- 3 yrs
- general flare-up in Tucson
- Island Derm had no experience w/ this ailment; 2nd biopsy did ID it, but my case still doesn't quite fit text bk diagnosis - spots on shins, calves, upper arms, fingers
- treatment options did not appeal, so I've tried self.
- Fred Hoof @ Va Mason has some patients w/ this, & has had some luck w/ vitamins. (He'd need copy of biopsy report)
