COME OUT, PARDNER, AND RIDE THE RANGE

Scratch any normal skin and, right under the surface, you'll find a potential cowhand. And you needn't hide it . . . because dude ranching is America's smartest and fastest-growing kind of vacation. In the short span of a week or two, sittin' on the fence or in the saddle, you can acquire a cowhand drawl and a mahogany tan.

It isn't necessary to be an accomplished rider. The veriest bridle-path novice will soon be completely at

home in the saddle. A wise "wrangler" and unlimited opportunity to ride will see to that.

What's it like on a dude ranch? That's hard to say. It's like you've dreamed it would be. It's like home. It's like the mountains of the moon. It's like nothing else on earth. For this is the bountiful West—as diverse and lovely a land as any man has longed for.

MONTANA DUDE RANCHES

MONTANA is the "land of the shining mountains." Its broad bosom is ridged by titanic faults in the rocky strata; furrowed by deep valleys and canyons; watered by rushing streams. Here are the snow capped peaks and wooded slopes of the Rockies including the Crazy Mountains, the Absarokas, Belts and Bitter Roots, the Mission Range and the Continental Divide.

And within the mountains — wonderland. Sheltered valleys with a trout stream meandering through a green meadow. Timbered slopes reached only by the trail you ride. Rocky outcroppings indelibly marked by the scouring of glaciers. Deep, sapphire pools 'way up at timberline; pools that are the habitat of the rare Golden Trout, and that haven't been fished since your guide was there last year. Long, tortuous climbs that end on a peak commanding a breath-taking panorama that is the same today as it was when the world began.

Perhaps you'll slip over a ridge and startle a herd of elk feeding in the valley, or an old she-bear who anxiously herds her cubs to shelter. The next turn in the stream may discover a white-tailed deer coming down to water. There are moose and porcupine, and prairie dog. And at night, when the singing stops around the campfire, you'll hear the eerie, answering serenade of the coyotes.

As for the ranches themselves, you can pick one to suit your taste (and we can help you). Do you favor wide, sunny verandas, luxurious bathrooms, plenty of service, and steam heat for cool evenings? They're here. Or you can choose

simpler places where the guests gather informally at the big, family table and lounge around the fireplace at night.

There are ranches with swimming pools and with tennis courts; ranches on lakes and on mountains.

And at every one of them you are certain of the right degree of restful comfort, of generous portions of good food, and of a brimming measure of true western hospitality.

Life on a dude ranch centers around the corral. You're assigned a capable, sure-footed horse of your own, and a friendly wrangler who will make it his special mission to show you the most exciting trails and beautiful vistas, to teach you to shoot a six-gun or swing a lariat. But there are plenty of other sports to occupy your time and lend variety. Grand fishing, swimming and hiking. Small-game and "varmint" shooting all year; big game hunting in season. There are roundups and rodeos to watch. And, best of all, there are friendly congenial people to share the happy hours.

WHAT TO WEAR

Most dudes favor blue denim, waist high overalls, a wide brimmed felt hat and a pair of stout shoes or boots. That goes for men and women. Riding breeches or judhpurs are okeh, too. Bring a woolen shirt, a couple of sweaters and a windbreaker. For evenings ordinary sport clothes or your traveling clothes will do nicely. Fishermen will probably bring their own trout outfits. But remember, all of the needed outdoor clothes can be purchased on the spot and many ranches will supply fishing tackle.

Circled numerals preceding description of each ranch indicate locations on map, pages 12 and 13.

The Olympian

THE OLYMPIAN

The OLYMPIAN serves the Montana Dude Ranch Country. From Chicago and from Seattle-Tacoma each day the famous Olympian leaves on its journey over a trail of scenic and historical interest through the picturesque West and Northwest. The trail crosses four great mountain ranges — the Belts, Rockies, Bitter Roots and Cascades and the great rivers of the west including the Mississippi, Missouri, Jefferson, Clark Fork, St. Joe, Spokane and Columbia.

You will enjoy the superbly appointed equipment on the Olympian. The club-like observation car; the standard sleeping cars with berths, bedrooms, compartments and drawing rooms; the money saving tourist sleeping cars; the new type luxury lounge coaches and the large, roomy dining cars.

Meals on the Olympian are wonderfully prepared and faultlessly served — and you will find them economical, too. There is off-the-tray service for coach and tourist car passengers who may not wish to use the dining car.

For 656 miles through mountain country in Montana, Idaho and Washington the Olympian is electrically operated.

In the glorious summer months an open observation car is attached to the Olympian for sleeping car passengers to enjoy a thrill while traveling through the mountain sections, thanks to the electrification.

Ride the Olympian to and from your favorite Montana Dude Ranch.
