Monday July 23

Mr. Woodbury, Mr. Carter,
George Hoffman and Mark
Edmonds arrived at Hells
Flat. The group discussed
experimental ranges for
range research. All areas
within a radius of twenty miles
from Hells Flat were eliminated.
Areas east of Ashhurst mt
will have to be scouted for a
range. Hells Flat will not
then be used as a head-
quarters.

Tuesday July 24
Scouted Gordon Creek area
as a prospective range
experimental site.

Monday Aug 6
Halls Flat B. L. S. L.

Met Talbot in Susanville
11:30 AM. Discussed Burgess
Spr. project with George
Brown and made arrangements
for Andy Brennan to contact
Earl McKenzie.

With Talbot looked over
the proposed experimental
ranges. Discussed the water
problem and type of area.

Tuesday Aug 7
Halls Flat B. L. S. L.

Talbot and I met Andy
Brennan and Earl McKenzie
at Burgess Spring at 10:30
AM.

McKenzie was interested
in our project especially the
phase which had to do with
carrying capacity. He agreed
to let us use his stock
and write on two sections of
land adjoining Burgess Spring
to the east which would be
fenced up.

Wednesday Aug 8
Halls Flat

Scouted Burgess Spring area
for possible boundary locations
and fence lines

Thursday Aug 9
Halls Flat
Prepared bill of materials
for gates at Halls Flat
Friday Aug 10

Saturday - Aug 11
Staked out 800 ft of fence
line east of Burgess Spring

Sunday - Camp Aug 12
Monday, Tuesday and Wednesday
located fence line on east
boundary of area. Survey
crew blazed line

Thursday Aug 16
Prepared a contour map of
The Burgess Spring Range
Continued jobs

Friday Aug. 17
Left for Berkeley 9: AM.

Lodging H. F.

Sat. Aug 25

Discussed headquarters
plans with Manning, Hazel
and Drew

Sunday August 26

Mr. Kolok, Clapp, arrived
about 8:30 PM.

Monday

Discussed the pine project
with Kolok and Clapp in
presence of Manning, Hazel
and Drew.

In the morning Mr. Kolok and
Clapp looked over the

Headquarters at Halls Flat
and later the whole party
inspected the Blacksmt Egg
Area particularly road
building developments. Mr. Kotoh
and Clapp left for Jack
Curren Camp at noon.

Obtained elevations and distances
for the location of the wind
mill at Bingers Spring
Made estimates of material
needs.

Tuesday Aug 28 To Egg Haven
Submitted list of materials
needed by range

Wednesday Aug 29

Thursday Aug 30

Both days tried out
method of mapping vegetation
types and contours at B. Sprg

Friday Aug 31

Took photographs on the
Burgess Spring Egg Range

Saturday Sept 1

Wrote up notes and took

Johnson to Susanville where
he boarded a bus for Berkeley
via Reno - changed to Train There.

Sunday and Monday
Holidays

On Monday visited Lassen
Volcanic National Park

Tuesday Sept 4
Worked on working plan
for range work in the east
side game region
