

THE WEEKLY EXPONENT.

VOL. 3

BOZEMAN, MONTANA,

FRIDAY, JANUARY 26, 1912

No. 13.

M. S. C. ALUMNI MAKE GOOD IN WORLD

SCATTERED THROUGHOUT THE U. S. AND SEVERAL FOREIGN COUNTRIES THEY ARE EXTENDING THE INFLUENCE AND REPUTATION OF THE COLLEGE—ALL ARE EMPLOYED.

MANY FOLLOW WORK BEGUN IN COLLEGE, SOME HAVE BRANCHED

List Shows That Biggest Per Cent are in Practical Work Which M. S. C. Prepared them for—Others are in Professions, for Which They Prepared After Leaving this Institution—Some Engaged in Business of Own.

Despite the fact that the State college is one of the newer institutions of learning the alumni hold to their credit many good positions throughout the commercial world. Not a one so far as can be learned by this paper, is out of work for want of a position. Many hold positions with this and other governments and from the addresses we find that the M. S. C. is represented from coast to coast and also in South Africa, Europe, Brazil, Uruguay and other foreign countries. They are making good and are spreading the name of Montana State over the world.

The positions held by most of the students would indicate that they are practicing the profession for which M. S. C. prepared them. Some have opened offices of their own. Others have taken up special work leaving the course as originally planned and not a few have used this college for the purpose of securing a general education, afterwards taking work elsewhere and now they are engaged in the practice of law or medicine and other professions.

The following list speaks for itself:

Allen, Elbert B. S., 1903—Attorney at law, Livingston, Mont.

Alward, Mary L., B. S., 1908—Teacher Gallatin County high school, Bozeman, Mont.

Annin, James T., B. S., 1911—Columbus, Mont.

Baker, Harold E., B. E. E., 1907—Superintendent Butte sub-station, Missouri River Power company, Butte, Mont.

Barnard, Robert B., B. S., 1910—Westinghouse Electric company, Pittsburgh, Pa.

Bancroft, Ray E., B. S., 1911—Fruit inspector, Billings, Mont.

Bell, James C., B. S., 1911—Graduate student Montana State college.

Benton, Ralph, B. S., 1906—Instructor in entomology College of Agriculture, University of California, and assistant entomologist in charge of agriculture, California experiment station, Berkeley, California.

Bole, Wm. S., B. S., 1906—County physician and county health officer, Great Falls, Mont.

Booker, C. T., B. S., 1911—General Electric company, Lynn, Mass.

Blankenship, Hon. E. V., 1898—Farming and stock raising, Bozeman, Mont.

Brewer, Lucile, B. S., 1909—Matron Women's hall, Montana State University, Missoula, Mont.

Breneman, Annie T., B. S., 1907—Teacher in Eighth grade, Bozeman, Mont.

Brown, Archie S., B. S., 1910—Electrical engineer, Bremerton Navy yards, Bremerton, Wash.

Brown, Edith E., B. S., 1904—Mrs. John Milloy, Regina, Sask., Canada.

Bull, Edna, B. S., 1909—Mrs. Guy Kirscher, Townsend, Mont.

Bull, Frieda, B. S., 1907; M. S., 1909—Instructor in mathematics, Montana State college.

Burke, Edmund, B. S., 1907—Chemist and meteorologist of the Montana Agricultural Experiment Station.

Butter, Donald, B. S., 1909—Electrical engineer, Washington Water Power Co., Seattle, Wash.

Caldwell, Thomas O., B. A. C., 1899—Leasing on Gold Reef and Maginnis Mine, Gilt Edge, Mont.

Carmichael, Effie, B. S., 1910—Instructor in domestic science in public schools, Lewistown, Montana.

Carr, Irene, B. S., 1911—Mrs. Claude Meserve, Bozeman, Mont.

Chaffee, Sarah C., B. S., 1906—Mrs. Rudolph Beseker, Rathdrum, Idaho.

Clark, Ben A., B. S., 1911—Farming, Springdale, Mont.

Clark, Grace, B. S., 1911—Teacher in home science, Methodist church and government school, Rhodesia, South Africa.

Cockrill, Irvine, B. A. C., 1900—Osteopathic physician, Kirksville, Mo.

Collins, W. E., B. S., 1902—Trust officer of State Savings bank and attorney, Butte, Mont.

Cooke, Amy, B. S., 1908—Mrs. Geo. Ambrose, Salt Lake City, Utah.

Cowan, Lewis, B. C. E., 1904—Irrigation engineer, Bozeman, Mont.

Davidson, Mary E., B. S., 1910—Deaconess Training school, Chicago, Ill.

DeMuth, Maud S., B. S., 1907—Mrs. W. D. Tallman, Bozeman, Mont.

Driscoll, William J., B. S., 1908—Civil engineer, Lawrence, Mass.

Edsall, William S., B. S., 1911—Westinghouse Electric Co., Wilkesburg, Pa.

Edwards, Timothy, B. S., 1909—Draughtsman, N. P. R. R., Livingston, Mont.

Ellis, Edward M., B. S., 1911—General Electric Co., Lynn, Mass.

Fisher, Charles M., B. S., 1908—Electrical engineer, Washington Water Power Co., Spokane, Wash.

Fisher, Helen, B. S., 1910—New York City, N. Y.

Flager, Harold J., B. E. E., 1907—Electrical engineer, Seattle Electric Co., Seattle, Wash.

Flager, Howard A., B. E. E., 1906—Real estate business, Red Lodge, Mont.

Flager, Ruth, B. S., 1910—Instructor in sewing, Butte high school, Butte, Mont.

Flaherty, Charles David, B. C. E., 1904—Civil engineer, firm of Sackett & Flaherty, Livingston, Mont.

Foster, Florence, B. S., 1896—Mrs. Burton Flemming, Iowa City, Iowa.

Fox, Hazel, B. S., 1910—Teacher rural school, Bozeman, Mont.

Freeman, Beatrice B. S., 1900—Mrs. Thomas S. Davis, Columbus, Mont.

Freeman, W. B., B. C. E., 1903—Consulting civil engineer, Denver, Colo.

Froeb, Frank J., B. S., 1911—Local representative of E. B. Clark Seed Co., Bozeman, Mont.

Gardiner, Henry C. B. S. A., 1903—Veterinarian and Agricultural expert, Anaconda Copper Mining Co., Anaconda, Mont.

Gottschalk, Carl, B. S., 1909—Assistant in Chemistry, Bozeman, Mont.

Griffith, Warren J., B. E. E., 1907—Electrical engineer, Washington Power Co., Spokane, Wash.

Haines, William T., B. S., 1911—Instructor in Electrical Engineering at Montana State college.

Ham, Frank W., B. S., 1903—Professor of physics, Montana State college.

Hamilton, Everett, A., B. S., 1911—Madison River Power Co., Norris, Mont.

Hartman, June, B. S., 1910—Instructor in music, Redfield, S. D.

Hartman, Lois K., B. S., 1907—Instructor in domestic science, University of Utah, Salt Lake City, Utah.

Hartman, Will, B. S., 1908—Civil engineer N. P. R. R., Bozeman, Mont.

Hawkins, P. H., M. S., 1903—Banker, Absarokee, Mont.

Henderson, Charles F., B. S., 1910—Westinghouse Electric Co., Pittsburgh, Pa.

Henderson, Lisle C., B. S., 1909—Missouri River Power Co., Canyon Ferry, Mont.

Higgins, Lucile, B. S., 1911—Graduate student and student assistant in physics, Montana State college.

Hinds, Bert S., B. S., 1909—Superintendent Power Plant, Madison River Power Co., Norris, Mont.

Hutton, Fred, B. E. E., 1902—Deceased.

Jacobs, Lillian, B. S., 1910—Columbus, Mont.

James, John S., B. S., 1909—U. S. Reclamation Service, Conrad, Mont.

STAGS TO ENJOY EVENING FORGETTING PAST

Will Initiate Fifty-nine New Members, Adjourn to Bozeman and After Feed Hold Gambling Session.

With examinations over, grades undetermined, books where they belong on the shelf, and the faculty forgotten, the College Stags will assemble for their eighth annual meeting, initiation, and general jollification under the protecting roof of Maxey's hall, at seven o'clock tonight. Upwards of fifty freshmen will drink the cup of hemlock, locally known as "catsup". This is being prepared by the upper classmen in accordance with a newly discovered recipe which has the approval of the home economics department and the initiating committee. As advertised elsewhere in these columns highest prices will be paid for five large, healthy, black cats on or before four o'clock this afternoon. All cats brought later than this will not be accepted, for the beverage must be given at least three hours to be brewed properly. Other nerve-racking, brain-destroying, howl extracting, contortion-producing stunts are being arranged by the goat, and all initiates are assured that they will have no cause to complain of lack of attention or insufficient treatment. If you ever expect to call on her again do not make a date for Saturday. Physical disability or a mental vacuum may interfere with polite conversation.

Immediately after the initiation the organization will adjourn to the Bozeman Hotel for its annual banquet. The "feed committee," at whose head stands the veteran "stag," Charles Homely Draper, has prepared a splendid "feed" and any sore spots if removable should have disappeared with the first glass of punch. The election of officers will follow the banquet and the meeting will then adjourn to the hall for further amusement until daylight or one's endurance gives out. Monte Carlo and other time diverting distractions have been prepared by the amusement committee and all loyal stags may assure their landlady that neither beds nor the household peace will be disturbed by an "early return."

SHORT COURSES NOW IN SESSION

HORSE SCHOOL WELL ATTENDED—HOUSEKEEPERS' COURSE PROVES DRAWING CARD—MANY FROM OUT OF TOWN.

PRACTICAL WORK GIVEN DAILY

College Instructors and People in Business Lecture to those Registered—Will Close Tomorrow—Those in Charge Well Pleased.

Two of the short courses which the college is giving this year are in progress this week, the horse school and the new housekeepers' course. The horse school opened with by far the greatest attendance on opening day that it has ever had and the good attendance has been kept up every day of this week.

A delegation of over twenty-five stockgrowers and farmers are registered in the course of instruction on horses, most of these being from outside points. The total who are attending some of these lectures is well over a hundred.

A regular program has been arranged for the week and instruction is given from nine to twelve, in the morning and from one to four in the afternoon. Lectures on every phase of horse raising, doctoring, and breeding are given and those attending the school who have animals that are diseased are invited to bring them for inspection.

A large amount of judging and clinical

(Continued on Page 4)

REGISTRATION TO BE COMPLETED TUESDAY

Those Who do not Appear Will be Assessed Special Fee of Two Dollars—Several New Students Expected.

New arrangements have been announced by Pres. Hamilton in regard to the plan which will be pursued in registering college students at the beginning of the coming semester. All the grades will be turned in on Monday by the different departments and the standing of each student determined. The registration committee will meet on Tuesday and on that date all students are expected to register.

Those failing to do so will be assessed a fee of two dollars, none of which will be returned, as no excuses are to be accepted. With registration completed the students will be ready to attend classes on Wednesday morning and the class room work will be put in full swing on that day, beginning at eight o'clock. Professor Tallman is working out a schedule and stated that it will be posted in the main hall on Monday morning so that everybody will be given an opportunity to arrange a course.

This plan is one which will mean system compared with those of the past at M. S. C. The usual plan has been to have registration take place on Monday and Tuesday and to begin work on some day later in the week—usually Wednesday. However there is no penalty attached for being late in registering and consequently the registration committee was kept busy throughout the first week while classes were not in full swing until the week following. This resulted in a great deal of confusion in getting started at the beginning of the semester, so with the opening of college last fall the plan of imposing a fine for late registration was adopted. This plan worked with very good results, and will be continued at the institution. But a short time is required for registration at the beginning of the second semester since there are but few new students entering, so the college intends to take care of this business in the length of time that it deserves.

President Hamilton states that he

(Continued on Page 4)

GOV. NORRIS ADDRESSES MEETING

STATE CREAMERYMEN HOLD SESSIONS AT COLLEGE ON WEDNESDAY AND THURSDAY—DAIRYMEN ATTEND.

IMPORTANT RESOLUTIONS MADE

Urge State Board to Allow College to Run Creamery on Commercial Basis—Will Greatly Add to Efficiency of this Course.

The Montana Association of Cooperative Creameries have been holding a two days meeting at the college, the principal features of these meetings being an address by Gov. Norris on Wednesday and the adoption of a set of resolutions in regard to the college creamery.

Governor Norris spoke at the afternoon session on Wednesday in the college assembly hall and to give everybody an opportunity to hear him the horse school and housekeeper's course left their regular schedule and several of the examinations that were to have been held were postponed. The theme of the governor's speech was the resources and the future of the state of Montana and his speech was greatly enjoyed by the large crowd present.

Resolutions were adopted because of the action of the state board last summer in prohibiting the college dairy to do business on a commercial basis. This greatly crippled the department of the college and the following resolutions were adopted by the association in regard to this matter.

(Continued on page two.)

COLLEGE QUINT DEFEATS CENTERVILLE

SCORE 30 TO 17 IN GAME, MARKED AT TIMES BY ROUGHNESS—THE BOYS LOUD IN PRAISE OF TREATMENT GIVEN THEM AT BUTTE—WILL PLAY INDEPENDENTS AT HELENA ON WEDNESDAY.

SCHEDULE FOR COLLEGE AND CLASS GAMES ANNOUNCED

Will Play Varsity on Saturday, February 3—Have Two Games With The Mines—Class Series to be Begun Wednesday—Will Settle Championship by Elimination—Final Game To be Played in Evening.

Smarting under the defeat of the week before, the basketball team of the State college last Saturday night triumphantly outplayed the fast Centerville Young Men's club team in Butte by a score of 30 to 17.

The college team completely outplayed the Centerville team in team work and in basket shooting, having a clear advantage in the forward positions and at center and an even break at the guard positions. Hartman was the particular star of the game, throwing seven of the team's thirteen baskets, and missing very few chances. Ross did very good work in his new position at forward. Hodgskiss, playing his first game this season, was also very good, staying with his man and always on top of a fumbled ball. Gosman, at guard, also played well as the low number of seven field baskets for Butte shows. "Wilcomb," says the Anaconda Standard, "had all the better of the Centerville man in the same position." The Standard has the following to say of the game:

"The Montana State College basketball team defeated the five of the Centerville Young Men's club in a well-played game at the Centerville gymnasium last night by a score of 30 to 17. The Aggies proved the better players. Their team work and individual work was better than Centerville's and their basket tossing much more accurate. Bozeman has a strong team this year and will give the other collegiate fives of the state a hard battle for the state championship. Centerville played a fast game last night using substitutes right and left in the hope of tiring the visitors. It proved of no avail, however.

"The first half of the game was a hard fought affair, but ended in favor of the Aggies. In the second session Centerville came back strong in the early part, but later the Aggies smothered their passes and retained possession of the ball the greater part of the time.

"The Aggies will play the School of Mines here at an early date and a hard fought game is looked for. Coach Robbins of the Mines witnessed last night's game. He believes the Miners have it on the Aggies.

The lineup: M. S. C.—Ross, right forward; Hartman, left forward; Wilcomb, center; Hodgskiss, right guard; Gosman, left guard.

Centerville—Lee Dugan, right forward; Gregory, left forward; Murphy, center; Harrington, right guard; Sullivan, left guard.

Baskets—For Bozeman, Hartman 7; Gosman, 2; Wilcomb, 1; Ross, 3; 4 foul baskets. For Centerville, Murphy 4; Gregory, 3; Murphy 4 foul baskets. Barish, umpire.

The members of the team returned Sunday morning loud in the praise of the treatment given them by the Centerville club. A banquet was prepared for them after the game and it was also the intention to give them a dance but owing to the fact that they had to catch an early train the boys could not remain for it.

The schedule for the team for the balance of the season has been announced and shows a rather hard schedule for the quint. Next Wednesday, January 31, they will play the Independents at Helena. This should be a hard fought game as the men are determined to avenge the defeat of two weeks ago. On the Saturday of that week, Feb. 3, they play the University in Missoula. The University has a team for the first time in many years and the results of this game will no doubt be of importance in the intercollegiate championship of Montana. The next Friday, Feb. 9, is the only vacant date left; for on Feb. 16 the team again plays away from home, with the Mines at Butte, the next Friday with the University here and

the last game of the season, March 1, with the Mines here, the next week being given over to the tournament.

CLASS BASKETBALL.
The schedule for the class series of basketball games has been given out by Coach Dockstader and the championship series is to be determined this year by the elimination series as it has been for several years past. It was announced through these columns some time ago that another plan would be used this year but owing to the large number of games that would be required to determine the champions in any other way it was decided to use the elimination method again this year.

The first game will be played on next Wednesday, Jan. 31, at the drill hall when the preparatory and short course students will determine which of their teams will remain in the contest for the finals. On the following Friday, Feb. 2, the two lower classes will engage in the struggle to remain in the contest and as the rivalry between these two classes is always very keen a hard fought contest is looked for on this date. Both of the classes have strong teams on the floor and both are working hard in anticipation of the coming contest. It has been decided that the members of the first team will not be eligible to play in any of the class games and this will make the teams much more even for otherwise the freshmen could have almost the first college team in their contests as four of the members of the first team belong to the first year class.

On the following Wednesday, Feb. 7, the two upper classes will meet on the floor and will determine which of their classes is to play in the final series. Not much is known in regard to the teams which these classes will put in the race but several members of these two classes have starred in former class games and the upper classmen should be counted on this year as having two good teams in the field for the interclass series, although these classes are not showing up strongly in material for the first college team. Last year the sophomores or the present junior class won the championship after a hard and exciting contest with the present senior class team and most of the members of these two teams are still in the college so these two classes figure strongly when it comes to the final reckoning.

With the close of this game three of the classes will have been eliminated from taking part in the finals and a game will be played off between two of the winners on the afternoon of the next Friday, Feb. 9. The two teams who are to engage in this contest are to be chosen by lot from the three teams who have won in the former contests and the winner of the game on this afternoon will be required to play the team which drew a blank.

The date for this, the final game of the series, has not been settled as yet, but it will be played off on some evening immediately after the last of the preliminary games have been finished. On this same evening the girls' teams will play a game to decide which of the classes has the championship team. Owing to the fact that the upper classes haven't enough material to make up two full girls' teams, the seniors and the sophomores will combine to defeat the combined juniors and freshmen. This game will thus settle the championship as far as possible for the coed teams. The relative standing of the two teams is not known as the present time although the present sophomores and seniors who were champions last year will be able to put practically the same lineup in all probability be able

(Continued on Page 4)

The Weekly Exponent.

Established Jan. 1, 1910
Outgrowth of Monthly Exponent, established Jan. 1, 1895

Published every Friday of the College year by an editorial staff chosen from the students of the Montana State College of Agriculture and Mechanic Arts.

Bozeman, Montana

STAFF

Editor-in-Chief...Chas. H. Draper, '12
Business Mgr...Chas. L. Hansen, '12
Assoc. Editor, Selmer H. Solberg, '14
Asst. Bus. Mgr...Geo. W. Morgan, '12
Circulation Mgr...L. B. Anderson, '13
Asst. Circ. Mgr...Ernest Border, '15
Northwest Editor...Ruth Stanton, '14
Alumni Reporter...Frieda M. Bull, '07
General Reporters
.....Myrtle Alderson, '13
.....Horace Davis, '14
.....R. L. Pettigrew, '15
.....Lyndall Davidson, '15

Subscription rate—Two Dollars per year, five cents per copy. Advertising rates made known on application. Entered as second class mail matter at Bozeman, Montana, under Act of Congress of March 3, 1879.

The Weekly Exponent is strictly a student enterprise. Its chief purpose is to present to its readers each week an accurate and complete record of the developments in college affairs during that period and it is intended that its influence shall be exerted for the upbuilding of M. S. C. The paper is the result of voluntary effort put forth by the students who compose the staff.

CALENDAR.

Friday, Jan. 26.—Stag Banquet; Deer Party.
Saturday, Jan. 27.—Lecture by Dr. Reynolds.
Tuesday, Jan. 30.—Registration for Second Semester.
Wednesday, Jan. 31.—Student Recital, School of Music Assembly Hall, 8:15 P. M.
Wednesday, January 31.—Prep-Short Course Basketball, Drill Hall, 4:00 P. M.
Wednesday, Jan. 31.—Basketball, Helena Independents vs. M. S. C., at Helena.
Friday, Feb. 2.—Freshman-Sophomore Basketball, Drill Hall, 4:00 P. M.
Saturday, February 3.—Varsity vs. M. S. C., at Missoula.
Wednesday, Feb. 7.—Junior-Senior Basketball, Drill Hall, 4:00 o'clock.
Friday, Feb. 9.—Bouffon's Dance. Elks' Hall.
Friday, February 9.—Semi-Finals, class series, Drill Hall, 4:00 o'clock.
Monday, Feb. 12.—Lincoln's Birthday. Legal Holiday.
Wednesday, Feb. 21.—Football Dance. Drill Hall.
Thursday, Feb. 22.—Washington's Birthday. Legal Holiday.
Feb. 23.—First annual debate of U. of M. vs. M. S. C. at Missoula.
Friday, March 1.—School of Music Recital, Assembly Hall, 8:00 P. M.
Friday, March 1.—Basketball, Mines vs. M. S. C., College Drill Hall.
Saturday, March 2.—Lecture by Dr. Reynolds.
Thursday—Saturday, March 7—9.—Basketball tournament.

To the Alumni of the Montana State College this issue of the Exponent is respectfully dedicated. The great opportunities which offer themselves to that body for the upbuilding and improvement of their alma mater give them added prestige and responsibility. May they prove deserving of the one and equal to the other.

DOWN TO WORK.

Exams are over and we are settling down to the routine work of the second half year. To the student in college the beginning of the second semester corresponds to New Year of secular life. It is the time when we balance our plans for the future. The general work of the school as indicated by the reports so far received, is perhaps a little above the average, yet there are a considerable number of "encores." We are perhaps in this respect little worse or better than other schools but there is a mistaken tendency on the part of the students at large to regard conditions and failures as matters of small consequence. Students fail to realize the importance of keeping their work up to a passing grade. Flunks must be made up some time and in the outcome require a great deal more time and worry than to keep up the work day by day, and moreover the work is never done thoroughly. One great cause of failures is procrastination—"I don't feel like studying today, and if I can get through the recitation somehow, I can make it up before exam." A few days of this kind of work and he finds himself so overwhelmed with duties unperformed that he gives up in despair. It is a small task to get a single lesson and get it well, especially if

one has the previous work thoroughly in mind. But let him have a week's work to do at once and be without a knowledge of the previous lessons to work from; no wonder he becomes discouraged. However, some will maintain that their course is too heavy, no matter how they work. The number of students whose work is actually too heavy is small, but those who do find it impossible to keep up had better drop a study and bring the rest up to a creditable standard. But such practices can, and should be avoided. One of the prime objects of college is to learn the power of doing. A corollary to this is to be able to judge correctly our own powers and to plan our work for the future so as to make the best possible use of our time and labor. Now is the time to plan our work for next semester. Don't rush blindly into any old course whether you can complete it or not. Study out carefully what you want to do and what you can do, always with the idea of finishing whatever you begin. A college student should be able to tell pretty accurately how much he can do in a semester; his judgment may err a little but not so much that he can't get through with a little extra work. But if you are a little crowded don't give up. The mere failure to complete a single course of study is of small importance compared with the pernicious habit you are forming. Every time you give up or fail makes success so much the harder next time. If we grow accustomed to failures in our school days, how can we expect to change just as soon as we are through school? In business life there is no room for the man who fails. The man that is in demand is the one who can accomplish his purpose. "But," you say, "some things are impossible." Indeed there are, but the time to find out the impossible is before you undertake it. The builders of the first transcontinental railroad did not have to build a road half across the United States before they found whether the plan was feasible. First they made their surveys and plans and concluded it could be done and then determined to DO IT. There was no dilly-dally about it. They did not say they would build a few hundred miles and then quit if it was too hard.

So with school work; survey, map out, plan, and when you have made your plans stay with them until they are done. Don't let "give up" enter your mind. Let nothing come between you and the accomplishment of your purpose. Sacrifice everything else if necessary but DON'T GIVE UP.—Exponent, February, 1905.

ADVICE FROM BELOW.

It is with considerable hesitation that the editor embarks upon the doubtful task of offering advice to the graduates of the Montana State College. But it is felt that certain matters should be called to their attention collectively, and that no better means offers itself than through the college paper.

It is a fact that individually the alumni association is made up of some of the most capable, energetic and progressive young men and women of the times, yet it is an equally undeniable fact that the organization has never had, or never has displayed, a force or purpose that would do justice to its members.

It is generally recognized that the alumni of an institution profits by the growth and success of its alma mater, and the converse is now accepted as equally true. There comes to this paper a letter which was sent out by an eastern institution to its alumni. As it puts the appeal in a stronger form than the writer is in a position to do, it is reproduced here.

"For some time a number of alumni have felt that they would like to give something which would be used for the betterment of athletics in the University. For the purpose of giving the Alumni who entertain such a feeling an opportunity to contribute, and a medium through which their contributions may be handled, the Executive Committee of the Alumni Association organized an Athletic Committee consisting of the undersigned.

"It is not expected that any contribution will be burdensome, but there should be many alumni who wish to give something, and in the aggregate there should be a substantial income each year. An accurate account of all receipts and expenditures will be open for inspection.

"The undergraduates this year have voluntarily increased their athletic tax from \$7.50 to \$10.00, and we feel that money necessary for the provision of certain things essential to the improvement of athletics in the University should come from the alumni.

"Some of the needed things are an improved coaching system, especially getting alumni back to do individual work; better training facilities and methods; acquaintance with the athletes in preparatory schools and the use of all proper means to induce them to attend the University; the giving of her victories full publicity, etc. Doubtless many other ways in

which the athletic interests of the University may be helped will from time to time present themselves to the committee. It should be needless to say that it is not the purpose of the committee to do anything which can be criticised.

"Permanent improvement of athletics in the University can only be obtained by having our teams composed of men who attend the institution primarily for the purpose of obtaining an education and are not here merely to participate in athletics for a season or two. It will be the purpose of this committee to draw such men to the University.

"We hope that the athletics of the University which appeal so strongly to the undergraduates and prospective students, and are your most frequent reminder of your University, will command your hearty support and that you will send at once your contribution to the chairman of the committee."

There is no question but that the alumni of M. S. C. could accomplish a great deal through concerted effort. It is felt by the undergraduates that more support from the alumni is due, and the above is intended as a spur to action.

PROF. PATTY DELIGHTS AUDIENCE WITH LECTURE.

Both entertaining and instructive was the lecture given by Prof. William B. Patty at the Opera House last Saturday evening on "Radium, Liquid Air and Wireless Telegraphy." A fair audience heard the lecture and the majority were agreed that it was one of the most novel and entertaining demonstrations ever offered to the Bozeman public.

The first part of the lecture was given over to wireless telegraphy and its application. Mr. Patty showed that it could be used not only for the transmission of messages but could also be used for exploding submarine mines, for starting motive power at long distances and for turning on a system of electric lights in a place far distant from the source of the power.

He took up the discussion of the element, radium, and showed by several interesting experiments that the powers and properties of this comparatively unknown element were in some cases grossly exaggerated in the newspaper reports and magazine articles while other properties were not given sufficient mention.

The last part of the lecture was given up to a most interesting demonstration of liquid air and its properties. Perhaps the most spectacular of the many experiments that were performed was the burning of a piece of steel and the freezing of a few cranberries as hard as rocks in the same dish and at the same time. Many other demonstrations of the strange powers of this unusual liquid, such as boiling a tea-kettle of it on a cake of ice, and freezing a glass of alcohol with it were performed.

Messrs. Higbie and Vestal, who had charge of the arrangements in securing Prof. Patty for the Bozeman public should be congratulated on securing so successful an attraction for Bozeman people.

ELECTRIC SHOW WILL BE HELD MAY 13.

A meeting of the Electric club was held Friday and the chief topic for discussion was the coming electric show. It was decided that the show should be held on the third of next May providing the date could be secured.

The different members of the club were urged to get up some special electric "stunt" for the show. Various methods of preparing souvenirs for those visiting the show were also discussed but no action was taken along that line.

Mr. Fisher, who is looking for exhibits from various electrical companies is in communication with several firms whose apparatus, if secured, will prove a drawing card for those visiting the show.

Active work in preparing for this event will be begun immediately after the basketball tournament and the show is to be the biggest and best that the club has ever given.

After the meeting J. G. Luther, president of the club saw Miss Brewer in regard to the date for the show, but

Are You Burning

Are your arms, face and hands burning up with torturing, disfiguring Eczema? Is your face disfigured with blotches, blackheads or pimples until you feel ashamed to appear in public? There is just one thing for you to do that will certainly relieve such stinging, smarting itching, eruptions. Get a box of

Rexall

ECZEMA OINTMENT.

This cooling, soothing, curative salve stops all itching and inflammation and cures Eczema. It gives speedy relief in all cases of skin diseases, has a pleasant aromatic smell, and can be applied to any part of the body more effectively than any other ointment that we sell. It is simply spread on thin cotton or linen and applied to the affected parts. We guarantee Rexall Eczema Ointment to cure the worst cases of skin diseases or we promptly refund your money.

Many other new lines arriving daily.

THE GOLDEN RULE

Owing to a conflict, it was necessary to secure another date May 13 was decided upon as the best date remaining open and was accordingly secured.

TO THE STATE BOARD OF EDUCATION. (Continued from page 1)

Whereas: the dairy industry of Montana is of great importance to the state and whereas the local creameries of Montana are nearly all closed, and the dairy industry is not properly developing, and

Whereas: the Agricultural colleges of other states run their creameries for the benefit of the dairy industry; Therefore, we, the Montana Association of Co-operative Creameries, resolve that the Montana State College be given permission to purchase sufficient cream to operate its creamery on a scale to give adequate instruction as outlined by its faculty to all its students and to demonstrate to the local creameries of the state how to manufacture, store and sell their products with the greatest profit.

Of all phases of literature, fiction is undoubtedly the most popular, and for this reason, among others, a careful study of the novel is included in the literature course at the Valley City State Normal School.

The University Dramatic Club of the University of Utah is making a tour of the State of Utah, presenting "Arms and the Man" and "Op-o-methumb." So far the trip has been a success.

At the University of New Mexico the names of students delinquent in certain branches of study are posted on the bulletin board and such students are not allowed to participate in athletics.

College Notes

Ross Bancroft, ex-'13 has been a college visitor for the past few days.

Mrs. George Hogan, '09, was in Bozeman with her husband this week to attend the dairymen's convention.

Prof. Brewer will go to Townsend tomorrow to act as one of the judges in a debate which is to be held at that place.

Wm. Hodgkiss is visiting his two sons William and Edward this week. Mr. Hodgkiss is over to attend the horse school.

John Peck, of Garnet, was a visitor at the college Wednesday. Mr. Peck graduated from the short course in agriculture at the college last spring.

President J. M. Hamilton was a visitor at Whitehall Tuesday to give a lecture in the lecture course of that place. He returned to Bozeman Wednesday.

The veterinarians of the state will meet Monday and Tuesday in their semi-annual meeting. Most of the sessions will be held on the M. S. C. campus.

Paul Stanton, ex-'10, was taken sick with appendicitis Monday and has been on the sick list since that time. The Exponent joins with Mr. Stanton's many friends on the hill in hoping for his speedy recovery.

Fay Dusenberry, ex-'12, visited with friends on the hill Thursday. Mr. Dusenberry was well known in college circles having represented his class in the inter-class debate during his freshman year and also having represented the college in the state oratorical contest.

An examination was taken on a plan slightly approaching the honor system Wednesday. This was caused by the fact that President Hamilton was engaged in other duties at the time when the examination was to be held. The members of the class which was in sociology, accordingly went through the exam while the president was absent and handed in their papers having taken the test in their honor. The honor system has been agitated at the college at several different times and whether the exam taken Wednesday will be a boost for the system or not is unknown at the present time.

Mrs. C. P. Meserve, '11, is registered at the housekeepers' course this week.

Miss Alda Smith's sister Grace, has been her guest at Hamilton Hall the past week. Miss Grace, who is a sophomore in Granite county High school, has come to Bozeman with her parents, who will reside here for the remainder of the year. The family will soon be located down town.

Governor Norris, T. M. Swindlehurst, secretary of state, Senator J. C. McCarthy and W. S. Hartman were college visitors Wednesday and while here they inspected the greenhouses and other improvements that have recently been made by the college. They seemed to be very well satisfied with work that has been going on at the college.

The high schools of Billings, Anaconda and Missoula have formally accepted the invitation to attend the basketball tournament which was sent out a short time ago. This makes a total of seven that have accepted the invitation up to the time of going to press, the others being the local high school and those located at Butte, Helena and Dillon.

While no new courses are to be established at the college for the opening of the coming semester at least one change will be made in the course and that in the course in bacteriology which will be continued throughout the semester thus making it a full year's course. This subject will probably be continued as a two semester course hereafter and will be so listed in the catalogue.

The nominating committee, consisting of Alda Smith, Nan Morgan, and Ella Harmon, named the following Y. W. C. A. officers who were elected at a special meeting Wednesday: Alda Smith, president; Willa Sultzer, vice-president; Myrtle Alderson, secretary; and Georgia Cullom, treasurer. The president will appoint the remainder of her cabinet soon. Arrangements are being made for a meeting next Sunday afternoon, when Miss Fox will speak.

The following clipping was taken from the Standard: "Mrs. John M. Howard announces the engagement of her niece, Miss May Belle Humphry, and Louis Leo Howard, of Bozeman. Louis Howard is a younger brother of John M. Howard. The wedding will be an event of late spring."

It might be added that "Lou" is the popular band leader and the person who has made the band a leading organization at this institution. Needless to say he has hosts of friends on the hill.

Captain H. P. Howard, of the U. S. army, is expected in Bozeman today to address the horse school. Captain Howard has been engaged by the gov-

ernment at Fort Keogh in perfecting a type of horses for the cavalry service and his address should be of a great deal of interest and benefit to those who are attending the school. Tomorrow demonstrations will be given in breaking horses by C. B. Ingham manager of the Miles City horse sales company and a veteran in the management of horses.

James T. Annin, '10, will be one of the interested visitors at the Stag party tonight. Mr. Annin has always been known to be one of the members of the association who could entertain freshmen and other initiates in a royal manner and it is expected that he will add to the entertainment in no small measure.

SHORT COURSES
NOW IN SESSION
(Continued from Page 1)

Ideal work is being done in connection with the school.

Tomorrow morning will be given over entirely to the judging of animals and in the afternoon demonstrations in breaking will be given under the supervision of C. B. Ingham and D. Whitmire, who are experts in that line of work.

Profs. Clark, Griffin and Taylor, who are at the head of the school, are highly elated over the record-breaking attendance and the remarkable interest shown in the school.

The housekeepers' course, like the horse school, is attracting many people from points throughout the state. This course given this year for the first time, takes up the various phases of home-making, such as cooking, decorations, and sewing. A great deal of dairy work and work with meats is being given in the course which is under the supervision of Miss L. A. Harkins, head of the home science department at the college.

Besides members of the faculty giving demonstrations in the school are Miss Margaret Edwards, a senior at the college, who gave a demonstration in cooking starchy foods, and Miss Edna Hagerman, also a senior at the college, who gave a demonstration in the cooking of cream soups.

From the attendance and interest shown in this course by people throughout the state it is evident that it will prove a very popular course of instruction in the future.

In speaking of the success of the course, Miss Harkins stated that she was more than satisfied.

That a college education is an enemy of divorce is the conclusion drawn from an investigation recently conducted by the alumnae of Smith college. They find in the cases observed, only one out of every fifty-seven marriages of college girls result in a divorce. Out of the eighty-five marriages in which graduates of Smith are the participants, there is recorded only a single divorce. Out of every ten or twelve marriages contracted by non-college women there is a divorce.

BAND IS PREPARING FOR ASSEMBLY PROGRAM

Will be on Hand for Tournament—
Also Track Meet—May Not Take Trip This Spring.

The M. S. C. Regimental band is putting in a busy morning today on some new music in preparation for the concert which they are scheduled to give two weeks from today in assembly, at their first regular appearance this year. Louis L. Howard, the popular leader of the band, states that he has some fine material in the band this year and as they are principally freshmen the band will be even better in the next few years than it has been in the past. The total number in the band at the present time is about 30, of which number about 25 are new men and the remaining five are veterans from last year's organization. However, most of the men have had previous experience and with practice three mornings a week they have been whipped into shape to give an excellent program next assembly. The program will consist of popular music and from the type of programs that the band has been in the custom of giving in the past, this assembly will in all probability be fully attended without the necessity of Mrs. Hamilton's warning.

Work will immediately be begun on music for the basket ball tournament as this organization intends to do its part in making the tournament an enjoyable one.

Owing to the fact that the triangular meet will be held at M. S. C. this year and other things will conflict, the band will in all probability abandon any trip over the state this spring but will content themselves with making the organization one which will do full justice to its reputation when it goes out again next year. As is generally known, Director Howard has long planned on taking a trip through several of the adjoining states and he informs us that from the looks of things at the present time that trip is not very far off for the material that is in the organization at present and bright prospects of having most of the members here for several years a band that will be second to none in the country will be the result. The band has always been one of the best of the several organizations which have resulted in an immense amount of good for the college and when it takes this trip it will be giving the college another boost toward "1,000 students in 1915," the booster slogan of last spring.

Mr. Howard stated that in order to make the band a still greater factor in college affairs he will endeavor to secure five mornings a week for regular band practice and in this way keep the organization in perfect training at all times.

DOES WILL CELEBRATE PASSING OF EXAM WEEK

The sewing rooms of the Agricultural hall will be the scene of wildest barbarism tonight when the Does will do their best to outdo their masculine brethren in wild, barbaric glee at the passing of the exam week. Fearful tortures have been prepared for the initiates such as the torture of silence while taking and hiding their hair pins, or putting chewing gum in their hair or making them drink to prexy's health and other things of equal danger. A magnificent repast of bread and tea will be served after which the wild orgy will again be resumed with tit-tat-toe and cat's cradle until almost a quarter to twelve.

DECLAMATORY CONTEST IS HARD FOUGHT AFFAIR

Six Contestants Try for Prizes Offered by Judge Armstrong—Great Interest Displayed and Attendance Good.

Harvey Roberts won the first prize of ten dollars and Alberta Borthwick the second of five dollars in the annual declamatory contest held at the College assembly hall last night.

Six contestants who had been adjudged the best of the preparatory students at a previous tryout took part. A musical program was also provided by students of the college. A large crowd attended and the students encouraged the participants by organized yelling. The judges were Prof. Westergard, principal of the Irving school, Miss Adams, professor of dramatic art in the high school, and the Rev. G. G. Bennett of the Episcopal church.

Judge Armstrong, of Bozeman, the donor of the prizes presented them. The program was as follows:

Jubelouverture Von Weber
First piano—
Miss Bancroft and Miss Hartman
Second piano, Miss Hollier and
Miss Schumacher
For the Love of Man... Jack London
Mr. Vern Smith
Rebecca's Trials Wiggins
Miss Pauline McVey
A Literary Nightmare... Mark Twain
Mr. William Finlay
Jim Fenton's Wedding, J. G. Holland
Mr. Earl Sexton
The Wreck of the Julie Plante....
..... Drummond
The Beginning of our Friendship ..
Harvey Roberts.

Wiggin
Miss Alberta Borthwick
Gypsy John Clay
Mr. William Shovell

The contest was open to preparatory students alone and the good quality of the work was largely due to Mrs. Herrick's efforts in coaching the speakers.

NOTICE.

The stag feed committee is offering a reward of \$5.00 for the best recipe for "catsup." It reserves the right to set aside all that may be submitted should they prove lacking in food value. The committee is also willing to pay top prices for five big black cats.

Echoes Ringing Down the Grooves of Time

Why is the Doe Party?

In the February number of the Exponent for 1906 we find this statement: "The young ladies of the college proposing not to be outdone by the boys, met Friday evening at the home of Miss Mary Kirk, '06, to celebrate the close of the semester. What the exact program was does not seem to be public, but it is rumored that some of the take-offs given by the freshmen would have been intensely interesting to some of the boys who were connected with the ice cream steal, the hazing, and various other stunts of the past semester, only the boys were not there to see."

And thus it was that on January 26, 1906, just six years ago tonight, was held the first "Doe" party which has since become an annual affair. Then, as now, only four year girls were members of the Does, and not more than twenty-five attended the first party.

True it is, as the above write-up states, that the boys were not there to see, but every girl had a gallant escort to the scene of the party,—a man, with a derby, a pipe, a mustache and whatever else was deemed necessary. The evening's entertainment, worked out by the first program committee, has been followed quite closely in these later years, with the addition of the initiation of the Freshmen girls. It consisted of stunts given by the various classes, music, and an elaborate lunch served in a novel way.

Each year at the close of the festivities of the Does, the declaration is made that "this was the best ever," but it would be hard to find a girl who attended that first party who would admit that more genuine fun could be crowded into that of January 26, 1906.

The scene of the second Doe party was the Thorpe ranch home, southwest of the college. It will be remembered by those who attended because of the striking and elaborate costumes which were in evidence.

On Jan. 24, 1908, Elva Wilson, '09, was hostess to the Does, the number having increased to about thirty-five. The fun of the evening was greatly added to by the arrival of Buster Brown, and Mary Jane, who kept the girls convulsed with their capers.

Pleasant as it is to linger in the past, the writer realizes that perhaps modern history is of more interest to Exponent readers, so we pass on to the festivities of Jan. 29, 1909, which were held at the King home, on South Central avenue. The "stunts" that year were remarkable for their originality and cleverness. One was a take-off on the ten-cent show, in

which the work of the vaudeville artists was unusually good; another, a charming little playlet, and a third was a portrayal of the life of President Hamilton. It was at this time that the initiation of the Freshmen girls was included in the program, and it was at this party that some of the girls who are in college at the present time were initiated into the secrets and mysteries of the Does.

At the close of the semester's work in January, 1910, the Does celebrated at the home of Ruth and June Hartman. The demonstration given by Miss Harkins (Helen Fisher) to a home science class was a laughable feature of the program, but the crowning event of the evening was the marriage of two of the prominent members of the faculty, Harriet Thorpe, representing the groom, Irene Carr, the bride, and Grace Kirk, the minister.

The sixth annual gathering was held last year at Hamilton Hall. About fifty girls were present, including four-year girls and alumni. The initiation of the eleven Freshmen girls took up the first part of the evening and caused gales of merriment from the on-lookers. But the freshmen girls took their courage in both hands and bore with fortitude and bravery the horrors inflicted upon them and apparently enjoyed as much as any one the sumptuous repast which was next in order. After lunch each class presented its "stunt". The freshmen girls represented eleven noble seniors gowned in gaykimonos and capped with squares of white cardboard. The presentation of diplomas was made by President Hamilton (Ruth Stanton) and was indeed impressive as with fitting words he conferred upon each senior a degree of old maid of one of the various arts. In the play entitled, "On Time," presented by the Sophomore girls, the audience was treated to some clever acting. We recall particularly the eccentric old man, (Rhoda Dawes), whose theories had to be upheld. The junior girls appeared in bathing costumes and did a little song and dance act, and the seniors presented a hoop drill in their caps and gowns. After music the flash-light pictures the merry party broke up, and as the town girls wended their way down over the snowy hill in the wee, small hours of Saturday they voted the sixth Doe party the most successful ever held.

And lo, these many years, six in number, have come and gone, since this custom was established and preparations are now complete for the seventh gathering, which is to be held in the Home Science rooms tonight, and which promises to be a happier occasion than in previous years because it is in the present.
