

Berkeley, California
March 4, 1969

Dear Ken:

I hope you find retirement just a change in jobs and that you now have time to do many of the things you could not get around to before.

I do hope you feel well.

Enclosed are a few photographs of yourself taken in earlier days and while you were on the job.

Thought you might like them.

You may have ^{prints of} the forestry summer camp shots.

The best of luck to you
and Kittie
Gus

Memorandum

To: Chief, Division of Range Management (712a)
From: A. L. Hormay, Range Conservationist, Berkeley
Subject: Monthly Report, February 1969

I completed the stockmen's range training sessions in Idaho as scheduled. I have now got back to working on the rest-rotation grazing management manuscript since over a year ago. I hope to have the revision ready by April 1.

A. L. Hormay

March 7, 1969

Mr. A. L. Hormay
Pacific Southwest Forest & Range Experiment Station
P. O. Box 245
Berkley, California 94701

Dear Gus:

The Lake County Chapter of the ASRM has discussed the possibility of arranging a trip to Harvey Valley to view the results of your grazing system.

We would like to know if and when you would be available to give us a "cooks tour" of the area. We were thinking of a one-day tour sometime in July. We could probably make it on a Saturday or Sunday if this best fits your schedule.

Would you please inform us of one or more dates (if any are available), and use your judgment as to when we would obtain the most from such a trip -- August would also be alright. Upon your reply we will proceed to firm up an acceptable date.

I haven't heard a thing on my suggestion to Washington for the Bureau to set up some assistantship positions under you -- have you had any response?

Sincerely,

A. K. Majors
Secretary-Treasurer
