Hidden Lake is truly hidden in the Anaconda-Pintlar Wilderness Area, straddling the Continental Divide between Highway 93 to the southwest and Highway 10-A to the northeast in western Montana. The wild, roadless area is home to Rocky Mountain bighorn sheep and is a mecca to backpackers and hikers who yearn to "get away from it all."

Fishing in Montana is more than just the fish -- sure -- Montana is a great environment for the fish, but it's a great environment for the fisherman, too. Montana is one of the last places left where you can feel you are exploring new waters, new territory, and new adventures.

Fishing high in Montana's Big Sky Country becomes a never-to-be-forgotten thrill. Known as the land of the Fighting Rainbow Trout, Montana boasts over 32,000 miles of fishing water. Fishing is 'pretty special' in Montana.
