Rosellen had spasms of nostalgia for waitress days...

- she takes shift for Rhonda to gather story material;

Rosellen types Owen's monthly earthfill totals

--he's testy about it; she at 1st is bewildered, thinking there's something wrong w/ her typing; no, (he looks right thru or past her) it's just the arithmetic...

The

Small stuff was behind them now.

She knew that what looked haggard <sup>country</sup> to her looked ~~to~~ to Owen like

civil engineering paradise. So be it.

He remembered... "--what 's tickling you?"

"Civil engineer. What do they do with those of you who aren't civil?"
