

Gary - Ursus arctos horribilis 12 Jan '89, Welland Park Zoo

- rounded furry ears
- wide between eyes; little eyes, alt lost in wide furry head
- black snouty nose

{ - hair of hump darker; like a spray, or eruption

- shaggy

- claws: serrated

- fur rippled in breeze, restless, as if something waiting

- rear feet like human feet

My God, even the fur on it looked lethal;
