The plans have been completed for the weekly amateur program at the Gridiron on Sunday nights. All that is needed now is the participants. Any of you folks who have any talent and are interested in picking up that \$10 first prize money had better hurry. The plan is to run the program each Sunday night at 9 p. m. from now until just before school ends. The winners of the weekly programs will then compete in one big program. The lucky person or persons who win the final will be enriched by the sum of one hundred bucks. There is no limit on the sort of acts that may participate and students of MSC are especially requested to get in on the deal. If you've got the urge to pick up the extra money (and if you haven't, you're either a plutocrat or a lunatic) contact either Max Carlson, Stub Gendreau or call the Hotel Bozeman.

led leadership in advancing public understanding of science and industry." He is a member of Theta Tau, Tau Beta Pi, Sigma Xi, Gamma Alpha, and Phi Beta Kappa.

A veteran of over 29 years in geology and mining, Van Pelt has worked in a variety of jobs including mucker in coal and metal mines, trackman, motorman, surveyor, and as a mill hand in an ore dressing plant.

In 1928 Dr. Van Pelt first joined the Rosenwald Industrial Museum in Chicago, which is now called the Museum of Science and Industry. He was director of the division of geology, mining and metallurgy. Later he became assistant director and then from 1940-45 he was technical director over all technical and scientific divisions.

During World War II he was on leave for government work where he served as a consultant on technical personnel. After the war Dr. Van Pelt accepted an invitation to join the staff of Battelle Memorial Institute of Columbus, Ohio. He did a great deal of work with the institute's "in-service training program." He took an interest in public relations programs and served as chairman of Battelle's committee on publications and public relations.

From 1941 to 1947 Dr. Van Pelt served as director of the American Institute of Mining and Metallurgical Engineers, of which he is a life member. He also served as vice president from 1944 to 1947 in this professional organization.

Dr. Van Pelt served as president of the Western Society of Engineers from 1936-37.

I like the way Bud Yost speaks to a person regardless of how often he meets him on the campus ... Chuck Mitchel looks quite at home on a dance floor ... Ditto Bob Quesenberry ... Green grass, blue skies, baseball, tennis, couples handing hands and picnics—spring comes to Bozeman—again ... The consensus of masculine opinion is that MSC she-males are dressing better than ever before ... Congrats to Jerry Quinney, Walt Kramis and Al Meide for coping fifth place in the National Intercollegiate Air Meet in Oklahoma ... While I'm tossing nice words around I may as well give the current occupants of Hudson House a compliment for finally getting the dorm organized and adopting a constitution. There's been several attempts to do both things but it

LETTERS TO THE EDITOR

Editor,
An idea has been swimming
around in my mind which I would
like to share with the student
body. I am sure the idea will sell
like cast iron shoes, but I feel
obligated to give it voice, never-
theless.

Once in the autumn, again in
the spring, a group of students
known only to God and the faculty
have themselves delegated to the
task of painting the "M". These
fortunate are otherwise known
as freshmen.

Freshmen, if they think at all—
that, probably realize the upper
classmen who are figuratively
climbing them up the mountains,
did the same themselves. The
upper classmen are also acutely aware the

upper classmen did not perform
this tradition because they wanted
to do it, but because they had to
do it. For the remainder of their
college career, students remember
M-day as the day when they, part
of an unorganized mass, stumbled
up the hill with a bag of lime or
a can of water and made a few
passes at patching up the "M".

We at MSC have every right to
be proud of our "M". It received
nationwide notice in Life maga-
zine a year or so ago as the second
largest "M" in these United States.

There are many activities about
the campus in which students can
take part individually. The bi-
annual painting of the "M" is an
activity which all students could
and should take part in collective-

ly. It would and should stand as a
symbol of our loyalty to Montana
State college.

One is not born with loyalty. It
is an intangible quality manifest-
ing itself with the passage of
time. In college a freshman knows
no loyalty to traditions. He or
she acquires it, if they are ever
going to, in the following three
years.

Therefore, I purpose to remove
the painting of the "M" from the
category of an unpleasant task
which we literally shove onto our
younger brothers and sisters and
make it a privilege.

I suggest the Freshmen be com-
pelled to gather at the foot of the
mountain and watch while the
sophomores, juniors and seniors
show these would-be students (I
use the term loosely) how the "M"
should be painted. I further sug-
gest no frosh be allowed on the
mountain proper that day. One
can imagine how eagerly they will

await the time when they too can
climb the "M" while next year's
freshmen wait ignominiously
down below.

No student is allowed to play
with the Bobcats until he has
attended MSC one year. Why not
do the same on "M" day?

Back in 1916 it wasn't the fresh-
men who laid out and completed
the "M". It was the sophomores
who graduated in 1918. (See Mon-
tanan 1918).

Ai-M-lessly yours,
Jack Nickerson.

Dear Bill:

The 21st Annual High School
week at Montana State college
held last week was a distinct suc-
cess.

It was successful because of the
excellent cooperation and team
work of severalhundred students
and faculty members. Special
commendation is due the chairmen

and members of the 27 student
and faculty committees who car-
ried the heaviest load. But the
"show couldn't go on" if it were
not for the fine assistance given
by all who participated: the Fangs,
Spurs, the Bobcat Band, Inter-
lamous M Club, College 4-H Club,
Service Shop,—the—well, every-
body—there isn't room to list them
all.

We think High School Week is
one of the most important events
held on the Campus. We want to
pass along the expressions of ap-
preciation this year from the 490
high school delegates and the 82
administrators who were in at-
tendance this year.

Committee,

Helena Boy Wins Top Honors In High School Week Scholastics

Dale W. Jorgenson of Helena was the top winner and recipient of the \$200 scholarship award in the scholastic achievement and aptitude tests conducted at Montana State college during the 1951 High School week program which closed Saturday morning with an awards assembly at which the winners were announced.

The scholastic tests covered the fields of mathematics, social studies, physical and biological sciences, and language usage and vocabulary.

Besides the \$200 scholarship awarded to Jorgenson, \$100 scholarships went to Jane V. Atkins and David Myron Near of Bozeman; Patricia Anne Dawson of Boulder, and William Lawrence Hodskiss of Anaconda.

In addition to the scholarship winners, 64 contestants earned blue ribbons. Although blue ribbon winners and scholarship winners are all taken from the senior class, juniors who did qualify in the tests are eligible to compete for scholarships if they enter Montana State college in the fall of 1952.

Sadie Hawkin's Dance Attended By Over 200

Sadie Hawkin's dance was held May 4, and was an all-school costume dance sponsored by Les Bouffon. Over 100 couples attended the dance which was held at the Masonic Temple, all couples wearing costumes interpreting Dogpatch characters.

Important Frosh Women's Assembly To Be June 10

All freshmen women students at Montana State college are urged to attend a pre-woman's day assembly Friday, June 1, in preparation for the annual Woman's Day which will be June 10.

Information will be given the frosh at that time concerning Woman's Day.

Music for the dance was provided by the Men of Note. Chaperones included Mr. and Mrs. A. B. Oviatt, Mr. and Mrs. Ben Brotherton, and Mr. and Mrs. Bucky Maston.

JUNIOR PROM, May 12, 1951

VETERANS REMINDED OF G.I. TRAINING DEADLINE IN JULY

"The July 26 deadline for starting GI Bill courses of education and training for most veterans is exactly three months away.

That date, established by law, should be kept in mind; VA said, by World War II veterans making plans for schooling or training at government expense. This coming summer term, or example, will be the last during which veterans will be permitted to enter or re-enter GI Bill training.

A veteran actually must be in training by the deadline if he wants to continue afterwards. VA will consider him in training, even though he has temporarily interrupted his course for the summer vacation or for other reasons beyond his control, such as re-entry into military service.

Once he completes or discontinues his program of training after the cut-off date, he may not start another course.

Also, he must meet these requirements: He will be expected to pursue his training continuously until completion, except for conditions which normally would cause interruption by any student.

He may change his educational objective only while in training and then for reasons satisfactory to the administrator.

The July 25 cut-off date applies to World War II veterans discharged before July 25, 1947. Veterans discharged after the 1947 date have four years from the date of discharge in which to begin GI Bill training. Most veterans in both groups, however, must finish training by July 25, 1956.

An exception has been made for those who enlisted or re-enlisted under the armed forces voluntary recruitment Act, (between Oct. 6, 1945 and Oct. 5, 1946).

Mulling Over Music

Bob Morrisette

HARRY JAMES will play here for the Junior Prom. This announcement is, of course, ridiculous. Statements like the one above are appearing in college papers every month, but with decreasing frequency. The truth is that the name band is meeting with less popularity than ever before on the nation's campuses.

There are many reasons for this situation—most of them are traced directly to the band or agency. Too many bands regard college dates as a relatively unimportant source of activity—so much so that agencies often cancel dates. Bands fail to show with full strength and are often drunk and give indifferent musical performances. The main objection is the high prices charged. The steep band price must be spread in the cost of the tickets. As the ticket price goes up, the potential attendance goes down. The average student of today cannot pay the price of a class prom unless it is reasonable.

A recent poll taken of colleges which hire big bands reveals that the average price paid is \$1,300 per night. Some samples of prices paid follow: Ralph Flanagan got \$2,250 for a February night; Vaughn Monroe received \$4,500 for a date last May; in January Elliott Lawrence drew \$1,500 for a prom; Harry James got \$3,000 for a May prom and \$2,300 for a similar date in May. Harry Dorsy grabbed \$2,500 for a February job; Tex Beneke got \$1,750 one night last October and \$2,250 on a second evening during the same month. The average price paid was lowered by such bands as Ted Weems, Sam Donahue, Henry Busse and Billy Butterfield, who work for \$800 to \$1,000 a job.

You will note that none of the bands charge a standard price. An outfit will work at the place that pays the most, sometimes even if it means canceling a previous date.

Snow Halts Blue and Gold Grid Drills; Fifty Men On Cat Roster

Fifty players are numbered on the Montana State college football roster as Coach John Mason starts what should have been the third week of spring football practice.

Actually, due to the vagaries of spring weather, it's still the second. Last week's snowstorm prevented the Bobcats from getting their hands on the pigskin until late in the week, after an opening week in which everything went right.

Sixteen lettermen are out for practice, but especially heartening to Mason is the way the new men are responding. Many freshmen and upperclassmen who didn't see action last year are making a definite bid. Men are still being switched around to get the most of their abilities, so positions can't be designated.

Players now out include: Joe Barnett, Manhattan; Bill Leary, and Glenn Limb, Butte; Tom Bleakly, Glendive; Roger Lafond, Malta; Jack Hill, Nashua; Jim Nordlund, Dodson; Bruce Richards, Dick Duncan, Neil Hart, Harold Hallesy, Bob Chesnover, Dick Shaw, Dean Shriver, Tom Welch, Bob Baldwin, Les Wheeler, Tom Young, Jack Fletcher, all of Bozeman.

Ed Rech, Greybull, Wyo.; Morry Sivertson, Deer Lodge; Wil Baugh, Thermopolis, Wyo.; Win Webster, Bedford, Mass.; Don Hammer and Jerry Ragland, Hardin; LeRoy Albrecht, Milwaukee, Wisc.; Don Sivertson, Harlowton; Jack Simonfy, Lewistown.

Jack Edwards, Bob Pickett and Pete McHugh, Helena; Gene Black, Great Falls; Walter Ross, Chelan, Wash.; Jim Mitchell, Centralia, Wash.; Bill Roney, Powell, Wyo.; George McCormick, Havre; George Knobel, Conrad; Doug Wilson, Jackson, Wyo.; and Steve Henault, Darby.

room periods furnish opportunities for both graduate and undergraduate work.

Basic and advanced work is offered in the division of Agriculture, Engineering, Science and Household and Applied Arts. Graduate work leading to a Master's degree is offered in many departments.

Softball Games Resumed

Resuming activity after a brief lapse due to a few inches of snow, the intramural softballers are again banging each other's brains out in hopes of winning the league pennant and the trophy. Unofficial returns show that only two teams are undefeated in the Independent league while there are three non-losers in the Fraternity fracas. Those teams batting 1.000

& M; Gene Williams, Wyoming; and B. J. Smith, MSU.

Montana State's Jim Carrig took individual honors at the affair with his superb performances. Carrig was declared the all-around champion cowboy by placing in almost every event in the two day show. Wyoming's six-man team was rated the top squad among the six competing teams and colleges.

Bob Schild of the University of Idaho was second in the all-around cowboy competition with Gene Williams of Wyoming third, and Art Fulkerson of WSC fourth.

Sunday's events saw MSC's Jim Carrig win the saddle bronc event and place third in average behind Bobcat Bob Sauke. In bareback riding Sauke took first with Carrig and Bob Schild of Idaho tying for second. Lynn Montgomery of MSC was third, while Carrig won the average title in bareback riding.

Roland Mosher of MSC grabbed fourth in calf roping Sunday and fourth in average. Sauke was fourth in the ribbon roping and third in the average in Sunday's show.

Following Wyoming in the team standing for the entire affair was MSC, U. of Idaho, Washington State college, Colorado A & M, and Montana State University.
