**Mr. Stanley Brown
Farm Advisor
Susanville, Calif.**

Dear Stan:

I will be weighing cattle at Burgess Spring on the 18th and 25th, about 9:00 a.m. Perhaps you would like to grade the cattle on one of these two days. Men from the Regional Office, Lassen Office, and Experiment Station will be looking over the reseeded areas in Harvey Valley and other places on the forest during the 18th and 19th. If you come out on the 18th you could cover the grading and visit some of the reseeded areas. Ranger Hook or Phil Lord probably can give you more details on the seeding.

Sincerely,

A. L. HORMAY
