

NINE QUARTER-CIRCLE RANCH

GALLATIN GATEWAY, MONTANA

Telephone and Telegraph Address — Bozeman, Montana

July 6, 1949

Mr. Frank Mosher,
Dean Witter and Co.,
38 S. Los Robles,
Pasadena, 1, Calif.

Dear Mr. Mosher:

We have a letter from our very good friend, Jeff Jones, in which he mentions the information you gave him concerning your friends, Mr. Perrin and Mr. Badgley. Jeff suggested that we send you some of our literature in the hope that both of your friends have not made their reservations at the other ranches mentioned. We are taking this opportunity of mailing you three of our brochures under separate mail.

We are very proud of that which we have to offer and especially from the standpoint of fishing. We have a stream, the Taylor Fork, which runs right through the front yard, as well as innumerable others, which are easily accessible from the ranch. Our guests also fish the Gallatin but have equally as good luck on other streams, which are not as heavily fished as the Gallatin.

In forwarding us your letter, apparently Jeff feels that we can do a better job of taking care of your friends and we sincerely hope that we have the opportunity of being considered on Jeff's recommendation, if it isn't already too late. If Mr. Perrin and Mr. Badgley have already made definite commitments, will you kindly tell them that we'd appreciate their coming up to pay us a visit and having a meal with us while they are in the Canyon?

If you and your family ever get to this part of the country, we'd certainly consider it a pleasure to entertain you folks.

Thanks for giving this your kind attention.

Yours very truly,

Howard T. Kelsey,
Nine Quarter-Circle Ranch
