HERE is a pleasant little game that will give you a message every day. It is a numerical puzzle designed to spell out your fortune. Count the letters in your first name. If the number of letters is 6 or more, subtract 4. If the number is less than 6, add 3. The result is your key number. Start at the upper left-hand corner of the rectangle and check every one of your key numbers, left to right. Then read the message the letters under the checked figure give you.

STAYS WHITE LONGER . . .

WEARPROOF House Paint is Self-Cleaning

Now! A paint that is a glistening, brilliant white—true white. It stays white longer—because Wearproof House Paint is self-cleaning. Wearproof's long lasting film falls down gradually—forming a fine powder that is carried away by rain—taking the dirt with it and exposing a fresh new white surface. Wearproof House Paint is economical... costs less per job, lasts longer, looks better than ordinary house paints. This time paint with Patek Wearproof House Paint.
