Alpha Psi Omega to Sponsor 'Boy With a Cart' During REW

A dramatic reading of "Boy With a Cart," an allegorical play by Christopher Fry will be presented in the Theater of the Student Union building at MSC on January 30-31 and February 1. Sponsored by Alpha Psi Omega, the play is being given as a dramatics honorary. The play, dealing with the pilgrimage of an English boy of the 16th century and his mission to a church, is directed by Jack Beland of the MSC English department. The cast is composed

of Bozeman residents as well as students. Those from Bozeman are Don Krohn, Mrs. Olive Lab, Jack Lutes, Cell Rapkoch, Mrs. Connie Durnan and Mrs. Margaret Dusenberry. Students included in the production are Jim Larson, Sally Borchert, John Brookhart, Doug Duvall and Jane Riegel.

"Boy With a Cart" is being produced as one of the many activities of Religious Emphasis Week, January 27-31. The admission-free performance will begin at 8 p.m. each night.

REW Assemblies Set Next Week

Two general assemblies have been scheduled to be held during Religious Emphasis Week in the gymnasium.

On Monday, Jan. 28, from 10:15 a.m. until 11:15 a.m., the Reverend Harold B. Liebler will be the speaker and has chosen "Why" as the subject of his address. Reverend Liebler is an Episcopal minister from St. Christophers Mission in Bluff, Utah, and brings with him a fine background as an informative and interesting speaker.

Sam Weeks will be in charge of the assembly.

At the Thursday, Jan. 31 assembly a panel discussion will be presented on the topic: "What Do I Have to Offer?" Participating as panel members will be Rabbi Samuel Horowitz spiritual leader at Temple Beth Aaron in Billings; Father Perker who is Dean of Religion and Instructor of German at Carroll College, Helena; Dr. Carl D. Soule of Chicago who has been a member of the Board of World Peace of the Methodist Church since 1945; and Floyd Schmue, a member of the Executive Committee of the American Friends Service Committee.

Miss Jean Painter will be in charge of this assembly.

All students and faculty are cordially invited to attend these assemblies.

Monday and Thursday classes will be shortened and none will be dismissed. Classes will meet as follows:

- 8:00-8:35, First Period.
- 8:45-9:20, Second Period.
- 9:30-10:05, Third Period.
- 10:15-11:15, Assembly Period.
- 11:25-12, Fourth Period.

Full Schedule Planned

Speakers Headline REW Program

Sparked by seven talented speakers, the 1957 Religious Emphasis week program gets underway this Sunday, Jan. 27. A full schedule is listed with assemblies, classroom discussions, seminars, panel discussions, and personal conferences—all centered around the guest speakers.

Representing the Jewish faith is the Rabbi Samuel Horowitz. He is a graduate of the University of Rochester and was ordained a rabbi at the Jewish Institute of Religion in New York City, receiving the degree of Master of Hebrew Letters. He is at present spiritual leader at Temple Beth Aaron in Billings, Montana. Rabbi Horowitz lectures on college campuses under the auspices of the Jewish Chautauqua Society. He was director of Hillel Foundation at University of Washington, served several synagogues and was Assistant Theatre Chaplain in World War II in CBI.

Dr. Frederick T. C. Yu, a Presbyterian, is now Associate Professor of Journalism at Montana State University at Missoula. Dr. Yu received his B.A. in English from the University of Nanking, his M.A. in Journalism from the State University of Iowa, and his Ph.D. in Mass Communications from the State University of Iowa. He has recently published an article entitled "How the Chi-

nese Reds Transfer Mass Grievances into Power", in the *Journalism Quarterly*.

Father Perker, a Catholic priest, is presently Dean of Religion and German instructor at Carroll College in Helena. He was born in Hungary in 1915 and studied Philosophy and Theology at the Gregorian University in Rome. Father Perker arrived in this country in 1952.

Harold Baxter Liebler is an Episcopal minister from St. Christophers Mission, Bluff, Utah. He is qualified to speak on General content of the Faith of Historic Christianity; Christianity Unity—Possible? Probable? Desirable? Special topics include Seminar on Prayer, Race Relations; Navajo and Negro to White Music, its history, with discussion on Plainchant or Gregorian Music. "History and development of Christian worship" and "The father as priest in his own family" are subjects on which he will speak.

Dr. Carl D. Soule of Chicago has been a member of the staff of the Board of World Peace of the Methodist Church since January, 1945. He spent a year in German Universities and traveled in Italy, Palestine and Russia. He also studied social and political conditions in Britain. Dr. Soule has visited the United Nations Headquarters in New York on many occasions and has led seminar groups there.

The Reverend Griffith Williams, a Lutheran, was born in Minneapolis. He received his Bachelor's Degree at St. Olaf in History and Greek and his Theological work at Luther Theological Seminary in St. Paul. He has recently returned from an European trip with Lutheran World Action Directors who were interviewing church and government leaders.

Floyd Schmue is a member of the Executive Committee of the American Friends Service Committee and is director of a civilian relief organization doing reconstruction work in Korea for which he has been cited by American, Japanese, and Korean governments. He attended the University of Washington and the College of Forestry at Syracuse, N. Y. and was director of Puget Sound Academy of Science and biology teacher at the University of Washington and the University of Hawaii.

State Legislators Inspect Campus

Montana legislators of the university system sub-committees of the Senate Finance and Claims committee and the House Appropriations committee toured the MSC campus Wednesday as part of a state-wide inspection of the university units.

The inspection tour is being made to better acquaint the sub-committees with units of the university system before appropriations requests are submitted.

Committee members here were Senators Richard Nixon (D. — Blaine county), and Glen Larson (R.—Saunders), and Representatives H. H. Hess (D. — Hill), George Gleed (R.—Beaverhead), Harrison Reeder (D.—Gallatin), and Claude Gray (D. — Sweet Grass).

President R. R. Renne showed the group the campus, stressing the most crowded and inadequate facilities. Special emphasis was given the engineering, commercial science, chemistry, agricultural engineering, and industrial arts departments. The library and proposed moving of the cattle and dairy barns also received attention.

THE THOUSAND DIMES were donated to the March of Dimes campaign by the Pi Kaps who raised the money during their annual week activities. Shown, left to right, are Dale Beland, Bob Harper, drive chairman, Dan Balzer—Pi Kap president, and Mick Mc-

Athletic Trouble

A Misunderstanding

Through a gross misunderstanding of intent and an apparent mishandling of an editorial item, the athletic department, Coach Dobbie Lambert in particular, and this newspaper have reached a state of "team dissension."

The editorial item in question appeared last week in the Sports Shorts column. It was not received warmly by Lambert and resulted in a Monday summons of the sports editor and editor to the coach's office.

At this get-together, Lambert said that by printing the article, the EXPONENT endorsed it. This isn't true. It was clearly labelled as an editorial written by the editor of another newspaper, which is the same thing as putting it in quotation marks, and we quote different people each week without any intent of endorsement. We also print advertising and straight news matter, yet we don't advocate buying a particular brand or attending all the meetings listed; a somewhat rough parallel, but one that still applies. These are cases where the reader absorbs printed material, then decides for himself whether to believe, buy, or attend.

A valid objection to the article is that the readers did not get a full picture of the situation, and so formed a premature opinion based on the single article. In this respect, our readers are in the same position we are. This is a situation where the facts probably will never be known. No athletic coach will admit a fault that could cost him a job he likes and wants; he will instead try to correct the fault himself before he does lose the job. No athlete will volunteer factual information to the press if he depends on his scholarship for an education, and/or above all wants to participate in sports for personal enjoyment.

So what do we, the readers and the newspaper, do now, knowing we may never find what is really happening? The sensible way seems to be to sit it out, remembering that Montana State college is undergoing a transitional period from small to large, both in enrollment and athletics. A transition like this isn't easy, and sometimes isn't pleasant. But it is necessary for growth.

Another thing to remember is that this newspaper is completely controlled by students. There are few educational institutions in the world that can make this statement, using the word "completely." We're rightly proud of this fact, as everyone connected with MSC should be.

As long as the EXPONENT is student controlled, it has certain rights and certain responsibilities. The right we maintain now is: Although we don't have the power to hire or fire, we can praise or criticize. The responsibility we have to adhere to is: The rights we have are at all time to be used, but must never be abused.

SOMEONE'S HAPPY as Marilyn Dugdale is crowned Miss Pi Week by Dan Balzer, Pi Kap president. Miss Dugdale, an EXPONENT staff member, is a DG from Bozeman majoring in home economics.

UI Coeds Accept 3 Dates a Week

(By Shirley Fousek)

The school year of '57 has found college students thinking of New Year's resolutions which they can easily dispose of. Among other things, and not resorting to the reading of Emily Post, I have managed to compile a few do's and don'ts

The University of Idaho has come out with a new social plan of '57. The latest is that "every coed must accept three dates per week with three different male students. Furthermore, she shall bestow upon each of these males an equal quantity of her feminine charms and affections."

Possible Solution Given

Another answer to help solve the horrible ratio problem was that every out-of-state man entering college bring an extra female along with him.

College gets credit for a number of things, one of them being it helps us grow and develop a so-called adult stability. Just look and see; when we're freshmen we're thrown into hysterics by something that when we're sophomores, we just grit our teeth and bull our way through. And by the time we're seniors we don't even have to grit our teeth.

Dear MSU does have its troubles. It seems the band has gone in for longhair music instead of peppy jive. The cheerleaders have not had a "chance to display their wares" but they could always resort to ballet!

Bull in a China Shop

A college male has more troubles than a cat has fleas. How many times has he run from the building, lunged at the glass door, and then found himself folded flat against the pane, his nose smashed flat? And there are the rare occasions when he tries to be a gentleman by opening the door for his date. He pushes, pulls, or reaches out to try another door and by this time his princess had proceeded through the door unassisted. But we must give him credit for trying.

It is said that when one comes to college he is supposed to take up the nasty habit of studying. It is also said that few brains wear out, more rust out. Just call me "rusty!"

MAN: What a boy becomes when he stops asking his father for a larger allowance and begins asking for a loan.

By George!

How to Succeed in College

... Mattson

As we contemplate a bit on the immense and varied scope of a college education which we are presently in pursuit of, we are suddenly taken aback. When we pause for a moment of thought we realize that with all of the many extra-curricular activities, the idle bits of time-wasting and bull-shooting, and the needless hours of study we are in reality losing sight of the one underlying principle of our four years here at college—namely to get married off.

Many is the slow-witted student who reaches senior status (by foolish and time-squandering study) before he realizes that he is single and that the students who use those other rest rooms are called "Girls" and are supposed to get "Married" and become "Wives."

In the light of this information let us expound a bit upon the subject of "How to Succeed with Women by Really Trying."

The first step on the road is the "Date." Let us outline the procedure:

1. Call girl (not to be confused with proper noun).
2. Ask girl for date.
3. Hang up and think of some girl who might accept.
4. Forget girls and drink,

gamble, or (ugh) study.

Now this brings to mind an important point—Never Give Up. Having assumed that you have made a date let us go on to the (snicker!) procedure while on the date.

1. Confidence—remember you don't have to be good looking, neat, clean, suave, witty, or polite—the only thing that counts is that namely you are a male.

2. Conversation—talk it up, laugh, joke, get your face slapped.

3. Making Out—this is a rather ambiguous term which might be more aptly stated by such terms as, "wanna go see the field house?" or "Hmmm, motor must be flooded."

4. Good Night—this is undoubtedly the most trying part of the date and has such variations as, "Good Night!!" (slam) "Why Henry!!" ... "Mmmmm" ... and, "NO!"

The important thing to remember is that a girl is insulted if you bring her in early—what will the other girls think? Campus her! That's the only way you can pay true tribute to her.

Well, if anyone has any success with this plan let us know and REMEMBER: 'Tis better to have loved and lost—much better.

Rehearsal Started For 'Rainmaker'

Rehearsals for N. Richard Nash's romantic stage success "The Rainmaker" began Monday night in the rehearsal room of the new Theater in the SUB.

Audrey Almy heads the cast as Lizzie, the would-be spinster, who sees hope for herself through the eyes of the wandering, corn-fed con-man, Starbuck—played by Tom Sandenaw. Others in the cast include Neal Roberts as H. C. Curry, Lizzie's father; Jim Larsen as Noah Curry, Lizzie's brothers; Doug Devol as the sheriff, and Carl Smith as File, the sheriff's deputy.

Production is set for the 26, 27, 28, of February, and the 1st of March, plus a special premier performance, the 25th of February for a special dedication ceremony. This performance will be played before a specially invited audience composed of campus leaders and Bozeman dignitaries.

"The Rainmaker" has enjoyed success at home and abroad and has had very successful Television showing. "The Rainmaker" is scheduled to appear in movie form late this spring.

Dance Sign-up Due

Sunday has been set as the deadline for signing up for square dancing lessons. The latest squares and records will be featured with the aim of establishing a square dance club—something found in most other western colleges. An advanced course will be organized if necessary.

Interested persons are urged to apply at the SUB desk by Sunday.

Senate News

Homecoming System Is Improved

By Jeanne Erickson

At the last meeting of the Student Senate, the matter of selecting Homecoming chairmen sooner and with a new application system was discussed in the light of giving full opportunities for the officials to promote a successful Homecoming.

The new system will feature an overall chairman with three subordinate chairmen in charge of publicity, queen selection and promotion, and program. Students who will be seniors next year will be given preference for the office of chairman. Subordinate chairmen will be selected primarily from students with two years left at MSC.

Applications for Homecoming chairman and sub-chairmen are due in the Associated Students box Monday, Jan. 28, at the SUB main desk.

Anyone interested in any of these positions is urged to write

their applications immediately in order to have them in the Senate box in time for their next meeting.

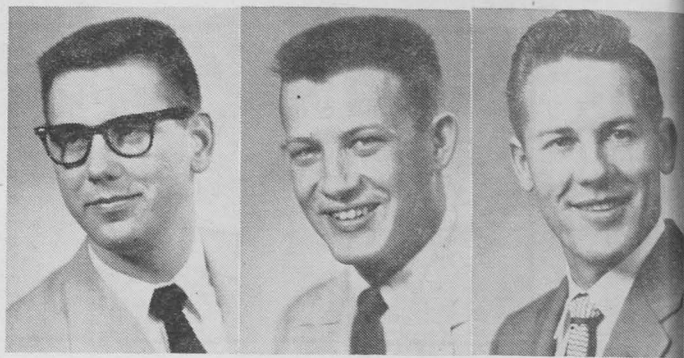

Intramurals came in for its share of discussion along the lines of friction among teams. Some independent students brought the matter to Roy Lashway, SUB commissioner feeling they are being given the "run around."

Wally McRae, commissioner of dramatics, suggested that the concerned individuals bring these "gripes" to Senate meetings where they will be considered and something can be done to correct any misunderstandings.

President Street repeated the idea and emphasized that Senate is here to help iron out problems. Any and all students are asked to come to meetings with their questions, problems or suggestions.

NYLONS: Sheer today and gone tomorrow.

A Campus-to-Career Case History

Claire Hruska (left) discusses progress of a new telephone building with the contractor.

What's a civil engineer's job in the telephone company?

Claire Hruska graduated in 1953 from the University of Washington with a B.S. in Civil Engineering. Today he's with The Pacific Telephone and Telegraph Company.

"I supervise construction at every stage," Claire says. "Every telephone building is designed around the equipment that will be in it. When a building is needed, I work closely with the architect to make sure his plans fit the needs. Then I check the contractors' bids. When the contract is let, it's my responsibility

to see that the builder sticks to the plans in detail.

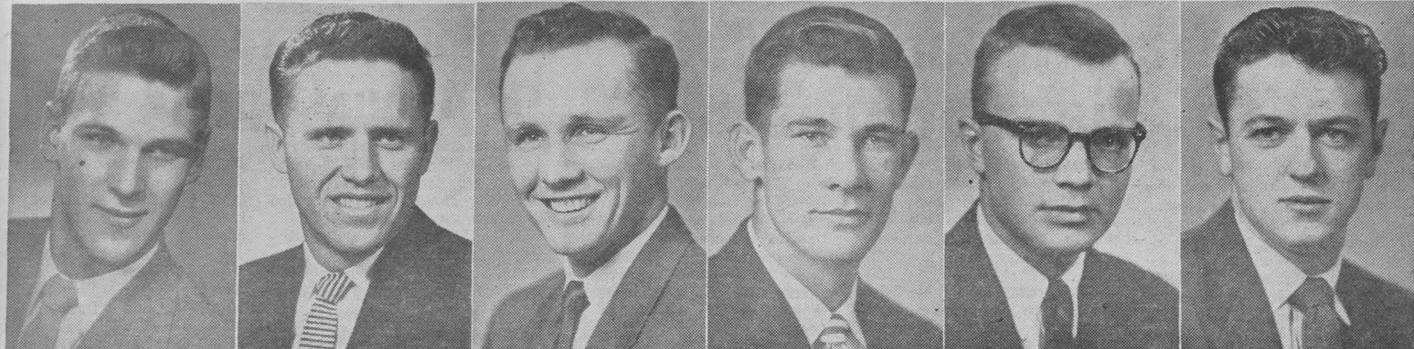

"Right now I'm handling the construction of several telephone exchanges, a large office building in downtown Seattle, and additions to other buildings. It's satisfying work, because I'm on my own a lot, and getting the jobs done is up to me.

"I've got a career that offers big assignments and responsibilities, and real opportunities to get ahead in a business that's growing rapidly. That's what I was looking for."

Claire Hruska is typical of the many young men who are finding rewarding careers in the Bell Telephone System. For more information on career opportunities in the Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation, see your placement officer.

VYING FOR THAT DERBY are candidates representing the nine Men's living groups. Shown left to right (starting on preceding page) are Jack Pierce, AGR; Terry Johnson, KS; Roy Lashway,

LXA; Dave Pirker, PSK; Mack Cole, PKA; Bob Ferguson, SAE; Wally McRae, SX; George Mattson, SN; John Flemming, Men's Co-op.

'King of the Hill' Will Be Named At Annual Dance

By Mary Lou Thomas

This year's King of the Hill will be crowned at the annual all-school Derby Dance February 2, in the SUB ballroom. This girl-mash-boy affair is sponsored by Pi Beta Phi. The proceeds from the dance go to the Pi Beta Phi Settlement School at Gatlinburg, Tennessee.

The school was established in 1912 as a memorial to the Founders of Pi Beta Phi. Down through the years, there has been a gradual development among the people which has made it possible for them to adjust themselves to the changing conditions that have come to their valley with the establishing of the Great Smoky Mountain National Park, and has enabled them to make advantage of the amazing opportunities that are now at hand. At the Settlement School, these people are being educated in old skills, in the three R's, and in the ways of health so they may make their contribution to a growing, changing community life.

Each girl who buys a ticket to the dance is entitled to vote for her choice of King of the Hill from the nine candidates running. Jack Pierce, AGR, is a junior in engineering physics from Dillon. Terry Johnson, KS, who hails from Powell, Wyo., is a junior in architecture. Roy Lashway, LXA, is a junior majoring in commercial science from Vaughn. Dave Pirker, PSK, lives at Trout Creek, and is a senior majoring in industrial arts. Mack Cole, PKA, a junior agriculture student, hails from Hysham. Bob Ferguson, SAE, is a junior commercial science major from Harbin.

Wally McRae, SX, is a junior from Forsyth majoring in zoology and entomology. George Mattson, SN, hails from Yellowstone Park and is a junior in architecture. John Fleming, Men's Co-op, is a junior art major from Butte.

HORS D'OEUVRES: A ham sandwich cut in 40 pieces.

"What really sold me," says Jerry, "was the way they conducted engineering. I'd expected rooms full of engineers at desks. Instead, I found all the informal friendliness of my college lab."

Gerald, an E.E., came directly to IBM from the University of Buffalo, in 1953. Starting as a Technical Engineer, he was immediately assigned to work, with two others, on designing a small calculator. The supervisor of this project was Dr. R. K. Richards, author of "Arithmetic Operation in Digital Computers." Jerry learned a great deal about computers in a very short time. Incidentally, his particular machine is now going into pro-

Assigns problems to his group

duction. As Jerry says, "It makes an engineer feel good to see his project reach the production stage—and to be able to follow it through."

Promoted to Associate Engineer after 16 months, Jerry is now the leader of a nine-man team. He assigns problems to his group for solution, approves their block diagrams and the models they build. Perhaps an hour a day goes into paper work such as requisitioning equipment for his group and reviewing technical publications, in counseling members of his team and preparing for trips to technical society meetings. Apart from his regular responsibilities, he teaches at night in the IBM school.

Why Jerry chose IBM

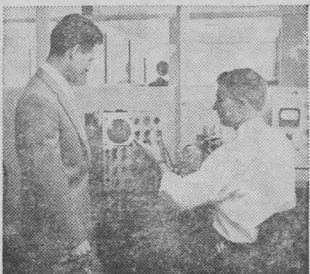

Of course, there were other reasons why Jerry selected IBM. He was vitally interested in computers, and IBM was obviously a leader in the field. He comes from a scientific family

"What's it like to be

A PRODUCT DEVELOPMENT ENGINEER AT IBM?"

Three years ago, college senior Gerald Maley asked himself this question. Today, an Associate Engineer and leader of a nine-man team, Jerry reviews his experience at IBM and gives some pointers that may be helpful to you in taking the first, most important step in your engineering career.

(his brother is a mathematician) and is fascinated by these mathematical marvels which are revolutionizing man's ways of doing things in so many fields. He enjoys working on large equipment . . . and on "pulses." "It's more logical," he says. "In computer

This field is so new

work, you can actually see things happening, which is not the case with all electronic equipment today. And it's not all solid math, either. What's more, this field is so new, that pretty soon you're up with everybody else."

Gerald has done recruiting work himself for IBM and believes he understands some of the college senior's problems. "I usually begin an interview by determining a man's inter-

Reviewing technical publications

est," he reports. "Then the diversity of work at IBM enables me to offer him a job which will challenge that interest." Gerald distinguishes between two kinds of engineers—those who like to work on components, such as circuit designs, and those who are interested in the part the component

plays. The latter is his own interest, which is why he is in advanced machine design. He points out that IBM is careful to take these factors into consideration—another reason, perhaps, why turnover at IBM is less than one-sixth the national average.

What about promotions?

When asked about advancement opportunities at IBM, Jerry says, "You can hardly miss in this field and in this company. They tell me sales about double every five years—which in itself makes promotion almost axiomatic." He endorses the IBM policy of promoting from within, with merit the sole criterion. The salary factor, he remembers, was not his first consideration. While excellent, the tremendous advancement potential was of far greater importance.

Promotion almost axiomatic

IBM hopes this message will give you some idea of what it's like to be an E.E. in Product Development at IBM. There are equal opportunities for I.E.'s, M.E.'s, physicists, mathematicians, and liberal arts majors in IBM's many divisions—Research, Manufacturing Engineering, Sales and Technical Service. Why not drop in and discuss IBM with your Placement Director? He can supply our brochure and tell you when IBM will interview on your campus. Meanwhile, our Manager of Engineering Recruitment, R. A. Whitehorn, will be happy to answer your questions. Just write him at IBM, Room 0000, 590 Madison Ave., New York 22, N. Y.

Bobcat Hardwoodmen Meet Tips Sat. Night at Missoula

By Tom Knapp

Coach Dobbie Lambert and his ten-man traveling squad leave today for the home of the Grizzly bear and in doing so hope to duplicate the football team's example and bring home an MSC victory. The Bobcats and Grizzlies meet in a single contest Saturday night in the old MSU fieldhouse.

It hurts any Bobcat rooster to admit it, but it seems our cousins from Missoula are having quite a successful season. Last season the Grizzlies ended their season with a 4-10 conference record and a good seat in the cellar of the Skyline conference. Currently they have a 3-2 Skyline record and are enjoying the highest position in league standings they have had for many years.

3 Straight Wins

The Grizzlies hold three consecutive conference victories over Denver U., U. of New Mexico, and highly rated Utah, plus a double win over Washington State.

The Bobcats and Grizzlies have had three common rivals this season: Utah, Utah State and Idaho. Both squads lost to Idaho by slim margins. MSC split their series with Utah State (73-78,

100-83) while MSU lost 80-79 to the same team. The Grizzlies upset Utah last week 60-48, MSC having lost 63-56 to the Redskins in the season opener.

Same Team Back

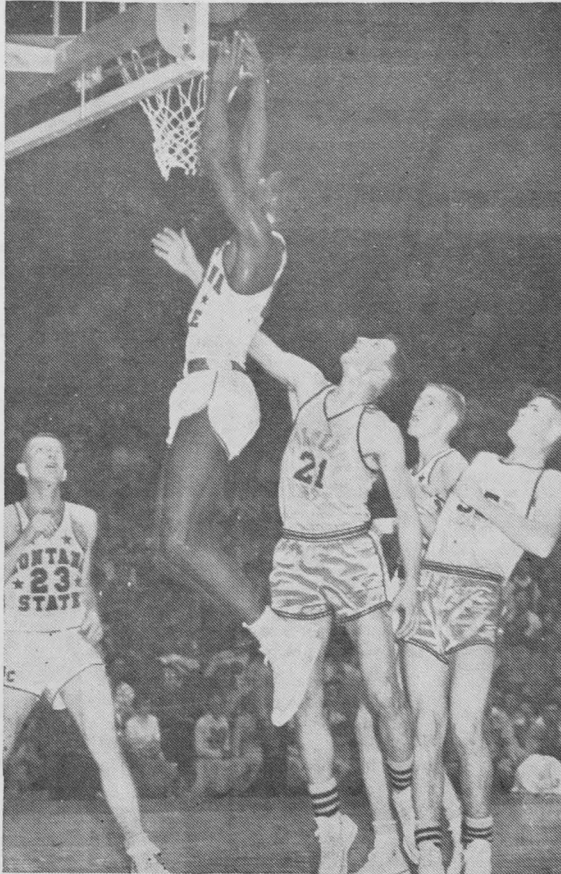

Coach Frosty Cox of MSU has virtually the same team as he did for the 1955-56 season, although a few newcomers have replaced some regulars in the starting lineup. If Cox sticks to the same five who started against Utah, "Zip" Rhoades and Al Dunham will be the forwards, Russ Sheriff at center, Clancy Waters and Hal Erickson at guards. Waters has replaced Ed Berquist, who graduated, and Erickson has taken over the vacancy left by Ray Howard. Howard, a starter for two years is still having trouble with a trick knee and never has returned to the prominence he enjoyed as a sophomore.

Rhoades is a former all-stater from Kalispell who is leading the Grizzly scorers with a 15.7 average. A 6-3 senior letterman, Rhoades is noted for his clever ball handling and deception. Cox claims he is much improved on defense this year and is pushing Rhoades for an all-Skyline position.

Two year letterman, Al Dunham (6-5) is a former all-stater from Shelby, having led them to the state title in 1953. Dunham's biggest asset is his rough style of play, being at his best when the going is toughest. He is a good rebounder and defense man, but cannot be depended upon for large point contributions.

Hal Erickson, (6-1) lettered last year as a reserve and has broken into the starting line-up this season. He was a guard on the football team as a sophomore,

See Grizzlies, page 7

LOOKS EASY—doesn't it? Larry Chanay displays jumping ability as he dunks the ball for "2" in the Colorado State game. Looking on is Andy Matson (23), and Jim Kelly behind two unidentified CSC players.

Fieldhouse to be Site Of Annual Spring Rodeo

MSC's annual spring rodeo, to be held in the new field house, is slated for April 26, 27, and 28 according to the college rodeo club, sponsors of the meet. Shows will be held Friday and Saturday nights and Sunday afternoon. Student activity tickets will be honored one night.

Readiness Assured

Montana State college president, Dr. R. R. Renne, recently assured rodeo club president Edgar Icenoggle that the field house would be far enough along by that time to handle this activity. In the past the rodeo has been held at Belgrade where the success or failure of the show depended primarily upon the vagaries of the weather. It was a hardened rodeo fan who braved the weather to see the 1950, 53, and 54 rodeos. With the fieldhouse it will no longer be necessary to worry about the elements. The club hopes to obtain a well known stock contractor who can supply bucking bulls this year. Bulls have not been seen at the MSC rodeos the last few years.

In preparing for the rodeo Icenoggle announced the appointment of the following committee chairmen: rodeo director, George Brock; arena planning and building, Bill Loney; rodeo parade, Bill Icenoggle; prize list, Bill Nauman; publicity, Leonard Joppa; and intramurals, Clyde Windecker.

The Montana State college rodeo opens the intercollegiate circuit in the Rocky Mountain region. The MSC pokes will then travel to other schools to contest. Some of these rodeos and their dates are: Colorado A&M, May 3 and 4; U. of Wyoming, May 10 and 11; Brigham Young U, May 10 and 11; South Dakota college, May 17 and 18; Chadron State Teachers college, May 17 and 18; Idaho State college, May 24 and 25; and Casper junior college, May 25 and 26.

Optimistic Outlook

The club is looking forward with optimism to the coming season. In addition to such good cowboys from last year as Bill Loney, Bill Skelton, Doug Plummer, and Bill Nauman, there are three returnees from previous years—Bob Delp, Don Heaney, and Dan Frazier. Several cowboys transferred from other schools are Steve Lecompte, Dick Begeman, Tiny Canfield, George Ortnes, and Bill Langley. A number of freshmen will also be battling for starting spots on the traveling team. With all of the material, one of the best years in the history of the Montana State college rodeo team is anticipated.

CAREER GIRL: One who prepares plots and plans to pots and pans.

DIME: A dollar with the tax taken out.

"COLLEGE MEN LIKE OUR CLOTHES"

Sports Shorts

No Offense— —No Endorsement

By Jerry Hietpas

It seems some people took offense by the fact I reprinted an article from the MSU Kaimin written by the Kaimin Editor, John Jansch. Other people read into this article our endorsement. Regarding these above facts please refer to an editorial by Rick Vognild, who states the EXPONENT policy.

How do the players feel about the "dissension" on the basketball squad and athletic department?

Jack Tilley, Jim Butcher, Jim Kelly (and why name them all?) and everyone stated, "We'll admit everything hasn't been perfect in the past, but now we are behind Dobbie 100 per cent and he is an excellent coach; he knows what he's doing, with us and with anything that's he's connected. We've faced rough competition, competition MSC is going to defeat in years to come. We've got tough games yet to play but watch the results in the future."

Personally, I'm happy to relate the Kaimin article backfired on the MSU storyteller. The only result he was after was to get at MSC's basketball squad and to break down our spirit and teamwork. The result he achieved was to strengthen our unity not only in sports but in MSC spirit.

THANKS, JOHN.

If you read this, John, I'd very much like to set you straight on great many things. For example, J. R. Snyder's transcript was requested by Ball State, Muncie, Ind. HE IS NOT ATTENDING WYOMING. HE DOES NOT HAVE ANY ELIGIBILITY LEFT, AS THIS IS HIS FIFTH YEAR.

As it now stands, I confidently await MSC athletic heights, in basketball itself, to reach national ranking in years to come.

Here's to a bigger and better MSC.

KNOW YOUR BOBCATS

By Ev McGlothlin

Bob Patchett — Although this center has seen limited action on the varsity this year, he shows quite a bit of hidden ability in the scoring column. He should help the Cats in future games and with a little polishing up he could make a top notch college roundballer.

Bob transferred from Lees McLea junior college in North Carolina where he was a star center on their conference championship club. He was the leading scorer on the team with 24.5 point average. Bob is a physical education major and is from Kokomo, Ind.

Jack Tilley—Jack moved right into a starting berth and is presently the team's top scorer with 17.5 points per game. He's a stocky hustler and plays Dobbie's type of basketball. Tilley played high school ball under Lambert at Anderson, Ind., and starred as a guard in his conference. He was also an all-stater in Indiana as a prepster.

Jack has spent three years in the army before coming to MSC. He is married and is the team's only father. He is also a physical education major and plans to teach or coach upon graduation.

Intramural Finals Won by SX, SN

Intramural volleyball, finishing before the Christmas vacation, ended with Sigma Chi in first place and SAE close behind. Second, LXA placed third and R fourth for the consolations. Other teams finished in lower places in the play-offs.

Also finished before Christmas were the wrestling intramurals. Team scores and individual winners were recorded. One point was given for each man entering and one point awarded for each match won. If the match was won by a team, an extra point was given to team.

SN placed first with 64 points in second was SX with 58. SX took third with 53 and Independent took fourth with 41. Individual winners in the different weights are as follows: Menor, SX, 123 pounds; WI, IND, 130; Schlechten, SX, 140; Ertz, IND, 147; Shipley, KS, 150; Evans, AGR, 167; Dalande, D, 177; Frederick, SN, HWT.

Cats Overwhelm Bears In Two RMC Victories

The Bobcats capitalized on some sharp passing, a fast break and generally superior manpower to run up a relatively easy 91-57 win over Colorado State College Bears Friday night.

During the first ten minutes of the game, action was not fast and only two points separated the two teams, 17-15 for the Bobcats. Then a flurry of 18 points tanked by the MSC team decided the issue. The Bears failed to hit a point in those six minutes of play which saw the spread go to 35-15 for the Bobcats.

Larry Chanay was in a large measure responsible for Bobcat control of the boards and in addition was effective on a jump shot. He scored 27 points.

Fred Diehl, senior guard and a sharpshooter, led the CSC assault. He personally accounted for 14 of the 19 points the Bears pushed in. In the meantime the MSC team hit but 6. That narrowed the difference to 41-34 for MSC.

By halftime the Bobcats had a 45-33 lead. The margin remained 9-12 points until Matson, Chanay and Tilley opened up a 64-43 difference. Then the gap widened until at one point late in the game the score stood 89-49.

Saturday Game

Montana State college was off to the races early Saturday night

WAA to Start Team Bowling

By Joan Raymond

Do you bowl? Well let's start! With the opening of the new bowling alleys in the Student Union, the WAA has started intramural bowling. There will be eight teams, one from each sorority house and two independent teams. Monday has been tentatively set for this league, consisting of two shifts from 6:30 to 8:30 p.m.

Any girls interested in bowling should join WAA and sign up for the team on which they would like to play. Substitutes are still badly needed.

Joe May, director of the bowling, said he would be willing to help any girls who came down to practice in the afternoons. This would probably give one a lot more confidence and it's only \$1 for three lines. Those of you who do belong to WAA and are bowling now, be sure to have your score sheets signed and then turn them into the WAA bowling manager, Sonja Larson, at the Pi Phi house.

At the end of the season, there will probably be a singles tournament for girls to compete for the WAA bowling award. This is a new challenge and opportunity at MSC. Let's give it a try.

and grabbed their second Rocky Mountain Conference game from Colorado State College Bears. That night the Bobcats won 87-71. Friday night it was a 91-57 victory for MSC.

The outcome was obvious from the beginning as the Cats ran up a 7-1 lead and midway in the first half were in front 20-9. Jim Kelly, Andy Matson and Jim Butcher led the early scoring.

Although Larry Chanay picked up his share of rebounds, he couldn't find the basket as he did when he picked up 27 points. Matson played an outstanding game, particularly on the offensive rebounding.

At half time, the Bobcats were enjoying a 47-26 lead and that margin or better held until the final five minutes of the game. At that time MSC led 82-57. As MSC coach Dobbie Lambert changed combinations and used everybody, the Cats lost their scoring touch and in the closing minutes made but 2 points on free throws by Al Harris and Bob Patchett. Meantime, the Coloradans counted 14 which narrowed the gap. Senior Tom White led the final flurry for the Bears, getting 9 points.

There was no big scorer Saturday night as 8 of the 10 starting players counted in double figures.

Grizzlies . . .

(Continued from page 6)

but gave up football to devote full efforts to basketball. At Sioux Falls (S.D.) high school, he never played on a losing team and was named to the all-state squad. A good all-around player, Erickson is noted for his fine jump shot.

Clancy Waters is a transfer from Dodge City junior college where he was twice nominated for junior college all-American. At DCJC he holds the all-time free throw conversion record with a .911 percentage. Currently, the 6-1 junior has a 10.5 scoring average per game.

Big Russ Sheriff, a 6-8, 208-lb. junior, is having his best season this year at center. He is leading in field goal accuracy with a .440 percentage and is the team's leading rebounder. Sheriff was the key player in MSU's upset victory over Utah, scoring 15 points and grabbing 14 rebounds. In addition, he held Utah's 6-9 center, Pearl Pollard, to seven points and two field goals and five free throws.

Coach Lambert will start his usual five, composed of Jim Butcher and Jack Tilley at guards, Jim Kelly at center, and Larry Chanay and Andy Matson at forwards. Matson has taken over the injured Bill McQuitty's forward post and showed well in MSC's double victory over Colorado State.

Boxing Tourney Plans Announced

Plans for an all-college boxing tournament at Montana State college Feb. 14-15-16 have been announced by Jack Meheen.

This is the first time in several years there will have been any boxing at MSC and Meheen is planning for a series of bouts each of the three nights, matching collegiate glovemans.

College boxing weights are in the classes of 119, 125, 132, 139, 147, 156, 165, 178 lbs. and heavyweight. Contestants use 14 ounce gloves and headgears are required.

Meheen, who formerly boxed at California Polytechnic, came here this fall and started the students working out in the afternoon. He reports that he has a group of a dozen who have worked regularly and still others who have practiced off and on.

"We're interested in the individual person developing his self-confidence and skill in boxing as a sport," Meheen says, "and only as a sport."

He pointed out that college fighters lose their eligibility if they fight anything but high school or college bouts.

Vets Bonus Bill Is Introduced

John W. Makan, Helena attorney, introduced on Jan. 9 a bill to pay the State Korean Veterans bonus. According to Mr. Makan, the author of the bill, a one cent additional tax on cigarettes is proposed to finance bonds totaling 10 million dollars which will be used to pay the bonus. Proposed rate of payment to veterans will be \$10 per month for stateside duty and \$15 per month for duty in the Korean theater between June, 1950, and a date as yet unascertained in 1953.

The state Adjutant General, Chet Shore, has said that he is in favor of passing the bill, which if passed, will promote payment in the spring of 1957.

Mr. Makan, in a letter to the MSC Vet's Ass'n, has suggested that as many veterans as possible go to Helena for the purpose of lobbying in favor of the passage of this bill. Accordingly, the MSC Vets Association is making arrangements to provide transportation for lobbyists interested in going to Helena for this purpose. All persons who will be able to go to Helena are advised to contact one of the following:

William S. Arnold, JU 6-5847; George T. Ratzlaff, JU 6-9628; Fred Scherrer, JU 6-6249; or Hobart W. Clark, JU 7-7785.

Arrangements have been made for excuses for classes missed.

EMILY POST OVERRULED as Sigma Chi Dan Haymes, and Pi Kap Jim Overguard tied for first place in the men's pie eating contest at last Friday's mixer. Ann Painter, DG, took top honors in the women's division.

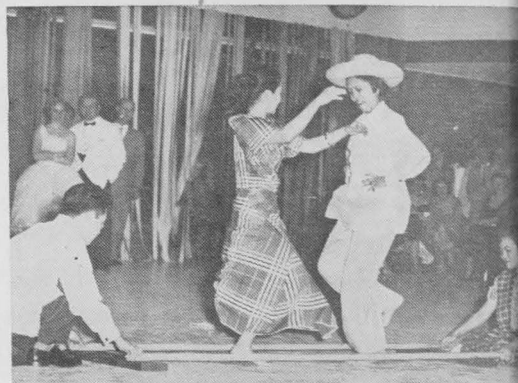

Alpha Zeta Plans Ag Loan Fund

The first Alpha Zeta meeting of winter quarter was held on January 16, and the possibility of establishing an Alpha Zeta Loan Fund was discussed. This loan would be available to needy agriculture students.

It was decided to offer assistance to the collegiate FFA chapter in conducting the state FFA convention in April. A committee was appointed to see about promoting the construction and installation of signs identifying the different buildings on campus.

Chancellor Ron Paige reported on his trip to Washington, D. C. in Sept. where he attended the National Conclave of Alpha Zeta.

Military Ball Set For Feb. 16

Plans for the Military Ball to be held at Montana State college have been announced by student chairmen Ray G. Lembke and Patrick F. Anderson.

Plans for the ball will be furnished by the 46th Army Band and the Montana National Guard. Dates for queen are now chosen.

Edward and Blade, the oldest and most honorary of military organizations sponsoring this annual ball. This organization is made up of cadets from both Army and Air Force units at MSC.

Committees have been organized on plans for the affair. Durfee of Drummond is chairman of the finance committee. Chairman for the other committees include:

Stapleton, Lewistown and Mosby, Miles City, decorapublicity—Eugene Olsen, Gerald Pelzl, Miles, queen—Jerome Siderius, and Bill Mora, Bozeman; decorapublicity—Michael Zunch, Great Falls and William Livingston.

Sam Lance, Billings and Sinclair, Helena are in charge of ticket sales; David, Great Falls and Robert Billings worked on ticket program—Robert Cum-Belgrade and Ronald Eu-

stance, Great Falls; band—Don White, Livingston and Richard Morris, Helena; banquet and initiation—Boyd Hardy, Fairview; George Miller, Big Bend Nation-

al Park, Texas and Ronald Paige, Twin Bridges.

Acting as advisors on the ball are Capt. Robert Carlson and Capt. Stanley Sturgill.

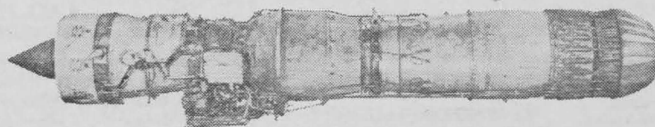

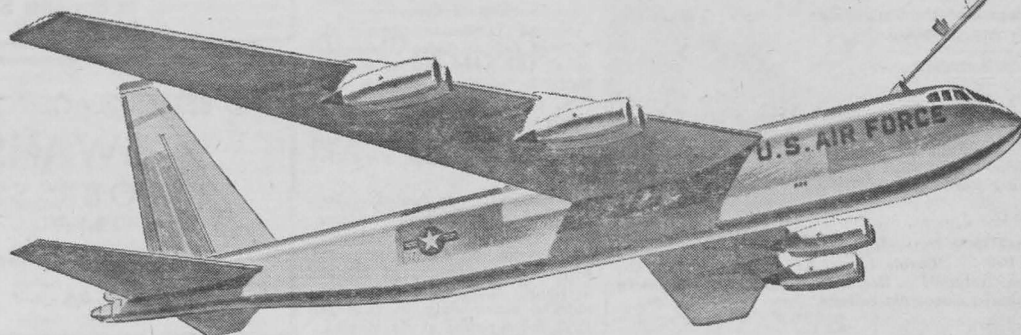

22 Students Head Honor Roll

The fall quarter honor roll was led by 22 A flushes made by Loren W. Acton, Ardis J. Allen, Donald R. Bair, Genevieve S. Burcham, Charles M. Cain, Jr., Wynne Calvert, M. Frances Clark, Lloyd E. Crook, Douglas T. Devol, Myrtle G. Flaskerud, Robert C.

The HUB

Mission accomplished . . . top-of-the-world and back — non-stop

Eight global bombers, powered by mighty turbojets, recently set non-stop records in 16,000- to 17,000-mile flights described as a "routine training mission to demonstrate the capability of the B-52 and the men who fly it". Flying continuously for as long as 32½ hours, the mammoth aircraft — each powered by eight Pratt & Whitney Aircraft J-57 turbojets — winged northward from air bases in California and Maine, over Thule, Greenland, continued to the North Pole, then returned by way of Anchorage, Alaska, to land in San Francisco, Baltimore, or Limestone, Maine.

During this spectacular top-of-the-world mission, temperatures as low as 65 degrees below zero were encountered, speeds approached 700 miles per hour, altitudes in excess of 35,000 feet were maintained, and each Boeing B-52 was refueled in mid-air several times. Powering the KC-97 Stratofreighters that accomplished the task of in-flight refueling were the mightiest piston engines ever built — P & W A's R-4360 Wasp Majors.

"Mission accomplished" . . . a brief but all-encompassing tribute — to the Stratofortress flight crews, to the Air Force's Strategic Air Command, and to the gigantic team of engineers in the aviation industry whose years of research and accomplishment represent thousands upon thousands of engineering man-hours that were required to make these record-breaking flights a reality.

Army ROTC Cadets Make Good

Information has been received by the Army ROTC Detachment that 2nd Lieutenant Jim J. Argeris, former football star at Montana State college, has recently completed the Armored Officers' Basic Course at Fort Knox, Kentucky.

Lt. Argeris graduated from Montana State college in June 1956 with a degree in commercial science and was commissioned a Second Lieutenant of Armor in the U. S. Army Reserve. He entered active duty on August 8, 1956 and will sail shortly with his unit for duty with the United States Army in Germany. While a student at MSC, he was active in the "M" Club, the Ski Club, and was a cadet 1st Lieutenant in the Army ROTC Bobcat Battalion.

Top of Class

Second Lieutenant James B. Calvert, former Cadet Commander of the Army ROTC Bobcat Battalion of Montana State college, has graduated as top man of his class in the Officers' Basic Course at the Army Signal School, Fort Monmouth, New Jersey.

Lt. Calvert graduated from Montana State college in June 1956, with a degree in Engineering Physics and a commission as a Second Lieutenant of Signal in the U. S. Army Reserve. He entered active duty in October 1956, for a period of six months. Upon graduation he was designated a Distinguished Military Graduate.

Joins Missile Hunt

A recent visitor to Bozeman and Montana State college was 2nd Lieutenant Donald F. Williamson of Victor.

Lt. Williamson graduated from Montana State college in June 1956, and was commissioned a 2nd Lieutenant of Artillery in the U. S. Army Reserve.

He attended the Officers' Basic Course at the Army Anti-Aircraft and Guided Missile School, Fort Bliss, Texas. Upon completion of his leave, Lt. Williamson will join a Guided Missile Unit near Spokane, Washington.

ANATOMY: Something that everybody has, but looks better on a girl.

BORE: One who is here today and here tomorrow.

Norbo Completes Training

Among recent visitors to Bozeman and Montana State college were 2nd Lieutenant Gary J. Norbo and his wife, the former Patricia S. Smith. Both are former students of MSC. Lt. Norbo graduated in June, 1956, with a degree in Agricultural Education

and a commission in the Armored Branch of the Regular Army.

After graduation he entered active duty at the Armored School, Fort Knox, Kentucky, and then to the Infantry School at Fort Benning, Georgia for training as a paratrooper.

After his leave, he and his wife will report to Fort Ord, Calif.
