

## Career Day Program Is Scheduled For Nov.

Dean Val Glynn outlined today plans for a Federal Career Day program on campus Thursday, November 20. He and John Breeden, Placement Director, have been working closely with the Civil Service Commission Regional Office in Seattle to bring a well-planned program to the campus.

The idea is new, having been presented on only one other campus in the Pacific Northwest. With student support and interest it may become an annual affair.

est it may become an annual affair.

Objective of the program is to present job information of value to students. Federal positions each year call for many thousands of college-trained personnel in a wide variety of occupations. This Career Day program is part of a concerted sustained effort to interest college-trained personnel in these Federal jobs. It will point out opportunities for employment in Government every student should consider.

Program emphasis will be on work as it is actually performed in the Federal service, showing professionalization of work for the college graduate. Included in the program will be information on what has been done, and why Federal opportunities now are on a competitive basis with other job offers.

Specialists from North Dakota, Washington, and Montana in a variety of occupational areas will present the information with adequate opportunity for questions and discussion of the various positions. In view of labor market conditions, seniors especially are urged to attend and explore these avenues for employment.

## Senate Silences Carillon Donation

By CARLA LOCKOOD

Whether or not to donate \$170.40 to the Carillon Bell fund was the main topic of discussion at Student Senate November 3.

The \$170.40 was made by Senate when they sold tickets for the Homecoming dance. The main opinions went as follows:

Bob Martin, ASMSC Vice President: "...a good cause."

Dick French, Student Union: "...not donate it all to the bells, something else, more important might come up."

Ken Nelson, Senior Class President: moved that the "\$170.40 be applied to the bell fund. The motion was seconded. Jack Warner, Inter-Fraternity Council President stated that he "personally thought the bells weren't necessary and the money could be spent on a more worthwhile cause." It was put to a vote and was defeated by a slim 9-7 margin.

Collegiate Farm Bureau's Constitution was approved by Senate. This now enables them to become an organized club on the campus. Bill Diehl is the President of this organization.

## Debators Eligible For US Contest

Mr. Ken Bryson, forensics advisor at MSC, has received notice of the eligibility of the MSC debate team to participate in the National Championship Tournament held in West Point sometime during the spring.

The won-lost record of the team's debates through the year will determine whether the team will be selected to participate in this tournament.

The first match of the year for the team will be in Greeley, Colorado, where teams from the western states, excluding coastal states, will participate.

The eligibility of MSC to participate in this tournament is very indicative of the progress of MSC forensics teams, as this is the first year that MSC has been eligible, reported Merrill Garrett, Student Commissioner of Forensics.

## GR Elected Freshmen

Gary Graham was elected freshman class president with 10 votes on the final ballot on Friday, Nov. 4.

A total of 354 freshmen turned out to vote in Tuesday's election, which John O'Neill, Kappa Kappa, from Superior received 18 votes as runner-up.

Graham, Alpha Gamma Rho member from Columbia Falls, is majoring in bio-chemistry.

While in high school Graham was active as vice president of student body, president of state farmer, state FFA vice-president and home officer.

The eight freshmen competing for president in the primary election Tuesday, Oct. 28 were: Baker, Gary Graham, Jacobsen, John O'Neill, Overby, Dean Schreiber, Douglas Worthington. Den-Baker, Curtis Overby and Schreiber were eliminated in the election for failure to campaign rules.

## National Prexy Preside Over Convention

Registration today marks the opening of the Region One Convention, being held on campus this weekend.

Following over the convention, which is being attended by Spurs from nearly all of the Western states, is National Spur President, Corin Lyle. Jean Lenon, Spurs President, is in charge of convention activities.

A full schedule of activities and meetings are in store for the today and tomorrow.

A variety show emceed by Spurs, Mary Margaret Astill will be presented tonight for entertainment of the visiting

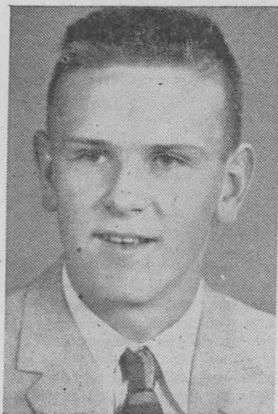

business meetings and discussion groups high-lighted by a net at the Baxter Hotel are the convention agenda for tomorrow.

Spurs are being provided in the basement of Hannon Hall.

## Four Missing Fang Initiation

Tuesday, October 28, twenty-four Fang activities were initiated. The new actives replace the outgoing juniors. They did not have a public initiation this year. The new Fang actives are Gary Larson, Stan Butcher, Bob Moore, Richard Cronk, Dave Hingham, Bill Erickson, Fred Dan, Dave Gibson, Fred John-Dave Kruger, Tom Michael, Miller, Bob Nelson, Dieter on, Charles Pawlowski, Al Pierce, Bob Rector, Lindy r, Dick Schwingle, Richard us, George Skerrit, Bill s, Larry Walker, Kemp Wil-Tom Hogan, Bob Garger, Bakkeby, and Bob Benner.

The officers are Don Ross-r, Bob Wandke, Steve Post-landy Beauchamp, Don Kastel-Highland, Dave Sloan, Cofferin.

Gary Graham

## Mu Sigma Alpha Dance Is Planned

The third annual Spotlight Dance will be held Nov. 22, according to spokesman Charles Myrick.

Mu Sigma Alpha, music honorary, is sponsoring the dance which has previously been one of the top functions of fall quarter. Eighteen college musicians will provide dance music and five to ten minute "spots" will be scattered through the program.

Unlike last year, tables will not be reserved. Price of admission will be \$2.50. Light refreshments will be provided.

Try outs for "spot" time will be held Nov. 12, from 1:00 to 3:30 in the Music Building.

## Research Expert To Lecture

Dr. R. C. Elderfield, national lecturer of Sigma Xi, national research honorary, will speak on "Australian Trees and High Blood Pressure," Monday, November 10, in the Agricultural Auditorium, according to Phil Luginbill, MSC Entomologist.

Dr. Elderfield is presenting the lecture as the first of 24, to be held at various colleges and uni-

versities throughout the western United States.

The lecture is concerned with the botanical species, Alstonia, which are found in northern Australia and nearby islands. Extracts from the barks of these trees formerly enjoyed a reputation in the local folk lore as effective agents against malaria.

Research on the barks proved this to be a falsehood and disclosed that many of the alkaloids which have been isolated represent hitherto unknown structural types.

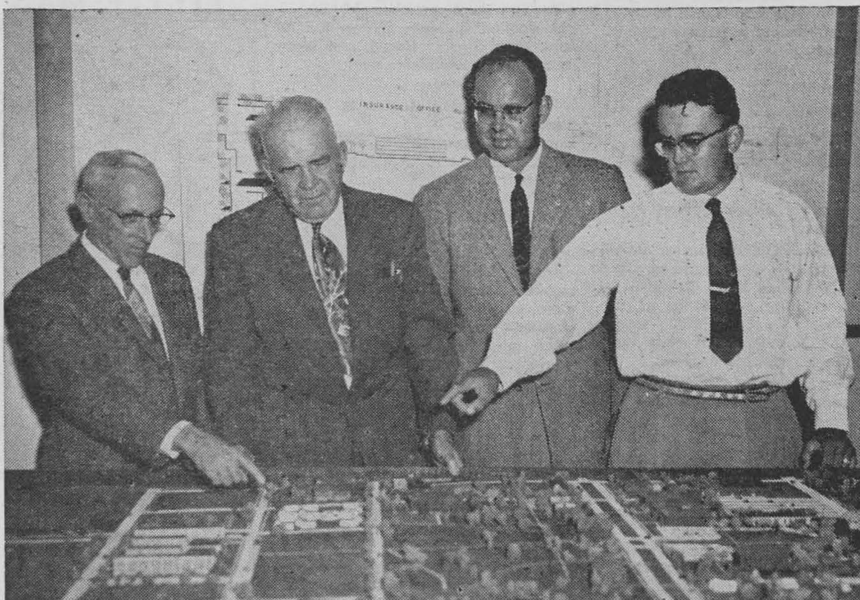

Professor Elderfield received his B.A. from Williams college and his Ph.D. from Massachusetts Institute of Technology. He has done considerable research on several subjects. He is a member of the National Academy of Sciences, American Chemical Society, American Society of Biological Chemistry, and the National Malaria Society.

He received the Presidential Certificate of Merit in 1946 and was editor of the TREATISE ON HETEROCYCLES as well as the Journal of Organic Chemistry.

## Coffee Date Club To Reserve SUB

Beginning Monday night, November 10, a portion of the SUB Ballroom will be reserved for coffee dates, according to assistant director Roy Lashway. Only couples may use this area which will feature a "nite club" atmosphere with dancing and private tables.

The north end of the ballroom has been selected for this area and will be partitioned off. Students are asked to co-operate in respecting both the area and the rules which have been set up. The coffee date "club's" main rule is: Only couples will be allowed to dance and use this area.

RECENTLY ACCREDITED, MSC's school of architecture lays plans for further expansion. Department members are shown looking over a scale model mock-up of the campus with Vice-president P. C. Gaines. Left to right are H. C. Cheever, P. C. Gaines, Hugo Eck and John DeHaas.

## Editorially Speaking . . .

## Co-eds Say Taboo

A situation which should never arise, particularly on a college level, is becoming a problem at MSC.

Reports from various sources indicate that due to the misconduct of a few male students, the coffee shop in the SUB is currently taboo among a large number of co-eds during the evening hours.

The same problem apparently exists during the movies in the Student Union Theatre, also.

It would seem that any person of college age should be able to refrain from making obscene comments, throwing papers, etc., in public places.

Rather than any official action being taken to alleviate this situation, the best solution to the problem would be for these people to take stock of themselves and start conducting themselves more on what is generally considered to be a college level.

## And the Wind Blew . . .

## Buy Train Tickets, You All

By SHAUN KELLY

I've heard so much recently concerning this "game" called touch football that the other evening, after a frustrating day in classes, as I dragged my "bod" home to my little pad, I stopped to watch a few plays of this sport. . . Mannn! . . . I sure would hate to see one of those guys really tackle 'cause their "touch" just cooled a couple of their worthy opponents. . . 'suppose I don't even have to mention the Cats victory over St. Ambrose. . . as the publicity manager of the Bees put it. . . we're just way out of their class. . . too bad he had to come 1,000 miles to find that out. . . second in the nation for small colleges. . . pretty fair for old "Podunk U." . .

Hurry. . . Hurry. . . Get your tickets for the fun ride. . . all 228 miles of it. . . to the Bobcat-Grizzly game in Missoula on November 15. . . tickets are on sale now for the nominal fee of \$6.55 and a good time should be had by all. . . even if you don't ride the train. . . be sure and go to the game.

George Slinger was sitting in the office the other day when a student wandered in with the oddest request for a classified add. . . it seems he wants to locate a student from South Carolina. . . object: a ride home Christmas vacation. . . so South Caroliner. . . wherever you are. . . help out a fellow rebel and contact Doug Renneman. . . Culbertson 2nd floor lounge. . . phone JU 6-5405. . . he knows you're here. . . he has seen your car with South Carolina plates. . .

If you didn't pick up your supplement to last year's Montanan. . . do so now. . . they may be obtained in the Montanan office. . . this is for upperclassmen. . .

Whow. . . big wind Monday night. . . just about blew me out of bed. . . must have been a few last minute politicians making a stand before the elections. . . guess it blew a few seats down in Gattson Field and tore the roof off one of the little houses outside the Quads. . . the little houses where Haggerty-Messmer keep spare lumber. . .

Speaking of the new building. . . what are the boys in Lewis and Clark going to do now that the view of Hannon Hall and the Quads has been obstructed by the super structure of the new dorm? . . . guess they will have to wait for the new freshmen gals to move in. . .

With mid-quarters all last week. . . the library was so crowded I thought they must be showing a "B.B." movie. . . no such luck.

White shoe polish, hay, boards, wire, frozen hoses, Sherman tanks and pneumonia all seem to be in order concerning the mysterious visit of a person or persons to numerous organized houses last week. . . a little Halloween trickery. . . two days in advance. . .

Ready. . . here comes another morsel of wisdom to ponder upon. . . don't start vast projects with half vast ideas. . .

## ASMSC President Defends Name Changing, Reputation

By MARTHA ANNE EUDY

"For too many years MSC has been credited with the accomplishments of persons associated with MSU."

With these ringing words Larry Pettit, ASMSC president, defends Montana State University's proposed name change. He further states that "MSUs reputation is much more notable than MSC's in academic circles."

To test the faculty's opinion on the name change, Pettit has sent letters containing the above quotes and questionnaires to each faculty member. On these questionnaires the faculty are asked the following: (1) they favor a change (2) believe the chances are good for getting a change (3) consider the students wise for taking such action.

The three names being considered are University of Montana (preferred), Montana Uni-

versity, or State University of Montana.

The EXPONENT in an article two years ago proposed that MSC be called MSU. However, to date nothing has come of the proposal because MSC cannot legally become a university until it has a graduate degree.

The Board of Education discussed the subject in Helena last summer. They brought up the points that if MSC became MSU it would be difficult for graduates to explain what school they had been affiliated with, and the name change could lead to bitterness among the units.

According to the KAIMIN, which obviously does not support the name change movement, "Our student leaders obviously have indulged themselves in wishful thinking and the only result would be confusion"

## Senatorially Speaking

By LENNIE PFISTER

Question of the week: "Do you feel cutting campus is getting to be a serious problem at MSC?"

Deanna Suneson—President of Associated Women Students is the job Deanna holds as one of the senate personalities. Her job in this office is to represent all MSC women on campus and coordinate the activities of AWS Council with ASMSC in the interests and for the general welfare of the woman and the school.

Deanna came from Davis, California and is a senior majoring in Home Economics. She is a member of the Pi Beta Phi sorority of which she is the Vice-president.

In answer to the week's question, Deanna says, "Refraining from cutting across the lawns is just one of the many ways a student can show respect for the campus."

Deanna worked this summer in the Registrar's office at the University of California at Davis.

Among Deanna's interests are swimming, tennis, traveling and all types of music, (especially jazz).

Deanna is a member of the Phi Upsilon Omicron (Home Ec. honorary), Mortar Board, and is on the REW committee work.

Ken Nelson—A senior in the General curriculum from Sunburst, Montana is Senior Class President. Ken's job as this officer is to represent the Senior class in Senate, organize senior class, call a and preside over all class meetings. In Senate, Ken works on the screening committee.

Ken is Past President of the Sigma Nu fraternity REW Publicity chairman, is in IFC, Septemviri, and M-Club.

When asked the question of the week, Ken answered, "I think cutting campus is a deal which should be stopped. The Spurs, Fangs and Septemviri members are trying to enforce this all the time, but will need the support of the whole student body. It is really getting to be a problem as paths are beginning to develop all over campus."

## Broomstick Missile Hi-Jacked Foils First Launching Attempt

By JERRY HOLIDAY

Oct. 31, Cape Canable. A late news bulletin just received says that last Friday a new remote control broomstick missile was launched and is believed to have been hi-jacked somewhere over the Atlantic Ocean.

Success of the broomstick missile would have meant that the U. S. would have been first to launch such a craft into space.

The hi-jacking concept seems to have arisen when the particular date the missile was launched was noticed. It was suggested that a small band was to blame since such a launching was a definite violation of the labor rights bill, working agreement No. 7731, which on that particular day of launching and by that definite piece of equipment are a violation to the band.

The question now pertains to who the violation violated. Whether it was a violation of Working Agreement 7731 by being launched a particular type missile on that particular date complicating and forcing intervention the job performed by hand. This, of course, would disrupt a number of people who dependent on this band.

The other violation in question is whether or not it is legal to "heist" an object when its misadventure will disrupt your job. In any taking the law into your own hands is illegal, but is it fair to do so on your own authority without the proper facilities to intervene the broomstick missile are accessible to the legal force. What do you think?

## 'Safari Special' Leaves For Greatest Hunt This Season

Note: In early November 1956 the Bobcats travelled to Missoula to play in the annual Bobcat-Grizzly game. Well over a thousand Cat supporters also travelled to the Garden City by air, car, and train to help cheer on the under-dog Bobcat 11 to a 33-13 victory—the first in 50 years in Missoula.

To the Editor:

I earnestly and vigorously invite you and your 3,821 associates to the greatest hunt of the season. In Missoula we find the largest accumulation of Grizzlies ever assembled. Look forward to it as "open season on the Grizzlies." Although we are a smaller animal, you never see a Bobcat more lively in its hits, more cagey with plays, or more anxious to step deep into Grizzly territory.

We need your help. We are not outnumbered, outyelled, outspirted. I would like to mind you of the 'Safari Special' which is being organized by the Northern Pacific Railroad. "Safari" will be leaving Saturday morning and returning Sunday evening following the game.

I am merely a humble gamester hoping you will come with me help carry home the trophies.

Predatorily,  
Herb Agoes  
Head Football Coach

## Memo . . . from Mortar Board

✓Get your ticket for the Grizzly game-train again (or for the first time if you missed the great trip two years ago).

✓Your Pants are Showing unnecessarily, gal, in drab labs, SUB, lib, on campus. Coverup. Need we say more? We possibly shall.

✓Put a big red (and blue and gold) circle around December 6 on your AWS calendar. Something new and different is coming to MSC! More info next Memo.

# Student Fees Help Alumni

EDITOR'S NOTE: Information published in the EXPONENT of last week concerning the reasons student funds are given to the Alumni Association was obtained from Student Senate. As a result of this information was in the EXPONENT, the following letter was written to clarify the matter.

Stan DeVore, President Associated Students Montana State College

After reading the Exponent account of the current student activity budgets and wish to call to your attention that the explanation given for the use of the student budget money was not read correctly. The sole purpose of this letter is to prevent misunderstanding and I will appreciate it if you will read the letter to your Student Senate members.

During the fall of 1947 the Associated Students voted on and approved the proposition of payment of \$100 per student per quarter to the Alumni Association from the activity fee. In return they gave a one year pre-paid membership in the Alumni Association for each three quarters the fee was paid, beginning with graduation or withdrawal from college. For example, a regular student who graduates after four years will have paid the fee for four quarters and is credited with membership paid-up for four years. This membership carries all the rights and privileges of college, holding office, alumni services and subscription to the magazine. As long as students remain in school they have an associate member status which provides none of the rights and privileges.

The student fees paid to the Alumni Association help to pay the services to these pre-paid members of which there are currently about 2400.

The magazines placed in the student pickup, scholarships, financial assistance, student activities, such as the uniforms for the twirlers, all bonuses for the Associated Students. These bonuses and other services to the institution are possible only because of the generous gifts made by alumni to the Alumni Development Fund each year.

We certainly hope this explanation will clear up or prevent any misunderstandings. If students have other questions, I shall be glad to answer them.

Sincerely,  
Max Worthington, Secy.  
Alumni Association

# MSC Debate Teams to Match Wits in Tournament

From Montana State College's forensics department two Intercollegiate debate teams and one Great Northern Debate team will match wits with opposition to the North and to the South this week-end.

The Intercollegiate teams will participate in the Rocky Mountain Forensic League Tournament, November 6th and 7th. This tournament is one of the older ones, and MSC has been a member for a considerable time. It will be held at Colorado State College in Greeley, Colorado.

An experienced team composed of Merrill Garrett and John Kearns and a freshman team of Gary Crane and Dan Johnson

will compete in extemporaneous speaking, as well as debating the question: "Resolved, that the further development of nuclear weapons should be prohibited by international agreement."

They will be meeting reputedly strong teams from schools of top

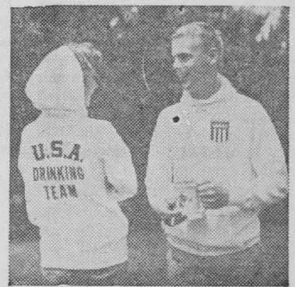

quality in forensics—the University of Denver, the University of Colorado, Utah State University, Colorado State University, Colorado State College, the University of Utah, the University of Wyoming, and Brigham Young University.

## Greek Theater To Invade Campus, Modern Techniques Revise "Medea"

By R. E. CARROLL

The MSC production of "Medea," coming in a little over two weeks is going to be unique.

For the first time audiences will see a play staged in the spirit of classic Greek theater, and using enough modern technique to make it a very exciting show.

A tragedy in every sense of the word, "Medea" is the story of what happened to Jason, who after having obtained the Golden Fleece with the aid of Medea, decided to cast her and his sons aside and marry Creusa, daughter of King Creon of Corinth.

Medea, being a very capable

woman, uses her charms and knowledge of dark magic to even the score, and her revenge is possibly one of the most blood-chilling stories on record.

Medea is played by Barbara Watts, recently seen in "The Fourposter," and Neal Roberts has been cast as Jason. Other members of the cast are Pat Alsup as Creon, Duane Hagen as Aegeus, Ellen Missal as the Nurse, Jim Pepper as the Tutor; Ann Dunbar, Joyann Heer, and Marty Lee as the three women, and Jim Rock as the slave.

## Article Cites Income Changes

Changes affecting per capita income in Montana and changes in the state's livestock production are the subjects of the two leading articles in the fall issue of "Looking Ahead," a publication of the Agricultural Experiment Station and the Agricultural Extension Service at Montana State College.

In the article on per capita income it is pointed out that while 1957 turned out to be the fourth best per capita income year in Montana's history, the state has dropped below the national average in per capita in-

come and in its position among the states.

Very largely, the article explains, these declines are a reflection of the drop in farm product prices and to a change in the proportion of Montana's total income derived directly from agriculture.

The article on changes in livestock production cites the large increase in numbers of beef cattle and the decline in the number of dairy cattle, sheep and swine. It points out that there is a trend toward more specialization in the kinds of livestock kept on farms.

## Lewis and Clark Residence Association Elects

The newly formed Lewis and Clark Residence Association held officers at a meeting on Friday, October 27. These officers were elected from the LCRA nature which is composed of president of each house.

Bob Raccetto, chairman of the head resident committee on government, officiated.

The results of the elections are as follows: President, By Deibel; Vice-President, Tom Richardson; Secretary, Ken Toim; Treasurer, Murray Bell.

Previous to the first meeting of the LCRA, the members were in a vigorous orientation by resident Jim Brewer's Initiation and Selection Committee.

The new government of LCRA began work on the by-laws of the new jury system, which will be set up in the near future. A member from each house will sit on the jury and the LCRA president will preside.

The officers at each respective house are as follows: (Alpha) Pryor first—President, Sanborn; Vice-President, Etagnito; Secretary, Del Hawkins. (Bravo) Pryor second—President, Everett; Vice-President, John; Secretary, Bob Hitchens. (Charlie) Pryor third—President, Adrian Stevenson; Vice-President, Tom Beck; Secretary, Carlsson. (Delta) Pryor fourth, President, Leo Jones;

Vice President, John Wheeler; Secretary, Rick Corine.

(Echo) Colter first—President, Tom Richardson; Vice President, Irv Winslow; Secretary, Leo Kelly. (Fox Trot) Colter second—President, Knut Skram; Vice President, Bob Peck; Secretary, Bob Baxter. (Golf) Colter third—President, Bob Durado; Vice President, Fred Grim; Secretary, Ken Miller.

(Hotel) Colter fourth, President, John Bauman; Vice President, Dave Tillitt; Secretary, Stan Starr. (India) Mullan first, —President, Myron Dieble; Vice

President, Kenneth Rustad; Secretary, Carl Schmidt.

(Mike) Culbertson first—President, Don Quigly; Vice President, Jerry Abercrombie; secretary, Carl Saner. (November) Culbertson second — President Tony Kraft; Vice President, Bing Coverdale; Secretary, Bob Lutz.

(Oscar) Culbertson third — President, Bob Parkins; Vice President, Ronald Moroz; Secretary, Paul Blizniak. (Papa) Culbertson fourth—President, Terry McCabe; Vice President, Hugh Van Sweavingen; Secretary Glenn Christenson.

## Vet Club Elects

At a recent meeting the MSC Veterans club elected Gene Ker... president; Jim Baumgard... vice president; Bob Weken... secretary and Roy Linn... treasurer.

The next meeting is scheduled for Monday, November 10, at 8 p.m. in Room 310 of the... B. Authorities will be on hand to answer questions regarding veterans benefits.

## Egan Returns from Detroit

Kenneth Egan, Jr., of Missoula, senior in mechanical engineering at Montana State College, just returned from Detroit, where he was a delegate to the national convention of Pi Tau Sigma, mechanical engineering honorary.

Egan represented the MSC chapter of Pi Tau Sigma which was installed last May.

More than 100 delegates from chapters of the fraternity attended the convention. Highlights of the program included tours of the Ford Motor Company plant and the General Motors Technical center, and an address by Charles H. Chayne General Motors vice president in charge of engineering.

A HARD-RUNNING HALFBACK with good protection is a hard combination to stop. This was demonstrated by MSC's Bob Rudio against St. Ambrose last Saturday. He made a long gain on this carry, due to the fine blocking by End Harvey Warren and two other unidentified Cat linemen. Besides extending their win streak to seven in as many starts by whipping the St. Ambrose Bees, the Cats strengthened their hold on second place in small college standings this past-week. Topped in placings by Mississippi Southern, Montana State will endeavor to extend their winning ways against the Cal Poly Mustangs tomorrow. Also trying to garner an unbeaten season record are the Kittens who clash with the BYU frosh at Provo, Utah this afternoon in their final game of the season.

## Cats Clash With Cal Poly Mustangs

Head grid Coach Herb Agoos and his undefeated Bobcats journey to the hot and humid California coast once again this week end to meet the Cal Poly Mustangs at San Luis Obispo. From all indications, the once beaten Mustangs are going to be up for the game which is their homecoming.

The Mustangs have tucked away their second California Collegiate Athletic Association (CCAA) crown in as many years this fall.

At the start of the grid season it was indicated that Coach Roy Hughes' Mustangs could go all the way for an undefeated season. Last year his gridders had an enviable 8-1-0 record and so far this year have a 7-1 record to show for their efforts.

### Stars are Sidelined

This is even more astounding when it is revealed that six of the Mustang starters early this fall were sidelined by various injuries.

Topping the list of injured stars is tackle John Madden, a mere 260 pounder, who has already been drafted by the NFL's Philadelphia Eagles. Also, halfback Freddie Ford, "the Tulare Thunderbird," has been sidelined due to a foot injury. Regardless of the injury he has a cool average of 10 yards per carry for 32 attempts.

### Mustangs Boast CCAA Crown

So far the Mustangs have whitewashed Los Angeles State and the College of Idaho by 55-0 and 53-0 scores. The Mustangs squeaked by San Jose State with a 10-6 win in their third outing this fall, and lost a 0-14 tangle to Fresno State the following weekend. Coach Roy Hughes' out-

fit bounced back, posting a 26-2 win over Long Beach State.

Last weekend the Mustang herd ran roughshod over Pacific U. 1.0. This upped their total season points to 270 compared to their opponents 26 in eight outings.

The Mustangs lone loss to Fresno was their first failure to cross their opponents' goal line in 60 consecutive games.

Cat Coach Agoos related, "If we can take this game we will have beaten a good club. They are going to be up for us just as we are for them."

No new injuries were suffered during last week's game and the squad should be in top shape for Saturday's game.

The probable starting lineups:

### CAL POLY:

|                      |    |
|----------------------|----|
| Dick Tucker (190)    | LE |
| Pat Lovell (230)     | LT |
| Jim Doyle (180)      | IG |
| Bob Williams (210)   | C  |
| Bob Moore (200)      | RG |
| John Allen (215)     | RT |
| Darwin McGill (195)  | RE |
| Tom Klosterman (170) | Q  |
| Willis Hill (165)    | RH |
| Claude Turner (190)  | F  |

### MONTANA STATE:

|                         |    |
|-------------------------|----|
| Harvey Warren (185)     | RE |
| Bill Borders (225)      | RT |
| John Munk (207)         | RG |
| Sonny Holland (215)     | C  |
| Darrell Huath (220)     | LG |
| Chuck Dallum (230)      | LT |
| Bob Surdam (175)        | LE |
| Gary Davies (175)       | F  |
| Rocco Perciavalle (190) | Q  |
| Jim McLeod (175)        | RH |
| Bob Rudio (165)         | LH |

## 39-18 Defeat Handed St. Ambrose As Defense Throttles Top Passer

The Bobcats came through again last Saturday by taking the sting out of a stricken Bee eleven. A hard, fast ground game with intermittent passing by QB Gary Davies enabled the 'Cats to defeat St. Ambrose 39-18.

Bob Webb, St. Ambrose's passing wizard, was held down to completing only 9 passes out of 27 attempts in the air. Webb, who had averaged 224 yards passing

per game up until his encounter with the Bobcats, was held down to 116 yards.

However, Webb put on quite a show of deception and passing talent with his accurate tosses, spite of a hard-rushing MSC line and a secondary concentrating pass receivers.

This defense kept MSC in constant trouble during the first half as the wise Bee quarterback mixed up his ground aerial plays to wring out a yardage with running play through the Bobcat defense.

A crowd of about 5000 watched St. Ambrose get slashed by pieces by a great display of Bobcat savagery in the second half. During the first half, however, the Bees gave the crowd many anxious moments, and only gave Bobcat defensive play stopper St. Ambrose, once on the 17 yard line and once on the 16,

One of the highlights of the game was an inside kick by St. Ambrose which was recovered by them. The next play Webb tossed a pass to Bob Varley which was carried 52 yards to a TD. All took place within the last 11 minutes of the game.

## Perciavalle Is Top Scorer

MSC's iron-man, fullback Rocco Perciavalle, is leading the Bobcat's ground attack with a total of 35 yards rushing in 89 carries. The 'Rock' is also the Cat's leading scorer with 46 counter in 7 games.

Halfback Bob Rudio is second in the rushing department with 328 yards, in 38 carries, for a big 8.6 yards per carry average.

Rudio is right behind Perciavalle in Bobcat scoring. The diminutive scatback has run up 28 points in 6 Bobcat encounters.

Quarterback, Gary Davies, has hit the target with 23 out of 57 passes for a 40 per cent average to lead MSC chuckers. The Bobcat field-general is also third in team scoring with 20 points.

|                  | MSC  | Oppo. |
|------------------|------|-------|
| First downs      | 117  | 82    |
| Yards rushing    | 1684 | 784   |
| Yards passing    | 492  | 665   |
| Net yards gained | 2176 | 1449  |
| Fumbles lost     | 22   | 7     |
| Yards penalized  | 430  | 275   |
| Total points     | 200  | 64    |

**Bobkittens Hand Grizzly Cubs 27-6 Defeat As Marinkovich's Squad Extends Win Streak**

MSC's still undefeated Bobkittens jumped to commanding 21-0 lead and were never seriously threatened as they rolled over the MSU Cubs 27-8.

Scoring in every quarter but the third, coach George Marinkovich's squad broke ball-carriers away on long runs to set up every touchdown. Bernie Costello, Kitten half-back, galloped 51 yards to the Cub five-yard line, early in the first quarter. Charles Springer pitched to Costello in the end zone for the first MSC score.

In the second quarter, Leon Matties, Bobkitten full-back took a hand off and sprinted 54 yards

through the MSU secondary. Just before the end of the first half, Bob Ford took a lateral on the Cub 45 yard line and raced to the five before being knocked down. Harry Lopzonski passed to Bill Heyser for the TD. The bobkittens picked up all three extra points and led 21-0 as the first half ended.

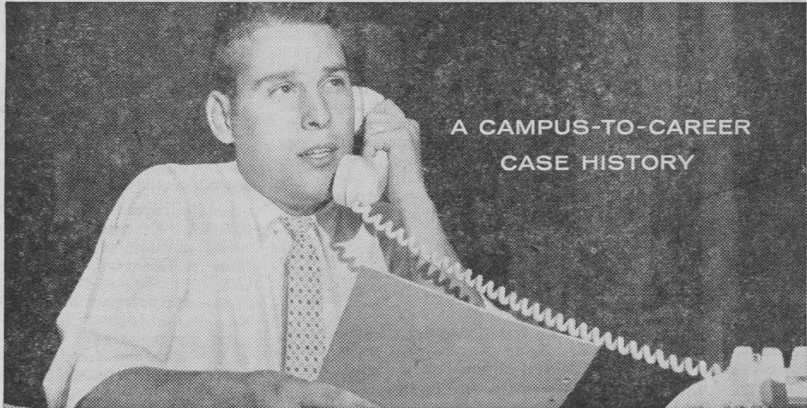

MSU came back strong in the third quarter and scored on beautiful runs by Paul Gustafson and Terry Ramos. Ramos also carried to the Bobkitten five, only to have his run nullified by a penalty. The Cats played even ball with MSC for the rest of the third stanza. The only scoring in the final quarter came in a quick

opener to Costello from the Cub 26. Fumbles stopped two determined drives by MSU in the second half.

A CAMPUS-TO-CAREER CASE HISTORY

**He's been on his way up  
from the day he started work**

James C. Bishop got his B.S. in Electrical Engineering from the University of Illinois on June 23, 1953. On July 1, he went to work as a lineman in the Illinois Bell Telephone Company management training program. On July 2, he was "shinnying" up telephone poles.

And he's been "climbing" ever since. A planned rotational training program, interrupted by a stint in the Army, took Jim through virtually every phase of plant operations.

He was promoted to Station Installation Foreman in July, 1957. Then came more training at company expense—in human relations and other supervisory subjects—at Knox College.

Since early 1958, Jim has been Central Office Foreman in the Kedzie District of Chicago, which embraces about 51,000 telephone stations. He has 19 men reporting to him.

"I was hired as 'a candidate for management,'" he says. "I know I'll get the training and opportunity to keep moving ahead. How far I go is up to me. I can't ask for more than that."

\* \* \*

Find out about career opportunities for you in the Bell Telephone Companies. Talk with the Bell interviewer when he visits your campus. And, meanwhile, read the Bell Telephone booklet on file in your Placement Office.

Jim Bishop holds training sessions regularly with his men. At left, he discusses cable routes in connection with the "cutover" of his office to dial service. At right, he and a frameman check a block connection on the main frame.

**BELL TELEPHONE COMPANIES**

## Who's Who and Who's Whose

By BOBBE GARRY

### NOVEMBER NOTES AND NOTICES

With the onslaught of the colder weather of an embryonic winter, many of the male set of the campus have been assuming a downcast stance as they look with puzzlement and awe at the defense the girls have taken against the stinging bite of the winter wind. Red and black are the favorite colors, but the boys can't quite decide if this new thing is quite up to their expectations of what a young coed should wear. Enough said.

Let it suffice to say the SUB is once again in business after a slight slump. Do your bit to help the depression—buy a cup of coffee.

### SHE'S LOVELY, SHE'S ENGAGED

Halloween brought Nona Beaudry, Ind, quite a treat from Dean Walton, Ind, who chose that night to let the ring out of the bag. Marilyn Dugdale blew out the candles at the DG house to announce her engagement to Lt. Dave Stevens, KS. Karen Kannegaard, AGD, announced her engagement to John Printy, Ind. Harry Guenther, Men's Co-op, passed the cigars to announce his engagement to Doloris Lombardi.

### SHE'S CUTE, SHE'S PINNED

Word has just been received that Len Broz, yes, Len Broz, Delta Sig, found the combination for the lock on his pin and has given it, along with the pin, to Judy Gleason. Jacque Lacy has been reported seen wearing a Sigma Nu pin from Bob Currie. It was a big night for the Sigma Nu's as Bob Moriarity passed the cigars to announce his pinning to Donna Johnson, DG.

### WITH THIS PIN I THEE PLEDGE

Pi Phi's count two more among the revered bonds of the sisterhood, Sharon Kilbride and Sharon Laurence. Phi Sigma Kappa has pledged Dennis Myers. Don Laubach is a new Lambda Chi pledge. New SAE pledges are Bob Gretencort and Bob Semmens. Pledges in the Pi Kap house have been joined by Barton Furry, Dick Price, Dave Logerquist and John Farcos. David Heath and Dick Meyer are new Delta Sig pledges. The six new SN pledges are Ed Guinnane, Jay Willett, Roger Reser, Gary Bracken, Joe Wichman and Don Lacy.

New actives in the Chi O house are Jamie Childs, Bev Johnson, Mary Bergstedt and Nancy Ayers. Richard Golberg, Harry Baker, Tom Molen and Glen Whyte have passed from the pledge stage into a more active one.

New members in the Men's Co-op are Dhia Amely, Louis Bartos, Dave Cairns, Terrence Carmody, Kerry Fagenstrom, John Falat, Hooshang Fekrat, Elwyn Felts, Robert Garbor, Robert Hagen, James Harder, Donald Hartzog, Douglas Holm, Judd Honadel, Gene Johnson, William Joor, Donald Kimmel, LeRoy Knaub, Loren Luthje, Winifred Manzke, Neil McAlpin, Bunny McBride, Russel McDowell, Lawrence Pope, Clifford Rufenach, Charles Sampson, Jon Schwefel, David Shular, Anthony Smerker, Donald Sutherland, Carl Sutphin, John Sutphin, Vern Swanson, Ward Swanson, Bill Thomas, James Waldo, Laurence Walsh and Bruce White.

### MORE ELECTIONS

Officers for the AOPi pledge class are Beverly Landis, president; Marion Miller, vice-president; Kay Kirk, secretary; Mary Bennett, song leader; Sherry Stursburg, social chairman; Phyllis Lowe, standards. The new Pi Kap officers are president, Rex Smith; vice president, Tom Bohl; historian, Larry Daw; IFC representative, Walt Ware. The Men's Co-op recently elected Jerry DeBree as manager, to replace Harry Guenther who resigned. Bob Garber was elected winter quarter social chairman; Art O'Leary, spring quarter social chairman; Don Fenton, historian; Bert Rice, chaplain; Roy Weston, song leader. Don Moore is the new president of the Delta Sig house. Other officers are Arjay Godston, vice-president; Jim Craig, treasurer; Bill Gannon, secretary; Walt Ferguson, sgt.-at-arms.

## Chemistry Professor Visits, Lectures at Southern Colleges

Dr. William B. Cook, head of the Montana State College chemistry department, is serving as a visiting scientist in chemistry at Wiley College in Marshall, Texas, and Centenary College in Shreveport, La.

While at these institutions, he will lecture on alkaloid chemistry application of atomic and molecular orbital theory to organic chemistry and on general philosophy of science.

Dr. Cook will return to his duties at MSC on Nov. 9.

The program of visiting scientists in chemistry is financed by the National Science Foundation and host institutions. The program is administered by a committee designated by the Division of Chemical Education of the American Chemical Society. A member of this committee is Dr. Edward C. Fuller, an alumni of MSC, and now head of chemistry at Beloit College, Beloit, Wis.

## MSU Man Head Of College GOP

Bill Baillie, state chairman of the Montana Young Republicans today announced the appointment of Jerry Agen of Shelby and now a student at Montana State University at Missoula, as State Young Republican College Chairman.

The Montana Young Republicans now have about eight college clubs in Montana in operation and plan an energetic college political program in Montana.

Baillie said that the figures show that about 60 per cent of the college youth in Montana are Republicans and that the Young Republicans plan political schools to teach young people the rudiments of politics.

Agen is 19 years of age and is a Sophomore from Shelby. He is a pre-law major in history and political science.

He has been very active in campus activities and in his new position will travel to the various college clubs in the state to create interest in the affairs of our state and nation and in the philosophy of the Republican Party.

Baillie announced that the Montana Young Republicans would continue to operate as a force in Montana politics and that future committee appointments will be made in Montana. He also said in order for the two party system to work effectively in this state the Young Republicans must be active the year round.

## Martin Recipient Of Nurses Award

Nancy Martin, a sophomore nursing student from Miles City was awarded the annual Montana State Student Nurse's Association scholarship.

Announcement of the selection was made at the recent MSSNA state convention. The selection was made from applicants from the various schools of nursing in Montana.

Nancy is affiliated with the Butte Community Memorial Hospital. She is a member of Pi Beta Phi sorority.

A scientific apparatus maker has developed an automatic gauging and sorting machine which checks bearings and small parts to three-millionths of an inch tolerance, handling them as fast as 7,000 an hour.

America's first chemist, John Winthrop, used kitchen utensils in 1630 to experiment with corn as the basis or "pale beer." Today's chemists rely upon scientific apparatus makers for more than 40,000 laboratory items.

## On Campus with Max Shulman

(By the Author of "Rally Round the Flag, Boys!" and, "Barefoot Boy with Cheek.")

### ANYONE FOR FOOTBALL?

When Pancho Sigafoos, sophomore, pale and sensitive, first saw Willa Ludovic, freshman, lithe as a hazel wand and rosy as the dawn, he hemmed not; neither did he haw. "I adore you," he said without preliminary.

"Thanks, hey," said Willa, flinging her apron over her face modestly. "What position do you play?"

"Position?" said Pancho, looking at her askance. (The askance is a ligament just behind the ear.)

"On the football team," said Willa.

"Football!" sneered Pancho, his young lip curling. "Football is violence, and violence is the death of the mind. I am not a football player. I am a poet!"

"So long, buster," said Willa.

"Wait!" cried Pancho, clutching her damask forearm.

She placed a foot on his pelvis and wrenched herself free. "I only go with football players," she said, and walked, shimmering, into the gathering dusk.

Pancho went to his room and lit a cigarette and pondered his dread dilemma. What kind of cigarette did Pancho light? Why, Philip Morris, of corris!

Philip Morris is always welcome, but never more than when you are sore beset. When a fellow needs a friend, when the heart is dull and the blood runs like sorghum, then, then above all, is the time for the mildness, the serenity, that only Philip Morris can supply.

Pancho Sigafoos, his broken psyche welded, his fevered brow cooled, his synapses restored, after smoking a fine Philip Morris, came to a decision. Though he was a bit small for football (an even four feet) and somewhat overweight (427 pounds), he tried out for the team—and tried out with such grit and gumption that he made it.

Pancho's college opened the season against the Manhattan School of Mines, always a mettlesome foe, but strengthened this year by four exchange students from Gibraltar who had been suckled by she-apes. By the middle of the second quarter the Miners had wrought such havoc upon Pancho's team that there was nobody left on the bench but Pancho. And when the quarterback was sent to the infirmary with his head driven straight down into his esophagus, the coach had no choice but to put Pancho in.

Pancho's teammates were not conspicuously cheered as the little fellow took his place in the huddle.

"Gentleman," said Pancho, "some of you may regard poetry as sissy stuff, but now in our most trying hour, let us hark to these words from *Paradise Lost*: 'All is not lost; the unconquerable will and study of revenge, immortal hate, and courage never to submit or yield!'"

So stirred was Pancho's team by this fiery exhortation that they threw themselves into the fray with utter abandon. As a consequence, the entire squad was hospitalized before the half. The college was forced to drop football. Willa Ludovic, not having any football players to choose from, took up with Pancho and soon discovered the beauty of his soul. Today they are seen everywhere—dancing, holding hands, nuzzling, smoking.

Smoking what? Philip Morris, of corris!
