EXPONENT REDESIGN

A Political Web of Priorities and Funding

 AMANDA LARRINAGA
MANAGING EDITOR

Controversy: the key ingredient to any good story – an ingredient that can be found just about anywhere if you look hard enough. Over the last year, the MSU administrators have denied repeated requests for funding to expand the Streamline public transit service that has its hub on campus, favoring instead long-range plans for building a multi-story parking garage that has found little support in MSU surveys.

The story begins almost a year ago on May 18, 2006. Following the introduction of Streamline, Bozeman-area mass transit system, the Associated Students of Montana State University (ASMSU) approached the MSU administration with a functional business plan in hopes of acquiring \$90,000 in additional funding for the program. The additional funding would be used to add two new routes and increase the service hours on existing routes. The goals of the Streamline program are to reduce the pressure on parking, reduce the student college expense by providing an option for transportation, and to become a more environmentally conscious university. The funding proposal followed a popular model among other universities currently utilizing mass transit systems, in which the funding comes out of parking service funds. At the end of the 2006 fiscal year, MSU parking services had a cash balance of \$1.7 million.

The request to MSU would have been matching the current funding from MSU students through the \$4.50-per-semester bus fee. In the end, the MSU administrators responded that they would be unable to provide funding because ASMSU was not a budgeted part of the university. A little over two months later, the MSU administration was then approached by Bozeman city commissioners, who requested the same amount of funding of \$90,000 for the public transportation system. And, again, the door was closed on their request. This is the same tune that has met every proposal that has entered the offices of the MSU administration.

ASMSU's fourth proposal is being presented to the MSU administration at the beginning of May. If the past is any indicator for this proposal's reception, MSU should be prepared to see zero change in the current mass transit situation. According to Dr. David Dooley, Provost and Vice President for Academic Affairs, "We [the MSU administration] have a well-defined process for new initiatives interested in receiving funding, which is the University Planning, Budget and Analysis Committee (UPBAC). However, no group has brought forward any requests for support of Streamline. That is the essential first step in the process for that request to be considered."

According to involved ASMSU sponsors, not only has ASMSU approached UPBAC and was denied

their funding request; ASMSU has also had the opportunity to personally present their proposal to MSU President Geoff Gamble. To add to the confusion, in order to address the budgetary committee again, ASMSU must have a sponsor within that committee representing an organization other than ASMSU, which in the end would have to be an MSU vice president.

Finding a sponsor is proving to be one of the most difficult tasks of the proposal. Deepu Philip, a ASMSU senator and long time supporter of Streamline, remarked, "The Vice President for Administration and Finance should really be making the request for funding [for Streamline] but right now no one is willing to do it."

Currently, Streamline is a major issue on the MSU campus for a variety of reasons. According to a letter from the Bozeman City Commissioner Jeff Rupp, "this new system [Streamline] is possible through [the] leveraging of local funds from Gallatin County, the cities of Bozeman and Belgrade, United Way, ASMSU, and the Human Resource Development Council" with MSU not being listed as a supporter.

With so many high profile organizations offering their support to the program, and MSU repeatedly denying financial backing, the question of the MSU administration's priorities arises. Dooley, verified some of the many rumors surrounding parking garages in MSU's near future. "Actually, parking garages are more than hypothetical. The 'MSU Tomorrow' plan, which has been worked on for over a year now, has long-term plans for MSU which includes building parking garages near the core of the campus."

Currently the prospective area for this parking garage is the parking lot across Grant Street in front of the SUB. The parking garage is the proposed solution for the ongoing parking issues facing the university. According to Dooley, "[the parking garage] comes from the concern that as we build the campus up over time, some of that is going to take place on existing parking lots."

The leaders of ASMSU, with the help of many national studies, argue that mass transit is a much more financially and environmentally viable solution for the parking issues facing Montana State University.

Currently, there are 5,351 available on the MSU campus while parking services sells a total of 8,116 decals. That number leaves 2,765 drivers (the majority of which are students) short of parking spaces. As detailed in a survey of universities across the country utilizing alternative forms of transportation, the University of Colorado Environmental Center indicates that the costs for a parking surface to accommodate the increased amount of vehicles is \$3,723 for each space, while the

cost to add a parking structure adds up to \$17,500 for each space.

If simply looking at the figures of building paved parking lots, which is substantially more inexpensive than a parking structure, it is 3 times more expensive to build than to shift one person to transit. These figures are compared to the average cost for transit ranges from \$5-\$15/month, following a program's initial start up costs.

Although Streamline is still in its beginning stages, it has been extremely successful. With numbers collected from Streamline ridership surveys, Senator Philip was able to illustrate that, "In our first week our average ridership was 120.4 per day. Now the current average ridership is about 450. It has increased by 375 percent."

Philip also noted, "Streamline works well for lower income individuals and the lowest income individuals on the MSU campus are the students. Currently, this is a free service for students and we would like

to see it stay that way."

When fellow senator, and sponsor of the proposal, Maureen Weiland was approached about her feelings on Streamline, she responded with, "It's a really great system because it works to integrate the community and the students. That is something we normally don't see on the MSU campus and at times is very difficult to do."

As Streamline works to cut expenses for MSU students and offer an avenue of integration into our local Bozeman community, it also offers a mechanism to benefit the environment. In the recent Campus Transportation study, The University of Wisconsin-Milwaukee estimated a total savings of 240,000 gallons of fuel a year. Locally, Philip observed, "One Streamline trip is equal to removing 3.7 people from the road."

With obvious community and campus support for the Streamline system, MSU administrators' actions do not match their rhetoric. To put it plainly, as Dooley expressed during his interview "I think we are, on behalf of the President's office, quite enthusiastic for a transit system for the faculty and students of MSU." With this in mind, the administration's action patterns of the past indicate a budget with its priority placed on construction, not service.

"One Streamline trip is equal to removing 3.7 people from the road."

- Deepu Philip

PARKING ON MSU CAMPUS	
Available Parking on Campus:	Parking Decals Sold:
5351	8116

ASMSU has left an avenue open for students to voice their opinions, which will allow for a student response to the current parking issues. Feel free to contact your MSU administration or ASMSU. Your ASMSU President can be contacted at: asmsupres@montana.edu.

Nurses Notes

A GUIDE TO QUITTING

JULIA FITZPATRICK
COLUMN WRITER

in tobacco products. Different types of replacement systems are available: a patch, gum, an inhaler, and nasal spray.

All of the above can be purchased over the counter. However, federal law requires that a person be 18 years of age to buy these items.

If you don't like the idea of a nicotine replacement system, a drug called Zyban is also available by prescription. Zyban is a nicotine-free drug that has been found to decrease the desire for cigarettes. Zyban is similar to the antidepressant Wellbutrin. Studies found that, when people who were taking Wellbutrin for depression tried to quit smoking, they had fewer withdrawal symptoms. Researchers then studied the drug and created Zyban.

If you or someone you know wants to quit, your physician or nurse practitioner is a great resource and can personalize your plan for quitting. Montana also has a great resource called the Montana Tobacco Quit Line.

The Quit Line (1-866-485-QUIT) is a telephone counseling service that is available to people who want to try quitting. It is staffed by professional quit specialists; they offer a personalized plan for the caller, a free four-week supply of nicotine replacement products, and informational materials. A person can call the quit line as often as they need support. Check it all out at <http://tobaccofree.mt.gov>.

If you are a smoker, get serious about quitting. If you know someone who is trying to quit, offer them support. Nicotine can be a tough habit to break, but it can be done!

Julia is a senior nursing student at the Great Falls campus. She can be reached at julia.fitzpatrick@myportal.montana.edu

Quitting Timeline

2 hours	Nicotine begins to leave the body system
6 hours	Heart rate and blood pressure decrease
12 hours	Carbon Monoxide is out of the body system: A person can do more without becoming short of breath
2 days	Nicotine byproducts are out of the system; Senses of smell and taste sharpen
1 week	Most withdrawal symptoms are gone
2 weeks	Body circulation improves
1-9 months	Energy levels increase; Coughing and sinus congestion decrease
2 months	Blood flow to the hands and feet improve; Skin looks healthier
3 months	The cilia (hair-like cleaning structures in the lungs) recover, they move out more mucus: The person may have increased coughing
1 year	Risk of lung cancer and heart disease are reduced
15 years	Risk of lung cancer and heart disease are similar to a person who has never smoked.

Featuring: Dr. Cairns

I would like to extend my gratitude to all the professors who participated in "Have You Ever Wondered..." this semester. To finish out strong, this week's column features Douglas Cairns. Cairns, a professor of mechanical engineering, is originally from St. Louis, Missouri, and has taught at MSU for the past 12 years. He received his Ph.D. in Aeronautics and Astronautics from MIT and has also taught at the University of Wyoming and the University of Utah. So without further ado, I present this semester's final "Have You Ever Wondered..."

PERSONAL MOTTO:

You are dead a long time, so you better enjoy it now.

IF YOU COULD HAVE ANY SUPERHERO POWER, WHAT WOULD IT BE, AND WHY?

I would like to be able to make people relieve themselves on my command. Someone wants to start a war, and all of a sudden they have a problem. Think of the universal power of this ability.

IF YOU WERE TO SING KARAOKE, WHAT SONG WOULD YOU CHOOSE, AND WHY?

Well, I have only really done this once. I was in a small Pub in Hathersage, England. It was just far enough away from anyone I knew to partake in karaoke. I sang the theme song from the TV show Rawhide (popularized by The Blues Brothers). "Head 'em up. Move 'em out."

IF YOU COULD BE ANY CHARACTER FROM ANY MOVIE, BOOK, OR SONG, WHO WOULD YOU BE, AND WHY?

I would like to be Edmond Dantes from "The Count of Monte Cristo." It is the ultimate poetic justice scenario, where Dantes sits back and watches people compromise their situations by their own nature. Virtually everyone got what they deserved. In the final analysis, it rarely happens that way in real life, but it would be nice if it.

IF YOU COULD LIVE ANY SONG FOR A DAY, WHAT WOULD IT BE, AND WHY?

"Afternoons and Coffee Spoons" by the Crash Test Dummies; "Someday, I'll wear pajamas in the daytime. Afternoons will be measured out with coffee spoons and T.S. Elliot."

WHAT IS YOUR FAVORITE LED ZEPPELIN SONG?

"Stairway to Heaven" because of its historical significance. It also is a classic to perk up ho-hum holidays.

IF YOU COULD HAVE ANY DREAM JOB (PRESENT JOB EXCLUDED) FOR ANY LENGTH OF TIME, WHAT WOULD IT BE, AND WHY?

I would like to run one of those leaf blowing machines. It seems like it would be pretty low stress, and the return on investment with your time is good; leaves there one second, gone the next.

WHO WOULD WIN IN A FIGHT BETWEEN YODA AND SUPERMAN?

I think that it depends on the time in history. If Yoda were to be transported back to Superman times (birth around 1932?), Superman would win because of physical strength. In the future, mental powers will play a greater role, so if Superman were to be projected into Yoda's era, Yoda would win. Just watch old Superman shows and the Star Wars series to verify this.

WHAT DO YOU WANT TO BE WHEN YOU GROW UP?

Dead

WHAT WAS THE LAST THING TO MAKE YOU LAUGH?

I laugh easily, and I am funny, so this is a hard one. I believe that once you lose your sense of humor, you have pretty much lost everything, especially in desperate times. I recently laughed at the grading policies of a professor. He puts a fairly heavy weight on class participation. His lectures are technically sound, but very dry. I asked what happens when students fall asleep in his class. He said that he docks points. I laughed at the irony.

DO YOU WISH ON SHOOTING STARS?

Yes, I started doing this a few years ago. I do not know why; maybe because you never know.

IF YOU COULD BE AN ANIMAL, WHAT KIND OF ANIMAL WOULD YOU BE, AND WHY?

I would be an eagle. You could fly whenever you wanted, and since you are protected, you would presumably not get shot. Also, it is not uncommon for eagles to live 40+ years, so life could be relatively long as well.

WHAT'S IN YOUR CD PLAYER RIGHT NOW?

For some reason, it is Donna Summer's Greatest Hits. After listening to some of her songs on the radio, I decided I needed to re-visit her music. Unfortunately, after multiple plays, they pretty much sound

the same. However, Donna held her own in her duet with Barbara Streisand on "No More Tears."

WHAT'S YOUR FAVORITE BOOK?

"A River Runs Through It." I read it long before the movie, and long before I started fly-fishing. It is extremely well-written, and I really like the story called, "Logging, Pimping, and Your Pal, Jim."

WHAT WAS YOUR FIRST JOB?

I was a tuxedo rental person. Brides and grooms would bring in swatches of wedding dresses to match for their groomsmen. Also, the shop was near downtown St. Louis, Missouri, so I got a lot of leases and sales to pimps. They really liked the blue and maroon crushed velour tuxedos with ruffled shirts and patent leather platform shoes.

WHAT IS YOUR BEST HALLOWEEN COSTUME TO DATE?

Onetime, I was a swamp. I smeared mud onto myself, strapped cattails and decoys to myself, and pretty much had all of the attributes of a swamp.

DARK CHOCOLATE OR MILK CHOCOLATE?

Dark chocolate, because of its complexity, and health benefits.

IF I WERE A CHARACTER ON THE SIMPSONS, I'D BE:

Krusty the Clown

I HAVE A HARD TIME UNDERSTANDING:

when and how we became a society of "victims." Consequences of our actions should be taken on as personal responsibilities, not as someone else's fault. For example, I was recently asked to be an "expert" in a legal case where a person poked themselves in the eye trying on sunglasses at Wal-Mart (The plaintiff was blaming Wal-Mart for this injury). I declined, but passed the lead onto the Dean of the College of Engineering, who is an expert in ergonomics. He was only lightly amused.

THE WORLD COULD DO WITHOUT:

Sporks; those spoon and fork combos which are used in cafeterias, fast food restaurants, and prisons. Despite US patents dating back to 1874, they just don't work very well and are tacky. (Variants, including the knork and the splayd have similar non-functionalities.)

IF YOU COULD TOUR EUROPE WITH A PROFESSOR FROM YOUR DEPARTMENT WHO WOULD IT BE, AND WHY?

It would be Paul Schillings. He is extremely well read, and would appreciate the adventure.

WHAT EXPLORER WOULD YOU HAVE LIKED TO HAVE BEEN WITH ON AN EXPEDITION?

That is a toss-up between the Lewis and Clark Corps of Discovery and Apollo 11 (the first moon landing). Anyway, with hindsight and given the successes, there would be a minimal chance of dying.

MSU Commencement

The main ceremony of the 2007 Commencement Exercises for Degree Candidates will begin Saturday, May 12, at 10 a.m. in the Brick Breeden Fieldhouse. The exercises are open to the public. Graduates, please report to the appropriate location in the Brick Breeden Fieldhouse by 9:15 a.m.

Individual College Ceremonies - Before the Main Ceremony

- College of Nursing - Friday, May 11, 10 a.m. - Shroyer Gym
- College of Agriculture - Saturday, May 12, 7:15 a.m. Continental Breakfast / 8 a.m. Ceremony - South Gym - PE Complex
- College of Education, Health and Human Development - Saturday, May 12, 7:15 a.m. Continental Breakfast / 8 a.m. Ceremony - Shroyer Gym - PE Complex

Individual College Ceremonies - After the Main Ceremony (Begin Approximately 11:45 a.m.)

- College of Arts & Architecture - South Gym - PE Complex
- College of Business - SUB Ballrooms
- College of Engineering - Shroyer Gym - PE Complex
- College of Letters & Science - Worthington Arena - Fieldhouse
- University College - Worthington Arena - Fieldhouse

CAMPUS CORNER

"MSU Tomorrow" Design Unveiled at Forums

On Thursday, May 3, from 12 to 2 p.m. and 6 to 8 p.m. in SUB 275, The "MSU Tomorrow-A Campus Plan for the Future" campaign will be unveiled. It provides guidelines for the development and design of future MSU buildings, infrastructure and landscape. The project, which began in January 2006 and has included a series of public forums, events and extensive planning, is nearing completion. Each of the upcoming forums will include a brief summary of the project, images of how the campus could evolve over the next 10, 25 and 75 years and a question and comment session. For more information, see <http://www.montana.edu/msutomorrow> or contact Walt Banziger of Facilities Services at 994-6326 or lrcdp@montana.edu.

Sixth Annual Teach Montana Educator's Fair

On Friday, May 4, from 9:30 to 11:30 a.m. in the SUB Ballroom A Career Services will present the Sixth Annual Teach Montana Educator's Fair. It is for job seeking students/educators, and there is no need to register. Bring your resume, a good handshake, and wear appropriate business attire. For additional information, see <http://montana.edu/careers>.

Law Day Schedule of Events

Monday, May 7, 9:30 a.m. - MSU Stadium - 2nd Floor "Corporate Level"

Oral argument before the Montana Supreme Court

Andrew King-Ries, Professor of Law at the University of Montana School of Law, will introduce the case of STATE v. SANCHEZ. At his trial for deliberate homicide, Raul Sanchez admitted that he shot and killed his girlfriend, Alicia Chenowith. Sanchez argued that the killing was due to his extreme emotional distress stemming from Chenowith threatening to have the State take away his children. Relying on several comments Sanchez made to others—and on hearsay evidence of threats he made to Chenowith—the State asked the jury to reject Sanchez's argument for mitigation. The jury found Sanchez guilty of deliberate homicide and he was sentenced to life in prison. On appeal, Sanchez contends that the district court incorrectly allowed the jury to hear evidence of a note Chenowith wrote detailing a threat Sanchez made to kill her, and to hear testimony from Chenowith's sister and neighbor about conversations they had with Chenowith in which she related threats Sanchez had made to kill her. At 10 a.m., the Montana Supreme Court will hear the oral argument on the appeal.

Monday, May 7, 11:45 - MSU Stadium - 3rd Floor Stadium Club
Law Day Lunch

Wednesday, May 9, 8:30 a.m. - Courtroom 3

Presentation by Winners of the Rural Declamation Contest

This year the contest requires each student participant to identify who, in that student's opinion, has been the best President of the United States and to explain why the student chose that particular President.

YOUR FUTURE IS WITHIN REACH

And so is the money to pay for it

College expenses should not be a roadblock for your future. Stay on track with an alternative loan from Campus Door. Get up to \$250,000 to pay for college and make no payments until 12 months after you graduate. Apply online today at campusdoor.com to receive an approval usually in less than a minute. Spend your time planning for your future, not worrying about how to pay for it.

You have the will. We have the way.

Reality Isn't

 SHAYNA GIBSON
A & E EDITOR

Does art imitate life or does life imitate art? There is no right or wrong answer to this question, and it will soon be obsolete. The line separating reality from fiction is becoming frighteningly anemic.

When you turn on your television you can watch real people doing 'real' things. You can watch people fight, hook up, and drink until they vomit. You can watch people fall in love and get married, you can watch people cheat on one another, lose weight, gain weight, do drugs, and come clean. Reality television is redefining the concept of entertainment in a way that reaches all the way into the hearts of blockbuster movies. The gore found in horror and action flicks is as real as it can get without actually cutting someone's head off. Sex scenes no longer fade to a tasteful black to offer some sort of privacy. Nothing is sacred. The Jackass movies have melded small screen antics with big screen bucks, and Johnny Knoxville is laughing (and limping) all the way to the bank.

Even news stations sensationalize stories beyond the threshold of taste and compassion. During the coverage of the Virginia Tech shootings, news media played right into the plan of an attention hungry, disturbed young man. In doing so, they have set a pretense for anyone else who feels trapped and unheard. Do you want to be famous, but feel left out and painfully misunderstood? Go shoot a bunch of people and send a video into the news, you will be successfully trading your life for infamy.

America seems to value nothing more than a truly scandalous legacy. Look at the coverage of Anna Nicole Smith's life, death,

and dirty laundry. Britney Spears fell out of the limelight, and lost her mind and her hair in order to get a little bit more attention. Heiresses buy household name status, and starlets drink and binge until we can stomach anymore gossip about their tumultuous lives. Somewhere along the line American culture forgot the difference between good attention and bad attention.

This embarrassing occurrence is not limited to celebrities distanced by the pedestals they desperately want to be placed on, it affects your life and the lives of just about everyone you know. Celebrity worship has led the majority of Americans to seek their own special sense of notoriety. Myspace pages, internet journals, weblogs, and personal video updates on youtube.com allow any average joe to feel like they have the same exposure and renown as any paid celebrity.

What happened to the days of personal mystery? Now stalking seems to be a part of the human mating ritual. Small talk has evolved from polite ambiguity to a deadly game of social Russian Roulette. Nowadays if you ask someone how they are doing they will either dismiss it or steal three hours of your day to regale you with stories of personal discovery and frustration. I am not innocent, but luckily for me, I live in a country that conditions its citizens not to take blame or responsibility when so many other forces are invading their ability to form an individual personality.

And how can any of us know who we are or what we are made of when there are so many online quizzes to tell us all about our personalities and an endless parade of cyber-friends to give supportive feedback on any challenge and reassure us that we are the victims of circumstances we cannot control.

Media, politics, and changes in the way we are able to communicate with one another have started to enable us to not actually live our lives, but still get feedback, kudos, and the illusion of character building experience.

As a result, it seems like more and more people are unable to find personal validation within, and thus venture forth and bug the shit out of everyone else until they provide them with a viable self-esteem supplement. Romantic relationships seem to suffer in direct correlation to this epidemic of codependence.

I have lost count of the number of people who have recently told me that they are in a relationship simply because it is easier than breaking up. There not there for passion, love, or intrigue, they've coupled up to avoid loneliness and to feel wanted. They stay in the relationship to avoid confrontation and the difficulty of spending prolonged periods of time with oneself.

Whatever happened to trying to actually fall in love with someone who is interested in falling in love with you back? And come to think of it, whatever happened to dating? Suddenly it seems that courtship rituals jump straight from the first pick up line to engaged. How can you know if you actually

want to be in a serious relationship with a person until you've been in a not serious relationship with them? Clearly, many relationships are not about love for a person, but about love for any person. In settled relationships, lovers do not challenge one another or respect each other enough to be honest about what they want and what they are feeling. This is not to say that there aren't healthy relationships out there, but they seem to be few and far between - scattered in a sea of people who are simply warm bodies to transpose famous faces on in the throws of passion behind tightly shut eyes.

To continue examining this phenomenon we must now enter the frightening world of extended metaphor. Everyone has a path to walk in the crazy world, and everyone has a horse to carry them down the road. This horse is made up of one's talents, desires, and life lessons. More and more people seem to simply wake up in the morning and say to themselves, "Wow, this is an awesome horse, and I have faith that my path is going to lead somewhere equally awesome." Then upon realizing that they don't necessarily know how to ride a horse, they lay down and tie a rope around their waist and let the horse drag them up the road. This way, if they go the wrong way, it's not their fault, it's the horse's, this way they cannot fall off, this way they are in control of the pain that they are receiving. However, it is time to get on the horse. And fall off. And get back on. It is time to take personal responsibility for the ups and downs of life, and not worry about comparing it to the lives portrayed on television and in tabloids. Keep a few of your life lessons to yourself - and make it more interesting for people to get to know you. And most of all, don't post pictures of your horse on Myspace. The truth is that nobody cares.

Do you want to be famous, but feel left out and painfully misunderstood? Go shoot a bunch of people and send a video into the news, you will be successfully trading your life for infamy.

Broad Comedy is Back!

The Equinox Theatre presents Broad Comedy 2007, an evening of outrageous comedy Thursday, Fridays & Saturdays, May 3, 4 & 5 and 10, 11 & 12. Tickets are \$10. Opening night tickets include a wine and dessert reception. Thursday and Friday night performances are at 8:00 p.m. Also, if you're an early bird or have a party to go to later, Saturday nights have two shows, one at 6:00 p.m. and the other at 8:00 p.m. The opening night reception starts at 7:30 p.m.

The women of Broad Comedy are mixing up a fresh and brand new cocktail of fun and irreverence that's sure to put a skip back in your step. Equinox Theatre company's all-woman sketch comedy troupe is revving back up to bring the Gallatin Valley a night guaranteed to be unabashedly political, unapologetically naughty and undeniably hilarious.

In Broad Comedy 2007, nothing is sacred, except a bright and unflinching look at men, women, blue staters, red staters, politicians and problem children in a spicy jumbo of sketches, improv and musical numbers. This show is jam-packed full of completely new material, including only-the-Broads could do this takes on The Patriot Act, abstinence-only Education, Washington scandals and, of course, every possible aspect of human relationships, both in and out of the bedroom.

The Broad Comedy company has been presenting their particular brand of madness for over five years now, and Bozeman audiences know that these shows sell out quickly! Broad Comedy has toured nationally to sell-out audiences. Only Bozeman, however, is the place to get this special, first glimpse of never-before-seen material.

This show is for mature audiences (18 and over!) only. You probably don't want to bring the kids or the teenagers. Or Karl Rove. The Equinox Theatre is located at 2304 N. 7th, across from and a little north of Murdoch's. Tickets are \$10 and can be reserved by calling 406-587-0737, and leaving a message on box 1. Call early to make sure you get a seat!

Social Awareness Heroes ROCK OUT

BRIAN KASSER
SPECIAL TO THE EXPONENT

On Wednesday, April 18, Men Stopping Rape and Interhall Council co-sponsored a Guitar Hero tournament. This was a fun event designed to bring awareness to sexual assault and generate momentum for the Take Back the Night March held the following day. There were 32 entries for the tournament, and approximately 60 more people in attendance to cheer on the guitar heroes. The grand prize was a 2500 dollar Gibson Guitar, donated by Gibson Guitars. Other prizes were donated by Pickle Barrel, Joe's Parkway and Miss Kitty's.

Landon Bubnash waits on lead wearing his award winning costume to the Men Stopping Rape Guitar Hero Tournament.

FINANCIAL TIP OF THE WEEK

TENANT TIPS

Bring your paperwork!

Completed rental application, written references, & copy of recent credit report

Read & understand your Lease!

Get unacceptable provisions removed before you sign.

Get it in writing!

Follow up verbal agreements with written statement of your understanding of the agreement

Know & protect your tenant rights!

Right to privacy, habitable rental unit, structurally safe, etc.

Talk to your landlord!

Resolve issues directly

Protect your security deposit!

Get refund procedures & allowable deductions in writing!

Buy renters' insurance!

Landlord's insurance will not cover your personal property

Protect your safety!

Some areas have safety laws your landlord may be obligated to provide

Deadbolts & window locks may be examples

Eviction—Know when to fold!

Costs less to move if you don't have solid proof and the law in your favor

Losing is expensive and hurts your credit rating

For more information, contact the SAFE office: (406) 994-7223 or e-mail safe@montana.edu

Whale Point

Arnold heard the sound on Dover Beach,
And I can hear it, too - the ebb and flow
The tide's black roar, the low moan of the sea.
Here at land's end we face that icy foe;
Each wave tears part of our last stronghold free.
The ocean's last advance is slow, is slow,
But all our craft can't hold it back. The sea
Will take back all in time - we know. We know.
-Aspen Hougen

Sleepy

Sometimes people sleep.
I don't know much about all that.
Sounds pretty fun though.
-Shayna Gibson

Graduation

I just want to say
one last thought before I leave,
Best wishes, dear friends.
-Rachel Hergett

A Bar Poem

Sunk in a drink,
he leans,
wink wink.
The allure eludes me
A bare stare.
Blink blink.
Don't sink to a drum
sunk in a drink,
I think.
Wink wink.
-Susan Andrus

A Half Thought of Me

Knowing your love of the ordinary
I folded the letter closed.
I pictured you stopping,
Stepping off your bike,
Which you lean against
Some weathered grey post
Or low lying stone wall.
Then fumbling through a pocket
Of your jumper for your camera
Looking around wondering what,
Exactly, you wanted to take
A picture of and realizing
No one can take pictures of that.
Under it all, a half thought of me.

Makes perfect sense after all.
You've seen open valleys.
Endless plains.
Majestic peaks...
The ordinary's in the water.
You're drawn to it.

And how should I write back? How should I respond? What would I write? That I wish I were there? That I wish I could feel your eyelashes flutter in the stubble of my cheek? What would you have me write?
-John Powers

Fulbright Grant

Looking for funding to conduct research abroad...?
Apply for a Fulbright Grant!

What is the Fulbright?

- A scholarship that fully funds research, teaching, and graduate courses abroad.
- The goal of the scholarship is to promote cross-cultural exchange of people, knowledge, and skills.

What are the requirements?

- Bachelor's degree & US citizenship by time of grant.
- Graduating seniors and graduate students are encouraged to apply for the 2008-2009 grant period.

Deadline: October 1st, 2007 for 2008-2009 grant period. The time to start planning research project & proposal is now!
For more information, contact Sally O'Neill, MSU Fulbright Advisor, at sallyo@montana.edu or 994-6788.

HOURS: WEEKDAYS, 8:00-5:30; SATURDAY, MAY 5, 10:00-4:30

ATTENTION: PRICES AND QUANTITIES ARE SUBJECT TO CHANGE. • ALL WORKBOOKS AND STUDY GUIDES MUST BE "CLEAN AND COMPLETE." • PACKAGES MAY CONTAIN MULTIPLE COMPONENTS SUCH AS CDs, TAPES, STUDY GUIDES, PAMPHLETS, BOOKS, ETC. ALL ELEMENTS MUST BE PRESENT AT TIME OF PURCHASE. • WATER/MOISTURE DAMAGED BOOKS HAVE NO VALUE. • IT IS BAD PRACTICE FOR STUDENTS TO SELL BOOKS FROM THEIR MAJOR OR ALLIED FIELDS, AND FROM CONTINUING OR PREREQUISITE COURSES.

ST = STATUS (OE = OLD EDITION, NE = NEW EDITION PENDING, OP = OUT OF PRINT) * = UNLIMITED QUANTITY

2006-07: A great year to be a Bobcat

KIM KRIEGER

EXPONENT WRITER

With Finals week approaching, now is when people reflect on everything that has happened during the past

nine months. One thing that stands out in my mind is that this was an incredible year for the Montana State Bobcat athletics program.

Things could not have started any better for the Bobcats as the football team went onto the University of Colorado's Folsom Field and shocked the nation when they upended the Buffs 19-10. Led by junior quarterback Cory Carpenter, the Bobcats pulled off one of the most impressive wins in their history.

Following a tough battle against the Grizzlies, the 'Cats were granted a home playoff game against Furman and took full advantage of the opportunity, winning 31-13. However, they were taken out of the playoffs by future National Champion Appalachian State, which ended an amazing run for the 2006 season.

The women's volleyball team overcame a multitude of injuries and obstacles to finish their season. Seniors Kandice Kelly and Kim Stonehouse finished their careers on the Big Sky Conference's honorable mention All-Conference team.

After the hiring of Brad Huse as the men's basketball coach, the Bobcats found themselves in the underdog position for the first time in a while. They were picked to finish eighth in the Big

Sky Conference.

However, after the passing of former Bobcat Al Beye, one of the most traumatic events in the history of Montana State athletics, the team pulled together to cap a great run in the conference by finishing fifth.

It was a wonderful end for seniors Ted Morris, Carson Durr, and Nick Dissly, who dedicated the season to Beye, their friend and former teammate.

The basketball buzz did not stop with the men, as head coach Tricia Binford led the women's team to a 13-16 record, turning around a program that had only won three games the previous year. They also had their first Big Sky Conference appearance in two years, led by seniors Alyssa Nelson, Whitney Connolly, and Scotta Morton.

Meanwhile, Bozeman fans witnessed history being made at the Big Sky Indoor Track and Field Championships in Worthington Arena. Juniors Dan Johnson and Kylee Zent, as well as sophomore Ellie Rudy, won titles for the Bobcats, with Johnson and Rudy breaking MSU records.

Rudy became the first Bobcat to win an NCAA individual indoor title, as she broke both Montana State and Big Sky Conference records by clearing 14 feet 1 inch.

History was also made on the slopes. The Bobcat ski team sent 10 skiers to the NCAA Championships, and their ninth place finish, led by Spela Bertoncelj's finish in 18th place, was the best result since the 1994 season.

The men's and women's tennis teams also had solid runs during the Big Sky Championships,

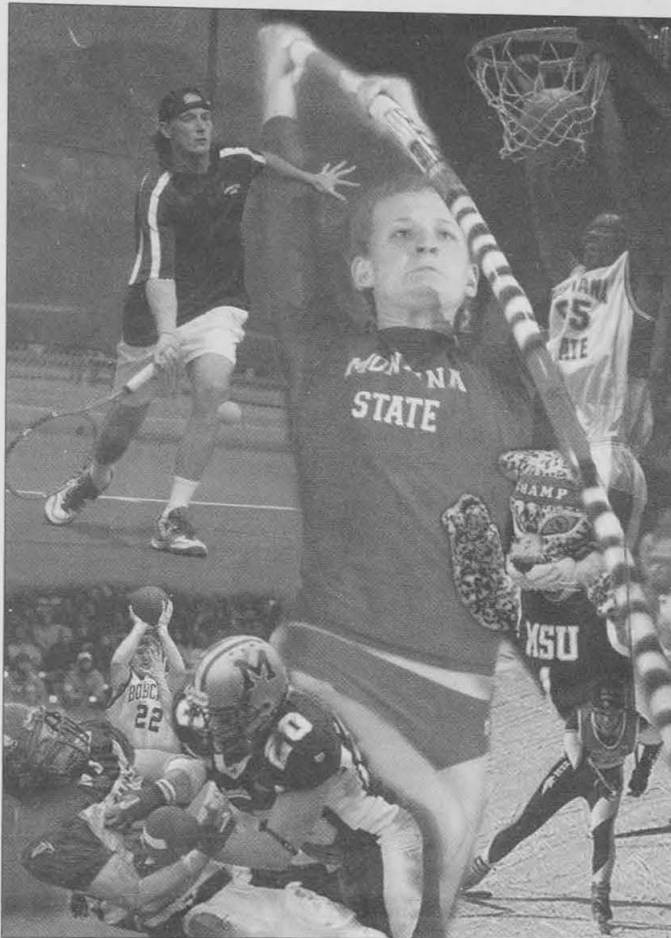

Photo illustration by Kevin Ludwig

with the women losing a hard-fought match in the semifinals against Northern Arizona.

Kelly Gillum of the golf team landed herself on the second team All-Conference as well as a tenth place finish at the conference tournament. The golf team also captured the A.L.L. first place trophy, an award given to the team with the highest total cumulative grade point average, community service, and leadership.

Even now, as the outdoor

track season comes to a close, there looks to be great promise in the future of the athletic program.

This year gave new meaning to being a Bobcat. This was supposed to be a rebuilding year for the 'Cats; however, the hearts of the teams proved otherwise. Records and hearts were broken, tears of sadness and joy were shed, yet, in the end, the blue and gold prevailed through every moment of adversity. This was a great year to sport the Bobcat colors.

The Mike Kramer Interview

Everything you need to know about Bobcat football

KYLE STACK

SPORTS EDITOR

The Montana State Bobcat football team wrapped up spring practice this past Saturday with its annual spring game. After the defense dominated the game, there are many remaining questions about the offense heading into the summer. Earlier this week, Bobcat head coach Mike Kramer shared his thoughts with the *Exponent* about his team.

Exponent: You didn't have [Jack] Rolovich at quarterback, but [Cory] Carpenter played. How many snaps did he take on Saturday?

Mike Kramer: He took 67 snaps, so he had half the reps and [red-shirt freshman] Jordan Rasmussen took the other half of the reps.

E: Are you comfortable with

where Carpenter is at considering he missed a large amount of practice [injured shoulder, strep throat]?

K: Neither Jack or Cory really needed spring to prove anything. They are proven starting quarterbacks who can produce wins in big games.

E: Did Rasmussen progress the way you expected him to from the beginning of spring practice?

K: He played pretty darn well. He's got a really brilliant future, but unfortunately his future for us is not in '07.

E: Is there any situation in which Rasmussen will play?

K: If a bus hits Jack and a rock falls on Cory's car, God forbid.

E: Is there a competition between Rolovich and Carpenter for starting quarterback?

K: Very succinctly, Jack is the

starter and Cory has to beat him out.

E: What about the running back position?

K: Aaron [Mason] is clearly the best running back. Evin [Groves] is number two and Isiah [Taito] is number three and it's gonna take all three because all three have proven they can't stay healthy.

All three of them have about the same kinds of strengths. Aaron is a little quicker in and out of the hole, Evin is a little better late in ballgames, and Isiah is a little better as a change-of-pace back.

E: Are there any situations in which the offense will show a two-back backfield?

K: No, we are a one-back team. And those guys have shown that while they can play and do some things, they are not where they

need to be in terms of being good enough to be the kind of guy that can do the things we need them to do. In terms of having 300 carries, those guys are just not durable enough or big enough to have 300 carries.

E: What about running back Blayne Beckstead, who had 42 yards on five carries in Saturday's game?

K: I am very impressed with him; he has done a nice job for a guy who was recruited but not offered a scholarship out of high school.

E: Looking at the wide receivers, if you had to say, "these are my top three wide receivers coming out of spring practice," who would they be?

K: I'll give you my top four, in

Kramer: Talks about the big uglies, safeties, and punting

CONTINUED FROM PAGE 13

no particular order: Josh Lewis, DeAndre Green, Derek Green, and Deon Tolliver, with Tyler Lulay being number five. Josh Lewis has the ability to be a go-to guy, but so does Deon, DeAndre, and Derek. All four guys are on a similar level and I don't know if that's good or bad. They're all about the same.

E: What can they do to separate themselves from each other?

K: They just need to continue to evolve and develop. It's not a case where we're going to pick one guy. We're going to have four guys that can go.

E: Going to the offensive line, [Louis] Saucedo was out Saturday, but who else was out?

K: Saucedo will probably miss the 2007 season [Editor's note: academic reasons]. Chris Smith missed all of spring with a torn pectoral muscle and should be able to return. We will probably end up with Adam DeCock at right guard which means that we are going to have a freshman, Mike Person, play right tackle and I don't know if Mike is ready to go.

Jimmy Verlanic comes back at center, with Jeff Hansen going to left guard. [However], I'm not so sure that those two roles shouldn't be reversed. Peder Jensen comes back for his fourth year as a starter at left tackle.

E: With regard to Verlanic and Hansen, what is it going to take for you to make a decision to switch them?

K: Clearly we are better with Jeff Hansen at center. Jimmy is a pretty good center and Hansen can play guard. However, I'm not so sure Jim shouldn't go to guard and Hansen shouldn't go to center. I'm not so sure that we weaken our team when we move Hansen from center to guard. I would like to see him [Hansen] play his entire four-year career at center because he has shown that he can be a dominant player at that position.

E: You have some more time to determine the offensive line

positioning in August, though. K: Oh yeah, but we are very much unsettled on our offensive front. I wouldn't say that our production from each of our offensive linemen was adequate enough for me.

E: Turning to defense, how do you feel about the stability of the safety position?

K: [Junior transfer Abraham] Muheize, [Kevin] Retoriano, and [Jeff] Brown have proven that we need a lot more work.

E: Are you going to get more help for the position?

K: We have two scholarships available and we're going to try to sign two safeties.

E: What about Epikopo King playing safety?

K: Epikopo can play safety, but I am not comfortable with that. He is such a force at linebacker, yet at linebacker, Bobby [Daly], Will [Clagget], and Bryant [Matthews] are all as good as there are in this conference. So there is enough flexibility in our thinking to think that Epikopo could go to safety and be adequate at that position, but [the dilemma is] are we weakening ourselves at a position by moving a guy to a position that he is not as good at? It's the same situation with Jeff Hansen at center.

For the team, it's better for Hansen to play guard, but for the individual, it's better for him to play center, or for Epikopo to play linebacker.

E: Can you move a guy between positions during the season?

K: Yeah, and we do that, but not very often. The key is at corner because Kory Austin can be the extra safety. Kory can play all of the safety spots, he has tremendous versatility, is an excellent kick returner, and is a smart, savvy guy who has had a great year in the weight room.

A lot of it is going to depend on what we can find in terms of recruiting. If we find another corner, Kory is going to safety.

E: Who are you looking at for the third and fourth cornerback roles?

K: Greg Palmer and Arnold

Briggs will be quality backups; they're not ready to start. The other starting corner, Michael Beach, is one of the outstanding players in the Big Sky [Conference]. With Beach and Austin at corner, we are as strong at corner as we are at any position. However, I don't know if we can afford the luxury of keeping those two guys at corner.

E: It seems like the linebacking unit is going to be very strong.

K: Oh, no question. The linebacking corps, led by the three starters, Clagget, Matthews, and Daly, backed up by Chase Gazzero, Jesse Anderson, and Jeff Price, is very good.

E: Will anyone redshirt?

K: Chase will. He is a junior-to-be and so is Bobby [Daly], so keeping both those guys at the same position is not beneficial because we do not rotate linebackers.

E: What are your thoughts on the defensive line?

K: The linebacking corps is pretty solid, but they are still not as good as the defensive line. The defensive line is the best group. The starters, [Aaron] Papich, [Chris] Kolone, and Reyshawn Bobo are as good as anybody and their backups are as good as anybody.

E: Looking at kicking, where will Eric Fisher and Tyler Bolton go?

K: Right now, Eric is ahead in kick-off, as the placement kicker, and as the punter.

E: How do you feel about the

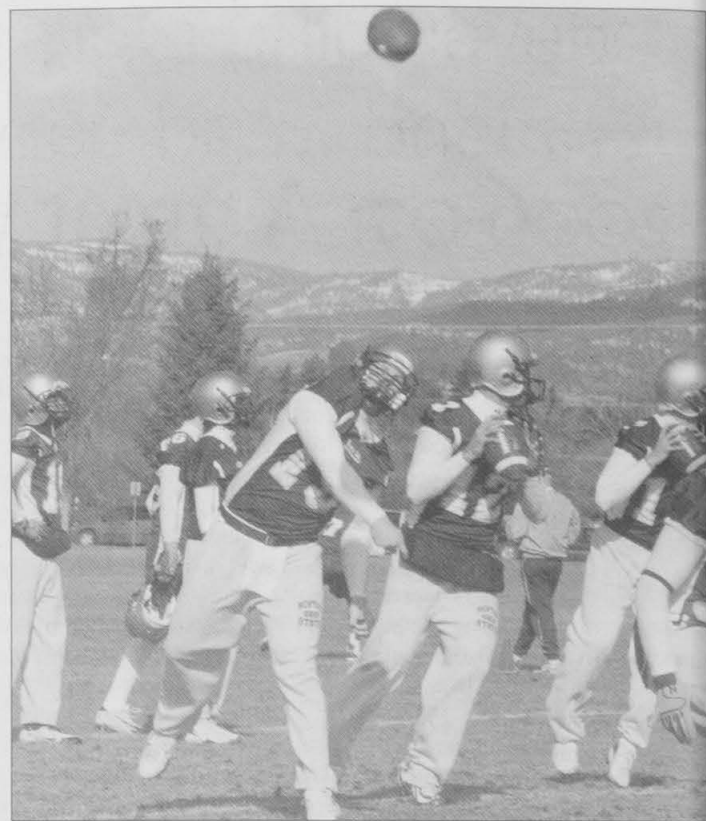

Photo by Kevin Ludwig
Cory Carpenter (throwing) is going into fall camp as the number two quarterback behind Jack Rolovich (No. 12).

roll punt?

K: [laughs] I want to roll punt.

E: What will it take to get to that because you did try conventional punting all spring?

K: But was I satisfied with it? To a point. Is it what I want to do? Not necessarily. Is it something we should be able to do if we need to? Yes. The major factor that has made me think

about it [conventional punting] is we had four blocked last year [when roll punting] and Ty had them all blocked. What I do know is I will not have Ty roll punt. If Ty Bolton does punt, it will be conventional punting and he has made a great improvement there.

If we roll punt, it's because I will have Jack [Rolovich] do it.

Random and quick sports thoughts...While developing a grading chart for Brady Quinn's girlfriend...and capitalizing on my last chance to print a perfect section

SPORTS EDITOR

KYLE STACK

Quote of the year (NFL commissioner Roger Goodell making the call): "With the ninth pick in the 2007 NFL Draft,

the Miami Dolphins select... Ted Ginn, wide receiver, Ohio State." Let the screaming and pointing at Brady Quinn begin!

This was the 12th NFL Draft I have watched and I have never seen the fall of one player have such a widespread impact on other teams in the draft...

Brady Quinn Impact No. 1: Ginn was a ridiculously dumb selection by Miami. First, his greatest asset is his speed, which is really best suited for a kick/punt returner. Speed is only one asset needed by a wide receiver; route running, size, hands, and toughness are other important qualities, and there were other receivers (Dwayne Boe, Robert Meachem, Dwayne Jarrett) that fit the bill AND still have speed. I know there are 31 NFL teams who want their very own Devin Hester, but why waste the ninth overall pick to draft speed when an elite player who fits a position of desperate need is there for the taking?...

I watched almost nine hours of the draft on Saturday and talked about it for an hour on The Redzone - and still couldn't get enough...

My top six sporting events to watch on a 45" LCD HDTV (when I ever buy one):

NCAA Tournament (especially

the first round), Super Bowl, NFL Draft, The Masters, World Series, British Open...

Brady Quinn Impact No. 2: How do you think the Houston Texans' brass felt when they saw Brady Quinn was still available at No. 8? Remember, the Texans held the eighth pick before trading it and two second-round picks (one each this year and next year) to the Falcons for passing back Matt Schaub and the No. 10 pick in this draft. Houston subsequently signed Schaub to a six-year, \$48 million deal with \$7 million in total guarantees (according to rotoworld.com), but don't you think they would have preferred to keep the No. 8 pick and take Quinn?...

I put the draft at number three because, as a television event, it is totally rewarding to sit around with a few friends, drinking beer and eating sandwiches while dissecting, and making fun of, different teams and their selections. It's slightly ahead of a fantasy football/baseball draft in the fun factor department...

Brady Quinn Impact No. 3: The Patriots dodged a three-headed bullet when division foes Miami (9), Buffalo (12), and New York (14) passed on Quinn, thus allowing New England to take a huge sigh of relief.

New England could have been thinking, "Crap, let's hope that Quinn doesn't develop into an elite quarterback that we have to face twice a year."

Instead, the Pats are probably thinking, "Hey, we have to go up against a very inconsistent J.P. Losman, an injury-prone Chad Pennington and Daunte Culpepper, or, if things get really

awry, unproven starters in Kellen Clemens, Kleo Lemon, and John Beck. And we play 38 percent of our season against those guys. We can handle that."

Barring a Yankee-like surge of injuries, the Pats have the division title secured this upcoming season...

The definition of irony is when a team (Carolina Panthers) drafts Player A (Dwayne Jarrett) to replace Player B (Keyshawn Jefferson) after Player B had stated his excitement at the chance of grooming Player A who is of a similar style (6'4" possession receiver) and went to the same school (Southern Cal) - and now Player B has to find a new team...

I love everything about the Golden State Warriors. I love their toughness and how they play with a chip on their shoulder. I love their loose, free-wheeling attitude. I love how it seems that every player guzzles a couple of Red Bulls just before tip-off. I love their uniforms. I really love that Don Nelson sips on Bud Lights during his post-game press conferences. I love their home crowd, which is the closest thing to a college basketball crowd you will see in the NBA.

And after throwing \$80 million at Derek Fisher and Adonal Foyle a couple years ago, it appears general manager Chris Mullin finally made some astute moves in trading for Baron Davis last year and dealing tools Mike Dunleavy and Troy Murphy for Stephen Jackson (their toughest player and best defender) and Al Harrington (disappointment in the playoffs)...

One thing I don't love about the Warriors: Andris Biedrins'

free throw form. It's actually the free throw version of Charles Barkley's golf swing...

It is May 3 and the Milwaukee Brewers have a five-game lead in the NL Central and the most wins in the Majors. Think about it...

An open can of tuna has a longer shelf life than Phil Hughes...

Steve Nash, what a guy. I think he is a great player, but what he has done in Phoenix the past three seasons could only have been accomplished with the Suns.

It is amazing to think how different his career would have turned out had he stayed in Dallas or gone somewhere other than Phoenix. Nash is a legend and a product of the system at the same time. Mike D'Antoni's offensive system is to Nash what a paintbrush was to Michelangelo...

Brady Quinn Impact No. 4: Every 15 to 55-year-old boy/man and 12 to 27-year-old girl/woman analyzing Quinn's girlfriend, Lindy Slinger, who is a soccer player at Miami (Ohio)...

Have you noticed that the NFL and NBA have recently had MVP candidates who were former teammates at one time (Tomlinson and Brees with the Chargers, Dirk and Nash with the Mavericks)?...

I am still conflicted on what the Lakers should do with their current roster. The only thing I am sure of is that if they plan on building around Kobe for the next five to seven years, they need to acquire mentally tough players who can take his crap. That means no more Vlad Radmanovic-like signings.

They need to re-sign Luke Walton. I love he is a great passer,

a solid third- or fourth-scoring option, and you can always count on him to bust his ass. Keep Sasha, Cook, Turiaf, and Farmar as well.

Get rid of Smush and Kwame as fast as humanly possible.

I love Odom's game and toughness, but he just doesn't mesh with Kobe. And as much as I am hopeful that Bynum turns out to be a dominant post, there is no guarantee that he will.

That is why, right now, with Kobe at the absolute peak of his career, I am leaning towards wanting the Lakers to package Odom and Bynum for Jermaine O'Neal or Kevin Garnett.

The only thing worse than incorrectly estimating the potential of a player such as Bynum is wasting the prime years of an incredible talent such as Kobe...

So this is my final issue of the *Exponent*, since I am slated to graduate on May 12.

I am not sure if I am a good enough writer to describe how much the *Exponent* has meant to me for the past two and half years that I have worked here, but I can try.

This paper gave me a forum in which to express my thoughts on sports and I have always tried to respect that.

I have had strong opinions on certain topics, local and national, and I know people agreed and disagreed with my opinions. However, I felt like I always owed it to the readers of this column, and this paper, to be honest and forthright.

Whether you agreed with my opinions or not is irrelevant; what is important is that you gave me an opportunity to share my thoughts with you. And for that, I thank you...

ASMSU Spotlight:

Brenna Yankey - Senator

I am from Helena, MT and am at MSU Bozeman as a Nursing student. I want to be involved in an organization that affects all students on and off of campus and by becoming a Senator I hope to improve the campus and the activities held here as well as working with others to make MSU Bozeman a safe place for all students. As a senator I am in a leadership position and a leader, in my opinion, is someone who takes the desires of the people and puts them into action through improvements and programs. I am involved with an RHA on campus as the secretary/treasurer and was in several small activity leadership positions during High School. The positions that I am currently holding and have held in the past has allowed me to be a leader in small group positions and enhanced my organization and communication skills.

Letter to the Editor

Excrement Anti-Semitic Jokes are Not Something to be Handled Lightly

This letter is in regards to the article found on Page 10 of the *Excrement* issue of the *Exponent*. As a Jewish student I was extremely offended at the article that was written by Kyle Stack entitled "Jewish people banned from all sports - except golf (the money-making game)." I do not care if this is a "funny nothing is true" issue of the *Exponent*, this piece is definitely not in that context.

There are certain things that are appropriate to print and things that are NOT appropriate to print, this article was definitely something that should NOT have gone to print. The *Exponent* would not be possible without the funding of students and this garbage is not what I pay my student activity for. I would like to know how this article made it through even 1 person screening this paper before it

went to press. This article, even if written by a Jewish student, is extremely offensive to others, Jewish and non-Jewish alike.

After bringing this article to light to over a dozen friends of mine, all have given me the same comments. They are all surprised that ASMSU is not being sued and all think that if this article makes it to the greater community of Bozeman or further, it would be extremely detrimental to the image of MSU and the students that attend this University.

I will never argue with anyone that free speech is a right that we all have, but that doesn't

mean we need to PUBLISH everything that is written. This article is extremely discriminatory and goes against the very ideals of what many have tried to bring to the world. As Robert Kennedy said in 1968

I will never argue with anyone that free speech is a right that we all have, but that doesn't mean we need to PUBLISH everything that is written.

"Surely, we can learn, at least, to look at those around us as fellow men, and surely we can begin to work a little harder to bind up the wounds among us and

to become in our own hearts brothers and countrymen once again." This article goes against all those who have worked so hard to seal the wounds that were created by slavery and the Holocaust, just to name a few

events, and to create a world where all people are viewed as equals and not as "different" just because they have a different religious view, a different color of skin, or speak a different language. This article places MSU and especially its students (as this paper is viewed as published by the students) back to the days when discrimination was viewed as "ok." This is NOT ok and should not be condoned, especially by a publication that represents the views and ideals of the 12,000+ students here at Montana State University. We are better than this. This topic is not one that should be "joked" about...ever. It doesn't matter if someone like "Borat" decides to do so on the movie screens, we do not have to bring ourselves down to his level just to get a few laughs, of which this article definitely did not receive. If Kyle

wants to make statements like those that he did in his article that is fine, he has a right to do so, but not in the student newspaper, not when it represents the views of more than just one person. I hope this letter brings some light to your eyes and that you realize what irreparable damage has been done to the reputation of the *Exponent* and ASMSU.

With all regards,

Michael Pasque

There are very few moments, if ever, in a publication's career that should bring in to question its journalistic integrity. In light of the disregard for the feelings of a large portion our readership, I have made the decision that the *Exponent* and ASMSU for the time being will not be continuing its tradition of the *Excrement*. With all levels of professionalism, there is a level of accountability that cannot and will not condone simply sweeping moments of public embarrassment and regret under the rug. As the current Managing Editor and future Editor-in-Chief, there are no words to describe my sadness for having to apologize about an article in our last *Excrement* issue. However, in this case, the *Exponent* is incredibly sorry that the offense was taken. Personal hurt is not something an apology can remedy, and I feel that this is a situation in which a publication representing the voice of the students should never have to find itself.

My most sincere apology,

Amanda Larrinaga
Incoming Editor-in-Chief

LATE NIGHT CONVERSATIONS

WITH LEE HALL

Hello everyone. I am the pale blue dot.

Science has given us all we use today to communicate with the world. Without science, I, right now, would not be speaking to you.

The appetite for discovery and the unknown drives many of us to leave home and explore the world, be it through a microscope or telescope.

I am speaking to you today about the importance of critical thought and understanding the scientific method.

All of our greatest breakthroughs in how the world is known and how we know ourselves are the result of always questioning what we think to be true.

I will leave you now with a simple quote from Dr. Carl Sagan, who first wrote about "The Pale blue dot," over 10 years ago: "Somewhere, something incredible is waiting to be known."

Hall, 05-02-2007

20 FINALE

THURSDAY - May 3, 2007
ASMSU Exponent

Outgoing Editor-in-Chief Rachel Hergett will (hopefully) graduate with a B.A. in Liberal Studies and a minor in English Writing on May 12. After almost four years on the Exponent staff, three of which have been as an editor, she has decided that a little gratuitous goodbye never hurt anyone.

First, I would like to thank the academy (here at MSU we call them the administration) for this award that you will now make little bitty and laminate and send to me so I can put it in my wallet thus proving my new status as an alum. I would also like to thank them for not kicking me out last year and for doing so now, when I am finally ready.

There are so many people within this academic academy who have provided invaluable advice and leadership over the years. Thank you to everyone who frequents Montana Hall who helped me grow up both before and during my college years. Thank you for your continuing support, for posting the honor roll on the office door, and for not giving up on me when I faltered.

Academically, in my four years at MSU I have sat through more boring lectures than I care to count and have probably skipped just as many of them because something else seemed more important at the time, or at least more fun... and maybe these things were. Throughout my education I have become a master of procrastination. I can't say this is one of my proudest accomplishments, but it is something I have had to work and live with. Editing the *Exponent* has not made this affliction any better; I have just surrounded myself with like-minded people.

Looking back, I can't help but wonder if I would have gotten more out of my university experience if I had made a point to show up a little more often. I have compiled the best advice I can think of to pass on to those of you who will not be finishing this semester – to the rest of you, regardless of the means to the end, the roughness of the road on this journey, congratulations. If you've made it this far, you deserve to be here. Go well; friends.

Happy trails to you, until we meet again

Rachel's Tips for the Long Road to Graduation

1. Find a study partner. The semesters in which I did the best in all of my classes were the ones in which I had set times to meet people in the library to study. These people do not have to be in your classes, although it helps. They just have to be fairly nice people with whom you enjoy spending time and conveniently have a couple hours free at least three days a week at the same times you do. It is imperative that you can tolerate them for this amount of time and not get sick of them, as well as someone that you would feel obligated to tell if you were not going to show up. Thanks, Andy – that semester was really the last productive one.

2. Take classes with attractive people. The guy with the kind eyes and killer accent or the girl with amazing legs will just provide another incentive to come to class. These small eye candy crushes may just be enough incentive to get you out of bed when the temperature dips below zero and the down comforter feels like your only means of survival. Or, you may just find yourself doing a service to everyone and setting your alarm earlier to say, shower. Thanks, cute guy.

3. Find professors you like and take as many classes with them as possible. If you respect your professor and enjoy their teaching style, you are so much more likely to show up for class. I have had some amazing professors – Susan Cohen, Ilse-Mari Lee, Dean Williamson, and Christopher Pinet to name a few. I have also had some pretty lousy ones that shall remain nameless. Thanks to those of you who have made so much of a difference in my university life – you know who you are.

4. Register for an extra class each semester. Say you have to take two science courses over the next two semesters. It is much better to register for both of them this semester. You can find the professor you like better and the class that will be more entertaining. Then, drop the second one and take it the next semester. This will cut down on the number of classes you have to withdraw from at the end of the semester as well as allows you to be a bit choosier as to whom you get your education from. Hopefully, your advisor is as patient as mine has been and will allow you to see all your options. Thanks, Diane.

5. Ask for help. Go seek out a counselor (they're free) or a friend to help you through motivational crises. Tell professors and group members what is going on in your life. And, when your

senioritis seems to be too much and you're as lucky as I am and have a family member employed on campus, convince them to pick you up in the mornings and give you a lift to school. It's much easier to show up for class if you're already on campus. Thanks, Mom.

6. Find friends in every class. This may be an old friend or someone you meet along the way. Either way, they can give you notes and sign your name on the sheet if you miss class. Again, these people just provide another incentive to show up. Thanks, Dan – Je ne passerai jamais sans toi.

7. If you want to graduate, actually decide you want to leave. I have been in college for five years, the last four of which were at MSU, mainly because I was afraid of life outside the university. What does one do when they can no longer claim the college-student status? Do I have to find an office job? I'm only good for about two weeks in an office without a vacation. Eventually, you realize the best place for you may not be here, that the learning in classes is done. So, I applied for my first real job last Friday (when I wrote this out initially, I Freudian slipped all over the word "first" and wrote "fear" instead), as in one with a contract, salary, and benefits. It was scary, yes, but I'm doing OK. I'm finally ready to move on. Thanks for pushing me to apply Andrew.

8. Find someone who allows you to relax. This may be an illegal disk golf partner, a person who shares your love for stupid (not dumb) movies, or a wingman for all your escapades. The only imperative quality is that they know when you are on the brink of a stress breakdown and have the ability to make you smile, make you laugh, or just lighten the load. Thanks so much Shayna – you have always been there when I need you most.

And finally, thank you to the students, staff and community for reading the paper and watching it, as well as the staff, mature. Through all the ups and downs, it's been a pleasure.

"Go confidently in the direction of your dreams. Live the life you have imagined." - Thoreau
