The Weekly Exponent.

VOLUME VIII. THE WEEKLY EXPONENT, FRIDAY, OCTOBER 6, 1916. NUMBER, 3

Blue and Gold Season Opens Tomorrow On College Field

First Football Game of Year With Butte Athletes

BOBCAT ELEVEN BATTLES TOMORROW ON COLLEGE ATHLETIC FIELD WITH BUTTE EAST SIDE ATHLETIC CLUB TEAM. GAME CALLED AT 3 O'CLOCK—GAME SCHEDULED WITH SCHOOL OF MINES POSTPONED UNTIL SATURDAY, OCTOBER 14.

The first game of the season was to have been with the School of Mines on October 7, but plans have been changed and the Mines game postponed until October 14. The Butte East Side Athletic club has been secured to play tomorrow. They have a fast bunch of old heads at the game and should make Beanion's "cats" extend themselves. Last week the Athletics played the strong Butte high aggregation to a 7-7 tie, which gives some indication of their strength.

Three weeks of gruelling practice has made some noticeable impression upon the Bobcat squad, but there is still room for a great deal of improvement. Owing to the almost total absence of veterans, Coach Bennion was forced to start at the very bottom and pound the fundamentals of the game into the verdant material. The recruits have come through the preliminary stunts, such as blocking and falling on the ball, in good shape, and have been whipped into something that resembles a team.

Signal practice and a few scrimmages so far have indicated that the 1916 Bobcats may make up in fight and pep what they lack in experience and knowledge of the game. The coach has an unenviable job before him, but with a vast amount of plugging and the right kind of support on the part of the students, we may anxiously hope for a team before the season ends.

Another disturbing factor has put in an appearance and served to increase the scarcity of material, namely, the eligibility committee. Jolley, a star performer in past years, was the victim of a new rule. MacMahon and Sherry were claimed by this committee as was Winninghof, a promising candidate from Missoula. It was also rumored that Carl Borton, one of last year's husky tackles, was short in credits but a careful search revealed the mistake and "Bort" is still out in a blue jersey. Another keen disappointment was felt when it was finally learned that George Hamilton, last year's star back, would not return.

Tomorrow's Lineup

Nothing definite has been worked out in the way of a lineup and but few men are assured of berths. The coach's greatest problem is to develop a quarterback. Boberg has been drafted from the halfbacks for the pilot position but is new at the job. Hansen, one of last year's regulars, and Wheeler, Graves, King, and Saltz, all of last year's reserves, have been working in the backfield. Bryan, from Billings, completes the list of backs.

Christensen has been doing the heavy work at center together with Price, a big fellow from Dillon. McSpadden, Bergman, Dahl and Senz, all of the 1915 second string have been used at guard. Carl Borton and Captain Duquette, both old men, are holding down the tackle jobs with occasional assistance from Roberts and Thomas. The ends are being watched by Stearns, Al Borton, Stanley, Jorgenson and Noble.

Among the likely looking freshmen are Bush, Crum, Finch, Heageny, Ludwig, Riecheldt, Tobey, Winwood, Wakefield, Winninghof, Orvis, Mecklanburg, and Lillard.

The freshman team, under the coaching of Jolley, is being put in shape and have furnished some scrimmage for the Bobcats.

CHEMISTRY CLUB MEETS

The Chemistry club held its first meeting of the year Wednesday afternoon, September 27th. The following officers were elected for the coming year.

President, Lawrence Saltz; vice-president, Estella Milnor; secretary-treasurer, Leo Humphrey.

The club now has a membership of 30, 11 of whom are freshmen. This large membership speaks well for the excellency of the chemistry courses and for the competency of the instructors at Montana State.

BUILDING PLANS COMMITTEE AT MONTANA STATE COLLEGE

At the request of Chancellor Edward C. Elliott of the University of Montana, a committee of the faculty at Montana State college is drawing up a ten year building plan for the college. The aim is to determine what buildings are needed by the college during the next ten years, what buildings are needed first, where such buildings ought to be placed, and what buildings, if any, now in use, ought to be remodeled. Dean F. B. Linfield of the college of agriculture, is chairman of the committee.

VOCATIONAL CONGRESS FOR HIGH SCHOOL GIRLS OF STATE

The annual vocational congress for girls of high school age in Montana, will be held in Bozeman, November 23, 24, and 25. This is a conference to place before the girls of the state who are planning their higher ducation and life work, the possibilities of self support now open to women.

It is addressed by women who have made a success of professional work of all kinds. In past years among the lines of work open to women, aside from teaching, which have been presented, are nursing, the practice of medicine, photography, newspaper work, industrial art work, institutional work, secretarial work, scientific research, work of many kinds, and other vocations of interest.

This congress was organized and planned by Mrs. Una B. Herrick, dean of women in the State college, and has been the subject of much interest in other states. It has the support of the women's clubs throughout the state, which undertake to pay the railway expenses of the girls who come from all parts of the state, and who are entertained in Bozeman by the women's clubs here.

Among the speakers who will have part in the program this year will be Mrs. L. O. Edmunds, editor and proprietor of the Absarokee Enterprise, known at least among the newspaper fraternity of the state, as one of the brightest and ablest women in Montana. She will give a talk on "The Woman Printer." In accepting the invitation, Mrs. Edmunds writes, characteristically, that since "Thursday is publication day of the Enterprise, and since the proprietor must feed the press on that day," she will not be able to reach Bozeman until Friday morning.

FROSH AND SOPHS GET TOGETHER AFTER BIG FIGHT

Last Friday night the sedate and dignified people of Bozeman were shocked by the appearance of many bold youths on the street, all clothed in the downy robes of Morpheus, otherwise known as night shirts. The object of this celebration was the closing of hostilities between the two lower classes after the annual tug-of-war. The procession started at the high school about 8 o'clock in the evening and proceeded down Main street.

About one hundred men of the freshman and sophomore classes took part. They joined the band on Main street, and went to the opera house where a democratic rally was being held. After giving several yells for Myers and the democrats, the nightie brigade raided the moving picture theaters. The girls of the college, just returning from their picnic in Bridger canyon, joined the boys on Main street and proceeded to the campus where an impromptu dance was staged in the drill hall. The dance was very informal, and every one had a most enjoyable time.

SOPH GIRLS GIVE FEED

On Monday evening the Drill Hall was the scene of a very enjoyable party given by the sophomore women in honor of the recent victory of the class of '16 in the tug-of-war over the frog pond. At 5:30 the entire class assembled and "eats" were served by the fair non-participants.

When everyone had been served a short musical program was given by different members of the class, following which the '19s danced for an hour or so. About 7:30 the party broke up, the boys acclaiming the girls the best of hostesses.

Frosh Taken to Icy Bath by Sophs--Win Flag Rush

FIRST YEAR MEN ARE NO MATCH FOR CLASS OF '19 IN TUG-OF-WAR. FRESHMEN COME BACK STRONG IN FLAG RUSH AND SO FAR OUTNUMBER THE SOPHS THAT THEY ARE ABLE TO TAKE FLAG IN LESS THAN ONE MINUTE'S TIME.

Yo-HEAVE! Yo-HEAVE! Yo-HEAVE! This deep toned, rythmatic order issuing from the throats of entreating classmates and led by two lusty lunged yell leaders, inspired the straining sophomore team to renewed endeavors, and found response in systematic and clock-work action. When, like a well-oiled machine, with every ounce of effort applied in their tug, they slowly and relentlessly pulled the vainly struggling freshmen down to the very edge of the pond. For a moment the procession was halted when the latter with a supreme effort rallied their forces. But perfect team work and concentrated effort soon manifested itself and the class of '20 was ushered through the cold and slimy Frog Pond.

Sophomores Win the Toss

The weather was ideal and the attendance exceeded that of all former years. Odds seemed to favor the frosh, they had an advantage of 58 pounds in weight, their class is famed for its husky members, and they were known to have had several practices more than the sophs. At exactly 1:30, captain McMahon of the sophomore team and Captain Beach of the freshman were drawn aside by official Umpire Strand. They agreed to flip a coin for the choice of sides. McMahon won the toss and chose the south side which gave the sophs advantage of more secure footing.

Both teams lined up and when the gun was fired they hurled their opposing weights on the rope. The sophs at once fell into the steady and powerful heave which gained them victory. On the frosh side, while there was earnest endeavor, the team failed to work in unison. In just three minutes little Donoghue the front man experienced the chill of cold water playing about his ankles. A brief rally which lasted for half a minute gained them a step, but the class of '19 bent their backs to the task and in another minute it was all over but the clothes ringing part of the program.

Intruder Gets Cold Reception

A little preliminary excitement was furnished the spectators when an enterprising freshman photographer ventured over on the sacred precincts of the sophomores in his quest of pictures. He was seized and unceremoniously ducked in the mire. The girls of both classes showed lots of spirit and loyalty. The sophomore girls appeared in middy blouses with their numeral emblazoned in the class colors on their collars.

The freshman girls sported green and white stockings which proved an attractive addition to their attire. It was rumored that the girls of nineteen made a raid on the green stockings earlier in the day as a result, the aforesaid mentioned combination had to be resorted to. The following men comprised the victorious team: Stanley, Calkins, Chattin, Maybee, Graves, Watkins, Prentiss, Wheeler, Bergman, Neville, Stewart, Mac Millan, Senz, Nelson, McVey, Gray, Ritz, Noble, MacDonald, Davis, Marchion, McElwee, Major, Hanna, Humphrey, Davidson, Warr, Boberg, Robinson, and McMahon. Total weight, 4,973 pounds

The freshman team was composed of Price, Harris, Wiley, Dickman, Solberg, Mecklenberg, Sanberg, Crum, Tobey, McFarland, McConnell, Busch,

(Continued on Page Four.)

HOWARD'S MEN ARE GETTING IN FORM

Forty Men Report For Band Rehearsal —Twelve New Tryouts Among Freshman and Sophomores

During the past few weeks the band has been doing some very good work and is fast rounding into fine condition. Montana State college has as good a band as any college in this country and she is proud of it. The band in the past has been excellent but this year it is expected that it will be even better than before. Although it is yet very early in the year the boys are in fine condition to play before the public and are improving with every rehearsal. They intend to appear at every football game during the season and can be expected to do their part at all rallies.

Director Lou Howard received some new music last week and is expecting more daily. The boys are working hard and are preparing for the concerts before the assembly in December and in the spring they are also preparing music for dance work. A few dances have been contracted for so far and more are expected during the year.

There have been about forty men reporting for rehearsal including ten or twelve new men, among whom are:

Henry Mitchell, solo clarionet, freshman.

man; Lloyd Watkins, alto, sophomore; Chas. Carroll, alto, freshman; Luther Nordahl, tenor, freshman; Lucien Benepe, tenor, sophomore; Ben Gibbs, Baritone, freshman; Ursell Bunnell, alto, junior; Dave Gray, bass drum, sophomore; Alfred McFarlin, cornet, freshman.

The band will also do some work in connection with the military drill but to what extent cannot be told until Captain Clark, instructor in military training, arrives.

INGRAM WILL HEAD "M" CLUB FOR 1916

Senior Athlete Elected President of Letter Men For 1916—Annual Banquet to be Held Monday

A hurried meeting of the "M" club was held last Tuesday to elect officers for the ensuing year and to lay some plans for the work which will be undertaken. Craig Ingram was elected president and Myron Carr secretary. A banquet was voted for Monday night at the Bozeman to which all "M" men, both in school and out, are invited.

This banquet is to be a sort of get-together to discuss athletics in general and the trophy room in particular. Last year the "M" club decided to start a trophy room at M. S. C. and a great deal of work was done by a committee and the president, Will Heageny, '16." The club this year intends to resume the work where it was left in the spring. It is especially desired that all the old letter men who are in the city will be present.

Sophs Will Give Dance

At a recent meeting, the sophomore class decided to give a dance on Wednesday, October 11, at the college drill hall. The object of this dance is to start a fund for the 1919 annual. The best orchestra obtainable will play, and a good time is assured to all who attend. This will be the second annual dance of the class of '19. All college students are invited to attend. The admission will be 50 cents.

HUGHES FOLLOWERS ORGANIZE AT M. S. C.

G. O. P. MEETING HELD TO ORGANIZE REPUBLICAN CLUB AMONG STUDENTS

Students who profess to be members of the republican party gathered in the assembly hall Wednesday afternoon and perfected a permanent organization. The object of the newly formed political club was to boost for the republican candidate in the November election. The first thing will be taken up is the registration of all eligible republicans on the hill. About fifty loyal supporters of Hughes were present at the meeting and there are many others on the hill who were not present at the meeting. The club is made up of both men and women voters of the college and others who will shortly become voters. Several meetings will be held between now and election time. Officers of the republican club are: Llewellyn Luce, chairman, Miss Alice McCone, vice-chairman, Carl Borton, secretary, Jay Duquette and Lon Langohr general managers.

Fred Bullock spent last week in Helena where he acted as clerk of the judges at the State fair.

MONTANA REGIMENT WILL RETURN HOME

STUDENTS IN COMPANY A EXPECTED BACK TO SCHOOL IN FEW DAYS

According to present indications, the college men who are with the militia on the border will be home in a week or ten days. It is impossible to forecast with accuracy the exact time at which they will be relieved and mustered out. The order has already been given for the relief of the Montana regiment.

In the case the men are able to resume their studies in a week or so the football men will probably be eligible to play. This would add Morphey, Homer Taylor, Garvin, Thein and Hastings to the football squad.

It is possible that the company will be held at Fort Harrison for a time after they have been relieved, before they are mustered out. In case this happens the men will be so late in getting back to school that they would in all probability wait until the second semester before registering.

Announcements of the marriage of Miss Inez Everett '14 to Mr. Edward Shimele of Pine City, Minn., have recently been received in Bozeman.

BIG ENROLLMENT IN TWO SHORT COURSES

Over One Hundred Students Register First Day in School of Agriculture and H. E. Short Course

This year's registration in the short courses promises to eclipse that of all former years. Wednesday evening the total registration was well over the hundred mark and it is thought that last year's registration of 140 will be passed before the week is over Principal Holst of the Schhool of Agriculture says that many who have not yet registered will be here within a few days. There is an exceptionally good registration especially among the classes that were here last year. Professor Holst is more than pleased with the outlook in the short courses this year.

The students who were here last year are already getting active and class meetings have already been called of the two upper classes. The incoming class promises to be an exceptional one. One of the most noticeable things about this year's registration is the large number of girls registered. Up until last year these courses were confined to men but last year there were a few co-eds and this year there are still more.

The problem of housing all the short course students is a big one as most of the available rooms are already filled by the regular four year students. To overcome this difficulty in so far as possible club houses have been secured. There will be three club houses operated exclusively for the students of the short courses this year. Two will be for the men and one for the young women enrolled. The women will occupy the house of F. S. Cooley, at 601 South Central while the men will have one house at 321 South Ninth and the other at 921 West Koch. Mrs. Young will be matron of the girls house and Mrs. Price will have supervision over

(Continued on Page Four.)

DEAN U. B. HERRICK ADDRESSES WOMEN

Dean Herrick Discusses Plans For Vocational Congress at First Woman's Assembly

The first assembly for the women of the college was held Friday morning, September 29. After the singing of "Fair M. S. C.," the women were welcomed by Mrs. Herrick who was in charge of the meeting. Mrs. Herrick next spoke of the coming of Dr. Ulrick to Montana State, during the week of October 16-23. During this time, Dr. Ulrick will deliver a daily lecture to the women of the college, hold private conferences with all desiring to consult her and deliver at least one address to college men. Further notice will be given out as soon as more definite information is received from her. Mrs. Herrick spoke briefly of the plans for the coming Vocational congress, and of plans regarding a system of self-government among the women. She expressed her desire that all students possessing any information as to methods employed in other universities would send such to her, as the need of such a system is becoming more apparent as the number of women at this college increases every year. Following these remarks the assembly closed.

Y. M. C. A. OFFERS CLASS IN PHYSICAL CULTURE

Quite a large number of the young men and women on the hill have taken advantage of the opportunity offered by the local Y. M. C. A. in a class of physical culture, which enables them to learn swimming, and gives them other healthful and entertaining exercises. President Hamilton is also a member of the class, and takes his lessons with the other older gentlemen

THE WEEKLY EXPONENT

ESTABLISHED JANUARY 1, 1910
(Outgrowth of Monthly Exponent, Established January 1, 1895.)

OFFICE—ROOM 1, REPUBLICAN-COURIER BUILDING
TELEPHONE NUMBER 127-J

The Weekly Exponent is strictly a student enterprise. It's chief purpose is to present to its readers, each week, an accurate and complete record of the developments in college affairs during that period and to exert its influence for the upbuilding of Montana State college. The paper is the result of voluntary effort put forth by the students who compose the staff.

Published every Friday of the college year by a staff chosen from the students of the Montana State College of Agriculture and Mechanic Arts, of the University of Montana, Bozeman, Montana.

Entered as second-class mail matter at Bozeman, Montana, under Act of Congress of March 3, 1879.

SUBSCRIPTION RATE

Two Dollars Per Year - - - - - - Ten Cents Per Copy
Students become subscribers upon payment of the regular activity fee.

A PUSH-BALL CONTEST

The need of some new form of contest to take the place of the freshman-sophomore flag rush was emphasized last Friday afternoon when the lower classmen literally walked away with the affair. The rush which, when held at the old flag pole on the campus, used to be a real struggle for supremacy, resolved itself into a mere formality, as far as the freshmen were concerned. The sophomores were almost hopelessly outnumbered, and, to make their task even more impossible, they had to keep their pennant flying at a height which a moderately tall man could easily reach by jumping.

But, even had the pennant been flying twice as high as it was, it is unlikely that the contest would have been very satisfactory. With no barrier on the pole it would have been only a question of time when the freshman numbers would have told and the pennant been dragged down. Some new form of contest for the annual struggle for class supremacy is obviously needed.

A contest which has supplanted the ancient flag rush in many American colleges and which has been suggested for Montana State is the push-ball contest. This contest is a far more spectacular struggle than is the old flag rush and it places a much smaller premium on numbers. Wherever it has been tried out it has proved popular. In some colleges the annual push-ball contest between the freshmen and sophomores not only attracts the whole student body and large numbers of local people but also brings many spectators from other neighboring towns.

Sentiment on the hill, as well as among those of the local businessmen who have been approached on the subject, seems to favor the substitution of the push-ball contest for the flag rush in future freshman-sophomore struggles. The Exponent, believing that the push-ball contest will be a valuable innovation on the hill, will gladly exert its influence in any campaign for raising funds for the purchase of a push-ball.

COFFEE CLUB HOLDS FIRST MEETING AT "Y"

The Coffee club held its first meeting of the year at the Y. M. C. A. last Thursday evening. The club was entertained by Professor Brewer of the English department. The Coffee club is made up of the men in college who have taken part in some forensic affair. The club was organized last winter for the purpose of furthering interest in debate and forensic affairs in general. After a short session at the Y. M. C. A. those present adjourned to the Bungalow where they enjoyed an excellent banquet. The present members of the Coffee club are Professor Duddy, Professor Brewer, Ray Cannon, Jean Kelley, Llewelyn Luce, Lee Park, David Gray, and Don Langohr.

WOMEN OF COLLEGE PICNIC

The picnic held by the college women up Bridger Canyon was a grand and glorious success. True to his promises the weather man supplied good weather after the storms of the early part of the week. Shortly after the class rush the first truck load of picnickers left the campus for the picnic grounds up the canyon.

Here the crowd amused themselves in tramps around the canyon and surrounding hills and it is claimed that some of the more industrious climbed to the M on the slopes of Baldy.

After a true picnic luncheon served just before darkness began to fall the women began to practice yells and songs for their part in the nightshirt parade which was to be held that evening.

The start for town was made so that the first loads of picnickers arrived on Main street in time to join the crowd in the start for the dance at the Drill Hall and all voted that they had had the time of their lives.

A call is now made for candidates for assistant basketball manager for the coming season 1916-17. The assistant who will be selected from the junior class will be the manager for the following season, 1917-18. Those in the junior class wishing to try out for the office of assistant manager, please report to me at once.

(Signed) R. E. CANNON,
Mgr. Basketball.

MANY COLLEGE STUDENTS ATTEND THE HELENA FAIR

Combined Exhibits of Greater University of Montana Attract Large Crowds

The State fair at Helena closed last Saturday afternoon, after holding one of the most successful and pleasant programs, in its history. The agricultural display was unusual in quality, and therefore drew huge crowds, and resulted in much favorable comment. The display of M. S. C. attracted the attention of the visitors and many complimentary remarks have been passed along, both on the menagerie exhibit of the biology department and on the engineering display.

A number of college students attended the fair, and all seem to be very well pleased with the trip and the week spent in viewing Montana's choice products.

In the upper story of the agricultural building, the University of Montana had its exhibit. It was the first exhibit of the greater university. The forestry department had a most interesting exhibit on the same floor. From an educational standpoint, the 1916 fair surpasses that of all preceding fairs.

Society

Dorothy and Pauline Powell are now living at Hamilton hall. Mrs. Powell has left on an extended visit to the east.

—o—

Mr. and Mrs. Ralph Burgess returned from Helena Sunday where they went to attend the state fair and visit with relatives.

—o—

Jeanette Kelley entertained at dinner at Hamilton Hall Sunday, Miss Aimee Piedalue and Miss Veda Ferguson.

—o—

Mary Jane Kennedy who returned the early part of the week from her home in Helena was hostess to the freshmen girls of Hamilton hall at an elaborate spread Monday evening.

—o—

Mr. and Mrs. Ray Duncan are the proud parents of a daughter, born October 1. Mrs. Duncan has a number of friends on the hill and Mr. Duncan was formerly a student at the college.

—o—

Dorothy Mills, Etta Haynes, Mary Curl, Manford Snow, Lee Park and Craig Dugram enjoyed a picnic up to Mystic Lake last Saturday, they returned to Bozeman late Saturday evening. They went on horseback.

—o—

Announcements have been received in the city of the marriage of Miss Virginia Lange and Cyrus Kernes at Helena, September 30. The bride is the sister of Charles Lange, who was killed in football practice at the Montana State college a few years ago. She and her parents have many friends in Bozeman.

—o—

Mrs. Edmund Burke and Mrs. F. W. Ham entertained at a bridge luncheon at the home of Mrs. Burke, Monday afternoon, this being the first of a series of parties they are planning. Four tables spent a few hours with cards after enjoying an excellent luncheon. American Beauty roses were the decorations.

—o—

Saturday afternoon at the home of Mrs. F. S. Cooley, the college girls of the Presbyterian church were guests at a charming tea from 4 to 5 o'clock. Miss Mary Danielson introduced the girls to Mrs. F. S.Cooley and Mrs. R. A. Cooley. Music was enjoyed during the afternoon and a most delightful time was had by all.

—o—

Dr. Mabel Ulrich who will be remembered by a number of the older college students as one of the principal speakers at the vocational congress in 1913 will visit the college for one week this month. Dr. Ulrich will be here for the week commencing October 16 and will give one talk a day to the college women and will also give an address to the college men.

—o—

Thursday evening Hamilton hall was the scene of one of the prettiest receptions ever given at the college. President Hamilton was at home to the members of the faculty and their wives from 8:30 until 10:30. The living room was beautifully decorated with red berries while the dining room was decorated with cut flowers. In one corner of the dining room, the college orchestra was hidden among the palms. Delicious refreshments were served. Receiving with the President were Chancellor and Mrs. E. C. Elliott who were the house-guests of Hamilton hall for two days this week.

Engineering Notes

The government license for the wireless station was received a few days ago. It was granted by the secretary of commerce. The license is for experimental work and investigation and not for commercial purposes.

EXTENSION NOTES

Profs. Arnett and Hartman judged at the Missoula Fair, October 4th and 5th.

—o—

R. A. Blanchard, for 3 years county agent of Cascade county, has resigned to go to Oregon in similar work.

—o—

The Belgrade Fair Friday, October 6th, will have Profs. Riley, McChord, Tretsven, Whipple, Schoppe, and Atkinson as judges.

—o—

M. J. Abbey is addressing county teachers institutes in Hill and Blaine counties this week.

—o—

Miss Bess M. Rowe is holding an extension school in home economics at Baker this week assisted by Miss Mina Ogilvie.

—o—

Miss Mina Ogilvie of Barr Oak, Kansas, is the latest addition to the extension staff. She reported for work October 2d but will not reach Bozeman until October 7th.

—o—

Another county, Rosebud, has been added to the list of those requesting County Agents. This is the thirteenth county to prefer request for a regular extension worker, and the third on the waiting list.

—o—

Director Cooley, County Agent Leader Wilson, Supt. of Junior Extension Abbey, Home Economics Specialist Miss Rowe, Live Stock Specialist Hartman, Dairy Specialist Hillman, and Co. Agent Taylor, Piper, Banker, and Carpenter were at State Fair last week.

Fumbles by FRITZ

Our old friend, Johnnie Garvin, writing home and describing life on the border, concludes his letter this way, "This is a H——l of a war."

—o—

Tomorrow will be the first chance to see the 1916 Bobcats in action. Let's everyone be there for this is the stage of the game when the boys need the encouragement.

—o—

In spite of the great howl set up by the engineers and the biology people for a new building, the next edifice to grace the campus will in all probability be a ticket office for the athletic field.

—o—

We asked the coach when the boys would be back from Mexico the other day and he kicked us out of the office. This is evidently a dangerous topic with the coach. Moral: Never mention Mexico in the Coach's hearing.

—o—

Not to be outdone by the other political parties who are organizing clubs on the hill, Price has called the socialists to arms and will deliver a stirring address on the evils of same in the near future, according to the bulletin board.

—o—

Prexie was overheard directing a couple of shorthorns the other day who had apparently asked for information. He led them out in front of Montana Hall, and pointing down the hill, said, "That big building down there is the Aggie building and right over there are the barns. Go right down and make yourself at home."

—o—

Oct. 7—Butte East Side Athletic club, at Bozeman.
Oct. 14—State School of Mines, at Bozeman.
Oct. 27—All-Stars, at Bozeman.
Nov. 4—State University, at Bozeman
Nov. 11—Gonzaga university, at Spokane.
Nov. 18—Utah Agricultural college, at Logan.
Nov. 30—State School of Mines, at Butte.

COLLEGE BRIEFS

Harold Pippenger of the junior class resumed his work on the hill this week.

—o—

Russel Jackman, who recently underwent an operation, is progressing rapidly. He left the hospital yesterday.

—o—

Professor A. A. Atkinson of the agronomy department returned Tuesday from a business trip to the Twin cities.

—o—

The women of the H. E. Club of M. S. C. will have a conserve sale at the Model Grocery store next Saturday, from 9 to 12. The proceeds will be used to entertain the vocational congress delegates at luncheon.

—o—

B. W. Whitlock of the state grain laboratory returned Tuesday from Minneapolis where he attended a meeting of the warehouse commission. He left again Wednesday for Missoula where he will judge grains at the Missoula County fair.

LETTER FROM THE BORDER

Field Camp, Second Mont. Inf., Douglas, Arizona, Sept. 26, 1916.

Dear.....and K. N. Boys:

I was sure glad to hear from you and sorry I can't be with you. We are all sick and tired of this border duty and will be glad to get back to old Montana. We are having sand storms nearly every day and our clothes are always filled with adobe or ants so you can imagine how agreeable it is.

Taylor and I are signed up with the mule skinners and we are professional four horse skinners now. We have it a little softer than the soldiers. We get $21 dollars a month and don't have a rifle to be rubbing away at all day long.

Two battalions have been to the target range and the third battalion is shooting out there now. We are hoping to start for home as soon as the target shooting is over but we may be disappointed.

I am glad to hear the freshman class is so large. Lieutenant Vidal of Great Falls intends to go to M. S. C. if we ever leave this desert. All the students enrolled that are in the regiment don't stand a ghost of a chance of getting a discharge as long as our Colonel draws his $16 a day. If the Montana people knew the conditions we wouldn't be here very much longer.

Eva (Garvin) is on the war path because he can't get back and Wally (Gatton) is in the base hospital. He had an operation performed on his knee and is getting along fine.

I am sending you a few views showing what we are up against. You can imagine how nice it is to eat in that kind of a mess hall during a sand storm. The new mess halls are some improvement inasmuch as they keep out the flies.

The nights down here are pretty cool and it gets cold before morning but the days sure are hot if the wind doesn't blow.

Hoping that our release will come pretty soon, I am,

Your humble "protector"

WAYNE BOWLEN

(Tough Hombre).

GLEE CLUB MEETS

On Tuesday evening the college glee club held its first practice. Eleven men reported for work and seem determined to make the club a great success. There are several additions to the organization and more new men are expected.

SHORTHORN ENROLLMENT

(Continued from Page One)

the two men's club houses. These houses will not be ample to take care of the entire enrollment so many will be located in private homes.

The club houses are not operated for profit and students living there receive their board and room considerable cheaper than those who live with private families. The men will secure board and room at their club houses for $16 a month and the women for $20. Professor Holst has had charge of such club houses for the past two years and they have been a marked success on both occasions. This is the first time that a club house has been run for the girls of the short course.

Instruction for the short course started Wednesday morning and the difficulty of finding class room for such a large enrollment immediately presented itself. It is hoped that this matter can soon be adjusted. Instruction in the short courses lasts six months.

The short courses are becoming more popular each year as is indicated by the rapidly increasing enrollment. In the past five years the number of students taking the six months course has practically trebled. student body are invited to join. He also asked the opinion of the students about allowing the short course students to become members of the club. It was decided to allow no one but the four year students the privilege of membership.

Larry Saltz was elected president and Gregor MacMillan was elected secretary and treasurer of the college club for the coming year.

Coach Bennion gave a short talk on football prospects for this year and told the students not to set their goal too far ahead.

"Although we ended the season last year very strong and have good prospects for this year, we have practically a new team as many of the old men can not get back. Optimism is all right but do not let it carry you too far. We have a promising outlook and expect to win a good majority if not all of our games this fall. We can do more however when we know that the students are behind us. Whenever we have a game here everybody get out and root, let the boys know that you want them to win and are doing your part to help them. Whenever we have scrimmage come down and watch us, see what we are doing and see if we make any progress and we will do what we can to make M. S. C. a winner."

Some songs that were written by members of last years freshman class were sung and a few yells were practiced. Gregory Powell, yell leader at the U. of M. last year, told of the part that rooting plays in athletics and afterward led the students in some college cheers.

FROSH TAKEN TO ICY BATH

(Continued from Page One)

Pickens, Sessions, Cutting, Pitts, Lephart, Blickenderfer, Ecton, Lilliard, Dougherty, Leanord, Mitchell, Strand, Bert, Donohue, Stearns, Orvis, Finch, Steele, Tyler, Stickler, and Beach. Total weight, 5,031 pounds.

It was an exciting, well fought and fitting climax to the three weeks of strife and class rivalry. The sophomores have gained one point of the seven that will decide which class is to have the privilege of placing their numerals on the sup.

After the tug-of-war, the crowd withdrew to the athletic field which was to be the scene of the next endeavors.

Flag Rush a Tame Affair

A pole, extending twelve feet above the ground which had previously been erected, occupied the center of the field. The two classes lined up under opposite goal posts. A brief respite was granted which enabled the men to recover from their exertions. The sophomore contenders were about thirty-five strong while the opposing force had an overwhelming number of about fifty-three men. The gun was fired and both teams gallantly charged across the field. Stanley, closely followed by Wheeler and McMahon, all of the sophomore class were the first to reach the pole. The struggling forces tangled and for about one minute things were pretty interesting for both sides. Two shots in quick succession followed which was the signal that it was all over. O'Brien of the frosh class, climbing over the backs of the fighting men, was boosted up the pole. He tore the soph emblem down and that was all there was to it. A wild scramble ensued as the sophs endeavored to regain their pennant but it is still a question what became of it.

The class scrap was a tame affair in comparison with those of former years. But next year it is hoped that the proposed Push-ball contest will provide a real fight. About nine hundred spectators witnessed the contest. The sophs won the tug-of-war, the frosh won the scrap, the girls got away with the pennants, the crowd had lots of entertainment and everybody is happy. In the evening a night shirt parade and impromptu dance testified that enmity had been abandoned, and that the new students are now initiated into the college life, where all may work in harmony for the honor and glory of M. S. C.

COACH BENNION ADDRESSES THE MEN

Last Friday the men of the college held a meeting in the assembly hall. Several matters of importance were discussed among which was the idea of replacing the present flag rush between the freshman and sophomore classes with a push-ball contest, which is used in many of the larger colleges as a form of competition between the lower classes. The idea seemed very popular among the students and is advocated by many of the business men down town. Roy Strand, president of the A. S. M. S. C. appointed a committee to see if it were possible to make the change and to see what could be done toward starting a fund to purchase a push-ball.

President Strand talked on the college club telling the new students that all were entitled to belong, the dues being only fifty cents for the entire year. The club is situated west of the biology building. It is a good place to go between classes to study and smoke. All male members of the
