

State - California
District Bakersfield
Allotment Name Adobe Valley

Date April 4, 1967

STATUS OF REST-ROTATION GRAZING ALLOTMENTS

Supplemental information on each rest-rotation allotment:

1. Is the rest-rotation system in operation? Yes X No _____.
2. Date of start of first grazing season June 16, 1966.
(Actual date for allotments under management. Planned date for allotments not yet in operation.)
3. Is the form of management in effect or to be applied the same as the one reviewed or suggested by Mr. Hormay?
Yes X No _____. If not, supply the following information:
 - a. Diagram of grazing formula in use or planned.
 - b. Map showing pasture layout.
 - c. Map diagrams showing movement of livestock between pastures for one grazing cycle.

In cases where rest-rotation grazing has been in effect for one year or more, please comment briefly on the prospects, merits or deficiencies of the system. It is a little too early to fully judge the system, but your comments will be helpful in pointing up future grazing training programs.

The user requested later use in the pasture system for the 1967 grazing season and thereafter if it worked out. Therefore, the opening date for this year has been moved back to 7-1-67. The remainder of the plan is the same.
