

Bobcats to Battle U. Saturday

College Hopes High to Repeat Victory at Butte

After a successful and victorious homecoming weekend, the students of Montana State college are out for a "repeat performance" this weekend with a victory over the Grizzlies in the annual Copper Bowl classic at Naranche Stadium in Butte this Saturday.

This will be the 22nd annual game and we are out for our fourth victory and the second in a row. The Bobcats beat the Grizzlies last year in a rousing game by a 13-12 margin.

The affair will get under way at 12 noon with the annual pre-game parade through the streets of downtown Butte. The parade will start promptly at noon and any floats not there to start at 11:45 will be left out. The MSC floats and the band will be in the second half of the parade.

Floats representing Montana State university will head the parade in keeping with the alternate tradition. The Bobcat floats head-

Marjarum New Head of English Dept.

Montana State is proud to welcome Dr. E. Wayne Marjarum, who will be professor and head of the English department, starting this autumn quarter.

Dr. Marjarum replaces Dr. Sarah J. Vinke, who has been granted two quarters leave for travel and additional study and will continue teaching in the department on a full time basis.

A graduate of Rutgers university in 1928 with a Bachelor of Letters degree, Dr. Marjarum earned his M.A. and Ph.D. degrees at Princeton university.

After completing his work at Princeton in 1931, Dr. Marjarum taught at the University of Rochester, Rochester, New York, for 14 years and in 1945 he returned to Rutgers as editor of the University Press. He has also taught summer sessions at City College of New York and he is the author of the book "How to Use a Book".

This is the farthest west Dr. Marjarum and his family have traveled. They admire our beautiful Gallatin valley and the mountains that surround it. Having one son who attends high school and prefers a smaller school to a larger one, they feel well satisfied here.

At the present time the Marjarum family live on Beech street and would appreciate knowing about an apartment.

Students and Faculty Invited to Mixer After Butte Game

From Reno H. Sales, class of '98, is extended an invitation to all members of the faculty, the football squad and coaches, and the student body of MSC, to attend a get-together "Mixer" to be given in the basement ballroom of the Fox theatre from 5 to 8 p.m. immediately following the Bobcat-Grizzly game.

There will be music and dancing, and soft drinks will be available. Students will be admitted upon the presentation of their student activity tickets at the door.

If Montana State college wins the football game with Montana State university in Butte on October 16, all classes will be dismissed at 2 p.m. on October 18 for a victory matinee dance for the student body, to be held in the tank room of the gymnasium.

The dance will run from 2 to 5 p.m. and the orchestra for the dance will be furnished by Montana State college. If the Bobcats do not win, classes will be held as usual all day October 18.

Mademoiselle Editor Visits MSC on 'M' Day

Nancy Garoutte, College Board editor of Mademoiselle Magazine, visited Montana State college Thursday, October 7, to tell about Mademoiselle's contest for its 1948-49 college board, in which guest editors will be selected to help write and edit the magazine's annual August college issue.

Anyone can join this contest. Judges choose contestants from 20. These 20 women are selected by their grades, and faculty recommendations.

The winners will fly down to New York the last of May to work during the month of June in the August and September issues of Mademoiselle. During their stay in New York they will meet and work under many famous names in the fashion world. Many of these people later are responsible for helping a guest editor start on her career.

Miss Garoutte, a graduate of Sarah Lawrence, made favorable comments on the neatness of the Mademoiselle models in comparison with the models of the girls there in blue jeans to class, shorts, and even ski pants and boots depending on the season.

At Sarah Lawrence, she majored in Political Science and is very interested in the different political trends in different parts of the country. Some colleges had no interest. (Continued on page

Frosh Final Is Tuesday

Jim Olson, of Bozeman, and Gail Stensland, of Glasgow, will oppose each other in the finals of the Freshman class presidential race to be held next Tuesday, October 19, from 8 a.m. to 5 p.m. in the Student Union building.

In the primary election held last Tuesday, Olson and Stensland easily emerged top men from a field of six candidates and two write-ins. From a total of 336 ballots cast by freshmen, the two top men received 180 votes combined.

All freshmen are reminded that only the votes cast for names appearing on the ballot in the general election will be counted. Write-in votes will be thrown out.

The results of the primary are as follows:

Bill Linfield	37
Bob Madison	49
John Pearson	11
John Patton	57
Jim Olson	71
Gail Stensland	109
Jed Horton	1
Wayne Young	1

Take I.D. Cards

All students who are going to the Butte game must have their identification cards with them. These I.D. cards will be shown to the ticket takers at the MSC student gate at Naranche Stadium in Butte.

On the ticket for the game, your section is clearly marked in the upper right hand corner. MSC students will occupy the south bleachers and will enter the stadium at the south gate on Main street.

Student wives must bring their activity tickets with them in order to be admitted to the stadium.

Remember to bring your I.D. card with you.

STUDENTS!

In order to be sure of correct addresses in the new Fusser's Guide, please stop at the registrar's office THIS WEEK to correct your directory cards.

Leap Year Combines With Pan-Hel. Council

Prevailing in the spotlight of the summer's activities were wedding gowns and engagement rings and pins.

Miron Gives Data on GI Insurance

Veterans who hold active National Service (G.I.) Life Insurance policies are urged by the Veterans Administration to give up policies a three-way check to make certain they conform to their plans, incomes and obligations.

Robert A. Miron, VA representative at MSC, said veterans should make certain that their insurance files contain: (1) the proper beneficiaries, both principal and contingent; (2) the manner desired for proceeds of the insurance to be paid beneficiaries; and (3) the amount and type of insurance the veteran desires to keep in force.

Mr. Miron said the VA is calling attention of veterans to the need of bringing their G.I. policies up-to-date because many have neglected to name new beneficiaries after marriage, divorce or the death of one or more of the original beneficiaries.

Mr. Miron warns that in the event a veteran dies without naming a beneficiary, proceeds from his G.I. insurance go to his estate and will be subject to various taxes. In such cases, it is possible the proceeds may not go to the beneficiary actually intended by the veteran.

VA regulations also now provide four optional methods for payment of G.I. insurance proceeds in the event of a veteran's death. Veterans should request their desired settlement.

A final reminder issued by the VA urges veterans to always pay their insurance payments on the

due date and thus avoid lapsing the policies. Premiums may be paid by the month, quarter, semi-annually or annually, with a discount credited all those paid in advance other than monthly.

Most veterans attending school or college full-time under the G.I. Bill may work part-time and still draw full subsistence pay from the Veterans Administration, the VA has announced.

Veteran-students may earn as much as they desire on outside jobs, as long as their earned wages plus VA subsistence does not exceed authorized income ceilings.

These income ceilings are: \$210 monthly for veterans without dependents; \$270 for veterans with one dependent; and \$290 for veterans with two or more dependents. The ceilings were established under legislation passed by the 80th Congress.

In event a veteran's earned income plus VA subsistence allowance exceeds the monthly ceiling, the VA must reduce the amount of subsistence to keep the veteran within authorized income limits.

Veteran-students without dependents now receive up to \$75 a month in VA subsistence pay, while those with one dependent draw up to \$105. Veterans with two or more dependents are entitled to up to \$120 monthly in G.I. subsistence.

Upon enrolling, veterans must certify as to their expected monthly incomes and report to the

The first prize for lawn decorations welcoming alumni during Homecoming was won by the Kappa Sigma fraternity.

Sweater Styles

Sweaters this year are becoming more feminine. Instead of the boxy sweaters that we have seen in the past we find short sleeve fitted sweaters. They have been varied this year with the addition of collars, buttons down the back, and some have designs in the knit of the sweater.

Women's styles are getting more feminine each year. The straight

VA whenever their income exceeds their authorized limits.

skirt is definitely outstanding this year. The ballerina skirt is not seen much this year, however the modified ballerina is seen some. Many of the skirts have the new look in the back with the addition of bustles and gathers.

Hats are smaller and off the face this year.

The clothes are much simpler and are dressed up with the different types of jewelry suitable for the dress and occasion.

However, we cannot discard our old styles just like that, so we still see some on the campus and probably will for some time.

To the Editor

Dear Stu:
 Well Stu, it seems to be all over, all but the "Back Patting" anyway. From all reports the 1948 HOMECOMING was a huge success. It wasn't a success because of the visiting Alumni or the Public Service department either, but the people that put it over were the students here at MSC.

The overall plan guided by Sid Engstrom and Co-chairmen Carol Kelly, Jack Marquis, John Gander and Keith Wright, went about as smoothly as any convention ever has.

To George Barth and his gang, and Martha Saunders and her girls, goes a big "huzza"! Their cooperation and help during the entire program was invaluable and it seemed that wherever there was a gap in the bridge, the Spurs and Fangs were right there to fill it.

The M club rates an extra pat on the back also for their work on the smoker and their help and cooperation in the whole program.

I wish to state also that the members of Septemvirii under the direction of "Big Mac" did a very fine job on the Frosh-Soph class scrap. Bob Fleiger and the boys from the Athletic department did a wonderful job with the cross country race.

To Commissioner of Demonstrations Bob Stanbury, Com. of Mus-

ic Bob Mercer, Com. of Dramatics Jack Griffith and Publicity Chairman Tom Robischon, I can only say "Mucho Gratius". It was a wonderful job you fellows did.

To Marjorie Paisley and the fellows and gals that helped her with the barbecue, I don't really know how to express my sincere gratitude.

The Music department with Mr. Opp, Mr. Howard and Mr. Sedivy, rate a couple extra hardy handshakes for their cooperation and affiliation during the entire show. Ed Sedivy rates a couple more slaps on the back for his all-out effort towards the organization of the half-time pageant and overall help.

To Col. Renfro and the entire Military department, thanks soldiers.

I might add that I have never received, expected to receive or have seen such overwhelming support as was given by the organized houses and Associated Independents. Each and every one of them supported this program to the last member. Without your help, students, it would have been

an entire flop.
 I wish to thank you one and all personally, but as you know that is impossible. I can, however, say that the support you gave in welcoming your alumni back will not be forgotten by anyone on the MSC campus.

I could rave on like this for pages thanking everyone that helped put Homecoming over, but I know that your Exponent budget won't stand it, because I would have to thank every student at MSC. I say again, thanks, students, and if you think the celebration was a success, just reach around, each and every one of you, and pat yourself on the back, and say you're a pretty darn good Joe, pardner. You did a swell job. Without your help it would have been a flop.

And Stu, give yourself and your Exponent crew a couple of extra handshakes, too. Your cooperation and the extra burden you carried did not go by unnoticed. It was a grand job excellently performed.

To all others that carried an overload, the teachers, Sanford Wheeler and his entire play cast, the Division deans, the Bobcat squad, the townspeople and all the staff clerks and college help that were overloaded, I say "thanks fellows" with a lump of gratitude in my throat.

It was a great day.
 Very Sincerely Yours,
 J. R. "Bob" Thompson
 Assistant Director
 Public Service division

Swedish Economist Discusses Co-ops

Dr. Sven Holmstrom, agricultural economist for the Federation of Swedish Farmers' Associations discussed "Cooperatives and the Agricultural Situation in Sweden" at a meeting in the Agricultural building on Friday afternoon, October 8.

Faculty members and interested students attended Dr. Holmstrom's lecture.

The Swedish economist also addressed a class in agricultural economics during his visit to the campus.

Credit for Service School Available to MSC Veterans

Each year it seems that a large group of veterans have not known that in many instances they may receive college credit for work taken in service schools of the armed forces.

Not all of the training received in such schools is worth credit toward college graduation, but a great deal of it is, and it is worthwhile to have these credits evaluated and have them entered on the veteran's college record. Some of these credits will be useful as electives and some as direct substitutions for certain required courses in the various curricula. The question of substitution of such credits is a matter to be settled with the class adviser.

Any veteran who has an honorable discharge automatically receives credit for the first two years of Military Science (Basic Course—M.S. 101-2-3 and 201-2-3) and the first year of Physical Education required in most curricula (H and PE 101-2-3).

If a veteran received a commission (2d Lt., Ensign, or higher), he may also receive 16 credits for Advanced Military training.

For credits other than these, it is necessary for the Registration Committee to have the student's "record of training" showing (a) the name(s) of the course or courses, (b) the hours of instruction, and (c) the grades received.

To obtain these records, the veteran should first consult the Veterans Administration adviser (in Bridger Hall) to find out just

where he should write for the copies of his record. Then he should request these records, and it will be very helpful if the veteran can give the names and locations (with dates) of all service schools attended.

When the records are received they should be taken to Professor Arthur J. M. Johnson of the Physics Department (basement of Montana Hall), who is a member of the Registration Committee. The work will be evaluated in accordance with the recommendations of the American Council on Education.

The veteran should keep in mind, too, that there is such a wide variety of training, of records, etc., that there are many special cases which cannot be discussed in the general direction given above. For example, if a veteran has a diploma from a service school, it may give all the information needed for the evaluation of the course; but in many cases these diplomas do not even give a grade or proficiency rating and are quite useless to the committee. Others contain exact information needed.

If there is any doubt, the veteran should not hesitate to consult with Professor Johnson.

Face the Facts

In the United States during the past few years there has been a decline in education. This fall's enrollment indicates a decrease in boys' enrollment. This decrease may amount to as much as 60 percent in the next two years.

The glint in the eyes of some so-called educators and their readiness to take advantage of the veterans and some of the provisions of the GI Bill of Rights and Public Law 16 have left a taste in the mouths of many people.

This may be one of the reasons why many people do not know and do not care to know what is happening to our educational systems.

On November 2, Referendums 51 and 52 will be placed before the voters of Montana.

During the past two years the six units of the Greater University of Montana has been spending more than the revenue from general tax millage. This source of revenue has come from the Veterans' Administration as part payment for the education of veterans. *This will not continue.*

Montana State college and the other units of the Greater University need increased financial support for faculty salaries and buildings, if Montana is to maintain her present educational level.

On the campuses, within the last few years, there has appeared a number of unsightly, temporary buildings, some of them are surplus. They are serving as classrooms, laboratories and housing units.

Montana State college must be able to raise the salaries of its faculty. Unless this is done, more and more of the promising and able instructors of its staff will leave. It will be impossible to fill these positions with competent individuals. Nearly a quarter of a million dollars increase in appropriations are needed to make salary adjustments necessary to equal the rise in the cost of living to the present time.

Last year MSC had a student-teacher ratio of about 16 to 1. Before the war, the ratio was 20 to 1. The national average before the war was less than 11 to 1. Although MSC has doubled its teaching staff to handle an enrollment of 3000 students, the ratio of more than 100 teachers (an increase of about one-third of the present staff size) is necessary to bring the student-teacher ratio at MSC to the pre-war national ratio.

Referendum 51 does not call for an increase of six mills as many people believe. There is now in effect a 3½ mill levy. Referendum 51 only permits the legislature to levy up to 6 mills.

From the estimated total tax bill of Montana in 1947-48 the Greater University's share was 3 percent. This University's share of Montana property tax dollar was only 3.63 percent.

As this is not a new tax, the increase in an individual's tax bill is small. For a person owning a house assessed at \$10,000, the increase—the maximum increase—is \$15 a year in taxes. It is to be noted that the tax increase might be less than this, as the state legislature will set the millage levy for each biennium.

Let the following figures be a criteria of what we have been doing for our entire student populations, public schools and the Greater University system alike. In 1947, Montanans spent \$35,000,000 on liquor. In 1947, Montanans spent \$89,000,000 on luxury goods. But in 1947, Montanans spent only \$25,642,000 on their education.

The time has come for Montanans to make available higher salaries, adequate classrooms, laboratories, and housing to meet the needs of the educational rise. *The time is November 2. Support is the passage of 51 and 52.*

—Editor

We've Got It

This is the season of sunny, brisk afternoons, cheering crowds, football classics.

On Saturday, our fighting Bobcats will be contributing their enthusiasm and ability to this national picture, at Naranche stadium battle.

"Old man weather" may not smile, as *he* should, on that crowded stadium. "Dame Fortune" may not smile, as *she* should, on our colorful Blue and Gold gridders. But, there is no outside influence to control those cheering throngs. That is solely dependent upon the crowds themselves.

The Copper Bowl classic has been the most heavily attended athletic contest in Montana, attracting spectators from every corner of our state.

This Copper Bowl classic will give an opportunity to the student body, faculty, and townspeople here in Bozeman, to show, regardless of the weather, and regardless of the outcome of the game, that there is not a more finely supported team anywhere than the Bobcats.

We, at Montana State, "Stand Up and Cheer". We are sons and daughters of the Blue and Gold, now and forever.

Win, lose, or draw, we have an undaunted, unmatched spirit!

—Associate Editor

Community Chest

The Community Chest of Bozeman is our collective pocketbook. Local youth groups and our state youth welfare agencies look to us for support. The outward and visible sign of our affectionate responsibility for the future citizens (*All My Sons*) is the generosity of our donations to our Community Chest.

Know Your Students' Store

This is the second of several articles to be printed by the Exponent on the Associated Student's Store. It is hoped that the articles will answer most of the students' questions on the organization, supervision, and policies of the store. —Editor's Note.

Within the broad outlines of the articles of incorporation, the board of directors sets the general aims and policies of the corporation. The manager, who at present is Ed Howard, is hired by the directors to carry out their policies.

The articles of incorporation state as the purposes of the store the following:

(1) To promote and foster the educational, intellectual, social, and athletic interests of the student body and faculty of Montana State college.

(2) To provide text books, stationery, confectionery, and other student supplies and commodities of whatsoever kind or description at the lowest cost consistent with the welfare of the store.

(3) To distribute periodicals, student publications, tickets to

athletic contests and all student social functions.

The articles of incorporation also state:

Pecuniary profit to members shall not be an object of the Associated Students' Store, nor shall any dividends be distributed to the members of the corporation. All accumulation of funds over and above the needs of the store shall be paid into the general fund of the Associated Students of Montana State college, to be used for the furtherance of athletic and social activities among the students of said college.

Some of the policies set by the directors are as follows:

(1) Undergraduate students will be employed to do as much of the work as possible in the store. Preference will be given upper classmen, since they have more invested in their education than do freshmen. (At the present time, the store has four full time employees including the manager,

and 28 students working part time.)

(2) Matters of financial policy such as wages and salaries, leases and rents, acquisition of equipment and fixtures, and the borrowing of money, are a direct responsibility of the directors and must be set and approved by them.

(3) The financial records of the corporation shall be audited by a certified public accountant at the close of each fiscal year.

(4) The manager is given the responsibility of handling the affairs of the corporation on a sound business basis. It is his responsibility to hire and train all personnel needed by the store.

How many million times today?

MORE THAN 305 million times today and every day, Bell telephone users reach out to make or answer calls.

Day and night, you count on your telephone to work. And it does.

That's because Bell telephone people are old hands at giving good service—and because Western Electric people have always made good telephones, switchboards and cable.

Ever since 1882, Western Electric has been the manufacturing unit of the Bell System—helping to make your telephone service the best on earth.

Western Electric

A UNIT OF THE BELL SYSTEM SINCE 1882

Cats to Test Silvertip Strength 'Up Front

By BILL ARNDT

Concerning the Grizzly-Bobcat tussle at Butte Saturday, rumor has it that Missoula's line will figure strongly in the results. In contrast to Fessenden's stellar backfield, the ailing MSU line has looked sorry indeed this season, especially at Great Falls when little Cheney stopped the Grizzlies aerial attack seldom clicks behind the two-man line of Sam Leeper and Mike Kumpuris.

Fessenden's veteran field general and passer, John Holding, will be at the helm of the Grizzly "T" Saturday. Sophomore Tommy Kingsford, one of the outright deadliest passers Missoula has possessed in many moons, will also be seen in the quarterback slot. Captain Jack O'Loughlin, a dependable Bruin performer, will see action at half or fullback. At half, dangerous Roy Malcolm, ultra-fast runner, is a constant threat. Dan "Bunny" Radakovich, top Grizzly scorer last year, will be out to repeat this touchdown runs against the Bobcats. Frank Kalisch and Rolly Hamerness are also on the list of ball carriers to watch for.

Averaging 195 pounds, the Silvertip line is the lightest in the coast conference. Frank Briney, nifty pass catcher, and Ray Bauer will probably start at end. At tackle it is uncertain with Henry Ford, Lee Cork, and Robert Anderson as possibilities. Frank Semansky and Mike Kumpuris will handle the guard assignments and Sam Leeper will be over the ball.

Carpenter's crew claims a two and two average in four games, but the only bright spot in the MSU record for as many starts is the 27 to 0 rout of Pacific university. Cheney Savages climbed all over Fessenden's prize passers, Kingford and Holding, in the first tilt of the season at Great Falls, and the next weekend Utah State spanked the Grizzlies 18 to 7 on Dornblazer Field. Between yawns WSC mildly slaughtered the Bears 48 to 0 last Saturday in the Missoula homecoming game.

The Copper Bowl, which will go to the victor at Butte, has been in MSC's trophy case since last fall when the Bobcats put the skids under the Grizzlies for the first time since 1933. With twenty-odd lettermen from the powerful '47-48 squad which lost four of eleven games, MSU will play hands down at Butte to explode Bobcat hopes for two wins in a row.

Cottam Holds Down Headache Position

Replacing Val Glynn this year in the graduate managers desk in the gymnasium is Hugh Cottam, Bobcat triple threat sports star of the late twenties.

Cottam graduated from MSC in 1928 with a degree in physical education. He was an outstanding athlete for the Blue and Gold during his stay in Bozeman, winning four letters in both basketball and track and three letters in football.

Graduate Manager Cottam

After leaving State, Cottam assumed the position of head coach at Havre high school for five years. He spent the next ten years as a sporting goods salesman out of Minneapolis. In 1943 he became a field director for the American Red Cross and was stationed at Scott Field, Ill., and Great Falls Army air base.

In 1945 he took over the job of coach of all athletics at Hardin high and coached the top-notch Hardin squads of '46, '47, and '48. During Cottam's stay at Hardin, his teams won 71 out of 73 athletic contests, football and basketball included.

Cottam's graduate work has been taken at the University of

TIME OUT FOR WOMEN'S SPORTS

by Peg Fisher

The first general WAA meeting will be held October 14, at 7:30 in the gym. This is the time for both old and new prospective members to find out about the point and council system. Refreshments and entertainment will be provided and the facilities of the department will be open.

Dues of one dollar for the year include the WAA handbook. These dues can be paid at the general, or on October 18, 19, and 20 from 9:00 to 5:00 in the Student Union.

The volleyball tournament will start October 21 with the first practice game to start at 8:30. All interested girls should sign up at the general meeting.

The pool will be open every Saturday after October 23 from 11:00 to 12:00. Recreational swimming will also start October 14 after the meeting. Remember that only regulation tank suits can be worn in the pool. Swimmers can rent suits at the gym or buy them at the book store.

Louise Carlson is the new modern dance manager and Vi Evans is the fencing manager. Miss Davidson is the fencing instructor, so all interested people are urged to contact her.

That's all for now and we'll see you all at the general meeting Thursday night.

California and Rocky Mountain college. He is now an assistant professor of physical education here at State.

His work as graduate manager includes taking charge of seating arrangements at all home games, arranging for team transportation to out-of-town contests, and in general acting as a go-between for the athletic department and the general public.

Ski Hill Gets New Look With Winter's Advent

For the past several weeks, members of the Bozeman Ski club have been spending their Sundays on slope preparing for the first snowfall. New trails are being built and all three of the tows are being put in good shape. However, there is still plenty of work to be done.

Those of you who like lots of room, be sure to plan on coming out next Sunday, or any Sunday when you feel like an afternoon of good invigorating exercise.

Improvements to date are a new telephone line, installation of a new motor for tow number one, and a new super trail from the lodge to the parking area, but help from the MSC Ski club has been sadly lacking. Come on, you skiers, let's see you out on that hill!

Intramural Ball In Close Contest

The Men's Co-op and AG lead Blue league while Sigma and Pi Kappa Alpha are tied first in the Gold league. This table does not contain some of the recent games because scores have not been turned in. Bob Fliieger asks that the scores be posted as soon after the game as possible.

Perrigo Sets Up Winning Tally

Harry Perrigo, speedy Cat end, No. 45, sets up the winning touchdown with a 53-yard gallop in fourth quarter of the Sioux battle as two North Dakotans race to stop him.

Cats Scalp Sioux in Rough Fray As State Wins Homecoming Game; Marshall and Perrigo Star

A pass from Quarterback Ed Gorrilla to End Harry Perrigo that resulted in a 53 yard gain set up the winning touchdown for the Bobcats' 12 to 6 Homecoming victory over the North Dakota Sioux last Saturday.

After trailing 0 to 6 at the end of the fumble-filled first half, the Bobcats roared back to score in both the third and fourth quarters.

Herb Claffy, a 155 pound speedster, gave North Dakota a touchdown lead in the second period by twisting and turning through the Bobcat squad on a 32 yard run to score. The half time gun ended a Bobcat drive that had gone 58 yards on a clicking Gardner to Kinney pass combination to the NDU eight yard line.

Early in the third period Bill Boston recovered a Sioux fumble on the NDU seven yard line. After three linebacks had failed to give a score, Adam Marshall rounded right end for three yards and six points.

After Perrigo's fourth quarter run, Fullback Milt Clawson raced around right end for the winning touchdown. A NDU fumble on the MSC twelve yard stripe ended the last Sioux threat as the game ended.

Gander Repeats In Cross-Country

John Gander won the Homecoming Cross Country race for the second time by outspinting Jim Ward the last hundred yards.

Gander, AGR, and Ward, SX, ran together throughout the race and the winning time was 15:5.9.

Don Gray, Butte Rats, was an easy third, and Les Wheeler, SX, nosed out Bill Jackson, Co-op. Bill Gander, AGR, and John's younger brother, placed sixth.

The Sigma Chi's copped team honors with 259 points while AGR placed second with 172 and LXA, third, with 114 points.

Grid Fan Bus Arrangement Ready for Portland Game

Final plans have been completed for the charter bus leaving Bozeman October 22 for the Bobcat-Pilot football clash, in Portland, on October 23.

In an attempt to cut Bobcat boosters' expenses to a minimum, L. C. Woodburn, operator of the local City Bus Line, has designed a schedule that will afford the maximum amount of time in Portland, and still not require room accommodations there.

The BOBCAT VICTORY bus will leave Bozeman Friday, October 22, at 1 p. m., arriving in Portland at 8 a.m. Saturday. The return trip is to depart from Portland at 2 a.m. Sunday, arriving in Bozeman at 11:30 that night.

Portland bound, the bus will have a scheduled supper stop at Missoula, Friday evening. Meal stops on the return trip are scheduled at Pasco, Washington, for breakfast; Coeur d'Alene, Idaho for luncheon; and Missoula, Montana, again for dinner.

Portland headquarters for the BOBCAT VICTORY bus will be at the New Heathman hotel. The "special" will be available to transport rooters to and from the stadium.

Round-trip rates for transportation will be about \$15. Interested

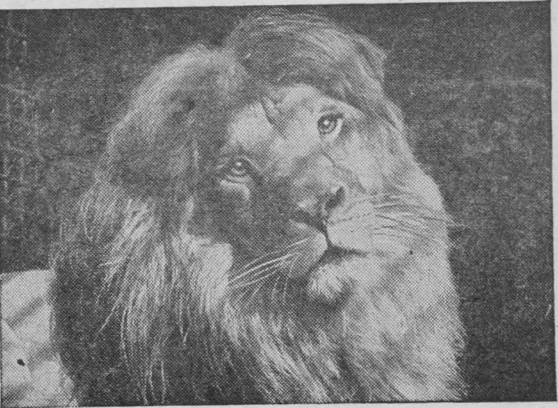

LET'S SING AT BUTTE
Hit the line Montana
Montana wins today
We'll show the sons of Missoula
That the Blue and Gold hold sway
Rush them down the back field
Victory or die—
You can hear the boosters
Cheering as the back go tearing by!

Montana, Montana, Glory of the West,
Of all the States from coast to coast, you're easily the best.
Montana, Montana, Where skies are always blue,
M-O-N-T-A-N-A, Montana! I love you!

Fling wide our colors bright and true,
Sunlight gold and ether blue,
Fit emblem of our college days,
Proudly we our banners raise.
Oh, MSC right loyally,
We offer songs of praise to thee.
Long may our power enduring be,
Alma Mater, Hail to Thee.

persons may still contact Hugh Linn at 1192-R, or Ralph Fix at the Exponent office for reservations.

J. Paul Sheedy* Switched to Wildroot Cream-Oil Because He Flunked The Finger Nail Test

REMEMBER the mane? You should have seen the one on this social lion before he switched to Wildroot Cream-Oil. It was positively beastly! So may we paws to make a suggestion: try a little Wildroot Cream-Oil hair tonic on your own hair. You'll roar with approval when you see how it grooms your hair neatly and naturally without that greasy, plastered down look. How it relieves dryness, removes loose dandruff and helps you pass the Fingernail Test! Wildroot Cream-Oil is non-alcoholic and contains soothing Lanolin. Ask your barber for a professional application. And get a bottle or tube for your den today. You'll find it at any drug or toilet goods counter. We aren't lion when we say you'll like it better than any other hair tonic. Most of the cats do!

Cage Court Opener Sees Cats, Cowboys On Billings Floor

The 1948-49 Bobcat Basketball season is slated to open December 3 at Billings against Wyoming. The Cats has a 26-game schedule so far, with the possibility of two more games.

Ten returning lettermen, eight from last year, and two from the '45-46 season will form the nucleus of this year's team. Fifty-one freshmen have turned out so far for Frosh basketball. The gymnasium promises to be a crowded place for a few weeks.

The schedule as it now stands is as follows: Nov. 26-27, open; Dec. 3-4, Wyoming at Billings; Dec. 10-11, Utah State, Montana State University, Montana State and Wyoming in a tournament at Logan, Utah; Dec. 17-18; Whitworth College at Bozeman; Dec. 20-21, University of No. Dakota at Bozeman; Dec. 31, U. of Nevada at Reno; Jan. 7-8, Colorado College at Colorado Springs; Jan. 10-11, Western State College at Gunnison; Jan. 21-22, Colorado State at Bozeman; Jan. 28-29, Montana State University at Missoula; Feb. 4-5, Idaho State College at Bozeman; Feb. 11-12, Colorado Mines at Bozeman; Feb. 18-19, Idaho State at Idaho Falls, and Idaho State at Pocatello; Feb. 25-26, Montana State University at Bozeman.

Bobcat basketball fans should see some fine basketball this year with a total of eight conference games out of 26.

Webster Heads MSC International Relations Club

The MSC International Relations club was re-activated at a meeting in the SUB Monday, October 4, under the direction of Dr. Robert Dunbar of the history department.

John Webster was re-elected president of the group with Mary Damasco, vice president; Lorna Dawley, secretary; Beverly Harrison, treasurer; and Tom Robison, publicity.

An outline plan of the organization was presented by Dr. Dunbar. Dunbar pointed out that the plan of the IRC is to become informed in regard to every day foreign and domestic affairs; to attend conference meetings with each delegation prepared to discuss freely their particular topics in a round-table discussion; to contact recognized authorities in the field of international relations to address the group; to work with foreign students, extending them a welcome to this campus and to establish IRC groups in Montana high schools.

The MSC chapter of IRC is one of 845 such groups on campuses in the United States and in Canada, South America, South Africa, China, and Iran.

The original organization of IRC was sponsored by the Carnegie Endowment for Peace in 1914 and has grown each year since that time to its present size. It has been active on the MSC campus since 1936.

The next meeting of the group will be Monday, October 18.

Which leads to the observation that two pints make a cavort!

Electrons

At the first meeting this fall, October 11, Lucille B. Bredberg was appointed vice-president in the absence this quarter of Myrna Anderson. A Spudnut sale was scheduled for the week of October 18-22 in the labs.

The annual fall picnic is to be on Sunday, October 24, weather permitting. All chemistry and chemical engineering students and faculty are invited to this autumn frolic to get to know the other students and their faculty outside of class.

The feature of the afternoon will be a softball game between the Chem's and the Chem E's. Tickets are available in the Chemistry office.

Four Foreign Students Enrolled in Home Ec.

Registered this quarter in Home Economics are four foreign students: Despina Triandaphilides, Wan Cheng Chang, Jositi Masand and Lila Bos. Three are graduate students while the fourth is an undergraduate.

Despina Triandaphilides is from Greece. She is being sponsored on a scholarship by the Home Economics club and Phi Upsilon. This spring she will receive her master's degree in Institutional Management. While at MSC, Despina is living at Hamilton Hall.

Wan Cheng Chang is from China. She is attending school with a partial scholarship. At the end

of this year she will receive her master's degree in Foods and Nutrition. Wan Cheng is living at the Home Management House.

From India comes Mrs. Jositi Masand. Mr. Masand is an engineering student at MSC. This spring Mrs. Masand will receive her master's degree in Child Development and Family Relations.

This year shall be the last one on our campus for Lila Bos. She shall graduate this spring in Home Economics Education. After graduation, Lila will return to Luxembourg to teach.

Schrupp

Dana Schrupp, county extension agent at large, has been appointed assistant state 4-H club leader

during the temporary absence Miss Geraldine Fenn, who here late last month for graduate work.

Mr. Schrupp has been with Montana Extension service since last June when he was appointed county agent at large. Previously he had worked with 4-H camps, including the 4-H Builders. Since June of this year he has worked with the Gallatin county agent, at fairs and recently returned to Gallatin county, assumed his 4-H club duties October 1.

Mr. Schrupp graduated from Montana State college last June.

Miss Fenn is enrolled in graduate school of the U. S. Department of Agriculture, George Washington university

Miss Montana State

Pictured at Gatton Field during halftime ceremonies are (L. to R.) attendant Miss Julie Johnson; Homecoming Queen of Montana State, Miss Betty DeKay; and attendant, Miss Rosalie Coleman.

Cut courtesy of the Bozeman Chronicle

Betty DeKay of Helena was crowned queen of the 1948 Homecoming at a pep rally and bonfire held on the campus Friday night. She and her attendants, Rosalie Coleman, Helena, and Julia Johnson, Highwood, led the colorful Homecoming parade.

Chosen from a representative group of senior women students on the basis of appearance, personality and contribution made to the college, Miss DeKay was presented as Miss Montana State between halves at the Montana State-North Dakota U football game Saturday afternoon. She is a senior in art and a member of Alpha Omicron Pi sorority.

The 1948-49 Homecoming Queen was chosen by a definite method, Jack Marquis, co-chairman of the Homecoming program, announced. A list of all the graduating senior

girls was prepared by the registrar's office and at a meeting of the Homecoming committees this list was read. If there was one vote for a girl her name was held and placed on the ballot.

The ballots were prepared on a mimeographed form. There were 46 official ballots cast and each person was instructed to vote for each girl. The 23 candidates were rated 5, 4, 3, 2, or 1 as the voter felt they qualified on personality, activities and beauty. If the person voting did not feel that he knew the girl well enough to give her a rating he was asked to give her two points. In this way each girl had an even chance.

Two representatives from each organized house, two from the Associated Independents, two faculty members and ten people chosen at large were the ones to vote. In

most cases officers of the campus groups were selected to cast the votes for their organization.

The people chosen at large were upperclassmen and in every instance were those who have been active in campus activities and know the senior girls. The voters were required to sign their ballot but Val Glynn, Dean of Men, is the only person that had access to the sealed ballots. It was agreed that the names of the people voting would be held confidential.

The candidate who received the highest number of points is Queen and her attendants are the girls who placed second and third.

Folk Dancing Specialty Of Hoedown Haymakers

At MSC there is an organization, unorganized as it may seem, that is known as the Hoedown Haymakers. Their specialty is folk dancing, learning how to do them and helping others to learn. It is different from most other organizations in that it does not have any dues of any sort. There is no membership list, nobody is asked to sign his name on the dotted line, in fact there are no obligations at all for the membership. No distinction is made between Levis and ties, Independents or Greeks, or between the dancing ability that a person could have and that which he does have.

When the Hoedown Haymakers were organized during the fall quarter of 1946, less than 20 were in attendance at the first meeting. A guitar, two accordians, and a fiddle showed up to help make the music. At that meeting of mostly strangers, there was a mutual feeling of wanting to burn the floor with some folk dancing. There wasn't any broad dancing experience with any single person, in the group, but here was a fellow that could do the Rye Waltz, another from New York, a short sawed-off character, that could do a few variations of the polka, and a girl that knew how the Virginia Reel was done. Somebody else could call square dances and with a little polish on the music the stage was ready. Hoedown history was being made. Since then their dancing vocabulary has been increased to include such dances as the Schottische, Varsouvienne, Black Hawk Waltz, Circle Two-step, Heel and Toe Polka, the Grand March, the old-fashioned waltz and Cotton Eyed Joe.

Rumor has it that the music this year will be from records,

make room for dancing. After two hours of fun and frolic the tables and chairs were replaced by those that were still navigating. A public address system has been wrangled to provide competition for some of the whoops and hollers that may be heard at almost any time.

This organization welcomes the students and faculty members of MSC. It is the place to have fun if one is broke—or if one isn't broke. It is an ideal place to learn to dance or to further ones dancing ability.

Dean Harrison states that the campus seems more attractive this year than ever before. She is pleased with the standards and says that the men as well as the women seem better groomed and more attractive, with the new styles adding much to make the women more feminine. Comments have come to her on the neatness and well groomed appearance of the students as a whole, which, she declares, is an asset to the students in both social and business life.

Wayne Chestnut in RIGHT NOW

The big show in MSC and MSU's football season comes next Saturday in Butte.

It is altogether fitting and proper that the students of MSC conduct themselves as ladies and gentlemen while at the game and in Butte.

But what an order this is with a town like Butte. Counting Meaderville and the Flats there are approximately 250 bars that are wide open. If the Bobcats win again, I believe the temptation is above and beyond most MSC students to properly conduct themselves. Proof of this is shown by the small number of students who wish to go via the train. The great trouble with taking the train is that you don't have time for a party afterwards.

Something that comes to mind in regard to the Bobcat-Grizzly classic is the question whether or not the college should have the following Monday off should they be victorious.

This may be just a cow college but its enrollment is about the same as the "ewe's." There is no reason for a holiday even if we win only one game in fifteen years. Cow college or not, we don't have to act the part.

Senator Murray Gives Full Support To Referendums

Full support of Referendums 51 and 52 was given Monday by Montana's senior senator, James E. Murray.

In a special interview with Exponent reporter, Senator Murray asserted that he was in favor of these referendums that will be placed before Montana voters in November. He further stated that his belief that every boy and girl who wants to go to college should be allowed to do so.

Senator Murray, Democratic nominee for Senator from Montana, was in Bozeman to attend a Democratic rally that featured an address by U. S. Secretary of Agriculture, Charles Brannan.

Secretary Brannan stated that the general European agricultural outlook was improving and that an American farmer could be assured of a market for his products through the assistance of these countries by the Marshall Plan.

Council Formed to Secure Missouri Basin Development

Representatives of various state and federal organizations met to form a council to secure more adequate conservation, development and use of resources in the Missouri basin at a meeting on October 12 at the Clyde McKee, agricultural school, announced. State and federal groups concerned with the administration of natural resources of the Missouri basin in Montana met to discuss methods of eliminating duplication of activities among the organizations involved.

Representatives attending the meeting in the Agricultural School agreed to form an organization consisting of one member from each of the 32 groups concerned. An executive committee of members, to meet monthly to discuss current problems, was organized.

The organization will eliminate duplication of activities by delegating specific fields of activity to the organization best fitted to handle the job, Dean McKee said. The need for such a organization was stated by Dean McKee and four state and federal boards are empowered to do a single job.

Montana State college was represented at the meeting by delegates from the teaching staff of the agricultural school, the extension station and the extension service.

State Report

The initial meeting of the Student Senate was called to order Monday, October 4, at 5 p.m. Hoiland, president.

President Renne and Dean of Education Glenn were present at the meeting. It was decided in the defeat of the University this year that an all college matinee will be held in the Tanbark Monday afternoon to celebrate the victory. (See page 1). Phi Omega, Boy Scout Society, presented their constitution to the Senate in order that they be allowed to go active on the Montana State campus. A motion was made, seconded and carried that the Honorary be allowed to affiliate on the MSC.

The Student Senate is going to help pay for a full-page advertisement in the MSC-football game program in the Referendums 51-52. The second meeting of the Senate was held last Monday, October 12.

Living Co-op Elects Officers

The Living Flying Co-op held its first meeting of the year on October 29 and officers for the 1948-49 year were elected. Bob Hesse was elected president; Harchenko, vice-president; Whalen, second vice-president; Dwight Preston, secretary; Dunlap, treasurer.

New members: Bernard Glenn, Glenn Salo, Ralph Forney, Jay Preston, Ed Peterson, England, Earl Dedman, Lloyd Degen, were admitted to the club.

A. J. M. Johnson and Louis are faculty advisers for the club as the club is now a recognized school activity. Besides the Taylorcraft owned

MSC May Be Site of Plant

The Montana State college campus may become the site of a pilot plant for the conversion of forest waste products to wood sugar molasses, Dean Clyde McKee, school of agriculture, announced.

A conference of forest service personnel and members of the research staffs of the agriculture and engineering experiment stations was held this week to discuss possibilities of such a plant.

Wood sugar molasses has been demonstrated to be as palatable for livestock as beet sugar molasses with no toxic effects, even when fed in quantities far in excess of the normal ration, Dean McKee said. These experiments were conducted over a two year period at the local experiment station.

Additional experiments to determine the nutritive value of wood sugar molasses will begin soon.

New Type Drama Presented at MSC

The three one-act plays presented by the Associated Students last Friday evening as a part of the 1948 Homecoming program were considered very successful by those who attended.

The plays were put on this past summer by the summer quarter students. Some of the parts had to be recast. The advantage of having worked together before was proved in the excellent performance which took place before a large crowd in the Livestock Pavilion.

The serious play "Climb a Golden Stair" by the former Montana State college student Gene Feist especially held the interest of both players and audience.

The fact that the plays took place in the Livestock Pavilion and the audience surrounded the players on all sides, giving them much closer proximity, and better enabling them to both see and hear, was a new element in the presentation of these plays. It is felt that this type of stage for future plays has unlimited possibilities.

Mr. Wheeler plans to produce this fall, winter, and spring quarter plays in the Livestock Pavilion. He will announce the fall play soon.

"What made those red marks on your nose?"
"Glasses."
"How many?"

by the club, three members own planes, a Stinson, a Cessna and a Luscombe. A Hanger Dance sponsored by the Co-op is scheduled for October 29. Further plans will be announced.

Sunday the club met at Gallatin Field where pictures were taken of the members and planes by Louis True.

Butte Bound Students Read Your Tickets

All ticket holders can prevent a jam at the gates if everyone will enter the gates at the stadium that is marked in the upper right hand corner of the ticket. Cooperation of all students is needed and it will be greatly appreciated by the officials at the gate.

Worthington Heads College Chest Drive

Selected by Herold Murdock, Bozeman Community Chest campaign manager, Max Worthington, Public Relations Division Director, will set his force of campus chest collectors into action October 19 for a three-day drive.

The college employees are solicited every year for funds for the chest beneficiaries. Each building will be covered by one or more collectors whose right to collect has been approved by the President's Office.

Because a Veteran's Nursery School exists at the college which is in part a chest beneficiary, a solicitation among students will again be conducted. This school receives \$1,200 from the Chest. It makes it possible for the wife of a veteran, where there is a child, to earn money by working and thus enable the husband to remain in college. The school cares for pre-school age children.

College employees will be asked to give the usual amount—one day's pay. Worthington will set up a special student campaign, but if no solicitor reaches you, leave your gift at his office.

MONTANAN

The first meeting of the Montanan staff will be held Monday afternoon, October 19, at 5 p.m. in the Faculty Lounge. At this time the editorial and business aspects of the book will be explained.

All those persons who signed up in the past two weeks plus any other interested students may attend.

MADEMOISELLE EDITOR—

(Continued from page 1)
Interest in politics, but fortunately MSC is not one of these.

Some of the minor reasons for Miss Garoutte's tour are to get material for possible features, and to see the different types of clothes college women are wearing.

Miss Garoutte wore a white V-necked blouse with a quited collar and cuffs, a light brown patterned scarf, dark brown straight skirt, medium dark hose and cocoa brown shoes with classic Cuban heels. Her hair was short with small curls very close to her head. They could almost be called ringlets. Her only jewelry was a large bronze ring.

President Renne Announces New Faculty Appointments for the Fall Quarter

Many faculty changes, appointments and resignations were approved by the state board of education during July and September.

Appointments approved by the board as announced by President Renne are as follows:

E. A. Willson, associate professor of agricultural economics. He was here last year as visiting professor.

Heinz Antosiewicz, assistant professor of mathematics. He earned a doctor's degree, University of Vienna in 1947; taught mathematics to U. S. forces in Austria during the war and has been doing scientific work with Dr. Grobner, professor of mathematics, University of Innsbruck.

Joseph C. Osborn, assistant professor general engineering. He has a B.S. degree, Purdue university and M.S. degrees from both the University of Michigan and Purdue university. He was instructor in applied mechanics for four years at Purdue university and last year was assistant professor engineering mechanics, Lehigh university.

Lt. G. H. Christiansen, assistant professor of air science in the Military Science department.

John E. Biegel, instructor mathematics. He earned his B.S. degree here last year after two years in the U. S. Navy.

Mae Elizabeth Knebel, instructor in nursing. She earned her B.S. degree here. Experience includes teaching in Dawson county and in Billings.

Ervin Smith, instructor in poultry industry and assistant in the Montana Agricultural Experiment station. Both are part-time positions. He earned his B.S. degree here last year and taught vocational agriculture in Gallatin county high school for two years.

Robert L. Warden, assistant in agronomy, instructor for the Montana Agricultural Experiment station and extension weed specialist. He was assistant in agronomy last year, is a graduate of Montana State college and has nearly three years of service in the U. S. Army air force.

Kenneth Freese, assistant in physical education. He earned his B.S. degree here in 1933.

Mary L. (Peggy) Dunne, assistant in publications. She came here from Colorado A & M college from which she was graduated last June after serving part-time in the editorial office.

Gerald Clary, instructor, botany and bacteriology. He earned his B.S. degree here last year.

Max W. V. Johnson, instructor, chemistry. He earned his B.S. degree, South Dakota School of Mines, last year.

Emil Kindschy, John W. Heidt and Harry Herzel, all 1948 graduates of Montana State college are approved as part-time instructors of mathematics.

Graeme Baker, also a last year graduate of Montana State college is approved as a teaching fellow in the chemistry department.

Albert A. Miron, courtesy appointment as assistant professor, testing and counselling.

Kenneth R. Doane was promoted to associate professor and Laurence Whisler became assistant professor in the education and

psychology department starting September 1. Mr. Whisler earned his B.S. degree at the University of Toronto. For the last two years he has been employed by General Motors Institute, Flint, Mich.

Max E. Kimberly, assistant professor of health and physical education. Kimberly also is assistant football coach. Kimberly is a 1929 graduate of Montana State college, and has a master of arts degree earned at Stanford university.

Alva E. Flower, assistant professor of animal industry and range management. Mr. Flower has B.S. and M.S. degrees, Washington State, has had four years teaching experience and was re-

search assistant in animal industry, Washington State college, for the last two years.

Hugh Cottam, graduate manager and assistant professor health and physical education. Cottam is a 1928 graduate of Montana State college and has taken post graduate work. University of California and Rocky Mountain college. He taught in the Havre high school, was field director for the American Red Cross and recently has been coaching at Hardin.

William H. Burkitt, assistant professor of animal industry and range management. He earned his B.S. degree Colorado A & M college, M.S. degree Washington State and Ph.D., Cornell univer-

sity. For the last two years he has been graduate assistant, animal industry, Cornell university.

Lt. Rex R. Blewett, assistant professor of military science and tactics.

Peter H. Cook is instructor in the music department. He earned his bachelor degree at Oberlin college. He taught at Oberlin and also at the University of Florida.

Mrs. Frances Brown is junior binding assistant in the library.

David H. Drummond, instructor in mechanical engineering. Mr. Drummond earned his B.S. degree at Montana State college in 1948. He has been teaching as a laboratory assistant while completing work for his degree.

James K. Lewis has been appointed a graduate assistant in animal industry and Charles A. Stablein is to be a graduate assistant in the art department.

William H. Hodgson, Jr. and Walter Katz received courtesy ap-

pointments. Mr. Hodgson is low in chemistry and Mr. a research fellow, also in e-

try. Appointments for the M Agricultural Experiment are: Mons. L. Tiegen, graduate assistant in animal industry management; Will Johnston, research fellow in industry and George T. Staar, research fellow in agricultural economics and sociology.

Robert F. Eslick, associate professor of agronomy and Harold Watling, assistant professor of zoology and entomology were granted leaves. Leave is from October 1 to January and Watling the first winter quarters.

Resignations approved are: Leo H. Appel, assistant professor of military science and tactics; Dale G. Smelzer, assistant professor of agronomy and Prof. R. H. Bamberg, associate agronomist.
