

7. Experts in the field(s) of the project who have helped plan it:

BRUCE MORTON, MSU LIBRARIES
Name Professional affiliation

Bill Lilly
Name Professional affiliation

8. Executive Summary: Please attach an executive summary of your project which is complete enough so a reviewer can fully understand the project.

Boilerplate

9. Evaluation: Include in your proposal narrative, the specific ways that you will assess the results of your project. Your evaluation procedure is a critical section of the application: if funded, a significant portion (30%) of the funding will be withheld until MTF has received your concluding report, budget statement, evaluation, and a one-paragraph abstract of the work done. (see item #2 of the AGREEMENT in Proposed Budget).

VITA. MORTON.

10. Whenever appropriate and possible, you should include copies of *curriculum vitae* (especially one- or two-person projects) to strengthen and to facilitate judgments of the competence(s) being brought to the project.

11. SIX copies of your complete proposal must be submitted. MTF cannot review proposals, which do not meet this requirement. Whether or not you include the original copy is optional. Send all copies to: E. Richard Vincent, Montana Trout Foundation, P.O. Box 3165, Bozeman, MT 59715.

Montana State University-Bozeman
REQUEST FOR PROPOSAL APPROVAL AND SUBMISSION

Pending # 403-63
\$5,100,-

1. Principal Investigator(s):

Table with columns: First Name, MI, Last Name, Banner ID#, E-Mail Address, Extensor. Row 1: Bruce, Morton, 418001, bmorton@montana.edu, 6518.

2. Administering Department:

3. Proposal Identification:

Proposal Title: Trout and Salmonid Monographs Agency Solicitation # or Program Name: (i.e., NSF 02-2): Montana Trout Foundation Grants
Type of application: [X] New [] Continuation #

4. Agency Due Date: 2.20.03

Agency Name: Montana Trout Foundation New Agency: Yes [X] No []
Project Begin Date: Agency Address: P.O. Box 3165 [] Federal [] State
Project End Date: Bozeman, MT 59715 [X] Private [] Other University

5. Reviews/Certifications/Assurances

This proposal has been reviewed for IRB activity. (Department Head initials certify that all IRB requirements have been met according to MSU policies.)
Does this proposal involve any of the following activities? (If yes, certification signature must be obtained from the appropriate committee chair.)

Table with columns: Activity, NO, YES, Certification Signature, Date. Rows include Human Subjects, Animals, Controlled Substances, Radioactive Substances, Recombinant DNA, Infectious Agents, Biological Toxins, Select Agents, Hazardous Materials.

6. Proposal Checklist

- YES [] NO [X] Will the project require renovations or modifications to current university facilities or additional new space?
YES [] NO [X] Do you as PI, any family member or any of the involved researchers or their family members have consulting agreements...
YES [] NO [X] Does this proposal require any course/curriculum changes or additions?
YES [] NO [X] Does the research involved participation of Native American or other minority communities?
YES [] NO [X] If funding is requested from a private foundation, then has the request been cleared with the MSU Development Committee?
YES [] NO [X] Will distance learning materials or software result from this work?

College of Agriculture only: MAES Project # Source Code

7. Funds Requested for Initial Budget Period: (Sponsor budget sheets with details must be attached)

Year 1 Direct Costs \$ 5,000 Indirect Costs \$ 0 Total Costs \$ 5,000

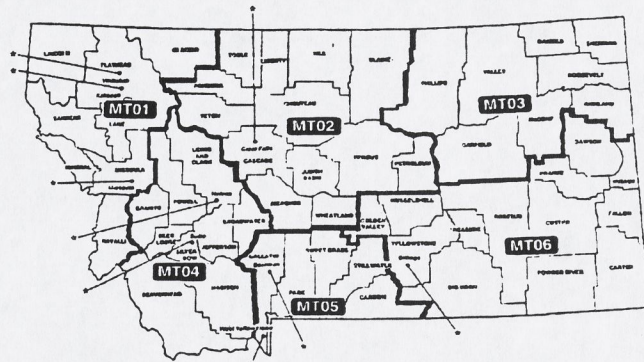

Indirect Costs Calculated at 0 % of Modified Total Direct Cost Total Direct Cost Other

Funds Requested for All Budget Periods: (Complete only when more than one budget period is involved.)

Direct Costs \$ 5,000 Indirect Costs \$ 0 Total Costs \$ 5,000

LOCATION CODES

We will now track grants by their location. This is to ascertain where the research physically takes place. Use these numbers in the space labeled "Location Codes" on page 1. A grant can have more than one location code. If it encompasses the entire state, use MT07. When the research is done outside the state of Montana, use MT00.

- If requesting waiver of part of all Indirect Costs, please explain.
- If agency disallows Indirect Costs, please include agency policy statement.
- If cost sharing applies, section below must be complete.
- Does this proposal contain extra compensation? If so, is it detailed in your proposal?

COST SHARING

	Amount	Index Number
Salaries	\$	
Benefits	\$	
Equipment	\$	
Other (Specify)	\$	
Indirect Costs	\$	
Total Matching	\$ <u>12,500</u>	

8. Proposal Approvals:

Principal Investigator (PI) certifies that the statements on this clearance form are true and complete to the best of his/her knowledge, and accepts the obligation to comply with university policy and guidelines in conducting the research herein if a grant is awarded. The PI also certifies that he/she is not delinquent on any federal debt.

Department Head: The department head's signature means that agreement has been reached regarding the amount and type of departmental resources that will be committed to assist the PI in completing the project.

OVERRUNS – unresolved cost overruns on G&C projects will be covered from the Principal Investigators' and Departments' share of indirect cost collections.

Dean's Office: The Dean's signature means that agreement has been reached regarding the amount of school or college resources committed to support the program. The Dean's signature also ensures that a drug free workplace will be provided.

We have reviewed the proposal and concur that staff time of the individuals is available and that departmental or college resources including the cost sharing obligations listed are committed in the event the project is funded.

- MTF rates salaries a very low priority and will fund them only when extraordinary justification is presented.

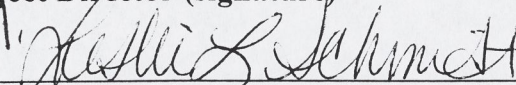

Note: MTF funds may not be used to pay indirect costs. MTF has letters on file with Vice President for Research at Montana State University and the University of Montana which state MTF's position on indirect costs.

AGREEMENT: It is understood that any funds granted as a result of this request are subject to the following conditions:

1. The funds granted your proposal are to be used only for the purpose set forth therein.
2. Thirty percent of this grant will be withheld until you have submitted 1) a concluding report of expenditures and remainders (if any), (2) a detailed evaluation of the project, and 3) a one-paragraph abstract of the evaluation. The concluding report, evaluation, and abstract must be submitted within 30 days of the completion of the work proposed in your application.
3. All publications or news releases relevant to this project must include appropriate acknowledgement of MTF funding.
4. MTF reserves, and you do hereby grant to MTF, the right to copy, reprint, reproduce, publish, republish, disseminate and to otherwise make use of all reports, studies, data findings, conclusions, recommendations, and all other written, graphic, or pictorial material resulting from your project whether or not copyrighted, published, or otherwise protected under a proprietary claim by you or your designee; provided, that if such work be claimed or protected under such proprietary protection, then MTF agrees to provide a disclosure to that effect along with a statement that the work is being used with the permission of its author.
5. You shall pay, indemnify and forever hold MTF harmless from any liability arising out of the contract work, including, but not limited to, any claim arising out of libel, slander or copyright, patent, trademark, trade name or other proprietary infringement.

LESLIE L. SCHMIDT
Assistant Vice President for Research
MSU Office of Grants and Contracts

8. Executive Summary:

Montana State University Libraries' Trout & Salmonid Collection already has 2,000 titles on the shelf, with thousands more still unboxed from a major gift to the collection. The entire collection is or will be bibliographically accessible internationally via the Internet. We believe that the collection, in just three years, has reached a position of national prominence. **Specifically, the funds requested from the Montana Trout Foundation would be directed toward strengthening the collection in the areas of trout & trout stream management and trout diseases via the purchase of science-oriented monographs.** Matching funds will be directed toward building the collection in the complementary areas of angling, politics and public policy, literature, culinary aspects, etc.

Our goal is to build *the* nationally prominent Trout and Salmonid collection. The MSU Libraries' Trout & Salmonid Collection is the centerpiece of a larger vision that will eventually be encompassed in The Bud Lilly Chair in Trout & Salmonid Bibliography, which will include a collection endowment, an endowed lecture series, and an endowed member of the library faculty devoted to trout informatics. The collection will enable Montana State University ("Trout U") to preserve and advance its distinctive combination of teaching, research, creativity, and service as it relates to the trout and its habitat.

Grant Proposal:

The funds requested from the Montana Trout Foundation would be directed toward strengthening the collection in the areas of trout & trout stream management and trout diseases via the purchase of science-oriented monographs. It is anticipated that many of these will be doctoral dissertations, representing highly focused and unique research; such materials seldom find their way to libraries other than that of the home institution. Adding such titles to our collection will make it noteworthy and more useful to MSU fish and fisheries researchers and students. It is projected that the amount requested will permit us to add 80-100 select titles.

In addition, matching funds the library will continue to purchase materials for the collection in the complementary areas of angling, politics and public policy, literature, culinary aspects, etc.

Our goal is to build *the* nationally prominent Trout and Salmonid collection. The MSU Libraries' Trout & Salmonid Collection is the centerpiece of a larger vision that will eventually be encompassed in The Bud Lilly Chair in Trout & Salmonid Bibliography, which will include a collection endowment, an endowed lecture series, and an endowed member of the library faculty devoted to trout informatics. The collection will enable Montana State University ("Trout U") to preserve and advance its distinctive combination of teaching, research, creativity, and service as it relates to the trout and its habitat by:

- Developing the world's preeminent research collection of titles devoted to the trout and other salmonids.
- Enhancing the support of critical MSU undergraduate and graduate programs in fish and fisheries management and trout related-field research.
- Strengthening "trout awareness" by providing resources that will be the foundation for traditional and non-traditional educational outreach activities.
- Investing in the building of knowledge infrastructure to support research and education to preserve and improve trout environments.
- To secure into the 21st century and beyond those distinctive features of intellectual seriousness, artistic vibrancy, and social engagement that have defined Montana State University as the state's land grant university since it's founding in 1893.

Methodology:

The library will consult with experts such as Drs. Ray White, Calvin Kaya, and Al Zale regarding key topics/terms/works in trout & trout stream management and trout disease. Various databases will be searched to determine appropriate titles. Subsequently, titles will be ordered from wherever necessary.

Evaluation:

This project is not research per se. Rather it is a process of building research information infrastructure. Therefore, project evaluation lies in the assessment of whether there has been success in adding information content/titles in targeted critical areas. This kind of assessment is done continually as the collection grows.

Project Budget:

\$5,000	Amount requested. Scientific monographs.
\$5,000	Matching: Books on non-scientific topics.
\$2,500	In-kind: Processing and cataloging/ \$25 per title.
\$5,000	In-kind: professional selector's time.
\$17,500	Total project

GRANTS:**during deanship**

- 2001 National Agricultural Library awarded a \$15,000 amendment to a \$10,000 grant to strengthen communities by empowering tribal college librarians to facilitate the dissemination of information that supports economic development, employment preparation, improved health, effective government, multigenerational programming, literacy, and lifelong learning [Kathy Kaya, Mary Anne Hansen]
- 2001 Japan Foundation awarded \$13,000 for purchase of books relating to Japan [Mary Bushing, Paul Atkins, Brett Walker]
- 2000 Japan Foundation awarded \$5,000 for purchase of books relating to Japan [Mary Bushing, Paul Atkins, Brett Walker]
- 1998 MSU Libraries awarded \$138,340 grant by the Institute of Museum & Library Services to digitize Native American images and create web site. Project involved collections at the Museum of the Rockies, Little Big Horn College, MSU-Billings, and MSU-Northern. [Elaine Peterson, PI]
- 1998 MSU Libraries awarded \$65,000 grant by National Network of Libraries of Medicine/Pacific Northwest Region to train Montana tribal college librarians to provide medical reference services and end-user instruction in order to better meet the health information needs of the Indian Health Service and other health care workers, the teaching faculty and students enrolled in health-related programs at tribal colleges, and tribal members. The intent is to establish an information infrastructure than can be sustained after the project is concluded. [Kathryn Kaya, PI]
- 1998 MSU Libraries awarded \$52,000 grant by National Endowment of the Humanities for "Preserving the History of U.S. Agriculture and Rural Life" to locate and catalog older and fugitive Montana agricultural literature. Grant in consortium with other universities. [Jodee Kawasaki, PI]

personally involved

- 1993 awarded \$2,000 faculty research grant by Canadian embassy in Washington, D.C. to conduct study of the effect of Canadian federal government policies on the Canadian

information industry.

- 1992 author of \$100,888 grant awarded by the U.S. Department of Education (HEA Title II-C) to build MSU Libraries' Yellowstone National Park Collection. [Nathan Bender, PI]
- 1991 author of \$250,000 grant awarded by the U.S. Department of Education (HEA Title II-D) for upgrade of OPAC and making available bibliographic databases to Tribal College libraries, Ag Extension agents, extended nursing campuses, and junior high school Young Scholars. [Elaine Peterson, PI]
- 1989 awarded \$4,500 from the Canadian Embassy, Washington D.C. to conduct a study of Canadian federal information policy. [with Steven D. Zink, University of Nevada-Reno]
- 1988 Author of \$94,000 awarded by U.S. Department of Education (HEA Title II-D) to develop remote access (CatLink) to the MSU Libraries Online Public Access Catalog (CatTrac). [co-wrote with Laurie A. Stack, PI]
- 1988 \$3000 received by The Libraries from the Japan Foundation to purchase Japan-related books. [wrote grant application in 1988, award notification 1989]
- 1986 \$1000 received in a MSU faculty research grant to conduct research at the University of Florida Libraries on the great Labor Day hurricane of 1935 and on Ernest Hemingway at the John F. Kennedy Presidential Library in Boston.
- 1985 \$94,000 awarded by the Fred Meyer Charitable Trust to explore the potential for the transmission of digitized information in concert with the four other land grant universities in the Pacific Northwest. [Bruce Morton, PI]

September 20, 2002 Draft

Montana Trout Foundation
Minutes of the September 15, 2002 Meeting
MSU Library

Board members in attendance:

Bud Lilly - President
Richard Vincent - Executive Director
Ross Bruner - Treasurer.
Harry Miller
Tim Crawford
Gordon Haugen

- Meeting was opened by President Bud Lilly. The agenda prepared by Vincent was reviewed. Bud Noted that at the end of the meeting there will be tour of the MSU Trout Library and refreshments would be served.
- **Secretary's Report** - Minutes of the Spring 2002 meeting prepared by Vincent were approved. as written.
- **Treasurer's Report** - Bruner gave a lengthy and detailed Treasurers Report with numerous handouts detailing Montana Trout Foundation's (MTF) current financial status as well as a historical perspective of fund raising. Each of the board members in attendance were given the handouts for their review and record. The following are high lights of the treasurer report presented by Bruner.
 - 95% of the funds generated by the MTF were secured prior to 1993.
 - The MTF has not had a active fund raising effort since 1993.
 - Investments have been a major source of income since 1993, however, with the current down turn in the market, the situation for disbursing funds in 2003 are going to be reduced. Bruner projected that with our current balance of just over \$300,000.00 at 6% this would be in the neighborhood of \$18,000.00.
- Investments were discussed. Bruner recommended that the MTF investment be adjusted to reflect the current market performance. He recommended that the MTF investments be moved into more bonds than stocks and that

the MTF retain the services of a broker to manage our funds. It was moved by Harry Miller and seconded by Tim Crawford that the MTF except the recommendations made by Bruner. Lilly called for vote ---
Passed

-501 - C Tax Status Bruner report that the MTF has lost its 501 C tax status and is now a private foundation and will have to pay a 2% federal income tax.. To retain the 501 C status we will have to demonstrate for a 2-3 year period that 1/3 of our annual income is from donations.

Dispersments Burner handout a ledger of listing MTF dispersments. Lengthy discussion followed.. MTF needs take credit for what it has funded over years and needs to use this track record for the bases of generation new dollars. If we are unable to bring the MTF up to the expectations of the Charter the MTF existence is in jeopardy . It was moved Bruner and seconded by Miller that if the MTF is unable to demonstrate within four years and not retain the 501 -C Tax Status that the MTF be dissolved as allowed for in the bylaws. Bud Lilly called for a voted . **Passed**

Financial report-

Fund balance	1/1/2000	\$393,000.00
	1/1/2001	\$367,944.00
	1/1/2002	\$339,631.00
	9/1/2002	\$304,000.00

Total donations as of 1/1/2002 - \$261,462.00 of this amount \$248,223.00 had been donated by the end of 1993 therefore the (95%) discussed above. This does not include the \$50,000.00 from the Matt Olson estate.

It was moved and seconded that the Treasure report be adopted as present by Burner .
Lilly called for a vote. **Passed**

- Matt Olson Estate Miller reported that many attempts have been made to purchase land with the \$50,000.00 that the MTF received from the Montana Dept. of Fish Wildlife and Parks (Matt Olson Estate) and that the MTF is having same problem secure the land as directed in the Estate. A site Access 2, Fly Fishing only. Harry recommended that the MTF return the \$50,000.00 as received from the Montana Dept. of Fish ,Wildlife and Parks and seek legal consul. Miller and Lilly will contact Kent Kasting to see what needs to be done to return the \$50,000.00 to the Olson Estate. Miller hoped to have this completed by the Oct. 15, 2002.

Newsletter Vincent passed out a letter (Draft) dated August 23, 2002 for comment and will have a draft of newsletter out for Board review by Oct.7, 2002. The letter the newsletter will be mailed to our current mailing list by Oct.15, 2002.

Duties of Executive Director

1. Grants (Request grants by Jan 15, review grants by Feb. 15 and award grants by March 15)
2. Prepare and mail news letters as needed
3. Develop and maintain Web site
4. Maintain and update mailing lists
5. Prepare a history of donations and request for donations
6. Maintain a current listing of board members address, phone numbers and e-mail address and notify board members of meeting dates.
7. Prepare and mail to board member and ¼ or as need newsletter as directed by the President for the sole purpose of keeping the board involved in the operations of MTF.

Board Membership A lengthy discussion followed on the current board members and the lack of involvement by many. It was moved by Miller and second Bruner that board member that have not attended the last two meetings by dropped from the board. Lilly called for a vote **Passed. Therefore the current board consists of those present plus Joel Shouse and Kent Kasting.**

Bruner recommended three new board members David Thompson (Bozeman.) Mike Atwell (Bozeman.) and John Wilson (Helena.) The board agreed with the recommendations and Bruner will make the contacts.

Additional Items Haugen reports that he had made contact with Larry Pederman and it was his recommendations that the MTF at this time dose not pursue getting a trout stamp added to the state license. Bud Lilly will be writing articles that can be used as attachments to magazines etc. Vincent will request that MTF be added as links to the to FFF , Trout Unlimited and Montana Dept. Fish Wildlife and Parks Web sites.

Meeting was adjourned by president by Lilly and a tour was made of the Trout Library and refreshments were served.

Gordon Haugen acting Sec.
