Montana Exponent

VOLUME XXXJ | BOZEMAN, MONTANA, FRIDAY, APRIL 26, 1940 | NUMBER 24

1410 H. S. W. Visitors Register

President

To visiting high school students:

This week the campus of Montana State College belongs to you. We hope you will make the most enjoyable and profitable use of it. We are interested in you, for you are that out of which we are made; the stuff that gives us our life, our growth, and our reason for being. The pioneers who set up a system of higher education in Montana could not have realized forty-seven years ago how important their action would be to the present generation. Nothing could be clearer now than that the modern pioneer is the man or woman who can create new wealth by bringing the materials and forces of nature into more advantageous use, who can make it possible for us to possess the things we want without taking them from someone else. Through science and its application in engineering, in agriculture, and in the home, there lies the best if not the only hope of a progressive growth in our civilization. You are the young people who, with proper training and discipline, mostly self-discipline, can carry on to even greater accomplishments. Montana State College is one of the institutions which can offer you a chance to have a part in such a program. During open house, look over the departments in which you have a natural interest; make full use of the time which is offered for conferences with the faculty, pester them with questions you may have in mind, and make the fullest possible use of the entire institution. And also—have a good time.

Ab Strand

H. S. W. Speaker

Laurence Gould Tells Of Antarctic Experiences

Stranded on the frozen wastes of the antarctic 135 miles from the main base of Little America, was only one of the many thrilling adventures which Dr. Laurence M. Gould experienced as a member of the first Byrd antarctic expedition and about which he told high school students when he addressed them at the annual High School Week held at Montana State College Thursday through Saturday.

Dr. Gould, now a professor of geology at Carleton college, Northfield, Minn., was second in command and senior scientist with the first Byrd the expedition that Dr. Gould flew with Bernt Balchen and Harold June expedition to the south polar regions. It was during the first summer of

High School Week Festivities

High School Week - - - is a kaleidoscope of activities for three days from morning until late in the evening. Ranging from open house displays and nationally known lecturers to barbeques and folk dancing, High School Week is planned to give the visitors an opportunity to see Montana State College.

Interesting Open House Exhibits Prove Instructional To Visitors; All Students Urged To See Them

One thousand four hundred students and faculty started yesterday morning to visit the many open house features which are on the campus now . This visitation by all students, high school and college alike will last until 11 p. m. The open house program has as its aim, to acquaint all students with the departments on the campus and to make it easier for those planning to attend Montana State College to select their chosen field inasmuch as they will be able to actually see in an hour or two what it would take a person several hours to tell.

Yesterday afternoon at 1:10 and lasting until 4:00 p. m. the visiting students and faculty members were given a chance to see all the displays in the division of Agriculutre and Science. In the Agricultural department were displays of: The department of vocational agriculture which pictured the work and activities of the vocational agriculutral teacher on the job; the agronomy department which displayed in outline form the four year course in agronomy and jobs obtained by graduates in the course; the animal husbandry department which had as its display a meat exhibit, a wool exhibit an embryo exhibit and a few specimens from the veterinary department; the dairy industry department showed new methods in sanitary equipment for the processing of market milk, ice cream, butter and cheese and a sanitary exhibition of the actual production of milk in the dairy barns; the horticultural department which displayed varieties of flowers and trees and samples or landscaping; the agricultural engineering department which showed exhibits of rural electrification and irrigation and the economics department which had the talking picture "The River" which showed a fascinating example of soil erosion and its problem.

In the Division of Science were displayed: the botany department with the botanist at work studying nature; the nursing department with the practices of a modern nurse; the zoology department with its real heart busy pumping away, hte entomology department exhibited a survey in the entire field of entomology with models depicting insect control and possibilities of employment after graduation in this course; the pre-medical department which showed the work of a pre-medic student; the chemistry department where writing was done with magic ink and water made from something that actually burned. To say nothing of the many explosions that occurred as students walked through the labs; the military de-

(Continued on Page Two)

Shakespearean Winners Announced

Yesterday morning saw one of the first major events of High School week when the finals of the Shakespearean contest were held in the Little Theater. Nine contestents were selected from twenty in the qualifying preliminaries Wednesday night to take part. The finalists were Art Aune, Helen Crosner, Ruth Dawson, Patricia Gray, William Learmonth, Rose Sanz, Harvey Scott, Marion Stover, and Mary Ann Walterskirchen. The winner will be announced tomorow at the award assembly, according to Mrs. Beatrice Davis who, with Mr. Herring, was in charge of the contest.

The Shakespearean contest was transferred last year to the Division of Scholarship contests and this year is added to the list of required copetitions in the Major English Event also. Entries were also accepted from nonentrants in the Major English Event.

Contestents were permitted to choose their own selections, any continuous passage from a Shakespearean play with a minimum length of 50 lines and a maximum length of 100 lines being acceptable. The selections had to be delivered without the use of the next. No separate prize is being offered for this event, but the winner of the Major English Event will receive a $100.00 scholarship to Montana State college.

Housing - Registration Taken Care Of As Annual High School Week Begins

All-time registration records for High School Week were shattered yesterday as 1,410 high school students thronged the campus of Montana State College to devote three days to the educational, entertainment and competitive activities presented for them by the students and faculty of the college.

Approximately 250 students had entered the doors of the registration room by noon Wednesday with the main influx of enthusiastic students taking place Wednesday evening and night.

All students have been housed in residences throughout Bozeman and are now very busy in carrying on their various duties and seeing as much as can be seen in all the departments in three days. This promises to be the best High School Week in the history of the college. As Mr. Good general chairman, said Wednesday, "the zero hour is here and everything is going swell."

The entire staff on the registering committee has been working steadily in an effort to occomodate the entire student body. Spurs and Fangs assisted those persons by acting as guides and ushers in showing the students to the place of residence during their stay in Bozeman.

Faculty Chairman

Professor M. R. Good, has complete charge of High School Week and is responsible, in a large part, for its success.

All-Star Cast Of Collegians Ready For Vaudeville

An all-star cast of Montana State college entertainers will take to the footlights to present the annual High School Week vaudeville tonight. The varsity show is under the direction of Fred Orton and Lou Howard, and will be open to college students, who will be charged a nominal admission of 15 cents.

A tentative list of the acts includes: tap dancing by Marjorie Hunter; a vocal trio with Babe Chaffin, Anne Purdy, and Margaret Cline; an instrumental duet by John Medlin with the piano accordion and Clarence Lindstrom with the banjo; acrobatic dancing by Anna Lee Cosens; imitations by Barry Braunberger; and vocal solos by Bill Cowles and Aleas Robertson.

As a finale a burlesque on grand opera is being prepared under the special direction of Mrs. Zada Sales Dickson and includes Peggy Howard, Jean Haines, Marlyn Stone, Don McKee, and Jim Dickson.

Music will be provided for the vaudeville and during the banquet by a swing band directed by Mel Jackson.

Fred Orton, student chairman of the High School Week committee on entertainment, and master of ceremonies for the show, is assisted by Peggy Roman, Jean Duncan, Ray Lakey, Hank Hibbard, Mickey Thieme, and Blondie Brandon.

The vaudeville will take place in the gymnasium and will begin immediately after the barbecue banquet, probably around 6 o'clock.

Scholarship Awards Will Be Broadcast Over KRBM Saturday

According to Miss Leora Hapner, announcements of the scholarship awards will be broadcast Saturday morning from 9:40 to 10:55 o'clock. This broadcast will come over three Montana stations, Butte, Bozeman, and Helena.

During this program, approximately 150 awards will be announced by Miss Hapner and Mr. Palmer. If there is any time, a few of the major contestants will be asked to speak a few words into the mircophone.

The winners will be arranged behind the curtain of the gymnasium by Ray Lakey who will direct them to the stage where they will be given their awards by Vivian Cowan and Roger Barto. The winning contestants will then be seated in a special section and will be photographed at the end of the program.

Welcomes Students

Frank Strong - - - lead one of the most active student senates ever elected to office in a series of progressive constructions on the campus.

Speaking in behalf of the student body of Montana State College I would like to extend this welcome to you. Perhaps at the first glance everything may seem to be in a chaotic condition but by looking around a bit you will soon find out that most displays and features are run off to precision and you will be able to see everything we have to offer in your three day stay here. You have undoubtedly seen much already but there is still a good deal to take in and many open houses to visit. Don't make the mistake of missing anything — not even what Bozeman has to offer in the line of a good time. We have opened the campus to you. Use it and enjoy your visit.

Enjoy Yourself

With all the welcomes already in this issue and with all you visiting students and faculty members have listened to, perhaps you will not be interested in hearing or reading another. Regardless of that the Exponent staff would also like to welcome you and hope that all you have enjoyed yourselves both educationally and otherwise. As you have been told "the campus is yours, make the best of your visit and don't be afraid to ask questions."

According to the clock, High School Week is just half over but ignore the clock for the fun is not half over. Neither is the educational aspect nearly finished for tonight is another series of open house visits to say nothing of the "Star Cast" presentation of the annual vaudeville. Tomorrow afternoon is the spur sunlight dance at which place you will have a better opportunity to meet some of us and become better acquainted with each other.

However, the fact still remains, that tomorrow or Sunday many and undoubtedly all of you, will be journeying homeward. When you leave remember that we have tried to show you what Montana State College is and what it has to offer as well as entertain you in the best possible way. We hope that we have succeeded in doing both. Some of you will undoubtedly come back next fall, others will stay home and still others may go elsewhere to continue your "work of learning." Regardless of where you go or what you do, we hope that we have instilled in your minds the value and importance of continuing on the road to higher learning and no matter in which direction you go, we hope that all of you will follow this road to some institution for higher education.

Are Universities a Failure?

(By Associated Collegiate Press)

Colleges attached to large universities are failing almost completely to give their students a liberal education Mortimer J. Adler, professor at the University of Chicago, told a meeting of the Student Council's Committee on Liberal Education at Harvard University recently.

Adler did not except Chicago from his radical criticism of the university-college system, and stated that almost everything for which Chicago is famous, including the survey course system, was an educational failure.

His attack on the present set-up hit mainly the narrow and unreal division of subjects into departments, the bad effects of close relations between the post-graduate and undergraduate sections on the liberal arts college, and the "research" criterion for academic promotion. The necessity of early and frequent scholarly publication was making the supposed teacher a mere specialist he said.

Claiming that students who finish the "introductory general" courses at Chicago have at best a "superficial indoctrination" courses' contents, Adler remarked that the five courses advocated by the Student Council to give a "common content" to education at Harvard would turn into reading courses, similar to the St. John's "great books" plan, if the ideals back of them were logically followed out. He sees the departmental system as the the chief obstacle to their success.

Adler and Chicago's President Robert M. Hutchins both believe strongly in the St. John's plan of liberal arts college education. This provides for training in the complicated arts of reading and writing by a chonological study of the so-called "100 great books" of the Western world, with laboratory and tutorial work but almost no lectures. However, both Adler and Hutchins believe that not more than 60 of these books can be read in their meaning of the word read, in a four-year course of study.

Alumni Office Plays Cupid

(By Associated Collegiate Press)

Last June a dapper young University of Wisconsin alumnus of the class of 1934, back on the campus for class reunions, walked into the alumni records office to inquire as to the present whereabouts of a certain former classmate. She—yes, it was a member of the opposite sex in whom he was interested—had been a pretty nice girl on the campus and he had dated her several times.

Did the office know where she was living? Had she married? The office did and gave him all the vital information. She was not married, it so happened, and was living in a city not too distant from our hero's home.

Not long ago the records office received a notice of the forthcoming marriage of the pair with due thanks ofr the "cooperation" in bringing about the match.

Bobcat Banter

SPRING FEVER

Dedicated respectfully and hopefully to D. J. Pletch of the puntymology department.

Transcribed Health Dramas:

Observation from the physics department: "Stone walls do not a prison make."

Ditto from the commercial geography class: "Australia is awfully Fuller Brush men."

. . . . and are you one of those people who yell just for the echo it?

Do you know that when someone asks Little Audrey why she always wears red in the evening, she just laughs and laughs because she knows that then's the "Starlit Hour."

. . . . . and there's the hoot owl who wouldn't bust safes with the rest of the mob for fear they'd call him a wise cracker.

Montana State College Band

Lou Howard's Latest - - - is the 1940 M. S. C. Concert Band. Under the able directorship of Lou Howard, the Band has given numerous concerts before the College and throughout the state. It is but one unit of the three different bands on the campus. The others being: the R. O. T. C. Band and the Bobcat Band.

Open House

partment with its latest development in arms and equipment, and the bacteriology department which depicted the "family traits of bacteria."

Tonight from 7:30 to 11:00 p. m. all students will visit the displays of the Division of Household and Industrial Arts as well as the Engineering department. In the Art department will be seen students at work on a variety of art activities, an exhibit of some of the courses and Delta Phi Delta, the national art fraternity, will present a short humorous skit.

In the Secretarial department will be seen some of the latest types of business machines in action. While in the Home Economics department will be seen exhibits showing clothing tests and modelling of clothes by campus co-eds. The food department will show various methods of food arrangements and vitamin experiments which will show the actual value of adequately balanced meals.

On the far corner of the campus will be visited the display of the engineering division; the architectural department will exhibit building materials and demonstrate the things a student learns in preparing for professional work in building design; the civil engineering department will display all types of surveying equipment including a transit with solar attachment for observation on the sun. Also will be displayed models of bridges, roof trusses and maps constructed by students in that course; the chemical engineering department will display filtration, absorption, drying, distillation, crunching, and grinding and the operation of a gass fired furnace in which glass will be made. The electrical department will show some most spectacular and interesting events including a stage show and frying eggs on ice; engineering-physics will have demonstrations of polarized light as well as others; the mechanical department will show students at work and safety driving tests of machinery and the industrial engineers will show the necessary management to operate a business concern.

This will end the open house program and will have adequately shown the students what Montana State College has to offer.

Vange Presides At Initial Assembly

The first assembly for high school students was held yesterday in the gymnasium with Howard Vange, men's chairman of High School week, presiding. Songs We Like to Sing, led by Lou Howard included "Stand Up and Cheer", "There's A Long, Long Trail A Winding", and "There's a Tavern in the Town".

President A. L. Strand's welcome to the thousands of visitors was followed by a program of music played by the M. S. C. concert band under the direction of Mr. Howard. Mr. Merrill R. Good closed the meeting with general announcements.

Visiting Teachers Will Be Honored At Friday Luncheon

This noon all visiting administrators adn teachers will be given a luncheon at the Presbyterian church. About 60 facudty members and 100 guests are expected to attend.

Miss Freda Bull has been in charge of the program and Dr. Strand will give the welcoming speech to the attendants. Entertainment will be furnished by a piano solo by Mrs. Dickson and by a cello solo by Mr. L. E. Opp. Mrs. A. R. oJhansson will give a vocal solo, accompanied at the piano by Mrs. Houston.

The group will hear a short talk by the High School Week speaker, Dr. Larry Gould, who was second in command on the Byrd expedition to the Antarctic.

NOTICE

Bids for the Junior Prom are now ready. All Juniors must pay their fees before they can plan attendance to the ball. Fees will be collected starting Monday, by committee members who are: Joe McGeever, Chairman and Junior Class President, June Drowley, Stubby Fjeld, Lloyd Schmidt, Richard Kerr, Lloyd Jenson, Don Martin, Bernard Haley, and Charles Melnick. All freshmen and sophomores can obtain bids at the same rate, $1.50 per bid. JUNIORS MUST PAY THEIR FEES REGARDLESS

A Forecast of Little International

ittle International - - - is one of the biggest exhibiti ons offered by Montana State College with the exception of High School Week. It will be offered to college students May 21 and to townspeople May 22.

Stefan Bardas Will Play Before Students Next Thursday In Gym

Stefan Bardas, German pianist who is being brought to the Montana State College campus Thursday evening, May 2 at 8:15 p. m., through the courtesy of Carroll College, was born in Berlin, in 1914. He received his early musical education from his parents, both of whom were musicians. His father, an excellent pianist, who studied with Arthur Schnabel, was a professor at the Klindworth-Scharwenka conservatory in Berlin and later at the Academy of Music in Tokio, Japan. He is the author of a book on "The Psychology of Music," which is currently being translated for publication in America by Professor Ellsworth Grumann, head of the Yale University School of Music.

Other early teachers of Mr. Bardas were Rudolph Schmidt, a pupil of Leonard Kreutzer, and Conrad Hansen, a pupil of the famous piano teacher, Edwin Fischer. While attending high school in Berlin, Bardas studied theory and counterpoint, and upon his graduation in 1932 he entered the Academy of Music in Berlin, where Edwin Fischer became his music instructor. At the academy, he also studied the history of music with Professor Schuenemann and Professor Sachs.

In 1934 Mr. Bardas graduated from the academy with highest honors and went to Rome, where he studied with Alfred Castella at the Conservatory of St. Cecilia. The same year he played with symphony orchestras in Berlin, and gave a concert over a nation-wide radio network from Manchester, England. During the following years, he gave recitals in the most important Italian cities, and received much commendatory publicity from the music critics. In Rome he was a member of the Chamber Music Society of Rome and was active as a lecturer.

Since coming to the United States, Mr. Bardas has given five net-work broadcasts over two New York City stations, which received much favorable comment. He is now music supervisor at Carroll College.

The program which will be offered on Thursday night's program will be made up entirely of numbers requested by audiences at his recent lecture-recital series at Carroll College, and should prove popular and well-balanced. Included will be works from Beethoven, Chopin, Debussy, Liszt, and one of the popular concert waltzes of Johann Strauss. Beethoven's "Moonlight Sonata," Chopin's "Funeral March," Debussy's "Sunken Cathedral," and one of the famous "Hungarian Rhapsodies" of Liszt are included.

Barbeque Dinner Planned Tonight

36 faculty members, dressed in aprons and armed with spons, working frantically—20 waiters dashing up and down aisles like mad, with three plates in each hand—18 smiling Spurs and 40 stalwart Fangs maintaining order and directing traffic—625 pounds of roast beef, 1,300 steaming potatoes, 1,274,346 peas, 42 gallons of peaches, enough mayonnaise to cover the gymnasium floor to a depth of one-sixteenth of an inch, enough Dixie cups to make a column three times the height of the flag pole, 60 gallons of coffee, cream equivalent to two day's production by 25 cows. ALL THIS—and more will be seen at the SIXTH ANNUAL BARBECUE BANQUET, Place—the gym, Time—5 o'clock P. M. Tonight.

Like Rome, this banquet was not planned in a day nor did it "just grow like little Topsy, over night", instead, much brainstorming and effort has been put forth by the following people:

Amid the food and confusion, we find Miss Leigh ably directing the feast. Dale Skallure and Natalie McDermott bob their heads intermittently above mountains of potatoes. Others involved in this massive undertaking are Miss Fulkes and Ed Reams. Mr. Cheever and Miss Allport were responsible for the menus and the decorations respectively. Acknowledgement must also be given for the splendid work and cooperation to the many students who served and helped in many other ways to make the banquet a success.

Gould Tells

to the Rockefeller mountains for a geological reconnoissance. However, the survey work was hardly started when terrific winds imperiled the safety of their plane. Doggedly for days they fought to save it from the wind by erecting snow embankments and tying it down with ropes. Finally a terrific blast of wind broke the plane from its moorings and smashed it on the ice a half mile away.

With probably enough food but without sufficient fuel to last out the long trek back to Little America, the three explorers were in a serious predicament. Their radio set was damaged in the wrecked plane and the men could not communicate with the main base. After three days without word from the men, Admiral Byrd sent a plane in search of the trio and they were returned to the main base.

Dr. Gould will make only one address during High School week and that was at the general assembly This morning, according to Professor Merrill R. Good, general chairman. His address will be illustrated with motion pictures and still pictures taken during his work in the anarctic.

Pat Rounce Chosen "Spur of Moment" At Dance Friday

At their annual dance Friday night the Fangs announced the selection of Miss Patricia Rounce as Spur of the Moment. After her presentation Pat pinned the pledge ribbons on the 24 outstanding freshmen men selected for Fangs. Heinie Mockel's orchestra furnished the music to which apporximately 75 couples danced.

Bob Simkins presented Lou Howard, Fang sponsor. Lou in turn presented Pat Rounce with a locket in behalf of the Fangs. Pat read off the name of each new Fang and pinned the Fang pledge ribbon on him as he stepped forward. Three pledges were selected from each fraternity and three were chosen from the Independent men. These men will be formally initiated next fall.

Those chosen were Allen Barickman, Fred Tietjen, Bob Tietjen, Kappa Sig; Emmet Haugen, James Emery, and Joe Pahl, Sigma Alpha Epsilon; Otho Murray, Waldo Emerson and George Gleed, Alpha Gamma Rho; Robert Busch, Bill Collins and Frank Howard, Sigma Chi; Melvin McHenry, John Miller, and Don Gomprecht, Pi Kappa Alpha; Bill Ralston, Everett Shuey, and John Rousseau, Phi Sigma Kappa; Clarence Christiansen, Veri Addy and George Van Brocklin, Lambda Chi Alpha; Warren Faus, Bob Scheleen and Clinton Lord, Independents.

Spur of Moment

Pat Rounce - - - was selected by the Fangs as Spur of the Moment at the "Spur of the Moment" Dance in the gymnasium last Friday evening.

Fangs Elect Biddle Duke In Elections

At the annual election of Intercollegiate Knights, George Biddle was elected to serve as Duke of the Fangs for the coming year. Pierce Patterson will serve as scribe, Sam Lenz as treasurer, and Merlin Fisk as historian.

The committee chairman who were appointed by the present junior officers include: tradition, Don McLaughlin; ushering, Jack Miller; and reception, Eddie Kimball.

Alpha Gamma Delta Plans International Reunion Saturday

Montana members of Alpha Gamma Delta sorority will observe the annual International Reunion day of the organization in common with chapters throughout the United States and Canada, with a gathering at the Montana State college chapter house, it was announced yesterday.

All Montana members of the sorority have been invited to participate in the program at the local chapter house.

Past presidents of sorority chapter here, including Mrs. Alice Gagner of Kalispell, the former Alice McClintock, who was the first president of the chapter in its founding year, 1924, are to be honored at the meeting. She and Isabelle Sand, Forsyth, the last past president, and others from throughout the state are expected to be here.

The program for the day will include entertainment and luncheon at the Baxter hotel, panel discussions, addresses by out-of-town members, several musical numbers and alumnae initiation at which time 1940 graduating seniors will be initiated into the alumnae group.

Florence Lloyd, instructor at Gallatin high school, is in charge of the afternoon program, and assisting her is Mrs. Joseph H. Uhlrich as chairman of reservations. Mrs. Kenneth Bakke is arranging the luncheon. Other members of the committee are Ione Parker, Margaret DeVore, Pat McAuley and Mrs. Robert V. Spain.

Former Alumna Selected To Position Of District Councilor In Honorary

Many students now on the campus will remember Mrs. Bertha Olson, a former home economic student and a graduate from that department, who has been elected to the honored position of District Councilor for Phi Upsilon Omicron. Her district includes: Montana and Wyoming. The local chapter is very proud to have one of their alumnae as District Councilor.

Greek Gossip

Alpha Gamma Rho

Paul Holzer, state president of F. F. A., visited the chapter in Townsend Wednesday evening.

Don Stanfield visited friends in Livingston over the week-end. Robert Lee and George Loomis visited in Great Falls Saturday and Sunday.

Rudolph Menghini, Smith-Hughes instructor at Townsend, visited at the house for a short time Saturday afternoon.

Joe Krall, Smith-Hughes instructor at Hingham, arrived Tuesday evening and will stay for the rest of the week.

Monday dinner guest was Edgar Spigerman from The Dalles, Oregon. Edgar is western vice-president of the Future Farmers of America and is attending the Future Farmer state convention here this week.

Alpha Omicron Pi

Mr. and Mrs. Gagnon Hambly and Jack Hambly of Butte were Sunday visitors.

Several of the Gallatin high senior girls were guests at a buffet dinner Sunday.

Wilma Jo Esmey of Great Falls visited at the house Sunday.

Alpha Phi of Alpha Omicron Pi gave a formal reception Tuesday evening in honor of Miss Helen Haller, national president, and introducing Mrs. E. R. Anderson and Mrs. E. W. Schilling, new patronesses.

Lambda Chi Alpha

Sunday dinner guests were Wilma Jo Esmay of Great Falls, Dwight Atkinson, Alvin Ogle, Ray and Roy Loman, all of Ronan.

Lambda Chi Alpha is pleased to announce the pledging of Roger Plumlee and the formal initiation of Norman Jackson, Lawrence Flesch, Ray Dahl and Don Peterson.

Lloyd Jensen, Bill Pattison, George Biddle and Marvin Dokken returned Sunday from the North-west Conclave of Lambda Chi Alpha held at Pullman, Washington.

Kenneth Kjelstrup of Glasgow, Bill Cowley and three students from Hardin are here for High School week.

Kappa Sigma

Delta Lambda of Kappa Sigma is pleased to announce the formal initiation of Fred Tiejen and Blaine Hoffman, Great Falls; Robert A. Johnson, Whitefish; Merlin Fisk, Cut Bank; John MacDonald, Helena; Richard Gregory, Lodge Grass; Warren Hood, Glendive; Robert Fryer, Kellog, Iadho; Jack Corkins, Powell, Wyoming.

Sunday dinner guests were Helen and Cleo Hogan, sisters of Lester Hogan, and Vera Hunt, Lloyd Hunt, Alberta McBey and Jim Wilson.

Recent pledges of Kappa Sigma are Don Scott, Plains; Gene Clark, Billings; Orin Beller, Victor; Robert Baily, Corwin Springs; Jim Kent, Willow Creek.

Alpha Gamma Delta

Delta Gamma is very happy to announce the formal pleding of Mary Jane Peterson of Great aFlls.

Esther Bowman, Betty Kopriva, Hazel Hoven, Marion Buchman and Charlotte Roll spent the week-end at their respective homes.

Joan Brown and Helen Long were dinner guests Wednesday.

Sunday dinner guests included Ruth Parker, Mary Jane LaCrosse, Marion Chittick, Minnie Mae Tibbs and Mary Jane Peterson.

Phi Sigma Kappa

Herb Berlan, Clarence Davidson and Roland Jacobs spent the week-end at their homes in Brady, Helena and Havre, respectively.

Dennis O'Connor and Ted Paull spent the week-end with Ted's parents in Butte.

Mrs. Ruth Lovinger, Carol Jean DeVore, Margaret DeVore, Margaret Ostergren and R. G. Ostergren were Sunday dinner guests.

Tuesday dinner guests included H. L. Lowman, Earl Peace and Robert Farris.

Gorden Fredricks is leaving Wednesday for Seattle to attend the convention of the American Society of Civil Engineers.

Kappa Delta

Wednesday dinner guests were Bee Gutchek, Elizabeth Dwinelle, Betty Deem, Jaunita MacDonald, Mildred McKinley and Kathryn Hanna.

The Kappa Deltas held a fathers' dinner Sunday. Those present were Mr. and Mrs. Mead, Mr. and Mrs. Reardon, Mr. Cassler, Mr. Bellows, Mr. Border, Mr. Miller, Dr. Welch, Dr. A. J. M. Johnson, Mr. Craig, Mr. Bolles, Mr. Gaines, Mr. Hones, Mr. Hockett and Mr. Stafford. Mr. Stafford acted as master of ceremonies and the fathers contributed excellent entertainment.

Sigma Omega of Kappa Delta held second degree initiation for Marilyn Maughn, Martha Herman, Roberta Taylor and Opal Wright.

Marilyn Darroach spent the week-end with Mrs. Robinson.

Charleen Vogel spent the week-end in Butte with her parents. She was accompanied by Evelyn Albin.

Chi Omega

Sigma Beta entertained at tea Saturday afternoon in honor of Mrs. J. A. Kramer, new Chi Omega housemother. Miss Chrisman, Miss Laird, Mrs. Purdy and Mrs. Duncan poured.

Pat Mitchell, Anna Marie Foley and Jada Boufelet of Anaconda were Sunday dinner guests.

Mr. Fleming of Butte visited Mary Kay Sunday.

Dorothy Graff and Edna Graff spent Sunday at their respective homes.

Sigma Alpha Epsilon

Sunday dinner guests were Anna Lee Cosens and Ruth Otten. Fritz Roll was a Sunday visitor.

Al Bowman left school to take a job as postal clerk at Mammoth in Yellowstone Park. Kenneth Bowman will carry on as house manager.

Walt Reid, Joe Pahl, Oliver Jacques and Enoc Porter spent the week-end at their homes in Great Falls. Earl Denny went to Helena over the week-end.

Another pin has been passed and congratulations go to Jurine Wermanger and Bill Sturgeon.

Sigma Chi Social Notes

Guests at the house Sunday included Dr. and Mrs. Torkelson; Mr. and Mrs. M. A. Wallis, Mrs. Garber, and Mrs. I. S. Wolcott all of Billings; Mr. and Mrs. Price McConnell, Mrs. Harry Carter and daughter of Anaconda; Mrs. J. H. Dixon of Bozeman; Keith Hustad and Bill Lynch of Billings; Worley Parsons and Evy Morris of M. S. U.; Mr. E. A. Peterson of Helena; and Mr. and Mrs. Robert A. Taylor.

Jim Stevens spent the weekend at his home in Butte.

Henry Hibbard and Jim Keith spent the week end at Hibbards' ranch at Cascade.

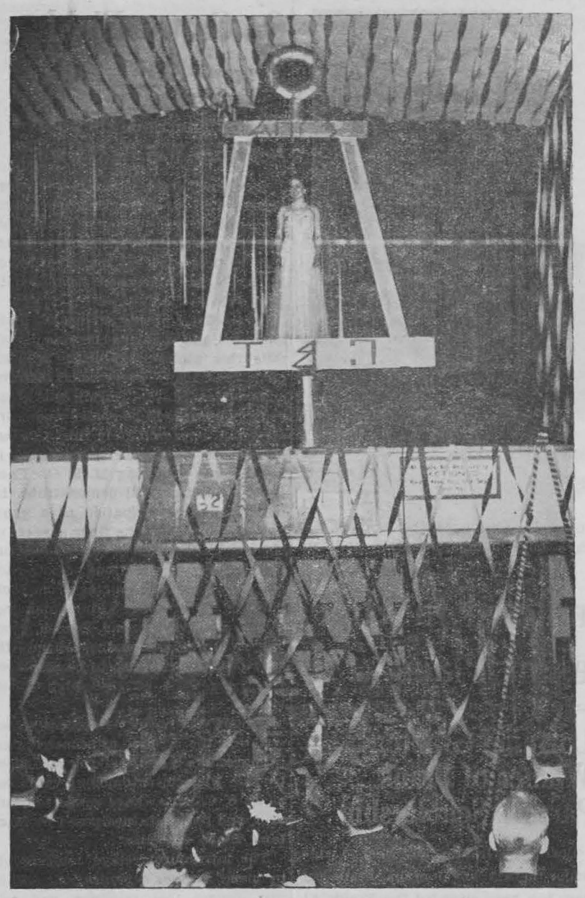

Art Hall spent the week end in Helena.

A fireside was held at the house Wednesday evening at which a contest was held to see which girl could recognize the most caricatures of the boys that were hung around the walls. Elizabeth Hopkins and Elaine Trandam tied for first place.

Mr. D. H. Narum was a dinner guest at the house Wednesday evening.

For the first time in 25 years, Union College this fall had an undefeated football team.

Engineer's Queen

Judy Wilson - - - - Presented in a novel way by appearing through a Tau Beta Pi key which symbolizes the honorary of the Engineers who chose Mill Wilson their queen.

Lambda Chi Alpha Has Convention At Pullman, Wash.

Seven chapters of Lambda Chi Alpha were represented at the Pacific Coast canclave held April 18, 19 and 20, at Pullman, Wash. Those included were the chapters at the University of Washington, Oregon State College, University of Idaho, U. C. L. A., University of California, Montana State College and the host chapter, Washington State.

Those delegates to attend the convention from Montana State were George Biddle, Bill Pattison, Marvin Dokken and Lloyd Jenson.

Lloyd Jenson was elected president and Marvin Dokken, secretary-treasurer of the Pacific Coast Conclave for next year at which time the Montana State chapter will act as host.

The climax of the convention was a formal dinner dance held at the Washington Hotel.

New Pledges To Be Presented At Spartanian Dance

As a special feature at the Spartanian ladies' choice dance which is to be held in the gym Saturday night the new pledges to this women's athletic honorary will be presented. During the dance there will be a number of dances for which prizes will be given to the winning couples.

The dance is semi-formal and the price of admission is 65c per couple. Cliff Vance and his orchestra will furnish the music.

Members of the committe in charge of this affair are Marian Buchman, chairman, Margaret Smith and Daisy Flick.

Hamilton Hall Has Huge Influx Of Visiting Students

The population of Hamilton Hall was was almost doubled this week as high school girls poured in from all parts of the state. Thursday afternoon Hamilton Hall held open house, serving refreshments and having the rooms open for inspection. Tonight after the girls come in from open house the Hall will have another party for the guests. Ann Greenfield, Mrs. Paisley, and Mrs. Bennett will welcome the girls and Natalie McDermott will give a brief talk on her interests as a Spur. Group singing will be followed by a skit and musical numbers from Mary Jane LaCross, Caroline Madden of Butte, Marie Watson, Margaret Walters, Marilynn Payne, and B. Gutcheck. Refreshments will be served during the musical numbers.

Natalie McDermott returned last Friday from her trip to Oregon for the W. A. A. convention. Mrs. Dwinelle visited Elizabeth during the week. Mrs. LaCross is visiting Mary Jane during High School week. Katherine Hanna's mother was here. Betty Hall is a guest of Annabelle Hall thhis week. Otto Benson visited at the hall Sunday.

Sunday Mrs. Bennet had three guests for dinner. They were Mrs. Cramer, Mrs. Welch, and Mrs. Knudsen. They were escorted to dinner by Kay Sullivan, Mary Lou Harper, Betty Tanner, and Nadine Carlson.

Phyllis Wilcox, Margaret Walters, and Gladys Nelson went home last week-end.

Modes of the Moment

By Toni Whitcomb

Fresh and lovely are the spring formals and this week-end you'll have a chance to wear them to the Engineer's Ball. We will also be floating around in long dresses at Spartanian's and Junior Prom. So let us investigate some of this sheer loveliness.

The flower trims and pastel shades of the new formals take us into the land of romance. There is crispness and airness about them that gives us a lift that your old winter formals never furnished.

Cotton is a favorite material—organdy, eyelet embroidery, dimity or batiste. A stiff material is best for these volumnious skirts. And remember cotton formals, with the trimming removed, launder beautifully. Other popular materials are net, marquisette, silk organdy, and chiffon.

Now about colors—well only you know whether you want to look sweet and feminine or pert and dashing. Pastel pinks, blues, greens, and yellows, and of course white are seen

---

There are more than 26,000 plants in the Clark University herbarium.

Social Calendar

Thur., Fri., and Sat.
Apr. 25, 26, and 27—High School Week.

Saturday-Sunday-Monday-- "YOUNG BUFFALO BILL" and "CHAN IN PANAMA"

Future Home of MSC Students

Under construction - - - - is the Student Union building and also the newest addition to the campus. It will be completed and ready for use to all students next fall. Equipped with a huge lounge, fountain and ball room it will afford students many pleasures and conveniences.

Student Union Building Will Be Completed In Time For Use Next Fall According To Present Plans

Montana State's long-awaited student union building will be completed about August 1, according to Professor E. R. Dye, faculty chairman of the committee in charge. The building, which was begun last fall, will be a masterpiece of modern architecture and the committee feels that they have achieved their original objective of providing a pleasant, friendly, meeting-place, not for the faculty alone or for any group of students alone, but for every member of Montana State college.

The building, a much-needed addition to our campus, will contain a student lounge room and a faculty lounge room, a fountain room, dining rooms, a game room, a ball room with a mezzanine floor, and organization rooms for both men and women, besides offices for the Exponent, the Montanan, the Student Senate, a main office, and two general offices. The book store will have its headquarters on the first floor, and the Camera club will be the proud possessor of a large, modern dark room.

The furniture, which was selected by the committee to carry out the basic idea of informality and friendliness, will be in place by September 1, it is hoped. Specifications for it were sent out to the state purchasing agent this week.

In spite of the hopes of the visiting high school students no one is being permitted to enter the building who has no official business there. Visitors, it was felt, would ont only interfere with the progress of the workmen, bui might incur unnecessary danger in the unfinished structure.

Psychiatric Nursing Offered As Regular Course Next Autumn

Psychiatric Nursing is considered a basic course for nurses today because the care of the mental phases of a patient is of equal importance to the care of the physical aspects. Since 1937 a committee from the Educational section of the State Nurses' Association has been studying the problems connected with an affiliation with the State Hospital, Warm Springs. The State Board of Examiners for Nurses also has promoted such an affiliation. Last December this board secured Miss Henrietta Adams, R. N. from the Nursing Department, University of Washington, an expert consultant, to give advice to the committee on affiliations from the Educational section, the State Board of Examiners for Nurses, and those in charge of the State Hospital at Warm Springs.

The State Nurses' Association and the State Board of Examiners for Nurses are making the first year possible by sharing in the financing of the salary of an expert administrator to organize this important nursing service. The Nursing Department, Montana State College was selected to have charge of this educational propram. The Nursing department has secured Miss Lola Handorf, R. N. who is especially prepared to start this work (Miss Handorf will become a member of the Montana State College faculty).

Graduate registered nurses may take this course beginning in the fall quarter of 1940. Nurses taking this course may earn nine college credits, five from psychiatry and psychiatric nursing and four from the psychiatric practicum. Some nursing students registered at Montana State College from the Great Falls Unit of the Consolidated Deaconess School of Nursing, will take this course during the spring or summer quarters of the next school year. The Nursing Department appreciates the fact that the nurses of the state are making possible the course for the degree seeking students at the time when it is a necessity.

Field Trip Taken By Farm Management And Organization Class

A class in Farm Management and Organization taught by Professor O. A. Parsons, made a trip during the regular laboratory period Friday afternoon to the ranch of John Melesnick north of Belgrade.

The class was accompanied by Mr. Sager, inspector for the Bozeman Production Credit association, who assisted in explaining the set-up of Mr. Melesnick's farm.

Factors in organization and management of a ranch as large as this one were discussed as well as methods of financing such a ranch.

Lorraine Graeter Is Winner of Frank Parsons Scholarship

Lorraine Graeter of Deer Lodge, senior in art at Montana State college, has been awarded the Frank Alvah Parsons memorial scholarship for 1940, making the sixth consecutive year that the State college has received one of the scholarships, announces Mrs. Olga Ross Hannon, head of the art department.

Ordinarily the scholarship entitles the recipient to a year of study in the Paris branch of the New York School of Fine and Applied arts which was founded by the late Frank Alvah Parsons. However, because of the war, the scholarship has been transferred to the New York school where Miss Graeter will begin her studies next fall.

During her college career Miss Graeter has not only made an excellent scholastic record and shown unusual talent in art, but she has also engaged in many campus activities. In her junior year she was vice president of Delta Phi Delta, art honorary, and this year she is president of the Art club. She has been secretary of Mortar Board, senior women's honorary, and was editor of the activities division of the Montanan, college year book, during both her junior and senior years. Other activities include membership in the Gridiron club and participation in three college plays.

The five preceding recipients of the scholarship are: 1935, Edith Allport who is now on the faculty at Montana State; 1936, Caroline Busch who is on the faculty at the Butte high school; 1937, Mrs. Wilda Parker Axelton, now a resident of Butte; 1938, Margaret Gordon who is now a designer for a fashion magazine in New York City; 1939, Jayne Tuttle who is completing her year of study.

The average large U. S. university has two and a half non-academic employees for every member of its teaching staff.

Cornell University student and faculty car drivers are required by the student council to buy liability insurance.

Gymkhana Planned On Gatton Field Friday Afternoon

Giant Panorama Of Sport Activities Will Be Shown

Gymkana, giant panorama of sport activities is scheduled for the entertainment of the visiting High School week visitors. The athletic program will be presented by the students of M. S. C. this afternoon from two to five o'clock.

Directed by men's chairman, Paul Johonson and women's chirman, Sarah Cole this athletic exhibition will include practically every sport offered at Montana State. During this three rour program will be shown and demonstrated approximately thirty different sports which are participated in by students attending M. S. C. Each sport exhibition will demonstrate the playing and participation of a game and one or two of the finer aspects of the sport. Included in this large sport parade will be exhibitions of both men and women sports ranging from football to ping-pong. Folk dancing, group calisthenics, and Danish gymnastics which are on the college athletic program are also to be displayed for the benefit of 1940 high school visitors.

Among the novelty numbers scheduled for the Friday afternoon entertainment are a stilt walking exhibition by Don Pletsch, entomology professor at M. S. C., an awkard squad military drill, and living statues posed by Montana State students.

The intramural relays competed in by many campus organizations will be run during this program and will offer a fine sample of the athletic program of the state college.

A special feature of the Gymkhana will be an elephant hunt about which no information has been given and which will remain a mystery until the Friday afternoon show.

Exhibitions will be offered by the Ag Club and the engineering dep't. The demonstration by the Ag Club will be a display of horsemanship with the engineers taking to the air with a model airplane flight. In addition to these many features will be a display of fireworks which will be fired at intervals throughout ahe afternoon.

Music for the afternoon will be presented by the Bobcat band who in collaboratiin with the drum majoretes will give a combined band and drum majorette revue.

The Gymkhana is to be directed and announced by a loud speaking system with Don Cosner at the microphone.

"Montana Citizen" Just Off The Press

A revised edition of the "Montana Citizen", a textbook for high school civics in Montana, written by Dr. R. R. Renne, head of the department of agricultural economics, Montana state college, and J. Wesley Hoffmann, former assistant professor of history at Montana state college and now professor of history at the University of Tennessee, has just come off the press.

The 1940 edition brings up-to-date the many changes in government organization and services which have occured during the three years since the first edition was published.

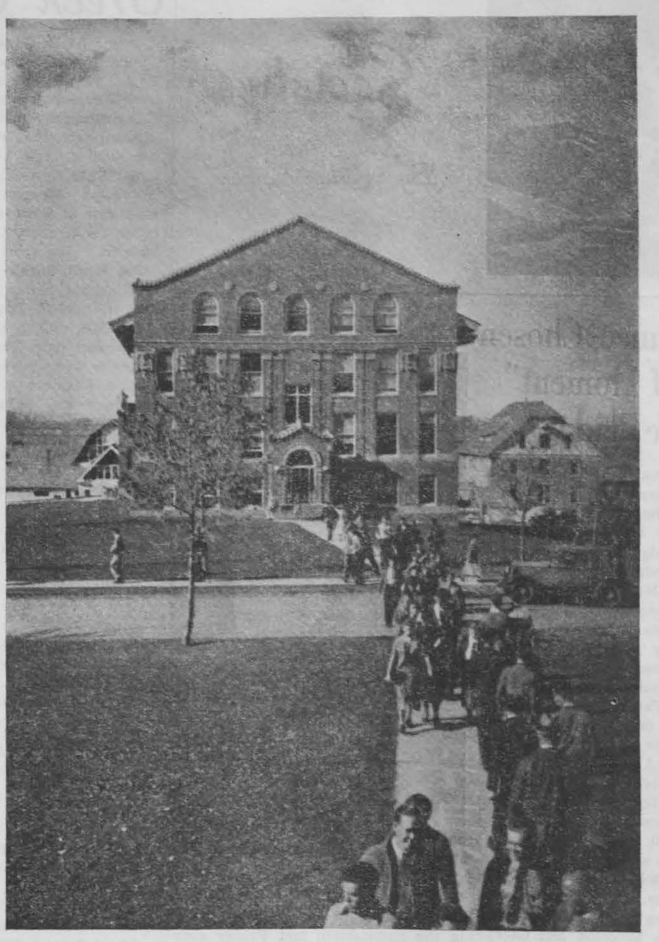

The new edition includes changes made in Montana state and local government by the 1939 Montana Legislature and also changes in the national government and national laws which have been made by Congress since 1937. The new edition contains 17 additional illustrations.

Orders for the first edition have been received from pratically every state in the union, from Europe, and from South America.

Roundup Grades Out

High school week started out badly for many unfortunate students last Wednesday when roundup grades for spring midquarter examinations were reported. All D. E. and F grades were in the hands of class advisors ready to be passed on to the students at 10 o'clock in the morning, and are available at any time.

Scenes at Montana State

Campus Life - - - is typified at M. S. C. in the spring when students stroll along the walks between classes. In the above scene students are going and coming from Lewis Hall, home of science majors.

All Invitations For Mother's Day Mailed

Invitations to sixth annual Mother's Day celebration of Montana State college went out this week-end to the mother of every student the campus. This celebration, an annual affair of the college is dedicated to mothers and is intended to give the parents an opoprtunity to see the school attended by their children. It will be featured by a special review on Gatton Field, by a reception and tea for the visiting parents, and by an informal banquet, at which the special speaker will be Mrs. Agnes Mikkeson, the mother of Dave Mikkelson.

Special guests will be the Mother's Day speakers of former years.

Students who parents will be attending this function are urged to sign up in Mrs. Harrison's office at once. Since the capacity of the Baxter is limited the number of guests who will be attending must be definitely ascertained well ahead of the occasion.

Registration must be completed before the Friday preceding Mother's Day, and an earlier signing up is urged.

Faculty Guests At Men's Coop

Sunday dinner guests were Mr. and Mrs. Merrill Burlingame, Miss Leora Hapner, Miss Bertha Clow, and Miss Edith Ellis.

Bill Hay was a guest at the house on Tuesday evening.

There are approximately 500 transfer students at Alabama Polytechnic Institute this year.

1940 Graduate Obtains Permanent Position

Dr. R. H. Palmer, head of the department of agricultural economics, announce Wednesday that Kenneth W. Christian of Charlo, Montana, 1940 graduate of the agricultural school, has received a permanent appointment with the Farm Security Administration.

He will have his headquarters in Jordan, Montana, where he will be in charge of farm security work in Garfield county.

Christian, a transfer from The Intermountain Uunion College when it was in Helena, has been very active in the work of the Agricultural Club, and the Little International during the three years and a quarter that he attended Montana state college. He was a member of Alpha Gamma Rho social fraternity.

The brightest of all the third-year University of Minnesota lawyers is a blind student.

Lyle Davis Obtains Teaching Position

Dr. R. H. Palmer, hoad of the deparment of agricultural education, announced Wednesday that Lyle Davis, of Bozeman, Montana, senior in agricultural education, has received an appointment to the position of instructor in the Simms High School, Simms, Montana.

His appointment marks the change from a one to a two instructor agricultural department in the Simms High School. This is one of the oldest departments in the state and has been active for a good many years in Future Farmer work.

Davis has had considerable ranch experience, having lived on his father's ranch near Bozeman while attending Montana State College. He has been quite active in the work of the Agricultural Club and the Little International during his four years of college. He will assume his duties at Valier on July first.

Highlights Of The Little International

By GLENN COOLEY

The activity on the west of the campus has increased so much since last Friday morning that it sometimes makes one wonder whether or not it is really the same place that it was before that time.

It is now possible for the students from the rest of the campus to actually see for themselves that there is real preparation going on for the Little International, instead of having to take my word for it from this column.

Those who are going to compete against each other for that coveted gold wrist watch and the many other prizes which are being offered are as follows: showing Rambouillet Rams will be Hank Hibbard, Bill Kenny, Harold Smith, Wayne Neel, Preston Trask, Paul Huber, Glenn Slaughter, and Glenn Sedecek.

Kimball, George Evans, Don Shaffner, a black face Harold Johnston, Eddie Kimble, George Evans, Don Shaffner, George Gleed, Floyd Kennison, Austin Overcast, and Dick Gregory have decided to show Hampshire Rams.

A few of the boys have weakness for powder, and hearing that the Southdown ewes would be covered with talcum powder before they entered the ring we find such names as these on the list of Southdown showmen: Wilbur Schlehuber, Charles Krall, Reginald Davies, Blaine Hoffman, Paul Holzer, and Waldo Emerson.

In the Hereford steer division John Mansfield, Jerome Aakus, Bill Barnes, Dan Mortag, Stewart Wright, Fabian Nyquist, George Biddle, and Arthur Christensen will be leading the white faced beef steaks in the show ring.

Preferring to show an animal that will have a more lasting place in this world Charlie Green, Tom Ross, Morgan Esmay, Bob Bucker, John Hartwig, Bill Galt, Floyd Paynish, and Jim Kieth will show Hereford heifers.

Helping to inaguarate a new feature of the show will be seven men showing, for the first time during the Little International, Aberdeen Angus heifers, these men are Dave Rice, Walter Hoffmann, Don Davison, Walter Nelson, Al Ralston, John DeVries, and Richard Fagan.

Preferring roan and white colored animals to any other Stan Melesnick, Dave Schraeder, Henry Lackman, Dwight Nelson, and Otto Murray will show Shorthorn heifers.

There is one division that always has a rather small number of showmen, that is the hog division. However, since the International was started nine years ago, there has not been a time when a hog has not placed among the top three showmen. Showing hogs this year will be Wm. Meeks, winner of the reserve champion award two years ago with a hog; Bill Galt, and Jeffrey Roberts.

There were several students who signified their intention of showing a horse, but because of the fact that they did not get to the agricultural building soon enough last Friday morning they were forced to show an animal in another division. A limited number of horses were secured and many of the students were unable to show one. Those showmen that are training Belgian colts are Norman Haber, Dan Mizner, Don Bell, Al Ralston, and Carl Ostensen. Showing the young Percheron colts, that everyone who has been around the west end of the campus have ben admiring, will be Ted Keating, Lowell Hutton, Chick Graden, Nels Thorsen, Ken Surber, and John Stensland.

The dairy division has just as many entries this year as usual. Some of the showmen and showladies in this division told me the other day that the animal that beat them out was going to need to be very good as they were really out to see the dairy division win. Showing Jersey heifers will be Bill Collins, Carl Park, Bill Porter, and Owen Wirak. Leading the fawn colored heifers will be Paul Boylan, Fabian Nyquist, and Miss Dorothy McPherson showing Jersey heifers.

I would like to again remind you that the Little International is going to be May 21 and 22, and that the college students will be admited on their activity tickets on the night of May 21. If you know of anyone that would be interested in attending this "biggest little show in the west", tell them there will be plenty of room this year and that they will really miss something if they don't come.

A radio major has been added to the curriculum at College of the Pacific.

Scene from the Third Act of "Mary Rose"

Return of Simon - - - is pictured in the above illustration of "Mary Rose" as it was shown to High School students last night. The scene shows Jean Duncan as Mrs. Morland, Luther Terrett as Simon and Paul Johnson as Mr. Morland. The play will be repeated for college students Monday and Tuesday evenings.

Women's Chairman

Helen Briggs - - -is a veteran High School Week worker and finishes her work this year with the enviable position of Women's Chairman.

Teacher Placement Bureau Held For Graduating Seniors

High school week means more than just an opportunity to stay up all night registering delegates to more than 80 senior teachers-to-be. During this last week the office of the Registrar who is the chairman the Teacher Placement Bureau, has been swarming with superintendents and principals who need prospective teachers, and the personnel of the office has been busy arranging interviews between embryo teachers and principals.

Over 80 seniors from this year's graduating class will receive the University certificate of qualification to teach. This certificate is valid for high school teaching and for sixth, seventh, and eighth grade teaching.

In preparation each teacher acquires a teaching major in the department from which he receives his degree. These fields include Agriculturl Education, Applied Art, Applied Science, Home Economics, Physical Education for both men and women, and Secretarial Studies.

Each teacher will have a teaching major of forty-five or more credits in at least one of these subjects: General Agriculture, Agricultural Education, Applied Art, Biology, English, General Science, Home Economics, Mathematics, Physical Education, Secretarial Studies, and Social Science.

Each teacher will have a teaching minor of twenty-five to thirty credits or more, but less than a mjor, in at least two of these subjects: General Agriculture, Biology, Chemistry, English, Economics, French, General Science, German, History, Home Economics, Mathematics, Music, Physical Education, Physics, Social Science, Spanish, and Secretarial Studies.

Every prospective teacher has given special attention to one or more extra-curricular activities. The following list indicates the most usual ones: Athletics, Band, Boy Scout Work, Church Choir, Club Work, Dramatics, Extemporaneous Speaking, 4-H Club Work, Future Farmers of America, Girl Scouts, Glee Club, Military Science, Music, Orchestra, Piano, Departmental Clubs, Instrumental Instruction, Publication Supervision, Student Government.

In addition to the prospective graduates of 1940, the Bureau has on file the confidential papers for a number of former graduates who have successful experience of one or more years in teaching and who are qualified for better positions than those now held.

"Mary Rose" Offered To Students Monday And Tuesday Evenings

A decade ago students at Montana State college presented Sir James Barrie's drama, "Mary Rose," under the direction of Bert B. Hansen and this week and next history will repeat itself when the Associated Students again present the production at the Ellen theatre under Mr. Hansen's direction.

Next Monday and Tuesday nights "Mary Rose" will be repeated for college students and townspepople.

This year's production of "Mary Rose" will see Judy Wilson of Deer Lodge playing the role of Mary, while Luther Terrett of Billings will play the part of Simon and Eric Anderson of Bozeman, the part of Harry. Others in the cast are Jean Duncan of Butte, Mary Lou Durland of Billings, Paul Johnson of Terry, Glenn Cooley of Miles City, and Elbert Herrick of Joliet.

Students may exchange their activity tickets for admission to the play at the box office of the Ellen Theater beginning today at 1 o'clock until 5:30 this evening. Tomorrow the box office will be open to accomodate students from 9 o'clock until 1 o'clock and on Monday and Tuesday from 1 to 5:30 and 7 to 8 o'clock. Tickets may be secured for either performance.

Bill Meeks Obtains Teaching Position

Dr. R. H. Palmer, head of the agricultural education department of Montana State College, announced Wednesday that Wm. Meeks of Fort Benton, Montana, senior in agricultural education, as received an appointment to the position of Smith-Hughes instructor in the Valier High School, Valier, Montana.

He will become instrutcor in one of the oldest Smith-Hughes department in the state, replacing Everett Frazer, who has recently resigned after several years of service. This school has been characterized by active Future Farmer participation for many years.

Meks has had one and one-half years of prtical teaching experience before finishing his college education this year. He has been quite active in tne Agricultural Club during his four years of college; a divisional winner in The Little International; a member of the College band; and is a member of Alpha Gamma Rho social fraternity.

Men's Chairman

Howard Vange - - - replaced Dave Mikkelson several weks ago and has carried on as Men's Chairman for High School Week.

Wm. Lodman, Senior In Economics, Obtains Fellowship

Dr. R. R. Renne, head of the department of Agricultural economics, announced Wednesday that Wm. Lodman of Moore, Montana, senior in agricultural economics, has accepted a fellowship in the department of agricultural economics at The University of Maryland, College Park, Maryland.

He will do research work in some phase of agricultural economics.

Lodman has ben very active in intramural sports during his four years of college; has been a member of the agricultural club for four years; has been on the Little International committee for the past two years; has been a member of the cast of two college dramatic productions; was a member of the Intercollegiate debating team during his senior year; is a member of Alpha Zeta; a member of Phi Eta Sigma; and of Alpha Gamma Rho Social fraternity.

He will leave for part of June where he will do research work in the field for two or three months. He will receive his Masters degree in June 1941.

Who's Who In High School Activities

The entire student body and faculty of Montana State College suspended their regular activities this week in order to welcome to the campus over 1200 visiting high school students.

Following are some of the outstanding student leaders in High School Week — those heading the numerous committees necessary to make the visitor's stay a pleasant and instructive one.

Besides the student chairmen however, there are hundreds of college people who have devoted a great deal of their time to High School Week - - - too many to introduce to you here.

We would like you to meet:

Ray Lakey is assistant men's student chairman. He is a junior in chemical engineering from Missoula, and is editor-elect of the Montana Engineer, a highly rated technical magazine published by MSC students. He was recently selected as a new member of Septemviri, senior honorary.

Margaret Smith, assistant women's student chairman, is a physical education major whose home town is Bozeman. She is president of the Women's Athletic Association, and has been designated as one of the new members of Mortar Board, senior Women's honorary group.

Kenneth Sire, student supervisor of the open house part of High School Week, is a senior from Belt taking agricultural economics. Sire is a veteran debater, president of the Ag Club and of Pi Kappa Delta, forensic honorary, and a member of Septemviri.

Natalie McDermott, is at the head of the student committee providing meals on the campus for delegates. She is a junior student in home economics and comes from Fairfield. Last year she was president of Spurs, and was elected national secretary of the organization.

Rolland Breed is student chairman of the assembly committee, responsible for arrangements for the get-togethers in the college gymnasium. Breed is a senior electrical engineer from Helena, and a member of the Bobcat Band, and of Tau Beta Pi, engineering honor society.

Roger Barto has the job of being student chairman of the scholarship committee, and did much of the work of arranging the state scholarship contests ,in which over 550 students participated. Barto is senior in engineering physics from Thompson Falls.

John Fisher, from Bozeman, has had charge of all publicity for High School Week, is a member of Scabbard and Blade, Phi Eta Sigma and Pi Kappa Delta. He is a member of the Montana State College championship debate team. John is an honor student in the Secretarial department and a member of Lambda Phi Kappa.

Fred Orton, in charge of the entertainment for High School Week, is from Helena, and takes Industrial Engineering. He has been president of the Engineering Council, of the Society for the Advancement of Management, and of Septemviri. Orton is also widely known on the campus as a mucian.

Jean Berg, senior in industrial chemistry whose home is in Pompey's Pillar, is at the head of the committe which is responsible for the registering and housing of all the visiting students. An outstanding varsity basketball player ,he was this year's only three-striper.

Ed Reams is head of the general service committee, which means that his job is that of providing the tables and chairs for the barbecue and similar duties for various other functions. Reams is from Billings and is a senior in electrical engineering. He has been a member of the track team.

Arnold Berglund, from Grass Range, is the student in charge of FFA activities. A senior ,he is majoring in agriculuring in agricultural education, and is a leader in many of the activities of the ag department. Berglund was also a member of the football squad, and was a Fang.

Lloyd Jensen, a junior, runs the special details committee, which performs a variety of functions. Jensen's home is in Sidney, and his course is secretarial. He is president-elect of the senior class, and is a pledge to Les Bouffons and Scabbard and Blade, military honorary.

Pauline Howarth, senior has charge of the registration of delegates, and supervised the machine-like reception committee at the Baxter Hotel. Pauline also is a beauty queen, a member of Saberettes, and well known in the college for various achievements.

Dale Skaalure, men's chairman of the Foods committee, is a sophomore and is enrolled in agriculture. The job of providing meals of the visitors is one

Paul Johnson and **Sara Cole,** jointly manage the gymkhana, or athletic festival and display which is produced by the Physical Education department. Both students are majoring in physical education and both are well known for their achievement in that field. Johnson, a senior, is from Terry, and is a varsity basketballer, winning a place on three Bobcat squads, two of them Rocky Mountain champions. Sara Cole is a sophomore from Big Timber, and is a member of the WAA.

Al Stevens is assistant chairman of the assembly committee. Stevens is an electrical engineering senior from Loma, and among the duties of his committee are the providing of arrangements in the gymnasium for the three major assemblies held here.

Amy Pound is women's assistant chairman of the Special details committee. She is a senior in secretarial studies from Lewistown. No cut is available of her.

Eddie Kimball, assistant open house student director, is sophomore. His course is agriculture and his home town is Bozeman. He is member of Fangs and of the Bobcat band.

Vivian Cowan, women's chairman of the scholarship committee, is largely responsible, with Professor Hapner, for the smooth running of the scholarship contest. Vivian is a Montana State College beauty queen, a member of Saberetes, and has been prominent in student publication and government activities.

Brick Vaughn is assistant chairman of the FFA activities committee. A junior taking agricultural education, Vaughr has contributed much to thme success of the FFA convention and other activities connected with the features conducted by the Agriculture department.

Sigma Chi Athletic Scholarship Given To Claire Robinson

Claire Robinson was chosen as the recipient of the 2nd Annual Sigma Chi Scholarship Award ror Sophomore athletes at a meeting of the committee held last Friday.

Robinson is a sophomore in Agriculture and entered this school as a transfer from Ricks Junior College in Idaho. While attending Ricks College Robinson starred on the basketball team for two years and played one year of football. Last fall he was a member of the football squad and showed much promise. As member of the basketball team he proved very effective and consistent in getting the ball off the backboard and down the floor into a scoring position. Robinson stands 6 feet 4 inches tall and tips the scales at 185 pound.

The award which was started last year is one hundred dollars to aid a sophomore athlete to continue his education. Factors taken in to consideration in making the award include athletic ability, scholarship and the athletes financial need. The committee in charge of making the award was composed of the presidents of all the fraternities on the hill and the college athletic council.

Floyd Roth, president of the Sigma Chi fraternity and head of the campaign to raise the funds, announced that the results were very pleasing and that they will continue to make it an annual affair.

AGR'S Top SAE's By One Pin To Win Championship

A hush came over the large group of spectators as the score keeper added the score and found the AGR's one pin to the good in the last series of the season with the SAE's who nearly caught them in a tie for first place. This final victory gave the AGR'S an undisputed claim to the Intramural championship and possession of the championship trophy.

Going into the series under pressure, the SAE's had to defeat AGR's three straight to force them into a tie for first place. Knobby Brown got hot to roll high individual game of the day at 233 with six straight strikes, and with Lew Thompson hitting high three game total for the day to the tune of 563 it looked as though they might do it. But in the last game the AGR's were not to be beaten as they found their old form and bowled a 910 game to top the 909 which the SAE's hit.

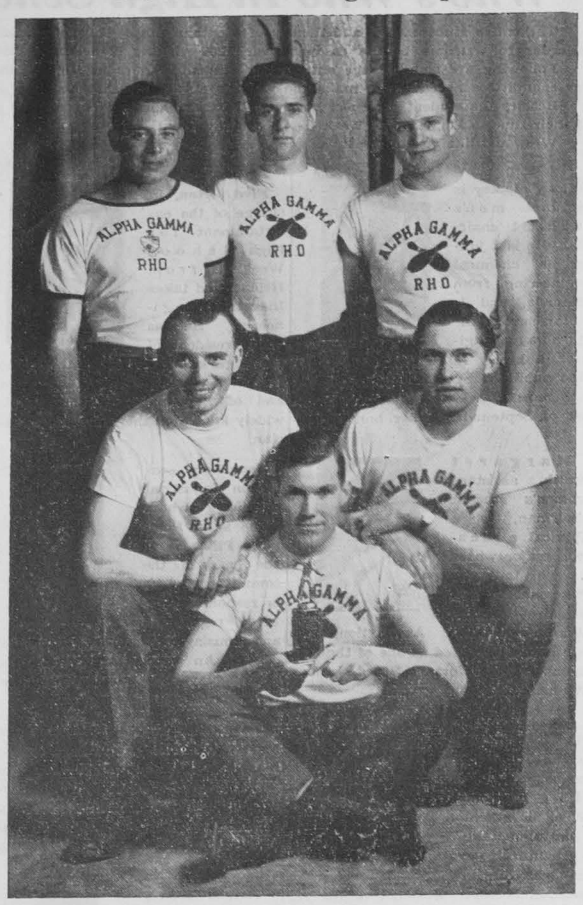

The Pi Kaps paced by Schaefer pushed the Sigma Chis further into the cellar by copping two of their three games series. With Mannix hitting 515 the LCA's made a clean sweep over the faculty. Simonton Bowled 533 for the Phi Sigs to lead them to three victories over the Kappa Sigs.

Final Team Standings:

Intramural Bowling Champs

Alpha Gamma Rho - - - won the 1940 bowling intramural championship last Saturday after leading the league throughout the season. Front: McKammy; middle: Lodman and Overcast; Top: Toenyas, Stanfield and Duley.

R. O. T. C. Unit Will Parade Today On Football Field

The Montana State College regiment of the Reserve Officers Training Corps will form at the barracks Friday morning at 8 A. M. for their annual High School Week parade. A short march it will take it to Gatton Field, scene of the display, at which time all of the latest army formations and movements will be used.

It will be of particular interest to the visiting hihg school students, many of whom have never before observed a scene of its kind. An idea of the discipline and accuracy of the army may be obtained by this demonstration.

This year, the army is performing under entirely changed drill regulations. The changing in the drill has been one of the steps in the streamlining of the United States Army. The new infantry maneuvers more closely resemble those of the European nations. These changes will be new to anyone who has not observed the performance of the army this year.

The Army will also be present at the farewell creremony at the flagpole Saturday morning.

On Thursday afternoon the Military Department will have on display certain infantry weapons and equipment which will include machine guns, Stokes mortars and 37 mm. anti-tank guns. The field equipment of the infantryman, including mess kit, canteen, rrifle, bayonet, pup tent, tench coat, blankets, first aid kit, ammunition, belt and steel helmet will also be shown. In addition, an interesting display of pictures of World War scenes, mapping scouting and patrolling equipment will be available for close examination.

Since 1776 the College of William & Mary has initiated 799 students into Phi Beta Kappa.

As an eye aid, biology laboratories at Hillsdale College are equipped with fluorescent lights.

Sports - - - Roundup -

Baseball Starts

Monday afternoon the Lambda Chis and Sigma Chis got together for a little practice game before the swing into the annual intramural round robin next week. The second inning found Don Cosner on a tough spot—at bat with two out and bases loaded. Campbell pitched Cosner a nice one and Cosner connected to put the ball over the heads of the LCA outfield and touched all four bases before it finally found its way back home. Bob Pappin standing on the sidelines said, "That's Cosner's hit for the year, I wish he waited till it counted."

Intramural Relays

MSC's first taste of intramural track competition will be in effect this afternoon when 440 yd. and 880 yd. relays are held in the gymkhana. Running the 440 yd. relay will be the SAE's, Phi Sigs, Kappa Sigs, and Pi Kaps. Entered in the 880 yd. relay are the Independents, AGR's, Lambda Chis, and Sigma Chis. The SAE team composed of Frank Strong, Ev Darlinton, Brick Vaughn and Jim Monforton appears to be the strongest outfit entered due to the fact that Strong and Darlinton were the number one and two sprinters on the Bobcat track squad last year.

Sparks Returns to the U

Bob Sparks, all-state fullback for Butte high and outstanding freshman on the University freshman squad the season before last, has once again returned to the University. It seems that the University pay office tried to cut Sparks' pay as they did most of the other Montana Athletes while they continued to pay the high price for Chicago athletes. Sparks quite school and played a year for the Englewood Independent team in Butte. Here he played his usual bang-up game at fullback and was high scorer for the season. He received a bid from Oregon State but it seems and Grizzly board of strategy broke down and gave a local boy a break.

Sigma Delta Psi

Potential track and field stars who were disappointed about the track moratorium this spring would do well to compete for membership in Sigma Delta Psi. To qualify an athlete doesn't have to be outstanding in any particular event. He must be in good physical condition, have good muscular coordination, and most important of all, he must practice each event before passing it. According to Leonard Stone, the event with which he had most trouble was the Swimming, although he passed it with 25 seconds to spare.

Dyche Enthused At Footballers Spirit Shown In Practice

"Their spirit is fine and their eagerness to work is displayed in the snappy manner in which they have run through the first few drills. All the veterans and freshmen have turned out as well as several other promising new men." These were the words used by Coach Schubert Dyche in describing his squad after the first week of spring football drills. The coach is very enthused about his squad, and, although the drills have been delayed for several days because of High School week, practice will begin again Monday and continue uninterrupted until the mentor feels satisfied with the works of his footballers. Last week the men were divided into different squads and began practicing the formations and plays to be used next fall. The first few days will be spent in running through plays, then the more serious nature of football, blocking and tackling, will be practiced. Coach Dyche says that these football fundamentals will be stressed and scrimmaging will be kept at a minimum during the spring drills. A very large squad has turned out for spring practice and if the men remain eager and enthusiastic about their work much can and will be accomplished.

Overcast Chosen For Tennessee Fellowship

Dr. J. A. Nelson, head of the dairy Industry department, announced Wednesday that Woodrow Overcast of Zurich, Montana, senior in dairy industry has accepted a fellowship in the department of dairying at the University of Tennessee, Knoxville, Tennessee.

Overcast will do research work in flavors of milk and will take some supporting work in chemistry and bacteriology.

Overcast was the winner of the Danforth Fellowship during the summer of 1939; a member of Alpha Zeta, agricultural honorary fraternity; has been active in the Agricultural Club during his four years in college; a member of two intercollegiate judging teams; and is a member of the Alpha Gamma Rho social fraternity.

He will leave for Tennessee the first part of September and will receive his Master's degree in the summer of 1941.

Radiowriter Arch Oboler was the judge of a recent Wayne University student script writing contest.

Waiters at the University of Kansas are required to take tuberculin tests.

Dean's Association Will Have Dinner

A special feature of the latter part of high school week will be the second meeting of the Montana State Deans Association, an organization of all deans of women at high schools and colleges throughout the state. The primary objective of this group is to place an advisor of girls in every high school throughout the state, and it is also intended for the purpose of the discussion of problems met by the members.

Tonight at a special dinner held at the Baxter and presided over by the president, Miss Neva Copeland of the Missoula high school, the speaker will be Dr. Holmes, a psychiatrist from Warm Springs, who will discuss mental health. Tomorrow a business session will be held.

Featuring the meeting will be talk by Miss Jane Roberts, dean from the Livingston high schol, a report of the national convention by Miss Thula Rhodes of Butte high schol, and a report of the regional convention at Corvallis by Dean Fergusson of Missoula.

Chairman of the convention will be Miss Jack Crutchfield of Bozeman, who, with Mrs. Ethelyn C. Harrison of Montana State, is in charge of the local area.

Phi Upsilon Omicron Initiates Nine Girls To Membership

On Saturday, April 20th, nine young women who were outstanding in the Home Economics department became members of Phi Upsilon Omicron, honorary for Home Economics students. These girls were: Marjorie Paisley, Mildren Anderson, Wilda Davis, Frances Jean Evans, Mary Kay Mortag, Mildred McKinley, Daphne Boddy, and Margaret Morse. To be eligible for membership a girl must rank well in general ability, be in the upper two-fifths of her class in scholarship, be of strong moral character, have taken part in activities, have qualities of leadership and show service.

Immediately following the initiation, a formal dinner was held at the Baxter Hotel, honoring the new members. Lucille Alexander presided, and talks on parts of the Phi Upsilon Omicron pin were given by Anna Christenson, Vesta Baxter, and Helen Luke. Election of officers climaxed the day. The following were elected: president, Pauline McLean; vice president, Helen Pierce; secretary, Marporie Paisley; treasurer, Patricia Berry; corresponding secretary, Charlotte Benson; chaplain, Margaret Morse; librarian, Frances Jean Evans; editor, Mildred McKinley; and historian, Wilda Davis.

the Busiest Pair in town

Smokers are buying 'em "two packs at a time" because Chesterfields are DEFINITELY MILDER, COOLER-SMOKING and BETTER-TASTING.

Chesterfields are made from the world's finest cigarette tobaccos and they're made right. In size, in shape, in the way they burn . . . everything about Chesterfield is just right for your smoking pleasure.

You get twice the pleasure watching the CRANE TWINS in the Broadway Revue Hit "Hellzapoppin'" because there are two of 'em . . . the busiest pair of dancing twins you ever saw.
