Professors race the rats

by Nancy McGee

Beware, the rats are coming! This Friday noon in the Fountain Court on the west end of the SUB, the rats will be competing in the First Annual Rat Race.

The rats, actually white mice donated by the Biology Department, each have a coach from fifteen departments on campus.

Each participating professor will have the opportunity to race the rodent a length of 16 feet, and students will have the opportunity to support the department of their choice guessing on the time that it will take the fastest rat to cross the finish line.

The winners of the event will receive dinners for two at the Overland Express and the possession of the coveted ADARAT Trophy. The winning professor can have the rat of his choice attached to the trophy to reign for one year until the next race, says Katherina McClellan, Psi Chi (psychology honorary) president. Psi Chi is the sponsors of the afternoon of fun.

The society also will have a raffle following the race. Prizes consist of dinners, lunches, and movie discounts and can be won with the purchase of tickets for \$.50 each or 3-\$1. The money raised in this event will be applied to scholarships and research awards.

Psi Chi will have a table in the Fountain Court and in the SUB across from the main information desk for the raffle tickets. Also a list of competitors and their departments is at the tables.

"Never before in the history of MSU have such great minds and talents come together to compete in an event of this magnitude," says McClellan.

Contestants are:

Biology, Don Collins; Business, Ron Lundquist;

Chemistry, Brad Munday; Civil Engineering, Bob Oakberg; Computer Science, Gary Harkin; Education, Doug Herbster; English, Joe Bourque; Film & TV, Bill Neff;

History, Pierce Mullen; Math, John Lund; Mechanical Engineering, Bob Warrington; Philosophy, Norm Marshall; Psychology, Doug Kendrick; Sociology, Dave Fabianic; Speech Communication, Jim Diberardinis.

Goodanetz crowned queen

Jeanne M. Goodanetz, a junior in animal science and pre-veterinary medicine, was crowned Thursday night as the 1980 Montana State University rodeo queen.

Goodanetz, 21, is from British Columbia. She is active in the MSU Rodeo Club, Animal Science Club,

Pre-Vet Club, and the singing group New Genesis. She is also president of the Spurs organization.

Goodanetz will represent MSU at various rodeos during the year, including the College National Finals Rodeo here June 17-21.

No alcohol in dorms yet

by Michael Johnson

The exponent wishes to correct information in the Pub in the SUB article that appeared in last Tuesday's edition.

The article, which was a report of the ASMSU Senate meeting of the previous week, inaccurately announced Lori Anderson as saying that the open container regulation in Roskie Hall had been

suspended on a trial basis.

Anderson, who is Secretary-Treasurer of the Residence Hall Association, actually reported on a proposal to have a party on one of the floor lobbies of Roskie.

Permission must be granted by President Tietz to have a party with alcohol in the lobby and the proposal has only recently been submitted.

UPI NEWS SUMMARY

Mother visits her captive son

For the first time since the 50 Americans were taken hostage 170 days ago, family has been allowed to visit a captive, and now, an Iranian judge is calling for the release of Kevin Hermening, whose mother saw him yesterday inside the American embassy in Tehran.

Reagan has good weekend

It was a good weekend for Ronald Reagan. The G.O.P. presidential front-runner picked up 34 new delegates to the Republican national convention in a handful of weekend state caucuses. Jimmy Carter picked up 18 new delegates, Edward Kennedy, seven.

Court to rule on television and trials

The Supreme Court has agreed to rule whether it is constitutional to allow television coverage of criminal trials. The decision to hear the case makes it likely that electronic coverage will be the new testing grounds in the struggle to balance fair trial and first amendment rights.

Chicago's mayor under investigation

A weekend of accusations linking Chicago police and Mayor Jane Byrne's administration to organized crime interests has prompted the Cook County State's Attorney to promise a grand jury investigation. Bernard Carey says he'll ask three former top police officials to outline charges that city hall has been fronting for organized crime.

Men no competition this summer

(WASHINGTON)—Utah Senator Orrin Hatch says it's going to be tough for teenage boys and male members of minorities to get jobs this year, while women from the same two groups have it easier. Hatch says women are more in demand by society, partly, he says, because women have not been treated equally over the last number of years.

BLACK ANGUS

Steak House
& Lounge

520 West Mendenhall

by Scott Peters

If one thing can be said about the movie "Cruising" it's that it certainly gives one pause. Its given whole groups of people fits of pause to the point that they are picketing the theatres its being shown at.

The film uses as a, shall we say, backdrop, a very small segment of the gay population; roughly the same proportioned as the Flat Earth Society is to the English speaking peoples. The segment is the hard core leather and S/M segment of that population.

First off, one has to allow that the film is unpolitic in its timing. If it had been done ten years from now, perhaps it would not quite be so bad. But coming out at the time it is now would be anagalous to reviving Amos and Andy for television in 1969. I know my gay friends don't behave that way, and other open minded educated sort of folk probably wouldn't count many of this ilk among their friends; we know that its a minority.

But "Cruising" is the first major American film in years to even lightly touch on gays. Most folk that haven't dealt with gays much, while not consciously saying all gays

are like this, will be less willing to seek one-out.

William Friedkin manages to avoid the cheap shot throughout in this film. It portrays an off the street, straight cop asked to go underground and find a killer who is wending his way through New York's S/M gay faction.

The cop, portrayed brilliantly by Al Pacino, soon finds that if one sleeps with the devil, one pays the dues.

When his first suspect is cornered, we find the guy was coopted into behaving as a suspect. As the police manhandled him, we find that their ethics aren't much better than the people they loathe so thoroughly.

As Pacino gets caught up in the society he is passing in, his personal life becomes more and more deeply affected by his assignment.

If I went into details beyond this, it would spoil the film. Lightly dancing around it, then, the film closes off so ambivalently as to be muddy. The one thing that does come through is that he won't be able to return to his former life with much ease. He's become one of them; connecting fully sex and violence.

While in most films ambivalence can be an attractive quality, in a movie of this sort, not to draw some sort of "moral", if you will, is to display a lack of concern for one's subject. The words

moral cowardice come to mind.

While it isn't a conclusion the director meant to make, the movie implies an attitude of homosexuality as a virus. It implies straight sex is better than gay sex. It clumsily implies much that the director has said he really didn't mean to say.

What the director seems to wrestle with in this film is a worthy and relevant opponent. The connection between violence and sex is one the culture as a whole has to face before really considering itself civilised.

Ultimately, I'd have to score Friedkin's match, and probably decide in favor of the worthy opponent.

Overhaul your bike

by Janet Nazi

Spring and warmer weather mean you can take your bicycle out of its winter mothballs and hit the road.

But before tire meets pavement, you should take the time to give your bike a good spring housecleaning. A thorough overhaul will prolong the life of your bike by reducing the wear and tear on parts. It will also help your bike run easier.

A good overhaul consists mainly of a thorough cleaning to remove the grit that's been built up over the winter. Water can be used to clean the bike, but don't spray your bike with a power hose

since this only drives the grit into the bearings. Instead, wash and then dry your bike gently.

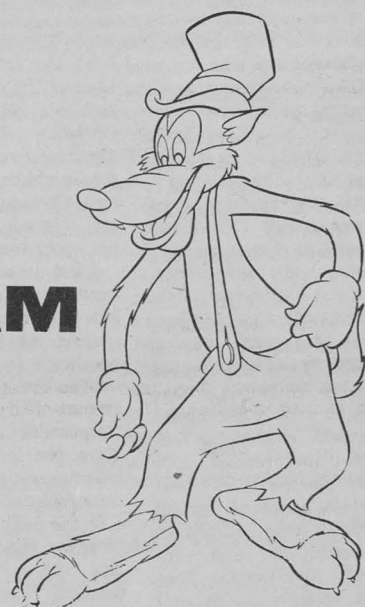

Brake and derail cables should be cleaned, oiled and readjusted. Replace them if necessary.

All bearings should be repacked. This involves cleaning off the old grease and putting on new grease. Paper towels work well to remove grease. A grease cutting solvent also helps.

If your bike has parts that are bent, don't try to bend them back into shape. Chances are they will just break. Bent parts should be

Personals

BICK: Our bet ends tomorrow love, do you buy dinner or do I? JOC

fund the operations of the Student Union Building. I feel that this fee is unnecessary. Students all ready pay a sizeable amount for building fees in addition to the charges that they pay each quarter and this additional fee does not seem equitable.

I feel an editorial policy is unnecessary and restricting, but something must exist to insure that the media produces factually correct information. I feel an enforcement of the Cannons of Responsible Journalism can solve the problem without putting any critical form of censorship on our media.

In the next year their will be many important issues to deal with in regards to expanded services and leadership development and I feel that I can assist in these. Thank you for your support and I hope that everyone gets out and votes.

Urquhart

I feel that I can give the students of M.S.U. the representation they need because I am not affiliated with any special interest group on campus.

I believe that the independents on campus must also be represented giving the Senate an opportunity to realize both view points on various issues.

The area of A.S.M.S.U. that most interests me and that I would most like to work with is improving relations between Senate and the Exponent.

To the average student on campus the overwhelming conflict between the two is obvious, in short, we all know how much friction exists between the two organizations. The end result is bad publicity for both. The Senate invariably is cast as most incompetent group of individuals on campus which is largely untrue. In return, the Exponent is under constant fire from the Senate in the form of verbal attacks and threats of editorial policy.

The issue facing the Senate which will have the most immediate impact on the students of M.S.U. is the dry Spring Thaw. It is up to the city commission to change a ruling by the commission refusing to waive a city ordinance prohibiting open containers in public. At this point it seems unlikely that the city commission will change its mind concerning allowing alcohol at the Spring Thaw, but in the interests of the students something should be tried in order to make the event as enjoyable as possible.

Calendar

WEDNESDAY, APRIL 23

The Montana State University Campus Band and Symphonic Band will present a free public concert at 8:15 p.m., Wednesday, April 23, in the Creative Arts Complex Recital Hall at MSU.

The Campus Band, under the direction of Gerald Makeever, will perform Steven Razo's "Prologue," Ron Nelson's "Mayflower Overture," Arthur Frackenpohl's "Merican Folk Song Suite," Camille Saint-Saens' "Pas Redouble" and Richard Wagner's "Elsa's Procession to the Cathedral."

The Symphonic Band, conducted by Larry Sowell, will perform Ellison Del Borgo's "Music for Winds and Percussion," Handel's "Water Music Suite," Dmitri Shostakovich's "Festive Overture," R. Vaughan Williams' "Folk Song Suite," and "España Cani," a paso doble by Pascual Marquina.

The concert is sponsored by the Department of Music.

Separated or divorced, widowed, single or lonely, you are invited to a non-denominational discussion group every Wed. night at 7:30 p.m. at the United Methodist Church at the corner of Wilson and Olive. Call 586-5413 for additional information.

THURSDAY, APRIL 24

A Women International meeting will be held at 7 p.m., Thursday, April 24, at the ASMSU Day Care Center on the Montana State University campus.

Five American women will discuss the lifestyles of American women with emphasis on the two-paycheck family, the "international" American, the single woman with partner, the homemaker-mother and the single parent-Native American. Panel participants will include Kathy Atteberry, Patricia Baker-Benali, Robin Delman, Sheila Devitt and Kathy Kaya.

The meeting, which is open to all women and children, is co-sponsored by Programming Services of On Campus Living and the International Student Center.

FRIDAY, APRIL 25

The Montana State University skydivers will be performing an exhibition above the Roskie soccer field at 5:30 p.m. and 6:30 p.m. both Thursday and Friday, April 24-25, weather permitting.

This will be an opportunity for those interested in skydiving to talk with skydivers, ask questions and learn about the sport.

intramurals

SOFTBALL

Leagues are filling quickly for Intramural Men's and Women's Softball. Entries are being taken on a first-come, first-serve basis in 301 Romney, along with a \$10 forfeit fee. All managers must attend a meeting on Friday, April 25, at 12:00 noon in the North Upper Seating Area of the Fieldhouse and play will begin Monday, April 28. Don't strike out...get your entry in before it's too late!!!

Smith

A Bookstore director, of course, serves on the Board of Directors of the MSU Bookstore. Every student is a member and owner of the Bookstore; for this reason, there is student representation on the Board.

The Board consists of three faculty and three student members. I am seeking to be elected to one of the student director positions. My name is Vince Smith. I am an Electrical Engineering major. Although my career heads towards EE, I have a fervent interest in business. I have served as vice-president of a Junior Achievement company. With this experience I am more aware of business related problems and how to deal with them. I feel that I can actively participate in the Boards decision-making body; and represent the student's viewpoint.

CO-ED RACQUETBALL DOUBLES

Thursday, April 24, is your last chance to enter the Intramural Co-Ed Racquetball Tournament. An A, B, & C League will be available and individuals may sign-up in 301 Romney. Players must attend a meeting on Friday, April 25, at 12:00 noon in the North Upper Seating Area of the Fieldhouse to schedule first round matches. Take a shot and sign-up today!!!

PEANUTS®

I'LL HAVE YOU KNOW I WORK HARD MAKING YOUR SUPPER!

IT ISN'T EASY NIGHT AFTER NIGHT...I DON'T THINK YOU ALWAYS APPRECIATE THAT...

ANYWAY, HERE'S YOUR SUPPER...I HOPE YOU ENJOY WHAT I'VE GIVEN YOU...

I FEEL LIKE I SHOULD FRAME IT!

by Charles M. Schulz

SUBJECTIVELY SPEAKING

Letters to the Editor

Pub might be alternative

To the Editor:

On Friday, April 25, the students of Montana State University will have the opportunity to express their feelings on whether or not they would like to see a beer and pizza parlor in the Union Building. The student senate has decided to place this on the spring election ballot as a type of opinion poll. This is an important point. If the proposal should pass, it would not mean that the S.U.B. would automatically have a beer parlor. It would simply act as a statement saying that the majority of students at MSU would prefer to see such an operation.

It has recently been pointed out to the student senate that the S.U.B. has accumulated a rather large deficit. Given the present situation, it seems apparent that the S.U.B. can not raise all of the funds that it needs to operate. A proposed answer to this problem is the S.U.B. usage fee. This would be a fee that every student would be required to pay while registering for classes. At the present time, this solution has been put aside, but it is a fairly certain that it will be reconsidered and brought out again in the near future. Given the high costs of college, the students at MSU

do not need another tax placed on their registration fees. It is possible that a pub would offer a viable alternative. Not only would it serve as a valuable fee generator, but it would also serve the purpose of charging those that are actually using the S.U.B. for a service, rather than those students that may never use the S.U.B. for anything at all.

It should be remembered

This election chance for change

Dear editor:

We hope that all students take this opportunity to express their concern about the lapsidical state of affairs in ASMSU Student Senate. The Pan-Hellenic and inter-fraternity council has dominated the political scene for who knows how long, and we believe that this is the chance for an intelligent alternative government system to be created. Kloubec has shown the high level of integrity and competence that we deem necessary to guide this University in the crucial upcoming year.

Peter Davenport Blair

Robert Brown

Robert Och

that the pub has been proposed as a beer and pizza parlor. If the proposed should ever happen to become a reality, the pub would be designed and promoted as such. There is a world of difference between establishments such as the "Little Big Men" and the "Rocking R". Both of these establishments seem to serve useful purposes, but the two also have distinctly different times and places in which they should be allowed to operate. The pub is a proposed beer and pizza parlor and would carry the low-key atmosphere that is usually characteristic of such establishments.

It is very difficult to express the entire side of an issue in one "letter to the Editor", and thus I would like to invite anyone having questions about this issue to feel free to contact me through the ASMSU office.

Whether or not you are for or against such a proposal, the important point is that you declare your stand by taking time to vote. The activities and services on the MSU campus will only be as good and as useful as what the student body chooses to make them.

Randy Lester

ASMSU Student Senator

Spring Thaw brews

It is too bad that the law enforcement officials cannot come out of their caves to discover that the dark ages are gone and that a spring thaw is on the horizon.

Anyone attending the Spring Thaw of two years ago would have to agree that it was a fantastic event that took everyone away from the pressures of school. Had there not been a Spring Thaw, those people would be elsewhere enjoying the outdoors and brews, but there would not be as many people or a live band. We all would have been out in the mountains enjoying those brews only having to pay the price of endangering lives on the way back.

Spring Thaw is an excellent idea because it provides those concert goers who enjoy the outdoors with an opportunity to walk to some place nearby to get a tan, enjoy music, and sip on beers without endangering peoples' lives. Unfortunately the sheriff and police departments think the contrary; they talk about riots, but they have no past experience upon which to base their judgements. Concerts that have had problems have not even been in Montana and have involved more people than the entire population of Bozeman. The Spring Thaws of the past have been without major incidents, even with the alcohol.

What the city should be concerned with are sanitation measures such as portable toilet facilities and garbage disposal. The law enforcement and should be adequately covered with the student security force and a few additional uniformed police officers, the latter to handle the few rough situations that might present themselves.

Students must voice opposition to the city's action so that the commissioners at least know how the students feel and possibly change the decision or at least think about next year's Spring Thaw.

Salo clarifies Bottle Bill

To the editor,

In April 4th's edition of the Exponent Mr. Koprivica wrote that the EPA stated that Oregon's litter was reduced by 3 percent over a 5 year period. The only study that has been done which quoted this 3 percent statistic was the Continental Can Co.

This percentage of litter reduction in Oregon has been thrown out the window since the U of Washington analysis of this study found countless things wrong with it.

However, the Oregon State Highway Dept. did a before and after study of Oregon's litter along 30 major highways. They found overall litter reduced by 47 percent and beverage container litter down by 83 percent.

A Maine Dept of Conservation study showed that beverage container litter was reduced by 78 percent and overall litter decreased by 32 percent after their deposit law went into action.

According to a January, 1979 report by the Can Manufacturing Institute there was a 5 cent difference

on a six pack of beer between Oregon and Washington and a 4 cent difference on soft drink. (Oregon being the higher priced). A Seattle Times study revealed that prices were comparable between the two states.

Many factors need to be considered when analyzing the reasons for price differences between states. For example, in Maine and Vermont the state controls the beverage prices as they do milk in Montana. (Maine and Vermont have bottle bills).

It is economical not to throw away. A Michigan Dept. of Natural Resources study of 6 cities showed a reduction in landfill of 6-8 percent during the first year of their deposit law. This amounted to \$18 million saved on solid waste disposal.

An Industry study was done by Applied Decision Systems and it revealed that jobs which a Bottle Bill would create would pay more than the jobs that were lost.

A study done by an Interim Committee of the Montana

State Legislature showed that no jobs will be lost if Montanans pass a Bottle Bill and 200 new jobs will be created.

The Study of Containers done by the Interim Committee of the Montana State Legislature in a December 1979 report found that the MLCRA (Montana Litter Control and Recycling Act) would cut down the energy use of the Montana beverage industry by 40 percent yearly. This would provide power needs for every home in Baker, Broadus, Browning and Butte annually.

When one is studying a controversial topic, it is wise to choose a survey done by neutral organizations, companies which do not have a vested interest in the matter but are objective. You're going to get a slanted view if you accept what Continental Can Co. or Friends of the Earth have to say on the matter.

The Exponent is an independent, student written and student managed newspaper at Montana State University, Bozeman. The opinions expressed herein are not necessarily those of the university or the student body. Published twice weekly except holidays and final week during the school year by the Associated Students of Montana State University. Known office of publication: The Exponent, Student Union Building, Montana State University, Bozeman, MT 59717. Second class postage paid at Bozeman, MT. By mail per year \$7.50.

THE CANDIDATES

President Kloubec

hello, i am bill kloubec, the alternnative to stuffy, bureacratc student government systems... i believe that a serious evaluation of the effectiveness of the asmsu senate and its activities (or lack of them) should be initiated immediately...

let's not let the stoned apathy of the seventies continue to plague the promise of the eighties for msu... i think that i have honest and innovative ideas that will help accomplish the following goals...

a. quit hasseling the exponent-radio kkgit-and the program board give them some funds to use

b. re-examine the sub expansion program

c. more student involvement in all facets of student affairs

d. examine tenure of employees

e. relaxed dorm policies
f. pub in the sub and beer at the thaw

independent students here is your chance to support a progressive candidate, that will help to strengthen your voice while decentralizing the airtight system.

i support contentious objectors, space exploration, and agriculture also.

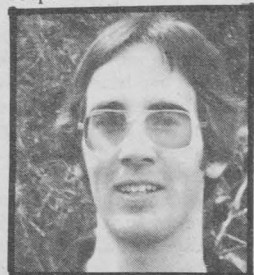

Meuli

Mike Meuli is a junior from Polson, majoring in Agricultural Engineering.

Mike says, "During the past year as a Student

Senator I have experienced and gained the background knowledge necessary to be an effective ASMSU President.

One of the largest responsibilities of the

ASMSU President is the ability to take the student's needs to the Legislature. This school year I was an active member of the Legislative Research Committee. Through detailed work on this committee and participation in meetings at Helena, I feel I have gained the qualifications needed to support our students during a legislative year.

The most important issue presently before the students is the proposed SUB usage fee. I feel that students need more information before a solution can be reached. I also believe that the efficiency of the present operations and that all alternatives should be dealt with.

One alternative is the idea of having a Pub in the SUB. Students have been discussing a Pub for the past five years and I think that it is time for this issue to be taken to the students for a vote. If alternatives (such as a Pub) do not provide the needs of the students and an additional fee is proven to be necessary,

I think that this fee should be imposed upon students only if they are provided with additional programs and services.

In the upcoming year it is important for the President to be informed about the Sub and Field House building projects. I have worked with the planning of both projects and I am the student representative of the Field House Committee.

I have also participated on the University Budgeting Committee. I am chairman of the University System Statistical Committee. Through these committees and my experiences I feel qualified to be your President."

Webb

Being involved with student activities and ASMSU for the past three

years as Program Board Director, Muscular Dystrophy Dance Chairperson and various committees, I feel that my past, present, and future actions have been and will be focused

on student needs and concerns. As director, I am presently representing the students to the SUB Building Board, Senate, and Administration in areas of budgets, policies, and numerous other student concerns. Next year will be my fifth year at MSU, graduating with a degree in Public Relations and Business

Marketing. With the average age of the MSU student being 24 years I feel that I meet the mean.

I would have to say that there is really not one committee that I would like to single out and devote my involvement with as President. I see the president as being comfortable and willing to work with all aspects of ASMSU equally, which I have done and will continue to do.

Comment on any current issue facing the Senate.

My comments on the issue of the proposed pub in the SUB stem from my involvement with the SUB Building Committee and conversations with other Universities which have them. Montana's attitude toward college drinking is well evident: the Bozeman City Commission's decision to deny MSU students a permit to sell beer at this year's Spring Concert is a prime illustration. Dealing with this attitude one has to be patient. The process of obtaining a pub in the SUB would be a long, hard struggle with

EARN OVER \$740 A MONTH FOR THE REST OF YOUR SENIOR YEAR.

Interested in math, physics or engineering? Then you could earn as much as \$740 a month, for the rest of your senior year, in the Navy's NUPOC-Collegiate Program (NUPOC is short for Nuclear Propulsion Officer Candidate).

If you qualify, you'll get 16 weeks of Officer Candidate School, and an additional year of advanced technical education. Education that would cost thousands in civilian life, but in the Navy we pay you. And you'll

receive a \$3,000 cash bonus at the end of your training year.

It isn't easy. But those who make it find themselves in one of the most elite engineering training programs anywhere. With unequalled hands-on responsibility and a \$24,000 salary in four years.

For more details, simply see your Navy Officer Programs Representative. Or drop him a résumé. The NUPOC-Collegiate Program. It could be the start of a great career.

The Navy Officer Programs Team in the Placement Center April 23 through 25

administration, state legislature, no to mention the Board of Regents. Active and persistent interest and action at this time may prove productive in four to five years for future MSU students.

Wolfram

I offer myself to you as a viable alternative to the other candidates running for President of ASMSU.

I believe I possess the qualities that are important for the job. I was General Manager of KGLT Radio for two successive years, and am currently Chairman of Media Board. Both positions have required leadership and involvement in many other aspects of ASMSU. My association with MSU goes back much further,

though. I first came to MSU several years ago following high school graduation (yes, that makes me an "older than average" student), and lived in the dorm for two years. I was introduced to Greek life and pledged Kappa Sigma Fraternity, but my education and any further Greek affiliation were both interrupted by the war. After spending six years in the Navy, I returned to MSU to finish my education. I am now married, and for the past three years we have lived in married student housing.

Now it is not my intention to bore you with my life history, but rather to impress you with the fact that I am no stranger to Bozeman, MSU, ASMSU, or the many varied lifestyles that you, the students of MSU, find yourselves in at the moment. I have been single and lived in the dorms, and was somewhat involved with Greeks. I am now a veteran, married and living in married student housing, older than average, an independent student, and work to help pay our living expenses.

As a result of my experiences, I feel that I can offer ASMSU understanding, openness, and concern. I believe I am the one candidate who can effectively represent

the majority of students on this campus, and I pledge to do my best if elected.

To be elected, I need YOUR HELP! To cast a vote for me, you must **write-in** my name, and **check** the box beside it on your ballot. I would appreciate your support. Thank you,

Business Manager

Huck

Cindy Huck, "Huckers" is a junior from Ballantine majoring in Business Finance.

Cindy has worked as Student Accountant for

ASMSU for the past three years and she chaired Finance Board during the fiscal year 1981 budgeting session. Huckers feels that she has gained the background knowledge for all programs under the ASMSU structure and that she has the qualifications necessary to efficiently run all financial aspects of ASMSU.

As a Student Senator, Cindy has also participated in committees such as the University Budgeting Committee, Chairman of the Faculty Development Committee, Pro-Tem and Assistant Pro-Tem of the Student Senate, and she is a student representative of the SUB building projects committee. Besides Huck's involvement in ASMSU she was a Spur, is now a member of Mortar Board, and has been involved in various student activities across the campus.

Looking at the issues now confronting the students, Huck feels that the most important issue is the proposed SUB usage fee. At this time she feels an additional fee is unnecessary

because tuition is all ready costly and this additional fee does not seem relevant. Cindy also feels that alternatives (such as a Pub) should be researched. Huck says, "It's time we stop 'nickling and diming' the students before we research all areas and alternatives, and I honestly believe that if students and the SUB administration utilize their intelligence and skills together then they will find other methods of generating revenues for the SUB.

Students are the people that make MSU function and it is up to all of you to do your part and elect the people that are going to represent you and your campus. I hope that each of you will do your part by voting on Friday, April 25th.

Vice President

Crawford

Russ Crawford is a Junior from a ranch south of Billings, majoring in Business Accounting.

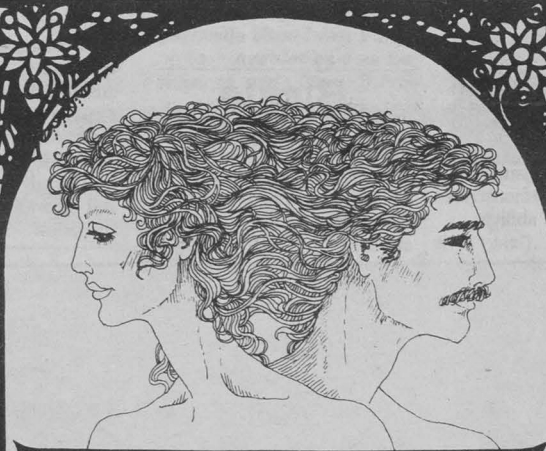

Russ has been very active in ASMSU through Senate and Finance Board.

During the coming year ASMSU will have many important matters to deal with while the state legislature is in session. perience on campus, he feels qualified to deal with the legislature and state committees, which have significant impact upon all students at MSU.

The most important aspect of the Vice-Presidential position is to be able to work with all people, whether students or administrators. Crawford believes that: "It is essential for the Administration of MSU and the entire student body to work together, especially during a legislative year, in order to best meet the needs of students and to actively keep departments such as Film and TV, Theatre, and Social Justice, at MSU."

Senate

Beatty

An important qualification for the position of ASMSU Senator is the ability to see

both sides of an issue. I feel my background demonstrates that I have that ability.

I spent my first five

quarters at MSU living in a dormitory- North Hedges. I have spent the last four, including this one, off campus.

I am aware of both sides of the athlete-non-athlete situation. I have spent two seasons on the varsity tennis team and I've been involved in Intramurals. The past two academic years I have been Sports Editor of the Exponent.

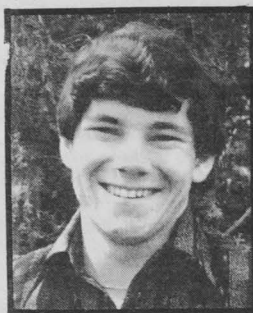

By spending a lot of time in the Exponent office, I have had the opportunity to hear many students come in and air grievances. Many of the complaints are legitimate, but due to manpower or space problems, the issue can't be given the attention it deserves. As a Senator, I could address these issues to a body where something could be accomplished.

I am also serving as the Assistant Business Manager of the Exponent. This work has enabled me to see how the financial operation of an ASMSU funded organization works. I feel I could carry this knowledge to the Senate.

A final thing I would hope to accomplish as a Senator would be to get the Exponent and the Senate to be working in the same direction. I feel I could effectively act as a go-between

Bickle

Bill feels qualified to represent the students because as a member of Finance Board he is aware of the needs and goals of many student activities.

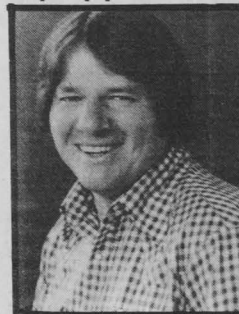

Turning to current issues facing Seante, Bill believes it is crucial that the SUB building project get underway soon. The Pub in the SUB is a good idea, however, it makes more sense to push ahead with construction now and at some later date convert a lounge to a pub, rather than to hold up the entire project while the proposal is discussed. Another advantage to a Pub in the SUB is that it would serve as a source of revenue for the building.

Bickle believes that the SUB usage fee is not appropriate at this time, because he does not think it is fair to charge the same fee to students who only use the building occasionally as we charge students who use it every day.

In conclusion, Bill Bickle deserves to be elected to the ASMSU Senate because of his experience within the committees, his knowledge of all ASMSU programs, which he gained during budgeting, and his wide range of campus activities.

Brown

I feel that I am qualified to represent the students in the senate for several reasons. First and most importantly I have a very large number of friends in all segments of our campus population. I know

people in the residence halls, fraternities, sororities, off campus, and married student housing. I feel that my personal knowledge of these people and their needs gives me a much broader point of view and insight into representing all the different groups. Also having friends in all the different groups makes me more accessible to communication from people of a wide range of interests.

Another reason that makes me feel qualified for senate is that I have attended two different colleges before I came here to MSU. Having been actively involved in two other colleges I feel helps me to understand the problems

(Continued to page 9)

MANAGEMENT OPPORTUNITIES FOR COLLEGE GRADS

A lot of companies will give you an important-sounding title.

The Navy will give you a really important job.

As a Navy Officer, you'll have command over men, responsibility for multi-million-dollar equipment, and the chance to prove yourself as a leader.

You'll also get top pay, travel opportunities, and a wide range of benefits. For complete information about becoming a Navy Officer, contact:

The Navy Officer Programs Team in the Placement Center April 23 through 25.

Electronic Engineers

Stanford University is seeking three engineers to participate in a research project in Antarctica. The program provides opportunities for individuals to participate in all phases of research including design and testing of electronics systems, field operations, data analysis, and interpretation of results. The program also provides unique opportunities for acquiring thesis material for the Ph.D. degree in Electrical Engineering or Physics. Employment covers period 1 August 1980 to mid-March 1982. Approximately fourteen months of this period will be spent in Antarctica during which time the salary will be equivalent to approximately \$23,000/yr. All foul weather clothing, food, living accommodations and transportation will be provided at no cost to the individual.

QUALIFICATIONS: Electrical Engineers and/or Physicists who have successfully completed their undergraduate studies or equivalent; on-hand electronic experience; familiarity with RF systems, minicomputers, analog and digital circuits, and antennas. Please submit resume to: Sheri Renison-SEL-Personnel Department, Stanford University, Stanford, CA 94305. Equal Opportunity Employer Through Affirmative Action.

(Continued from page 8)

and needs of the students of MSU.

I hope that I have made it clear that I really want to be a senator for reasons other than popularity or any single interest group representative. I feel that my friendships and past experiences would help me to function in the senate in a reasonable, logical, and responsible manner, that would be in the best interests of the entire campus.

Burgess

As news editor of the Exponent I have had a chance to hear many students' grievances, suggestions and sometimes unpopular views. As student senator I feel I can realistically represent the students at MSU by tackling unpopular issues and carrying the banner for sometimes obscured causes.

I supported the student coalition in sympathy with the striking employees last quarter and have recently been hitting environmental issues. While both don't always affect individual students and their education, I feel now is a good time to look at these different issues.

In the long run they will affect our society and our lives.

On the ASMSU Senate I would provide the representation that the students at MSU now lack. I would seriously consider being a lone dissenting vote if I felt somewhere a student would be misrepresented by the Senate action.

I am a hard worker as my work at the paper will attest. And being involved with the Exponent I would be able to communicate clearly and forthrightly and avoid any further hassles between the Senate and the media.

Your vote on Friday won't be ignored. It you ain't got nothing you got nothing to lose.

Corey

My name is Scott Corey. I am a Junior in Business Management. My hometown

is Choteau, Montana. I am running for the office of ASMSU Senator.

After spending three years on the MSU campus, I feel I can give valuable input to the Seante. I am more than responsible enough to make the proper decisions to benefit the students of MSU. I am aware of the problems of students and willing to hear all grievances. I am interested in the job and will give my time freely to perform the tasks required.

The pub in the SUB is an issue that deserves serious consideration. If a pub was put in, it could help pay for the expenses of the SUB. With the added income, the proposed SUB usage fee could be eliminated. This would leave a little more money in the student's pockets.

Another thing that bothers me is the recent announcement of the Spring

Thaw being dry. It seems the authorities of Bozeman are not giving the college a fair chance. If CEC was allowed to sell beer at the concert, they could make more money. I'm sure they could have used this extra cash last year. A little stretching of the rules wouldn't hurt.

Lombardi

I am a junior in business and have been involved with ASMSU since my freshman year and have a working-knowledge of all its facets. I

served as a senator for one year and have been active in the Legislative Research Committee, Tutorial Committee, Academics Board, and others.

Having a working-knowledge of ASMSU I feel comfortable working in all the areas. I especially enjoy working with Legislative Research and Media Board,

As far as the proposed PUB in the SUB is concerned I feel the students should have the final say, but I also feel that they need to be fully informed so that they can decide how they really feel.

Briefly, the reason for the PUB would be to raise funds for the SUB which is currently operating at a deficit. An alternative to the PUB is for students to pay a SUB usage fee. I personally feel it is unfair for students to have to pay a usage fee for a building they built with their funds.

If elected into office I would seek student input and encourage students to come to me with any suggestions or complaints they might have. I would appreciate your support- please, let me be YOUR voice on campus.

Drapes

Of increasing importance is the prospect of putting a pub in the SUB. This is a question concerning the entire campus and should be put to the voters.

There is also talk of a busing service for off-campus students. There are many benefits for such a program, including fewer traffic and parking problems, fuel efficiency, and not having to worry about your car

campus in any way that I can.

This campus still has a few problems that need to be worked out. The Pub in the SUB, for one—which I would support wholeheartedly. But I also believe there needs to be more, or better, communication throughout the university. How many people really know what the senate is doing? How many people even know who the senators are? I don't, and I don't claim to know. The problem with widening communications does not have an easy solution. However, it is a basic problem that I would like the opportunity to solve.

I will avoid making any promises about all the marvelous accomplishments that will be achieved if I am elected to the senate. Promises are easy to make and hard to keep. Therefore, I will make one statement to the student body, and that is that I will try with the best of my abilities to do a competent and worthwhile job in the senate.

Kent

I am a full time student myself, an older than average and a work study student. I've worked with students, staff and a diverse range of people. I feel that by working with all types of people in various situations qualified me to represent the student.

At the present I am most concerned with the student

body and their need to get concerned with ASMSU and where their bucks are going.

As for the building fund, I feel we need to expand our student body is growing and we need to accomodate them. Before I can comment on the Pub I would have to hear the pro and con of the matter from all interested persons or groups, as it is a big decision.

I think you should vote for me because I want to see the Senate more accessible to the student. I would like to see more of a cross-section of student interest and concerns, not just a few represented. I won't promise anything except to be accessible to students, listen objectively and represent your interests in the Senate if I am elected. I will do my best for you and Montana State University.

McSweeney

Since first coming to MSU in the fall of 1976, I have maintained an interest in ASMSU activities. My close

TRAINING AVAILABLE NUCLEAR PROPULSION INSTRUCTOR

The Navy is seeking to train instructors to teach courses in the science and technology of nuclear propulsion to individuals undergoing training to operate Navy nuclear reactors. Subjects include mathematics, physics, electrical engineering, heat transfer and heat fluid flow, materials, chemistry and reactor plant engineering. Competitive salaries, 30 days' paid vacation earned each year. Insurance, medical, dental package. Non-taxable quarters and subsistence allowances. Applicants must have a bachelor's degree in engineering or other suitable technical/scientific fields and be at least 19 but under 29 years of age. For more information, contact:

Lt. S. Evans at the Placement
Office April 23 through 26.

We Support Mike Meuli

Next year will be an important year for MSU at the state legislature. The students need an effective spokesman and I feel that Mike Meuli can be that effective spokesman and that you should vote for him.

Chris "Sparky" Walterskirchen

The students that are elected to represent ASMSU should be qualified and have the abilities to do an efficient job for you. I believe that Mike Meuli has the abilities and qualifications necessary to serve the students as ASMSU President.

During the past year I have worked with Meuli on Student Senate and various committees associated with the campus and student government. I have also seen Mike work closely with the present ASMSU President and I think that he has gained the broad background knowledge needed to do an efficient job as President.

Mike Meuli is now an active member of the Legislative Research Committee. Through his participation on this committee Mike will definitely be an asset to ASMSU during the upcoming legislative session.

I would encourage all of you to vote Mike Meuli for ASMSU President on Friday April 25th.

Cindy Huck "Huckers"

Student Senator

ASMSU Student Accountant

Mike Meuli is a very qualified candidate for the position of ASMSU President. He is willing to work and he has a sincere interest in people.

I have worked with Mike on the Senate Legislative Research Committee and have found him very familiar with the political system in Montana. He knows many Legislators and he has good ideas and beliefs about MSU's position during next years Legislative year.

Mike can represent a good cross section of all MSU students. He is an Agricultural Engineering major, member of Alpha Zeta and past Pang. Mike has proven that he likes to be involved, he is willing to take responsibility and I think he will handle the job well as ASMSU President.

MSU is an Equal Opportunity-Affirmative Action Employer.

(Continued from page 6)

relationships with various ASMSU officials and participating on committees makes me a qualified candidate for the senate position.

Of the issues under senate exposure, a number come to my attention. First, the Pub in the Sub has been placed on the ballot for students to decide whether to reject or accept. If elected, it is my intention to represent the majority of the students no matter what outcome.

Another subject that comes to mind is mass transit. For those who are unfamiliar with the program, it was started about two years ago. This provided students transportation to and from uptown. The program was dropped mainly because of the poor conditions of the vehicles. With rising costs of fuel, it is time once again to look back into the feasibility of this program for the students.

It is my intention if elected to not forget the people that gave me the opportunity to represent them.

With a legislative year coming up for the state of Montana, it is vitally important that MSU elect senators that are capable and qualified. I feel that I am your person.

Montalban

My decision to run for the senate of M.S.U. was based on two things. First, it is of immense importance that the monies budgeted by the A.S.M.S.U. be shared by all students, with their interest in mind. With a budget of over \$400,000.00 we should all enjoy the benefits. For this reason I felt compelled to run, and see that such funds are spent on productive and essential programs. Programs that will result in student participation. Without the support of such activities, the students of M.S.U. will have little interest in their own student government. We need responsible representation in the senate; I will be a responsible senator.

The second reason for my candidacy is personal. I felt it important to get involved. Not to stand by and complain about the lack of funding here or the irresponsibility there. To find out for myself and other concerned students if other funding can be made available for intramural sports. To make sure that monies budgeted for programs, such as the running of the senate itself, not be wasted, but used responsibly. These are not

simple ideals, they are honest ones. As well as being sincere in my representation, I will be consistent.

Perryman

I'm a Political Science major with two options of Public Administration and Pre-law.

The budget areas involving various organizations, general faculty and the Board of Regents Administration processes. Also, the college impact on the student.

Because I'm concerned with campus activities and money, as well as, conducting business in a conscientious manner and striving for a more represented voice on the campus of MSU. I also have a sincere interest in presenting the students point of view as a factor for the decision making process on MSU's campus and further future endeavors.

The Pub in the Sub issue is

a good idea as a beneficial revenue. The fact that the alcohol policy for Montana State campus is zero, except for the approval from the Board of Regents, would be the only detail to overcome. President Tietz, it would seem would allow the pub in the sub, since he was in favor of the Spring Thaw with Beer.

One other minor problem is space accommodations in the sub, since the building plans have been proposed and passed. However, I'm sure if the MSU student body were in favor of the issue, accommodations could be arranged.

Rankin

I believe that I can truly represent the students of MSU because of my activities with a large number of students with different backgrounds.

Legislative research will be very important this year because of this next year being a legislative one. Funding to MSU will be vital. With the new Fieldhouse addition and the SUB being constructed, I feel it is very important for the students of MSU to know what exactly is going on.

Currently there are many issues of vital concern facing Student Senate. One of the most important is the new SUB building. Students need to be aware of the proposed changes and new additions in the SUB and also of the services provided. The student building fees are going to help pay for the new SUB but monies put up by other services are funding the rest. Why not have a SUB completely funded by STUDENTS, for students rather than have our money go into buildings which should be funded by the state.

As a Senator running for re-election, I feel that I am demonstrating the commitment in providing the best service to MSU students and maintaining the students interests with the reagents and administration.

Raph

I feel qualified for ASMSU Senate in that I am an average student at MSU and can represent the interests of the students on this campus. Being involved in many

service type organizations has kept me in touch with the issues and concerns that students here possess. I want to be aware of all committee actions but I am most qualified to deal with financial areas of the Senate, and having been a member of the ASMSU Constitutional Review Committee, the Judicial area is also an area of strong interest.

I feel that the older than average and also the married students here at MSU should be more of a factor in decision making.

The students at MSU should make their voice heard in all areas; this includes the

City of Bozeman. We must indicate to them that we are able to handle alcohol and that they are overreacting to the Spring Thaw. We too are adults, a part of Bozeman, and should make our wishes known and respected.

I can provide an inlet into the system for the students. If you have opinions or questions, I will listen and speak for you, the students, and not for myself.

Reinhardt

My name is Michael "Delaware" Reinhardt and I will be a Junior in Mechanical Engineering at Montana State University next year. I am originally from Delaware and spent my freshman year at the University of Delaware. While attending M.S.U. as an exchange student I became involved with the students activities. Now, after staying here for a year, I plan to finish my Engineering degree and to become more active in the students affairs on campus.

At one time Senate was known for its creativity. The auto repair shop, Ask us Desk, and the student legal aid program are examples of what senate has the potential of doing with strong leadership.

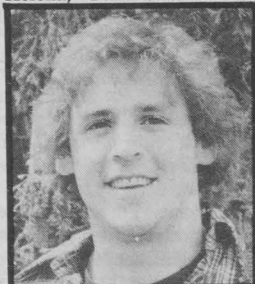

I have seen other activities and programs at different universities which could be implemented here. A dental plan on the health insurance policy or an expanded film program are only a few possibilities.

In the past year I've been working with students at M.S.U. and to serve them better as a student senator.

Stockton

Tom Stockton is committed to a student government which is more accessible to the students.

A junior, majoring in business management from Helena, Tom Stockton has

served on several active committees. Service on these committees (High School Week '78, Homecoming '79, CEC service '80) and two years as a Business Department T.A. has given Tom a diverse

(Continued to page 4)

replaced.

The bike's rims should be trued, which means straightened. The tires should be checked to make sure they're not cracked and worn from winter and then filled.

Brake pads should be checked and replaced if needed. Also make sure all the bike's bolts are tightened.

For those with quick-release, make sure it is clamped down close to the frame.

Finally, adjust the seat so that you have full leg extension when on the down stroke.

Student ID's in

Student I.D. Cards taken at Spring Quarter Registration may be picked up at the Office of Student Affairs and Services, 212 Montana Hall, Monday through Friday, 8:00 - 5:00. Please bring your temporary I.D. or registration receipt with you when you come to pick up your new I.D.

ENGINEERS WANTED: RAPID RESPONSIBILITY

The fastest way to build a reservoir of engineering experience is as a Navy Officer.

As a Navy Civil Engineer, you'll get responsibility faster, working on a wide range of projects in all areas of construction and engineering management. It's responsibility that civilian engineers may spend years waiting for.

If you've graduated from an accredited engineering college, contact:

The Navy Officer Programs Team in the Placement Center April 23 through 25.
