

SCHOLARSHIP TESTS HERE THIS WEEK

150 Participants Chosen From the 19 Districts Will Compete at College

CHANCELLOR BRANNON THE PRINCIPAL SPEAKER

District Contest Held in 19 Towns to Determine Best Contestants

Out of a possible 1500 contestants, 150 participants will be chosen to represent 19 districts in the state Scholarship contest which is to be held in Bozeman at the state College on April 30 and May 1. Schools are taking great interest in this meet for the number of competitors is twice that of last year. The preliminary contests are first held in the 19 towns in the state districts and then the winners come to Montana State College for the finals.

The following towns were the scenes of the district interscholastic contests: Butte, Kalispell, Missoula, Corvallis, Phillipsburg, Dillon, Glasgow, Roundup, Shelby, Great Falls, Havre, Miles City, Hardin, Roberts, Glendive, Big Timber, Bainville, Roundup, Manhattan, and Virginia City.

Chancellor M. A. Brannon of the University of Montana will be the chief speaker on the program arranged for the last day of the contest. The English department will present an one-act play and the music department will provide a special music program for the entertainment of the visitors.

DR. CARSTEN SPEAKS ON "CHILD WELFARE"

Explained Prevention and Care of Social Evils and Home Troubles

Last Tuesday afternoon at one o'clock, Dr. C. C. Carstens of New York City gave an address on the subject, "Some Modern Aspects of Child Welfare Work." There were two points that he stressed, namely, that prevention rather than the cure of social evils and the correction of home conditions rather than the removal of children from homes into institutions are the modern aims of welfare work. He maintained that penal institutions such as reform schools do more harm than good.

Dr. Carsten's was invited to come to Bozeman by Prof. W. F. Brewer, to be his personal guest. While he was here Prof. Brewer invited him to speak on child welfare before the college students. There was a good attendance in spite of the fact that the address was announced by means of the bulletin boards only.

Dr. Carstens is a graduate of Grinnell College, Iowa. For many years he has been secretary of the "Children's Aid Society" of the state of Massachusetts. He gives courses on the subject of child welfare organization, legislation, and methods in the graduate school of Harvard, the University of Wisconsin, the University of California and other institutions of learning. At the present time he is director of the Child Welfare League of America with headquarters in New York. He is a national authority in the field of child welfare and gives all of his time in rendering service.

(Continued on Page Five)

ORATORY CONTEST MISSOULA MAY 8TH

Rocky Mountain Conference Contest to be Held at Some Later Time

The Montana Collegiate Oratorical contest will be held in Missoula on May 8th. The Montana Oratorical association is made up of all the colleges in the state.

Another contest in which M. S. C. will be represented is in the Association which is made up of the same schools that are in the Rocky Mountain Athletic association. The contest this year will be held at Provo, Utah. Brigham Young university will be the host. Contestants have not been picked yet but four persons have written orations and are competing. They are Foster Buck, Hjalmer Landoe, Lyle Roeseler and Donald Weydemeyer.

During the past three years M. S. C. has won a third, second and a first in the Montana Association contest, and won the interstate contest with Kansas two years out of three.

One man, namely Ray Beatty, has already competed in a contest. The contest was held in connection with the national convention of Pi Kappa Delta, honorary forensic fraternity. Beatty spoke on the "Federal Octopus," and won sixth place.

Last year we became members of the Rocky Mountain association. It is hoped that we will get two good men to represent us in the forthcoming oratorical contests.

A COLLEGE COURSE FOR WASHER WOMEN

A college course for washerwomen is being organized by the state university at Springfield, Mass.

The "laundry institute" will take the blues from wash day, it is claimed, and will teach housewives the scientific method of washing the clothes, the baby and themselves.

Warm Weather Brings All Old Spring Sports

Ain't it a grand an' glorious feelin' when spring weather sets in, and you and your girl can do this "back to nature" stuff? Go picnicking and have all the joys of nature—ants, wood-ticks, rains and incidentally—food.

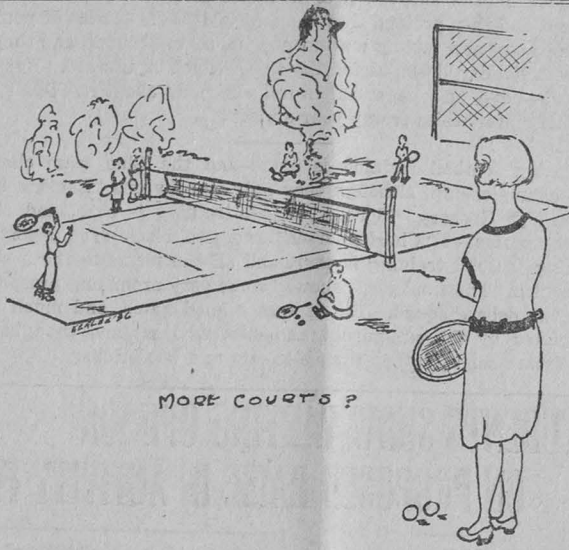

Another engaging feature of the season is that extensive course in Campusology. It's wonderful—the interest the student body takes in the campus. You see all your old favorites pacing the walk—Rhoda and Thornley, Kate and Burt, and numerous others. Even the frosh are at it, ask Winnie.

A good thing to note is the interest taken in Geology and Botany this quarter, offering such side courses as trips into the mountains after rocks, and flowering expeditions. This entails two people (three's a crowd)—so girls, get your man and take the course. Why not get the credit anyhow—there never was another course so enjoyable.

We take pleasure in announcing that even the football men are having themselves a time. Dada Papa Winner is going strong—reference, Practice House.

The Art class was out the other day, painting the scenery. No wonder the boys want to take the course.

Well — —, nuf said. This is just a brief survey of the possibilities that spring has to offer, to take some advice and study up for it.

Discuss Increase In Activity Fee Friday

ENTIRE ASSEMBLY PERIOD TURNED OVER TO STUDENTS

Student Senate Recommends That Activity Fee Be Increased By \$4.50. This Would Give Athletics \$10, the Annual \$4; Band \$1.50; Forensics \$1; Senate .75; Exponent \$1.50; Musical Organizations .50; Dramatics .25

The entire assembly hour on Friday was turned over to the Student Senate for an open discussion on the advisability and need of changing the student activity fee.

Frank Hatfield, president of the associated students, opened the meeting by stating that it had been decided by the Senate that certain changes must be made in the constitution of the organization in order to make it qualified to meet the present needs of the student body. Among these changes that are being considered by a committee are those that will bring students and faculty into closer co-operation, that will give each commissioner some definite responsibility, and that will make it necessary for the financial report of all organizations receiving part of the activity fee, to be submitted to the student body and approved by the Senate at certain times in the year.

President Hatfield then set forth the Senate's recommendation that the activity fee be increased by \$4.50, the new apportionment being: Athletics, \$10; Annual \$4; Band \$1.50; Forensics \$1; Senate .75; Exponent \$1.50; Musical organizations \$0.50; and Dramatics \$0.25.

The heads of the departments and organizations gave their reasons for asking part of the fee. Mr. Adam said that the college chorus had had a successful year and had planned a bigger one next year, and that in order to carry out the plan successfully some help was needed from the student body. In return for any moneys given to his musical organizations, Mr. Adam said that each student would be given a ticket to all concerts during the coming year.

Mr. Barger stated that forensics has made no request for an increase in three years, although application was made for help to send representatives to the Conference Oratorical Contest. It was his belief that a twenty-five cent increase in that division of the apportionment would enable Montana State to stay in the annual oratorical conference and in participation in the Rocky Mountain Oratorical conference.

That the sources of income are limited, and that our location in regard to participation in athletics is extremely unfortunate was one of the major points in the arguments given by Coach Romney. Mr. Romney emphasized the fact that money paid in at the beginning of the school year is not a charitable gift, but an investment, and that as athletics provide the only true melting pot for the entire college it is necessary that they be kept in the best shape possible. He stated that this increase of \$2.50 in the apportionment to athletics would undoubtedly take care of them for quite some time, would keep us in the Conference, and would provide for a good intramural program. Mr. Romney also said that he was sure that the Tournament Committee would

be willing to give each student a general admission ticket to Tournament in return for the raise in funds.

Rhoda Harris, president of the Tormentors, asked for a definite sum to be set aside for dramatics, in return for which the student will receive a general admission to all plays sponsored by this club. She declared that the organization should be under the head of a student activity because it is called upon for plays for many college functions. An increase in funds would necessarily increase the number of plays to be presented next year, and therefore, would give the opportunity for more students to take part in dramatics. Dramatics have never been given any part of the activity fee before this time.

Representatives of the grain and stock judging teams then made an appeal to the student body that funds be given to their department to help them send their teams to the national contests, stating that these teams had won many victories for Montana State College. They asked an apportionment of twenty-five cents out of each activity fee for the support of their teams.

President Hatfield answered these men by saying that their petitions, presented before the Student Senate by Professors McChord and Jensen, had been considered, and that that body had ruled that these teams, although they did represent the institution, were strictly departmental, technically limited to those enrolled in the College of Agriculture, and therefore, could not be given any definite part of the activity fee.

The assembly was closed by President Atkinson, who asked that those present inform those who did not attend this meeting concerning the petitions, arguments, and recommendations of the Student Senate.

SENIORS ADOPT NEW FORM OF RECOGNITION

We will miss the Dignified Derby on the campus this spring but in its place we'll see the Senior Straw and it may console us to know that the new head dress is more comfortable and much more becoming to our worthy senior men.

The matter of changing the time-honored derby for the straw hat was first taken up in senior class meeting last week. The circumstance which first made necessary the contemplation of a change was the scarcity of derbies but now there seem a 'housand reasons why the change is favored.

After the senior meeting had decided in favor of the straw hat the matter had to be submitted to Sentemviri because they are the men who guard our customs and traditions. They nessed a favorable vote in it so watch for the Senior Straw after May 1.

86 STUDENTS MAKE WINTER HONOR ROLL

Seven Make All "A's;" This An Exceptional Record for So Small a Total Number

The Honor Roll for the winter quarter as compiled by Professor Tallman shows a total of 86 with seven students making the "A Flush" list. This is an exceptionally large number of A flush students for the total number on the roll.

The list follows:
Those Making 3 Points per Credit (A Flush)

1. Edith Swingle (20 credits).
2. E. Sandhig (18 credits).
3. W. Brackett (17 credits).
4. Ruth Swingle (17 credits).
5. Jermie Andes (16 credits).
6. Harry Kligora (15 credits).
7. Don Jackson (12 credits).

Those Making from 2.75 to 2.999 per Credit

- 8 Ralph Andes, 9 L. Richards, 10 M. Souders, 10 L. Thompson, 12 R. Esger, 13 B. Dodge, 14 B. Dodge, 14 E. McCall, 14 C. Suneson, 14 S. Thompson, 18 L. Roeseler, 19 J. O'Connor, 19 C. F. Parker, 21 C. Quist, 22 R. Hannah, 23 M. Hinds, 24 C. Bernier, 25 A. Mitchell.

Those Making 2.5 to 2.749 Points per Credit

- 26 N. Banta, 26 R. Harris, 26 W. Little, 29 A. Anderson, 29 D. Weydemeyer, 31 T. Van Noy, 32 A. Hause, 33 H. Sohlberg, 34 J. Helm, 34 M. Polhod, 36 O. Olson, 37 M. McNett, 37 A. Herrington, 39 B. Anderson, 40 A. Morris, 40 F. Wylie, 42 R. Wells, 43 M. Borth, 43 P. Forrest, 43 T. Fosse, 43 J. Henschkel, 47 F. Buck, 47 M. Cameron, 47 S. Fabrick, 47 R. Frazier, 47 W. Kolk, 47 C. Perlhig, 47 M. Schneider, 54 J. Morrison, 55 H. Crozier, 55 C. Paisley, 57 H. McHose, 58 B. Crane.

Those Making 2.25 to 2.999 Points per Credit

- 59 Jos. Graff, 59 Jean Thompson, 61 G. Forbes, 61 C. Putnam, 63 D. Nelson, 64 M. Herlevi, 65 G. Belshaw, 66 E. Niel, 66 F. Niel, 66 R. Morrison, 69 L. Stone, 70 A. Atkinson, 70 M. Barbour, 70 B. Daggett, 70 T. Gill, 70 C. Guillot, 70 C. Hease, 70 O'Connor, 70 R. Newkirk, 78 H. Kohl, 78 B. Robinson, 80 V. Kuhl, 81 W. Davis, 82 E. Fuller, 82 E. Haines, 84 H. Donohoe, 85 F. Arnett, 86 R. Faust, 86 G. Kohes, 86 C. McLaughlan.

Old Frog Pond Now Completely Covered Over

A former terror for the underclassmen has now been permanently obliterated from sight. The old notorious frog pond, in former times was a slimy bath waiting for the luckless frosh or soph who happened to be attached to the wrong end of the rope in the frog pond pull. When the institution was young, this form of entertainment, that of the annual frog pond pull between the sophs and the frosh, was greatly enjoyed. But now no frosh need fear a slide into the green ooze or no soph will have to remove the algae from his ears, for the frog pond is gone forever.

The last shovelful of dirt was recently thrown on this ancient hazing custom a few days ago. Thus passed away another relic of our youth.

Consider your present school affairs. You will be considering national affairs tomorrow if not today. Yes, vote.

Hold Annual Presidents Reception Friday Evening

All Seniors, Deans and Heads of Departments and Their Wives Guests at Annual Event

The annual reception which President Alfred Atkinson and Mrs. Atkinson give for the senior class was held at their home on Friday evening. Besides the members of the class of 1926, all the deans and heads of departments and their wives were guests. In the receiving line with Mr. and Mrs. Atkinson were Dean and Mrs. J. M. Hamilton, Dean F. B.

ALTA ATKINSON MAKES REPORT

Returned Last Wednesday From Trip to Conference in Los Angeles

LEFT HERE APRIL 17 MONTANA REPRESENTATIVE

Several Resolutions Passed By the Conference for Student Consideration

Miss Alta Atkinson returned last Wednesday from her trip to the Western Conference of Associated Women Students, which was held in Los Angeles, California. She reports a very enjoyable trip and has reported the doings of the conference as follows:

"One of the resolutions passed at the recent Intercollegiate Conference of Associated Women Students, held in Los Angeles, was that the students on the various campuses of the west consider seriously the purpose and object of the National Collegiate Court Conference and co-operate wholeheartedly in supporting any movement put forward by this organization.

"Miss Marcia Hays of Mills College, which is the western regional headquarters of this international organization, gave a most inspirational report of the conference which was held at Princeton in December last, and at which Montana State College was represented by Genevieve Cooley. One could not help but feel that a full student life is not comprised only of academic activity, but in order to be complete, must include a working knowledge of the fields of citizenship.

"Eastern colleges and universities have entered into this new international collegiate organization and are pushing it vigorously. Unless western campuses get behind the movement too it will be a national movement, so-called, but motivated only by eastern schools.

"The organization formed at Princeton, through which undergraduate opinion on national and international affairs may be effectively expressed is worthy of the support of every institution of higher learning."

DEBATE MANAGER POSITION OPEN

Assistant Manager Will Also be Needed. Positions to be Filled by End of Year

Competition is now open for manager and assistant manager of debating. These are two new positions to be filled before the end of the year.

There is at present a commissioner of forensics, elected by the associated students, whose duty it is to work with the coach of forensics in formulating plans and policies for the forensic work of the college. The commissioner of forensics must of necessity be a debator, consequently at the time when the most work has to be done in connection with debate, the commissioner is busily engaged and hence the performing of all the details is a burden.

Heretofore voluntary assistants have been depended on to do the work. Hereafter a manager and an assistant will do the work.

The duties of these debate managers will be: to conduct correspondence with debate managers in other schools in connection with arranging of debates, vote.

Work Begun on Plans For Women's Day For This Year

Committee of Competent Girls and Dean Herrick Busy Formulating Ideas for Coming Event

Work has begun on the planning of Women's Day. Last Thursday the committee in charge of this event met with Dean Herrick, and discussed the plans.

The committee is composed of Ruth Rutledge, chairman; Janet Conkling, pageant; Esther Asbury, procession; Lillian Marshall, publicity; Mildred Cameron, installation, and Win-

ired Brackett, house committee. Mary Jo Stockton was also present at the meeting, being chairman of the day.

Women's Day is the big event for women on M. S. C. campus, and is looked forward to eagerly every year. At this time the various awards are given out: the Anceny medal for riflry; basketball medals to the winning team in basketball, and also a medal to the girl winning first in long distance hiking as well as the girl winning the speed hike. There are also other medals awarded for

A round-shouldered dog biscuit, guaranteed not to rust the interior, to every student who shows enough intelligence to vote on the proposed changes in the activity fee! It's up to the student body to voice its opinion in this matter, because it will be up to you to dig up this fee at the beginning of next fall quarter. And it might be well for you, and, of course, you were at the Assembly last Friday, to explain the situation, the points for and against, and the advantages and disadvantages of the proposed plan to your neighbor who was sick in bed or studying campusology during the Assembly hour last week. Don't forget to vote—it isn't a duty, it's a privilege.

Those poor, discouraged little trees down at the edge of the campus—yes, they're to be pitied. But at the same time, they are to be congratulated—for they have aided greatly in keeping the errant student "Off the Grass." Yes, we're harping on the same old subject. We will not falter in our purpose until the last of the campus jay walkers has conceded a victory to the struggling grass. As a matter of fact, a close check has been kept on that particular locality, and it has been found that an average of two students every half day insist upon cutting the block. But, eventually, they too will give up the ghost and learn to play hopscotch on the sidewalk.

The Les Bouffons Formal—and another social event of the year will be passed. It's an honor to be a Bouff, you don't get that honor along with your "M" sweater, and it's an honor to have enough nerve to borrow a Tux and get a date for the dance. Nevertheless, if you show enough enthusiasm—and fork over the price of admission—you might get pledged to the Loyal Order of The Broken Wishbone some day when you get to be a great big boy.

Paint the "M" with a general picnic for the student body, a carnival day with fraternity dances in the streets, a clean-up day for the campus and the finishing of the tennis courts, a day

CALENDAR

April 27—Tuesday—Meeting of Eurodelphian incoming and outgoing officers. 5 o'clock.
April 28—Wednesday—Phi Upsilon Omicron Meeting.
April 29—Thursday—Home Economics Meeting.
April 30—Friday—Les Bouffons Dance.
May 1—Saturday—Final Scholarship Contest.
Announcements, 7:30.

of rest—these are just a few of the suggestions that have been advanced for a fitting observance of "Campus Day." If you have an idea on the subject, give it to the Student Senate—they'll veto it and then pretend they thought of it themselves. If you've learned any new tating movements, tell them about it, and they'll have a holiday declared for the furtherance of the art. But go ahead—have, an idea, and then tell somebody about it. Don't let weather prophesies cramp your style.

Spring football training is over—and the Blue team claims the championship, although they only won by one "Eat 'em up" from Pop Gregory. Spring football training is over, and only thirty teams of "Charleyhorses" and two black eyes reported. Spring football training is over, and all the men breathe a sigh or arnica. The final game showed some very promising prospects for the debate squad. But it was a good game, and much appreciated by the sun-burned audience, who sat and thought of ice cream cones, rather than blankets and hot bricks.

STUDENTS SHOW VARYING OPINION ON PROPOSED RAISE IN ACTIVITY FEE

RAISE IN FEE A NECESSITY SAYS ONE STUDENT

Montana State College stands at a cross-roads as far as her student activities are concerned. Shall she go on with a full program for the stimulation, entertainment, unification, development of talent and provision of opportunity for expression of her student body—a program inclusive, high-grade, patterned after the programs of the institutions of her size and character and comparable to the program of her sister institution, the State University? Or shall she decide that the going is too hard and that the program is not worth the price—and that some of her activities must be dwarfed and others starved outright?

And the price is merely an additional \$5 on the student activity fee, making the total fee but \$20. What a wealth of opportunity for participation and for entertainment that \$20 buys with its support of athletics, dramatics, student publications, musical organizations and forensics!

Even though Montana State College must suffer the penalty of location in a county and state of sparse population and generous distances which limit painfully the possibility of public support in the way of gate receipts and run up startlingly the costs of displaying the product to the public, particularly in athletics, but to a high degree in most of the other activities, and despite the comparatively small enrollment at Montana State in comparison with other institutions with whom she associates in competition, with whom she is ranked and by the side of whom she would be measured, no exorbitant fee is asked. In fact, scores of institutions with much larger enrollments and greater public support of activities charge themselves a greater fee.

The student body can have only what it is willing to pay for. Conditions and facts are as they are, and if M. S. C. is to carry her colors along with the institutions with whom she has cast her lot and to foster all the activities and have them grow, she must levy the additional \$5 fee.

The raise in the fee contemplates allowing the band—an organization which has brought great credit to this institution—to keep itself adequately uniformed and its instruments in repair and its music racks filled and to make its annual trip without reducing its personnel and assessing its membership from \$5 to \$15 for the privilege of representing the institution.

It contemplates taking the dramatics and the choruses under the wing of the student body, that the students may control these activities, allow them to develop and enjoy their performances without purchasing another ticket.

It means that the splendid program of debate which has found great favor and achieved marked success may be carried on without any embarrassing reductions or uncalled for inconveniences.

It promises that the Montanan which has achieved considerable prestige for the institution and which has brought great enjoyment to the students may continue to grow and turn out a high class product without piling up deficits—which have to be met some way.

It assures that the Exponent may not have to eliminate tournament issues but may dare think of growing.

It means that the Bobcats may retain membership in the Rocky Mountain athletic conference (and there is no other conference available to M. S. C. which does not increase distances of travel or fail to satisfy the demands of the student body) and carry on a standard program in the recognized major sports and some minor sports in competition with these institutions and the State Uni-

versity which as a member of the Pacific Coast Conference has set a high standard for herself. It simply means for athletics decent schedules and adequate equipment. It does not mean extravagance or needless expenditure. It does not mean more men on traveling football squads. When a party of twenty-five is taken, it is not simply because they are needed (a team might "get by" with fewer if fortune smiled favorably), but because a railroad rate of fare and a half or fare and a third for the round trip may be obtained for a party of that size which makes long trips as cheap or cheaper for twenty-five men than for eighteen or twenty. It doesn't mean a costly holiday basketball trip (expenses on the last one exceeded guarantees by something over \$400), even though there are many good reasons for such a training trip at so small a cost. It does mean adequate schedules—and four or five conditioning games at home might pile up a bigger cost than the coast trip, which should show only a small deficit if repeated this year and which soon should pay for itself.

It means a better financed program of intramurals for women and men—a program which now extends its pleasures and benefits to about ninety per cent of the students.

It provides an opportunity for other worthy student enterprises to receive needed help, such as stock judging and grain judging teams.

It means that Montana State College keeps driving ahead, offering her students an adequate and attractive program of activity and entertainment—providing a field for the development and expression of every talent and forty or fifty dollars worth of high class entertainment for \$20.

ENGINEER SAYS FEE SHOULD NOT BE RAISED ANY

Mr. Kenneth McIver expressed the situation very clearly at the assembly last Friday when he said, "There are some of you against this proposition, I know because I heard you say so, but you are afraid to get up and say anything."

I want to take this opportunity to voice the opinions of some of the students on this matter and also to express some of my own beliefs.

It is an admitted fact that athletics is good advertising for a college, but why should the college spend the students' money for this form of advertising when on the other hand they are making distinct plans for the curtailment of the student registration in the next few years.

It is an admitted fact that intercollegiate athletics is good physical training for students but on the other hand how many of the eight hundred or more students attending M. S. C., which if the proposed increase in activity fee takes place, will benefit by this increased fee. Possibly fifty.

It is an admitted fact that the activity fee here at M. S. C. is lower than at similar institutions in the United States, but it is because some of the other organizations get exactly nothing for their support. Athletics is hogging the major portion of the fee at the present time and is now asking for a substantial increase.

It is an admitted fact that some students attend the intercollegiate games held here. Now I beg of you, is their interest so great in athletics that they would attend these games if they were not forced to pay for them in advance. They absolutely would not.

Mr. Romney made the statement in assembly the other morning that there were thirty (30) tickets sold to college students for the last intercollegiate basketball tournament. I think his statement would appear in

MOTHERS' DAY IS MAY 9TH

BOOK YOUR ORDERS EARLY—OUR SELECTION IS GOOD

M. LANGOHR, Florist
19 EAST MAIN PHONE 95

MONTANA STATE CANNOT DROP ATHLETICS NOW

A good deal of comment has been raised in regard to the proposed activity fee increase, both pro and con. It seems that most of those who are opposed to the proposed raise are thinking merely of the \$5.00 more which they must dig out of their pockets and have not stopped to consider the why or wherefore of it all. They have not secured the facts of the situation and studied them thoroughly or they would not be so anxious to knock the plan.

Montana State College has reached a point where she must have increased funds for carrying on student activities if she is to hold her present prestige in the Rocky Mountain Conference and to continue to develop this standard. So far we have been unable to carry out a complete athletic program on account of a shortage of expense money. We have not sent out as many debators on the few trips they have taken, or on as extensive trips as should be taken because of lack of funds for transportation. Our band has made several trips around the state and the advertising it gives the college warrants a much more extensive trip—a trip which cannot be taken with the present fees. The College Chorus, just organized this year, proved a great success, but in order to expand, it too must have more resources.

Some may perhaps say "Let's drop all athletics." This is a thing which Montana State or any other similar school cannot do at the present time. The Colleges of today are built around their athletic games—games which furnish wholesome and healthful amusement for participants and spectators alike—and in order to keep up a college at the present time, to maintain its steady increase in registration as well as its prestige and good name with other colleges, intercollegiate athletic competition must be maintained. If all colleges dropped athletics, Montana State could too, but she has not yet reached the point where she can safely do it.

As far as the \$5.00 increase is concerned, it really amounts to a very little. What student has not spent that much for one or two evening's dates? What college student is there who regrets spending \$5.00 for an evening's enjoyment? Most of us never even consider such a loss. What student then is there at Montana who has not the interest of the school and himself at heart enough to forego one or two dates and put the \$5.00 saved into the student activity fund. Think these things over carefully before voting on the proposed raise in the activity fee on Friday, May 7.

AGGIE WANTS DONATION FOR JUDGING TEAMS

A committee of the Student Senate is meeting to consider ways and means for an additional gouge of \$450 from all students who attend this institution of higher athletics. It is proposed to raise the activity fee \$450 so as to divert \$250 to the muscle factory. As a concession to gain the support of a greater number of those concerned, such minor activities of culture and intellect as music and debate will profit. These activities require the use of the faculties the student comes here to develop.

It is an excellent showing of spirit that at least the worthwhile activities of the campus are to be recognized, but it is lamentable that there should be attached to it a joker while at the same time two activities that are worth while are overlooked; namely the stock-judging team and the grain-judging team. These last two named are a school proposition as much as any. When these teams won first and second respectively at the International last fall the papers did not say "Ag. Dep't. of M. S. C. Wins," but the headlines of the leading papers of the west read "M. S. C. Wins." Much as a program of gouge is to be frowned upon, it is to be followed, treat all alike, not excluding the ones that give training that will be of value when the four short years of hero worship the at an end and the men and women go out in that longer period of intensive training actively called the "Life Work."

Everybody out to vote next Friday.

See you at the polls Friday to vote on new resolutions.

BY L. G. THOMPSON

Will Have Name on Atkinson Cup and Receive Gold Medal

HAROLD ARMSTRONG 2ND
HAROLD TOWER THIRD

Over Twenty Students Entered in Annual Aggie Day Contest

At the annual grain and crops judging contest held by the Agronomy department last Saturday, L. G. Thompson, a sophomore, won first place. This entitles him to the gold medal. As winner of the contest for 1926 his name will be engraved on the Atkinson trophy with the past, present, and future winners of the contests in crops judging and stock judging. Thompson also will receive fifty per cent of the pot to which each contestant contributed two bits. This amounts to about two dollars and sixty cents. Thompson won with a score of 1064 points out of a possible 1200. Second place went to Harold Armstrong with 1062 points. Harold Tower took third with 1040.

The contest was composed of crops identification, crops judging, and the giving of reasons. There are twenty-five crops to be identified, which counted a total of two hundred points. The highest score made in this part of the contest was 168 points, which score was made by several persons. In the judging proper the classes were alfalfa, barley, oats, corn, spring wheat, winter wheat, and white wheat. There were twenty-one contestants in the identification and judging, the highest ten of which gave reasons on their placings. The judging counted 100 points per class, making a total of 700 points. A number of high scores were made but no one placed all the classes perfect, the nearest being Harold Armstrong with five out of the seven right. The contest was held from about ten-thirty in the morning until noon. At two in the afternoon the winners in placing gave their reasons. The possible score for reasons was 300 and the highest score made was 175.

All three winners in this contest were sophomores. Although a five dollar prize was offered if a freshman won the contest, only one freshman, Carpenter, placed in the first ten. This is a good showing for a freshman however, for hardly any crops courses are given until the sophomore year, so the frosh are at a great disadvantage. The fact that several freshmen entered in spite of this fact speaks well for the freshman class. Carpenter also placed in the stock-judging contest but was eliminated on reasons.

Another interesting phase of the contest is the fact that winner of first place in the spring judging contest usually makes the judging team which goes to Portland to represent M. S. C. at the International held there every fall.

Women's College at Bucknell—The new rules for girls of the Women's College of Bucknell University as approved by the president and passed at the Student's Government meeting, permit girls to "fuss" in the stadium until 6 p. m., but the cemetery is considered as being "out of limits."

THREE HORT STUDES
STUDY IN BITTERROOT

Dick Ross, A. Johnson, D. Johnson Left Friday for Study of Montana Fruit

Dick Ross, Art Johnson, and Dwight Johnson, horticulture students, left at 6 a. m. last Friday morning for the Bitter Root valley in company with Professor Harrington. The trip to the land of the McIntosh apples and everbearing strawberries was made by car and will require about a week. Trips like this are becoming an annual affair for horticulture students, this being the fourth consecutive pilgrimage. Due to location, Bozeman offers only a limited field for a study of fruits and berries and something in the nature of this trip is necessary to give the students first hand information.

Plans include a visit to the horticulture sub-station at Corvallis and visits to a number of commercial orchards where pruning and spraying methods will be studied. Special work with pollination will demand some attention also, this being apple blossom time. Dick Ross will do some special research work for his thesis.

The growing of small fruits and berries has become a flourishing industry in the Bitter Root and the students intend to gather a great deal of practical information concerning these crops from the growers visited.

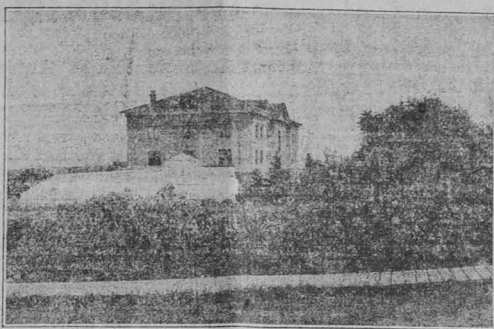

"Cock-a-doo-l-doo!"
Said An Aggie.
We're It!

Who says the aggies are not in activities? Although they are represented by only one hundred and twenty five students, we find that they are taking an active part in every activity on the hill in spite of the fact that they have long laboratory hours, they do not let this curb their enthusiasm for participating in outside activities. The aggies do not go around "tootin' their horns," but even our good friends, the engineers concede that the aggies can deliver the goods as evidenced by the fact that last year's football team was composed mostly of ags and they will be captained next year by an aggie.

Our basketball team this year was made up largely of aggies too, as is the captain this year and captain-elect for next year. In track we also have our share of men who are upholding the fame of alma mater. Not only in athletics do we shine, but also in all the other activities. An ag is editor of the Exponent and the department is well represented on the staff. We find they are actively engaged in forensics, glee club, band, dramatics, and in fact every activity on the hill.

NOTICE—EURODELPHIAN OFFICERS

An important meeting of all the old and new officers will be held Wednesday night at five o'clock in Miss Donaldson's office. This is important, and so be there!

AGRICULTURAL HALL

AG CLUB HOLDS
MEETING TUESDAY

Discuss Plans for Ag Day and Question of Election of Officers

That there will be no election of officials until the regular annual election of officers which will probably be held late in May, was the decision reached by the Ag Club at its last meeting on Tuesday, April 20. This question was raised because Max Legge resigned as president when he changed his place of residence to Phillips county. Bob Tootell will therefore continue as acting president for the few weeks remaining till the elections.

The matter of entrance fees and prizes for the contestants in the annual crop and stock judging contests was also brought up for consideration. The club decided that an entrance fee of twenty-five cents would be charged, that the pot thus raised was to be split in the ratio of fifty, twenty-five, fifteen, and ten per cent among the four highest scores in each contest and that the stock and grain pots should be kept separate.

LOYAL

GLEE CLUB QUILTS
U. of California Singers Resign Because Administration Deposed Their Veteran Leader

New Student—As usual, the University of California Glee Club met for Monday night practice in murky old Stiles Hall, February 1. "Brick" Morse, '96, director of the Club during its 35 years of life, led his organization through the usual round of songs.

A pause after the singing. What would "Brick" Morse say? The University officials had protested that the Club's jazz program which captivated audiences from Tokyo to Stockholm, is not "representative of the University." Thereafter, they hoped, only classical music would be given. It was whispered that the Student Government, at the wish of the authorities, had asked "Brick" Morse to resign. It was also hinted that the authorities had charged that Morse had permitted the men to er-hem—misconduct themselves while in foreign parts. One hundred men expectedly waited.

"I have seen the Club grow for 35 years," Morse began, "and during that time the boys have so conducted themselves that not one charge of misconduct has been proven against them."

"I have not handed in my resignation and I am not going to. But I expect they will kick me out. It is hard to leave after more than thirty years with you. . . ."

"I gave one leg for the Varsity team and I am ready and willing to give the other for the Glee Club." Exodus

After Morse had left the room, one after another of the men "rose and quietly resigned." After dissolving the University Club, they organized the "Brick Morse Collegians," a non-university group formed "for the study of good music." Then they lined up to put their signatures to a pledge which read as follows:

I pledge myself not to support in any way any University of California

FOUR NEW MEN
IN AG FACULTY

All Men Come Here Well Fitted for Grad Work in Their Lines in Ag. Dept.

Several additions have been made in the Agricultural department of M. S. C. within the last year. Mr. Vinkie, who received his Bachelor's degree at Kansas Agricultural College and his Master's degree at the U. of Minnesota is now connected with the animal husbandry department. Mr. Vinkie has had considerable experience along these lines and he comes also with the reputation of the best Smith-Hughes teacher in Kansas.

Mr. Johnson, now connected with the Farm Management department, comes from the University of Minnesota. He was engaged in a farm survey for the University of Louisiana previous to coming to M. S. C. Mr. Young, who is now connected with the Ag Engineering department, graduated from Wisconsin university. He obtained his Master's degree at O. A. C. in 1925, coming to M. S. C. last September.

Mr. Lewis, who graduated from the U. of Nebraska is now connected with the grain laboratory. While at Nebraska he majored in chemistry and is a member of Alpha Chi Omega.

M. S. D. GRAD PLANS
EUROPEAN TOUR

Lillian Roth, Secretary to President Atkinson, Arranging a Conducted Tour

If you have ever planned or dreamed of the time when you would visit Europe, now is the time to get those plans into definite shape for there is being organized here in Bozeman by Miss Lillian Roth a party for a conducted tour of Europe, under the management of the American Express Travel Department.

This is to be a regular conducted tour. All travel and hotel arrangements will be made in advance and the inclusive price of the complete tour is \$917.00. The itinerary includes France, Switzerland, Italy, Germany, Holland, Belgium, and England, and extends over a period of 65 days, from June 12 to August 15.

Miss Roth has pamphlets giving all details of the trip which anyone interested may obtain by calling at her home at 601 South Grand.

If you find it impossible to make such a trip this summer but still plan to do so at some future time, see Miss Roth about tours which she is planning under the same management for other summers.

Glee Club which will be formed until in the opinion of the majority of those assembled here matters have been satisfactorily adjusted. So help me God!

The first women's track meet will be held May 7 and the second May 14.

AGGIE GRADUATES
ALL HAVE JOBS

Twenty Men Graduated Last Year From Aggie Department

Last year twenty men graduated from the Agricultural College and took up various positions most of which were in the state. Of these eleven graduated from Agricultural Education department, four from the Animal Husbandry department, three from the Dairy department, and two from the Agronomy department.

Five of the ag education graduates held positions as Smith-Hughes instructors. Maurice Andries is at Will-sall, Theodore Hoker is at Manhattan, Thomas Kirk is at Moore, James Supple is at Jordan, and Louis Neuman is in North Dakota. Ted Cogswell is associate-editor of the Montana Farmer at Great Falls. Abraham McMahon is in school in Chicago. Sol Peterson is a Major in the National Guard and is working at Helena. Peter Cok is farming in the valley. William Haley managed to get the farthest from M. S. C. and is teaching in Boston.

The Animal Husbandry men are all in the state. Luke Dagnall is assistant in animal husbandry at the Northern Montana Branch experiment station at Havre. Grove Dutton and Donald McMillan are ranching. Leonard Joubert is taking post graduate work.

Of the Dairy graduates Winton Weydemeyer is assistant in animal husbandry at the Judith Basin branch station near Moccasin. Paul Carnes is manager of the co-operative creamery at Stevensville. George Burns is ranching near Chinook.

Ed Bell is assistant in Agricultural Economics at the Experiment station. During the past year he has been working on the wheat marketing problems of the Montana farmers. Jack Carter is taking advanced work in Agronomy at Iowa State College.

RADIUM.

After days of incessant labor, Professor Erickson of the physics department at the University of Minnesota recovered a bit of radium valued at \$8,600 from the sewer tunnels of Saint Paul, thus proving to the world that scientific effort and patience can achieve wonders. A critical and unbelieving campus—an almost indifferent campus, you might say—followed Professor Erickson's search, through the newspapers, and was more than startled to discover that he had really made good his promise. Sewer workers who broke the pipe at his direction, were frankly astonished to see him gravely pick up the bit of precious metal.

PAGE THE BOUNCER.

The Men's Student Council at the University of Kansas passed a rule limiting the number of "stags" at varsity dances.

Ten stags will be allowed to the first 100 couples who arrive by 9:30 and 20 more if another 100 couples come by ten o'clock.

MIKKELSON WINS
IN STOCK JUDGING

Makes Total of 510 Points With Next Place Making 495 Points

CHESTER PAISLEY WINS
SPECIAL HOLSTEIN PRIZE

Harry Noel Takes Second in the General Contest, Chester Paisley Third

In the Stock Judging contest held by the Animal Husbandry department Saturday morning at eight o'clock, Henry Mikkelsen, a senior, placed first with a total of 510 points; Harry Noel, a sophomore, was second with 495 points; Chester Paisley, a sophomore, and Harley McFarlan, a senior, tied for third place with 494 points; and for fifth place the tie was between Bob Tootell, a junior, and Harold Armstrong, a sophomore, both of whom had 489 points. The placing was unusually close as there was only 17 points difference between first and fifth places when reasons had been given and the contest was finished.

On placings alone Mikkelsen was first, with 340 out of a possible 350 points; Paisley second, Tower third, Noel fourth, Armstrong fifth, McFerran sixth, Tootell seventh, and eighth place was a tie between Barnum and Carpenter, who was the only freshman who placed, and he was eliminated on giving reasons.

To Mikkelsen, winner of first place, will be given the John Clay medal. His name is to be engraved upon the Atkinson trophy, which is kept in the glass case at the head of the stairs in the Ag building, and upon it is inscribed the name of the man winning in stock judging and in the grain judging contest each year. He gets a prize of six dollars and some cents also, which is 50 per cent of the pot to which each entrant anted two bits. Harry Noel, winner of second place, will receive the silver medal and 25 per cent of the pot. Third place gets the bronze medal and 15 per cent, while fourth place received 10 per cent.

Out of about fifty-five entrants not one placed all seven classes correctly, but some of the classes were very difficult. There were seven classes, fat hogs, draft horses, mutton sheep; and two each of beef cattle and dairy cattle. Each class of stock counted 50 points if placed correctly, seasons on one class of beef cattle and dairy cattle and on sheep and horses counted fifty points per class, making a total of five hundred fifty points possible.

An added feature of the contest was the prizes offered by the Holstein Breeders association of Montana for the highest scores on the Holstein class. First prize of two dollars fifty cents was won by Chester Paisley, second \$1.50 went to Mikkelsen, while Tootell and Barnum tied for third which was one dollar.

TORMENTORS 2ND IS SHOW GOOD

Crowd Not as Large as at First Performance, But Critics Say Play Was Better

Tormentors gave their second performance of "The Witching Hour" at the Emerson Thursday evening to an audience that was not as large as was expected or desired. Those seeing this performance proclaimed it to equal if not surpass the first given at the Ellen.

It was expected that an appearance would be given in Butte but all plans and arrangements have been canceled and arrangements have been made to make a trip to Manhattan on the 21st of May to give the play at the Manhattan Community building.

This will probably be the last and closing appearance of a very successful Tormentor season, made so by the excellent work of the members of the cast, the directors and all those directly or indirectly concerned with "The Witching Hour." Montana State College is proud and appreciative of the work of Tormentors.

ED UDINE HAS SECURED POSITION

Ed Udine, who should have graduated this spring, left at the beginning of the last quarter for an important position in Wyoming. His headquarters are at Laramie, Wyoming, but he spends most of his time traveling over the state for the horticultural inspection service, and for a pest survey. He was well fitted for this work by his course at M. S. C. The present arrangement is that if he makes good this summer, he will be granted time to come back and graduate next spring, after which his position there will become permanent.

MASCOT AT LEHIGH UNIVERSITY.

Lehigh University has one of the most unusual mascots of any football team in the country. It is a mud-turtle which was discovered making its way across the muddy field during signal practice. It was immediately adopted and was christened "Knock-em." After each game, the score is carved on his shell.—C. C. Tiger.

Y. W. C. A. INSTALLATION GIVEN TUESDAY NIGHT

New Officers of Year Installed
at Alpha Gamma Delta House
by Outgoing Officers.

Installation services for the incoming cabinet officers of the Y. W. C. A. were held Tuesday, April 20, at the Alpha Gamma Delta house. Lillian Stone, the out-going president, read the installation work. All the old cabinet members and new cabinet members were present and each of the former cabinet members told her successor the duties of her particular office.

The new officers for this year are: President, Lois McCoy; vice president, Helen Solberg; secretary, Ruth Bolinger; treasurer, Winnifred Brackett, and U. R. Norma Smith.

The heads of the committees are: Ruth Rutledge, chairman of the Employment committee; Marjory Spaulding, chairman of the Program committee; Esther Asbury, Social chairman; Irma Gill, Ceasebeck chairman; Finance, Lillian Stone; World Fellowship, Helen Galerneau; Room chairman, Ione Parker, and chairman of the Publicity committee, Helene Stocker.

ART CLUB MEETING HELD LAST THURSDAY

Bobby Nye and Thelma Berrymore Give Interesting Talks on Early American Sculptors

The Art Club meeting was held last Thursday evening at Mrs. Hannon's apartment. Bobby Nye and Thelma Berryman had charge of the program. They gave very interesting talks on early American sculptors.

It was decided that the Art Club will be a closed club next year to insure getting in the membership people who are interested and who will contribute something to the work of the club. The members will be voted in.

Plans for a picnic at Springhill were discussed. It was decided to have the picnic on either the thirteenth or the twentieth of May.

Nominations for officers for next year which were made, are as follows: President, Dolly Tripp, Margaretta Johnson and Dode Benepe; vice president, Judith Creel, Mary Hale and Beatrice Tanner; secretary-treasurer, Twilo Hough and Catherine Caldwell; reporter, Judith Ropes. These will be voted on at the next meeting.

Mrs. Hannon served delicious refreshments at the end of the evening.

BOUFFON FORMAL.

The Bouffon Formal, which is one of the most important social events of the school year is to be held at the Elks' hall next Friday, April 30. The Rose Garden Collegians will furnish music for the evening.

Any under classman who wants an invitation can secure one by applying to a Bouffon.

INTER-SORORITY BANQUET

Plans for the Inter-Sorority Banquet are being made now. This banquet, which is an annual affair, is to be held May 24th at the Bozeman.

The president of Pan-Hellenic, Rhoda Harris will preside and Pan-Hellenic rulings will be discussed. Each sorority sings two songs and the outgoing president of each introduces the incoming president.

Conferences are being held this week to complete plans and make arrangements.

U. of Washington—The net proceeds for the University of Washington for their game with the University of Alabama in Pasadena for the Rose Tournament was \$23,000.

Campus Notes

Miss Julia Murphy of Three Forks and George Belshaw were dinner guests at the Beta Epsilon house Saturday evening.

Kappa Delta announces the pledging of Iris Rose Peters of Great Falls.

Beta Epsilon held initiation Saturday evening for Dick Daniels of Miles City.

Miss Jessie Donaldson was a guest at the Alpha O house Wednesday evening at a birthday dinner for Elva Budd and Marilla Whitlock.

Professor and Mrs. W. D. Tallman and son were Sunday dinner guests at the Beta Epsilon house.

A week ago Sunday the pledges of Kappa Delta entertained the actives with tea at the chapter house.

Rev. and Mrs. H. G. Klemme were Thursday dinner guests at the Alpha Omicron Pi house.

Ruth Glenn and Virginia Freeman spent the week end visiting with friends in Boulder.

President and Mrs. Atkinson, and Dean and Mrs. Hamilton were dinner guests at the Pi Phi house Wednesday evening.

Kate Andrews spent the week end at her home in Trident.

Margaret Hammond, Charlotte Putnam, and Lillian Kindschey spent the week end in Livingston.

Sunday dinner guests at the Alpha Gam house were: Bill Graham, Andy Briscoe, Bob Nelson and Carlos Liviers.

Norma Smith spent the week end at her home in Trident.

The Rebekah lodge will entertain all students whose parents are Odd Fellows or Rebekahs, April 30, at I. O. O. F. hall. Dancing, 9 p. m. Each one may bring his own company.

WOMEN'S SPEED HIKES.

The first speed hike will be held May 17 and the next one the following Monday, May 24. The hikes will start at 7 a. m. from the barracks. The distance will be three miles out Huffine lane. The two hikes are arranged for the convenience of the contestants, and both may be entered.

WOMEN'S DISTANCE HIKING.

It has been decided to change the finishing time to May 10 instead of May 20, making the total hiking time 21 instead of 30 days. All hiking distances must be turned in by the 11th.

FOUR MORE ENGINEERS SECURE PLACEMENTS

Among the recent placements of graduates are Vander Doebus, Joe Yedlicka, Humphrey Courtney and Harold Nicholson. Van Doebus has accepted a position with the American Rolling Mill company, Middletown, Ohio; Yedlicka is going with the Aluminum Company of America, and Courtney has been taken by the Westinghouse company. Nicholson is going to Youngstown, Ohio, to work with the Truscon Steel company.

The first three mentioned will graduate in the spring from Mechanical engineering, while Nicholson will graduate from Civil engineering.

NEW FRATERNITY RECEIVES FACULTY RECOGNITION

At a recent meeting of the faculty a new fraternity, Delta Tau, was recognized.

Owing to the fact that the fraternity was recognized after the drawings were made for spring Intramural sports they cannot enter teams in the different events but will have a baseball team and would like practice games with the other fraternities.

ENTOMOLOGY SOCIETY BANQUET

The Gettinger Entomology Society held a banquet at Gilkerson's Banquet rooms on April. Ten members were present besides Prof. Cooley, Mr. Parker and Mr. Cooke.

Toasts and talks were given by Prof. Cooley, Walter Stanley, Mr. Cook, and Mr. Parker, and the remainder of the evening was devoted to discussions of various subjects and problems in entomology.

May 28 has been chosen a R. O. T. C. day and on that day the different companies of the local battalion will demonstrate different phases of their instruction of the past year. There will be a parade of the entire battalion commanded by Major Lamb. Company A will act as escort to the colors and will be commanded by Captain Morrison. Company B will carry on an attack of a defended position under the command of Captain Fox. Company C, under Captain Mack, will have guard mount and Company D under Captain Forbes will carry on close order drill.

CHORUS MAKES HIT LIVINGSTON THEATRE

Sings to Large Audience in
Strand Theatre Wednesday Night

The College Chorus sang to a good-sized and very appreciative audience at the Strand theater in Livingston, last Wednesday night. They presented their concert program, the same, with slight modifications, as the one presented here.

The trip was made by auto, and incidentally, is the last to be taken by the chorus this year.

Plans are already being formulated for next year choral activities and efforts are being made to interest many of the good singers who heretofore have not joined the chorus. Prof. Joseph Adam, director, announces that all chorus members, old, new and prospective, should meet in the assembly in Main Hall at 5 p. m. today.

PHI SIGMA BETA HOLDS OUTDOOR PICNIC

The members and pledges of Phi Sigma Beta, honorary biological society, enjoyed a picnic up Middle Creek canyon Saturday afternoon. Cars were provided to take the students to the canyon and as soon as they got there, all scattered over the hills on collecting trips. Some of the members, taking systematic botany, went in search of flowers, while others taking courses in entomology, pursued bugs up the hillside.

After a steak-fry around the campfire, the evening was spent in various athletic feats, and the members returned home later laden with flowers and wood ticks.

BEFORE you even look for the jack or tire-tools, tuck a neat wad of Prince Albert into the muzzle of your jimmy-pipe. Light up . . . and get yourself in the frame of mind where a flat tire is "all in the day's work." Talk about a gloom-chaser!

P. A. simply knocks troubles for a row of planished-steel mudguards. Its cool, soothing smoke percolates into your system, the sun crashes through the clouds, and everything is hotsy-totsy. Yes indeed, Fellows, Prince Albert is great tobacco.

And paste this in the fly-leaf of your thesaurus: P. A. can't bite your tongue or parch your throat, no matter how hard you hit it up. The Prince Albert process flunked Bite and Parch on their first examination. Get a tidy red tin of P. A. now and see.

PRINCE ALBERT

—no other tobacco is like it!

P. A. is sold everywhere in tidy red tins, pound and half-pound tin humidors, and pound crystal-glass humidors with sponge-moistener top. And always with every bit of bite and parch removed by the Prince Albert process.

MONTANAN EDITORS NOW AT GREAT FALLS

Will Attend to Final Arranging and Printing of 1926 Montanan

Don Bennett, editor-in-chief of the 1926 Montanan, and Mott Souders, Jr., managing editor, left Bozeman last Saturday afternoon for the Tribune office in Great Falls where they will attend to the final arranging and printing of the 1926 Montanan.

All of the copy as well as the cuts and engraving works are in the hands of the printers and the editors hope to have the year book out in time to distribute the first issues at the Montanan dance to be held May 22.

This year's Montanan will undoubtedly be one of the best year books ever published by Montana State College, for the editors and staff have spent a great deal of time in working out this book, so that we can look for a Montanan "par excellence."

EURODELPHIAN MEET

TO INSTALL OFFICERS

Old Officers Conduct Installation at Alpha O House Wednesday

At the regular bi-weekly meeting of the Eurodelphian Literary society last Wednesday evening at the Alpha O house, installation was held for the officers of the coming year. Those installed were: President, Lillian Marshall; vice president, Kathryn Caldwell; corresponding secretary, Clara Dugan; marshal, Margaret Shaw, and critics, Martha Maxey and Mildred Cameron.

Immediately after the installation ceremonies the out-going officers read reports of the year's achievements in their respective departments of the society.

After the business meeting the society enjoyed an informal talk by Dean Herrick in which she told them of some of the interesting points of her recent Eastern trip. Dean Herrick also made some valuable suggestions to the group in regard to Eurodelphian's place on the campus and how the chapter can best fill that place.

At the close of the meeting refreshments were served by the hostesses.

CLASS LASTS TEN HOURS.

W. S. C.—About a month ago a 10-hour problem class was held for the students of the architecture department. In this class, the students, alone and unaided, commenced a piece of work at 1:00 o'clock and at 11:00 o'clock it had to be completed. Students were not permitted to leave even at dinner time, but were served a lunch as they sat at their desks. The news of this class was circulated all over the country by the college news office and the Associated Press, and now Kansas State Agricultural College sends word that its architects have been holding 12-hour classes regularly each month for several months.

Senior girls, don't forget the meeting Tuesday night at the Pi Phi house to decide on Parasols for spring customs.

STUDENT SENATE MEET SUNDAY

Proposed Activity Fee Raised From \$4.50 to \$5.00 at Petition of Lou Howard

At a meeting of the Student Senate, held at the S. A. E. house, Sunday, April 25, it was decided that the proposed raise in the activity fee be changed from \$4.50 to \$5.00. This was done in order to increase the apportionment of the band.

Mr. Lou Howard, director of the band, appeared before the Senate, and explained the misunderstanding that had arisen concerning his application for an increase, and presented a definite petition for an increase of fifty cents.

He brought forward the arguments that each year it is necessary for the men who made the trip to pay an assessment of ten dollars to cover the expenses of the band, and that this year was the first in which the organization had been able to refund this fee to all members. He presented the facts that it was necessary for the band to have a certain amount of new equipment each year, and that the present division of the activity fee would not cover it in the future. He also emphasized the point that some eligible men were prevented from appearing in concerts this year because of the lack of uniforms.

After a long discussion, the Senate voted to give the band an increase of fifty cents, thereby raising the proposed activity fee to twenty dollars.

This increase will be voted upon Friday, April 30, in Main Hall.

Gob Trousers

THEY ALL WEAR THEM

One of the interesting features of this year's styles, is that attirement so necessary to the happiness of the male sex, commonly called "gobs."

An adequate description of these gob trousers is almost impossible. The trousers are constructed on long, thin, flowing lines—tight at the top and loose at the bottom. At the waist are intricate lacings—worse than numerous buttons. The color is a dark, inconspicuous blue.

What won't one do for beauty? It is reported that "gobs" are exceedingly hard to get into, and worse to lace up. Twenty years from now when your young daughter or son looks at a picture your beau, draped over one of the steps as Main Hall, and his external covering consisting of gob pants, they will no doubt be shocked at the styles of the time.

If anyone should see a pair of legs approaching encased in trousers tight at the top and sweeping at the bottom, don't think the navy boys are touring Montana—it is only one of our "fad seekers."

Much has been said on the fads at our college, but none can surpass the glory of gobs. Red ties and balloon trousers were quite the thing a while back, but, alas, the fickle eye of the men at college is caught by gobs. It's all right for some, but—heaven help the fellow that's bow-legged!

But all things pass on, and gobs like that popular song, "Yes, we have no Bananas," will pass into oblivion.

NEW SPUR INSTALLATION

Miss Rhoda Harris is leaving next Sunday for Salt Lake where she will install a chapter of Spurs in the University of Utah. This will be the fifth chapter and there is every possible chance that Oregon State College at Corvallis will be the next to install a chapter.

The name of the local chapter at University Salt Lake is "The Boosters."

JUNIORS! ATTENTION!!

There will be a meeting of the Junior class tomorrow (Wednesday) evening at five o'clock in the Main Assembly room to discuss plans for the Junior prom. All Juniors must be there so that complete plans can be made at this time. Any who have not paid their dues yet should bring their \$2.00 to the meeting.

FROSH CAPS

TO APPEAR ON CAMPUS MAY 1

It doesn't take many weeks of good spring weather to bring out in the surrounding landscape the color haled as the Freshman's own and so, along with the leaves and the grass we will soon see the verdure of Frosh caps.

On May 1, the freshmen will be expected to appear on the campus in the little green cap and for the thoughtless, careless or vain frosh who dares to be seen without this badge of his fast vanishing green-ness, the Fangs have planned a little party such as only those Knights of the Paddle know how to administer. So take this warning Frosh and get in harmony with your surroundings.

ANTIQUES?

In hunting through the attic the other day I found a stack of old pictures. Among the antiques I discovered a picture of the college faculty, taken some eighteen or twenty years ago. Many of the faces found there have long since disappeared from this campus, but there are some faithful ones that are still with us today.

The students must have been especially trying that year for all except Miss Brewer and Mr. Cobleigh have a very depressed and haggard look.

The women of the faculty are dressed in tight fitting shirt waists, with big sleeves, and long, bungle-some skirts. No wonder they look sad. And by the way, the men aren't wearing gob trousers and sweat shirts. Strange to say many of them have more hair than today. Among these are included Mr. Brewer and Mr. Swingle. Mr. Ham was then sporting a little, black, curly moustache. Altogether there are thirteen in the picture who are still faithful pillars of the school, and among them are President Atkinson (now president but not then) and Dean Hamilton, then President Hamilton.

When another twenty years have elapsed, which ones will still be having their pictures taken with the faculty? Who knows?

COLLEGE DEBATES ARE "RAZZED" BY STEPHEN LEACOCK

Tronto, Canada.—(By New Student Service).—Stephen Leacock, a jester of international repute, who in his sober moments teaches political science at McGill university, says harsh words about the conventional debate:

"Some huge subject is selected as broad as the continent and as comprehensive as the census. The subject selected the two college champions descend into the bowels of the library. As beside their activities in brooding hen and a maternity hospital are not in it for expectancy. And the victory goes to whatever side has more completely swallowed the census and makes a longer array of citations of statistics."

"The proper method should be exactly the reverse. The real preparation for that debate is to think about it, to get keen about it. Any student who can't think ought not to be a champion, he should study to be a professor."

UNIVERSITY FINDS ANOTHER GRIZZLEY

Attempts to Have U of Southern California Give Up Pet Title

Since Montana University has entered the Pacific Coast conference the title of Grizzlies applied to the U athletic teams has been found to conflict with the same title used by the athletes of University of California, Southern branch. Montana University claims priority rights to the title and have attempted to have the California school change their title. A delegate has recently been sent to California by the associated students of Montana University in an effort to have the matter settled. Miss Patterson, the delegate from Montana University, reported that the matter had received very little publicity in the University papers, but that the president of the institution had given the Montana school priority claim to the title and that an attempt would be made to change the sentiment of the students there, which is at present very strongly in favor of retaining the title, when the school was installed in its new location at Beverly Hills.

Remember the Junior class dues are due now—all the time.

All Juniors, be sure and attend the Junior class meeting Wednesday night

STUDENT ASSEMBLY FRIDAY MORNING

Will Consider Revised Constitution Which Will be Presented by Student Senate

Next Friday's assembly hour will be given over to the Student Senate, who wish to place before the student body of Montana State College a revised constitution for the students to consider.

The Student Senate on investigating the old constitution found that it was entirely inadequate to the present needs of the school since it had been made several years ago. Many amendments have been tacked on to the constitution in an attempt to alleviate these existing bad conditions, but they have made the present constitution unwieldy. The Student Senate has deemed it advisable to revise the entire constitution and present it to the students.

It is very necessary that the whole student body attend this assembly since these changes affect all of the officers which have anything to do with student affairs. The students should become familiar with these changes in order to be able to vote adequately.

WOMEN'S DAY PLANS

STARTED FOR YEAR

(Continued from page One)

various events. The new members of Cap and Gown are also made known at this time. This year no one will know who has been chosen until the last minute, when the previous members of Cap and Gown will open envelopes containing the name of the girl to succeed them. The new Spurs are appointed Women's Day from the different organizations.

The crowning event of Women's Day is the cup given to a girl in the Junior class, who is outstanding in every way—personality, activities, grades, etc. Laura Asbury received the cup the year before last, and Mary Jo Stockton received it last year.

This day—Women's Day—belongs only to M. S. C. It was originated on this campus, and much credit is to be given to Dean Herrick, who has promoted it ever since it has been known at M. S. C.

DEBATE MANAGER

POSITIONS OPEN

(Continued from Page One)

bates; to extend invitations to prospective judges; to meet visiting debaters at the trains and see that they are extended hospitality while they are here; to meet the judges and see that they are escorted to and from the place of the contest, and to advertise the debates.

The assistant manager will work particularly in arranging details of underclassmen's debates.

Two things of particular advantage to an applicant would be, sufficient ability in English to conduct correspondence and the ability to operate a typewriter.

The manager will be conferred a manager's letter in debate and a gold M award.

DR. CARSTEN SPEAKS

ON "CHILD WELFARE"

(Continued from Page One)

to children's aid societies of all kinds, state and municipal governments in problems dealing with child welfare. The national child welfare program of the American Legion, for instance, was prepared in the main by his office in collaboration with legion officers. Dr. Carsten's present visit to Montana was for the purpose of consulting with the State Bureau of Child Protection and the Children's Home Finding Society.

Montana State College

Bozeman, Montana

FOUR YEARS COURSES OFFERED IN:

1. The College of Engineering.
2. The College of Agriculture.
3. The College of Applied Science.
4. The College of Household and Industrial Arts.

An illustrated booklet describing the work in any one of these courses will be sent on request

Close harmony

Don't think that a college "sing" is the only place for close harmony. The electrical communication industry, too, has applied the big idea.

Four men put their heads together in the research laboratory—and there evolves a new and scientifically accurate basis for the measurement of speech and hearing.

Construction engineers, whose pole lines stride across country, work hand in hand with purchasing engineers who look forty years ahead for the pole supply of the future.

In the factory, engineers and craftsmen together develop new processes and almost-human machines to increase production and effect economies.

Combined ability—that's the thing! In the words of the song, "a long pull, a strong pull, and we'll all pull together."

BOBCAT SPORTS

BOBCATS OVERWHELM GALLATIN HIGH IN HANDICAP MEET HELD LAST WEEK

Blue and Gold Cap First in
Every Event and Most of the
Second and Third Places

The Bobcat track men showed their wares for the first time this season in the handicap meet with Gallatin County high school last Thursday and Friday. Even under great handicaps the Blue and Gold men placed first in every event although Smart of Gallatin gave the sprinters stiff competition in the shorter events.

Captain Hodgson displayed good form in his events, the half mile and the mile runs. Hodgson showed up exceptionally well in the 880, finishing strong after keeping a hot pace throughout the distance. In the mile event, Bade set a strong pace and looked as though he would finish in the lead, but Hodgson passed him with a spurt in the last quarter. Illness during the winter quarter has lessened Bade's chances somewhat, but he is working hard and may yet turn in an excellent record for this season.

Livers showed up as the most versatile man for the Bobcats by capturing first place in the broad jump and tying for first place in four other events. Livers won his heat in the 220 yard dash, the 120 yard high hurdles, and the 220 yard low hurdles, and tied for first in the high jump with Nelson. Livers had held the state high school record in the high jump until Nelson broke it. Their attempt to "jump it out" still leaves the matter up in the air as to who is the better jumper. Both men will undoubtedly coin points for Montana State this year.

Bryant and Thompson ran neck and neck in the quarter, tacking up a good time record for the condition of the track and the time of the season. Yedlicka cornered both of the weight events, the last upperclassman to gain premier honors. All of the other places went to Freshmen.

Gardner showed promise of developing into a real hurdler by taking his heats in the 220 low hurdles and 120 yard high hurdles. Gardner also tied with Hurd, another freshman, for first in the pole vault. Decker who showed up well at the interscholastic meet last year won first place in both the 50 yard and 100 yard dashes. Earl Keyes who also has a reputation as a high school runner captured first place in his heat in the 220. First place in the javelin throw went to Frank Heikkila, who has been heaving the spear for good distances since the beginning of the outdoor season.

Considering the fact that the track men have been working out in the gym while the weather has not been suitable and the poor condition of the track a very good showing was made by all of the entrants. The Gallatin meet gave a good indication of what the intramural meet to be held this week may bring forth in the form of hard competition. The showing of the Freshmen track men is very encouraging for future Bobcat track

INTRAMURAL TRACK COMING THIS WEEK

Shortly After This Meet Will
Come the Annual Cross-
Country Run

The coming intramural meet this Saturday is monopolizing the attention of most of the college men with the annual cross country run on May 4 also claiming its share of attention of the long distance men. Each fraternity is allowed to enter four men in each event and entry lists are full bespeaking an exciting contest with the winning organization having to fight hard for every point. The Sigma Chi team looks strong at this writing with full entries in every event and many men who are capable and consistent performers. The Omega Beta men are primed for their events and should pull a good share of points for their fraternity. The S. A. E. team is also a likely looking one with Wylie, last year's individual champion, still eligible and will only have to worry about Decker, diminutive Beta Epsilon, in the sprint events. Taken all together Saturday afternoon promises to afford as exciting a track meet as Bozeman fans have seen in a long time and if the weather continues good some time should be made notwithstanding the poor condition of the new track.

Preliminaries will be held as follows. Fraternities notice:

Tuesday, April 27, 4:45 p. m.—Low hurdles, high jump.

5:15 p. m.—100 yard dash, shot put.

5:55 p. m.—440 yard run.

Wednesday, April 28, 4:45 p. m.—High hurdles.

5:15 p. m.—Discus throw.

5:30 p. m.—220 yard dash.

Thursday, April 29, 4:45 p. m.—Javelin throw.

5:00 p. m.—880 yard run.

5:15 p. m.—Pole vault.

No trials will be required in either the mile or two mile events.

Events will be run promptly according to time schedule. Semi-final

will be necessary in 100, 220 and both hurdles as entry list is too large.

These will be held on Thursday and Friday. Five men qualify in each of the field events, five in the 220, six in the 100, nine in the 440, nine in the 880, four in each of the hurdle races.

Qualifications are: High jump, 5 ft.; broad jump, 18 ft.; discus, 90 ft.; shot, 33 ft.; javelin, 120 ft. Don't enter if you can't make these qualifications.

teams as well as an excellent showing for this year. The veterans will undoubtedly produce a strong team to compete in the state and conference meets.

CROSS COUNTRY ON TUESDAY MAY 4TH

Everybody must deposit 20c for their Cross-Country Numbers. Money to be refunded when they return numbers.

Organizations will register at time set for them. You will have to give class, and college in addition to Fraternity.

Sigma Chi—5:00 to 6:00 P. M. Friday, April 30

Sigma Alpha Epsilon—1:00 to 1:45 P. M. Saturday, May 1

Omega Beta—1:45 to 2:30 P. M. Saturday, May 1

Theta Nu—2:30 to 3:15 P. M. Saturday, May 1

Beta Epsilon—3:15 to 4:00 P. M. Saturday, May 1

Lambda Phi—4:00 to 5:00 P. M. Saturday, May 1

Independents—5:00 to 6:00 P. M. Saturday, May 1

SPORT GLEAMS FROM FAR AND NEAR

Track sports are now the major center of attraction throughout the country. Harold Locke, sensational Nebraska U sprinter, lowered a 20 year mark in the century dash covering the distance in .09.5 but the mark may not be allowed as he was favored by a strong wind. Kuck, of Kansas State Teachers College, broke another worlds collegiate record at the Drake relays, tossing the spear 207 ft. 7 inches, incidentally putting the shot 48 ft. 5 inches.

"Pop" Gregory's scrappy Blue eleven finally won out in the big game between the Gold and Blue gridiron warriors that capped the intensive and successful four weeks of Spring football training.

HERE'S ON INTERESTING BIT FROM THE DAILY MISSOULIAN.

"A BATTLE ROYAL FOR THE STATE CHAMPIONSHIP"

"Two middleweights representing the Grizzlies and the Aggies have met in the ring, fighting to a draw. That gives us an idea. What's the use of football and basketball and track and baseball when more direct action is possible.

A gladiatorial combat on Thanksgiving afternoon would draw better than any football game. And, we judge, the contestants could more nearly express their feelings that way."

The esteemed and erudite Missoulian refers to the Twilte-Cochrane fight.

James Payne, a California high school boy, set a new scholastic record for the 220 yard low hurdles when he covered the distance in 24 1-5 seconds.

Montana U. looms up as one of the strong track squads of the Coast conference with a clear win Saturday in a quadrangular meet with W. S. C., Idaho U. and Gonzaga. Sweet and Gillette turned in noteworthy performances.

The Bobcat ball tossers are out in practice every day and although no games have been played as yet it is expected that this year will see a diamond aggregation that will be hard to beat.

Colorado Aggies won the Annual Colorado Relay Carnival held at Boulder, Colo. last Saturday. Wullenstein of Utah heaved the javelin 177 ft. 11 1/2 inches but this falls short of the conference record made by Pilling of the Ute Aggies who tossed the spear two weeks ago in a dual meet for a new record of 183 ft. 6 inches.

A Special dispatch from Missoula says that the Bruin baseball team has the looks of championship calibre—in their conference. The outcome of our own four game series will be waited for with renewed interest. For some of the fans think the Bobcats have a pretty fair ball club.

Semi-final, 100 yd., Thursday, 5:30 p. m.

Semi-final, 220 yd. hurdles, Thursday, 4:42 p. m.

Semi-final, 120 yd. hurdles, Friday, 4:45 p. m.

Semi-final, 220 yd., Friday, 5:30 p. m.

Finals in Intramural Track

Order of events:

2:00 p. m.—1 mile; shot, pole vault.

2:10—100 yard.

2:25—High hurdles.

2:40—440 yard; discus; high jump.

2:50—2 mile.

3:05—220.

3:25—Low hurdles; javelin; broad jump.

3:40—880.

4:00—Relay.

SENIOR GIRLS.

There will be a meeting for all senior girls Tuesday evening at the Pi Phi house to discuss the carrying of parasols by the senior girls. It is important that every senior girl be present in order that a satisfactory decision may be made.

SPORTS CALENDAR

Only one or two men will be sent to the conference meet which will be held May 22 at Boulder, Colo., but a full team will go to the U meet at Missoula. The tracksters are working under the bad handicap of a poor track but should nevertheless score 35 or 40 points against the remarkable University team.

Track Schedule

April 22, 23—Handicap meet Gallatin high school.

May 1—Intramural track and field meet.

May 4—Intramural cross country run.

May 8—Letter men vs. non-letter men.

May 15—Annual cross country run vs. State Normal at Dillon.

May 22—Conference meet at Boulder, Colo.

May 29—State meet vs. State University at Missoula.

Voting is more than a process of signing a slip of paper with a cross.

BLUE FOOTBALL TEAM WIN FROM GOLD 3 TO 0 ON REP WILSON'S PLACE KICK

TRACK SEASON ON IN FULL SWING

Many Varsity Tracksters Out
Working Hard and Several
Fresh Showing Up Well

The track season of 1926 is on in full swing, with many varsity tracksters working out and several fresh candidates showing up with real form.

Despite large handicaps given to Gallatin high school in a meet on April 22 and 23 the college men overwhelmed the scholastics, taking every first and most of the second and third places. Livers was high point man, doing good work in the hurdle events and winning one out of the 220 races. Captain Hodgson, Yedlicka, and Gardner and Decker from the fresh squad turned in noteworthy performances.

Of the varsity men Yedlicka and Hodgson are outstanding with Livers a versatile and seasoned performer. Nelson and Neal promise well in the high jump while Bade seems the best bet in the two mile. Heikkila, a new man, looks like a good man in the javelin and in the distance runs, while Decker, another youngster, looks good in the dashes. Wylie, high point man in the 1925 intra-mural meet, also looks good in the 100 and 220. Bryant and Thompson will be 440 runners with Wylie, Bryant, and Livers showing up well in broad jump. In the pole vault Weydemeyer and Hubbard are "M" men with Hurd looming up as a good man from the Fresh. In the field events Yedlicka, Olsen, and Chamberlain are regular contenders.

Freshmen who will not compete in this year's meets in order that they will not have one year of varsity playing against them are: Gardner, a low hurdler who runs them consistently in 24-3-5, besides pole vaulting around 11 feet; Keyes, a sprinter and a broad jumper who is considered the fastest man in school and who promises well in next year's competition; Penfield, who is running the high sticks in nice form besides tossing the discus, and Gill, who is throwing the javelin.

TENNIS SCHEDULE.

Hours exclusively for college women:

Tuesdays and Thursdays—entire morning.

Wednesdays and Fridays—entire afternoon.

Exclusive for college men:

Monday and Wednesday mornings.

Monday, Tuesday and Thursday afternoons.

All other hours are open to all in order of arrival. Two sets should be the limit of play when others are waiting to get on the courts.

Both Teams Show Good Form.
Gold Team Misses Try at
Place Kick

"Effie" Wilson, center for the Blue team dropped over a pretty 33 yard place kick in Saturday's game to give his team a well earned 3-0 victory over the hard fighting Gold team, as a climax to the successful four weeks of spring football training. Wilson barely missed another that he tried from midfield and the Gold lost their chance to tie the score when Wellington's drop kick from the 35 yard line failed by inches from going over.

Tuesday afternoon as a preliminary to the final game Saturday the veteran Blue squad played the unexperienced Gold squad and swamped them 18 to 0 in two 7 1/2 minute periods. Immediately after the seasoned Gold squad practiced and experimented upon the fledgling Blues, who however surprised their more experienced opponents and held the Golds to a 7 to 6 victory.

Both games were merely practice tilts for the two veteran squads in an attempt to perfect the play for the big game Saturday. However, the scrappy fighting displayed by both Blue squads led many fans to believe that Saturday's game would favor the Blues and their expectations were not wrong.

The game was the outcome of four weeks of intense rivalry between the members of both squads who were eager to win and the contest was played in the manner of midseason football with the tightest kind of playing on both sides and at times afforded the numerous spectators thrill after thrill when opposing players would break through only to be quickly brought to earth. The game was hardfought throughout with neither team giving an inch. The contest brought out the fact that the Blue and Gold team of next year will possess backfield material of proven versatility with men like Gardner, Penfield, Wellington, Wylie, Cashmore, and Keyes, as new men and old standbys like Gregory and Winner to direct operations. In the line several men showed to advantage and at the end of early football camp this coming September it is expected that a line will be developed to equal that of former years.

The Blues seemed to be a bit stronger on offense making seven first downs while holding the Golds to four first downs. At the same time the Blue team completed two passes for 33 yards while the Golds made one pass effective for 3 yards. "Pop" Gregory's Blue warriors led by the redoubtable little Irishman, Grady, at quarter showed that "never say die" spirit while the flashy Gold backfield consisting of the speedy Wylie and Keyes at halves tore around end time after time only to be spilled by the secondary defense of the Blues. Wellington, Gold quarter, runs the punts back in nice style besides doing an especially nice job at the punting game.
