Mr. A. L. Hormay
101 Acadia St.
San Francisco, Calif.

Dear Gus,

The sole reason for Veg Inc's existence was to promote the principles and implementation of the rest-rotation livestock grazing system that you developed and pioneered.

The prime method considered by Veg Inc to promote the rest-rotation system you proposed, was to produce and distribute a video. The effort was to be strictly a non-profit venture. Officers and Directors of Veg Inc would receive no pay and the video would be available to anyone wanting it at cost. Funding to produce the video would come through Grant funds.

You are a valuable member of Veg Inc as your obvious expertise and knowledge of Rest-Rotation would contribute immeasurably to the success of the video.

Will you reconsider and withdraw your resignation from Veg Inc's Board of Directors?

Sincerely,

A handwritten signature in cursive script, appearing to read "Joe", written in black ink.

Joe Egan, Pres.
Veg Inc
