

REGIONAL FORESTER, Region 5

August 4, 1954

GEORGE M. JEMISON, Director, By

O(R)-FINANCE, General

The arrangement for financing and handling the work on the Harvey Valley Allotment, as outlined in your memorandum of July 27, is quite satisfactory and covers the essential points of our agreement. We will strive to get funds to finance a full-time position for Harvey Valley at the earliest possible date. In the meantime, the present arrangement will make it possible to get some of the more important records of range condition and production capacity changes on the allotment as the Burgess Spring five-unit grazing system is put into effect.

O(R)-FINANCE, General
RR-MANAGEMENT, Ponderosa Pine Ranges, Harvey Valley

I understand from Ranger Flynn that William H. Sanderson, who is to work part-time for the Station on the Harvey Valley allotment, has been on the job for about a week now. During this period he has been working for the Lassen and I hope to get to use him on the Harvey Valley job starting Friday, August 27. His work week encompasses the five days from Friday through Tuesday, and he is off on Wednesdays and Thursdays. We agreed with the Lassen to have Sanderson work about half-time for the Station and half-time for the Lassen. Sanderson is filling a position on the Bogard Ranger District and is therefore a Lassen Forest employee. I thought you would like to know of these developments.

I am not clear on the financial arrangements so would appreciate knowing how Sanderson's salary and expenses will be paid, for any questions that may come up in the future. I am going up to Blacks Mountain today.
