Forest Genetics Research
1960 Addison Street
P. O. Box 245
Berkeley 1, California

Dear Gus:

I am sending you a print of a photo George Wolstad took of you and Ranger McDougal in the rough fescue patch on the sprayed area of the Bull Creek allotment.

We were happy to have you in the region and hope we will be able to show you some more of our country on your next visit.

Sincerely yours,

W. W. Dresskell

Mr. A. L. Hormay
Pacific Southwest Experiment
Station
Berkeley 1, California

Dear Gus:

I have just seen and read the new rest-rotation bulletin. It is a swell job and I know you are glad to see it in print. This is a tangible conclusion to a fine and extended piece of research. When you see Tally give him my compliments too.

Best wishes.

Sincerely yours,

GEORGE M. JEMISON
Deputy Assistant Chief
