Dear Louisa:

We have enclosed the Grizzly Bear Mortality Summary for the Yellowstone Ecosystem from 1967 to 1986. We would appreciate your review and evaluation. If you have any additional or conflicting information, please notify us.

We would appreciate any comments or questions to help make this a complete and accurate summary. Hopefully, when this project is complete, we will have one final list that all involved can agree upon.

Please respond by May 18, 1988. A final summary will be printed soon after, along with a map indicating mortality locations.

Thank you very much for your valuable help.

Sincerely,

Helga Ihle Pac

CONFIDENTIAL

MEMO

To: Conservationists concerned about Yellowstone's grizzlies.

From: Louisa Willcox

Subject: Draft compilation of grizzly bear mortality data for the Greater Yellowstone Ecosystem, 1970-1987.

Enclosed is the long awaited draft compilation of the grizzly bear mortality data for the Greater Yellowstone Ecosystem, 1970-1987, assembled by Helga Pac of Montana Department of Fish, Wildlife and Parks. These figures were derived from Interagency Grizzly Bear Study Team leader Dick Knight, the Craighead brothers, the Forests around the Greater Yellowstone Ecosystem, and other knowledgeable sources. The data was compiled in response to a 1986 Congressional Research Service Report on the management of the Greater Yellowstone Ecosystem, which cited the lack of consistent records for grizzly bear mortality.

This draft has been circulated by Montana Fish, Wildlife and Parks among Yellowstone Subcommittee members, the Interagency Grizzly Bear Study Team, and others for final verification. No formal analysis of this data set is planned by the Study Team or the Yellowstone Subcommittee.

Since no analysis is planned, GYC is attempting to solicit review and critique of this data by bear biologists, population biologists and others concerned about the future of grizzly bears in the Greater Yellowstone Ecosystem. At a February, 1988, meeting of conservationists, it was recommended that GYC play a central role in pulling together existing habitat mortality data on Yellowstone's grizzly in a status report of the population.

We hope to compile our findings and analysis this summer in the context of a status report on Yellowstone's grizzlies, and release this summary in July. We would appreciate your input and critique of this data and its implications by June 20.

For each bear mentioned, there is a file of additional information on the computers at the Montana Department of Fish, Wildlife and Parks. If you want more details, please call Helga Pac (586-1681) or Arnie Dood (994-6433) at Montana Department of

Fish, Wildlife and Parks.

Please, let us know as soon as possible if you have additional suggestions of qualified people who may be interested in reviewing this data set.

Thank you for your continuing interest in the future of Yellowstone's grizzlies. We look forward to hearing from you.

Please do not circulate this draft, which was given to us in confidence.

Grizzly Bear Mortality Codes

<u>Code</u>	<u>Category</u>
1	1. <u>Illegal</u> (private individual involved)
2	A. Marauder
3	1. Livestock depredation
4	a. Cattle
5	b. Sheep
6	2. Developed area
7	a. Campground
8	b. Town
9	c. Tourist accommodation area (Commercial) (Old Faithful, Canyon, Lake lodges, hotels)
10	d. Residence - private homes, summer cabins, etc.
11	e. Logging camps.
12	f. Other
13	3. Backcountry camp
14	a. Hunter
15	b. Outfitter
16	c. Private
17	d. Other
18	4. Unknown
19	B. Mistaken identity (mistaken for black bear)

- 20 C. Poaching
- 21 1. Whole carcass removed
- 22 2. Parts removed
- 23 D. Deliberate and let lay
- 24 1. Vandal killing
- 25 2. Nuisance killing (in garbage, etc.)
- 26 3. Poison
- 27 E. Unknown reason: possibly people involved
- 28 2. Trapping casualty
- 29 A. Accidental overdose
- 30 B. Physical body damage
- 31 C. Dangerous to trapping crew (out of drug too early, etc.)
- 32 3. Control (agency involved)
- A. Unofficial
- 33 A. Livestock depredation
- 34 1. Cattle
- 35 2. Sheep
- 36 B. Developed area
- 37 1. Campground/trailhead
- 38 2. Town
- 39 3. Tourist accommodation area -- commercial (lodges, etc.)
- 40 4. Residence -- private homes, summer cabins, etc.
- 41 5. Logging camps
- 42 6. Other

43 C. Backcountry camp
44 1. Hunter
45 2. Outfitter
46 3. Private
47 4. Other
48 D. Unknown
49 E. Live removal (to zoo or other than
Yellowstone Ecosystem)
50 F. Confrontation
51 1. Trail encounter
52 2. Other
53 4. Live Removal (reasons other than control or
defense of life)
54 5. Road Kill
55 6. Legal
56 A. Hunter
57 B. Hunter -- crippling loss
58 C. Defense of life
59 D. Defense of life -- live removal
60 E. Defense of property (before 1975)
61 1. Livestock
62 a. Cattle
63 b. Sheep
64 2. Buildings
65 7. Humane Reasons (injured, sick, etc.)

- 66 8. Natural Causes
- 67 A. Accident
- 68 B. Starvation -- malnutrition
- 69 C. Old age, disease, parasite
- 70 D. Intraspecific (fighting casualty) - predation
- 71 E. Unknown
- 72 9. Unknown
- 73 A. Carcass found
- 74 B. Carcass reported

GRIZZLY BEAR MORTALITIES IN THE YELLOWSTONE ECOSYSTEM

1967 - 1987

DRAFT

Category Titles - Explanation:

Bear No.

Last 2 digits of year and number of bear mortality corresponds to map mortality locations.

Bear ID

6-digit number is Department of Fish, Wildlife & Parks Laboratory carcass identification number. Other numbers indicate other identification numbers from Yellowstone National Park, Interagency Grizzly Bear Study, or State Fish and Game records.

Sex and Age

F = female
M = male
Unk = unknown

Wt.

= weight

Location Ownership

Agencies:

BTNF = Bridger-Teton National Forest
CNF = Caribou National Forest
GNF = Gallatin National Forest
GTNP = Grand Teton National Park
RMP = Rockefeller Memorial Parkway
SNF = Shoshone National Forest
TNF = Targhee National Forest
YNP = Yellowstone National Park

UTM

= Universal Transverse Mercator Map locations.

Status

Known = Carcass recovered or evidence to indicate known status due to radio-collared animal.

Probable = Strong evidence to indicate mortality. Reliable sources, but no carcass recovered.

Possible = Persistent rumors.

Code

See attached list.

Source

MT = Montana Fish, Wildlife and Parks records.
IGBS = Interagency Grizzly Bear Study.
WRU = Craighead (Wildlife Research Unit records).
WY = Wyoming Game and Fish records.
ID = Idaho Fish and Game records.
YNP = Yellowstone Park records.
