

The Weekly Exponent

VOLUME XV.

BOZEMAN, MONTANA, SATURDAY, MAY 17, 1924

NUMBER 33

COGSWELL HEAD OF NEXT SENATE

Prominent Junior Elected President of Associated Students Monday

BUT TWO OFFICES FILLED

Hatfield Elected as Commissioner of Interests Athletic. Second Election Monday

Teddy Cogswell was elected President of the Student Senate for the coming year at the annual election held in the Main hall last Monday. Frank Hatfield was elected to the office of Commissioner of Athletics. None of the candidates for the remaining offices received a majority of votes thus necessitating a second election, to be held next Monday, on all the previous candidates for each office except the one receiving the fewest number of votes.

Teddy Cogswell is one of the best-known students on the Hill. He hails from Helena, and is a Junior in Agricultural Education. As an all-round athlete he displays exceptional ability, having won his letter in basketball the past season and in football and track for two years. His scholastic standing is very high, and in activities of the agricultural students he has always taken a prominent part. There can be no doubt but that he will fill the office of President of the Student Senate in the same efficient and satisfactory manner that characterizes all his undertakings.

Frank Hatfield, re-elected to the position of Commissioner of Athletics, is also an athlete of unusual ability and a man very well liked throughout the entire student body. He has served in that office during the past year, and last year gained a seat in the Senate as President of the Sophomore class. He has won his letter in football for three seasons and in basketball for two years. Next year Hattie will Captain both the football and basketball teams, succeeding himself in the latter position.

The official results of Monday's election are as follows.

President—Cogswell, 188; Bowden, 50; Briscoe, 51; W. A. Boyer, 54.
Councilman-at-large—Rivers, 158; Riley, 54; Morris, 139.

Commissioner of Athletics—Hatfield, 195; Hartwig, 153.

Commissioner of Finance—McIvor, 95; Ennis, 151; McMillan, 57; Carnes, 48.

Commissioner of Interests Musical—Forbes, 110; Cottier, 116; Reik, 65; Solveig Rivenes, 59.

Commissioner of Interests Social—Rhoda Harris, 150; Lawton, 110; Keturah Tibbles, 90.

The patronesses of Chi Omega took the active chapter to Bozeman Hot Springs for a picnic dinner Thursday afternoon.

BOBCATS TAKE TRIANGLE MEET

Montana State Track Men Run Away From Opponents At Belgrade

BACHMAN SETS RECORD

Intermountain Union and State Normal College are Out Classed

BOB TOOTELL IS HONORED FROSH

Selected by Alpha Zeta as Ranking Highest in Scholarship and Activities

Robert Tootell of Great Falls, was announced this morning as the first winner of the Alpha Zeta Cup for scholarship, student activities, and personal merit. This cup is the property of the Montana chapter of Alpha Zeta, national honorary agricultural fraternity, and each year will be engraved with the name of the freshman in agriculture ranking highest in those qualities which the fraternity stresses in the selection of its members.

The committee which selects the freshman who shall be honored by having his name engraved on the cup is composed of the president of the college, the Dean of Men, the Dean of Agriculture, Chairman of the Alpha Zeta advisory council, and the chancellor of the active chapter.

This year is the first year that the cup has been awarded, but it is the plan to make it an annual affair in the future.

Robert Tootell, the winner this year is one of the outstanding men in the freshman class in agriculture. Besides ranking among the very highest in the class in scholarship, he has made a place for himself in the reportorial staff of the Exponent, he took part in the Intramural track meet, and this spring was elected to the position of recording secretary of the agricultural club. He is a member of the Amigo club fraternity, and one of the well-known men on the campus.

NOMINATIONS FOR FRESH- MEN OFFICERS THURSDAY

Thursday afternoon the Freshman class met in the assembly room of the Main hall and made nominations for the officers of the Freshman class for the coming year. Although only a handful of students was present the nominations were carried on successfully.

The following nominations were made:

For President—Gerald Sullivan, Henry Gardner, Floyd Cranston, Val Glynn.

For Vice President—Maurice Lathrop, "Monk" Cashmore.

For Secretary—Arthur Olsen, Frances Wyle.

For Treasurer—Percy Lennon, Godfrey Haggarty.

The election will take place in the Main hall next Tuesday.

BOBCATS TAKE TRIANGLE MEET

Montana State Track Men Run Away From Opponents At Belgrade

BACHMAN SETS RECORD

Intermountain Union and State Normal College are Out Classed

In the triangular track and field meet at Belgrade last Saturday the college track squad demonstrated its superiority by piling up a total score of nearly twice that of her two opponents, Intermountain Union and Montana Normal. The final score was Montana State, 130; Intermountain Union, 63; Montana Normal, 9.

The weather was ideal and the Bobcats were going at top form. "Shorty" Bachman set a new State record for the two mile run when he covered the distance in 10:24.6, one-fifth of a second better than the State record he set last year.

Captain Ed Bunney of the Bobcat squad tied the State half-mile record of 2:04. Ted Cogswell ran the 100-yard dash in 10-flat, one-tenth of a second behind the State record. Cogswell also ran the 220 and 440 yard dashes in time that was only a fraction of a second away from that of the State record.

Carlos Livers, the Bobcat freshman from Great Falls, was high point man of the meet, taking two firsts, two seconds, and a fourth, a total of 20 points. Ted Cogswell tied with Whitcomb of Intermountain Union for second place. Both won three firsts which gave them a total of 15 points each. Bachman was fourth man with two firsts and a fourth, a total of 11 points.

"Doc" Jones expressed himself as being highly satisfied with the showing made by the boys Saturday. The lack of outdoor practice has been a severe handicap to the Bobcat team this year. Taking this into consideration, the results of the meet last Saturday reflects a great deal of credit on the work of Coach Jones and the Bobcat squad.

The event with winners and records were:

Pole vault—Powers, M. S. C.; H. Bunney, M. S. C.; R. Williams, I. U.; No fourth place. Height, 10 feet 6 inches.

Two mile run—Bachman, M. S. C.; Bade, M. S. C.; Sebastian, M. S. N.; Howard, I. U.; time 10:24.6.

Shot put—Whitcomb, I. U.; Yedlicka, M. S. C.; Redfield, I. U.; Powers, M. S. C. Distance 37.4 feet.

100-yd. dash—Cogswell, M. S. C.; S. Williams, I. U.; Hayes, I. U.; Sales, M. S. C.; time 10 flat.

120-yd. hurdles—Sales, M. S. C.; C. Livers, M. S. C.; Loy, M. S. C.; Lane, I. U.; time 17.3.

Discus—Whitcomb, I. U.; Yedlicka, M. S. C.; Redfield, I. U.; Bachman, M. S. C.; distance 103.76 feet.

High jump—C. Livers, M. S. C.; Loy, M. S. C.; Redfield and Lane of I. U. tied for second place. Height 5 feet 5 inches.

100-yd. dash—Cogswell, M. S. C.; E. Bunney, M. S. C.; Livers, M. S. C.; McMillan, M. S. N.; time 52.4.

220-yd. hurdles—C. Livers, M. S. C.; Sales, M. S. C.; Midget, I. U.; Lane, I. U.; time 26.5.

Broad jump—H. Bunney, M. S. C.; J. Livers, M. S. C.; Loy, M. S. C.; C. Livers, M. S. C.; distance 20 feet 8 inches.

Javelin throw—Whitcomb, I. U.; S. Williams, I. U.; Powers, M. S. C.; Brownfield, M. S. N.; distance 140.3 feet.

880-yd. run—E. Bunney, M. S. C.; Hodgson, M. S. C.; Blakesley, I. U.; Lane, I. U.; time 2:04.

220-yd. dash—Cogswell, M. S. C.; Livers, M. S. C.; Sales, M. S. C.; Williams, I. U.; time 23-flat.

Relay race—M. S. C., first; I. U., second.

One of Eli's scouts mentions the fact that a certain lovelorn Freshman, when enthusing over his sweetheart described her as "just as pretty as she can be."

SEPTENVIRI PICKED FOR JUNIOR CLASS

Seven Prominent Third Year Men Named to Direct College Traditions

ALL-STAR CAST SELECTED

Year's Last Tormentor Production Scheduled to Exceed Previous Efforts

TORMENTORS TO PRESENT PLAY

"The Unchastened Woman" to Be Given at the Ellen Tuesday

The names of seven members of the Junior class who have been elected to Septenviri for the coming year were announced by the faculty committee yesterday. The juniors who were selected for members in this body are: Verle McCoy, Winton Weydemeyer, William Ennis, Frank Hatfield, Edward Bell, Glenn Boyer and Richard Ross.

Septenviri is a society of Senior men, selected by a committee of the faculty on the basis of scholarship, 25%, college activities, 50%, and personality, 25%. The purpose of the society is to further the observance of college traditions, to institute new traditions when the occasion for them arises, and to direct the activities of the student body with respect to the mutual welfare of the college.

The newly elected members are well known to all the college community, all of them having taken a prominent part in the different college activities in the past three years.

Bovina!

Aggies Invite Friends to Novel Affair

Hail! Ye Engineers! Hear ye all, Home Ecs, Secretaries, Applied Scientists, Faculty, citizens of Bozeman, ladies and gentlemen, and all others who may be in the Gallatin valley, temporarily or permanently!

Bovina will be staged on the campus this afternoon by the Aggies solely for your benefit. Bovina is guaranteed to be a unique and indescribable function, the like of which has yet to be seen, a phantasmagoria par nouvelle without compare.

For pure entertainment without taint of educational features, for mirth-provoking amusement absolutely without onerous excitement of cerebral exertion, Bovina is slated to have any other celebration backed off the map.

You may not know what it is, but neither does anyone else, for nothing comparable to it has been pulled off heretofore in this section of the country. It is new and may never be seen again. If you fail to take it in, you will always regret it.

Judging Contest Will Be Feature of Ag Day

MANY PRIZES OFFERED TO WINNERS OF PLACES

All College Stock and Grain Judges Will Get Chance To Show Mettle

This year as before, the Aggies will have their annual spring grain and stock judging contests on Ag Day. Competition in these contests has always been quite keen and probably will be again this year.

Due to the fact that so many of the college horses are working in the field, there will be no class of horses in the stock contest. Instead, there will be two classes each of beef and dairy cattle, one class of fat hogs, and one class of sheep. There will be five prizes in the stock contest. The winner of first place receives a John Clay Gold Medal and name engraved on the Atkinson Trophy. Second place gets a John Clay silver medal. Third place gets fifty per cent of the entrance fee money. Fourth place gets thirty per cent of the entrance

Campus Day To Be Next Wednesday

BIGGEST COLLEGE LETTER TO GET SPRING COAT OF WHITEWASH EARLY NEXT WEEK

Busses to Leave Y. M. C. A. at Eight O'clock. Spurs to Serve Lunches in the Afternoon. Picnic to be Held up Bridger

Wednesday, May 21, has been designated by the Student Senate as Campus Day. The main effort of the student body on Campus Day will be directed towards the painting of the giant "M" on the side of Mt. Baldy.

Busses will leave the Y. M. C. A. promptly at eight o'clock for the mountain, and it is expected that the relay will be organized, and water and lime will be started up the big hill by eight-fifteen. All the work of the mountain, and the direction of the busses will be in charge of the Fangs.

Glenn Boyer will be in charge of the transportation to the "M", George Finley will have charge of the lime and supplies, and Helen Chase Walter will be in charge of the refreshments.

GIRLS TO COME AT ELEVEN

These girls will come out to the "M" at about eleven o'clock, for that will give them time to prepare lunch by the time the job is finished, and from that time on picnicking will be the order of the day. Students are reminded by the Senate that work on the big letter is the primary object of the trip to Mount Baldy, and the picnic will be postponed till after the letter is painted. It is hoped that all students will turn out, the men at eight, and the girls at or shortly after eleven.

The Senate has asked each organization to be responsible for the appearance of its members at the "M", and to submit a list of those who fail to appear without a good excuse. Widest publicity will be given to those members of the student body who chose to take a holiday in preference to helping with the big job of the day.

Lunch will be served to all the weary workers by the Spurs after the job of painting the big letter is completed, and the rest of the afternoon will be devoted to a picnic and good time in Bridger canyon.

The college "M" which is situated on the side of Mount Baldy, and overlooks the whole of Gallatin valley, is the largest college letter in the world. It is built of native rocks, of which there is a great profusion in that locality, and kept in good order by two annual paintings. In the spring the whole college takes a day off to build up the thin spots with rock, pull the weeds around the big letter, and give it a new coat of whitewash, to shine it up for the summer tourist season.

Each fall the incoming freshmen class spends Columbus Day in whitewashing the "M" for the winter.

The "M" was constructed by the Class of 1918, after spending the major portion of the spare time in their sophomore year at the task. The letter is over three hundred seventy-five feet high, and about two hundred fifty feet wide, and is built in the block "M" that symbolizes the college in athletic awards, and other such places.

FACULTY PICNIC TO BE AT BOZEMAN HOT SPRINGS

Next Wednesday while the students daub up the "M", the faculty will enjoy their annual spring picnic. This year the scene of faculty gaiety is to take place at the Hot Springs where a good time is guaranteed to all those who attend. The picnic is open to all faculty members of the college, high school, and grade schools.

Owing to the fact that the grade and high schools will not be out until three-thirty the picnic will not start until four in the afternoon. The amusements for the afternoon are under the able management of Miss Pack and Coach Romney and will probably consist of water sports and other contests. The refreshments were left to a committee who guarantee a fine supper at five-thirty prompt.

Next Saturday Is Slated For Woman's Day on Hill

INTERESTING FEATURES INCLUDED IN PROGRAM

Athletic Awards, and Woman's League Cup to be Presented

Everyone is most cordially invited to attend the Woman's Day of Montana State college, to be held in the college gymnasium Saturday afternoon, May 24, at 2:30 o'clock. This means the men as well: both of the student body and the faculty. It is a Woman's Day to be sure, but that should only make it more attractive to the stronger sex, and besides the women would like to show you what they can do in the way of awarding medals for athletics and other honors. And then it is not just for women just as the "M" award day is not just for men but a day in which to show the spirit of our Montana State college, it is an institution in itself.

A most interesting program has been arranged and Dean Herrick has worked unceasingly for its success.

The man speaker of the afternoon is to be an old alumnae, Mrs. Erma Lessell Collins who graduated from here in 1916. Many remember her as she has spoken since at the Girls Vocational congress.

One of the most exciting features of this afternoon will be the awarding of the Women's League cup, with the name of the junior girl engraved on it who has reached the highest attainment in her three years at M. S. C. She is to be judged on a 100% basis, 10% for scholarship, 15% for activities, 45% for personality and 30% for leadership.

The athletic awards consist of track, basketball, rifle, hiking, tennis, swimming and the high point medal for the girl who has made the most points in all of these.

The new cap and gown members are to be announced by Dean Herrick and the installation ceremony for the new officers of the Women's Associated students will conclude the afternoon.

The Aggies wish to express their appreciation to the members of the regular staff of the Exponent for their hearty cooperation in the publication of this issue. Without the assistance of the veterans of the staff this issue would have been an impossibility and the Aggies are deeply grateful to all those who have worked with them in the publication of this issue.

AWARD DAY

At yesterday's Assembly the men who have fought for Montana State on the gridiron, floor and track were given the visible symbols of our appreciation of the work. It is certainly fitting that the college should take time out once a year to show the men who have made its athletic records what they are that it appreciates the efforts that they have put in and the things that they have accomplished.

Winning athletic teams are not only the best advertisement that a college may have, but furnish what perhaps is the major interest of the college year to the students themselves. The work that is required of the men who partake on these teams is without doubt the most strenuous work undertaken by any of the underclassmen, and is worthy of no little credit.

To the men who yesterday were given their letters, we extend our heartiest congratulations. You have served your Alma Mater well and faithfully, and you have earned your reward. To that larger body of men who have worked perhaps equally as hard, but as yet without the coveted reward of a letter, we congratulate no less heartily. M. S. C. appreciates the value of your efforts no less than those who have won the higher honors.

CAMPUS DAY

Next Wednesday will be Campus Day, according to an announcement in another column of this paper. "Campus Day" according to the definition furnished us by the Student Senate, is a day set aside for the painting of the "M" and the cleanup of the Campus. In the past there has been more or less misunderstanding of the term, some of the student body evidently thinking it was set aside for the practice of "Campus-try" in secluded nooks up Bridger, or other places more remote from the scene of work.

To the majority of the student body the "M" is the symbol of all that our college stands for, and as the emblem of our Alma Mater, is worthy of the best of care that we can give it. The "M" is a big thing, not only in area but in all that it means to the students of Montana State. When the "M" shines out clear and white on the side of Mount Baldy, it shows the whole Gallatin valley that there is a college located here that is proud of its name, and its symbol, the largest college letter in the world.

To those few misguided shirkers who try to dodge their duty in painting the "M", who are so lacking in college spirit that they prefer a days vacation to a little hard work for their Alma Mater, the Exponent offers its sympathies. We suggest that they read carefully the Exchange column this week and note the sad fate that befell some of the Campus Day shirkers at the Utah Ag College. It is not impossible that something of a similar nature may be practiced here with good results.

Let's all get together for a 100% attendance on Mount Baldy on Campus Day!

MAY CO-EDS SMOKE IS DEBATE

Denver University: May co-eds smoke on the campus? was a hotly debated question at the recent Western Conference of Associated Women Students at Tuscan, Arizona. The question arose from a discussion as to how standards were formed at the different colleges and by what organizations.

An effort to end the discussion by bringing the resolution that the Western Conference of Associated Women Students go on record as opposed to women smoking on the campus to a vote, aroused the argument from California that action was not necessary, and that women and conditions were constantly changing. They also stated that such an action would be unfavorable because many women were accustomed to smoking as an ordinary procedure and the conference had no right to condemn them in any way.

The resolution finally passed after the University of Idaho explained that it would have no force other than as an expression of the sentiment of the conference and under no conditions could be construed as a rule.

WITH OTHER COLLEGE STUDENTS

The material presented in this column is taken from the college newspapers that maintain an exchange service with the Exponent.

"A" DAY DODGERS GRANTED BLOCK A

Utah Agricultural College: A new form of athletic award appearing on the campus for the first time this week has occasioned a great deal of comment. The award is a block "A" which was granted by the executive committee to those showing special ability in the "A"-Day artful dodging contest. It was the desire of the committee that all of the eligibles be decorated on the same day but several—in fact the majority—modestly remained in retirement until they were assured that a smaller and more select crowd would be on hand to witness their triumph. The misfortune of this situation lay in the fact that it was impossible to accompany the making of the award with the customary free bath which is generally regarded as the crowning feature of the event.

The letter awarded was a rich brown in color, the customary blue being omitted as probably blending too harmoniously with the feelings of the recipients. It was displayed on a background of flesh-pink, said background being of a material universally worn and greatly favored because of its excellent wearing qualities. Some of the men who manifested their innate modesty by trying to avoid the decoration were given special favors, the letters bestowed upon them being of a highly decorative pattern. It is believed that there is great probability that the number of winners in this heretofore popular sport will be materially lessened after this year.

FINAL TOUCHES MADE ON CAMPUS DAY PLANS

Washington State: With Campus Day only a week from today final touches to the plans for work and entertainment have been settled. The Big Fives have been working hard and have made preparations for the biggest and most constructive Campus Day the State College has ever seen.

The frosh bonfire gang will start to work tomorrow and will build the fire into which they will throw their caps on frosh celebration evening. The bonfire will be built on the cinder or Rogers field next to the tennis courts. President Holland has given them permission to build the fire early and promised them protection of it until Campus Day.

With plans for Campus Day entertainment not entirely finished little is known just what all of the entertainment will include. During the luncheon at noon, when the entire campus eats together, the Varsity Quartet will sing. The Big Five is endeavoring to get Governor Hart here as the principal speaker of the day. The W. S. C. pep band will play and the Yellow Jacket, the scandal sheet of Campus Day, will make its appearance.

The tool gang will start to work next week, collecting tools for work next Friday. The town will be divided into four sections and each gang will cover one of these sections. The tools are gathered and marked by the members of these gangs and are afterward collected in trucks. They are then returned to the owners after they have been used for construction work.

GIGANTIC DRIVE FOR UNION FUND

Utah University: Six guns Monday morning boomed for the the opening of a week of publicity which will be followed by the informal inauguration next Monday of an intensive two-weeks' campaign for Union building subscriptions during which every student on the campus will be solicited personally for a subscription of at least \$50.

Every day of this week of publicity is to be marked by some special feature. Monday the firing of guns opened the week; on Tuesday, every instructor of a 9:30 o'clock class, under instructions from President Thomas, devoted some time to discussion of the Union building.

Every student will be interviewed three times unless he subscribes sooner and in case of failure to subscribe a record will be made of the reason for such failure.

Headliners at \$35

The lines of young men's suits we are selling at \$35 are the "big noise" in "clothingdom" these days.

They are for beyond the ordinary, viewed from EVERY angle—they are just different enough to place them in a class by themselves—there is plenty of "kick" but not TOO MUCH for good taste.

These suits are here in the different new models and fabrics

—Powder blues, Neat greys or tan effects—hair and chalk line stripes in variety a plenty—They are wonderful clothes and you'll admit it when you see them.

BATTING FOR ELI

A terrible thing happened this week. Poor Eli was approached in an evil hour by a gallant gentleman (we dare not say otherwise, as you will see presently) who declared emphatically that no names were to be mentioned in our column this week.

He knew we had the dope on him. But he was bigger than we. And he didn't believe in obliterating that Nepharious Aphorism. Thus poor Eli has had his wings clipped, so to speak.

But as long as we give no names, we can lie in peace.

Now that spring so sweetly smiles, certain highly-respected members of our student body have adopted a new slogan for their daily guidance—viz: "Ride, and the girls ride with you. Walk, and you walk alone."

It is just as well that we can't give any names here, as they are too numerous to mention.

"There was a much larger crowd at Assembly yesterday than usual, because all the letter men were there." Does that speak well for our athletes, or otherwise?

A certain Senior Shiek was sadly outwitted last Saturday night by his escortee, we hear. It seems that he wished to become himself rather more handsomely than usual, and quoth in euphonious tones: "You look sweet enough to eat!"

"I do eat!" was her ready reply. "Where do we go?"

One of Eli's scouts almost secured a good bit of scandal last Wednesday. He heard a well-known Junior remark "I beat my roommate up this morning." But when he asked what the trouble was about, this was the answer:

"I had an eight o'clock and he didn't."

Resistless Force — Controlled!

THE CHEMICAL ENGINEER has created, in explosives, a power that can blast a mountain or crack a boulder—dig an isthmian canal or drain a swamp.

Today, explosives power is employed both in the heaviest and in the most delicate operations. The scientific control of this resistless energy has enabled explosives engineers to utilize it in ways undreamed of a generation ago.

Recently at the Frazier Quarries of the Chesapeake & Ohio Railroad in West Virginia, 60,000 pounds of du Pont dynamite were exploded at one time to bring down five hundred million pounds of stone for ballast. Literally a whole hillside was blasted out.

But in a power house in Baltimore, du Pont explosives were used to perform a different and delicate operation. This work involved blasting out five concrete bases in the basement of the building without damage to a switchboard that governed the distribution of power over a large section of the city. While blasting was in progress a glass of water and some wire nails placed on their heads in an upright position near the blasts were not disturbed by the explosions.

So, in dynamite, we have a servant that will do our bidding in little things as well as big—a power that can be made to perform our work easier, better and cheaper in all industries.

The du Pont Company has been making explosives since 1802. With the development in explosives manufacture have come many improvements to expand the use of the product. And it has been the privilege of du Pont, through exhaustive research and experiment, to lead the way.

E. I. DU PONT DE NEMOURS & CO., Inc.
Explosives Department, Wilmington, Delaware

SOCIETIES

Gail Fiske was a dinner guest at the Iota Delta house Monday night.

Dean Herrick was a dinner guest Sunday at the Omega Beta house.

Alice Stranahan was a Sunday dinner guest at the Beta Epsilon house.

Mr. and Mrs. Lou Howard were Sunday dinner guests at the S. A. E. house.

The Amigq club announces the initiation of Robert Stockton and Earl Klein.

Tom Astle and Jay Gleeson of Livingston, were week-end guests at the Theta Nu house.

Marcus Anderson and Lewis Fusick of Great Falls, spent the week-end at the S. A. E. house.

Mrs. Andrews of Trident, was a guest at the Pi Phi house over the week-end.

Helen Hoadley was a dinner guest Thursday night at the Iota Delta house.

The engagement of Hazel McNall, and "Shorty" Bachman, Beta Epsilon, was announced Tuesday night.

Montana Alpha of Sigma Epsilon announces the pledging of Percy Lennon of Columbia Falls.

Chi Omega entertained mothers and patronesses at a Mothers' Day Tea Sunday afternoon at the Chapter house.

Mrs. W. H. Berryman of Billings, spent the week-end visiting with her daughter, Thelma, at the Chi Omega house.

Mr. and Mrs. R. B. Noble, Miss Mary E. Stone and Miss Margaret Adams are visiting with Miss Dorothy Noble at Hamilton hall.

A pretty Panhellenic tea was held at the Alpha Omicron Pi Chapter house Tuesday in honor of Mrs. Katherine Mix of Lawrence, Kansas. The patronesses assisted the girls in entertaining the guests.

The Theta Nu fraternity entertained the friends at a delightful dance at Three Bears' Inn Saturday evening. The favors, silk handkerchiefs with the Theta Nu emblem, appeared in a novel feature dance. Mr. and Mrs. Murray and Sargeant and Mrs. Ellsworth were the chaperones.

Pi Beta Phi held its annual Mothers' Day Chocolate Sunday morning from nine to eleven o'clock at the Chapter house, 404 West Olive. The rooms were prettily decorated with spring flowers, and the guests each received a carnation.

A most enjoyable dinner party was given at Hamilton hall last Wednesday evening to the following guests: Mr. and Mrs. Hausman, Mr. and Mrs. Sharp, Mr. and Mrs. Hathaway, Mr. and Mrs. Miller, Mr. and Mrs. Holst, Miss Bartlett, Miss Brewer, Mrs. Davis, Mrs. Montgomery, Mrs. Hibbard, Mrs. Jones, Miss Hutchinson, Mr. Adams and Mr. Scott.

Alpha Phi of Alpha Omicron Pi announced the initiation of Borghild Anderson of Bozeman, Gladys Arneson of Big Timber, Imo Gene Blakeslee of Livingston, Elizabeth Hart of Belgrade, Margaretta Johnson and Dolly Tripp of Butte.

At last we've decided what made the Aggies famous. It was the fig and the date.

CANDY SALE

The Y. W. C. A. is giving a Candy and Cake sale at the Montana Power Co., this afternoon. All students are cordially invited to attend and make one or two purchases as the girls would appreciate it.

AG CLUB IS ONE OF MOST ACTIVE

Two Ag Day Celebrations Each Year Keep Aggies Interested in Club

The fall and spring Ag Day celebrations have come to be two of the most important events of the year through the activities and efforts of the Agricultural club of Montana State college. In the fall the feature of the day is the grain and stock handling and fitting contests, in which all ag students are eligible to take part. The college stock is turned over to the students to fit, as if for exhibition at a fair. Judging is done on the quality and completeness of the work done, rather than on the merits of the animal. In all other respects the exhibition resembles a miniature county fair. The spring Ag Day is featured by the stock and grain judging contests as described in another column of the paper.

AGRONOMY DEPARTMENT GETS NEW INSTRUCTOR

Arthur H. Post, a graduate of Washington State college, was recently engaged by the Agricultural department to fill the position of assistant professor of agronomy and assistant experiment station agronomist, which was left vacant last winter when Prof. E. N. Bressman accepted a position in the agronomy department at Oregon State college.

Mr. Post graduated from W. S. C. in '22, and received his Master's degree the following spring. During the fall and winter quarters of '23 he took special work at the college, and at the end of that time received his Normal diploma. Before coming to M. S. C., he was employed as assistant in agronomy at the Adams Branch experiment station at Lind, Washington.

Aggie Expresses Gratitude To Rival Engineers

Agrarian intuition tells us that our dearly beloved friends, the Engineers, will be expecting to find in this issue of the Exponent attempted emulation of certain pestilential products of some of their more journalistic members. We are very sorry to inform them that their reasoning is entirely sophistical, being based entirely upon the false supposition that we will observe the misadage "Do unto others as others do unto you."

No, aforesaid dearly beloved friends, we are restricting ourselves to well-deserved sycophancy, hoping to provoke in your naturally braggadocious hearts supermundane felicity, as music does in other savage breasts.

You have in an infinite variety of ways rendered immeasurable service to the world and to your subordinates that dwell thereon. And although you have shouted your achievements from the housetops and broadcasted them to the four corners of the earth over the radio, which you invented for the express purpose, there are other accomplishments of almost inconceivable magnitude which modesty forbade you to relate. It is with humble heart and punctilious pen that we now offer to the Muse of History a laudatory delineation of some of your most inestimable and heretofore unappreciated services.

Ever since the passing of pre-mundane times, the expression of your art has continued to be one of the seven wonders of the world. Through the services of an Architectural Engineer named Noah, you saved the world for the Ages early in its life. You placed the name of Sampson on the pages of history when you constructed a temple for him to pull down. You gave Diogenes a steady job by inhabiting the earth during his time. You made the Persian Aggies famous by building the physical support for their world-renowned hanging gardens of Babylon. You gave a poet his name when you built a bridge for Horatius to guard. You gave the greatest of all contributions to American genealogy when you constructed the Mayflower. You sent a kite into the sky and brought electricity down to the world in order that future generations might benefit by its use. You made Sleeping Beauty possible by building her a Palace to sleep in. You built the ship that rescued Robinson Crusoe from his lonely life. You built the marvelous guns that fired the shot heard around the world. You built the Great Pyramid, tomb of a noble monarch, and grand Roberts hall, tomb of the Living Dead.

These accomplishments and many others as great have won you a lasting place on History's Honor Roll of Dreamers and Doers

President of Bobcat Club Tells of Significance of the Day to College

The annual Award Day Program held in the Assembly Friday morning was a great success. Prof. Tallman was the presiding officer, and an interesting entertainment was provided.

The college quartette drew a riot of applause as did the saxophone quintette. The college band was on hand with some snappy numbers which added spice to the occasion.

Mr. John Lovelace, president of the Bobcat Club, gave an inspiring talk on the necessity and benefits to be derived from participation in college athletics. Mr. Lovelace congratulated the college on its fine athletic spirit, and promised the hearty support of the business men of Bozeman in the future, as in the past.

As a token of their loyalty, the Spurs, represented by Miss Lucille Rohrer presented a beautiful Montana State banner to the members of the "M" Club. This was received for the club by the president, Teddy Cogswell, and will serve as a fitting background for the trophies in the new trophy case. Which will be installed soon in the new gymnasium.

The winners of the awards were as follows:

Block 'M'—Football—MacDonald, Capt. (4), D. Brittain (1), D. Cashmore (1), Hannon (3), Savage (1), Knight (4), Pitt (1), Dobeus (1), Cowan (2), Hartwig (1), R. Romney (1), Mashin (4), Benton (1), Cogswell (2), McGuin (1), Morris (1), F. Romney (1), Hatfield, Capt. elect (2).

Fresh Numeral (27)—Football—Barrows, Bryant, K. Schwartz, Gilbertson, Riche, Merritt, Algey, Lowman, F. Wilson, Mowre, Haley, Olson, Glynn, Lathrop, Nebel, Cranston, Hudson, Clearman, Wylie, Sullivan, Babcock, Winner, Gregory.

Block 'M'—Basketball—Hatfield, Capt. and Capt. elect (3), Cogswell (1), Hartwig (2), Glynn (1), Cottam (1), F. Romney (1), DeWald (2).

Block 'M'—Track and Field—E. Bunney, Capt. (3), Bachman (4), Cogswell (2), Powers (2), Sales (2), Hodgson (1), McCoy (1), H. Bunney (1), Yedlicka (1), C. Livers (1), Thompson (1), Ijams (1), Woods (1).

Block 'M' with C. C.—Cross Country—Bade.

Old English M—Manager—McCann (Football), Cottier (Basketball), Skank (Track), Ferrell (Basketball), Jacques (Intramurals), Erwin (Minor Sports).

Intramural Winners—

Basketball—Sigma Chi

Handball—Omega Beta

Track and Field—Beta Epsilon

Cross Country—Sigma Chi

Basketball and Swimming—Yet To be Determined.

High Point Meday—Intramural

Track and Field—C. Livers.

"THE UNCHASTENED WOMAN"

Bobcat Track Squad to Leave for Conference Meet

11 MEN TO REPRESENT MONT. STATE AT DENVER

First Contest to be With Colorado Teachers College Tuesday

This afternoon the Bobcat track squad consisting of ten men, and Coach "Doc" Jones, will leave for the conference meet. The first meet will be with the Colorado Teachers at Greeley, Tuesday, May 20.

The Teachers are credited with having some fast men and they should offer some keen competition. This meet should prove valuable as it will give the Bobcats a try-out under conditions similar to those at the conference meet.

The following Saturday, May 24, the college team will compete in the conference meet at Colorado Springs. The best athletics of the northwest will take part in this meet and it promises to be a thriller. The Utah Aggies are reputed to have the best "around team, with Colorado university strongest in the sprints.

The pole vault, sprints, distance, hurdles, and broad jumps, are the Bobcat's strongest events. However, each of these will be hotly contested.

Powers will have strong competition in the pole vault. Webster, who last year broke the conference record, will be back again for honors. Webster has been doing 11½ feet this season as has also Ivan of the Utah Aggies; Hyde, of the Colorado Aggies; and three men from Brigham Young university. Powers has been forced to do most of his work inside, but is expected to hit his stride by next Saturday. His height in practice has been 11 feet.

Bachman is expected to win the mile and two mile runs handily, although he will have to step about a 440 clip to do so. Bowie, of Colorado "U"; Thompson, of U. A. C.; and Wakefield, of B. Y. U., have run the mile in 4:49 this season. Bachman's time is 4:42.2. The two mile run should be as big a thriller as last year. Whitney, of the Utah Aggies, and Richards, of B. Y. U., are the strongest men against Bachman. Whitney's best time this year is 10:21. Bachman has covered the distance in 10:24.4-5.

Cogswell looks good for possible points in the 100, 220, and 440 yard dash, having made the 100 yards in 10-flat, and the 220 in 23-flat. He will be running the 220 against a

field of fast men, among them being Nichols, of Colorado "U", whose time is 22.8; Jukes, Colorado "U" 22.7; McFarlin, Colorado "U" 23-flat; Chapman, Colorado mines, 23-flat; and Baker of the Utah Aggies whose time is 23.1.

The men are entered for the conference meet as follows:

100-yard dash Cogswell, Sales
220-yard dash C. Livers, Wood
440-yard dash E. Bunney, Wood, J. Livers
880-yard run Hodgson, J. Livers, Ed Bunney
1 mile run Bachman, Ed Bunney, Hodgson
Two mile run Bachman, Ed Bunney, J. Livers
120-yard hurdles J. Livers, Sales
220-yard hurdles C. Livers, Sales
Shot Yedlicka
Discus Yedlicka
Javelin
Broad jump H. Bunney, C. Livers, J. Livers
High jump C. Livers
Pole vault Powers, H. Bunney
Relay team Cogswell, Ed Bunney, Powers, Wood, J. Livers

SWIMMING CONTEST TO BE HELD ON SATURDAY

An Interorganizational Swimming tournament will be held at the college tank in the gymnasium Saturday May 24, at 7:30 P. M. At this time the results of the Conference track meet at Denver will be announced. The events in this meet are as follows:

40 yd. free style
100 yd. free style
220 yd. free style
100 yd. breast stroke
Plunge for distance.
160 yd. relay—(four men)
Diving for form. Note Five dives, including plain jack-knife and three optional. Grades will be given according to the difficulty and the performance.

One man may not enter more than three events, exclusive of the relay. Each organization is allowed five men in each event. Points for all events are: 5-4-3-2-1.

FORENSIC FRATERNITY PLEDGES SEVERAL MEN

Phi Alpha Tau, national professional speech arts fraternity, announces the pledging of the following men: Edward Bell, Hugh Cottam, Frank

Cowan, Jacob Forbes, Joe Livers, Edgar McCleod, and Burton Rivers as active members and George Davenport as an honorary member.

Phi Alpha Tau is the oldest forensic and dramatic fraternity in existence. It was founded at the Emerson School of Oratory in 1902. The local chapter was installed in May, 1922, having previously extended as the Forensic club. The purpose of this fraternity is to foster a professional interest in the speech arts, dramatics, debating, and oratory.

Paint the "M" next Wednesday

In the Rocky Mountain Conference Golf tournament held in connection with the track meet, Allan Briscoe will represent the college. Briscoe is our best golfer, and has won several honors as an amateur in state tournaments. Although golfing is at present a dead issue at M. S. C., we hope that Briscoe will make a good showing and thereby create a demand for that sport in our institution.

TORMENTORS TO PRESENT PLAY

ALPHA ZETA PICKS FOUR NEW MEMBERS

1 Junior and 3 Sophomores Pledged to Aggie Honorary Fraternity

One junior and three sophomores in agriculture were pledged to the Montana Chapter of Alpha Zeta, national honorary agricultural fraternity last Wednesday evening at the Omega Beta house. Grove Dutton of the junior class, and Benjamin Daggett, Theodore Fosse, and Ernest Sandberg of the sophomore class, are the new pledges of the fraternity.

Alpha Zeta selects its members from the highest two-fifths of each of the upper three classes in agriculture. Selections are made on the basis of the ability of leadership, participation in college activities, and personality.

The local chapter of Alpha Zeta was installed here on January 13, 1922. Since that time the chapter has taken a place as one of the most active units on the hill. It has actively fostered the activities of the Agricultural club, has arranged for the presentation of several interesting lectures and motion picture exhibits to the agricultural students of the college, and in other ways taken an active part in agricultural activities on the hill. It was instrumental in financing the trip of the college grain judging team to the International Grain and Hay show at Chicago

HONOR SOCIETY ELECTS SENIORS

Phi Kappa Phi Pledged Twelve Members of Graduating Class

Phi Kappa Phi, national scholastic honor society last week announced the names of twelve members of the senior class as pledges.

Phi Kappa Phi makes two selections of members from the senior class each year. The first selection, made during the winter quarter is from the highest one-eighth of each department of the college in scholastic standing, and the second selection, made during the spring quarter is from the second one-eighth.

The members of the senior class to be pledged to membership in the society are: Curtis Baldwin, William Flood, Velma McConnell, Edward McGandy, Hazel McNall, William Moore, Francis Newkirk, LeRoy Powers, David Savage, Charles Schurch, Lucille Staebler, and Edward Wilson.

A number of the alumni of Montana State were also elected to membership in the society at the same time.
