

RECORD ENROLLMENT IN REGISTRAR'S OFFICE

Files Show Thirteen Percent Increase Over Last Year. Entrance Fees Are Increased. Home Ec Department Shows Most Growth

FRESHMEN LEAD Students Are Urged to Fill Out Directory Cards. Many From Other Schools

Registration this year will be the largest ever recorded at Montana State if the rate of increase continues its pace of the past few days reports from the registrar's office indicate. At five o'clock last night there were 1,028 students registered in the colleges of this school. This is an increase of 121 over that of the same period last year, when 909 names were on the books on Monday evening. Early forecasts had predicted at the highest a ten percent increase but the 13 percent increase shown so far is surpassing even the fondest hopes of the college officials. While the largest number are coming from the freshman class there is an added number of upperclassmen transferred from the State University, St. Charles, Gonzaga and other colleges of the northwest. The largest increase in any one department is shown in the school of Home Economics. Next in line come the Agricultural College and the Secretarial department.

Extra Fee Now
"The students' attention is called to the additional \$2.00 fee that is being charged for all late registrations," Registrar W. H. McCall announced last night. This extra fee has a two fold purpose. Primarily it is to help defray the added expense of late registration and last but not least it is an added stimulation to the students to register early. In speaking of the registration the Registrar asks that all students come to the Registrar's office immediately and fill out their directory cards. All students must fill these out if they wish to remain in their classes.

Students wishing to register in any branch of music should see Mr. Kintz at the new music building directly west of the chemistry building, room 204, between the hours of 3:00 and 5:30 p. m.
As soon as possible Glee club and orchestra practice will begin, depending on date of opening of the new music building.
Watch for notice on bulletin board in Montana hall.

MANY PROFS. RETURN TO M. S. C. FACULTY

Five Teachers Regain Teaching Staff After Years Absence From Duty

The beginning of the new school year at Montana State found five faculty members returned to their duties after a year's leave of absence, and one former military officer returned to this school and to the work he handled some years ago.
Frank Cotner, associate professor of botany and bacteriology, has been studying for one year at the University of Michigan, where he finished his work for a Ph. D. degree.
Miss Della Young has been studying at the Colorado State Teachers College, Greeley, Colo. She finished work for her master's degree in commercial education. Miss Young has been instructor in the secretarial science department here.
R. T. Challenger, associate professor of mechanical engineering, has been doing special work with the U. S. bureau of public roads at Toledo, having charge of investigations in heat control of the corn borer.
O. E. Sheppard, assistant professor of chemistry, has been doing developmental work in the synthetic organic chemistry division of the Eastman Kodak Co., Rochester, N. Y. for the past year. He also finished work on (Continued on Page Four)

Miss Julia Powers of English Faculty Visits In Europe

Miss Julia Power, of the English department at Montana State College, has returned from Europe, where she spent a most interesting summer, visiting points of interest and attending the summer term at Cambridge University.
Among the places at which Miss Power visited were: Paris, where she spent one week and those points in England, Ireland, and Scotland, hallowed by history and their literary associations, chiefly, Stratford-on-Avon, the birthplace of Shakespeare, the Lake country of England, which is called the country of Wordsworth; the home of Sir Walter Scott; and Canterbury cathedral.
While in London the instructor attended the plays, "Journey's End" and "The First Mrs. Frazier" with Marie

Corporations Scout Men

Large Companies Now Send Out Special Men to Interview College Graduates

The technique of the growing industry of picking college men is about the same, although there is, for each corporation "scout", a slightly different method of procedure. An example of how it is done may be obtained from W. C. Bowen, personal director of the International Telephone and Telegraph corporation, who, ever since he was graduated from Yale university in 1919, has made his profession the choosing of men for corporation work.
Mr. Bowen has visited Cornell, Yale, Princeton, Lehigh and Case Western Reserve. In each college he visits, hundreds of candidates are introduced to him. It has been his experience that approximately one man in 25 interviewed appeals to him as satisfactory for employment in his particular industry.
"Three characteristics of young college men appeal mainly to big corporations looking for embryonic talent," Bowen declared in an interview. "First, boundless energy; second, ideals and third, an ambition to build a career. The spirit of enthusiasm and optimism they possess is valuable to any business."
"Personality, that all-embracing word for an elusive quality, is the most important point to look for in men I wish to employ. It is, I believe expressed in the clothes a man wears, his general appearance, the shine on his shoes and the shine on his nails, the manner in which he looks at you when conversing with you, the way he smiles and gesticulates."
"What I always try to do is to make the young man I am interviewing feel at home and natural. Nothing hides a man's qualities more than self-consciousness."

Bowen, of course, looks up the college records of the men he likes at first meeting. He doesn't, however, consider it a vital necessity for the man to have all honor grades. The good steady, normal mind is what he is searching for, "backed by a healthy body and propelled by high ideals."

Each year there are a number of representatives of large corporations who visit Montana State College with the idea of finding graduating men to fit positions in their companies.

W. A. A. NOTICE

There will be a meeting of all Women's Athletic Association members at the gym Friday at 5:00 p. m. W. A. A. involves all students of any class who are interested in athletics of any kind, and desire membership in the organization. At this meeting, Erma Monroe, the president, will tell of what purpose W. A. A. is on the campus and the various activities it sponsors. Speeches will be given by all the sport managers, while a big jamboree will be proposed for the purpose of becoming acquainted with the freshmen students.

COLLEGE DELEGATES ATTEND CONVENTION

Representatives of Greek Letter Groups on Hill Go to National Conventions

During the summer the majority of fraternities and sororities held national conventions in various parts of the United States. Mary O'Leary, represented Alpha Omicron Pi at their national convention at Cornell University, Ithaca, New York. There were about 312 in attendance. Two of the founders of Alpha Omicron Pi were present. Elizabeth Heywood Wyman and Stella George Stern Perry. Their national president is Elizabeth Heywood Wyman.
Pi Beta Phi was represented by Martha Flynn at their national convention in Pasadena, Calif. There were around 1,000 present at this convention.
Virginia Mills represented Kappa Delta at the national convention at Biloxi, Mississippi. About 500 were present. Among those present were their first national president, Genevieve Venable Holliday. The national president of Kappa Delta is Gladys Pugh.

Alpha Gamma Delta was represented by Lillian Tubb at Syracuse, New York. Their founders present were: Jenny Smith, Grace Misher Harter, and Georgia Dickover. About 400 were present at their banquet. Alpha Gamma Delta's national president is Belia Martin.

Sigma Chi was represented by Orland Ward at the Sigma Chi national convention at Portland, Oregon. About 500 were present. At this convention there were 12 alumnae from this chapter. Sigma Chi's national president is Percy Thompson.
Bernard Brown represented Sigma Alpha Epsilon at their national convention at Miami, Florida. Their national president is O. K. Quivey.
Kappa Sigma was represented at Los Angeles, Calif., by Herbert Zwiler. There were about 350 active chapter delegates, also many alumnae members attended. Their national president is Mr. Badford.

O'NEILL MAKES ANNOUNCEMENT

First Montana Meeting Will Be Held Soon. Work Started

"Work is started on the 1930 Montanan," said Vera Ann O'Neill, editor of this year's book. "The opening section has been all outlined and is going to the press the last of the week."

In June Miss O'Neill went to St. Paul who did the work for the 1929 engraving and school publications. An engraving contract has been signed with Buckbee Mears company of St. Paul who did the work for the 1929 book.

The opening section is being put on grey paper this year and printed in blue inks. The scenic section is made up of six photographs of Montana scenic points that are hand tinted. These photographs were taken by George Markin who is "photographic editor for the annual."

The covers have been ordered from S. K. Smith company of Chicago who made last year's covers. They will (Continued on Page Two)

SPIESS AWARDED AVIATION PRIZE

Idaho Boy Wins Territorial Award. Fifteen Hundred Students Competed

A scholarship to Gugenheim school of aeronautics, New York university, valued at \$1,000 is the reward won by Paul C. Spiess, Denver, Colo., in the Eaglerock Awards competition sponsored by the Alexander Aircraft company among undergraduate college students throughout the United States.

Spiess submitted four papers on "Height Above Ground, Altimeters." They included calculations and experimental problems resulting from his study of the subject. He was a freshman at the University of Colorado last year and an honor student.

After Spiess has completed his technical education he hopes to find a job which will give him some part in building and designing airplanes. He has already shown marked aptitude for technical subjects as indicated by his grades which were among the highest of those earned by freshman engineering students. Spiess states that by doing his work thoroughly rather than hurriedly, he has found that he could make better grades.

Fifteen hundred college students competed for the Eaglerock Awards. Besides the scholarship, an Eaglerock airplane valued at \$3,500 and 16 flying course valued at \$300 each were given as prizes.

Marked insight into the advantages and problems of air travel won H. R. Beedle of Moscow, Idaho, a student at the University of Idaho, a \$300 flying course recently at the large air school operated by Billings Air Transport, Inc., at Billings, Mont.

Beedle competed in a national aviation essay contest conducted by the Alexander Eaglerock airplane company of Colorado Springs. He was (Continued on Page Two)

EXPONENT STAFF TO MEET SUNDAY

Students Interested In Journalism Invited to Meet at Amigo House October 6

The editorial staff of the Exponent has announced that the first meeting of the year will be held next Sunday at the Amigo house, 201 south Third avenue, at 4 o'clock. All candidates for the staff as well as persons appointed to positions last spring, are urged to be present at the first meeting since it is improbable that another meeting will be held very soon. Plans for the year's business and editorial work will be discussed at the meeting. Efforts are being made to secure one or more persons qualified to speak on newspaper work.

Because there is no school of journalism at Montana State college, the Exponent must be edited entirely by volunteer reporters and staff members. Staff members usually consist of persons having previously shown themselves capable of fulfilling their positions. The editor-in-chief must have served one or more years on the staff.

All persons interested may turn in their names at this meeting. These persons will find assignments posted weekly in the Exponent office in Montana Hall.

The Exponent, as are all student publications on the campus, is under the supervision of the board of publications. The board requires that a satisfactory high standard be maintained.

Debaters Go To Tourney

Convention at Wichita, Kansas. Brewer Has Charge. Many Meets Scheduled

Debate interest this year is likely to center around the biennial Pi Kappa Delta convention and around the debate, oratory, and extemporaneous speaking tournament to be held at the University of Wichita, Kansas, soon after the middle of the school year, according to Professor W. F. Brewer, head of the English department, who becomes the debate coach this year. He succeeds Professor W. C. Stone, who resigned to take up further study. It is hoped that Montana State may send competitor for all three of these contests this year, at Wichita. It has been represented twice in the past in debate only. Two years ago Joe Livers and Henry Gardner, accompanied by Professor Stone went to the convention at Tiffin, Ohio, and made a good showing there.

Another important event will be the meeting of the Rocky Mountain Oratorical conference in Salt Lake City, about April. This year this contest will be in oratory only, but next year it is expected to add extemporaneous speaking to the list of contests with this organization.

For both these gathering it is Professor Brewer's hope that he may be able to date debates or other contests on the road going and coming, to help with the expenses; and to make it possible for a larger number than before to make the trip to these gatherings.

Of contests in Montana, the one with the State University, which this year should take place at Missoula; and the annual freshman-sophomore debate are the ones already arranged for. The latter take place on the college hill some time early in December. A meeting of the freshmen interested in debate will be called in a few days to start preparations for this event.

Grant Leaves For Leland Stanford

Will Teach In Engineering Departments. Intends to Return In Spring. Will Publish Book

Professor E. L. Grant of the Industrial Engineering department has left for Leland Stanford University where he will teach in their engineering department the fall and spring quarters returning to Montana State College to teach the winter quarter. In this way Mr. Grant will be able to handle the registration of all the industrial students for the whole year at Montana State College. During his absence Professor Therkelsen will take care of the Industrial Engineering department. At Leland Stanford Mr. Grant will teach a course in "Statistics in Engineering" and "Theoretical Mechanics" during the fall quarter and in the spring quarter he will teach a course in "Engineering Economics," "Accounting in Engineering," and surveying. During his winter quarter at Montana State he will teach "Factory Management," "Engineering Administration," "Manufacturing Costs," "Engineering Contracts," and will also have charge of the Industrial thesis work. Mr. Grant's new book "Principles of Engineering Economy" will be published in March, 1930 by the Ronald Press Company of New York City. The first half of the book was in mimeograph form will be used this fall. Next year the two sections will be put in book form.

NOTICE

A student senate meet will be held in Dean Hamilton's room at 5:00 o'clock Thursday evening.

NOTICE

A student senate meet at 5:00 o'clock Thursday evening in Dean Hamilton's room.

Dolan Is To Coach Here

Graduate of Physical Education Department Will Instruct in Swimming and Wrestling

Pat Dolan, graduate of M. S. C., will be boxing, wrestling, and swimming coach at the college for the ensuing year.

Dolan's record qualifies him for the position of minor sports coach: three year letterman in wrestling, captain of squad two years, and Western Division champion in the light heavy class last year. He has attended boxing and swimming classes at M. S. C. and the University of Southern California and has received certificates in the Red Cross Life Saving Corps.

Mr. Dolan had a very high scholastic record during his four years in college and has been very popular with the student body and members of the faculty.

FIFTY-FIVE WOMEN ARE PLEDGED TO SORORITIES

Freshmen Women Pledged On Saturday. Chi Omega and Kappa Delta Pledge Fifteen, Alpha Omicron Pi Twelve, Pi Beta Phi and Alpha Gamma Delta Seven

Rhodes To Pick Two Oxford Men

Montana Will Have Representatives. Many Voice Intentions to Try Out. Much Interest

An opportunity for not more than four men from Montana State College to enter the state wide competition for the 1930 Rhodes Scholarship appointment for Montana is announced by Professor W. F. Brewer, faculty representative here for the Rhodes Scholarship foundation. Montana is entitled to two appointments out of every three years, and this year, as last, men from Montana State have a chance. Next year there will be no appointment from Montana. All application must be prepared by the applicants and passed upon by the President of the College and faculty committee he may appoint, and their completed papers put in the hands of the State committee on appointment not later than October 19. Application blanks can be secured from Professor Brewer at his office in the main building at the college. Applicants, on October 1, 1930, must be not less than 19 nor more than 25 years old; and must at least have finished the sophomore year in this or some other recognized college or university.

Some men have already signified their intention of entering the competition, but all who intend to apply should take up the matter at once, says Professor Brewer.

Unusual interest attaches to the competition this year because one of Montana State's candidates last year was the successful one. Matt Pakala, who graduated last year with high honors in engineering, and has been abroad for special study and travel since last spring, is just now entering on his period of residence at Oxford, Montana State's first Rhodes scholar.

Bowden Returns to College Position

Studied at Missoula During Past Year. Has Position With Montana State College

The students and faculty of Montana State College welcome the return of Ray B. Bowden who will resume his activities this year as editor of College Publications and also as chairman of the committee on publications. Mr. Bowden has served on the college publications for many years and his ability and efforts have done their share towards the advancement and growth of the college.

Last year Mr. Bowden secured a leave of absence in order to take advance study in journalism at the University of Montana at Missoula. During this time he also wrote feature articles which appeared in several national magazines.

Mr. Bowden is glad to resume his residence and his position in Bozeman. At present he is gathering data and compiling a list of significant dates and events in the history of Montana State College. He hopes that this work will be completed within a few weeks and the results printed in record form.

Louis G. True, who has served as Mr. Bowden's assistant and who took charge of his office during his absence last year, is attending college this year where he will be a senior.

Mr. Bowden announces the appointment of John McFarland, formerly a professional sign painter from Billings, as the official sign writer for the college. Mr. McFarland is also enrolled as a student at the college. His office will be in the publicity department in the home economics extension building.

NOTICE

There will be a meeting of Alpha Zeta at the Amigo house at 7:30 o'clock on Thursday evening, October 3. Important that every one be present.

Four Hundred and Fifty Men Will Be Instructed In Military Science

The Military department has again taken up the problem of giving about 450 men the fundamentals of a military education. This task will be in the hands of Captain Zeck ably assisted by Captain Jahant, Captain Butler, Sergeant Ellisworth and student officers, Bernard Brown and Hart Rutledge, according to Captain Zeck of that department.

This department has been growing in the last few years and shares an

PERCENTAGE SMALL

Official Rushing Closed on Friday. Silence Period Saturday

Fifty-five women were pledged to the five national sororities on the campus Saturday, September 28. After a week of extensive activities, including parties both formal and informal, sorority rush week came to a close. The closing of the official rushing season on Friday night was marked by a period of silence lasting until three o'clock on Saturday afternoon. During this silence period no sorority girl was permitted to converse with a rushee.

Between the hours of 3 and 6 on Saturday, the five houses pledged the following girls:

Kappa Delta pledged 15: Virginia and Opal Rector, from Moccasin; Lenora Carls and Thelma Oswald, Hamilton; Dorothy Woodward, Virginia Speck and Edna Ahl of Whitehall; Dorothy Richards, Mary Lawney and Clara Roat of Butte; Cara Edwards of Coalstrip; Ruth Nelson of Belfry; Grace Cresap, Lewistown; Lois Smith of Sweet Grass and Irene Jensen of Bozeman.

Chi Omega pledged the following 15 girls: Marian Erickson of Great Falls; Marienita Murphy and Harriet Lewis of Butte; Fay Collins and Betsy Jackson, Anaconda; Helen Huffine, Doris Purdum and Margaret Crowley of Bozeman; Beatrice Nelson of Helena; Margaret Lord of Yellowstone Park; Shirley Brown of Deer Lodge; Margaret Anderson of Belfry; Ruth Lowe of Glendive; Betty Mathews of Moore and Theresa O'Donnell of Billings.

Alpha Omicron Pi pledged 12: Virginia Warner, Pauline Wirak, Elizabeth Graham, Margaret Winters, Edith Johnson, Eleanor Rice, Pearl Haley of Bozeman; Loraine Thompson of Tiedford, Nebraska and Florence Tolson, Sheridan, Wyoming.

Alpha Gamma Delta pledged seven: Lucille Westover, Billings; Marcella Rowson, Miles City; Genevieve Koster and Mildred Jackson of Livingston; Frances Peterson, Three Forks; Opal Johnson, Great Falls and Margaret Clark of Havre.

Pi Beta Phi pledged seven: Alice Gardner and Regina Danich, Anaconda; Elsa Hendrickson and Lucille Wright of Billings; Constance Holm, Edith Waterman and Muriel Eaton of Bozeman.

FRATERNITY COUNCIL DISCUSSES RUSHING

Interfraternity Group Meets For First Time During Present Quarter

The first meeting of the interfraternity council was held last Wednesday in Dean Hamilton's room. The council is a group of men consisting of two from each fraternity on the campus. The purpose of the group is to govern the action of the fraternities so far as they concern each other. It acts as an executive body over the fraternities and has drawn laws concerning all rushing, initiations, and grades of the different houses. It also fixes the penalties for any infractions of the rules.

At the meeting of the council last week rushing rules were discussed and a clearer understanding of the rules arrived at. Several of the present rules were changed and a few new ones enacted. After a short business discussion the meeting was closed.

TRADITIONS

All frosh men must wear their green caps, and frosh women their green tams the first four weeks of the Fall Quarter and the last six weeks of the Spring Quarter beginning with the first week in May.
Freshman shall not enter Montana Hall through the front door until the underclass contests on October 5th.
All freshman are expected to respond to the calls of athletic managers for help when necessary.
Freshmen are not allowed to sit on the Jack o'Lantern bench.
There shall be no cutting of the campus.
Freshman must gather all the wood for the rally fires.
Freshmen are not allowed "dates" previous to the painting of the "M", and no "fussing" on the campus is allowed.
October 12th is set aside as a holiday for the purpose of painting the "M" and the annual frosh picnic in Bridger Canyon.
No High School letters are to be worn on the campus.
All Freshmen failing to abide by these traditions will be duly punished by the Fangs or the Spurs.

In a few hours this nerve racking rushing will be over. No doubt every one will be glad that the days of strenuous effort and little sleep have come to an end.
Even so, the system of rushing employed on our campus has its advantages. In addition to bringing us out of the rut for a while it provides an excellent opportunity for us to become acquainted with our freshmen. Surely no other event in our lives offers a greater opportunity for us to perfect ourselves in meeting and entertaining people.

All right gang lets go — nine for the team. This year we have probably the best athletic teams in history. They are out for victory in every game. The team has the ability and the proper morale, making them pretty hard to down. Only half of the fight rests with the eleven men on the field, however, the other half rests with the students on the sidelines.
Why not every one see every game and furnish the team lots of spirit.
All right gang lets go—Nine for the team.

The Exponent suggests that a rule of "keep to the right" be kept in mind by students when passing from one building to another.

O'NEILL MAKES ANNOUNCEMENT

(Continued from Page One)

arry out the scenic theme and the reyn color scheme.
Mr. John Dexter of the publicity department has been appoint Montana advisor by President Atkinson.
Staff appointments will be announced at the Montanan banquet the middle of the month. Persons interested in the editorial staff should see era Ann O'Neil this week, put in their applications and try out.
Staff members will be chosen on the grounds of experience interest and number of ideas they have to offer.
Those interested in the business staff should see Joe Delaney, business manager, or Horace Bolster, advertising manager.
Applications for positions must be ut in direct to the heads of the departments one is interested in. Unexperienced persons have a chance as assistants. The editor will appoint ly the heads of the departments ad they in turn will choose the assistants they feel necessary.
"The annual belongs to the college", did Miss O'Neil. "We want all the regstions possible. We hope that yerson from the freshmen to the culty will feel free to give the staff inters. The staff is merely a maine working for the college and ce all machines it needs starting and aybe stopping."
Work on photographs will start as

soon as everyone gets settled a little. "Seniors do you want your pictures taken in formals this year?" In this paper is a ballot, fill it out and drop it in the Montanan box in Montana hall.
"Each year the book is short on snap shots", said Mr. Markin. "This year we want to start early and every one is going to help us. Each fraternity and sorority will please turn into us 50 snap shots by the 15th of November. The first groups fulfilling this requirement will have their names published".

SPIESS AWARDED AVIATION PRIZE

(Continued from Page One)

awarded the flying course by the Billings school, one of the largest in the Rocky Mountain region, as terical prize in the national competition for an Eaglerock airplane and \$1000 aeronautics scholarship.
The Billings school is an Eaglerock distributor and caters especially to college students.
A keen comprehension of developments in commercial aviation was revealed by Beedle in the four papers he submitted. Fifteen hundred American college students entered the national contest.

When the June bride, along in July, quits baking hubby hot biscuits and falls back on rye bread and cold boiled ham, the honeymoon may be said to be on the wane.

SMATTERING FROM HERE AND THERE IN OUR MIDST

It is with a tear of joy in our eye that we write this—our first edition of the colyum this year. Frankly, though, we think the tear is from realization of the fact that we are getting OLD, and that all too soon will we leave behind these dear old ivy-covered walls, and the bell in old Main Hall that always rang out when another victory was won for our Alma Mater.

So the boys elected Ned Rover as captain, and with three rousing cheers bore him off across the campus.

It certainly seems good to get back to school for a vacation, after such a strenuous summer. After about one week of classes we ought to be about all caught up on our sleep.

No, that isn't grass you see. It's just the new crop of Frosh.

Following a quaint old custom of the instytotoon, we want to do our share in welcoming you to M. S. C. Let us assure you that you are as welcome on this campus as the third crop of green alfalfa is to a short-seasoned farmer.

If you are desirous of helping to pay your way through school, commercialize on all your confessions to the Dean by sending them to Bernarr McFadden.

Business has certainly been "rushing" the past week.

The S. A. E.'s are up to their old tricks again—for example, the serenade they had a very few nights ago. Rosy held the crowd spellbound with his tap dancing—yeh, everyone was afraid he'd fall off the truck.

Fat Semingsen tells us that all the tape over his eye is the result of repairs necessary after the Centerville game. And we though he was one of these big masterful men. Evidently the ice business didn't go so good this summer.

We wonder how we're going to get along this year without Ott Gardner to pick on.

But then we HEAR Elmer Menser is attending school, so perhaps he will offer some compensation.

According to the Denver Post DeFrate and Wylie are married men—why Libo, and you never told us.

Warning, Frosh men—shave off the moustaches before the Fangs obligingly dry-shave one side for you. They also dislike the last year's green caps—it seems that only this year's are acceptable.

And if you don't believe it, just unintentionally run into Greiner—the great Duke of the Fangs.

College rushing is nothing unusual after all—even bums rush.

Did you hear about the Frosh who thinks a cannibal is tinned beef?

Say, frosh, don't worry about that incomplete coat of sun-tan—the Fangs will furnish the missing links.

FOUR HUNDRED AND FIFTY MEN WILL BE INSTRUCTED IN MILITARY SCIENCE

(Continued from Page One)

president of the Associated Students, and Hart Rutledge. These two men have been given an opportunity to work for positions of First Lieutenants in the regular army by taking charge of the drills on the field.

Captain Jahant will have charge of all the personnel work of the department and will also take care of all the paper work connected with the unit. Addition to this he will have charge of instructing all those who

wish to become student officers. The supervision of the instruction of the theoretical work for freshment and seniors will be in the hands of Captain Butler. The interesting study connected with the automatic rifle will be supervised by Sergeant Ellisworth who has had considerable experience in this work. Captain Zeck will be in charge of the advanced class in military science which will be composed mostly of juniors.

About the middle of November those showing ability as marksmen will be given a chance to work for a place on the rifle team. This work is in the hands of Captain Butler, assisted as may be the need.

Autumn of '79

WHILE Yale and Princeton were battling to a tie at Hoboken, New Jersey, a small group of scientists, directed by Thomas A. Edison, was busy at Menlo Park, only a few miles away. On October 21, their work resulted in the first practical incandescent lamp.

Few realized what fifty years would mean to both electric lighting and football. The handful who watched Yale and Princeton then has grown to tens of thousands to-day. And the lamp that glowed for forty hours in Edison's little laboratory made possible to-day's billions of candle power of electric light. In honor of the pioneer achievement, and of lighting progress, the nation this year observes Light's Golden Jubilee.

Much of this progress in lighting has been the achievement of college-trained men employed by General Electric.

Society NOTES

A series of afternoon and evening parties has characterized last week's social program. Both sororities and fraternities have been busy with rushing and excitement ran high during the week. The parties of the last week have shown a tendency to great variety. Some of them have been most formal while others have been decidedly informal, picnics in the open and informal functions at homes were among the latter.

Dinner engagements at the various houses have done much to fill the social calendar of last week. Many alumni have been returning as visitors during rush week.

Amigo

Among the Amigo visitors were: Herb Lynn of Belgrade, and George Pelton of Billings. Bert Kane visited the Amigo house enroute from Helena to Billings where he will be employed as a bench chemist in the Billings sugar beet plant.

Sigma Alpha Epsilon

Dick Kelley was a visitor at the S. A. E. house, as was George Nilson, Mike Reynolds, and Hugh McIver during the past week.

Beta Epsilon

Chuck Griffin of Glendive, has spent the past week at the Beta Epsilon house.

Kappa Delta

House guests during the week at the Kappa Delta house were Vera

Ann A'Neil, Alice Taylor, Alice Smith, Helen Allen, Irene Leach and Arlene Crane.

Wilda May O'Neil who attended M. S. C. during her junior year was a caller at the Kappa Delta house last Sunday. She is teaching English and History at Willow Creek this year.

Dr. and Mrs. J. T. Bradbury of Willow Creek called on their daughter, Helen, at the Kappa Delta house last week.

Mr. and Mrs. J. C. Norris of Helena drove their daughter, Bernice, over to College and were callers at the Kappa Delta house the first of the week.

Ruth Dudley returned the latter part of the week from a visit to California. Her mother, Mrs. L. D. Dudley, drove her over from Virginia City.

The Kappa Delta's entertained at a waffle supper Sunday at 5 o'clock, in honor of their new pledges. Other guests besides the new pledges were: Mrs. Anconey, Mrs. Bunker, Mrs. Fielding who are Kappa Delta's patroness. Lillian Stone, Ruth Woodward and Margaret Gallagher, who are alumnae. After supper the girls sang sorority songs.

Alpha Omicron Pi

Miss Mary L. Baldwin of Butte, was a week end guest of her sister, Emma, at the Alpha Omicron Pi house. Miss Baldwin is soon to be married to Perry Gage of Los Angeles. Miss Mary O'Leary and Mrs. Dean Hausmann entertained at the home of Mrs. Hausmann Saturday evening with a handkerchief shower.

Miss Elizabeth Pope has returned from a week's visit to Boulder, Colorado. Miss Pope was sent as a delegate to the Alpha Chi chapter of Alpha Omicron Pi to help that chapter with their fall rushing. One delegate from the nearby chapters had the honor of being selected by a committee at the national convention of Alpha Omicron Pi in July. Miss Pope was Alpha Phi's delegate and reports a lovely time.

Alpha Gamma Delta

Delta Gamma of Alpha Gamma Delta announces the marriage of Rosalia Lehnkind, a graduate of '29, to John Morrison, a member of the faculty of Montana State; Twanette Cherry of '32, to Robert Blair; Kappa Sigma; Grace Williamson of '32, to Ray Chappin, Alpha Gamma Rho;

Wilma Westlake of '29, to John Thompson; Lola Hayes of '26 to Jimmie Ferkin, Beta Epsilon; Doris Nelson of '28, and a member of the faculty of '29 to Sam Thompson, also a member of the faculty; Keturah Tibbles of '25, to Ashley Heron. Mary McCoy of '29, to Raymond Whetstone, Omega Beta; Lillian Kindsch of '26, to Verne Marsh, and Mable Hinds of '29, to Jesse Helm, Alpha Gamma Rho.

Twanette Blair visited the Adlpha Delta's Saturday enroute to California.

Doris Thompson arrived last Wednesday from Boston, Mass.

Pi Beta Phi

Miss Alice Elise Hopkins, ex-'30, of Livingston, visited at the Pi Beta Phi house over the week end.

Vandals Beat Bobcat Team

Saturday, September 28, Coach Dyche took his Bobcats to Moscow, Idaho, where the powerful Vandal team of Idaho University succeeded in defeating them by the score of 39-6.

The Vandals having a heavier and superior line were able to score consistently on straight foot-ball and again and again the Idaho machine marched down the field for scores. Within a few minutes after the opening whistle Peterson scored the first touchdown after carrying the ball half the length of the field.

Coach Catland used five quarterbacks during the contest and to them fell practically all the ball toting. The first four of these signal callers did all of the scoring with the exception of one touchdown scored by Captain Diehl.

The Bobcats were forced to use an aerial attack and through they were quite successful with it they were unable to gain consistently through the Idaho defense.

The Bobcat score came near the end of the game when they pulled a sensational double pass that ended in De Frate receiving the ball and racing 50 yards for the touchdown.

The weather was cold and rainy during the first part of the game but later the sun came out and a perfect football day resulted. About 1,000 spectators were on hand to cheer the college athletes.

The gridgraph was in operation at the College gym and a good many M. S. C. students and Bozeman townspeople were on hand to see the reproduction of the game.

Idaho	Pos.	M. S. C.
Price	LE	Worthington
Bessler	LT	Semingsen
Corkery	LG	Bauer
Kirkpatrick	C	Preston
Martin	RG	Gill
Diehl	RT	Renn
Dittman	RE	Long
Pederson	QB	Richards
Kershnick	LH	DeFrate
Hult	RH	Wylie

Score by periods:
Idaho 13 13 6 7-39
M. S. C. 0 0 0 6-6
Idaho scoring: Touchdowns: Ped-

erson 2; Owens, Barrett, Duff, Diehl. Points from try after touchdown—Diehl 3.

Montana scoring: touchdown—De Frate.

Officials: Varnell, Seattle, referee; Williams, Portland, umpire; Gale, Moscow, head linesman.

ADAMS CONTINUES AT M. S. C.

Last year was Bob Adam's first with Montana State. Though no luck followed him and his Kitten squad throughout the year, track season proved him to be very valuable as a track coach. His track squad won the dual meet with Idaho, showed well with the University and performed well in the conference meet at Salt Lake City.

Coach Adams is a graduate of Knox College where he was a center on the football team for three years, and captained the squad in his final year. Bob was also a basketball player and a track man. After graduating, Adams coached in several high schools and later came to Havre where he turned out some excellent football teams that made the rest of the teams from their district play hard to down. Coach Adams is a man of ability and stimulates interest in his teams.

Coach Adams began last year with a new system for training his track squad having begun their work on the subark during the winter quarter with the result that the squad was well along toward their peak of training when they were able to get out on the cinder track.

BOBKITTENS WIN FROM RESERVES

Last Saturday afternoon before the Gridgraph of the Bobcat-Idaho game the new Frosh squad made its first appearance on the field against the varsity reserves. The Bob Kittens defeated the reserves 12-0 and though the game was rough and ragged in spots the Frosh squad showed promise of being one of the strongest Bob Kittens teams that M. S. C. has produced in years.

The yearling crew is fast and shifty and unusually heavy this year and they seemed to outplay the reserves throughout the game. Although several fumbles evidenced lack of practice on the whole good football ability marked most of their plays.

In the backfield Peppin and Stimps in spite of the fact that they are small and light loomed up as stars of the game. Both of these midgets backs raced through the varsity line for long gains time after time. On the line some of the outstanding Frosh were Ball, Mentzer, Dyer, and O'Brien. On the Varsity Reserves Twilde was by far the most consistent ground gainer.

The weather Saturday was cold and cloudy but notwithstanding the fact quite a large crowd of enthusiastic rooters were on hand to witness the scrimmage.

Conference Teams Unusually Strong

Much Competition for Championship Expected. Many New Men in Lineups

The teams in the Rocky Mountain conference this year seem to be far stronger than those of last year. There will be a great deal more competition for the conference championship this year than there was last year. The past year saw two teams distinctly outstanding in the conference, but this year it seems that there will be a great battle before the victor is chosen. The title was taken by the Utah Redshirts last year and they seem in line to give the rest of the conference quite a battle for the laurels again this year. They have practically all of their last year's team back and all of them are going at top speed. The backfield is strong and shifty and their line is heavy and well coached. They will be a formidable foe for any of the conference teams that they meet this year. The Utah Aggies are far stronger this year than they have been for some time and they are looked at with a great deal of respect by the other members of the conference. B. Y. U. is somewhat of the same calibre as their last year's team but will have to make several finds in new men before they will be considered as serious contenders.

In the Eastern half of the conference comes the biggest threat for the Redshirts. The teams of the Eastern half are all strong this year and will no doubt cause a great number of upsets in the dope sheet. Colorado College has another strong combination that will put the rest of the teams to a severe test for honors. Their team is considered to be as good as their last year's team that gave a great deal of opposition to their opponents. This year's team is even a more serious threat than heretofore. Colorado U. has another title contender. They are far stronger than they have been for several years and have made a great number of changes in their lineup. There will be many new faces in the lineup when the opening whistle blows. Denver U. has a team that may come through to upset the dope at any time and they should not be slighted when it comes to considering possible spilling of the dope bucket.

A conference champion for the season would be rather hard to pick this early in the season, but it seems to lie between The Redshirts, Utah Aggies, Colorado College, Colorado U., and possibly the Aggies.

FRATS RESUME ATHLETIC TILTS

The present system of intramural athletics was established by Ott Romney in 1922 as a branch of the physical education department.

The purpose of intramural are to afford an opportunity for all students to participate in healthful recreation and to share joy and developments of competitive athletics. They are also founded to improve spirit and harmony between social groups and to inspire proper ideals of fair play and sportsmanship.

The program is under the management of one senior student with a junior student as his assistant. These men work in coordination with Mr. Ellis, who is the director of the intramural schedule.

Each organization elects one athletic representative who will act as a member of the advisory board. These men draw up all the schedules, rules,

and procedure which insures the necessary cooperation needed in this program.

In order that the department keep to its motto, "every man in athletics," an individual may participate in but one sport each quarter. This ruling does not include golf or baseball.

Intramural winners for 1928-29 were: Handball—J. Sonntag, Amigo; Basketball (A)—Alpha Gamma Rho; Basketball (B)—Sigma Chi; Swimming—Kappa Sigma; Cross country—Ralph Andes, Delta Tau; Track—Sigma Chi; Basketball—Omega Beta; Volley Ball—Sigma Chi; Golf—Lizzy Lee.

The Intramural program is as follows:

Fall Quarter—Golf, individual championship; Handball, individual championship; Volley Ball, fraternity championship; Cross country, fraternity and individual championship.

Winter Quarter—Gold League Basketball, fraternity championship; Blue League Basketball, fraternity championship; Swimming, fraternity championship.

Spring Quarter—Baseball, fraternity championship; Track, fraternity championship; Wrestling, fraternity championship; Golf, individual championship.

MANY PROFS RETURN TO M. S. C. FACULTY

(Continued from Page One) requirements for his Ph. D. degree at the U. of Chicago.

Capt. George Jahant, who was assigned to duty with the college military department here from 1922 to 1926, is back after four years absence. Capt. Jahant spent a year at Ft. Benning, Ga., graduating from the infantry school, and then was transferred to Ft. George Wright, Spokane, until ordered back to Bozeman.

R. B. Bowden, college publications editor, studied journalism at Montana State University last year.

Old Gold tobaccos are *naturally good*
..they do not require "artificial treatment"

When meat or fish or fowl has to be *made good* by artificial flavoring or sauces, let your stomach beware! Beware, also, of tobaccos that have to rely on "artificial treatment."

OLD GOLD tobaccos are naturally good; made honey-smooth and free of "throat scratch" by Mother Nature herself. By the "violet

rays" of natural sunshine... not by *artificial treatment*.

More than three million smokers have changed to this smoother and better cigarette. No other cigarette ever won so great a fan-family in so short a space of time. Try a package... and you'll know why.
