

*Files* **Office Memorandum • UNITED STATES GOVERNMENT**

TO : A. Hormay, California Forest & Range  
Experiment Station

DATE: June 14, 1968

FROM : SUPERVISOR - Lassen

SUBJECT: G.- COOPERATION - California Forest & Range Experiment  
Station - Burgess Springs

*RR- MANAGEMENT - PP Ranges - BSEF*

Reference to your request for a saddle horse to be at Squaw Valley by the 21st. Due to the press of other work we will be unable to deliver the horse there that we intend to place there for your use this summer.

There is, however, a horse available in Susanville and a trailer that you can use to transport him to Squaw Valley. This horse and trailer should be returned to Susanville as soon as this weighing is finished and we will try to have your regularly assigned horse at Squaw Valley by the next weighing.

100 pounds of salt was sent out with the fence crew.
