STUDENT SENATE DISCUSSES CHANGES IN CONSTITUTION

INCREASE IN FEES ARE SUGGESTED BY FACULTY

Would Make College Chorus and Dramatics Regular Activities; Changes in Publications Control Suggested

At a Student Senate meeting held in Montana Hall yesterday afternoon discussion of changes in the activity fees for Montana State students next year and of certain changes in the constitution of the Associated Students were discussed. Another meeting is to be held this evening in an attempt to decide on recommendations to be made to the Associated Students at an early assembly.

Besides the Senate members Professors Adam, Barger, and Swingle, Dean Norris, Ott Romney and Ray Bowden were present. These men presented their views on various proposed changes that are suggested.

Professor Barger asked the Senate to provide a regular fund for the expenses of the annual participant in the Rocky Mountain Oratorical contest. Two years ago, he said, the Senate voted that Montana State should enter this contest and voted the expenses for the trip of its own funds. This year the Senate did the same thing. Professor Barger asked that the Senate provide a special fund that would not need special procedure each year, or that Montana State drop from the contest. He estimated that from \$150 to \$200 a year would be necessary for this purpose. On a basis of our present enrollment this would amount to about twenty-five cents a student.

Professor Adam pointed out the value of the College Chorus this year (Continued on Page 3)

MARTHA MAXEY IS BEST ART CRITIC

Wins College Essay Contest for Criticism of "The Bonfire"

Miss Martha Maxey's essay on "The Bonfire" took first place in the college contest.

Miss Maxey tells in her essay just what the picture symbolizes to her. Her conception is clearly and vividly stated in well-chosen words.

There were not as many entrants in the contest as might have been expected. The first place essay is as follows:

Ernest Lathrop's picture, "The Bonfire" typifies to me, and creates in me a spirit of wonder, of impatience, of bitterness. Of wonder, that any human being could paint such a gorgeously flaming, strikingly beautiful sky; of impatience, that people can stand absorbed in the bonfire—a tiny speck of light—trying to make it burn, scurrying hither and thither in its interests, when there is such unusual, breathtaking color all about them; of bitterness because after all, the human race is like that—too prone to ignore the beauties of light and sound, color and harmony surrounding their lives, too prone to even lose these things irrevocably in their desperate haste to achieve their own futile, puny ends, to create their own little speck of color, of light, of warmth.

The very trees seem to have straightened in astonishment at that huge canopy of orange and red, tawny yellow and gold which glorifies their every leaf. They look down in scorn upon the tiny figures huddling around the bonfire, wandering here and there in search of wood.

The whole world is surcharged with vitality, light, color from the sky's reflected fire. The smallest blades of grass rejoice at the sheer beauty of it. You can almost hear the birds caroling their joy in it—not loudly but with low, clear voices of liquid fire to match the sunset.

A wisp of smoke floats up into the air and stands out against that sea of orange fire and molten metal as if in man-made defiance of its loveliness.

The bonfire crackles, and snaps in resentment but it is lost in the calm yet passionate glory.

That sweeping glow spread over the dome of the sky in evanescent reverence grows brighter, brighter, till the world itself is eclipsed and the song of the birds becomes fainter and fainter, and finally dies in a cathedral-like silence.

And still the humans hover engrossed in their bonfire—perfectly oblivious, cheerful, uncaring.

Alta Atkinson, M. S. C. Delegate at Western Conference A. S. W. C. Sends Letter of Conference Doings

FINDS THAT MONTANA STATE ALREADY FOLLOWS MANY OF SUGGESTIONS MADE AT THE CONFERENCE

Miss Alta Atkinson, who is representing Montana State at the Western Conference of Associated Women Students, held in Los Angeles, California, has written the Exponent of the conference happenings since it started. Following is her letter:

"Los Angeles, California,
"April 15, 1926.
"Editor of Exponent,
"Montana State College,
"Bozeman, Montana.

"It has just occurred to me that it might be of interest to the girls on the campus to know that the Western Conference of Associated Women Students held its first conference meeting here this morning. The University of Colorado led a very fine discussion on 'Adjusting Freshmen Women to Your Campus.'

"Montana State College follows many of the suggestions which were made, and some which we have not adopted Colorado had tried, and found did not work out so well. One very interesting thing which they do is to employ a vocational guidance director for a couple of weeks at the beginning of the college year. The director meets all freshmen and discusses their courses with them individually and acts as an advisor.

"A representative from the University of California at Berkeley led a

most inspiring discussion on 'The Practical Application of the Honor Spirit.' The honor system at Berkeley through tradition has become a spirit. The whole thing is most constructive. For those who, for some reason or other fall by the wayside in the application of this very fine tradition, there is a men's student affairs committee composed of seven seniors and two juniors, and a similar organization of women to handle the men's and women's cases respectively. Stanford contributed much to the open forum which followed. There, students are encouraged and often do report their own irregular conduct in the examination room. Cases are handled by the committee and recommendations made according to the results of a thorough investigation.

"There have been several requests for further information concerning Spurs. Fortunately I brought a few extra booklets with me.

"We held a conjoint session with the Western Conference of Deans, which meets here at this time tomorrow, to discuss extra curricular activities, their academic and student recognition. The conference closes tomorrow with a business meeting at the Oakmont Country Club.

"Yours very truly,
"Alta Atkinson."

Sigma Epsilon Becomes Chapter of Tau Beta Pi Thursday Evening

FOURTEEN STUDENTS AND ONE FACULTY MEMBER OF M. S. C. INITIATED INTO HONORARY FRATERNITY

Tau Beta Pi, honorary engineering fraternity, installed its Montana chapter at Montana State last Thursday. The installation ceremonies were conducted by the installing delegate, Mr. Russell B. Caples of Great Falls. Fourteen students and one faculty member at M. S. C. were initiated into the fraternity.

After the installation, a formal banquet was held at the Bozeman Grill for the initiates, faculty members, and their ladies. Prof. Therkelson acted as toastmaster, short talks were made by Harry Kligora, Dean Norris, President Atkinson, Prof. Grant, and Mr. Caples. Prof. Cheever

rounded out the dinner program with several violin selections.

The recognition of the engineering department by Tau Beta Pi fills out the list of recognized professional fraternities for the local college departments. The agriculture department has Alpha Zeta, the home economics department has Phi Upsilon Omicron, the chemistry department has Alpha Chi Sigma, and the entire college has the honorary fraternity Phi Kappa Phi. That Montana State is an approved leader in educational work is evidenced by the presence of these fraternities on the campus.

Home Management House Changes Hands This Week

The Home Management house changes hands this week. The new girls who go in are: Clare Duggan, Lenore Sullivan, Grace Johnson, Retha Foley, and Lillian Barry.

The group who leave the house report a wonderful three weeks, and express themselves as very glad to have had the opportunity of being in such a home. While there they had one formal dinner, and several guest evenings, as well as a tea. These girls are to be complimented on their ability in managing this house.

Enterprising Reporter Finds Students Are Asking for New Cement Tennis Court

STUDES SAY THAT NEW COURT IS NECESSARY AND THAT A CEMENT COURT IS FAR AHEAD OF DIRT OR CINDER COURTS

An enterprising reporter, wishing to find out what some of the students thought of the tennis court situation, asked a senior, and a veteran tennis player by the way, her opinion on this subject and received the following vehement reply:

"Somebody beat us to the court, and this is my only open hour! Many are the disappointed wails floating over the campus these sunny days. Of course it's too bad these are only tennis courts to be used by all the college, and incidentally Callatin high, but this is the point—What are we going to do about it? Some one says 'finish the dirt courts on M day' Good idea! Work hard and buy a lot of tans, staples, posts, new nets and a roller—everything looks fine despite a few bumps and soft spots. We

HJALMAR LANDOE TAKES ANNUAL EXTEMP CONTEST

FOSTER BUCK SECOND KENNETH HILL THIRD

Seven Winning in Preliminaries
Speak in Assembly
Friday

Hjalmer Landoe, a freshman at M. S. C. won the annual extemporaneous speaking contest, held among the students of Montana State college, at assembly last Friday. Foster Buck won second place and Kenneth L. Hill won third place. A preliminary contest was held Thursday evening and the seven who won out there took place in the finals on Friday. The other speakers were Margaret Dewey, Clifford Willis, Lyle Roessler and Ralph Owen.

President Atkinson presided and the Reverend R. W. Shaw, A. A. Cameron, W. F. Brewer, G. O. Romney and Leo Hurst were the judges.

Each year the extemporaneous contest is held at the close of the year's forensic activities. Judge Henry C. Miller of Livingston offers annually prizes of \$12.50, \$7.50 and \$5 to the winners.

The Rebekah lodge plans to entertain all students whose parents are Odd Fellows or Rebekahs at the Odd Fellow hall, Friday, April 30, at 9 o'clock. Each student may invite his own partner. Dancing and lunch.

HALF OF FIREPLACE FUND IS SUBSCRIBED

Making Plans for Another Dollar Day Early in May to Raise Remainder

Five hundred and five dollars—that is the amount deposited to the credit of the Fireplace Fund to date, and that means that one-half the necessary amount has been reached. A check sent all the way from South America by Miss Grace Clark, an M. S. C. alumna, who is a missionary there, brought the total to the half way mark.

Five hundred dollars in scarcely more than three months is the record of the fund, and three months is not quite half the time allowed for raising the necessary thousand dollars.

It is the desire of the committee to have all the money in by the time school closes in June, and with this end in view they are formulating plans for its accomplishment. Another letter has been sent to alumnae and ex-students as a reminder and another appeal to the faculty women will be made.

Plans are being laid for a bigger and better Dollar Day to be held the early part of May, when it is hoped that every loyal man and woman in school will do his bit and buy a brick for the fireplace.

AG DAY COMING NEXT SATURDAY

Next Saturday the Aggies will hold their annual Ag Day in a rather modified form, only the annual judging contests and putting out the Ag Exponent. The other activities which were annually held will not be given this year as there will not be time for them.

PRESIDENT'S RECEPTION TO SENIOR CLASS NEXT FRIDAY NIGHT 8 TO 10

The President's Reception, which is an annual affair, is to be held Friday evening, April 23, from eight to ten o'clock. This reception is given for all members of the Senior class, the Deans and their wives and class officers and their wives.

It is a great pleasure for Mr. and Mrs. Atkinson to meet the members of the Senior class and have them in their home.

FANGS HAVE BIG FEED THURSDAY

ALL FANGS ATTEND THE ANNUAL FEED AT ELKS

New Fangs Are Knighted; Talks
By Ott Romney, Lou Howard,
and Dean Hamilton

Last Thursday night the Fangs held their annual banquet at the Elks' Banquet hall, Gikerson's furnishing the repast.

Activities for the evening were formally opened by the impressive ceremony of dubbing the new Knights, which in the past has been done at the tournament. The table was decorated and lighted with blue and gold candles and the room was appropriately decorated with bobcat hides and emblems.

The annual banquet of the Fangs is looked forward to by every member of the organization as it is a time when the Honorary members of the organization and the alumni meet with the active men and talk things over.

The honorary members Thursday night included Ott Romney, Dean Hamilton, and Lou Howard. President Atkinson, who is also an honorary member was unable to attend the program this year.

After everyone had enjoyed an excellent feed with good music, Ott Romney, toastmaster, introduced Lou Howard, who spoke on the past history of similar organizations on the hill, until the time when the Fangs were started. Lou Howard was followed by Frank Neil, past leader of the organization, who compared the organization of today with that of yesterdays. Cliff Willis, present leader, gave a few minutes in explaining the work of the order this year and Ott Romney introduced Dean Hamilton, one of the oldest fangs on the hill, who spoke for several minutes on the duties of the local chapter of Inter-collegiate Knights. Ott Romney took this opportunity to thank the Fangs on behalf of the Athletic department for the work done by them. The program finished with one verse from "Montana," and the "Locomotive Yell," led by Stew Avery, yell king of the college.

The Rose Garden Orchestra played during the feed and entertained with several good numbers.

VISITORS' DAY IS OFF FOR PRESENT

Unwise to Call in Visitors When Campus Torn Up, Decides Committee

"Visitors Day has been called off at least temporarily," said President Atkinson yesterday. "The campus is in such a torn up condition and probably will be for some time that unless things can be straightened up considerably it will not be wise to ask visitors to come to the campus."

He pointed out that work on the roads, sewers, lawns, and other improvements will begin shortly and while they are working the campus will be anything but a beautiful place to visit. If the work advances so that it is possible to plan a Visitor's Day later in the spring it will be done, he said.

A faculty committee met and considered all phases of the question carefully and while they went on record as being in perfect accord with the student interest in the occasion, they felt it would be unwise to hold the celebration with the campus in its present condition.

NOTICE

Newman Club meeting, Sunday, April 25, Knights of Columbus Hall, at 4:30 P. M. Plans for the annual picnic to be discussed. Important for all members to be there!

Glenn Forbes spent the week end visiting with friends in Butte.

PLANS COMPLETED FOR IMPROVEMENTS TO M. S. C. CAMPUS

START WORK AS SOON AS FINANCES ARRANGED

Permanent Sewers, Water Pipes, Roads, Lawns, New Ham Hall Entrance and Gym Roof Repairs Included

That definite plans are being made for completing the roads on the campus and for making many other improvements of campus was the announcement a few days ago of President Atkinson. The actual plans have been drawn up and approved and the approval of the Board of Examiners, the finance board of the state department, has been received and now only the financing of the projects remains to be arranged before the actual work begins.

The biggest part of the undertaking is the construction of the roads. According to the specifications of the engineers there are 13,000 square yards of road surface to be macadamized in the area in front of Montana Hall, where a permanent bitulithic paving is planned. Besides this roads will be necessary around the gym circle, in front of the engineering building, along Seventh avenue from Cleveland street to the dormitory entrance, and on Eleventh avenue from the college barns to Huffine lane. These last roads will not be macadamized, but will probably be surfaced with gravel.

The cost of the roads will be close to \$53,000. However, this amount will not be paid this year, according to the president, but if the work is done bonds will be issued that will pay off the total amount in 20 years.

Other improvements include sewers to drain water from the low places in the gym circle and along the road in front of the Engineering building, lawns in about half of the gym circle and in other parts of the campus, and water pipes for watering the lawn around Lewis Hall, the Chemistry building, in front of the gym, and in the center parking on Garfield street, a new entrance to Hamilton Hall, and repairing the roofing on the gymnasium.

These improvements are made possible by the ruling made by the courts recently when certain funds that had been taken from the college budget were returned to their custody. It is estimated that the cost of these improvements will be just under \$20,000.

COLLEGE CHORUS TO SING IN LIVINGSTON

Program to Be Given at Strand Theatre Wednesday Evening

The College Chorus, directed by Prof. Joseph Adam, and assisted by Mrs. Waddell and Donald Kintz, will present its concert program at the Strand theater in Livingston Wednesday evening. The Chorus is going to make the trip in buses, leaving Bozeman about 6:30 p. m. Lester Peck, who is not attending school this quarter, but who has one of the important parts in the Sextette from Florida, as well as in the choruses, will join the group in Livingston.

The Glee Club is holding regular rehearsals now in preparation for next year's trip. Those who are interested in try-outs should watch the bulletin board for all announcements, and see Prof. Adam personally.

COED DISTANCE HIKING APRIL 20 TO MAY 20

Distance hiking competition will begin April 20 and end May 20. This contest is open to any M. S. C. woman who has paid her C. G. A. dues. Distances will be recorded daily on cards obtained at the gym. The rules for this contest are posted on the gym bulletin board.

The hiker taking first place will, in addition to mileage points, earn 20 points plus the number of hikes entered. The hiker taking second place will, in addition to mileage points, earn 15 plus two-thirds the number entered. The hiker taking third place will, in addition to mileage points, earn 10 plus one-half the number entered. The hiker taking fourth place, in addition to mileage points, will earn 5 points plus one-third the number entered.

Melvin Cottier of Great Falls visited last week with his brother, "Dode" Cottier at the S. A. E. house.

Spring has come—no, this is not going to be the usual Spring eulogy on grades—and once more the hordes, the angry hordes of sunburned students vie with each other to secure possession of the tennis court for a few games. It is not a serious matter that more men and women are not allowed to play at "love" and blister their necks? How's for pulling a "Campus Day," similar to the one held last year, and finishing the new courts? The "M" doesn't look so bad, thanks to the good job done last fall, and the campus could stand a going-over. Just think—if we had more tennis courts, we would have more places to park, and eventually some he-men would venture forth, a la B. V. D. style, to give the Dorm girls a thrill. When you think over the advantages, you'll probably fall for the idea—we did!

The Exponent has been asked, by the powers that be, to thank the student body for walking on the sidewalks on the lower campus. Since last week, much improvement has been noticed in this respect. However, there are still a few of this generation who persist in trotting over the pretty grass—but eventually they will see the light, as it were, and pound the pavement with the rest of the human race. We hate to keep harping on this "Keep Off the Grass" stuff, but it seems that you just can't convince everybody that a warning in time prevents a much-trodden cow trail some other time.

The traditional Senior derby is a thing of the past. But in its place has come the "straw hat." The old hard hats were a great protection against fly balls, but the death knell was sounded for them at the recent Senior class meeting. This class has asked that the students refrain from appearing in straw Kelleys until after they get a chance to spring them first. The Senior women are still debating on their badge of recognition—but it's almost a sure bet that they won't decide to come to school in gob pants. Remember, under classmen and Juniors, you're to restrain yourself in this matter of wearing straw hats until the Seniors establish their prestige and identity.

Inspiration!

Our Spring Arrivals

in *Emery* Shirts

will inspire you
to sing a spring song, too!

HOLLOWAYS

The Tormentors are staging a comeback with the "Witching Hour" Thursday night at the Emerson auditorium. This is for the benefit of the many who did not get to see it when it was presented here before. If you've seen it once, and want to see it again,—well, they didn't take roll last time so you can wash your face, buy another ticket, and pretend you're two other guys as you go in. Get the idea out of your head that it's an amateur production—why, it's an experienced road show company—been clear to Livingston and all those big places like Billings. It's well worth seeing.

"Get out of the mud!" is the slogan on the campus at the present time. When all the new paving, and the new drainage system, start to function, this is going to be the one gumbo-less place in Bozeman. Losing your overshoes and balance in rainy weather will become a thing of the past, and when you return for Homecoming in 1960 you can tell your classmates about the time you slid from Montana Hall to the Inn without coming up for air, and say, "They were the pioneer days in education in this state." A lot of money is being invested to foil the village bootblacks and vendors of hip boots.

CALENDAR

April 20—Tuesday—Y. W. C. A. Cabinet Installation.
Ag. Club Meeting 5 P. M.
April 21—Wednesday—Eurodelphian Meeting.
April 22—Thursday—Tormentors Show.
April 23—Friday—President's Reception for Seniors.
April 25—Saturday—Aggie day and Dance.

WOMENS BUILDING SHOWING PROGRESS

Roof Will Be Put on By April 24;
Will be Equipped by
Last of August

Herrick Hall, the new women's building, under construction on the campus, is going up in a very satisfactory manner. The cost will be well within the estimate. The building will be ready for occupancy in less than the allowed time. Practically all the material for the structure has been purchased.

The outside construction has progressed so rapidly that the brick work will be finished about April 16 instead of May first as the contract provides for. It is the opinion of the construction company that the roof will be on by April 24th with the exception of the tile which will not be put on till the midsummer. There is no doubt that the building will be finished and equipped by the last of August, since the workmen will pour the concrete, put in tile partitions and add the finishing touches after the roof is on.

When the construction is finished, the furniture which will be built in the college shops under the direction of Mr. Ode, will be installed. The furniture plans are already completed. The materials for this work have been purchased and should be here this week. When they arrive, work will begin immediately.

The Art department will occupy the top floor and the two lower floors will be given over to the Home Economics department. Dean Herrick's office is located on the first floor. Across the hall from it will be the Students' organization room, which is to be used for teas, receptions, and meetings of various women's groups. Adjoining this hall will be a dining room and small kitchen. The Home Economics library also is situated on this floor. The space occupied by the Home Economics department will include two clothing and two food laboratories, two classrooms and the new Research department in charge of Dr. Jessie Richardson. The plans of the Art department provide for a separate room for every class, a craft room, a library and lecture hall, equipped with a screen and lantern which is to be shared with the Home Ec department. The hall is to be used for exhibitions. A pottery room

is placed in the basement. All the woodwork will be painted and the walls calcimined, allowing an opportunity for decorative work by the students.

Miss Betty McCleve of Lewistown, and Miss Betty Jo Parsons were dinner guests at the Beta Epsilon house Saturday.

TORMENTORS TO GIVE PERFORMANCE AT THE EMERSON THURSDAY

Tormentors will give a second performance of "The Witching Hour" on Thursday at the Emerson auditorium. Whether or not the production will be given in Butte is yet undecided, but it is expected that definite arrangements will be made within the next few days.

When "The Witching Hour" played at the Ellen on April fifth before starting on its tour, many townspeople expressed the desire that it be given again that they might see it a second time, while others who were not able to attend the first performance hoped that they might have the opportunity of seeing it.

The play and the acting of the members of the cast need no recommendation for their work has received untold praise throughout the state and in Bozeman. This is a chance for all to again see "The Witching Hour," Thursday evening at the Emerson.

Campus Notes

May 24 has been chosen as R. O. T. C. day. As yet plans are incomplete, but it has been decided that there will be a parade in which the entire battalion will participate, also each company will demonstrate some phase of their instruction.

Mr. and Mrs. Sam Scott and Mr. and Mrs. Edmund Burke and son were Sunday dinner guests at the Beta Epsilon house.

Mrs. Ross, Mrs. Hannon and Mrs. Carrol Donohoe were dinner guests at the Alpha Omicron Pi house Wednesday evening.

Theta Nu had as a Saturday dinner guest Mr. G. A. Reed of Hecla.

Sigma Alpha Epsilon held initiation last week for Frank Hunsaker, Dillon; Marshall Wilderman, Bozeman; Maurice Egan, Darby, and Wayne Kobbe, Livingston.

Alpha Gamma Delta held initiation Saturday for Davis Nelson, Augusta; Leon Lynn and Ruth Rogers, Bozeman.

The Amigo Club entertained the sororities and fraternities at an open house Sunday.

Dorothy Langston, '25, was a week end guest at the Alpha Gam house.

Margaret Hammond spent the week end at her home in Livingston.

Mrs. Hi Farnum of Miles City, and Bus Farnum were Sunday dinner guests at the Alpha Gamma Delta house.

D. J. O'Connor of Butte, and Stew Avery were dinner guests at the Pi Beta Phi house Sunday.

Dean Herrick and Miss Nemick were Thursday evening dinner guests at the Pi Phi house.

Dean Herrick was a dinner guest at the Lambda Phi house Wednesday evening.

At the Spur meeting last week it was announced that a new Spur chapter has been added at the Salt Lake University. At the end of the month Rhoda Harris will go to the University in order to install the new chapter. It was decided that there would be no more Spur meetings until definite plans had been made for Women's day.

June 5 is the day set for Women's Day. Mary D. Drummond, a graduate of 1918 is to be the principal speaker of the day. She now lives at Evanston, Illinois. A letter will be sent out later to all women of the campus, with the plans of procedure for the day.

Mrs. Carrol Donohoe of Anaconda and Maurine Plew were dinner guests at the Sigma Alpha Epsilon house Wednesday evening.

A Pi V. meeting was held this past week at Hamilton Hall, with Miss Irma Gill as hostess. A business meeting was held, followed by light refreshments.

Y. W. C. A. MEETING

There will be a business meeting of the Y. W. C. A. Sunday afternoon, April 26, at 3:30 in the Presbyterian church. A report of the Missoula Conference will be given. All members are urged to be present.

MONTANAN GOES TO PRESS APRIL 26

Arrangements for Printing All Completed and Work On Color Section Started

Mr. W. F. Bennyhoff, superintendent of the Great Falls Tribune Printing and Supply Company, spent April 12 in Bozeman completing the arrangements for printing the 1926 Montanan.

Mr. Bennyhoff went over the dummy with the editors and after being informed of all the details preliminary to printing, he returned to Great Falls to start press work on the color sections. Arrangements have been made to go to press on April 26. In the meantime, all type copy is being prepared for the press.

Saturday, April 24, is the last opportunity for anyone to place an order for the Montanan emblem. This award may be ordered with pin attachment or with chain fastener. In placing an order, call Lillian Marshall or Bud Clinton.

Due to an error in the recent staff announcement, the name of C. W. Kathary, art assistant, was omitted.

Y. W. C. A. TO CHOOSE GIRL TO RECEIVE SCHOLARSHIP

As a part of its work on the campus the Y. W. C. A. gives a scholarship, each year to some deserving girl.

This is called a scholarship but in reality is more in the form of a loan. Candidates for the scholarship are brought before the Cabinet and discussed with respect to grades, need of help, and general reliability. This committee then chooses the most deserving girl and the scholarship is given to her, as a loan without interest, to be paid after she finishes school and to be used for books and fees.

This year's scholarship is yet to be decided upon and will be announced at a later date.

Barger Preaching In Belgrade Baptist Church

Owing to a vacancy in the pastorate of the Belgrade Baptist church, Professor J. W. Barger has been officiating at the evening services at this church for the past two Sundays. Rev. Roy Reese, former pastor at Belgrade has been called to Butte. Rev. Reese was accustomed to hold services in Manhattan on Sunday mornings and at Belgrade Sunday evenings. Prof. Barger will continue to fill in his position at both places until a new pastor is appointed.

WILL ENCOURAGE BETTER READING

Dr. F. H. Nalder, director of the W. S. C. extension bureau has recently been appointed special collaborator for the state of Washington, by the National Committee on Home Reading of the United States bureau of education.

This committee is formulating plans whereby each state will organize committees in each county. It is their purpose to direct people's attention to good books and to encourage purposeful reading.

STUDENT SENATE DISCUSSES CHANGES IN CONSTITUTION

(Continued from Page One)

and asked that this organization be made a regular college activity and funds allotted to it from the activity fees.

Ott Romney addressed the Senate and asserted that an increase of \$5 in the activity fees would be necessary if the needs of the various activities were to be met through the period of growth of the institution for the next several years. Athletics, he said, would need an additional \$2.50 if competition in Conference athletics is to be continued. He said the season for this demand was that gate receipts and certain other sources of income had disappointed them and that more funds from student sources would be

necessary. With the increased fees, however, he pointed out that M. S. C. students would be paying no more and even less than in most of the other schools in the Conference. He also advocated giving extra funds to oratory, creating a new fund for the Chorus and also one for dramatics. These activities have grown to the point where they merit recognition, he said, and they deserve to be made a regular college activity. He went on to say that if the extra fee to athletics were granted the Tournament Committee would be glad to include a ticket to the Tournament in the list of college functions.

Ray Bowden proposed changed in the administration of the publications of the campus whereby definite responsibilities for putting out good publications would be rested on the editors and business managers. In turn, if the editors and managers succeeded in putting out publications of merit, and showed a surplus on their books, they might be authorized to receive pay for their year's work up to a certain amount. Thus, there would be no minimum for their work, but there would be a very definite maximum. He also suggested a Board of Control, composed of three faculty members and four student members, giving the controlling vote to the students.

A committee composed of Jake Forbes, Rhoda Harris, Herb Winner, and

Dick Ross is meeting today to discuss the distribution of a proposed increased fee and will report at the Senate meeting tonight.

**Close
harmony**

Don't think that a college "sing" is the only place for close harmony. The electrical communication industry, too, has applied the big idea.

Four men put their heads together in the research laboratory—and there evolves a new and scientifically accurate basis for the measurement of speech and hearing.

Construction engineers, whose pole lines stride across country, work hand in hand with purchasing engineers who look forty years ahead for the pole supply of the future.

In the factory, engineers and craftsmen together develop new processes and almost-human machines to increase production and effect economies.

Combined ability—that's the thing! In the words of the song, "a long pull, a strong pull, and we'll all pull together."

FOOTBALL GAME BETWEEN GOLD AND BLUE BEGINNERS GIVES GOLD TEAM VICTORY

One Safety and One Touchdown by Gold Pigskinners Give Them 8 to 0 Victory

Last Saturday afternoon in a game replete alike with thrills for the players and fun for the spectators the Blue Gannigans (meaning dumb-bells or men unfamiliar with the elusive pigskin) lost to the Gold Gannigans 8 to 0. Considering the fact that a majority of the players on both teams had never played, some never having seen a game before, the work and football knowledge displayed by both teams was quite remarkable.

On the face of it the Blue team showed up better in offensive play, making the greater majority of first downs and the line seemed especially strong on the offense. However, the backfield made up for the better work of the line, some backfield stars fumbling the ball on the average of seven times out of ten times received, while others were not bad at all. A safety converted early in the first quarter gave the Golds a two point advantage which they held throughout the game until the last minute of play when Wellington, Gold quarterback, carried the ball over for the one and only touchdown of the game, his attempt to convert being blocked. The Gold team had one more chance to score late in the second quarter, when the Blue team punted on their own 15-yard line, but due to a strong wind the ball was recovered on the 12 yard line by a Gold player. Two line bucks by the Golds netted them an 8 yard loss, a pass was good for ten yards leaving the Golds with about 5 yards for first downs and one down to do it. Another pass was grounded and the Blues punted out of danger.

On the Blue team there were five numeral men from Frosh squads, Bartsch, Cashmore, Morrison, and Fessler from the '23 team and Coffin from the '24 squad. Jackson, who has been out with a twisted ankle, also got in for a few minutes. McLaughlin, a former Livingston High

IMPORTANT NOTICE TO INTRAMURAL BASEBALL TEAMS

Monday evening at 5 o'clock the Sigma Chi team will play the Lambda Phi and the Amigo Club will play the Theta Nu team.

These will be the only two games to be played until the next issue of the Exponent, in which will appear a complete schedule for the entire baseball season. Watch for it.

star, played a nice game at end as did Crumley at halfback. Markin at center played a fair defensive game but got off many poor passes. Mills at tackle did well as did Coffin at the other end. Cashmore, shifted to end, and Bartsch at tackle, two of the most experienced men, played good heady football.

Wellington, quarter for the Golds, and Egan, a green man, played nice football in the backfield. Gill, shifted to center, battled through the game with a bad knee and was one of the mainstays of the Gold line. Torrence at tackle was one of the Golds' big defensive units.

Summing it all up, it seemed to the casual observer as if the Blues had the best line and the Golds the better backfield. The lineup:

Blues (0)		Golds (8)
Coffin	L E	Wilson
Mills	L T	Norton
Keith	L G	Allen
Markin	C	Gill
Smith	R G	Siebert
Bartsch	R T	Torrence
McLaughlin	R E	Robertson
Morrison	Q B	Wellington
Yandell	L H B	Egan
Crumley	R H B	Clark
Fessler	F B	Harris

Substitutions: Cashmore for Coffin, Johnson for Mills; Mills for Johnson; Johnson for Bartsch; Fjeld for McLaughlin; Wilkie for Norton; Jackson for Markin; Carpenter for Siebert.

SPORT GLEAMS FROM FAR AND NEAR

The first football game of the Spring season is over and the novices got in their first contest. Not bad for a bunch of green horns and there's a lot of varsity material that might be made in to something.

Tuesday afternoon the seasoned Blue squad will play the inexperienced Gold squad while the veteran Gold squad will in turn play a green and unseasoned Blue squad. After these two games there will be a grand finale Saturday afternoon to cap the Spring training season with a game between the two veteran and experienced teams, the Blue against the Gold.

When the season is over every man that is out in training will have taken part in at least one regular game. It has proved to be the most intensive and worth while four weeks of training that has ever been inaugurated in the Northwest and will prove of inestimable worth to future Bobcat teams. Our hats are off to Ott, We wish we had more like him.

The Grizzly track squad is out every day and warming up in great style. It is rumored that Gillette has equalled conference time in the half mile and is running the mile in good form. Their half mile relay team negotiated the distance in 1:30.1, remarkably good time this early in the season, especially since Nebraska's wonder team broke the worlds record Saturday in 1:26.6. The U. is weak in the jumps and in the hurdles, Stewart not wishing to use Sweet in the broad jump unless it is absolutely necessary.

Meanwhile the Bobcat track men and aspirants are getting in their licks these nice warm days and prospects are beginning to look brighter. There will be a dual meet with Gallatin High this week in which the scholastics will be given suitable handicaps n all events and this affair will give dopesters a line up for the intramural meet to be held May 1.

Varsity baseballers are out every day that they can get away from Football practice and are beginning to iron out the rough edges.

Locke of Nebraska tied the worlds record of 9.6 sec. for the century dash last Saturday beating Keane of Creighton (a former Butte Central star) by little more than a yard.

April 23 and 24 the annual Drake Relays will be held with an athletic representation of contestants that is figured to eclipse 3000. This is undoubtedly the premier track event of the United States being equalled only by the Penn meet held at the same time at Franklin Field in Philadelphia.

Big league baseball has started in earnest. It won't be long now before the fans will start doping the pennant winners and then the worlds series champs.

TRAINING PAYS. Anyone who has followed Charley Hoff's series of articles can see how this stripling made himself the worlds champion pole vaulter by systemized training. Athletic genius is rarely born. There are very, VERY, few natural born athletes. The majority of men achieve the starry paths only by close application to strict training and CLEAN LIVING. MOST COLLEGE PLAYERS WOULD PROFIT WELL BY FOLLOWING THIS INFORMATION.

HANDICAP TRACK MEET WITH GALLATIN TO BE STAGED THURSDAY AND FRIDAY

IMPORTANT NOTICE

Be sure and fill out list in Gymnasium in regards to fraternity entries in the Intramural Track Meet by this evening. POSITIVELY NO ENTRIES WILL BE ACCEPTED FROM ANY ORGANIZATION AFTER THIS (TUESDAY, 6 P. M.) DATE. NO EXCUSES. Watch Bulletin Boards in Gym for important notices for coming intramural events, ie., baseball, handball, etc.

Signed: Karl Johnson, Manager.

Bobcats Will Have Chance to Limber Up in Actual Competition for First Time of Year

Thursday and Friday afternoons the Bobcat track squad will hold a dual meet with Gallatin High in which the scholastics will be given suitable handicaps in all events. Although the training has been rather intensive this past week it has been rather sporadic as regards men, the meet arranged by Director Romney will give the department a probable line-up on track material.

Three collegians will be entered in each event and the meet will be run on two successive afternoons, thus allowing any contestant ample restning time.

Events to be run off and handicaps allowed in each are:

50 yard dash, handicap 1 1/2 yards.
100 yard dash, handicap 3 yards.
220 yard dash, handicap 7 yards.
440 yard dash, handicap 15 yards.
880 yard run, handicap 6 seconds.
1 mile run, handicap 15 seconds.
220 yard low hurdles, handicap 20 yards and 1 hurdle.
100 yard high hurdles, handicap 10 yards and 1 hurdle.

High jump, handicap 4 inches.
Broad jump, handicap 1 foot.
Pole vault, handicap 1 foot.
Shot Put, scholastics use 12-lb, collegians 16-lb.

Discus throw, handicap 10 feet.
Javelin throw, handicap 20 feet.
880 yard relay run, handicap 20 feet.

880 yard relay run (four men each run 220), handicap 25 yards.

Coach Romney is not prepared to say definitely just what men are to be entered in the various events but the following presents a probable start with some few additions that might be made not accounted for:

Dashes—Decker, Wylie, Keyes;
440 yard run—Yandell, Thomson, Bryant or Bunney, G.; 880 yard run—Hodgson, Thomson, Heikkila or Mayo, and perhaps one or two others; mile—Hodgson, Bade, Heikkila or Richards, and several others. In both hurdle events there will be two races run for each distance, thus allowing two Bobcat entries for each race.

220 yard low—Livers and Cates; Gardner and Sullivan or Johnson; high hurdles—Gardner and Penfield, Livers and Cates; high jump—Livers Nelson, Noel; broad jump—Wylie, Livers, Keyes or Bryant or Ackerman or Hubbard; pole vault—Hurd, Hubbard, Weydemeyer; shot put—Yedlicka, Olsen, Penfield or Keyes; discus throw—Yedlicka, Olsen, Penfield or Wilson; javelin throw—Heikkila, Chamberlain, Gill or Evans. The men for the 880 yard relay are yet to be picked and it is too early to forecast who will comprise the team.

When it's a rainy night—and with three crafty bridge players your luck is running wild—have a Camel!

WHEN the dark skies are pouring rain outside. And fickle fate deals you hands at bridge that you play with consummate skill—have a Camel!

For Camel is the silent partner that helps every deserving player win his game. Camels never hurt or tire the taste, never leave a trace of cigarette after-taste. Regardless of the gold you spend, you'll never get choicer tobaccos than those rolled into Camels.

So this evening as you ply your unerring skill, evoke then the mellowest fragrance that ever came from a cigarette.

Have a Camel!

Camels represent the utmost in cigarette quality. The choicest of Turkish and Domestic tobaccos are blended into Camels by master blenders and the finest of French cigarette paper is made especially for them. Into this one brand is concentrated all of the knowledge, all of the skill of the world's largest organization of expert tobacco men.

Our highest wish, if you do not yet know Camel quality, is that you try them. We invite you to compare Camels with any cigarette made at any price.
R. J. Reynolds Tobacco Company

"THINK IT OVER"

Here are actual population figures in the region surrounding the various schools with which M. S. C. engages in conference games, or in other words the drawing public which these schools get to their games thus making it possible to compete in inter-conference sports on a complete basis.

Colorado Mines, Western State, Colorado Teachers, Colorado University, Colorado College, Colorado Aggies, and Denver U. all play in an area that comprises a population of 500,000 a large portion of which is good spectacle buying public. Utah U. Utah Aggies, and Brigham Young College attract a public of about 250,000, which fact insures good crowds for their games. Even Missoula draws from a region with about 15,000. TO OFFSET THIS ROZEMAN OFFERS CROWDS (CONSIDERING POPULATION AT 6000) OF AROUND TWO OR THREE THOUSAND, BUT IN POINT OF FACT IT IS A RARE CASE (SO RARE THAT IT HAS NOT YET BEEN OBSERVED) WHEN THERE ARE A THOUSAND PEOPLE AT A GAME FROM WHICH ADMISSIONS CAN BE COLLECTED.

THIS MEANS THAT MONTANA STATE IS LABORING UNDER THE SEVEREST KIND OF DIFFICULTY IN TRYING TO KEEP UP ITS CONFERENCE STANDING, AND UNLESS SOMETHING IS DONE TO ERASE THIS BURDEN IMPORTANT CHANGES WILL HAVE TO BE MADE. "THINK IT OVER."

THREE FOOTBALL GAMES COMING UP

Two Preliminary Games During Week and Final Game Between Blue and Gold on Saturday.

After Saturday's game of football the fans are eager for more of it and the players also seem to like the taste. So both the players' appetite and the fans' anxiety will be appeased.

Tuesday afternoon at 4 o'clock there will be a double header, the veteran Gold squad being pitted against a green and inexperienced Blue team, and following this game eleven trained and seasoned Blue warriors will trot out and attempt to whip a Gold team that is wholly new to the elusive art of chasing the pigskin. There is little doubt as to
