

# THE WEEKLY EXPONENT.

VOL. 3

BOZEMAN, MONTANA, FRIDAY, NOVEMBER 10, 1911

No. 9

## HAD TWO EDITORS

1913 MONTANAN IN UNIQUE TANGLE, BUT IS NOW IN SMOOTH WATER.

## BLINN WITHDREW TO MCGUIRE

Are Already Planning to Publish Classiest Volume Ever Turned Out at This College.

After emerging from a tangle which would defy the ingenuity of a Demosthenes, the members of the staff of the 1913 Montanan announce that they are already to begin the compilation of that important publication. The general plan of the book has been mapped out and the work of preparing the features and departments assigned to the different members of the staff.

The tangle referred to was in the matter of editor-in-chief. Last spring Frank McGuire was formally and duly elected to that position, and upon his failure to return to college this fall, the class chose George Blinn to undertake the editing of the book. On the same day Mr. McGuire returned, and the two engaged in an Alphonso and Gaston episode. The final outcome is that Mr. Blinn retires from the chief duties in favor of his predecessor and will confine his activity to the associate editorship.

Business Manager Fred Gordon has been engaged for a week past in soliciting advertisements for the book and has met with gratifying success so far. He expects to get most of this work cleared up before leaving for Chicago on the stock judging trip. Mr. Gordon reports the business men quite ready to support this book as one of the most worthy enterprises carried on by the students.

So far as is known now, the 1913 Montanan will be of the same size and shape as last year's book and will be bound in full leather. It is hoped to increase the circulation sufficiently to warrant other special features which will add to the attractiveness of the annual.

A prize of one copy of the annual will be given for the best collection of kodak pictures of college affairs submitted to the staff by any one person. Another copy will be awarded to the best collection of cartoons, one for the prize column of hits on students and faculty, and one for the winning aggregation of headings. These prizes are to be granted on the judgment of the staff, and the right is reserved to use all matter submitted, whether it wins a prize or not.

The matter of pictures of the various members of the classes, and of the different societies, is now occupying the board or editors. So far little has been accomplished in this direction, and it is urged as an absolute necessity that the pictures of societies, of freshman and sophomore individuals be in the hands of the board by December 1.

The contracts for printing and binding have not yet been made, though the staff is in correspondence with several firms who are seeking these contracts.

In order to introduce the Montanan to the various new students, it might be said that this will be the sixth annual publication of the book. It is left to the junior class to maintain this custom, and the principal responsibility rests upon their shoulders. This in turn is shifted onto a staff chosen from among the juniors. During the past the Montanan has been a book of about 250 pages, well

(Continued on Page 4)

CHAS. L. HANSEN, '12.

## L. K. POOL REVISITS HIS ALMA MATER

Louis K. Pool, '10, arrived in the city Wednesday evening for a brief visit with college friends here. Mr. Pool is making his first visit to the college since his graduation a year and a half ago. He is now proprietor of a civil engineering office in Polson, on the south end of Flathead lake, and is doing well in his profession. For a time he was associated with his old college chum, Glenn Sloan, in the Polson business, but the latter left last spring for Idaho to accept a government position.

Mr. Pool is one of the leaders among M. S. C. alumni and can always be depended upon to use his influence and best efforts in favor of the college. His record as an athlete is well known to all who have followed collegiate athletics in Montana during the past five years. He recently played end on the Polson football team with success, and expects this winter to be instrumental in organizing again the Polson basketball team, which will make an effort to trim the Triple B's and other state teams.

Mr. Pool came to Bozeman from Townsend, where he attended the wedding of his sister, Lucy. He will leave for Helena and Polson today or tomorrow.

## SECOND JOURNAL BY CIVIL ENGINEERS

Society at College Decides to Enlarge Their Publication. Wolpert and Chapman in Charge.

Activities looking toward the publication of the second number of the Montana Engineering Journal, which is produced under the auspices of the Civil Engineering society of the State college, have already begun. Last Friday the club met and unanimously elected Harold Wolpert, one of the senior class, as editor-in-chief. Mr. Wolpert was left to choose his own business manager and any other assistants he might need.

The selection of Mr. Wolpert meets with the approval of all interested in the engineering journal, and he is promised the unanimous support of his society and of the general student body. He has chosen Wm. Chapman, of the junior class, as business manager.

NOBLE C. DONALDSON, '12.

This journal does not conflict in any way with the college annual which is produced by the junior class. It draws its advertising from outside firms and civil engineers of the state. In nature it is quite different from the college annual, inasmuch as it aspires to be a technical work, containing articles on engineering topics from the pens of prominent alumni and members of the faculty. A few illustrations are included and the work is made one of the valuable publications of the state for engineers.

The first number of the annual was published last year by the society and met with success among the engineers. It is expected that this year's edition will surpass the first one in size and pretentiousness, and the editor and manager are already at work preparing their plans. The cordial response from the prominent alumni of the college last year gives ground for expecting a comparatively easy task of compiling this year's book. More material was available last year than could be used, and there remains a wide field of live topics requiring technical treatment in Montana.

## TEAM IS CHOSEN FOR CHICAGO TRIP

STOCK JUDGING CANDIDATES SIMMERED DOWN TO THE FIVE MEN WHO WILL TOUR THE EAST.—WILL COMPETE AT BIGGEST CONTEST OF THE KIND ON EARTH.

## GORDON, MORGAN, TAYLOR, DONALDSON AND HANSEN PICKED

Prof. Griffin and His Team of Representative Montanans Will Leave Bozeman November 18.—Will Visit Big Stock Farms, Colleges and Universities in a Dozen Different States.—Montana State is Farthest West of States Represented.

PROF. H. P. GRIFFIN.  
Coach of Stock Judging Team.

After weeks of patient and thorough training in the art of stock judging, the team to represent the State college was chosen last Saturday afternoon. The following men will take the big eastern trip: Fred E. Gordon, George W. Morgan, John C. Taylor, Noble C. Donaldson and Chas. L. Hansen. They will be accompanied by Prof. H. P. Griffin, under whose direction and instruction the work has been done.

There had been keen competition for places on this team, it being generally recognized that the trip was one of the most inviting sidelines available during a college career. The method of choice was based on the general average performance of the candidates. A record of their classroom and practical work in judging was kept from the first and the team selected on the showing made by those records.

According to the present plans the six representatives of M. S. C. will leave here on November 18. They will be gone three weeks and during their absence will visit a large number of leading colleges and universities in the east, besides taking part in the biggest stock judging competition on earth at Chicago on December 2. Expenses for the trip have been raised by prominent stock interests in Montana, their support coming from a desire to see this state properly represented in this great contest.

In general the following schedule will be followed by the Montana men: Leaving here on November 18, they will take No. 42 to Lincoln, Nebraska, where they will stop two days, visiting the University of Nebraska and judging cattle and hogs, prize herds of which are at the university and in the vicinity. Leaving Lincoln on Tuesday they will visit in Kansas City the following day, making an inspection of horses the chief purpose. From there they go to Columbia, Missouri, to visit the University of Missouri, of which institution

Prof. Griffin is an alumnus. Missouri has offered every facility and convenience to the Montana delegation to the better perfect them for the work which will follow.

About four days will be spent at Columbia, and from there Montana will go to the Pabst Stock farm at Oconomowoc, Wisconsin, reaching there on Nov. 27. Then at Jamesville, Wisconsin, they will inspect the famous Clydesdale horses at the McLay Bros.' stock farm on Tuesday, the 28th. At Packwaukee they will judge some choice bands of sheep and then proceed to Wayne, Illinois; to judge Dunham's Percherons. The last part of the training for the final

FRED E. GORDON, '13.  
contest will be taken at Naperville on Thanksgiving day. They will be the guests there of Judge Goodwin. On Thursday evening they will leave for Chicago, there to strive on Saturday for the biggest honor in the line of stock judging that is open in the world.

At Chicago the Montana boys will be at the Illinois Athletic club. After the big contest on Saturday the delegation will separate, each going to visit for a week with friends or relatives in the Central states. A week later they will meet in Minneapolis to come home together. Prof. Griffin plans to spend that week in Southern Iowa, Messrs. Taylor and Donaldson will visit the Universities of Chicago, Illinois, Michigan, Wisconsin and Minnesota. Mr. Gordon will

(Continued on Page Four)

## COLLEGE STAGS PREPARING FOR THEIR ANNUAL FESTIVAL

Roster of Officers Filled and Committees Appointed. Will be an Elaborate Event This Year. Assessment Raised to Two Dollars. Committee Reports Required by Beginning of Calendar Year.

At a meeting held Friday last the Benevolent Order of Stags laid plans for the fitting reception of the fawns or freshmen into the organization at the end of the present semester. The meeting was well attended by the upper classmen and after an election had been held to replace officers lost during the past year committees were named for the celebration to be held the latter part of January. The election resulted in Alonzo Truitt being tied to the vice-presidency and Lee Anderson holding down the money bags.

President Hansen then appointed committees as follows: Initiation—Harold Wolpert, Horace Davis, Will Whitworth, Walter Willson, Carter Rubottom and Will Chapman. Feed—Chas. Draper, Jack Taylor and Wallace Fisher. Program—Ned Chambers, Lewis Hill and John Wharton.

A hot discussion took place as to

the shortage in the financial department likely to ensue because of the membership of the committees. However, this was amply taken care of by the decision to charge two dollars in place of the one and a half hitherto required from members. The meeting was the most enthusiastic ever held in the college and the best attended in the history of the stags. All members present expressed themselves as well pleased with the fact that they had crossed the burning sands in past years, while each and every initiate of last year swore vengeance on this year's bunch. From the committees appointed and the dire threats heard muttered by the club reports present. It seems probable that the freshmen will be treated with proper consideration of their lowly station in this glorious college and it is with one accord that they look forward to the most successful of the college stag festivals.

## SECOND DEMONSTRATION BY SENIORS IN HOME SCIENCE

On Friday last the home science department of the college gave a demonstration which was without a doubt the best ever given by the students of this school.

The young ladies in charge each gave a lecture while preparing the lunches on dietetic values of food. The lunches were set up in a very short time and the accompanying lecture proved both interesting and instructive.

The demonstration began at 2:30, and Miss Laura Pedaloe came first by preparing a simple lunch of salmon salad, bread, canned fruit, cookies and cocoa. This lunch was prepared in eleven minutes.

Miss Margaret Edwards prepared a child's lunch for school, consisting of egg sandwiches, celery, milk, apple and marguerites in the short time of five minutes.

Miss Edna Hagerman came last with a simple lunch of welsh rarebit, crackers, sandwiches, pickles, marguerites and coffee, which she prepared in twenty-eight minutes.

The attendance was very good, there being many town people present.

## ELECTRIC CLUB PLANS BIG ELECTRIC SHOW

Committee Appointed to Renew Big Electrical Event. Will Have Elaborate Lighting Scheme.

At the meeting of the Electric club Friday, Glenn Luther was unanimously elected manager of the electric show which the club will hold some time next spring, and the following committee was appointed to formulate plans for the show: J. K. Truman, Alden Webster, Glenn Luther, Hamilton Steel and Wallace Fisher.

The committee met Tuesday afternoon, when it was decided to see President Hamilton and the tournament committee about holding the show next spring while the basketball tournament is going on. It fell to the lot of Wallace Fisher to look after the commercial exhibits. Each member of the committee was given the power to appoint as many helpers as he needed.

JOHN C. TAYLOR, '12.

If present plans hold good, the coming exhibit will be an even greater success than any of the previous shows. A great portion of the campus will be illuminated by arc lights and long strings of incandescent lamps. All the machinery of the electrical department will be running during the entire show and there will be numerous special exhibits gotten up for the occasion.

Many of the manufacturers of electrical supplies have contributed specimens of their wares to the show heretofore, and it is thought that exhibits of this nature will be larger this year than ever before because of the increased prestige of the institution among these concerns.

## BOOSTER DANCE A PLEASANT ONE

The first of the series of Booster dances to be given this winter occurred last Friday evening in the drill hall. While the proceeds were not sufficiently large to buy several pianos and some marking machines for grid-irons, a neat sum was realized.

Refreshments, light ones, were served and a general good time enjoyed by about fifty couples. The feature of the evening was the moon dance, in which a real moon appeared over one of the basketball back stops.

## TO DEBATE VARSITY

FINAL DETAILS ARRANGED FOR FIRST MEETING ON PLATFORM OF TWO COLLEGES.

## WILL OCCUR AT MISSOULA

Question is on Federal Charter for Inter-State Corporations, Varsity to Choose Side.

Last Thursday afternoon the final negotiations for the debate with the University were completed by the decision of the Debating association to submit the question, "Resolved, That all corporations carrying on interstate commerce shall be required to take out a federal charter."

The debate is scheduled for the latter part of February or the first part of March in Missoula. Next year the University will debate here, and during these two years it will be necessary for the college to make good along this particular line of work if any extension is to be hoped for in the future. The tryouts for this team will be held in December shortly after the freshman-sophomore debate and everyone in this debate as well as others in the college who are interested are urged to take an active part in the contest for places. The University will be certain to have a strong team and nothing but the best that the college has to offer should be sent to Missoula.

A committee consisting of Professor Gilruth as chairman, Mr. McGuire and Mr. Winter was appointed to consider a few changes in the constitution and to report at the next meeting. A change in the requirements for membership will probably be made, not with a view to lowering the standard but rather tending to eliminate those who persist in being absent from the meetings and thereby prevent the action of the other members.

## INTERESTING PAPERS AT AGRICULTURAL CLUB MEETING

The Agricultural club held its regular monthly meeting Monday noon in Prof. Clark's class room. As there had been some dissatisfaction as to the time of meeting, President Geo. Morgan appointed LeRoy Willey, Homer Millegan and Rowland Haegele as a committee to select a more convenient hour and to report at the next meeting. Arthur Seaman reported a surplus of \$50 in the treasury as a result of the benefit dance given last Friday night.

George Cook gave a short talk, which took the form of reminiscences of his term in the Butte industrial school. Mr. Cook had charge of the industrial farm during the summer, and his success in that capacity speaks well for this school, which he represents.

LeRoy Willey read an interesting paper entitled "Why Silos are Sure Money Makers." Mr. Willey went on to show that a silo was a great saver of space, time and labor, besides furnishing all kinds of stock with green feed at a minimum cost throughout the winter; and the fact that proved most conclusively its value is that the farmers who are now using silos would not do without them.

Roy Clark addressed the meeting on the subject of "Alfalfa as a Farm Product." Mr. Clark, who has had considerable experience in raising alfalfa in Chouteau county, stated that as a dual purpose crop, alfalfa is second to none, as it builds up the soil and at the same time is a good feeding crop.

GEO. W. MORGAN, '12.

# The Weekly Exponent.

Established Jan. 1, 1910  
Outgrowth of Monthly Exponent, es-  
tablished Jan. 1, 1895

Published every Friday of the Col-  
lege year by an editorial staff chosen  
from the students of the Montana  
State College of Agriculture and  
Mechanic Arts.

Bozeman, Montana

Subscription rate—Two Dollars per  
year, five cents per copy. Advertis-  
ing rates made known on application.  
Entered as second class mail mat-  
ter at Bozeman, Montana, under Act  
of Congress of March 3, 1879.

The Weekly Exponent is strictly a  
student enterprise. Its chief pur-  
pose is to present to its readers each  
week an accurate and complete re-  
cord of the developments in college  
affairs during that period and it is  
intended that its influence shall be  
exerted for the upbuilding of M. S.  
C. The paper is the result of volun-  
tary effort put forth by the stu-  
dents who compose the staff.

### CALENDAR.

Nov. 17.—Civic League, Francis J.  
Honey.  
Nov. 24.—Boosters' dance, Drill  
Hall.  
Nov. 30.—Thanksgiving recess.  
Dec. 1.—Recital, School of Music.  
Dec. 4.—Civic League, Dick Ber-  
gen Co.  
Dec. 8.—Civic League, Laurant.  
Dec. 15.—Freshman-Sophomore De-  
bate.  
Dec. 20.—Beginning of Christmas  
holidays.

### PATIENCE REWARDED.

After years of striving, the debaters  
of the State college have succeeded  
in getting a debate scheduled with  
the State university. The final de-  
tails of the meeting on the platform  
were arranged this week and now it  
remains for this institution to put up  
a fight at the contest which will re-  
turn a coveted victory and that means  
that patience and perseverance must  
be displayed by the ambitious speak-  
ers here in preparing for that strug-  
gle.

It is evident on the face of it that  
this college is going against odds in  
meeting a team which may be largely  
composed of law students, men who  
have the time, inclination, and ability  
to put up a strong debate. But that  
does not deter the local enthusiasts  
from going into it with a determina-  
tion and confidence which will win  
support and approbation.

For debaters here it is an opportu-  
nity which has long been desired.  
Now that it is within reach, no pains  
should be spared to turn out the very  
best arguing machine of which the  
college is capable. Then, if the vic-  
tory does not adopt the colors of blue  
and gold, it will be because of the  
excellence of the opponents and not  
of the weakness of this institution.

The opening of debating relations  
is another means of cultivating and  
maintaining a pleasant rivalry be-  
tween the two institutions and that  
should be the object on both sides.  
Excellent training and experience will  
be afforded on both sides, in just the  
degree of seriousness with which the  
contest is approached, and victory  
should be only an incident to a good  
debate. Years after the contestants  
will find the value of the training,  
not in victory or defeat, but in the  
actual gain in knowledge and power  
of observation, research and reason.

Give the event a good start and it  
will probably become one of the fixed  
events of the institutions, and the  
benefits will go on accumulating  
through all time. It should be the  
ambition of every freshman to repre-  
sent his college on the platform at  
least once, and probably no greater  
honor and development could be ob-  
tained than in debating against the  
natural rival of this institution.

### A BIG PRIVILEGE.

Aggressive progress is symbolized  
in the scheduling of the big trip for  
the State college stock-judging team  
which begins the last of next week.  
A good showing at Chicago would aid  
materially in bringing to the atten-  
tion of the civilized world the impor-  
tance of Montana as a coming leader  
among the states. The victory of  
Montana products in winning four out  
of five possible firsts in the grain  
competition last week started atten-  
tion toward the state, the work of the  
team from this college will aid in

holding it there.

Frankly, the State college is to be  
congratulated upon having undertaken  
to be represented at the big stock  
show in Chicago. And with equal  
frankness the statement is ventured  
that Montana will be well represented  
there. Each succeeding year sees  
new enterprises taken up and new  
plans formulated, making it evident  
that the pioneer days for this college  
are not over yet, if pioneer means  
the beginning of new projects.

But to return to the stock team.  
The trip to be taken by that collec-  
tion of Montana State's best students  
will consume three weeks of time,  
will take them over about 5,000 miles  
of railroad, and will give them an  
opportunity of seeing about a dozen  
of the important institutions of higher  
education in the east. It is to be  
hoped and expected that they will re-  
turn to Montana State with broadened  
ideas and teeming with plans suit-  
able for adoption here. During the  
remainder of their college career they  
will be looked upon as the leaders of  
thought and will be expected to mod-  
ify and improve the general tone of  
student affairs.

The Weekly Exponent will endeavor  
to remain in close touch with the  
team during its trip and will publish  
reports from them each week.

### ALL NOT LOST.

With the abandonment of football  
for the season, affairs at the college  
have settled down into a regular  
rhythmic flow of study, with no central  
idea or ambition around which the  
energy of the student body has been  
able to concentrate. It will probably  
be some weeks before basketball can  
be said to have taken any important  
place in the immediate interests of  
the students. Meanwhile it is neces-  
sary to have a common rallying point  
and this is offered in the proposed  
cross country running for the inter-  
class championship.

According to present plans, this in-  
ter-class event should occur just be-  
fore Thanksgiving. At that time the  
cross country work should have put  
the men in good condition and the  
resulting contest should prove highly  
exciting. With a team of five men  
from each class entered, and possibly  
one each from the preps and short  
course men, the entire student body  
would find some element of interest  
and the run should therefore prove  
attractive to all.

And in conclusion, let it be said  
that this race, or contest, will not  
arrange itself. Each class should im-  
mediately choose men to act for them  
in the arranging of the event, and  
these men should proceed to the  
transaction of their duties. It seems  
generally agreed that conditions de-  
mand something of the kind, and it  
is time the leaders went out to get it.

### EXPONENT STAFF.

Notice has been received from the  
board of editors of the Montanan  
that pictures of the members of the  
Exponent staff are desired not later  
than December 1. The board desires  
individual half-cabinet photographs.  
A prompt response to the request  
is expected. This applies to every  
member of the staff, both Weekly  
and Supplement.

### ATKINSON JUDGE AT NEW YORK LAND SHOW

Bozeman people, as well as those  
of the entire state, were thoroughly  
elated last Saturday evening to learn  
that this county had won two out of  
the five prizes for grain offered at the  
land show in Madison Square gar-  
dens, and in addition that another  
first prize had gone to  
Cascade county, and still another to  
Billings, thus making four out of the  
five the property of Montana.

It was a splendid victory for Mon-  
tana and will mean much to her dur-  
ing the years to come. Dr. W. J.  
Hartman of Bozeman, won first for  
oats; R. Eisenga of Manhattan, took  
first on barley; and Yellowstone coun-  
ty got first on alfalfa, and Cascade  
county first on wheat. These prizes  
were granted in competition open to  
the world and thousands of specimens  
were entered.

The show was of especial interest  
to the college, inasmuch as Prof. A.  
A. Atkinson, head of the agronomy  
department here, was one of the three  
judges of grains. Prof. Atkinson  
wired the result of the judging to  
President Hamilton as soon as they  
were known. In justice to the popular  
agronomist it should be said that the  
samples judged were marked only by  
code not understood by the judges  
and that they had no means of know-  
ing the source of any of the products  
they were scoring.

The awarding of four out of five  
prizes to Montana conclusively proves  
what has long been believed by the  
leading men of the state, that Mon-  
tana has an agricultural future un-  
equalled in history. Products of the  
state will be entered at St. Paul at  
the Northwestern Land show this  
month and it is hoped that further  
honors may be brought to the Treas-  
ure state.

### GALLATIN OUTPLAYS BUTTE IN SCORELESS TIE

Last Saturday afternoon the Gallat-  
in high school football boys played  
the Butte high in Butte to a scoreless  
tie. This was the first clash between  
the two teams for two years and re-  
sulted somewhat to the surprise of  
the Butte supporters.

According to the Butte papers, Gal-  
latin had a margin of strength over  
their opponents in almost every de-  
partment of the game but were pre-  
vented from scoring by a peculiar  
combination of circumstances. The  
work of all of Gallatin's men was  
good, Fleming especially deserving  
credit for his heady handling and re-  
turning of punts on a muddy field  
with the snow descending in a blind-  
ing sheet.

Many who saw the game declare it  
to have been one of the best they  
ever saw. Both sides were playing  
hard and were in the game every  
minute. Gallatin threatened the Butte  
goal several times and Butte was in  
the shadow of Bozeman's posts at  
least once.

Efforts are now being made to bring  
Butte here on the 18th, 24th or 25th  
of this month for the return game,  
which would in all likelihood decide  
the state championship among the  
high schools. Should the game be  
arranged it is conceded that it will  
attract the largest crowd that Boze-  
man ever sent to a football game.  
The entire college would attend and  
the high school has a strong support  
down town which would help swell  
the total attendance.

### FRESHMEN SUCCEED IN ELECTING OFFICERS

After two weeks of vain endeavor,  
the class of '15 last Monday elected  
their representative to the student  
Senate. Albert H. Anderson of Boze-  
man, was unanimously elected, Noah  
Kirby at the same time being elected  
representative of the class on the ex-  
ecutive committee of the athletic as-  
sociation. Mr. Anderson's election is  
a fitting token of appreciation for  
his disinterested work for the class,  
and no better person could have been  
chosen.

Mr. Kirby has always been promi-  
nent in various forms of athletics,  
and it was the unanimous opinion of  
the class that the athletic committee  
was the place for him.

### BURFIEND ELECTED CAPTAIN OF '14 TEAM

Last Friday the class of '14 held a  
short meeting, at which the election  
of a treasurer to succeed Horace S.  
Davis, the election of a basketball  
captain and several financial matters  
were disposed of.

Owing to being overloaded with  
work, Mr. Davis was compelled to re-  
sign from his position of treasurer,  
and to succeed him Max W. Kenck  
was chosen. Henry Burfiend, who  
starred for the class last year in in-  
ter-class basketball, was next chosen  
for the position of basketball captain.

After instructing the treasurer to  
pay off all class bills and deciding to  
assess all members of the class who  
cut meetings a fine of ten cents, the  
meeting adjourned.

### REV. PARKER SPEAKS TO GIRLS OF BIBLE STUDY

The regular Y. W. C. A. meeting  
Monday was devoted to Bible study.  
Rev. E. J. Parker of the Christian  
church, conducted the class, speaking  
on the framework of the Bible. He  
discussed the different divisions of  
the book in a very interesting way,  
illustrating his talks with a chart.  
At the close of the study Vie Vallean  
sang "One Sweetly Solemn Thought."  
The first meeting of every month  
is to be devoted to Bible study, and  
Rev. Parker will speak next time on  
"Why I Believe in the Bible." He is  
known as a splendid Bible student,  
and all the girls who were present  
Monday are very enthusiastic about  
the work.

A flower shop, to be officially known  
as the Yale University Flower Shop,  
is to be started at Yale under the  
management of the bureau of ap-  
pointments. The managers for the  
store are to be chosen from the ac-  
ademic sophomores and Sheffield fresh-  
man classes.

### Puffs of Pleasure

We can suit your cigar taste exactly  
for we sell everything in the cigar  
family from little cigars and cheroots  
to finest perfectos or panetalas, and  
keep them in

### Perfect Smoking Condition

Our modern storage cases keep  
your smokes in just the right degree  
of humidity and temperature, and you  
get exactly what you want all the  
time.

All the popular cigars including the  
famous "National" Brands.

### Rose Drug Company The Rexall Store

### CHAMBERS-FISHER CO. ALWAYS RELIABLE

### Men's Warmer and Better Underwear

Heavy Cotton or all weights Wool  
in separate garments or Union Suits.  
Silver grey, fancy gray stripes and

### College Notes

Miss Emma Moore was Myrtle Alderson's guest at dinner Sunday.

Horace Davis took dinner with Mrs. Herrick at Hamilton hall Sunday.

Miss Verna Valleau spent the week end with her sister, Vic, at Hamilton hall.

William B. Vestal, jr., lunched at Hamilton hall Sunday evening with Mrs. Herrick.

Margaret Edwards, '12, has taken the position of assistant librarian vacated by Mildred Eckels.

Prof. R. A. Cooley is out this week on college extension work. He will lecture to the high schools at Big Timber and Columbus today.

C. A. Whipple, state land examiner, was in the city Sunday on a brief visit with his son, Charles Whipple, of the freshman class.

President J. M. Hamilton was a speaker at the Park county teachers' institute at Livingston Wednesday, returning to the college that evening.

Noah Kirby of the freshman class, who holds the welterweight wrestling championship of Montana, will wrestle tomorrow evening at Three Forks with Al Kunzie, a promising young mat artist of that place.

Charles Alward of Polson, arrived in Bozeman Sunday, after playing football at Missoula Saturday, and will return to his home today. He will be accompanied by Mrs. Alward, who has been visiting her sister here for some weeks.

At a meeting of the preparatory students Thursday, the name "Declamatory Society" was adopted. Mrs. Herrick, who has charge of the society, gave an interesting talk on languages of the different nations and gave several of her experiences with foreigners.

Next Sunday evening service at the Christian church will be devoted to Christian Endeavor work. The Christian Endeavor society has undertaken the work of raising money to support a home missionary in Montana during 1912. Over half the amount necessary has been secured. The offering Sunday evening will go to this work. Rev. J. E. Parker will deliver a sermon appropriate to the occasion. All are cordially invited.

**GLEASON'S**

George Darlington, a student in college about ten years ago, was a visitor in Bozeman last Saturday. Mr. Darlington retains a strong interest in the institution and is always working in its interests. He was one of the faithful amendment workers a year ago.

Mrs. R. W. Fisher is visiting friends and relatives in Bozeman while her husband, Prof. R. W. Fisher, is attending the big land show in New York. Prof. Fisher will visit a few days here on his return and then proceed to his fruit interests in the Bitter Root.

V. S. Conner has been chosen by the students of the preparatory department as manager of the basketball team for the preparatory school. It is the intention of the basketball team to have several games with the high school and the different classes. They expect to give the other teams some hard arguments.

Mrs. L. J. Snow of Rockford, Ill., is stopping in Bozeman for a short time while on her way to Evansburg, Washington. Mr. and Mrs. Snow are the originators of the Snow system of drafting patterns which is in use in the home science department here. While here Mrs. Snow is giving a few short talks to the students of that department on her work.

Miss Mildred Eckels of the sophomore class, was called to her home at Forsyth the first of the week by the illness of her mother. Mrs. Eckels will be taken to Rochester for an operation this week and all the many college friends of Miss Eckels wish her mother a speedy recovery. Miss Eckels expects to return to her college duties about the first of the year.

Miss Ellen Olson was tendered a happy surprise last Thursday evening after the Ladies' chorus practice, the occasion being her birthday. During her absence from her room in the hall a number of the girls busied themselves preparing for her reception. A dainty repast was served, and Miss Olson was the recipient of many good wishes from the surprising party.

A report came from Livingston last Friday to the effect that Charles T. Sacket, a graduate of the State college and a leading engineer at Livingston, was lost and had not been heard from for two months. Denial was immediately obtained from the Sacket family, who live in Bozeman, and the fears of the friends of Mr. Sacket allayed. According to Nathalie Sacket, a sister of the supposedly missing man and a junior at the college, the family hear from him quite often. He left some two or three months ago on business which would take him into Mexico. He has now returned to the United States and is in San Diego for a few weeks.

### PRESIDENT HAMILTON ENTERTAINS AT DINNER

Wednesday evening President Hamilton delightfully entertained at dinner in the home science dining room. The room was decorated for the occasion and the large cluster of mission lights cast a mellow, home-like glow over the artistically decorated table. The center of the table was covered with a pleasing arrangement of large red and yellow asters mingled with the autumn shrubbery which is so beautiful at this time of year. At either end of the table was a mission candlestick with four candles.

Those present were Judge and Mrs. F. K. Armstrong, Mr. and Mrs. E. B. Martin, Mr. and Mrs. R. E. Brown, Mr. and Mrs. Justin M. Smith, Mrs. C. S. Hartman and Miss Flora Hartman.

### BOOSTERINES PLANNING FOR BUSY YEAR

At a meeting of the Boosterines last Friday a lengthy discussion of plans for the coming year was entered into. No action was taken farther than to appoint several committees to look into the projects. The girls appear reticent when asked concerning the business under consideration, but it is gathered that a busy year will be mapped out in the near future.

The Boosterines during their two years of existence have performed some laudable tasks for the college and it is hoped their activity will continue to grow.

### UNIVERSITY DEFEATS POLSON.

College people were much interested in the football game between the university eleven and one from Polson last Saturday at Missoula. The final score was 28 to 6 in favor of the 'varsity. Pool, well remembered as one of the best athletes ever turned out by the State college, played his old position of left end. According to the published accounts of the game, his work was spectacular and fully up to his former high standard. Captain Alward, of the Polson team, is also well known here, being a Bozeman boy. He won recognition from the press as a heady and sure player. The Polson boys had things pretty much their own way in the second half and it was then they scored their touchdown. In the first two quarters the 'varsity recovered two kickoffs and forced the ball on over for touchdowns. Another forward pass gave the 'varsity men a clear field for a touchdown and an onside kick added to the score. The fifth touchdown was by straight football through the right side of the Polson line.

Polson is anxious to arrange another game with the 'varsity and may play them on Thanksgiving day, the date vacated by the withdrawal of the State college team from the football field.

### FRESHMAN AND SOPHOMORE CLASSES.

Individual photographs for the 1913 Montanan must be taken before December 1. The photographs are half cabinet in size and will be taken at Schlechten's Studio. The photographer will make special rates to students.

### NOTICE SOCIETIES.

The 1913 Montanan desires group pictures of every society and organization in college immediately. The board has made special arrangements with the Schlechten Studio for taking these pictures. December 1 is the latest date at which they will be acceptable.

### ATHLETES STILL INDULGE IN CROSS COUNTRY RUNNING

This week has seen a continuation of the program of cross country running begun last week and a goodly squad has been out every alternate evening. So far the distance covered has not been very great, but it is gradually increasing and will reach five miles about the last of next week.

The plan of procedure has been interfered with somewhat by stormy weather, making it necessary for the ambitious athletes to confine their runs to the quarter mile track south of college hall. On Monday evening, however, the road running west from the practice field was utilized. Coach Dockstader employs a horse to keep up with his men and frequently finds it necessary to change horses.

About forty men are on the squad at present, most of these being prospective basketball men. It is not possible yet to tell much about individual ability, as the runs have not been long enough, but it is quite apparent that there are some good sprinters and some men of big endurance in the squad. It has now been decided by the men that they will hold the inter-class cross country contest just before Thanksgiving, though no steps have been taken to arrange for it.

Immediately after the Thanksgiving vacation the real basketball practice will be taken up and the drill hall will then become the scene of some lively practice. Wrestling will begin at the same time, Noah Kirby

to be in charge of the class in this sport.

It is the present plan of the coach to give the track men a set of regular exercises during the winter in order to keep them in good condition. They will be required to report three or four times a week at the drill hall for this work. The basketball men will be exempted from these special features of training.

Manager L. L. Hill announces that no games have yet been scheduled for the basketball team, but a number of offers are under consideration, the final plan depending upon the way the team lines up before Christmas. It is quite likely that the Triple B's will be played in Billings about that time and probably a return game will be played here about the close of the season. The university will probably be good for two games on the schedule, and Polson is clamoring for a game for their crack organization, which includes Pool, the former college star.

In addition to these games there are contests in view with Townsend, the School of Mines and the University of Utah. Later on it is possible that a series of games in Idaho, Washington and Oregon will be arranged. If the college team develops as it promises to do, the coach and players believe they would be warranted in undertaking a schedule which would include the Washington State college, the Idaho university, Oregon Agricultural college, Gonzaga college and probably Whitman and the University of Washington.

Georgetown university has issued an edict that there should be no organized rooting or yelling at baseball games.

W. E. CHAPMAN, '13.  
Bus. Manager Engineering Journal.

### PRESIDENT HAMILTON ADDRESSES Y. M. C. A.

Last Sunday afternoon President J. M. Hamilton addressed the Y. M. C. A. at its weekly devotional meeting, taking for the subject of his talk the words which appear over the main entrance to the Colorado college: "Ye shall know the truth and the truth shall make ye free." In defining these words President Hamilton explained that truth meant conformity to both the spiritual and the material. It is the duty of the people to find out what the truth is, and then pursue it.

The opposite of truth was defined as error, which was compared to the growth of bacteria in dark, damp places. Error ceases to flourish when exposed by publicity, as bacteria growth is retarded when put in the sunlight.

President Hamilton emphasized the fact that men are needed to think out ways of getting at the truth concerning graft in the political and commercial world, and then to expose it, for the most powerful instrument in the world for truth is publicity.

About 25 people were present at the meeting, which proved very instructive to all.

A short business session was also held at this meeting. The committee on the college calendar reported good progress, but had no plans to present to the association. Geo. Roosevelt, '13, was elected as treasurer to succeed Geo. Morgan, '12, who was forced to resign on account of having more units than is allowed by the student Senate.

Next Sunday the regular meeting of the Y. M. C. A. will be held in the social rooms of the Presbyterian church. M. R. Wilson has promised to talk so that something of the first order is assured.

### LEADING PHARMACIST COMPLIMENTS M. S. C.

In speaking of the recent examination for pharmacy registration papers, Sid J. Coffee, secretary of the state pharmacy board, had the following to say:

"This class," said Mr. Coffee, "was one of the best that has ever been before the board, which is evidence of the fact that a higher and better development of the profession exists. Many of the candidates were graduates from eastern colleges of pharmacy, showing that the young pharmacists of today are developing them-

HAROLD WOLPERT, '12.  
Editor Montana Engineering Journal

selves into professional men and taking the necessary steps at the beginning of their careers to fit themselves for successful business. It is probably not generally known that Bozeman, in connection with the State college, has a very excellent course of pharmacy. The work as done there is not only satisfactory but is better than many of the older eastern colleges. There should be no necessity for the man who wishes to learn pharmacy to go to an eastern college. The state board recognizes the graduates of this institution and registers them without further examination. There are about 300 registered pharmacists in this state, all of whom, except the graduates of Bozeman, have passed the regular state examinations. The board does not recognize the certificates of other states nor the diplomas of other colleges than the Bozeman institution. The rigid enforcement of this law has kept out of this state much of the cheap and incompetent class of druggists that would flock here were the board more lax. Consequently Montana has the best class of druggists to be had, and these professionals are able to command a good scale of wages.

"We have in this state a number of women pharmacists also. This practice offers a tempting field for women, they being quick to learn and are usually very successful. I have often wondered why more of them do not take up this work."—Missoula Sentinel.

Mr. Coffee is a resident of Missoula and one of the leading druggists of the state.

### 1915 DEBATE TEAM CHOSEN SATURDAY

Lyndall Davidson, Bryan Davis and John Farrell, with Mark C. Pickerel as alternate, will debate for the freshmen in the contest with the sophomores. These were picked in the preliminaries held in assembly hall last Saturday evening. The speakers were divided and a regular debate was held, A. E. Linfield, John Farrell, Mark Pickerel and Willa Sultzer speaking on the affirmative and Lyndall Davidson, Sarah Wells, Frank Gray and Bryan Davis on the negative.

Prof. I. T. Gilruth and Miss Myrtle Alderson, of the '13 class, acted as judges.

The sophomore team will be picked today, when Horace Davis, Harry Dietz, Selmer Solberg, Willard Atkins and William Winter will debate in their preliminaries.

### HAD TWO EDITORS (Continued from page one)

printed on heavy enameled paper, with a first grade of copper halftone work on fine screen. The binding last year was Texoderm, that of previous years was cloth.

Though the annual is put out by the junior class, it is a product of the entire school and embodies each year many ideas which come from different students and other sources. The staff is always glad to receive helpful advice and co-operation. In fact, the hearty support and assistance of the entire student body is necessary to making a success of the annual. In past years the book has always reflected credit upon the institution. It represents a tremendous amount of work and deserves a place in the collection of souvenirs and mementoes of every student.

The book is distributed about May 20 each year and contains a pictorial and written record of the chief events of the year. It is one of the most valuable features of college life, and serves in after years to recall many pleasant memories of those times.

The staff this year is rather late in starting the work of compiling this book, but with a continuation of their present energetic attack upon their task, there should be no tardiness in its appearance next spring.

### TEAM CHOSEN FOR CHICAGO TRIP (Continued from page one.)

visit his old home at Galesburg, Illinois, and Messrs. Hansen and Morgan will visit in Kansas and Nebraska.

Prof. Griffin, when asked concerning the prospects for the trip, was not over-confident, but appeared certain that his men will make a good showing. "Our team," said Mr. Griffin, "is made up of men who are mature and of sound judgment. The essential of a good appearance is possessed by all and in addition they have the rugged confidence in themselves which is characteristic of the western man. They are quick to assimilate new ideas and are thoroughly familiar with the stock industry. I feel confident that they will keep their heads during the contest as well as any man can, and look for them to surprise some of the older and more conservative eastern men.

"They will be competing with ten of twelve teams of five men each from ten or twelve colleges from other parts of the United States, and will have the distinction of coming from farthest west. Sixteen classes of stock will be judged, five individuals in each class. The work of inspecting these and of giving reasons for the classification will continue throughout the day of the contest. It will probably be the biggest strain to which any members of the team have ever been subjected, and should they succeed in placing well up in the list it will be the biggest honor for which Montana State could hope.

"This trip," continued Prof. Griffin, "will be the biggest educative factor for the men who take it that could possibly be crowded into three weeks. It is a prize which, in itself, is well worth the time taken to secure a college education, and should the custom of sending a team to Chicago become permanent, it will likely prove a great drawing card for ambitious students."

In connection with the personnel of the team, it might be said that it would be hard to select a more representative quintette. All five are distinctively Montana men, either in birth or in adoption of the Treasure State as their home. All are mature, four are seniors and one junior. Their efforts in Chicago to land the big prize for Montana State will be watched with breathless anticipation by the entire state and especially at its big college.

The 14's and 15's at the Oregon Agricultural college expect to work over their surplus energy in a novel way, that of a bag picnic.
