## LESLIE BOYLE.

In this, the first Exponent of the year, it is again the sad duty of the college to pay tribute to another of her students, who has been called on to the higher school.

Leslie Boyle was born in Ft. Benton in February, 1890. He attended the public school in Ft. Benton, and took the first two years of his academic work at a cadet school in Spokane. He entered M. A. C. in September of 1906 as a student in the third year of the Preparatory Department. He took an active part in athletics, and was training with the base ball squad when he was taken sick. He remained in Bozeman several weeks after he was unable to be in school, but on May 12th he returned to his home in Ft. Benton.

A few days later he was taken to the hospital in Great Falls, where he died on Friday, May 31, of a spinal trouble.

While his class mates heard of his serious condition they sent flowers to him at the hospital, but they did not arrive until a few hours after he died. He was buried in Fort Benton on Tuesday, June 4, the day his class graduated from the Preparatory

He was an only son. His father and mother live in Ft. Benton.

In the year Leslie was in M. A. C. students and teachers alike learned to love him for his bright, boyish ways and happy disposition. He had expected to return this year to college, to be a member of the Freshman class, and those of his class-mates who returned miss his sunny presence.

M. A. C. extends her deepest sympathies to the bereaved parents.

## CLASS SPIRIT.

The thing that impresses the Freshman most on entering college, is the feeling existing between the members of a class for all the other members of the class. To the high school student this feeling is something entirely new. One's class in high school is composed of perhaps a few friends and a great many strange students whom one never comes to know except in a very formal way. There is of course a certain feeling, a unison between all the members of a school as apart from that of another school. But a student never comes to know what is meant by class spirit until he enters college.

The first thing one notices of class spirit is the friendship which exists between fellow classmen from the very first. It would seem as though they had known one another for years; when very likely the one never dreamed of the other's existence until a few days before.

And how the Freshmen will plot and plan to rob the Sophomores of the refreshments for their class party! Every boy will get out and work as he never has before; that the plan may be carried out and the result be successful.

If the Seniors challenge the Juniors to a game of foot-ball how the Juniors will practice to win that game! And what is the reward? Nothing. The force that drives the Junior on, to strain every nerve and muscle in a desperate effort to win, is class spirit.

Class spirit really seems to be the backbone of college life. At times when the out-look seems dark and one thinks to himself: "What is the use of it all, anyway?" Study grows so tiresome and we see no good to come from it all; then the feeling of class friendship of the fellowship between us and our classmates rises up before us even when we are most despondent and we feel encouraged and braced for further effort. So the class spirit seems to hold the class together and carry it thru the college life .

And as class spirit carries the student thro' his college career so it stays with him in after years and when he looks back upon the old college days he realizes that such ties, friendships and sorrows as those are things that are left behind forever when the college life is ended.

— E. SWAN.

## GREETINGS

Student! With thy youth and vigor  
Come to cultivate thy brain,  
We extend a word of greeting,  
May you not have come in vain.

Upon your youthful forehead lies  
A shadow wearing no disguise,  
And an earnest soul is looking  
From a somber pair of eyes

With an early wrought decision  
You have come the Truth to seek.  
May you gain the subtle essence  
That will make your whole life sweet.

You may study engineering,  
History, Latin, things galore,  
May they only serve to strengthen  
A desire for something more.

And in the end give us a Knight,  
Without reproach, and without fear;  
A loyal Knight of the Golden A,  
Truly equipped for a noble career.

—Chaffee '06.

## BOYS WILL BE BOYS.

The play was over, and the fashionably dressed crowds were pouring out of the big theatre into the cold, crisp night. At last came six boys, all college fellows, (for Rowan was a college town; it would have been practically unheard of without the big college upon the hill.) Our six friends separated themselves from the crowd, and made their way to the Dublin Kitchen, in the upper part of town, where they proceeded to "talk it out," over the "modest" little spread, served by a smiling Dutch boy, who looked as though he had just stepped down off of one of the big blue steins on the wall.

"How long is this bloomin' company a-going to stay, anyway, Terry?" asked a small, dark-haired boy, who, on account of his big blue eyes was familiarly known as "The Innocent."

"Scheduled for a week, blast 'um," said Terry mildly as he took out his pipe and prepared to enjoy himself.

"Say, though, ain't they a punk set of show people? Think they can act, and don't know a college kid from a rough!" said Dick Howard, the tall, broad-shouldered fellow, who was the Innocent's chum.

"Wake up, fellows," said another boy, approaching the table, "show bum?"

"Yeah, and don't y' forget it," said "Grif" Thompson. "Y' see it's a rotten troupe a-trying to give us "My Heart on the Campus." The play's all right, but the actors, oh, golly, they're holy shows; They walk around as stiff and, holy smoke, how they talk! And the girls are as bad as the rest. Can't sing, 'er dance either."

"Well," spoke up the Innocent decidedly, "I don't like their looks, an' I don't like their acting. Le's do something." He turned suddenly to his chums.

"I got an idea," spoke up Terry, who had been deep in thought.

"Oh, mercy, Terry!" shrieked Dick, "what a shock you gave me! My heart's all a-flutter", and he leaned weakly against Grif.

"Shut up," growled Terry, "listen here," and soon the seven heads were close together over the remains of the spread. Then with many roars of laughter, the boys departed for their respective frat houses.

"Well then, tomorrow evening, fellows," called Terry.

"You bet", they responded, "we're game."

The next evening, just before the curtain rolled up before a well-filled house, seven immaculately dressed college boys—models of propriety—filed up the aisle of the brilliantly lighted theatre, and took their accustomed seats three or four rows from the front.

Their entrance caused quite a sensation among the fair sex of the audience, who admired a college boy wherever they saw him but saved their tenderest regards for the handsome "stude." Our friends sat modestly and calmly under the steady gaze of opera glasses and lorgnettes leveled on them, having perhaps, a faint idea that they were looking their best, and being not unaware that their somewhat sensational entrance was a decided hit.

The lights were turned off and the actors and actresses came out on the brilliantly lighted stage. The play was a portrayal of college life in the east, and consisted of one love scene after another beneath the shady trees on the campus. A cry of "mush, mush, mushety mush!" came once from the gallery, but otherwise the audience sat patiently through the 1st act, applauding now and then the specialties introduced in the way of ballet girls and comic songs.

"Gee, what they trying to get at?" said the Innocent, in a loud whisper to his chum, after a mixture of dancing, songs and more lovemaking. "Don't ask me, sonny," said Dick. "Oh, joy!" he cried sentimentally, "they're going to quit. What tact."

The lights were switched on again and the orchestra began to play. The lower part of the house was almost entirely filled with college boys who were now whistling "Just my Style" as the orchestra played it. From the balconies and boxes again languishing glances were cast on our heroes who looked as modest and unassuming as possible under the circumstances.

The music stopped and the curtain again rose on a crowd of ballet girls who were soon doing their "stunt" with a vigor and dash not to be equalled.

"All ready", whispered Terry and then each of our friends took a small black rubber tube about 4 inches long, commonly known as a bean shooter, and soon a volley of beans descended on the luckless chorus girls who flinched, clutched their short skirts in dismay and at last fled in great disorder.

The crowd roared, the lights were turned on again, and the manager came out and pleaded in vain, but the crowd filed out. The

flare of lights revealed seven very innocent boys who "couldn't imagine the trouble", but who when they had gotten away from the town, up toward the college, made the very "welkin" ring with their shouts of laughter.

It is needless to say that the troupe giving "My Heart's on the Campus" left town before they had a chance to be escorted out by only too willing studes.

J. H.

---

### CALENDAR OF EVENTS FOR SEPTEMBER

Monday, 9th—Registration.

Tuesday, 10.—Registration.

Wednesday, 11th.—First semester began.

Friday, 12th.—President Hamilton addresses first assembly.

Monday, 16th—Reception for new students at the Manse by the Christian Endeavor of the Presbyterian church.—Sophomores put flag on top of college late at night.

Tuesday, 17th.—Freshmen take flag down. Big scrap between Freshies and Sophs.

Wednesday, 18th.—Special assembly—speakers were delegates of the W. C. T. U.

Thursday, 19th.—Y. W. C. A. and Y. M. C. A. meetings. Freshmen attempt to put up tin flag.

Friday, 20th.—Reception by the Epworth League for new students in the M. E. church.

Monday, 23rd.—Hall class started. Mrs. Winter's troubles begin.

Tuesday, 24th—Rain—More trouble in library.

Wednesday, 25th.—Special assembly. Talk by President Hamilton—Students vote to see whether football be re-instated this year. 71 votes against it and 65 votes for it.

Thursday, 26th.—Y. W. C. A. and Y. M. C. A. meetings.

Friday, 27th.—Y. M. C. A. reception in domestic science rooms.

Saturday, 28th.—Y. W. C. A. reception in domestic science rooms at 2:30 p. m.

Monday, 30.—Sale of shrub and cake by Y. W. C. A. girls in the main hall.

## FRESHMAN-SOPHOMORE CALENDAR.

September 19.—On the night of this day a dozen shadowy forms crept through the silent halls of M. A. C. They carried a flag.

September 20. This flag proudly floated in the gentle zephyrs over M. A. C. . At 9:30 a freshman risked his "rubber neck" and pulled "old glory" down. A fight ensued in which 75 freshmen publicly assaulted a baker's dozen of sophomores in the halls. But lo—and behold the majesty of the law descended and drove the combatants to the plowed lands where the gallant sophomores were victorious.

September 26.—Freshmen party in Martin's hall.

8:30 Sophomores captured three freshmen.

9:30. Freshmen captured two sophomores.

10:00. Captives exchanged.

11:30. Police force arrived (patrol wagon.)

11:31. Disappearance of sophomores. Cop victorious.

September 28. The verdant freshmen suspected a sophomore party. Six of them followed one sophomore, captured him and inflicted torture, thinking he would tell of the whereabouts of the feast. He was innocent. It was a junior party. The freshmen did not know the difference.

## THE SENIORS.

Say! have you noticed the Seniors,  
 The mighty class of '08,  
 As 'round the college halls they roam,  
 So sober, grand and sedate?

Many classes of Seniors have passed from the M. A. C.  
 Classes which were a credit to their dear old Alma Mater,  
 But wait 'till you see these Seniors,  
 When they finish a few months later!

They surely are objects of envy  
 As thru halls and campus they wander,  
 And they cause all other classes  
 Upon their wisdom and grandness to ponder.

Haven't you stared at the Seniors,  
 You Freshmen so tender and green,  
 And haven't you wondered and envied  
 When their noble forms you have seen?

And haven't you Sophomores rubbered  
 When you saw them strolling about,  
 And have't you rushed to the door-ways  
 And your heads full of envy, thrust out?

And surely you've noticed the Juniors  
 As slowly they wander around,  
 And we know they are heartily wishing  
 They had reached the top most round.

And even the college faculty:—  
 I must pause, and say this low,  
 Think this is a smart and a clever class,  
 I know, for I heard they said so.

Then hail to the College Senior,  
 A noble person is he,  
 And we are proud to have such people  
 In dear old M. A. C.!!

# The Exponent.

A Journal Published Monthly During the College Year by the Students of the Montana Agricultural College.

Subscription \* fifty cents per annum in advance; ten cents per copy. All matter must be in by the first of each month. Address all literary matter to the Editor-in-chief, and all business communications to the Business Manager.

Entered in Bozeman Postoffice as second class matter.

The Exponent appears once again and extends heartiest greetings to both old and new students. Owing to his serious illness, Charles Fisher, who was to have been editor-in-chief, was compelled to resign. Therefore ten days after college started a new editor had to be elected and the staff chosen, consequently it has been somewhat strenuous labor for an entirely amateur staff to commence work at so late a date. We feel that there are many criticisms due and hope there will be some allowances made.

Any friendly criticism or suggestion will be greatly appreciated and we hope you will show your college loyalty by rendering any aid you think necessary.

Loyalty to one's college is something that can hardly be summed up in any one way. The old students well know what it em-

bodies while the new ones soon acquire the spirit. Still there are a few things that come under "loyalty" that everyone should understand.

The highest ambition of a loyal student is to have his college surpass any of its sister colleges. How is this best attained? In no other way than a hearty interest and co-operation of every body in the different affairs of the institution. The societies and athletics should have the support of every student, each one doing his part to make the standard of our college compare in a high degree with that of other colleges.

---

We hope every student understands that the Exponent is a college paper and that it must have the support of each and every one. Our college paper is exchanged for those of other colleges all over the country, and as we judge the colleges by the papers we receive from them, so are we judged in return. Thus it is the duty of every student to help make this paper come up to the standard that it should. It represents you. Make it a point to contribute at least one thing during the college year. What a flourishing paper we might have if every one did this.

---

Another most important point is the financial aid that you can render. We want you to read the advertisements and patronize those who give us their ads. Mention the Exponent when trading. This is one of the most valuable ways you can show your loyalty to the paper, for the merchants when they realize that the students are loyal to the advertisers in the Exponent, will quickly give us their ads. In this way you can help the paper to be a larger and better one. Bear this in mind continually and you will reap the benefits in having a better paper to represent you.

---

We hope everyone will contribute to the cartoon and "It" departments.

---

We wish to have new headings for our Faculty, Alumni, Society, Exchange and Athletic departments. The best and most original drawings received for these we will have made into cuts and published for the rest of the year. They must be in before the first of October. We hope for much competition in this.

Four years ago a Y. W. C. A. Convention was held in Bozeman. This convention was not a very large one as anyone, who knows the vast improvement in the state in an educational way since then, might judge. Still it was a most interesting affair to the few who attended.

This year Bozeman has invited representatives from all the college, high school and city associations and Bible circles of the state to meet here for the convention again. The college expects to help make this one of the largest and best conventions that has ever been held in the state and it certainly ought to be able to do it. The state committee is already trying to obtain some fine speakers and it will no doubt obtain some, who in an educational way, it will be of great value to listen to. Miss Pearson has lately been here arranging with the state committee for the convention and the dates set for it are November 22, 23 and 24.

---

It is with the deepest feeling of regret and sadness that we have another death from the student body to chronicle. Last year we had two at the beginning of the year. We hope the list will decrease next year as much as it has this year. Owing to the lateness in organizing the staff, it was impossible to obtain a picture and have a cut prepared in time for this publication. We wish to extend our sympathy to the parents and many friends of Leslie Boyle.

---

The address of Rev. Edward Mills, presiding elder of the Butte District, at assembly on Friday, October 4, was certainly appreciated by everybody. The manner in which he brought out the point of maintaining a standard of one's own regardless of public opinion was most emphatic. How often we find ourselves following right along in a course public opinion has mapped out for us. We think too little for ourselves and depend too much upon the general opinion of the people. Independence of thought and action is one of the most admirable traits of character to be found in an individual but how few of us have it.

# EXCHANGE

Very few exchanges have been received so far this season, last May's editions being the latest arrivals. By next month the new editions will all be here, fresh, interesting and newsy, and we hope that all students will give them the same careful and thorough attention that we hope our own Exponent merits and will receive in other institutions.

We read in Harper's Weekly that foot ball is very popular in northern China, where the players go into it for all there's in it, no "molycodles" being allowed.

"I'm afraid Johnny", said the Sunday School teacher rather sadly, "that I shall never meet you in the better land."

"Why, what have you been doing now?"—Pick-Me-Up.

Freshman (passing a plumbing shop, reading sign). "Cast iron sinks." "Humph anybody knows that."

The Wa-Wa for May contains some very clever little illustrations. Their illustrator knows his business.

Boston street car condutor—"How old are you little girl?"

Little girl.—"If the corporation does not object, I would rather pay full fare and keep the statistics."

"Comus" is one of the finest papers that ever found its way to this school. Its cover is artistic and its contents very entertaining.

The L C. H. S. is a brisk little paper full of class and frat notes.

The Tooter doesn't come up to its lusty title.

The May Pioneer has several good short stories in it. Their cover design is very good.

Scene, The summit of Mt. Vesuvius.—American tourist.—"Great snakes, it reminds me of hell!"

English tourist: "How these Americans do travel."

The Wyoming Student has a very entertaining exchange column and very original illustrations.

The University of Washington now has a Cross Country Club of young ladies.

The Whitman College Pioneer gives an item of interest to all Bozeman and college people. In a recent field meet at Pacific University, Archie Hahn, the coach, made an exhibition run in the 100 yard dash of 9 3-5 seconds.

Query—Why does a blush creep up a maiden's cheek?

Answer—Because if it ran it would kick up too much dust.

The College World of Adrian, gives a cut of a class scrap that reminds us of our own "rows."

Success is not a thing of chance, nor' is it due to genius. Thomas A. Edison, when asked for his definition of genius, said: "2 per cent genius and 98 per cent hard work." and at another time when asked if he did not think genius was inspiration, said: "No, genius is perspiration". We study the lives of great men and find they attained success only by hard work.

The Review has some splendid cuts and a good poem, "A Dream," among its other features in the commencement numbers.

All men are homeless, but some men are homeless than others.

The University of Michigan has severed all relationship with the "big nine."

"Seems to me," said the kid, as his mother came at him with a hair brush and his father with a slipper, "Seems to me, they both have the same end in view."—Cornell Widow.

The Indian number of the Wu Wu is certainly worth careful inspection. Its stories are unique and the kind that "take."

A young man who was about to be married was very nervous and asked: "Is it kiss-to-marry to cuss the bride?"

## FACULTY DEPARTMENT.

Fortunately the present year opens with nearly all of our last year's faculty with us. In two departments only have important changes occurred. Prof. Chesnut from the head of the Chemical Departments in the College and Experiment Station is in the employ of the government pure food department at Washington. Prof. Cobleigh now has charge of the College work in both Physics and Chemistry and Mr. Burke is the Experiment Station chemist. Mr. Ham, instead of giving all his time to instructional work in chemistry is this year spending part of the time teaching Physics.

Prof. F. L. Gordon has been elected to take charge of the newly organized Pharmacy department. Prof. Gordon graduated as pharmaceutical chemist from the University of Michigan, and last year had charge of the Chemistry in the Pharmacy department at Purdue University. For the present year he is doing some instructing in chemistry in addition to his other work.

Last spring Mr. Anderson resigned as instructor in Civil Engineering and Mr. R. D. Kneale has been elected as Assistant Prof. in that department. Mr. Kneale was also an instructor at Purdue University last year. Mr. Kneale has had considerable experience both as a teacher and an engineer. He graduated from the New York Normal School in 1847 and for the following five years was a high school principal in that state. He then became a student in Civil Engineering at Purdue. While he had credits enough so that he could have graduated in two years he preferred to take four years instead, spending a good share of the time in practical engineering work. The following are positions he has held: Resident Engineer on Mo. Pa. in Arkansas, Locating Engineer for the Walsh road in Southern Indiana, Engineer in Charge of Masonry construction for Big Four Ry., Engineer in charge construction Fort Wayne & Wabash Valley Inter-Urban Railway, and Drainage Engineer in Kaukaee Swamps.

Miss Frieda Bull is back this year working for her Master's degree and at the same time assisting in Mathematics.

—W. D. T.

HAMILTONIA.....	Ruby King, '09
AGRICULTURAL CLUB .....	Wright Gray, '10
PHILOMATHION .....	Margaret Shellenberger
ARENA .....	David DeMuth

### Y. M. C. A.

The Y. M. C. A. has started out this year with renewed vigor and interest. Although a good many of our strongest workers are not with us again, we are hoping that there will be as many willing workers among the new students to take up their work. We have already begun our weekly meetings and we invite all the new students to unite with us in our efforts and attend our meetings.

Both Bible and Mission study classes are being organized and we are sure that your time would be very profitably spent if you joined at least one of them.

Last Friday evening a reception was given to all the new boys in college, and judging from the hilarity which was rampant in the Domestic Science rooms that night, the new boys became pretty well acquainted with the older students.

### PHILOMATHION.

The Philomathion Literary society held its first regular meeting September 28, in the basement of the Christian church.

Some new officers were elected, the new constitution was read and criticized, and a number of new names were voted in. All preparatory students are given a cordial invitation to join. Visitors are always welcome.

### Y. W. C. A.

The Y. W. C. A. has already resumed it's work for the year of 1907 and '08. Two meetings have been held, the first was led by

the President, Amy Cooke and the second one by Addie Kimpton.

The Bible study classes are organized and five courses are offered this year. Three old courses are given over from last year. Any of the girls wishing to join these classes hand your name to Addie Kimpton who is chairman of the committee.

The delegates who went to Seaside have brought back so many helpful ideas that the Y. W. C. A. expects to make this one of the most fruitful years since its organization.

Saturday afternoon, Sept. 28, the girls held their annual reception which took the form of a Quaker party. Besides the new girls of the college the wives of the faculty, were there and every one had a very pleasant time.

Girls, our regular meetings are held every Thursday at one o'clock in room 24. Come and see how you like us.

### THE AGRICULTURAL CLUB.

Owing to the limited number of agricultural students now attending college, the work of organizing an Agricultural Club for the coming year has been rather slow, but before long the "Farmers" hope to have things moving smoothly.

Our numbers will be greatly increased when the Short Course students enter, as we expect a large class.

The work of organizing a club will begin before the Short Course students enter, and it is probable there will be a few changes made in the constitution.

The purpose of this club is to promote the interest in Agricultural subjects and to bring the students interested into closer touch with one another. A big effort will be made to make the club a greater success than it has ever been before, and we cordially invite every one who is interested to pay us a visit when our club is organized.

### ENGINEERS' SOCIETY.

Starting with fifty active and ten associate members, the Engineering Society promises to have a prosperous year. The society not only purchases supplies for the students but gives programs at the regular meetings which are of the greatest educational value to the engineering students. The regular meetings are held on the first Thursday of every month and no student can afford to miss the

interesting papers and discussions on engineering topics which are always included in the program. The arrangement committee is laying plans to make the engineers' meetings one of the best features in college life this year. In addition to the regular meetings, plans are being made for at least one public program to be given before the holidays. These public programs are similar to the programs given by literary societies and have always been a great success in the past. With the increased membership and an unusually energetic arrangement committee we may expect something extra good in this line this winter.

### THE ELECTRIC CLUB.

A meeting of the Electric Club was held in the chemistry lecture room Friday, October 4. Prof. Thaler read the proposed code of ethics for the American Institute of Electrical Engineers, and explained some of the terms contained.

President Hamilton gave a discussion of the code from an ethical standpoint, illustrating several points by recent cases.

After the discussion, the constitution of the club was read, for the benefit of the new members and an election was held to fill the offices of vice-president and secretary. Lisle Henderson was elected vice-president and R. B. Barnard, secretary.

### HAMILTONIA.

The Hamiltonia society has not had a meeting this year but we expect to have a social session soon and later plan for the coming year. Too many other affairs have made it impossible to have a meeting sooner than this.

All high school and preparatory graduates are eligible for membership and all are cordially invited to become members. We need you and you need us so be prepared to join our society and help us to make this one of the most successful years of its existence.

### CONFERENCE.

This year the college Y. W. C. A. sent two delegates, Addie Kimpton, '09 and Edna Tracy, '08, to the Northwest Conference at Seaside, Oregon, from August 31 to September 10. There were about 130 girls in attendance, representing student and city associations of Washington, Oregon, Idaho and Montana. Two

delegates were sent from the Gallatin County High School and the four Bozeman girls were the only delegates from Montana.

### ARENA.

Up to the present time there has been three meetings of the society this year. Most of the time has been spent in discussing club rooms, initiation of new members and various business matters. Quite a large number have submitted their names for admission and the attendance is expected to be large. Taking into consideration the ability of our president and other officers we feel safe in saying that the society has before it a very successful year and prospects bid fair to keep up the well-known high standard of our Arena.

A special assembly was held on Wednesday, September 25, in order to discuss the feasibility of having a football team this season. After a thorough discussion by students and members of the faculty, the question was finally put to a vote of the student body but resulted in the majority of votes cast against football. There are several reasons for not having a team this season, all of which were brought up at the meeting and discussed.

First of all, Coach Knox will not be here in time to coach football, as arrangements were not made for him to come until January first. The financial side of the question also had a great deal to do with it. It would require about \$250.00 to equip football and that amount taken this year from the equipment fund would so detract from other athletics that they could not be fully equipped. Heretofore football has never proven to be a financial success—all of the athletic funds were expended in making up deficits from games and travelling expenses of the team.

Starting the game this late in the season would not only go a long ways towards making it a failure financially but would also handicap the players and make it twice as hard to put out a win-

ning team. Next fall football will undoubtedly be played as there will be an athletic director and trainer for the whole year and steps can be taken in time to put out a winning team and make the game a success financially.

This year promises to be a banner one for M. A. C. in regard to winter and spring athletics.

Coach Walter R. Knox, who put out the state champion track team and the second best baseball team, will again be with us in January and will commence work at once with the basketball teams. The boys' basketball team has never had a coach before, but nevertheless the Aggies with one or two exceptions have held the state championship. Penwell and Griffith of last year's team will be missed very much but there are a number of new men, who with coaching will easily "make good" for the positions left vacant by these two men.

Girls' basketball will be badly handicapped on the start because of the loss of Miss Owenhouse, Miss Mountjoy and Miss Osborne, but we have some of the star high school players of the state and they will undoubtedly make up for the loss of last year's players. One of the most serious drawbacks to girls' basketball has been the absence of players to make up two teams. It is very hard to develop a strong first team without a second team to practice against and it is hoped that when the season opens that there will be two teams on the floor for practice every night.

The prospect for the state champion track team is brighter for M. A. C. than it has ever been.

Last spring training did not start until the arrival of Coach Knox in April. In spite of the late start and the miserable weather a champion team was put out. One of the '07 track squad has not returned this year but his absence will be made up for by the new men who have already established good records in different parts of the state.

With an early start and a coach it looks very much as if the Aggies would sweep the state again this season.

Baseball work will commence in the drill hall about the 15th of March and will continue there until the weather is favorable for work on the diamond. All of the '07 nine are back and will be greatly strengthened by the arrival of three old players of the '06 team.

But you must remember that players alone cannot put out winning teams. They must have the support of the entire student body. It is not only your duty to attend all the games and help to win them by rooting and encouraging the team, but it is also up to you to turn out and watch the teams practice and cheer them when they make a good play. If you will look at the scores made by M. A. C. against other teams in previous years you can easily see that the players have always done their part. Now it is up to you to do your part in winning the games.

### The Track Team in Helena.

In response to the invitation sent out by the state fair association, for all colleges and universities of the state to compete upon the state fair track on September 30 and October 1st, for certain prizes, M. A. C. always ready for any clean and honest sport, sent seven of her best track men to Helena September 29th. Although far from being in track condition on account of the short notice, the team went with the intentions of bringing back honors to M. A. C. as well as to help establish in Montana a conference meet between all the institutions of higher learning in this state.

Imagine the surprise and disappointment of our representatives on finding themselves the only candidates for the contest. No opponent in sight, so the contest was merely one for individual honors between the seven M. A. C. men. Due to the poor condition of the track, the untrained condition of our athletes and the fact that it was merely a friendly contest between members of the same team, no big records were made, yet, any man who saw the exhibition will admit that they were good records under the circumstances.

Only the 440 yard dash was pulled off September 30th, with the following results: Mountjoy (alias Lovejoy, alias Lovey) 1st; Allard, 2nd; Pool, 3rd. The day was warm and a better day for such events could not have been found. The next day, October 1, turned out to be a better day for overcoats than for track suits but the "Aggies" were on deck ready to do their part which they did with the following results:

Sept. 30. 440 yard dash, 54 sec.; Mountjoy, 1st; Allard, 2nd; Pool, 3rd.

Oct. 1.—220 yard dash, 23 1-4 sec; Pool, 1st; Allard, 2nd; Hartman, 3rd.

Oct. 1.—100 yard dash, 10 3-5; Pool, 1st; Allard, 2nd; Hartman, 3rd.

Oct. 1.—50 yard dash, 5 3-5 sec.; Pool, 1st; Allard, 2nd; Hartman, 3rd.

Oct. 1.—120 low hurdles, 17 sec; Kerscher, 1st, Allard, 2nd.

Oct. 1.—Broad jump, 18 ft. 10 inches; Homan, 1st; Henderson, 2nd; Mountjoy, 3rd.

Total points: Pool 16; Allard, 15; Homan, 7.

The winner of the first prize, Mr. Pool received a fine individual cup suitably engraved. Mr. Allard, who won the second prize received one of the best makes of field glasses, while the third prize, consisting of a silver medal in the form of a watch fob, went to Mr. Homan. All of the boys who entered the contest deserve a great deal of credit for the spirit with which they entered each event and the consideration they had for each other.

The question now before us is whether or not we can persuade the state fair association to continue the track events under class B., for without doubt it is very discouraging when only one team appears upon the field, while some of our sister institutions have track teams that should be able to compete with us for field honors. We hope that the interest M. A. C. showed in this case will eventually lead to an annual conference meet between the colleges and universities of the state.

The track team that went to Helena were: Lisle Henderson Fred Homan, Will Hartman, Louis Pool, Guy Kirscher, Louis Allard, Irvine Mountjoy.

# Musical Department

Fred Robinson

Eugene Quaw

Correspondents

The musical department has opened with an enrollment of about seventy-five students, which insures a promising year. During the absence of F. A. Oliver, who is in Europe, Miss Arabelle Barnes will teach the piano with the assistance of her sister Miss Regina Barnes. Miss Phyllis Wolfe will be at the head of the vocal department and Prof. Geo. W. Hey will have charge of the violin pupils.

Thursday, October 3, a recital was given in the assembly hall by the faculty introducing Miss Barnes. The program was well rendered and greatly appreciated by the audience.

The following is the program as given:

Miss Phyllis Wolfe, soprano; Miss Arabelle U. Barnes, piano; Prof. Geo. W. Hey, violin; Miss Regina Barnes, accompanist.

SCHUMANN—Aufschwung.

LISZT—Liebestraume, No. 2.

VERDI—Aria "Ritorna vincitor" from Aida.

GRIEG—The Poet's Heart.

JEFFERY—Serenade.

HENSELT—Bird Etude.

CHOPIN—Nocturne, op. 37, No. 2.

WHELPLEY—Phyllis is my only joy.

GAYNOR—If I knew.

ROGERS—If no one ever marries me.

deBERIOT—Air Varie—op 12.

RUBINSTEIN—Staccato Etude.

## M. A. C. BAND.

The College Band held their first practice for the present school year on September 15.

During the three week's practice they have made a good showing and are rapidly surpassing last year's record. Although a few members were lost new ones of equal ability have taken their places. The music this year is of a higher grade than that played before and nearly every practice a new piece is added to the repertoire.

The band has now twenty-one members and has prospects of getting more in the near future from the

second band which is doing good work and composed of seventeen members who are all striving to make the first band. Several dates have been arranged and are as follows:

Y. M. and Y. W. reception, Oct. 4.

Concert—Assembly, Oct. 11.

Dance—College Drill hall, Oct. 25.

Dance—College Drill Hall, Nov.—

Dance—Elk's Hall, Dec. 19.

Dance—Elk's Hall, Dec. 31.

The band intends to play for all basketball games this winter and dances may be given after the games.

Extensive plans have been made for work after Christmas when a trip to Missoula with stops at Helena and Butte is expected.

The instrumentation of the two bands is as follows:

### 1st Band.

Louis Howard, leader—Solo Bb cornet.

Fred Homan—Solo Bb cornet.

Everett Hamilton—1st Bb cornet

Paul Stanton—2nd Bb cornet.

Ross Bancroft—Piccolo.

Arthur Wade—Flute.

Archie Miller—Clarinet.

Will Edsall—Clarinet.

Guy Kirscher—Clarinet.

Wilbur Robinson—1st Alto.

Willard King—1st alto.

Archie Brown—2nd alto.

Geo. Hogan—2nd alto.

Will Hartman—2nd alto.

Shirley VanVost—1st tenor.

Glen King—2nd tenor.

Herman Willson—Trombone.

Chas. Fisher—Baritone.

Chas. Soper—Eb bass.

Walter Livingston—Bass Drum.

B. E. Berg—Snare drum.

### Second Band.

Cornets—J. D. King, L. Wylie, G. Hansen, E. Hall.

Alto—C. Landon, Martin, W. Besette.

Tenor—P. Mitchel, T. Edwards.

Bass—G. Luther, Haines.

Clarinet—Cook, D. DeMuth, E. Williams, A. Berg, N. Keene.

Saxophone—W. Fisher.

**A Few Blue Notes.**

Slide, Willson, Slide.

The band wishes to thank Messrs. Chisholm, Spieth and E. Howard for their assistance in the absence of some of the band members on the morning of the funeral of J. V. Bogert.

The concert virtuoso of the band, better known as "Louie" was seen one night sleeping on the back porch of the Nevitt block arrayed in a parlor rug. At his next public performance he will render, "I'd rather be on the outside looking in, than on the inside looking out."

Watch that fellow Wade into a piccolo.

Leader to Chas. Soper: "Put that pipe up and you'll be able to hit a few good notes."

Moral—Don't smoke at band practice.

Can Bill Edsall play the clarinet? Well I should say so.

Wilbur Robinson loves to sing, "Love me and the earth is yours."

Bill Hartman is getting there at alto.

We are very glad to hear that Chas. Fisher is improving rapidly and will soon be with us again.

## Alumni and Ex-Students

The wedding of Mr. Herbert Reese, '04, to Miss Clara Clark occurred in Butte several weeks ago. Mrs. Reese has the distinction of being the second girl to graduate from the Butte School of Mines.

On June 19th the marriage of W. W. Jones '01, to Miss Nelson of Rochester, Minn., was solemnized at the brides home. Mr. Jones has accepted a position as principal of the high school at Choteau, and they are already settled in their new home. The Exponent extends congratulations and best wishes for a long and happy life.

### Where-a-Bouts of Members of '07 Class.

Annie Breneman is teaching in the public school in Glendive.

Bess Thorpe is in Deer Lodge this year—teaching in the preparatory department of Montana college.

Harold Flager and Floyd Lorentz are at Westinghouse in Pittsburg.

Belle Osborn is assistant science teacher in the Dillon high school.

Sarah Chaffee, '06, is back taking work for her Master's degree in biology.

Agnes Mountjoy is teaching in the Pony schools.

Harry Baker is in Anaconda with the Helena Power Transmission Co.

Clyde C. Penwell is at the Madison Canyon Power Plant.

Frieda Bull is back taking work for Master's degree.

Jay Pease is on his ranch in Bridger for the present.

C. W. Penwell is at Moore, Mont., looking after ranch interests for a few weeks.

Maude DeMuth is teaching in the high school in Bloomington, Wis.

Carl Gottschalck, who was a member of the '08 class, left last week for Madison, Wis., where he intends to enter college.

Homer Thompson, '02, is principal of the Choteau public schools this year.

Ira Phillips, who attended M. A. C. two years ago, is the bookkeeper in the elevator at Moore.

Ermine Potter, '06, returned to Ames, Ia., to continue the course which he began last year.

Warren Griffith has a position at Hauser lake.

Ethel Widener and Edith Brown are studying music at the conservatory in Toronto.

Flora Hartman and Ellis Featherston are at Syracuse University continuing their work in music.

Tom Quaw is still in Bozeman, treasurer of the T. B. Quaw Grain Co.

Mabel Thorpe is assistant matron at Holden Hall, Wooster University and is taking missionary training also.

Lois Hartman is taking work for her master's degree at Teachers' College, Columbia University.

In June, the month of roses, Miss Ruth Finlay and Mr. Clarence Jeffers were united in marriage. Both have attended M. A. C.. The Exponent extends congratulations.

Arthur Peterson of the '08 class is city editor of the Great Falls Tribune.

Inga Solberg who was a freshman in '05 is taking a normal course at Valparaiso.

Married—At Bozeman, in the latter part of August, Mr. Wm. Bole, '06, to Miss Edith Jackson. Both the bride and groom have attended college here and their many friends wish them every happiness in their new life. Mr. and Mrs. Bole have gone to Baltimore Md., where Mr. Bole will resume his medical studies.

On the 4th of September, Mr. Clinton Wylie was married to Miss May Hanson of Dillon. Both were students of M. A. C. in 1905 and were well known in college circles. They will be at home to their friends at their mountain home on Cherry Creek after October 1.

M. A. C. made quite a contribution to the student body of Wooster University. Phoebe Morgan of the '08 class, Bertha Morrison of the '09 and Wilder Ellis of the '10 class are there, also Mr. Bye who was a graduate of the business department. Mable Thorpe '07, and Arthur Stevenson, who was here several years ago, are there.

#### Joint Reception

One of the most unique entertainments that has ever been given at the college occurred on October 4. It was the joint reception of the Y. W. C.

A. and Y. M. C. A. Contrary to former years it was given in the drill hall this year. Everybody was invited to come to a county fair dressed like some representative character. They all responded with enthusiasm and when the crowd arrived they found the usual lemonade and popcorn stands and the side-show attractions. On entering the side show containing the "Missing Link" and "The Wonderful Trained Monkeys," a link of sausage and a mirror was all that was to be seen. The "Brave Switch Tenders" (hair pins); "Sweet 16" (16 pieces of candy); "The California Beauty" (orange); "The Table Wasington Used" (multiplication table); "Specimens of Antique Lace, come in and see them," (old shoe strings); "The Great Kid Reviver" (a slipper); and "The Wonderful Swimming Match," (a match swimming) were found in various booths. Glenn Willson in dress suit and plug hat represented the "Missouri Monstrosity" in one booth while Mr. Johnson was the "Iowa Mid-get" in another. James and Henderson in long black robes and joined together with a sausage represented "The Wonderful Siamese Twins." Miss Elizabeth McCord was kind enough to be the Fortune Teller and was the main attraction for the evening judging by the crowd that remained around the booth. She was dressed in appropriate costume while her booth was somewhat dark and mysterious with only a red glow under the large iron kettle supported by three sticks and surrounded with autumn leaves, to lighten the place.

"Monsieur Robinson" gave an exhibition of slight of hand performances, which were very entertaining. The college band played. The associations wish to take this opportunity of expressing their appreciation of the services rendered.

A grand march took place about the middle of the evening. Later on a boys' and girls' potatoe race and finally a flashlight picture was taken of the crowd.

The Freshman girls came dressed to represent the ladies' band. There were many splendid costumes but for lack of space they cannot be described here.

## Odds and Ends

Address all communications to "IT" and place in Exponent Box in the library. All of these will be carefully considered and greatly appreciated.—"IT".

Freshie and Prof. Cobleigh preaching college.

Freshie—"What's that flag up for?"

Prof.—"That's a trick of the Sophomores; the Freshies ought to pull it down."

Freshie—"Are you a Freshman?"

Prof.—"No, sir! A Senior."

Big brother Whit is good to little sisters—he takes them riding in papa's rig.

The price of sheet iron has gone up owing to the great demand for it. Ask Freshies for details.

Librarian—"Is this the book you returned?"

Freshie—"No, it's the one I brought back."

Mr. Aureback, has been eating the mountain-ash berries on the campus, thinking they were cranberries.

Mrs. Marshall (from upper window to Freshman below)—"Run right down to the street car and tell Shorty to wait until I get my hat on."

Will Edsall—"Who's Prexie?"

(General laugh, Willie more mystified.)

Senior—(in French class) "How do you form the plural of two?"

The Sophomores are requested to notify Faye Widener the next time they wish to have a party, so she can plan an opposition affair.

What has become of Sidney Williams's derby hat since the class scrap?

Be sure and see Widener & Quaw at the Electric Theatre. Admission only ten cents—Illustrated songs a specialty. Performance every night.

Williams has a swell "Cook" and a nice new "Carr."

Freshmen take notice! —When you get into a fight with another class, and "by accident" (?) try to scratch their eyes out, the most noble, chivalrous thing to do is to humbly get down on your knees and beg their pardon. Don't be afraid of making door mats of yourselves.

Senior—(In Chemistry class) "Is the filter the precipitate or the filtrate?"

Student, hesitatingly—(after a lengthy explanation by the Instructor in Chemistry of how the sun light aids in oxidation) "Well, I suppose the same thing would go on in moonlight only in a lesser degree, wouldn't it?"

Instructor—"Well, it's hard to say exactly what does go on by moonlight—there seems to be such a variety of things."

Ruth F.—"Why, I don't need to go to Spokane!"

Instructor—(calling roll) "Miss Fish."

Brave little Freshman.—"My name ain't Fish, it's Fiske!"

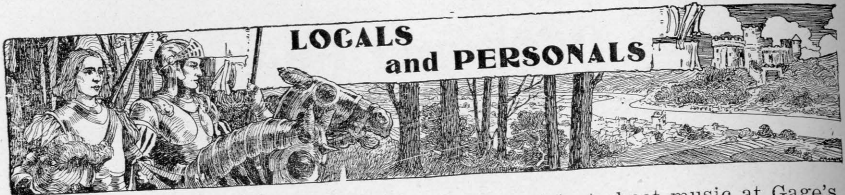

The track team has returned from Helena with a few interesting reports. Mountjoy has changed his name to "Lovey" or "Lovejoy". Witness the degeneration of such a Senior. Lisle made numerous hits but was true to the "girl left behind him." Kirscher was hard to keep track of, so they say.

Paul S.—"I know which one I like best alright but which one likes me best is the question."

Instructor—"Just add that up—it's a simple problem."

Freshie—"But I can't do it by 'rithmetic since I've been taking algebra."

Does Prof. Fisher know that LeFevre gives roses to the girls "once in a while?"

Our smart styles in young men's shoes capture all the swell dressers. J. H. Harris & Co.

Miss Phyllis Wolfe spent her summer in the east, visiting with former school friends.

Amy Cooke, '08, is back in college after teaching a summer term in Chouteau county, near Ft. Benton.

Hon. Wm. M. Hayes, Assistant Secretary of Agriculture was a visitor at the college on Monday, September 30.

Miss Mary Miller has entered M. A. C. in the class of '10. She took her freshman work in the University of Iowa.

Court Sheriff, of Helena, the President of last year's short horn class at M. A. C., is again at college, registered as a freshman.

Miss Harkins has resumed her duties in domestic science department after spending her summer vacation in Europe.

Prof. V. K. Chesnut, who was professor of chemistry at M. A. C. for three years, has now a position in the government pure foods department in Washington.

Elwood Morris, Whitfield Spain, Wright Gray, Marvin Spain, Fred Robinson, and George Hogan spent their summer on an agricultural survey for the Northern Pacific in the vicinity of Glendive.

Miss Lucy Helen Pearson, State Secretary of the Y. W. C. A., spent three days in Bozeman conferring with the state committee as regards the state convention which is to be held here in November.

All the latest sheet music at Gage's.

Bert Hind and O. S. Peters of the junior class are back in school.

A \$7000 horse barn is under construction at the station. It is across the road from the granary and will be quite an addition to the station.

Edna Tracy and Addie Kimpton returned Friday, September 13, from the Y. W. C. A. convention at Seaside, Oregon, where they represented the college Y. W. C. A.

## CLOTHES

### FOR YOUNG MEN

The Young Man of today knows

"WHAT IS WHAT"

in clothes.

He demands something expressly gotten up for his years and temperament.

### L. Adler's

clothing exactly suits his demands.

There is a snap to these garments that appeals to well posted young men.

The new Adler models in fall suits and overcoats are shown in Bozeman only by

The freshman class this year is the largest ever registered in M. A. C. They number about 75.

Watches, clocks and jewelry, latest designs, lowest prices. Leslie E. Gage, Jeweler and Optician.

The new agricultural building is well under way. The excavating is completed and the concrete foundation is begun.

Buy a talking machine on the installment plan, \$1.00 a week. Easy payments. Victor and Columbia phonographs. Leslie E. Gage is the man to see.

Mr. Eugene Quaw met with rather a serious accident recently while engaged in a class scrap. His head was jammed violently into the flume and it emerged with an enlarged jaw which remained for several days.

On the evening of Friday, September 20, occurred the annual faculty moonlight picnic at Mr. Kinney's ranch west of town. They had a splendid night for their picnic, but it is rumored they had a breakdown on the way home.

Dr. Peale and Dr. Knowlton, of Washington, D. C., were in Bozeman September 24, and visited the college. Dr. Knowlton was one of the discoverers of Death Gulch in the Yellowstone National Park. Dr. Peale was one of the party, who with Hayden made the first survey of the park in 1871. From 1888 to 1892 his headquarters were in Bozeman. During that time he made the Three Forks sheet of the geological survey. This sheet included Gallatin Valley.

The reason we sell so many men's shoes is because so many men have learned of our superior kind of shoes. J. H. Harris & Co.

Carl Widener, '08, and Eugene Quaw, '10 have secured very lucrative positions. Mr. Quaw is pianist and Mr. Widener soloist at the Electric Theatre.

Miss Emma Dunkle a member of last year's freshman class, stopped off at Bozeman and visited the college one day, on her way to Chicago where she will attend Northwestern University this year.

A small addition has been put on to the drill hall in connection with the dressing rooms, and baths have been put in. This fits the drill hall out in very good shape for the year's athletics.

David DeMuth has entered the college, after spending his summer vacation at Chesnut, where he was employed by the Northern Pacific R. R. company. By way of recreation David played 3d base on the Chesnut baseball nine.

The work of the slide rule class will be conducted somewhat differently this year. Mr. Irvin Mountjoy, who won the medal last year, will have charge of the class. To pay him for his time the students who wish to take the work will each pay a certain amount. This charge has not been fixed yet but will probably be \$1.00 for the course. The work will not begin for several weeks but students wishing to take it should see Mr. Mountjoy or Prof. Couper and arrange for it.

# THE PROVIDER

JOHN M. PEETS

Will Thorm '09, who has been in the U. S. reclamation service at Ft. Shaw, Montana, for the last five months has again registered at M. A. C.

Clinton Booker, '10, is drawing a salary of \$150 per week from W. A. Clark for guarding the ingots of the Silver Bow county exhibit at the State

The Christian Endeavor of the Presbyterian church gave a very enjoyable reception to new students at the home of Rev. R. M. Donaldson on the evening of Sept. 16.

There are two new sophomores in agriculture; W. A. Smith, who comes from the Agricultural College of Iowa, and James Annin from the University of Montana.

A permanent schedule board has been made on the north side of the main hall. This is a vast improvement over the old pasteboard variety of former years.

Prof. Fred S. Cooley has been appointed superintendent of Farmers' Institutes for Montana. Mr. Cooley will have charge of the extension work for the station.

Confining our entire attention to the shoe business is the reason we are talking shoes to you all the time. We want all the faculty and students shoe trade that's all. J. H. Harris & Co. the shoe men.

A delegation of track men was sent to Helena Monday to take part in the track meet at the state fair between the University and colleges of the state. The following are the names of those who won in the try out held to decide who should represent M. A. C: Henderson, Allard, Pool, Homan, Kirscher, Mountjoy and Hartman.

On Friday evening, Sept. 20, the Epworth League of the M. E. church entertained the college students at the church parlors.

Edgar Allen, '10, had to be taken to his home in Joliet on account of an attack of typhoid fever, but since his arrival there he has been getting along nicely.

Chas. Fisher, '08, who has been in the sanitarium for the past six weeks with typhoid fever is now at home and is improving rapidly and expects to be back in college before many weeks.

Miss Eva Bower a former '08, but last year a student of the Dillon Normal has taken up special work in M. A. C. for one semester. She will then return to Dillon to graduate there in June.

## GENERAL INFORMATION

The location, in Central Montana, in the famous Gallatin Valley, covered far and wide with grain fields and hemmed in with lofty mountains, is unsurpassed for beauty, health and convenience. Bozeman is a city of homes and churches, with a wholesome moral environment. It is a most desirable residence city for families who wish to educate their children. Expenses are moderate, and there are all conveniences of a modern city.

## COURSES OF STUDY

1. Civil, Electrical and Mechanical Engineering.
2. Agricultural, Horticulture, Dairying and Veterinary.
3. Household Economy, Art and Music.
4. Academic, Manual Training and Domestic Science.
5. Elementary School of Agriculture and Mechanic Arts.

## EQUIPMENT

Complete laboratories in Chemistry, Physics and Geology. Art Studio in water color, oil, china and wood carving. Extensive foundry, wood, iron and museums. Model dairy, greenhouse and farm buildings. Well equipped cooking and sewing rooms. An entire building for electrical work. Special facilities for irrigation work. 15 College and Station buildings. 200 acres in Experiment farm. 32 members in the Faculty.

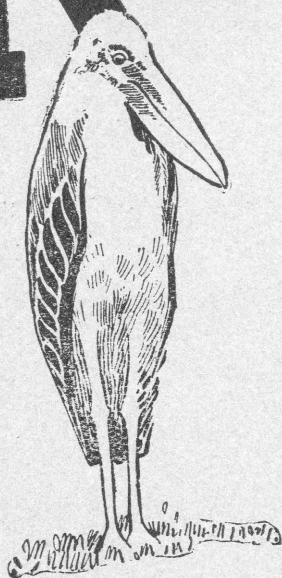

For catalogue and further information, address.
