The Weekly Exponent

VOLUME VIII. MONTANA STATE COLLEGE, FRIDAY SEPTEMBER 29, 1916. NUMBER 2.

CIVIC LEAGUE OFFERS ATTRACTIVE PROGRAM

SEASON TICKETS OFFERED TO STUDENTS ONE DOLLAR LESS THAN USUAL PRICE

The Civic League will open its most attractive program on October 6, with the Cord Rummel company. The Cord-Rummel company is a quartette of instrumental artists of much renown, and it is well assured to be a feature and grand attraction.

On October 7, the people of Bozeman will have the privilege of hearing Dr. Lincoln Wirt lecture on the conditions of the present European war. Dr. Wirt has been in Europe for some time, and is very familiar with the complicated situation over there, and consequently will bring the story of the terrible strife between the nations, fresh from the trenches. Dr. Wirt's lectures appeal to all classes of people, and a very large attendance is fully expected.

Throughout the course of the college year, six other attractions, making a total of eight numbers will be featured. The last number will probably end on or about April 11. All of these features are of high class, taken from an educational and moral point of view. Including other remarkable numbers there are the L. A. C. orchestra, and John Kendrick Bangs, the noted humorist author.

Following the custom of previous years ,students are offered season tickets, including all of the eight numbers, and extras which may appear, and which depend upon the condition of the treasury, for $1.50, while the elder folk and faculty are required to pay the nominal fee of $2.50, for the same season tickets.

REGISTRATION OF STUDENTS CONTINUES

FRESHMAN CLASS HAS 126 MEMBERS. 39 NEW STUDENTS IN OTHER CLASSES

Registration in the college courses continued the early part of this week, when a few of the tardy ones appeared and told their troubles to the committee. Among those who registered the early part of the week are Carl Helstrom and John Minar of the junior class and John Hannah and Emmet Limbert of the sophomore class. The trials and cares of the sophomore class were increased when Otto Woodward of last years preparatory class qualified as a wearer of the green by registering in Mechanical engineering.

The total number of freshmen already registered this year is 126 and there are 39 new students in the other classes. Many entered this year with advanced credits, among these being three from Montana Wesleyan; two from the State University and the College of Montana and one each from the U of Wisconsin, U of California, U of Southern California, St. Benedicts college and Lawrence college.

FRESHMAN DISLIKES MIXING IT WITH THE SOPHS

Such events as class scraps, frog pond pulls and flag rushes usually have a stimulating effect upon the early registration of students. But Montana State has one student who is an exception to the rule. This fellow is repeating his first year's work. After spending about an hour outlining his work with one of the professors, he said that he would probably attend classes, but would not register until after the class scraps and tug of war. Action may be taken by both the freshmen and the sophomores to give him his share of the baths in the pond.

PULLING THE SOPHS THROUGH—CLASS OF 1917 IN THE POND

GRIZZLY SQUAD IS GETTING IN SHAPE

An article in the last issue of the New Northwest gives some light on the way the Grizzly football squad is progressing. Apparently there is an abundance of seasoned material. The article follows.

"Plenty of hard work has been the lot of the university football team this week. Coach Nissen has been driving the men every day to have them in shape for the Dakota game next month. The latest old man to report is Johnny Kerran, the 240-pound guard of last year. Kerran is expected in on every train. As yet Sanderson and McQuarrie have not reported. They are in the forestry service, and as they receive credit as well as pay for the work which they are now doing, it has been impossible to persuade them to return before next month.

"Captain Clark and Chris Bentz returned in the best of condition and are all ready for the Coyotes. Wing Brown and Orr have been out since the first few days and are going to give some of the new men who are much heavier, a hard run for their positions.

Thirty-Eight Now in Squad

"There were about 38 men out for practice last night. The squad started with only 12 and until Tuesday only 10 or 20 were sufficiently interested to don uniforms. The hot weather is rapidly taking off any surplus flesh which the old men have gathered during the summer.

First Scrimmage

Although no announcement has been made as yet, it is thought that the first scrimmage will take place tomorrow afternoon. Most of the men have received some knowledge of the signals and they will be given a test. The squad was strengthened yesterday by the addition of Woodworth from Miles City. Woodworth is a giant, weighs 220 pounds and seems to be fairly fast of his feet. With the return of John Kerran and McQuarrie, it looks as though Coach Nissen will have the strongest line which he has had since he has been coach. Dalberg, Molthen, Lockridge and Jones who is showing up well at quarter, are the new men whom it looks likely will fill the vacant places in the backfield.

Most of the early practice has consisted in learning the simple rudiments of the game. Falling on the ball, tackling the dummy, blocking and shifting the ball. Coach Nissen believes in a thorough training in these fundamentals. This is one of the reasons why his teams show to such advantage at the end of the season.

JUNIOR MEETING

At a class meeting last Wednesday the Juniors decided to turn the big "M" on Mt. Baldy over to the associated students with the understanding that the freshman class give it a whitewashing and general repairing once a year. At this meeting it was also decided to put out a football team to compete with the sophomores and freshmen. John Minar was elected football captain.

Tug-Of-War and Flag Rush to be Held This Afternoon

MORE THAN FORTY-FIVE SOPHOMORES ELIGIBLE FOR FROGGERY CONTEST. WEIGHTS OF CONTESTANTS WILL TOTAL OVER FIVE THOUSAND POUNDS FOR EACH TEAM. BOTH SIDES HAVE BEEN PRACTICING REGULARLY AND EAGERLY AWAIT TIME OF TUG.

FLAG RUSH IS NEW FEATURE OF LOWER CLASS CONTEST

SOPHS WILL BE GREATLY OUTNUMBERED IN FREE-FOR-ALL PENNANT FIGHT AS ALL MEN STUDENTS IN EACH CLASS ARE ELIGIBLE. WILL BE ENTIRELY ON DEFENSIVE IF THEY REACH POLE FIRST

TUG OF WAR

The annual tug-of-war between the sophomores and freshmen will be staged this afternoon at 1:30 down at the frog pond. More men will compete this year that have ever competed before as there as over forty-five sophomore men eligible for the struggle. Up to the time of writing the total weight of the sophomores weighed in was over 4,100 pounds. The total for the freshmen is well over five thousand pounds.

The rivalry between the two classes has been very keen since the beginning of the school year and this first test of strength is eagerly looked forward to by the entire student body. Both sides have been practicing faithfully and a close contest may be safely predicted.

The custom of holding a tug-of-war originated in 1907 and since then it has been the custom for the sophomores to issue a challenge to the frosh inviting them to settle their differences over the icy waters of the froggery. In accordance with this custom the sophomores posted a sign on the bulletin board inviting the frosh to the combat, which challenge was duly accepted.

McMahon and Beach Captains

The sophomores elected Abe McMahon captain of their team while Ben eBach, the elongated freshman, captains the opposing side. Roy Strand, president of the student body will referee the contest.

The student senate has adopted a set of rules to govern the contest to insure a square deal to both sides. These rules are:

Each team shall consist of the number of men equal to the smaller of the two classes.

The class having the smaller number of men shall weigh up before the contest and the other class must weigh up to within one hundred pounds of their opponents, all weighing to be made in the presence of the captains of the two teams.

Each team shall place a class pennant on the rope which becomes the trophy of the winners at the end of the pull.

The rope shall be taken from the barns by a committee of eight persons, four from each class, which rope shall be returned to the barns by a committee from the losing side within twenty-four hours after the meet.

No pits may be dug by or for the contestants.

Each person must remain in the

Continued on Page 4.)

FLAG RUSH

Immediately after the tug-of-war this afternoon the sophs and frosh will participate in their last official free for all of the year. The class flag rush, recently authorized by the senate of A. S. M. S. C. to take the place of the annual flag pole fight, will be the occasion. In former years it was the custom for the sophomores to place their pennant on the flag pole near the hour of twelve p. m. on the evening before their annual fight with the freshmen. If the pennant remained there until after the frog pond pull the sophs were entitled to defend it against the freshmen, and if at the end of that time it was still in their possession they were declared winners.

This year a flag rush will be held on the football field. The sophomore pennant will be placed on a pole in the center of the field. Freshmen and sophomores will take their places at opposite ends of the field and at a given signal will rush to the pole. If the frosh get the pennant down in fifteen minutes they will be declared winners, otherwise the honors to go to the sophomores.

Rules governing Class Rush.

A pole, tapering from a diameter of ten inches at the base and twelve feet high shall be set up at the center of the football field and on this pole the sophomores shall fasten their banner.

The two classes shall gather at opposite ends of the field, the freshmen at the west end and the sophomores at the east.

At a given signal the classes shall come together and if the sophomores defend their flag successfully for fifteen minutes, they shall be declared the winners. If the freshmen get the banner down inside the stated time they shall be the winners.

The pole shall be set four and one half feet in the ground and shall not be greased or otherwise made difficult to climb.

No wire or lineman's climbers shall be used.

The pole shall not be cut down or otherwise mutilated by the offensive.

No football or other college athletic equipment shall be used in the rush.

The losers shall take down the pole and put the field in its original condition.

The president of the Associated Students and the freshman class advisor shall be the referees of the contest.

M. S. C. HAS MANY EXHIBITS AT FAIR

EXHIBITS OF COLLEGE ARE LARGEST AND BEST EVER SHOWN AT STATE FAIR

The State capital has been the scene of constant activity during the last week, while the Montana State fair has been in progress. The exhibits especially have been better than ever in state fair history and crowds have been attending every afternoon. A few students are attending, several leaving yesterday on the afternoon train.

Efforts of the heads of the different departments have been more than realized in the college display in the Agricultural building and many compliments are being passed on the engineering display in particular. The steel bridge thesis work of Dave Steel and George Milburn, '16, has caused much comment owing to the fact that it is a very practical and perfect model of such a bridge that is today of special interest to the American Bridge company. In this display there are many other pieces done by both students of last year's graduating class and this year's class of 1917 but models of interest to engineers are particularly in prominence.

Electrical Exhibit

The electrical department is represented by a large transformer, the model of which was designed by Clinton Booker and Arthur Wade, class of '11, the present one being the result of later student's work. There are also blue prints and diagrams explaining the workings and adaptabilities of this machine.

The dairy display is under the direct supervision of Prof. C. L. Martin of that department and the exhibit is explained by him. Samples of milk, butter and many bi-products are of interest and clear explanations are being greatly appreciated by visiting buttermakers and farmers. Milk and cream test charts and diagrams are also shown.

Prepared by Whitlock

The agronomy department is showing a very carefully selected arrangement of grains and grasses common to the state of Montana. Large folios are hung on the wall full of samples of seed and plants which have been infected with blight and plant diseases common to modern farmers. This entire display is the work of B. W. Whitlock of the state grain laboratory and these services are greatly appreciated by the school.

Fruit and textiles are the contributions of the home economics department, an assortment of canned goods and charts explaining the same coming from the college kitchen. The large glass case holding samples or raw linen, wool and cotton was arranged by Miss Rolph of this department. It shows samples illustrating the different steps in the process of cloth manufacture, the linen first as raw flax and then carded, spun and woven into cloth, ready for the needle.

Educational Map

One of the most unique exhibits of Montana State college at the State Fair this week is a large map of the state of Montana showing the amount of registration, from the different counties, extension centers, and substations. The representation is made by means of colored lights and as this is the first exhibit of its kind that has ever been shown at the fair It is attracting a great deal of attention. The data was compiled and the map constructed by the department of agriculture.

Altogether the exhibit is one of the best ever put out by the school. While little practical demonstration, as was a previous custom, is being done, it is a very thorough showing of what the students have accomplished and is being made a point of interest to State fair visitors.

CREDIT FOR STUDENT ACTIVITY

A committee, of which Mrs. Herrick is chairman, has been selected to consider allowing students credit for participation in various activities. No definite plans have been made as yet and further announcement will be made later.

BENNION'S BOBCATS AT SCRIMMAGE WORK

Much Signal Practice and Scrimmage Necessary to Put Team in Shape Freshmen Turn OUT Strong

On Monday evening, two picked teams from the first and second squad clashed in the initial scrimmage of the season. For several of the men on the lineup it was a new experience. All of the boys showed fight and went at it with such willingness, that a gleam of encouragment was even solicited from the eyes of the coach. The work was ragged and marked by individual rather than united effort. Forward passes rarely connected. An inglorious smashup was the result of line plunges, and in the main, tackles were slipshod and uncertain affairs. It will take many weeks of consistent plugging and conscientious training to round the bunch into any semblance of a machine. Yet with their heart in their work the team ought to accomplish a great deal before the deciding game.

The coach has begun giving the men signal practice and board drill and they all prove very adept at mastering the complicated signal system. On Tuesday night no scrimmage was held but the boys worked on their formations. Wednesday scrimmage was resumed and showed that there was a little better understanding of the plays.

One commendable feature of this year's squad, is the noticeable absence of rangling and internal strife. Ballouts are given and received in the most natural and good natured way and everybody profits thereby. All seem eager to learn and try hard to fill the shoes of the absent heroes. If this spirit will prevail throughout the year the Bobcats may yet be developed into a well organized team.

Following is a list of the candidates who have been reporting for practice:

Stearns, King, Boberg, Saltz, MacSpadden, C. Borton, A. Borton, Bergman, McMahon, Graves, Ladenburg, Duquette, Dahl, Roberts, Jorgenson, Stanley, Senz, Christensen, Ross and Noble.

Six seniors, eight juniors and seven sophomores are out for berths in the team. The freshman class has a powerful representation, and their best men will undoubtedly find a place in the lineup.

Under the coaching of Jolley they are practicing religiously for their game with the sophs, on the other hand the sophomores don't seem to evince much interest, and from present appearances it looks doubtful if they will present a team at all. All ready the freshmen have had an opportunity to play Butte High, in Butte, this Saturday but the coach declined because it was a little too early in the season.

The freshman gang consists of the following:

Stephenson, Haines, Mecklenberg, Wakefield, Crum, Reichelt, Winwood, Matthews, O'Brien, Pitts, F. L. Stearns, Bryan, Wylie, Busch, Roberts, Price, Orvis, Schmidt, Tobey, Finch, Harris, McConnell, and Ludwig.

SOPHOMORES FORCED TO MAKE HIKE IN RAIN

Three members of the sophomore class seem to enjoy long hikes. It is not unusual for students, to take long strolls on Saturdays or at any other time when some member of the fair sex can be persuaded to stroll also. It is however a poor rule with no exception and so these three members of the sophomore class are the oddity. It happened that three members of the class of 1919 met several members of the infant class Tuesday evening and were forcible invited to take an automobile ride. After speeding up Bridger canyon six or seven miles the freshmen decided that the load was too heavy for speed so lots were drawn to see who would have to walk. The sophs were forced to take the long straws so under the circumstances they enjoyed a walk in a cool fall shower in the shadow of Old Baldy.

THE WEEKLY EXPONENT

ESTABLISHED JANUARY 1, 1910
(Outgrowth of Monthly Exponent, Established January 1, 1895.)

OFFICE—ROOM 1, REPUBLICAN-COURIER BUILDING
TELEPHONE NUMBER 127-J

The Weekly Exponent is strictly a student enterprise. It's chief purpose is to present to its readers, each week, an accurate and complete record of the developments in college affairs during that period and to exert its influence for the upbuilding of Montana State college. The paper is the result of voluntary effort put forth by the students who compose the staff.

Published every Friday of the college year by a staff chosen from the students of the Montana State College of Agriculture and Mechanic Arts, of the University of Montana, Bozeman, Montana.

Entered as second-class mail matter at Bozeman, Montana, under Act of Congress of March 3, 1879.

1916 GRIDIRON PROSPECTS ARE NOT BRIGHT

After sizing up the gridiron situation on the hill, authorities on the fall sport fail to see much to encourage them in predicting anything like an unusually successful season for the blue and gold this fall. Last spring, with but two men of the squad in line for graduation, the outlook for the 1916 season was very bright. The first indication of disaster came when the call for the militia went out and six of Montana State's warriors left the blue and gold to serve the stars and stripes on the Mexican border. Then Captain Gatton and Ex-Captain Taylor, the two stellar performers on last year's team, decided to migrate to Wisconsin and try their fortunes with the football squad of that university. Now, two men who were counted on for the first squad have been ruled out because of low scholarship.

Although the loss of ten men of first string caliber is enough to dishearten most college coaches, the blow has had a very different effect upon Coach Fred Bennion and he is determined that, no matter what happens, the college will be represented by a creditable eleven this fall. Students who remember the team, still famous in Rocky Mountain conference colleges, which the coach turned out two years ago will watch developments with interest.

Reports from the state university at Missoula indicate that the sister institution will be represented by an aggregation fully as strong as the 1915 eleven which held Syracuse university to a tie last Thanksgiving day. The Grizzlies lost but one man when the call for the militia came and practically every other man of the last year's squad is back in the harness. While, under these conditions, Montana State would have presumption indeed to lay claim to the state title, nevertheless, if every available football man on the hill gets out for work the blue and gold should, on November 4th, be represented by a team of which neither the college nor the Greater University need be ashamed.

Every college has its bad football year, when experienced men are scarce and a team must be built up from inexperienced material. Although Montana State's team, light and inexperienced as it will be this season, may win few victories, it will have lots of fight and great possibilities for the future. Start in now and boost for a championship eleven for 1917.

DON'T FORGET THE BOYS AT THE BORDER

Montana State college is represented on the Mexican border by eleven men who are taking active part in the work of the United States Army in defending the southern border from bandits. When President Wilson sent out the call for the militia early this summer these men responded at once and reported for duty. Now, after three months service on the border, word comes that these men have been faithful in the performance of their duty. Already four of them have received promotions.

Student organizations on the hill can do much to express their appreciation of the work these men are doing and at the same time help relieve the monotony of camp life. The Exponent is sending a copy of the paper every week to each of the eleven college men on the border. What organization on the campus is going to be the first to prepare and ship to the boys a box of good things to eat or some "smokin?" Address it to one of the eleven and send it to Company A, Second Montana, Douglas, Ariz. It will be appreciated.

COLLEGE SOCIETIES DEFENDED BY TAFT

Speaking before members of the Acacia fraternity at a banquet given in his honor at San Francisco, former President Taft warmly defended college secret societies, characterizing them as democratic, stimulating and potential agents of great good. He also related an experience in his own college career, in which the Yale faculty used the steam roller on a 'frat' that celebrated his election so boisterously that he never had a chance to be initiated.

Fraternities Are Useful

"I am glad to testify to the usefulness of college fraternities," the former president said. "I am told that the issue over the desirability of fraternities is not yet dead. While it is probably true that fraternities are subject to abuses, and ought to be regulated, they usually justify and vindicat themselves.

"Along with logarithms, calculus and other things we get at college and do not need in after life, a fraternity career is, to my mind, a part of that culture which every student should acquire. To abolish fraternities would be to destroy character building in our educational institutions."

FRESHMAN MEETING

The freshmen held a meeting in the assembly last Friday and elected a captain for the tug-of-war team. After some discussion a committee was appointed to select class colors and a design for a class pennant. As there was no other business to attend to the boys adjourned to practice for the tug-of-war as they wish to let the sophs try the temperature of the water today instead of themselves.

FIRST WOMEN'S ASSEMBLY

The first assembly for the women of the college will be held this morning. Mrs. Herrick, dean of women, will be in charge of the meeting, and will lead in discussing plans for the coming vocational congress, and for the following Women's assemblies to be held during this school year.

PERIODICAL TEETH ATTENTION IS NOT SUFFICIENT

To have your teeth white, your gums hard and your mouth sweet requires constant and daily attention.

Rexall Tooth Paste is an ideal dentifrice to use for this purpose. It will not only whiten the teeth, harden the gums, sweeten the breath and make your mouth sweet and clean, but it will benefit your general health by safe-guarding you against a lot of ailments that are caused primarily by mouth germs.

Attention to the teeth is today recognized by the most eminent medical authorities as being so necessary to the proper safeguarding against a great many ailments, that, as you know, it is being taken up and discussed even in the public schools.

You can't make a mistake by using Rexall Tooth Paste (in powder form if you prefer) as its ingredients and preparation are in accordance with the most advanced scientific ideas.

COLLEGE WOMEN TO PICNIC IN CANYON

This afternoon the women of the college and faculty will go up Bridger conyon for a picnic, that is, weather permitting.

This picnic has been planned to include all the women enrolled in all the courses as well as the faculty women. Transportation will be provided in some sort of a gas vehicle. Miss Florence Ballinger has been busy this week looking after this matter.

Upon arrival at the picnic grounds a large fire will be lighted. How this is to be accomplished has not been disclosed and all offers of assistance from the most valiant of the fussers is being steadfastly refused.

A usual picnic lunch of weinies and bacon and the rest of the good things has been prepared and all that is necessary now for a big time is good weather. Professor Edmund Burke of the station is being bribed by the women with all means at their command and has promised that it will not be necessary to postpone the picnic on account of the weather.

STUDENT SOLDIERS PROMOTED IN RANKS

Among those who went with Company A to the border from the college are Morphey, Todd, Taylor, Preston, Garvin, Wayne Bowlen, Wolly Gatton, Thien, Hastings, Mashin and Rinehart. The boys are all working hard and receiving some valuable experience and training. Not long ago privates Garvin, Todd, Rinehart and Sutherland were made corporals. A copy of the Exponent is being mailed weekly to each one of the boys. Their address is Company A, 2d Montana Infantry, Douglas, Ariz.

STUDENTS INTERESTED IN COMING ELECTION

That the local and presidential elections this fall are arousing much interest among the voters on the campus is evidenced by the number of scraps of political discussion that have been floating around during the last few days. Whether the student vote will be largely democratic, republican, prohibitionist, socialist, or anarchist is not known.

The Exponent will endeavor to find out the opinion of the student body in regard to the presidential candidates on the day of election by placing ballot boxes in Montana hall. All regular students will be given the opportunity to cast a ballot. The result will be published in the first issue after election day.

SELECTION OF ATHLETIC TEAM MANAGERS

In the last issue of the Exponent appeared a call for an assistant football manager. The purpose of this article is to make clear, just how team managers for the Bobcat teams are selected.

Each year the manager of the team a senior, issues a call for an assistant manager. The assistant managers are selected from the sophomore class and act as assistant managers in their junior year. They then automatically become managers of the team in their senior year.

Anyone who wishes to become a manager should make known his intentions when the calls for assistant managers are issued. All the applicants are then put on a competitive basis and the best men is picked by the athletic council and his name submitted to the associated students for ratification. In case there are two men who have equal merit both names are submitted to the vote of the student body.

The present managers are:

Football, Roy Strand; Assistant manager, Harold Dickson.

Basketball, Ray Cannon. Baseball, Don Langohr. Track, F. E. McSpadden. Assistant managers for basketball and track will be picked from the present junior class during the year.

DOCTOR ULRICH TO VISIT COLLEGE

—o—

Doctor Mabel Ulrich who was one of the principal speakers at the vocational congress in 1913 will visit the college for one week this fall. Dr. Ulrich will be here for the week commencing October 16 and will give one talk a day to the college women and will also give at least one address to the men of the school.

Society

Miss Katherine Kearns entertained Miss Jennie Gleason of Townsend at Hamilton Hall over the week-end.

—o—

Miss Ursula and Ruby Hodgskiss went over to Helena Thursday to attend the state fair.

—o—

Miss Jeanette Kelley entertained at a delightful spread Sunday evening for Dorothy and Pauline Powell, who were her guests at Hamilton Hall.

—o—

Mrs. Edmund Burke gave a small dinner party on Thursday in honor of Master Edmund's seventh birthday, for a number of his little friends .

—o—

Miss Elida Herein enjoyed a visit from her parents, Mr. and Mrs. Martin Herein, and her two brothers last Friday.

—o—

Miss Marjorie Quaw was a charming hostess Monday evening to the members of Phi Gamma. The evening was spent with dancing, music and taffy pulling.

—o—

The Misses Margaret Walsh, Katherine Kearns, and Hary Jane Kennedy expect to return early in the week from Helena where they have been attending the fair.

—o—

Miss June Hartman was entertained by her music pupils at Hamilton Hall, Sunday at dinner. After dinner Miss Hartman rendered a most pleasing program.

—o—

Mr. George Callaway has gone to Rochester, Minn., where he may undergo an operation.

—o—

Saturday night the first college dance of the season was given in the college gymnasium under the auspices of the senior class. There were about ninety couples present and a good time was had by all.

—o—

The members of the Alpha Phi sorority were most pleasantly entertained at the home of Miss Leah Hartman, Tuesday evening. Miss Myrtle Kuhns was initiated, and after the initiation the young people enjoyed delightful refreshments.

—o—

Miss Grace Brewer of Sand Springs, Mont., spent a couple of days the past week with her sister, Miss Helen R. Brewer of the college faculty. She was on her way home from a summer spent in the Yakima valley, in Washington.

—o—

Miss Marie Stadler was a guest at Hamilton Hall last week while on her way to New York. Miss Stadler was a member of last year's graduating class and was on her way to Columbia University where she is going to study for a master's degree in chemistry.

—o—

Monday evening Mrs. R. A. Cooley, Mrs. Harris and Mrs. Alkerison entertained a number of friends at the latter's home. A most delightful evening was spent by all and delicious refreshments were served at a late hour.

—o—

Miss Alda Smith, one of the popular young members of last year's home economics faculty became the bride of Henry Clay of Michigan, early in the fall. The wedding took place in New York. Mrs. Clay has hosts of friends who extend their good wishes to them in their new home.

—o—

There was a meeting of the Home Economics club Friday at which Miss Rowe of the extension department spoke of the establishing of an honorary home economics sorority at M. S. C. Much interest was shown and great developments are hoped for in the near future.

—o—

Melton-Foote

Among the faculty weddings of the summer was that of Miss June Melton and Mr Harry Foote. The wedding took place in Kansas City, Kansas, August 9. Mr. Foote is a member of the faculty of the biology department and made a host of warm friends on the hill during his stay here. Mr. and Mrs. Foote are at home at 720 So. Third ave.

—o—

Schwalbe-Starring

Miss Gertrude Schwalbe and Mr. Starring both formerly members of the college faculty were married during the early summer. Mrs. Starring was an instructor in English and Mr. Starring is connected with the agronomy department. They are at home in the Tallman house, 722 So. Third avenue. The heartiest congratulations, are extended by all their friends.

—o—

Faculty Reception

Last Friday night the fifth annual faculty reception to the students was held in the sewing rooms of the home economics department. There was no regular program for the evening but music was furnished by the college band and later in the evening light refreshments were served. The introduction committee was composed of upper classmen who saw that all new students at the college were made acquainted with members of the faculty and other students.

The event was a most pleasant one and those present will look forward to it in the future as one of the big social events of the college. The custom is one that was started five years ago. It proved a wonderful success at that time and has been kept ever since.

COLLEGE BRIEFS

Whit Manning, commissioner of interests social, returned Wednesday and says that things will get going socially within a very short time.

—o—

The Y. M. C. A. has organized a class in wrestling. The class meets on Tuesdays and Thursdays from 7 to 8 p. m.

—o—

Dr. Edwin I. Stearns of New York city will speak at the Y. M. C. A. building. The association male chorus will sing at this time.

—o—

Professor Cobleigh was called to the Bitter Root valley this week by the death of his aunt at Corvallis. He is expected home this morning.

—o—

Miss Lana Baldwin of the art department is spending the week at the state fair in Helena. Miss Baldwin is one of the judges of the art exhibit at the fair.

—o—

Registrar R. O. Wilson, who has been seriously ill at his home for several days, left on Wednesday for Missoula where he will spend a month resting at his brother's home.

WANTED — TO SEE THE JULY number of the YALE REVIEW. will some member of the faculty please oblige. Mr. Duddy.

C. C. McCormick of last years graduating class spent Wednesday in Bozeman renewing acquaintances. He attended the state fair at Helena the latter part of the week.

—o—

Among the members of the faculty who have been delivering lectures at the state fair in Helena this week are Professors C. N. Arnett, G. L. Martin, A. C. McChord and Dr. Howard Welch.

—o—

Among the upperclassmen to resume their work on the hill this week are Mark Wheeler of the sophomore class and Eugene Rapatz of the senior class.

—o—

President James M. Hawilton talked on "Rural Credit" at the state fair yesterday.

Fred Bullock and Raymond Cannon of the senior class have been in Helena all week assisting with the college exhibits.

—o—

George R. Milburn, who has been spending several days at the Delta Chi house on South Third avenue, left yesterday morning for Helena to visit the fair. Mr. Milburn will leave on the first for the northwestern part of the state where he will be engaged in geological survey work for the Anaconda Copper Mining Company.

Engineering Notes

The Electrical club held its first meeting last Tuesday on the second floor of the electrical building at which time they elected officers for the year and discussed a few business matters.

—o—

The engineering department announces that Fred Homan has been appointed instructor in Mechanical engineering and will start work at the college about the first of October. Mr. Homan had charge of the class in automobile practice last year and did exceptionally good work. He has also given instruction in the machine shop.

—o—

Professor Thaler recently received a letter from Mr. O. S. Peters, a member of the class of '09. Mr. Peters is with the Bureau of Standards in Washington D. C., where he has been employed for the last five years, and during this time has written and published several pamphlets dealing with subjects in connection with his work. Mr. Peters recently received a raise in salary and is reflecting credit on himself and M. S. C.

He also writes that he is building a house for himself and family in Virginia, just across the line from Washington D. C. It is near enough that he will be able to go back and forth to work and still live at home.

Mr. Peters was editor of the Exponent at one time during his course at the M. S. C.

Alumni and Ex-Students

W. J. Kreamer '10, was a recent visitor in the city.

—o—

Pearl Heighton of Choteau, member of class of '14, was a recent visitor in Bozeman.

—o—

Albert Osenbrug is now working at Huntley. Al was a prominent member of the class of '16.

—o—

Miss Frieda Bull spent some time in New York City, with the National Educational society, this summer.

—o—

Elbert Allen, member of the class of '03, and now city attorney of Livingston, was a recent visitor in the city.

—o—

L. P. Davidson is now working in he testing department for the Anaconda Copper Mining company, at Anaconda.

—o—

Max Wilcomb is at Livingston with Mr. Sackett in county surveying work. He was a member of the class of '15.

—o—

A. P. Burkett is now located at Trident, Mont., working for the Three Forks Portland Cement company of that place.

—o—

Edward Noble went to Huntley on some special investigation work for the sub station. Ed is a member of the class of '15.

—o—

John Fiske, member of class of '15, is at West Lynn, Mass. He is in the employ of the General Electric company of that place.

CO-EDS PREFER HOME SCIENCE

It is interesting to note that there is a marked increase in the registration in Home Economics courses over that of last year and that the increase seems to be caused by girls who registered in other academic courses at the beginning of their freshman year. The reason may be that harder, more theoretical courses may have shattered the ambitions of the fairer sex, but at any rate an increase of 20 per cent is given out by the heads of that department.

Senior Derbies Expected Soon

The derby hats which are to be worn by the men of the senior class have been ordered through a local clothing store. They will arrive in about ten days. All except a few of the seniors have ordered this style of headgear. Carrying canes and wearing while trousers in the spring was also discussed by the seniors, but this will not be decided until later.

VIGILANTES STOP FRESHMEN RAID

GUNMAN HOLDS UP GANG OF RAIDING FROSH UNTIL THE COPS ARRIVE

An exciting tale of a hair-raising experience was told on the campus Thursday morning by five 'Wearers of the Green' who were out on a sophomore raid the night before. According to the story, the freshmen were endeavoring to haul a sophomore captive through the window of his room when suddenly the man of the house appeared around the corner. He was armed with an old musket and his command of "Hands up" was quickly obeyed. While the five frosh stood up in line with their hands stretched skyward, a hurry-up call was sent into the police station.

In the course of five or ten minutes two Bozeman bluecoats arrived in a taxi and took the frightened captives in charge. After some parley the terrified quintet was allowed to depart after promising to attempt the capture of no more home-staying sophomores.

UNIVERSAL YELL FOR MONTANA "U" IS SOUGHT

Chancellor Edward C. Elliott has offered a prize of twenty-five dollars for the best university of Montana yell. This yell must include the names of the four higher educational institutions of the state. The offer was made about two months ago, and several students have contested, but no one has been offered the prize. Most of the yells submitted have been written by girls. The winning yell will be used by the four institutions and will do much to bring the schools in closer union.

Garfield T. Morris '03 and wife, formerly Edna Manner, '00, were visiting friends in the city, prior to the opening of school.

MEMBERS OF CLASS '16 SECURE GOOD POSITIONS

Nearly every one of those who graduated in the class of 1916 have secured good positions and have started to make use of their college education. It is remarkable that all the members of so large a class should all secure good jobs within three monthsafter they have been granted their degrees. In nearly every case the members of that class are following their own profecsions.

Miss Lula Chestnut was elected teacher of home science for the coming year in the Billings high school but was forced to decline the position on account of poor health. She is now at home in Havre.

Martin Kelly is assistant city engineer in Anaconda. Ott Romney is teaching English in the Billings high school. He also has charge of the Billings huskies and is at present trying to whip the high school football squad into shape for the coming season.

William O'Conner is living on the ranch of O'Conner Brothers near Red Lodge and is acting as general manager of the concern. Otto Batch has decided that farm life is the life and is at present homesteading somewhere in Montana.

Miss Amelia Stanley is now head of the home science department in the Great Falls high school. Miss Esther Cooley has a similar position at Thompson Falls.

Two of the class have begun work in the Beaverhead County high school. Mollie Allen has charge of home economics there and Ernest Border is teaching agricultural subjects.

Miss Elizabeth Fletcher is teaching home economics in the Manhattan high schhool.

Miss Cecil Walker is teaching home science at Anacortes, Washington.

Miss Ethel Miewald is teaching in the schools at Hysham, Montana.

Victor Cotner has charge of some road construction work in Yellowstone county.

George Milburn has been selling land for the Montana Land company in Miles City this summer. He is now engaged in some geological survey work for the Anaconda Copper Mining company in the nortnwestern part of the state.

Albert Osenburg is now connected with the U. S. department of agriculture and is stationed at Huntley, Montana, on the experiment station.

Hilmer Dahl has returned to Montana State college and is going after a degree in electrical engineering.

Miss Erma Lessel has recently accepted a position as assistant chemist at the Montana experiment station at Bozeman. She is filling the place of E. J. Quinn, who is away on a leave of absence.

Howard Seamans is now assistant entomologist at the experiment station. He is also teaching several classes.

Fred Homan is connected with the Story Motor company in Bozeman.

Arthur Ford is in charge of some automobile work at Helena, Montana.

Miss Marie Stadler left this week for New York City where she will do graduate work at Columbia university.

Miss Alberta Borthwick is now dean of women at South Dakota State college located at Brookings.

Miss Marsa Ridell has a similar position at Montana College at Deer Lodge, Montana. She is also in charge of the home science department there.

Miss Olive Kinsella is spending the year at home with her parents at Aberdeen, South Dakota.

Edward Jacobs has just recently accepted a position as assistant physical director in the Y. M. C. A. at Bozeman.

David Steel is with the engineering corps of the Great Northern railroad and is at the present time working in the northern part of the state.

Miss Ruth Sweat is teaching home science in the schools at Raynesford, Montana.

William Heageney is one of the agricultural experts for a large Sugar beet company and is located at Lovell, Wyoming.

Miss Inez Smith is in charge of the sewing department in the Gallatin county high school at Bozeman.

C. C. McCormick is now professor of agronomy at the Billings Polytechnic college.

Taylor Lescher has been spending the summer at home in Great Falls but expects to leave soon for Pittsburg, Pa., where he will enter the employment of the Westinghouse company.

COLLEGE SONGS OF FRESHMAN CLASS, 1919

Following are some of the songs written by last year's freshmen. They will be sung on several occasions throughout the year, and are printed here so that every-one may have a copy.

OUR UNIVERSITY

(Tune: "John Brown's Body.")

Thruout the state thy colleges now firm united stand,
Their difficulties settled, they are working hand in hand,
A future filled with prospects bright, await thy least commond.
Oh University; Rah! Rah! Rah!

Chorus:

Glo-ry! Glo-ry! Hail Montana!
Glo-ry! Glo-ry! Hail Montana!
Glo-ry! Glo-ry! Hail Montana!
Our University! Rah! Rah! Rah!

The Normal college, M. S. C., The School of Mines and "U,"
Their colors blend in loyalty, to Thee Montana true.
We'll head the list in praising Thee with our dear Gold and Blue.
Oh University! Rah! Rah! Rah!

Chorus

Montana, may prosperity on you forever shine,
Success o'er core adversity, and honor shall be thine.
Our University! Rah! Rah! Rah!

Chorus.

THE DORMITORY FUSSER'S SOLILOQUY

(Tune—"Solomon Levi.")

My name is Johnie Maloney, I'm a student at M. S. C.
And all the girls in college are just crazy over me.
I'm not so very handsome and of cash I'm always shy,
But all the girls in college think that I'm the only guy.

Chorus

Oh, Jonnie Maloney, Tra-la-la-la-la-la-la
Oh, fusser Maloney, Tra-la-la-la-la-la-la
My name is Jennie Maloney, I'm a student at M. S. C.
And all the girls in colloge are just crazy over me.
The reason I'm so popular, you'd never guess at all.
But it's because I spend my time in calling at Hamilton hall.
We're always seen together, now, my lady love and I,
We stroll around the campus when the moon is in the sky.
But when the night is stormy and the rain is pouring down.
We take the ten-cent jitney to a movie show in town.
Oh, Jonnie Maloney, Tra-la-la-la-la-la-la
Oh, fusser Maloney, Tra-la-la-la-la-la-la
We're always seen together, now, my lady love and I.
We stroll around the campus when the moon is in the sky.
Oh, I'm so very happy that I'd trade my life for none,
Because among the women, I'm a regular son-of-a-gun.

ON THE ROAD

(Tune—"ToMandalay.")

In the grand old state, Montana,
Where the western breezes blow,
And the lofty mountain ranges,
Even gleam with ice and snow
Is the little town called Bozeman,
It's the dearest place to me.
For it holds my Alma Mater,
It's the home of M. S. C.

Chorus

Then a toast you'll drink with me,
To our college M. S. C.
To her men and to her maidens,
To her noble faculty
To the gold and to the blue
May we never prove untrue.
A toast to old Montana,
M. S. C. a toast to you.
And though distant lands divide us,
Still our hearts that ever roam,
Will have learned in years behind us,
To call our college home.
For our brightest days, our dearest days,
We know belong to thee.
Then a health to dear Montana,
M. S. C., a health to thee.

Chorus:

For you see the grass is greener there,
The sky a bluer blue.
The maidens there are fairer,
And the men more brave and true.
The valley stretches wider and the mountains rise so high,
Let me live there 'til I die.

Chorus:

Gridiron Gossip

The loss of "Pud" Oberle, Gallatin High's former star, will be keenly felt by the squad, Oberle was a promising candidate for the back field where his speed and weight made him a valuable asset. On Monday night he sustained a severe shoulder wrench which laid him out for a few days but parental consent which nad previously been withheld again fell with a decisive refusal so "Pud" will not don the moleskins again this season.

—o—

Captain Duquette was unable to report for practice for two nights because of a severe cold. He is back again and it is hoped that he will soon be better.

—o—

Graves, Noble, and Busch are back after an absence of a week. They attended the county fair in Whitehall.

—o—

The sophomore tug of war team will be materially strengthened by the addition of the football men this year. Last year the coach refused to allow any of the squad to participate in the contest.

—o—

Word has not yet been received from Missoula and we are still in doubt as to whether they have accepted the new eligibility rules.

—o—

The School of Mines team is preparing for its game with M. S. C. They are handicaped because of the fact that several classes are away on observation tours. One class is studying mining conditions in Alaska, another bunch is down in Idaho, and still another in Michigan or somewhere around the Great Lakes mining region.

—o—

Singing on the steps and a rehearsal of the college yells will be held some evening in the first week of October, in anticipation of the Mines games.

The following clipping comes from the Kaimin, the publication of the students of the state university at Missoula.

Athletic Relations Resumed

"On November 4, the University football team will play the Montana State College of Agriculture and Mechanic Arts at either Bozeman or Butte. This will be the first athletic contest between these two state institutions for more than a year. During the 1915-16 season, the Aggies severed all athletic relations with the State University and college athletics seemed to lose some of their significances—for there are many people in the state, who would rather see a game between the Bruins and the Aggies than to witness a HarvardPrinceton battle on the gridiron. It is indeed a pleasure to think that all differences have been "patched up" and that once again, the students will sing that old song.

"Up with Montana boys, down with the foe,
Good old Grizzlies will triumph today,
And the squeals of the pig will float on the air
From the tummy of the Grizzly Bear."

It has inspired and driven the wearers of the silver, copper and gold to victory in the past as it will do again this year.

MEN'S ASSEMBLY

Coach Bennion will have charge of the men's assembly to be held in the assembly hall this morning. At this time some much needed yell practice will be had to aquaint the freshmen with the yells and throw some life into the student body.

The Gallatin Laundry Company

Is giving better service this year than ever on account of the success obtained since adopting a strictly cash system. Make arrangements with your landlady to take care of your laundry when same is delivered, otherwise it will be returned to laundry. We are here to serve you.
