

~~DAH~~ *Office Memorandum* • UNITED STATES GOVERNMENT

TO : DIRECTOR, California Forest &amp; Range Exp. Sta.      DATE: February 25, 1948

FROM : FOREST SUPERVISOR - Lassen, by

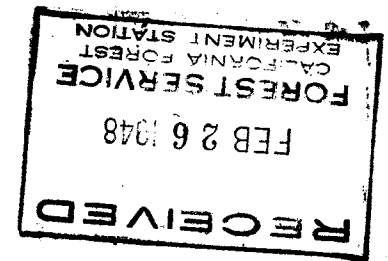

SUBJECT: R.R. Pine Ranges

*RR-MANAGEMENT - Ponderosa Pine Ranges - Burgess Spg.*

Would it be possible at this time for you to advise us whether or not Mr. Hormay intends to continue his experiments at the Squaw Valley pasture, and if so, how many head of heifers he will want and at about what date?

As you may know, due to administrative difficulties we will be unable to use cattle from the outfit we have been getting them from. We have, however, made an arrangement to get the same class of cattle from another permittee but must know Mr. Hormay's plans sufficiently in advance that we may make the proper arrangements with regard to their delivery to Squaw Valley.

May we hear from you at your earliest convenience in this regard.

  
Philip B. Lord, Acting
