Dear Joe

About The book on rest-rotation grazing. I had planned to get some information and photographs on The subject This past summer and get The book out by The end of The year. But a lung problem I have had for many years flared up and I could n't make it.

I am getting better but slowly. You will find out when you get my age, eighty-eight, that Things go more slowly than when you were younger. I Think I'll be up to

(over)

doing the field work this summer
and getting the book out by the
end of this year. I will send
you a copy. My compliments.

Your firm, flowing handwriting
tells me you are still in good
shape. Hope so.

Stay with it.

Dear Sue -

Don't still promoting R-R even tho' most of the ranchers are not only ignorant but ~~they~~ they are arrogant and over-bearing. These "quabitis" are even more amply bestowed on our 2 Senators, Baucus and Burns. The professional in ^{the} Reggie end of my alma mater are even worse than those referred to above.

Jim glad you're on the mend.
Regards. Joe

' May the grace
of God's protection
and great love
