Dear Gus:

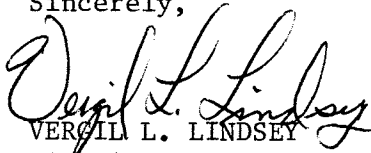

Enclosed is a map of the Wall Creek C&H Allotment and the adjacent State Game Range which you looked at and discussed with us last week. This topographic map shows the allotment and pasture boundaries, and the game range boundary. I've also marked the trails and paths normally used for moving cattle between pastures. The cattle can also be moved between Wall Creek and Wall Creek Lake pastures at other points.

Our capacity figures for each pasture are based on actual use. The Horse Creek pasture is not used at all. Four of the other pastures receive approximately 544 cow/calf months of use and two are rested in any given year. (This is the approximate equivalent of 718 Animal Unit Months). In most years this level of use appears to be about right, though use in a given pasture may be a little heavier or lighter than we'd like in a given year based on yearly fluctuations in forage production.

If you need any other information or have any questions, please contact us. If you need to look up other maps of the area, the allotment lies in the Cameron, Varney, Monument Ridge, and Cliff Lake Quadrangles.

Thank you for your help.

Sincerely,

  
VERGIL L. LINDSEY  
District Ranger

Dear Mr. Hormay;

We would appreciate greatly your review of the manuscript, "History of the Blacks Mountain Experimental Forest", by Donald T. Gordon, and hope that we can receive your comments by July 23, 1982. A return envelope is enclosed for your convenience.

Thank you for your help.

Sincerely,

  
DOUGLASS F. ROY
