Inglewood, Calif.

Dear Dr. Mc Gill-

It has been 80° or
more for the past 2 weeks I am
ready to go home, but we know
it isn't hot there.

I am finally sending
this Glenn Noble story on.

I surely hope that things will
work out O.K. at the 320 for you.

I visited the Huntington
Library with Mrs. Ann Call last
week. She is surely a fine person
and seeing all of ^{the} Sainchaugh's paintings
was all most too much for me

Just seeing "Blue Bay" and
Lawrence's "Pinky" was wonderful.

The Old boats were ~~beard~~ worth
the effort to go there. I will never be the
same.

I worked 2 weeks and
folded up. I had to stand too much.

Joe is working he started the 1st day
morning. He gets very tired but I
guess that was to be expected.

We have enjoyed seeing new
things here and visiting the places
we liked before. I hope to go to San Diego
before we come home.

Our best to you.
Dorothy & Joe.
