

November 18

Dear Frank & John Craighead,

I never have been the type to write "Dear Abbey", or people I don't know, unless it were official business or something; but, for some reason I just felt very compelled to write to you and say how much I enjoyed your special, on T.V., "Gizzley". It was interesting, exciting, and set my bones just tingling to see some of the wilds of the west! Being an Easterner, I think I've always had this desire anyway. I

Suppose if I had a choice of any job I wanted, it would be to work for a magazine, like National Geographic, traveling and writing feature stories. (Teaching school is challenging, but not quite as exciting.)

Fortunately, I have had the chance to do some traveling throughout the Orient which has resulted in my living here in Hawaii. So, at least I'm on the Western side of the world.

Once again, I enjoyed the special. Do you plan

to do others? I'll tell
you, if you ever need extra
hands for any project, you
have an enthusiastic helper
here.

I hope I spelled your
last name correctly. I only
heard it pronounced vaguely.

Sincerely,
Stephen Master
