

This Burgess Spring
grazing management plan
as conceived and outlined in

P. Horney
May 9/1949

Pastures

May 1949
for Horney Valley W.A. / May / 52

Use

1		Heavy
2		None
3		Heavy
4		None
5		Moderate

* graze during drought years

Assume 100 animal units capacity for
4 months = 400 A.U Mos.

Each pasture = 80 A.U Mos

In any one year distribute animals
as follows

Pasture	A.U	Period Mos	A.U Mos
1	20	4	80
	40	2	80
			160 Heavy
3	40	2	80
	40	2	80
			160 Heavy
5	40	2	80
			80 Mod
Total			400
