

Aug 31, 1983

Dear Gus,

I sent you yesterday, via parcel post, the folders on the Portola plots. I picked up some information in them I had not found before. Many thanks for sending the material to me. I enclose a check to cover your postage payment.

Writing this history is a bit frustrating. The records center has not been able to locate a box which should contain some of the early information about F.R. And now that Jim not in Berkeley to prod people, I suspect no further action has been taken. With Callahan out of the Director's chair, I don't have much leverage.

Life here on Whidbey Is. is quite peaceful. I do a bit of fishing (without much success) and hunting (with even less). Most of the time Jim is working in the yard and garden.

Thanks again, with many memories of the good old days.

As ever,

Harry. HARRY A. FULLER
