

Victory Flannels Magnantly Given

Stan DeVore, ASMSC President, reported at the Student State meeting, Oct. 13, that the president of North Dakota State recently donated his gray flannels to our flagpole. He was apparently prepared to give them because there was a \$10.95 price tag hanging from them. Jim "Tiger" Kelly, Commissioner of the Field House, related that M-Club was considering changing the annual Mom Dad's day, honoring the athletes' parents, to a campus wide Mom and Dad's day. If this plan carried through, it was suggested that each house put the names of all their parents attending in a box and draw one. These parents would be seated around campus and treated like royalty for that weekend.

Bells to Peal On the Hour

Ringling bells from Danforth Chapel will add extra life to Homecoming this year, according to Dr. Walter, campus associate of Danforth Chapel. A set of bells similar to those demonstrated here this weekend will be installed in Danforth several months from now.

The idea of obtaining the bells originated last spring when the Danforth association offered to donate \$3,000 of the total \$5,600 if the college could raise the remaining sum. Since that time, many have donated \$250 each was presented at the variety show. The 4-H also has contributed. It is hoped that other student organizations and alumni will help raise the \$2,600 still needed to pay for the bells.

The electronic bells to be used during Homecoming will peal on the hour and play various melodic selections for demonstration purposes. The basic unit purchased by the college includes twenty-five carillon bells. The board, record player, and automatic roll player to be used in the unit make possible a vast variety of selections, and additional units may be added at a later date.

Similar to the bells of the Arlington Cemetery and the World War in Brussels, the small unit, fitting only the space of a filing cabinet, is equal to 79,462 pounds cast bells.

Various speakers and wiring will make possible the playing of bells at any desired range or location, whether to be the entire campus or the main room of the chapel.

Student-Faculty Committees Named Release From President's Office

Student-Faculty committees of MSC governing body have been released by President Renne and an Glynn. The committees are as follows:

Assemblies: Glynn, Burlingame, Fisher, Freed, Nickerson. Students: Kay Conover, Marilyn Dugdale, Harry Hyatt, Robert Ritener, Joyce Rossmiller.

Campus Planning: Paisley, E. Thompson, Cheever, Gaines, Nickerson, Whalen.

BARBARA MURRAY

Renne Discusses Referendum 61

In addressing MSC students and faculty at the annual President's assembly Wednesday, President R. R. Renne gave special consideration to the coming referendum vote to continue the 6 mill property tax for higher education.

According to Renne, the total appropriations received from the legislature last year was 26 million dollars. The seven and one half million dollars raised by this tax, due to expire in 1958 unless citizens vote to continue it, represents 28 per cent of the total. "Until the legislature finds other sources for this money, we cannot survive without this 6 mill property tax," stated Renne.

Outlines Traditions

The president, who has served in his present capacity for 15 years, outlined MSC traditions. Traditions which he felt worthy of continuation, were a serious, mature student body, high scholarship and ability, a friendly, cooperative student body and an effective student government.

In outlining the "state of the college", Dr. Renne stated that MSC's enrollment now stands at 3835, 1057 of which are women. The freshman class enrollment stands at 1112, a 19 percent increase over last year.

Building Plans Discussed

A new men's dorm and additions to the library and chemistry buildings stand high as building projects to be completed in the next five years. The president pointed out the excellent facilities now enjoyed by MSC students, including the SUB,

Barbara Murray Is Homecoming Queen

Barbara Murray, MSC's Homecoming Queen, was crowned tonight to highlight the variety show and pep rally in the field house. Serving as attendants were the runners up Jane Smith and Janet Reed.

A member of Kappa Delta Sorority, Barbara is a Home Economics major. She lists Reserve, Montana, as her home. Barbara was honored last year as Phi Sigma Kappa's dream girl.

Royal Duties Begin

Royal duties for her highness start at tonight's pep rally and continue through a full slate of activities Saturday. In tomorrow's parade, scheduled to start at 10:30 a.m., she will share a float with her runners up as attendants. She will be introduced as part of the pre-game activities kicking off tomorrow's game against Idaho State. Winding up her busy week end's schedule, she will make an appearance at tomorrow night's Homecoming Ball, at which time the float and house decoration winners will be announced.

Finalists Tour State

During the past two weeks the three finalists who were chosen from a field of seven in an all-school election last fall, have made radio and TV appearances throughout the state. Tour stops for the candidates and members of the Homecoming committee included Butte, Anaconda, Helena and Deer Lodge.

Health Service and the two buildings now under construction.

Role of MSC Grows

In summarizing Dr. Renne pointed the ever increasing role which the college is taking in national and international affairs, and to the functioning of MSC as part of the greater university system. "While we do like to win in athletic contests, we must remember that we are all united and working together," he stated.

The assembly also included introduction of Septemviri members and three selections by the Madrigal Singers.

'54 Graduate To Give Talk

Don Schilling, a 1954 graduate of Montana State College, will address a Religious Emphasis Week meeting Thursday, October 23 at 5 o'clock in the Danforth Chapel. Schilling, a 1954 R.E.W. Chairman at MSC, will emphasize the role of Religious Emphasis Week at Montana State College.

Recently graduated from San Francisco Theological Seminary, Schilling worked with youth groups in this area. Selected for Who's Who in American Colleges while attending MSC, Schilling was very active on this campus. A few of his activities include R.E.W., I.C.C., Varsity Baseball, Mu Sigma Alpha, Kappa Kappa Psi, band, and Phi Eta Sigma.

The Thursday meeting is the first general meeting for over 100 students working on Religious Emphasis Week this year. Planning for R.E.W. started spring quarter. General committee chairmen are Fritz Gottfried, Deanna Swenson, Jim Drain, Tom Messick, Ken Nelson, Marion O'Brien, Niki Nelson, Bert Rice, Clark Whitcomb, JoAnn Moun, Lenora Pfister, and Tom White. Associate Chairmen are Ann Sandberg, Leroy Gilbertson, and Lee Phillips. Deanna Cada is secretary of the group.

Dr. Leon Johnson, Dean of the Graduate Division, leads the faculty committee.

Homecoming Features Elgart, Top U.S. Band

Climaxing MSC's 1958 Homecoming festivities will be the Homecoming Ball, featuring Les Elgart, America's number one dance band. This title has been won by the Elgart orchestra in several recent country-wide polls including the National Ballroom Association poll and the Associated Press poll.

Advance reports indicate that the Elgart orchestra manages to live up to its nomination with its highly-danceable tempos and ear-arresting arrangements. Elgart manages to keep the dance floor crowded at all times with his varied tempting programming.

Advance sales tickets for the Homecoming Ball, which will be held from 8-12 Sat., Oct. 18, in the Student Union Ballroom, are available from Student Senate members for \$3.00 per couple or \$1.50 per person. Tickets will also be sold at the door for \$4.00 per

Best Training Ranked First

Freshmen students indicated through Freshman Day coupon books, that they chose Montana State college because they could get the best training in their fields of interest.

"Courses offered in my field of interest" ranked first this year, as in the past three years. The second and third ranking factors, "Quality of Instruction" and "Recommendation of Parents," were also given the same value they have held since 1955.

Students of MSC, the nearness of the college and recommendations of high school teachers also played important roles in influencing the freshmen.

LES ELGART

MJORK CANDIDATE, Bev Bruegger, contemplates the weekend's activities as she strikes a typical hobo pose. The winning contestant was announced at the Variety Show tonight.

Early Homecomings Featured Parades, Races, and Beans

About sixty-one years ago the affair of Homecoming began on the MSC campus. A peek into its past finds that the excitement and anticipation characteristic of the day was still pretty much the same, but I did manage to dig up a few differences worth mentioning, such as a five dollar bill being presented to the student who could make the most noise. Hmm, we could probably all be eligible for this.

In 1938 a comic parade was held and all students were urged to wear funny costumes and march in the parade along with the clown band. The frosh were required to wear their everlovin' beanies and the Fang pledges had to don their clanky initiation armor, and play the role of knights. The meeting place for everyone was in front of the new high school, better known now as Willson Junior High. In the afternoon from 3-5 a mixer sponsored by Seaboard and Blade took the place of our Homecoming Ball. Night time brought the big game against Western State with a half time ceremony consisting of the annual Frosh-Soph scrap.

About nine years later in 1947, the 50th annual homecoming drew graduates from the preceding century—grads of 1896, to help boost the Bobcats. The events began Friday morning with a pep assembly in the gym and that night a bigger-than-ever bonfire and another pep rally took place where Miss Mon-

tana State was announced. After this, open house was held in all fraternity and sorority houses until late that night. (Oh, perish the thought!)

Saturday morning the cross country race took place and this was followed by a Frosh-Soph sandbag race. The dance that night was doubly good in that there were two of them — one sponsored by the M-club and another at the Springs Club for the Alumni.

The differences are small but they all add up to make quite a change between the old Bobcat Day and our present Homecoming with the variety show, impressive queen crowning ceremony, and dance with the music of the fabulous Les Elgart.

Changes Noted In Traffic Laws

The Traffic Committee would like to call the attention of Students and Staff to the following changes and clarifications of Traffic Regulations:

1. There is to be no parking on Garfield between 7:00 a.m. and 5:00 p.m. After 5:00 p.m. parking is to be on the right side only of each of the two strips making up Garfield.
2. Students may use staff lots only after 5:00 p.m.
3. Cars without on-campus permits may not park on the campus until after 5:00 p.m.

Homecoming Activities Engulf Entire Campus

When the leaves begin to fall in mid-October and nature has begun its panoramic paint job, this is the time for college football.

And though "the frost is on the pumpkin and the fodder's in shock" the nation's colleges turn their thoughts to homecoming.

Homecoming—that annual pilgrimage back to the sacred halls of ivy. Prom Peori to Capistrano and from Yale to Oklahoma the college campus' take on a vigorous air of enthusiasm.

Here at MSC we find no exception. The campus is busy in preparation for the year's biggest weekend. Floats are being going through their final tune-up. The yell leaders are practicing their yells and students everywhere sense the excitement of the occasion.

For on the 'morrow the air will

be filled with flying pigskins and the ground will be chewed up with charging linemen and backs.

This evening will bring many reunions as the alumni journey back to their alma mater. Tonight there will be much laughter and singing . . . tomorrow there will be much cheering and shouting.

Tonight we will have the crowning of a homecoming queen. And tomorrow either Jane Smith, Barbara Murray or Janet Reed will reign supreme as Homecoming Queen. But regardless of the outcome, each of them will share leading roles in the Homecoming ceremonies.

Tonight Herb Agoes will find it hard to control his restlessness. As head football coach it is natural that he should be anxious of the season's top game.

And the determined Bobcats,

Kelly's Kolumn

Zorro Joins The Phantom

I should like to make a few amends for some "boo-boos" in last week's column . . . Alpha Psi Omega plus the Film and T.V. Club are jointly presenting the film classics in the SUB theatre . . . please accept my humble apologies for this previous error . . . I heard several comments concerning my somewhat abundant use of . . . 's and my only defense is that they represent my unorganized train of thought . . . in consideration of those people, I shall limit myself to two . . . 's between each "thought?" . . . The Phantom has

struck again along with a partner "Zorro" . . . after the nocturnal raids, numerous automobiles, Greek letters and steps bore the message from the mysterious individual or individuals . . . wonder "who done it?"

Went to the "moon picture" the other night and did I have a good cry . . . I wasn't alone though and the seige of the from the feminine portion of the audience served as a good source of entertainment of the accompanying male members . . . are so heartless . . . all they do is snicker . . .

Beautiful autumn afternoon, preferably Saturday plus a little supply of H-2 O equals a war fight . . . these two factors seem to be the order of the day to things interesting . . . if you're really lucky you can even be thrown in the fish pond as I was privileged last weekend . . . slides cracking my noggin' on the bottom of the pool and having flour mixed in my coiffure . . . get the biggest charge out of heaving a waste basket of water at the oncoming enemy . . . Daddy sent me to college for education . . . the ballots have been cast and we will learn next night which lucky gal will be as Homecoming Queen over the week end festivities . . . oh, the beautiful . . . the big parade is to be tomorrow morning and various organized groups will be competing for the trophies that are offered . . . Big Game that afternoon and we hope that the "C" will add another victory to the present four wins, no losses record . . . Let's really back the Cats and help bash the Bears!

While thumbing through cards in the bookstore the other day, I ran across this thought for the day . . . If your nose runs, your feet smell . . . then you're built upside down.

A scientific apparatus man has developed a device that can detect holes in vacuum tubes . . . small it would take 120 years to fill a thimbleful of air to get through.

Senatorially Speaking

Stan Devore — President of Senate and a married man

are among Stan's list of activities. Stan is from Conrad and is majoring in chemical engineering. He is a senior this year.

"I feel there is a reasonable parking area on campus. Not everyone gets to park in front of the building he wants, but I don't think there is any real problem."

Stan's job in Senate is to preside at all meetings and guide the efforts of Senate. "Senate should be the functioning body which exercises power to the full extent for the benefit of the Associated Students," replies Stan. He has set two goals for this year which he hopes to fulfill: 1) get the finance system off to a good start, and 2) improve the school spirit. (It will take 90 per cent of Senate's effort on this alone.)

Stan's main interest is golf. "This is a challenge for me. When I play a good game, it is just like catching a big fish or someone else."

Student Senate is doing a big job on campus and is seldom heard of. This column is dedicated to interviews of Student Senate members who work so hard for the benefit of the associated students. Question of the week: "What do you think of traffic on campus?"

Jeane Erickson — "I think traffic from the fieldhouse after games and other activities should go one way to avoid confusion." As the Commissioner of Publications, Jeane coordinates editors on campus and is working on the Budget Form committee in Senate.

Majoring in music, she is a member of Concert Chorus and Madrigals. Jeane feels this is a very stimulating interest. But feels MSC should have a new music building.

Being past secretary of Senate, Jeane likes her work very much and is trying to do her part to help students enjoy MSC.

Diehl Announces ML Club Meeting

A meeting of M-L Club has been called by Bill Diehl, president of the club. The meeting will be held on Monday, Oct. 20 at 7:30 p.m. in the Agriculture building.

as a team, grim yet resolved as they face their big test. But tomorrow this restlessness will be converted to energy and fight. And their coach will assume his poise as he leads his charges into battle.

For the MSC students, books will be a forgotten treasure, as they key themselves for college life's biggest event.

This is only a small segment of the excitement that has established "homecomings" as the foremost and traditional ceremony in our nation's colleges.

Add to this the many special events planned here at Montana State College: "Adventures in Research", guided tours, luncheons, parades, lighting the M, parachute jumps and a Homecoming Ball—then you have the real significance of homecoming. The MSC version 1958 . . . the biggest and best ever.

LITTLE MAN ON CAMPUS

Casey Chooses SC Madrigals

Montana State's Madrigal Singers have nearly doubled in number over last year, according to Maurice Casey, director.

This year's members of the group are as follows:

Sopranos — Kathy Grindrad, Marietta Johnstone, Karen Munro, Jeanne Erickson, Sammie Payne, Darlene DeClergo, Helga Valach, and Nancy Parriott.

Altos — Sonja Larson, Gerry Clark, Dorothy Hill, Barbara Redden, Anna Mae Brenden, Nona Owens, Martha Huber, Jane Afshar, and Carol Mockel.

Tenors — Randy Barthelmess, Ed Lander, Galen McCrea, Billy Clark, John Uhas, Lester Berber, Chuck Bentz, Dale Beal.

Bass — Dick Nagle, Jerry House, Tom Richardson, Darryl Mansvold, Glenn Porter, Knut Ham, Roger Reser, and Hugo Beck.

They have already been heard at the President's Assembly last Wednesday and at the Variety Show tonight. They will sing for the Dairy Industry, November 14, and have been asked to perform for the Montana Reclamation Association, and the Montana Soil Conservation Convention.

Mr. Casey, the director of this group, also heads the Concert Chorus, and a Mixed Chorus.

Anyone interested in singing with the Mixed Chorus can join the group every Wednesday at 8 P.M. No audition is necessary to join with the Mixed Chorus, according to Casey.

WAA Plans Women's IM

The intramural program, composed of women's organized living groups on campus, will begin October 20 with the volleyball tournament. The fall quarter activities will include volleyball, basketball, hiking, tumbling and tennis. Winter activities include basketball, badminton, skiing, bowling, skating and swimming. Archery, golf, softball, tennis, rifle marksmanship and swimming will take place spring quarter.

These tournaments are conducted by the Women's Athletic Association. This organization is for all girls interested in participating in a variety of sports during the year.

Sonja Larson, president, has selected all those who plan to participate on a team or in an individual sport, to turn out for the W.A.A. carnival, which will be held Monday, October 20, at 8 P.M. in the auxiliary gym. There will be five free memberships given away to the person with the most points scored at the carnival. Refreshments will be served.

Also a part of W.A.A. are the Aphins, a selected group of swimmers who represent the W.A.A. women's rhythmic swimming club.

At the end of the spring quarter the Hamilton Trophy is awarded to the organized living group with the highest total points acquired through participation in the activities of the Women's Athletic Association.

Representatives of the council will be at each organized living group where you may purchase your membership in W.A.A.

Soph Architects Create Homecoming Posters

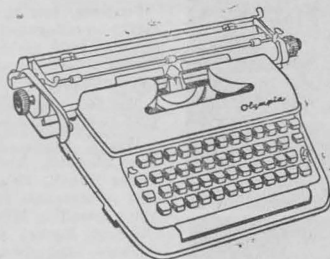

The many attractive looking posters, advertising the Homecoming Ball—featuring Les Elgart, which are displayed on the campus and downtown, are the product of the Sophomore class of the School of Architecture instructed by Mr. John DeHaas.

Each year this Architecture class makes a contest as well as an assignment out of this project. All posters are judged and awards, in the nature of tickets to the dance, are given. The assignment is not a class time project, however, and as you can

see from the high quality of the posters, much out of class time is put into each poster.

Winners this year were Roger Halloway, first; Phillip Winninghoff, second; John Eugliert, third; and Djarme Gjerdie, fourth.

Scientific instruments speed up intensive research. While it took 50 years for the discovery of electromagnetic induction to take the shape of a modern power-generating plant, the Manhattan District Project developed atomic energy within the space of a few years through the use of instruments.

MSC's GROWTH is clearly evident in the above pictures of the campus. Pictures shown top to bottom are MSC, 1937, 1947, and 1957. The large increase in enrollment in recent years has demanded the construction of many additional buildings and facilities on the college campus. President R. R. Renne, in the Wednesday assembly, could see no end in MSC's building program. Renne mentioned additions to the chemistry building and library. Also in the future is a new men's

dorm. Lewis and Clark men's dorm, entering its fourth year of use is presently overcrowded. A new women's dorm is in the construction stage. Renne stated that MSC's new Million-dollar classroom building will be ready for use in the Winter quarter.

Not all scientific apparatus is inexpensive as a test tube costing a few cents, but one industrial user of instruments reports that an \$8,000 instrument paid for itself recently in three weeks

Six High School Week Winners Attend MSC

Six award winners at High School Week last spring are attending Montana State College this fall, according to Max Worthington, Director of Public Service and Alumni Secretary.

Students scoring the highest marks on college achievement and aptitude tests given during High School Week received scholarships of \$250.

The following winners of these \$250 awards are enrolled at MSC:

Wilber Kukes, Hardin; Wallace Duchetti, Red Lodge; and Roger Schell, Belgrade. Recipients of alternate (\$120) scholarships attending MSC are Dorothy Darling, Havre; Gary Sackett, Billings, and Douglas Fairfull, Three Forks.

"We feel that it's important that these students—the cream of last year's high school graduates—receive financial aid to help further their education," says Worthington.

Of the 44 students scoring among the top seven percent on the achievement tests, slightly more than 50 percent registered at MSC this fall, said Worthington.

Worthington also revealed that

winners of the 11th annual Science Talent Search are attending Montana State College this fall. They are Donald Steinback, Fairfield; Jesse Malone, Choteau, and Roger Skinner, Bozeman.

Steinback won the state competition while Malone was among the 40 finalists in the National Science Talent Search.

Clint Cooney, sophomore, was the top-ranked freshman student in chemistry last year, and been awarded a \$300 scholarship by the Alumni Association.

The Alumni Association at MSC provides the bulk of the money for these various scholarships through its alumni development fund.

Teen Hosts Open House

The Department of Dairy In-
stry of Montana State College
an open house this after-
noon between 2:00 and 6:00 to
celebrate the opening of its new
Production Center.

Cherrie Evans, a former
student and cheer leader at MSC
presently Montana's Dairy
Press, was on hand to wel-
come those attending the open

The new building, located one
mile west of the campus on Huf-
Lane, was completed in July
of this year. It can house a
herd of 80 milking cows
and the young stock necessary
to maintain such a herd.

These new dairy facilities were
designed to make room on the cam-
pus for other campus buildings
and to provide for more modern
facilities for both teaching and
research in dairy cattle feeding,
management and management as
well as sanitary milk production.

Student, Faculty Member May Win 200 Mile Trip

Recently soloed in the Student Flying Co-op are Harry Baker and Cliff Garver. These fledgling fliers are part of a fast growing MSC club. Organized in 1947, and incorporated with the State, the Student Flying Co-op has made it possible for many to fly at a very reasonable cost. Operated as a non-profit corporation the club permits its members to fly for about one-half the present commercial rates.

The directors regret that it has not been possible to admit all those interested in joining. They appreciate the interest shown this fall, and will continue to welcome inquiries about the club from interested persons.

Club activities this fall include a unique flying trip for some lucky student or faculty member. It will be a round trip anywhere within an approximate radius of 200 airline miles of Bozeman. The holder of the ticket drawn Oct. 25 could take a weekend trip home, or to the Bobcat-Missoula game Nov. 5. Also he or she could take a grand tour of several Montana cities, or an exciting trip into Canada as far North as Calgary, Alberta. Many interesting places could be seen in the area described. Ten rides over campus are being offered to ten consolation ticket holders. Watch for posters with more information.

Huge Prizes Are Offered

Some lucky student can be \$50,000 richer by next semester, and, with a bit of skill, can work his way through graduate school by playing the stock market.

The Remington Rand Electric Shaver "Share of America" Contest's first prize with bonus is \$50,000 worth of stocks and bonds of the winner's choice from all the issues traded on the American or New York Stock Exchanges.

In addition to the grand prize, 407 other prizes will be awarded ranging from a \$30,000 investment portfolio to \$100 U. S. Savings Bonds. Remington Rand will pay all brokerage fees.

The contest starts October 13 and lasts until November 26. The contest simply calls for the completion in 25 words or less of the statement: "A Remington electric shaver is an ideal gift because . . ." Entry blanks are available everywhere Remington shavers are sold. If any winner has bought a Remington electric shaver during the contest period, a bonus will double the amount of his winnings.

Last year's winner used her stock dividends to finance a dream trip to Europe.

two different brands of cigarettes

THINKLISH TRANSLATION: Obviously, this poor fellow hasn't heard about Luckies. Why? Elementary. Any man who smokes the genuine article wouldn't touch another brand with a ten-foot cigarette holder. With Luckies, you get the honest taste of fine tobacco. Why settle for less? (The man in question is a *Cigamist*. Don't let this happen to you!)

SPEAK THINKLISH! Put in a good word and MAKE \$25!

Here's the easiest way yet to make money! Just put two words together to form a new one. Example: slob+lobster=SLOBSTER. (English trans: shellfish with bad manners.) We'll pay \$25 each for the hundreds of Thinklish words judged best—and we'll feature many in our college ads. Send your Thinklish words (with translations) to Lucky Strike, Box 67A, Mt. Vernon, N. Y. Enclose your name, address, college or university, and class.

Curtain Calls

On our blossoming campus, among barns, coliseums, IBM machines, and well-turned ankles, is the finest theater in Montana, and in it is found the liveliest entertainment in the area. It is located in the Student Union Building, in case you haven't noticed, and is conveniently placed between the coffee shop and the Health Center.

A fully equipped legitimate theater in every respect, it also boasts the latest in 16mm movie projection facilities, and the best movies of all times and places are shown every Sunday and Monday evenings at 7:30. Incidentally, the coming attraction this weekend is Walt Disney's "Alice in Wonderland", a classic treatment of a great fairy tale.

Monday, October 20, Professor Stonell of the Film-TV Center will give an open lecture on the techniques of animation in the theater, which will be of interest to art and film students, and the general public as well.

Legitimate theater productions this month include four one-act plays, originals by MSC playwrights.

One of them, "A Season for Crying," is a folk-drama with a Gallatin Valley setting, and concerned with a near tragedy in the life of a farm family, as the father of said family becomes captive of the land he has worked for so long (written of the days prior to price supports) and loses contact with his wife and children, to the dismay of all involved. "A Season for Crying" is directed by Charles Billings, MSC Theater Staff and recently seen as an actor in the hit "The Fourposter."

Another play on the bill opens with a Marine colonel and a private diving into the same foxhole and finding that they have a problem not only of protocol, but are also surrounded by the enemy. Directed by Lewis K. Knapton, Theater Arts student, and written by MSC Theater Director Joseph Fitch, this play has not yet been given a title... more on that next week.

The remaining two plays will be discussed next week. In the meantime, remember the MSC theater is your theater, and the thrills, chills, laughs and tears you have there come from the combined efforts of students, teachers, and other interested persons. Keep abreast of the theater activities and the people responsible for them by keeping an eye peeled on this column.

Garrett Releases Debate Program

Forensics program at MSC this quarter will consist of two phases, The Great Northern Debate League and the Intercollegiate program, according to Merrill Garrett, Commissioner of Forensics.

The Great Northern League will travel to Alberta, Canada to debate with the University of Alberta and the Intercollegiate program will make a trip to Greeley, Colorado for the Rocky Mountain Speech Tournament.

Teams from North Dakota and Washington State will be entertained here by the Great Northern League. A number of smaller scale intra-state exchanges will be held with schools in the various states.

Faculty Dancing Club Revived

Montana State College's Faculty Dancing Club has scheduled the first dance of the school year for Friday, October 17, at 9:00 p.m. at the Masonic Hall.

One of the best bands available will provide the music for the

dance, with the decorations being done in a harvest theme. Dancing will be from 9:00 until 12:00, according to faculty planners.

The Club is being revived at the request of many faculty members. Dance music to suit the tastes of all is assured.

Dance Lessons Again Available

Dance lessons are being made available again this year to students who wish to learn to dance or desire to improve their dancing ability. Classes will be taught by Mr. and Mrs. John Saunders of Saunders Dance Studio in Bozeman.

The special fee for college students will be \$6.00 for 10 lessons.

Lessons will be held every Sunday afternoon in the Student Union Ballroom beginning Sunday, October 26. Beginners class will be at 2:00 p.m. and the advanced class at 3:00 p.m. All interested students can sign up in advance at the SUB desk or at the first class on October 26.

A partner is not required as classes will be mixed.

Veterans Club To Meet On Monday Patronize

Discussion of the Korean Veterans State Bonus will feature Monday night's meeting of the Montana State College Veterans' Club. The meeting is slated for 7:30, Room 310, in the SUB. All veterans are urged to attend.

Students Attend FFA Meeting

Bozeman—Two Montana State collegiate FFA members and professor H. E. Rodeberg, advisor, returned home Saturday after attending the National FFA Convention in Kansas City, Mo.

The students are Gordon Overby, senior from Plentywood, and LeRoy Luft, senior from Culbertson.

The MSC students accompan-

ied 100 FFA members and advisors from various parts of the state to the National Convention and attended meetings for trainees in Vocational Agricultural Education from 40 states.

An annual project of the MSC Collegiate FFA is to raise funds to send students for training and observation to the National Convention.

Welcome to MSC Homecoming!

Do You Think for Yourself ? (THIS TEST WILL TELL YOU! *)

Do you often dislike doing favors for others, even though you tell yourself you enjoy it?

YES ☐ NO ☐

Can you compete with another person without feeling hostile?

YES ☐ NO ☐

Do you refuse to worry about things you can't do anything about?

YES ☐ NO ☐

Do you ever say things you don't believe, just to start a discussion?

YES ☐ NO ☐

Would you be completely at ease if you found yourself suddenly in the spotlight at a social gathering?

YES ☐ NO ☐

When you're very hungry, do you like to try out strange foods?

YES ☐ NO ☐

Would you vote for establishing an international language other than English?

YES ☐ NO ☐

Do you enjoy being called upon as an umpire to settle disputes?

YES ☐ NO ☐

The Man Who Thinks for Himself Knows...

ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

Now answer this one: Do you really think about the filter cigarette you choose? YES___ NO___

If your answer is "Yes"... well, you're the kind of person who thinks for himself. You can be depended on to use judgment in everything you do. The fact is, men and women who really think for themselves usually smoke VICEROY. Their reason? Best in the world. They know for a fact that only VICEROY—no other cigarette—has a thinking man's filter and a smoking man's taste.

*IF YOU HAVE ANSWERED YES TO 6 OF THESE QUESTIONS, YOU ARE A PERSON WHO THINKS FOR HIMSELF!

HARMERS SHOWN above are the new twirlers for MSC. Pictured from left to right are Cathy Schreiber, Fay Christoffer, Mary Bennett, Phyllis Lowe, Bev Landes, and Barbara Melaff. In keeping with the Homecoming theme, they will be performing during halftime. They will also be performing for other home football and basketball games.

Fraternity Men Build New Home

Presently under construction on the corner of Garfield and Fourth, two blocks east of the campus, is what is to be the new home of Phi Sigma Kappa fraternity.

Scheduled to be completed by Thanksgiving, this \$100,000 structure is designed to accommodate 42 men.

Plans for the new house were drawn by local architect, William Grabow and construction is being done by Ed Haggerty of Bozeman.

Construction of the new house was made possible through the cooperation of the members of the local chapter and also through the help of Phi Sig alumni.

Less tars & More taste

DON'T SETTLE FOR ONE WITHOUT THE OTHER!

Change to L&M and get 'em both. Such an improved filter and more taste! Better taste than in any other cigarette. Yes, today's L&M combines these two essentials of modern smoking enjoyment—less tars and more taste—in one great cigarette.

Light into that Live Modern flavor!

Bobcat-Bengal Clash Promises To Be Important Small-College Game

Two of the top small college teams in the nation meet tomorrow on Gatten Field when the Bengals of Idaho State, ranked third in national small college standings, meet MSC's Bobcats who are ranked tenth in small college standings.

Since the Idaho-Montana series started in 1923, each school has won 10 times while three games were ties. Montana State handed Idaho the worst shellacking of the series, 41 to 0 in 1923.

The Bengals best showing score-wise was a 39-13 defeat of the Bobcats in 1950. The 23 games on record indicate that the two schools have played on a fairly even basis.

Coach Babe Caccias' Bengals will definitely be out to cut the Cats' current four game winning streak tomorrow. Currently ISC is riding the crest of a 16-game winning streak. The last team to defeat the Bengals was the Bobcats exactly two years ago, 26-0, on Gatten Field.

ISC was unbeaten in nine games last year and was one of the two teams to defeat MSC.

Bobcat Gridders Take NDS Bison

After a bad case of bumbulitis in the first half, MSC's Bobcats came roaring back to defeat North Dakota State's Bison by a 33-20 margin Saturday.

The Bobcat's first tally was a 25 yard field goal, kicked by Brad Lowell, MSC end. North Dakota countered with a T.D. with 4 minutes left in the 1st quarter, to take an 8-3 lead. In the last play of the 1st quarter, halfback Don Brinkman scored to put the Cats out in front with an 11-8 lead. MSC lost two crucial fumbles in the 2nd quarter, and as a result the Bison held a 14-1 edge at halftime. The Bobcats came back with a quick touchdown in the 1st 2 minutes of the second half, and QB. Gary Davies flipped a 31 yd. pass to Bill Mack at the end of the 3rd quarter as the Cats took a 25-14 lead. The Bison scored again in the 4th quarter to narrow MSC's lead to 5 points, but fullback Rocco Perciavalle scored from five yards out to give the Bobcats an insurance touchdown. This ended both teams' scoring, with the score board reading 33-20 as the final gun sounded.

**GALLATIN
LAUNDRY AND
DRY CLEANERS**

Idaho's line is outstanding—one of the best in the Rocky Mountain area. It averages 197 lbs. from end to end. This compares with MSC's beefier 207 lb. line average.

Standouts in Idaho's speedy split-T team include: Bob Steinmetz, 200 pound center from Berea, Ohio; tackle Burt Owens; guards Dee Pankratz and Harry Unger. Also, ISC has one of the best passers in the area in the person of Gary Tomlinson, 6-2", 182 pound junior. In the halfback positions are Joe Asrattore, 160 pound junior from Niles, Michigan and Ron Pugmire, 175 pound senior from Shelby, Idaho. In the fullback slot is Dick Roddy, a rugged service returnee.

Coach Herb Agocs voiced his opinion early in the week that his squad will be up for the game tomorrow. Strong defensive work was stressed by the Cats this week.

Let's hope the weather continues good for what will probably be the best game on the gridiron schedule this year.

Lineups Named

Probable starting lineups for the MSC-ISC game tomorrow will be for ISC: Ray Konocz, LE; Burt Owens, LT; Larry Unger, LG; Bob Steinmetz, C; Dee Pankratz, RG; Lee Fortin, RT; John Ventry, RE; Gary Tomlinson, QB; Joe Sarratore, LH; Ron Pugmire, RH; and Dick Roddy, FB.

For the Bobcats starters will be Bob Surdam, LE; Chuck Dalum, LT; Darrell Hueth, LG; Sonny Holland, C; John Munk, RG; Gene Schilling, RT; Harvey Warren, RE; Gary Davies, QB; Bob Rudio, LH; Jim McLeod; RH; and Rocco Perciavalle, FB.

Rousey Names New Cagers

With the opening of basketball practice looming up October 15, Bob Rousey, Montana State Freshman coach, announces a 14-man squad of Bobcat frosh who appear to have size and ability to bolster future MSC varsities.

Sealing all the way from 5-11 to 6-8 in size, the 14 are rated by Rousey as the best group of freshmen ever to enroll at Montana State.

The 14 are Bob Brunson, 6-2, Highland Park, N. J.; Bert Emery, 6-3, Billings Central; Armando Erias, 6-3½, Long Island, N. Y.; Jim Graves, 6-2, Madison, Ind.; Gordon Haugen, 6-8, Billings; Charlie Jones, 6-5, Sheboygan, Wisc.; Bill LeFevre, 6-4, Albany, N.Y.; John Merrett, 6-3, Butte; Norman Ostapinski, 6-5, Shawano, Wisc.; Bob Parkins, 6-1, Ottawa, Ill.; Larry Pottorff, 6-2½, Martinsville, Ind.; Gene Rasmussew, 6-1, Buellton, Calif.; Tom Sawyer, 6-0, Elkhart, Ind., and Robert Vandervoort, 5-11, Livingston.

Rousey explained that while all interested men at Montana State would be welcome to try out for Bobcat basketball, the 14 listed were considered top candidates.

Several of the boys were all-state selections last year and LeFevre was a high school all-America selection. Haugen, Merrett, Emery and Vandervoort all were all-state selections last year in Montana.

Emery was selected "most valuable" in the annual North-South Shrine game last spring while Haugen was voted the South's "most valuable" player.

An extensive schedule is being lined up for the frosh by Rousey and head coach Dobbie Lambert.

Perciavalle Scoring Leader, Davies Leads in Total Offense

Fullback Rocco Perciavalle added a touchdown and ran a conversion in Montana State's 33-20 victory over North Dakota State to run his 1958 point total to 26.

Tommy Molen, 165-pound sophomore halfback from Great Falls, is the Bobcats' No. 2 scorer with

20 points in four games. Molen has three touchdowns and a two-point conversion.

Quarterback Gary Davies continues to lead the unbeaten Bobcats in total offense with 270 yards passing and 18 yards rushing. Perciavalle is second in total offense with 209 yards—all rushing yardage.

Cat Lair Ready, Determined

By ELMER REYNOLDS

All the drama, color and excitement of a college football season wrapped up into one afternoon of gridiron glory. It's often called the "game of the year," or the "game of games,"—but everywhere in Princeton to UCLA they call it Homecoming.

While here at MSC, the campus already is alive with a new vigor, an all pervading atmosphere of enthusiasm that sweeps the place like a torrential storm.

On the eve of Homecoming day here at MSC, ten thousand hearts anxiously awaiting their Bobcats finest hour. And twenty thousand eyes should be on the Gold and Blue men as they take the field in the highly praised Idaho State.

And although the Bengals from Pocatello are one of the highest ranked small college outfits in the country, Coach Herb Agocs' spircrew is taking all this in stride. For they have demonstrated their desire to play top-notch football.

And although they will be the underdogs, they carry into this battle the grim determination of which championship material is made.

Coach Agocs echoed the Bobcat sentiments when he said, "Sure I know the Bengals are tough . . . they have won 16 straight ball games. But we don't think they are invincible." He added, "The men will darn well that they have to give 100% effort against them if they expect to win."

"That they are determined to do. It all depends on how much we can get keyed up for this big one. I think we will be ready. And our defense comes through, our men are physically ready." These are the words of a man preparing his charges for their biggest test.

True it is that the Bengals will be favored, but the sentiments will be with the Bobcats. And sentiment often plays a vital role in the outcome of a sporting event. Behind an enthusiastic—almost hysterical—crowd, a team often rises to the occasion of glory and trips the giant. The days of David and Goliath are far from past. For many a gridiron power has fallen prey to a determined David . . . in this case a group of Bobcats.

Their task tomorrow will be monumental, but certainly not insurmountable. And with 10,000 cheering Bobcat rooters to drive them on, four quarters can tell the tale.

Tomorrow will be a day just like all days, but when the sun sets down on Gatten Field about 2 o'clock, the stands will be jammed with loyal Bobcat rooters from throughout the country. Many will be the students viewing a college homecoming for the first time. And many will be the old alumni who have made their pilgrimage back to MSC for the first time in years. Thus we would have an atmosphere of devotion and zeal which is capable of igniting the spark of victory. Certainly it is the duty of all to attend to "cheer with a will . . . and shake down the thunder from the skies."

Certainly if everyone displays this kind of devotion, the Bobcats will be justly rewarded for their performance. And as the immortal Roland Rice once wrote,

"For when the one great scorer comes, to write against your name . . . He writes not if you won or lost . . . but how you played the game." Truly this is the spirit that has made college athletics the great endeavor it really is. And with this in mind the results will take care of themselves.

LITTLE MAN ON CAMPUS

"YOU'RE RIGHT WORTHAL — BINOCULARS MAKE IT LOOK LIKE YA COULD REACH RIGHT OUT AN' TOUCH 'EM."

'Cat Skiers Begin Rigorous Training For Tough Race Slate This Winter

The MSC skiers began training last week for what looks like a tough schedule this winter. Returning varsity lettermen, Flint Taylor and Paul Renne, both of Bozeman, along with Tom Devine, Helena; Ken Miller, St. Regis; Finn Flugeim, Norway; Bill Coleman, Butte; Carlin Onstad, Great Falls; and Marshall Bennett will be trying out for the team.

'Cat skiers plan to begin their collegiate meets with the University of British Columbia Invitational at Rossland, B.C., on January 3-4. Meets following this will be: University of Alberta Invitational at Banff, Alberta, January 30-31; University of Nevada Invitational at Reno, Nevada, February 13-15; University of Washington-Invitational at Stephens Pass, February 28-March 1; and the MSC Invitational at Bridger Bowl, March 21-22.

The Reno, Nevada meet affords an opportunity for the 'Cat skiers to compete against skiers from other conferences. Some of the schools they will compete against at Reno will be Denver University, four-time winner of the NCAA ski championships, University of Colorado, University of Nevada, and the University of Utah.

Coach Bob Beck says he believes that from a team standpoint we will be fielding one of the strongest Alpine teams in the history of MSC. Kenny Miller, of St. Regis, Montana will be a great help in this field. Last year at the Junior National Championships at Winter Park,

Colorado, he placed 3rd in the Alpine Combined when competing against some of the best junior skiers in the nation.

Beck believes the team will be stronger in the Nordic events this season through the efforts of Finn Flugeim. This Norwegian boy placed 12th at the Hølemollen, Norway's largest jumping meet, which draws most of Europe's top jumpers, and 16th at the National Championships of Norway.

Cross-Country Slated Oct. 25

According to word received from the Intramural Sports program, Intramural football is underway. Ken Miller, student athletic manager, stated that Independent football will start its season Monday. The Independent league has been slowed by lack of teams. Fraternity pledges, the old pros, or anybody else will be glad to hear that the cross-country will be run Oct. 25.

"College Men Like Our Clothes"

HOME OF NATIONALLY
ADVERTISED BRANDS

PICTURED ABOVE are the seven lovely MSC cheerleaders. They are, first row, from left to right: Carley Ridenour; Nancy Davis; Donna Richardson; JoAnne Anderson; row 2, Hallie Pasley; Mary Dell Moore, cheerqueen, and Sharon Cornell.

DMS Awards to ROTC Seniors

Colonel Charles W. Johnson, Professor of Military Science and Tactics, has announced the appointment of four Advanced Course Cadets as Distinguished Military Students for the 1958-59 school year.

The students designated are Cadet Colonel Donald O. Johnson, Havre; Cadet Lt. Colonel Clarence L. Gilbertson, Kalispell; Cadet Major Harlon L. Pierce Plentywood and Cadet Captain Jay E. Anderson, Wise River.

After being appointed a DMS a Senior Cadet is given an opportunity to apply for a Regular Army commission. Approximately three quarters of the Regular Army appointments made each year come from the Distinguished Military Students of the 218 Army ROTC units at colleges and universities throughout the United States and its territories. Most of the other quarter of the Regular Army appointments are made to each year's graduating class from the United States Military Academy at West Point. All of their second lieutenants enter the Army on a completely equal basis.

Minimum requirements for selection are:

- (a) In upper half of college class.
- (b) In upper third of ROTC class.
- (c) Approval of the President of the College.
- (d) Selection by the Professor of Military Science and Tactics.

These four cadets were selected from among the currently eligible at Montana State College.

Bearded Brothers

If you see a beard during the next ten weeks it will be a Lambda Chi preparing for Yukon Days. The Lambda Chi tradition of growing beards for the fall party was started more than 25 years ago. In spite of objections from the fair sex, tradition is behind the beards. The girls do have their day though, for at the long-awaited fall party (December 13 this year), the men will be shaved by their dates.

Control Chemist Wetherell Is Attending Ag Chemistry Meet

Robert C. Wetherell, Jr., Associate Control Chemist at Montana State College, will attend the 50th anniversary meeting of the Association of American Feed Control Officials October 13-17 in Washington, D.C.

While in Washington, Wetherell will attend meetings of the Official Agricultural Chemists

and American Fertilizer Control Officials. Both conferences are held in conjunction with the Feed Control meeting.

ckwoods Holiday . . .

ere's Proof That Montana State is Modern

ere are a number of people I don't believe that Montana College is an up-to-date, up-to-earth, on-the-go school. I would like to refute this statement with a personal experience that will prove MSC is modern.

I admit my home town, Libby, still not up with everyone else on some modern conveniences and it is true that an Irish washboard is still seen occasionally with a tub of water Mondays, but this is only because we don't have any electricity back home.

I was completely baffled my first washday at MSC when I saw a modern washroom in Lewis and Clark. There wasn't any big wood tubs or tubs of steaming water anything, so I asked this young fellow where to wash my clothes. He looked at me and blinked, then he pointed to this big white tub with a door on the side and said "There!" Then he laughed and left me alone.

My first I didn't know quite how to do. Then I figured out it worked. Somebody had the big white tub up on its side probably to let the water run out of the hole. Actually all I had to do was put it on its other side. So I put the tub the other way with the hole pointing toward the ceiling to keep the water from draining out. Then I got a pop bottle and commenced filling it up.

Now back home when you wash you simply get an Irish washboard and tub full of water and wash your clothes till they are clean. Well, I couldn't find the washboard, but I happened to remember an old Indian trick for cleaning buckskins by pounding them between two rocks. The nearest I could find to a couple of rocks were the plaster walls. So I began banging my wet shirts against the

water was spraying all over the shirts and pretty soon water started falling off the walls and ceiling till all but a big hole on the ceiling directly over the big white tub and then it fell with a smack on top of the tub. I saw it started the inside of the big tub to moving and my head started flying. The water didn't stay in and there was a racket.

I didn't dare quit 'cause I had finished the washing; so, I got another pop bottle and emptied it and filled another and filled it first and emptied the second at the same time I used my mouth to catch some of the water and picked up the rest with my feet.

Things were kind of messy when I finished but I did finish and the machine automatically stopped or broke down, I don't know which.

Of course by now you can see it is much easier and quicker with modern conveniences at MSC but perhaps you might be interested in what also happened to me so I'll continue from where I left off.

Back home when you rinse your clothes you have to carry the tub full of soapy water outside and use clean water out of the creek to rinse with. This you can imagine involves a lot of work.

When I was at MSC all I did was rinse off the end of this pipe and I figured that there was something of some kind in it and enough, it came gushing out over the loose plaster on the

After I had had my clothes rinsed the water quit coming. (I later found out that the Bozeman City Water Company shut the city's water supply off.) Pretty soon guys started meekly in, dodging occasional pieces of falling plaster.

They looked at the walls, then at my torn clothes, then at the wet dripping ceiling, then at the washing machine (which I later found out was a dryer). Now I ain't no expert at washing, but I was as proud as my old barn cat when she brought home her first litter of kittens. So, when they asked me, after having taken another look at the room, if I did it, I got red in the face and said "I did a pretty good job washing didn't I?" They took another look at the room and said yes.

One of them asked me where I learned to wash and of course I didn't want all the credit, so I showed them the guy who had told me which machine to use.

And then everybody turned and looked at him and he suddenly offered to do my washing for the rest of the year and put the walls together with scotch tape or something. But of course I had such good luck with my first washing that I wanted to try again, but one of the fellows said that a new rule was just enacted and that this kid did the washing for everybody. Guess it's all right with me, but this kid that does the washing is the same one that recommended the proper machine for me to use. For some reason or other he uses a tub and an Irish washboard to do the whole dorm's washing. Wonder why?

Scientific apparatus makers compile some of the country's most comprehensive mail-order catalogues. One such catalogue contains a complete Greek alphabet, periodic charts of the elements, and a set of conversion factors for volume, mass, power, and energy.

Who's Who and Who's Whose

By Bobby Garry

IT'S ABOUT THAT TIME

We hate to keep harping on one subject, but who can deny that Homecoming is, indeed, quite an occasion and one which merits considerable thought—queens, floats, Mjorks, football, coming homers, etc. It would be wasted words to encourage everyone to race up to Gatton Field, and watch the Homecoming game with the proper amount of school spirit, for that is one game everyone will certainly want to see.

So with the M dressed up for the occasion in a new coat of white-wash (wasn't that fun?), everything else also awaits the final hour when Homecoming, 1958 becomes a reality.

BAUBLES, BANGLES AND RINGS

Stella Milanovich is the proud wearer of a diamond from Wally Roberts. Jackie Wohl is engaged to Louis Lembke, Theta Chi.

SHE WEARS A PIN

Only one pin passed this week, but it was the only one Dick Correll, Delta Sig, had and needed to pin Jan Fried, a MSC student nurse at Great Falls.

WE GO GREEK

New pledges for the Delta Sigma Phi's are Carl Saner, Phil Schneider, Dave Laidlaw, Wayne Miller and Bob Parkins.

Alpha Gamma Rho boasts fourteen new pledges: Ed Heinle, Ray Halley, Willie Vicher, Lee Miller, Jim Jinks, Jack Siemens, John Bauman, Karl Schrade, Dale Guertzgen, John Uhas, Gary Graham, Bob Frank, Gene Christenson and John Logan.

New pledges in the Pi Kappa Alpha house are Jim Morrison, Ken Rustad, Jon Englert, Bill Akos, Bob Hart, Bob McKay, Dave Landgraf, Bob Lehr, Denny Baker, Carl Susag, Stu Wilson, Roger Borshime, Jole McVey, George Baker, and Gary Anderson.

Jerry Harpster, Jack Smith and Al Nelson are new Kappa Sigma pledges.

Lambda Chi Alpha puts Leon Keene and Blaine Price on their list of new pledges.

Robert A. Jones, Wayne N. Powell, Ronald Beck, Kirk Genger and Edward Kanemasu pledged Phi Sigma Kappa.

Jim Courtright, Tom Bohl, Rod Jones and Gordie Hillstrom are new PiKap actives.

PLEDGES ELECT OFFICERS

Pledge officers at the Alpha Gam house are Kay Lee Vickery as president, Judy Martin as Vice-President, Judy Dieruf as Chaplin, Jerry Little as Secretary-Treasurer and Carol Christianson as the head of scholarship. Alpha Gamma Delta cordially invites the alumnae to attend an open house following the Homecoming football game from 4:00 to 5:30 p.m.

From the Pi Phi house comes news of their new pledge class officers, Sally Ashley is the President; Darlene Fortman, Vice-President; Frances Forney, Secretary; Verna Norling, Social Chairman; Judy Larson, Song Leader; Avis Sannes and Karen Johnson, Scrapbook Keepers.

Judy Gerstenberger and Karen Badgett were elected co-rush chairmen. Ann Sandberg was presented the diamond pin for outstanding unrecognized service to the chapter.

OFF THE RECORD

Last Sunday afternoon at the Hot Springs was the site of an informal tea at which time the Sigma Chi's had the gall to challenge the undefeated Chi O team to a game of football. The Chi O's were reported to have won 18-6 (chorus of boo's from the Sigma Chi's). Several injuries were sustained.

Poppie, Lenfelt, To Perform Free Fall Jumps Over Gatton

Spectators at the Bobcat-Bengal game tomorrow will be treated to an additional thrill, according to Homecoming Chairman, Jim Pepper.

Free-fall parachute jumps over the field behind Gatton are slated for 1:30 p.m. The two jumpers, Bill Poppie and Jim Lehfelt, both MSC students, are veteran jumpers, having seen action as smoke-jumpers for the U. S. Forest Service.

Poppie is a veteran of 12 jumps, while Lehfelt has made 39 jumps. The two chutists will jump from two separate airplanes. One, a P 18A Piper Cub, will be flown by Dave Stradley and the other a J3 Piper Cub,

will be piloted by Melvin Fisher.

Poppie and Lehfelt will jump from the planes at approximately 5000 feet. The jumpers will wait for 15 seconds before opening their chutes, which means that they will free fall for approximately 3000 feet. It has been estimated that they will be falling 120 m.p.h. when their chutes open. Both jumpers will try to maintain a spread eagle position during free flight.

Poppie will be traveling at a speed of 20 feet per second when he hits the ground and Lehfelt will be traveling 16 feet per second. The difference will be caused by the types of chutes used.

PICTURED left to right are Jim Lehfelt, Jumper; Dave Stradley, Pilot; Bill Poppie, Jumper.

Mansfield To Speak Thursday

Senator Mike Mansfield will speak to a meeting of MSC Young Democrats on Thursday, Oct. 23 at 4 p.m. in the Student Union Theatre, according to Bob Garber, president of the Young Democrats.

Since the week of Oct. 19-25 has been set aside as United Nations Week, Senator Mansfield is expected to speak on the importance of the U.N. and the role of the United States in world affairs.

Helburn Attends Research Meeting

Bozeman—Dr. Nicholas Helburn, head of the Geography and Geology department at Montana State College, is attending the fifth annual meeting of the Missouri Basin Research and Development Council this week in Bismarck, N. D.

Dr. Helburn is attending the meeting with David K. Hart, assistant director of the Montana State planning board in Helena.

The purpose of the meeting is to coordinate planning for economic development of the Northern Plains State. Groups working together on this project are the Bureau of Business Research, experimental stations, Federal Reserve Bank and financial institutions and development agencies like the Bureau of Reclamation.

A scientific apparatus has been developed a meter which measures electric current of one thousandth of a trillionth of an ampere.
