

use w/ 1st scene of sheriff in old age?

Bastard

Bitch of a case, that pickup shenanigan had been.

Nursing home recreation director gives him a surprise birthday party, goes to Glasgow His 'l Society and gets poster of him running for election in 1930's. Kinnick took one look at it and cussed her out unmercifully. If he ever wanted to be surprised, he told the poor rec'n director, he'd lef them know about it first.

Under questioning, one of the Duff men or maybe it was one of the
women--memory knew the words if no longer the specific faces of the case--
long after *had gone*

said to him:

*Duff men
or maybe
it was 1 of women,*

Under questioning, one of them, one of the damn Duffs, *outright claimed* said to

him:

All the connections made that ever would be, gone, there, now.
