

# 1914 MONTANA

*Witham Photo*

## Dedication

*To show the deep regard in which we  
hold that worker for the best interests  
of Montana State College*

*Professor William Duand Tallman*

*we dedicate this volume of the  
Montanan to him*

## Foreword and Greeting

IN preparing this, the seventh volume of the Montanan, the staff has endeavored to attain several ideals.

First it has endeavored to give an accurate history of the joys and the sorrows, of the defeats and the victories and, in short of everything of interest that has happened on the hill during the past year of the existence of the college.

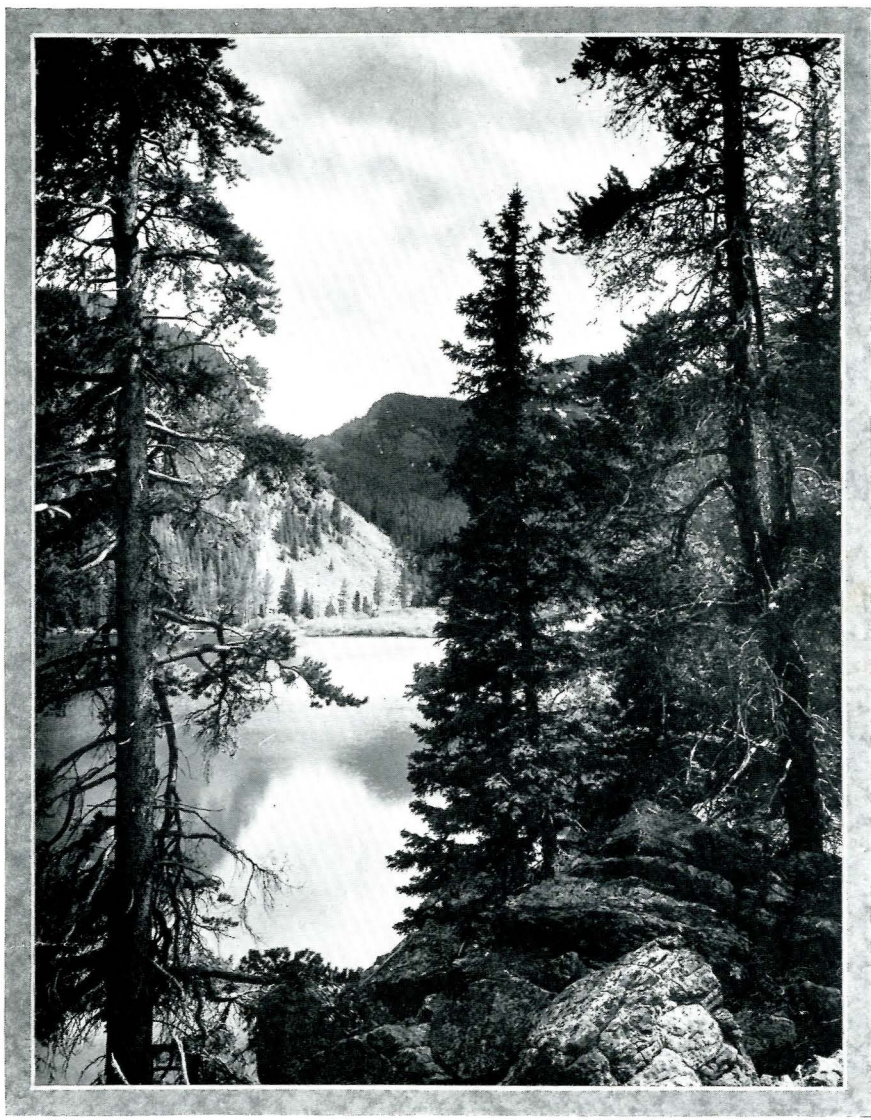

Second, it has endeavored to make a book that will bring pleasure and happy memories to the present and old students of the institution. It further hopes that this volume may perhaps bring others to our Alma Mater that they may share these joys and pleasures with us.

The volume is not perfect—we had hoped to make it the best ever, now we only hope it will not be judged the worst. And we do hope that it will fulfill to some extent what has been so ardently hoped for it, by

THE STAFF.

THE  
COLLEGE

*Blackmore Lake, Upper Middle Creek*

## Historical

First Morrill act of Congress, July 2, 1862, authorizes agricultural and mechanical colleges and makes land grants for their partial endowment.

Second Morrill act of Congress, August 30, 1890, makes annual appropriation from treasury of United States for further support of these institutions.

Act of Montana Legislature, approved February 16, 1893, accepts these grants of land and money.

Work of organization started in spring of 1893 by Luther Foster.

Montana State College of Agriculture and Mechanic Arts opened September, 1893. A. M. Ryon, president; faculty composed of seven members.

James Reid elected president 1894. Faculty then composed of thirteen members.

Cornerstone of College Hall laid October 21, 1896.

First commencement, 1897. Four members in class.

College moves to present location on the hill from downtown quarters, in spring and summer of 1898.

James M. Hamilton elected president, 1904.

# Montana State Board of Education

February 1, 1913.

Governor Sam V. Stewart (ex-officio) Chairman, Helena.

Attorney General Daniel M. Kelly (ex-officio), Helena.

State Superintendent Henry A. Davee (ex-officio) Secretary, Helena.

## BY APPOINTMENT

G. T. Paul, Dillon.

H. G. Pickett, Helena.

Charles H. Hall, Missoula.

Nathan R. Leonard, Butte.

O. W. McConnell, Helena.

Ward H. Nye, Billings.

Walter H. Hartman, Bozeman.

S. D. Largent, Great Falls.

B. E. Toan, Clerk of Board, Helena.

## Executive Board

President James M. Hamilton (ex-officio) Chairman, Bozeman.

## BY APPOINTMENT

J. F. Blair, Bozeman.

J. H. Baker, Bozeman.

George Cox, Treasurer, Bozeman.

George Callaway, Secretary, Bozeman.

JAMES M. HAMILTON, M. S.

*President of Montana State College,  
Professor of Psychology and Economics.*

B. S., Union Christian College, 1887; Superintendent of City Schools, Sumner, Illinois, 1887-1889; Superintendent of City Schools, Missoula, Montana, 1889-1901; Graduate Student at Harvard, 1898; Member State Text Book Commission, 1902; Professor of Psychology and History, University of Montana, 1901-1904; President of Montana State College since 1904; Member American Association of Agricultural College Presidents and Experiment Station Directors; National Education Association; American Association for the Promotion of Engineering Education; American Association for the Advancement of Political and Social Science.

# Faculty

WILLIAM FISK BREWER, A. M.

*Head of History-Literature and Secretarial Departments,  
Professor of English.*

A. B., Iowa College, 1891; A. M., Iowa College, 1897; A. M., Harvard University, 1899; Teacher, Iowa College Academy, 1891-92; Fellow in Latin, University of Chicago, 1892-93; Teacher, Portland Academy, 1893-94; Teacher, Lake Forest Academy, 1894-96; Graduate Student, Harvard University, 1898-99; Professor of English, Montana State College, since 1896. Phi Beta Kappa.

LILLA AGNES HARKINS, M. S.

*Head of Home Science Department,  
Professor of Home Science.*

B. S., South Dakota Agricultural College, 1890; M. S., South Dakota Agricultural College, 1898; Head of Domestic Science Department, South Dakota Agricultural College, 1890-96; Head of Domestic Science Department, Louisiana State College, 1896-97; Professor Home Science, Montana State College, since 1897; Member American Home Economics Association.

ROBERT ALLEN COOLEY, B. S.

*Head of Biology Department,  
Professor of Zoology and Entomology.*

B. S., Massachusetts Agricultural College, 1895; Assistant Entomologist, Massachusetts Agricultural College, 1895-99; Montana State College, since 1899; State Entomologist, since 1902; Fellow, A. A. A. S.; Member American Association of Economic Entomologists, Vice-president, 1912; Member, Entomological Society of America.

WILLIAM DUAND TALLMAN, B. S.

*Head of Mathematics Department,  
Professor of Mathematics.*

B. S., University of Wisconsin, 1896; Instructor in Mathematics, Madison High School, 1897; Fellow in Mathematics, University of Wisconsin, 1898-99; Instructor and Graduate Student in Mathematics, University of Wisconsin; 1899-1901; Professor of Mathematics, Montana State College, since 1901; Graduate Student, University of Wisconsin, summer 1911; Member American Mathematic Society; Member Mathematical Circle of Palermo; Fellow, A. A. A. S.

## Faculty—Continued

WILLIAM MERRIAM COBLEIGH, E. M., A. M.

*Head of Chemistry Department,  
Professor of Chemistry.*

E. M., College of Montana, 1894; A. M., Columbia University, 1899; Chemist, Anaconda Copper Mining Company, 1892-93; Assistant Chemist, Montana Experiment Station, 1894-99; Assistant in Chemistry and Physics, Montana State College, 1894-96; Instructor, 1896-99; Assistant Professor, 1899-01; Professor of Chemistry, since 1901; Fellow, A. A. A. S.; Member, American Chemical Society.

JOSEPH A. THALER, E. E.

*Head of Electrical Engineering Department,  
Professor of Electrical Engineering.*

E. E., University of Minnesota, 1900; Instructor in Mathematics, University of Minnesota, 1901; Assistant Professor of Mechanical Engineering, Montana State College, 1901-02; Instructor in Mechanics, Purdue University, 1902-1903; Professor of Electrical Engineering, Montana State College, since 1903; Member, American Institute of Electrical Engineers; Society for the Promotion of Engineering Education; Montana Society of Engineers; Sigma Xi.

ALFRED ATKINSON, B. S. A.

*Head of Agronomy Department,  
Professor of Agronomy.*

B. S. A., Iowa State College, 1904; Assistant Professor of Agronomy, Montana State College, 1904-06; Professor of Agronomy, since 1906; Graduate Student, Cornell University, 1911-12; Member A. A. A. S.; American Society of Agronomy; American Breeders Association; Sigma Xi.

ROBERT W. CLARK, B. Agr.

*Head of Animal Industry Department,  
Professor of Animal Industry.*

B. Agr., University of Minnesota, 1900; Assistant in Animal Industry, Alabama Agricultural College, 1899-1903; Professor of Animal Industry, Utah Agricultural College, 1903-06; Professor of Animal Industry, Montana State College, since 1906; Member, American Society on Animal Nutrition; American Breeders' Association.

CHARLES S. DEARBORN, B. S.

*Head of Mechanical Engineering Department,  
Professor of Mechanical Engineering.*

B. S., Kansas State Agricultural College, 1904; Graduate Student, Kansas State Agricultural College, 1904-05; Assistant in Mechanical Engineering, Kansas State Agricultural College, 1904-05; Assistant Professor of Mechanical Engineering, Montana State College, 1905-09; Professor of Mechanical Engineering, Montana State College, since 1909; Member Society for the Promotion of Engineering Education; Montana Society of Engineers.

## Faculty—Continued

DEANE B. SWINGLE, M. S.

*Professor of Botany and Bacteriology.*

B. S., Kansas State Agricultural College, 1900; M. S., University of Wisconsin, 1901; U. S. Department of Agriculture, 1901-06; Montana State College, since 1906; Member, American Phytopathological Society; A. A. A. S.

ROBERT DAVIS KNEALE, B. S., C. E.

*Head of Civil Engineering Department,  
Professor of Civil Engineering.*

B. S., Purdue University, 1906; C. E., Purdue University, 1908; Assistant Engineer on Drainage Work, Indiana; Inspector and Masonry Engineer for Big Rour R. R.; Bridge Engineer for Fort Wayne and Wabash Valley R. R.; Instructor, Purdue University; Assistant Professor of Civil Engineering, Montana State College, 1907-08; Professor of Civil Engineering, since 1908; Member, American Society for the Promotion of Engineering Education; Montana Society of Engineers; Indiana Society of Engineers, National Cement Association.

ORVILLE BLAINE WHIPPLE, B. S.

*Head of Horticultural Department,  
Professor of Horticulture.*

B. S., Kansas State Agricultural College, 1904; Graduate Student, Massachusetts Agricultural College, 1904-05; Instructor in Horticulture, Colorado Agricultural College, 1905-06; Field Horticulturist for Colorado Experiment Station, 1906-09; Professor of Horticulture, Montana State College, since 1909; Member A. A. A. S.

WALTER JENNINGS TAYLOR, D. V. M.

*Professor of Veterinary Science.*

D. V. M., Cornell University, 1906; Instructor in Bacteriology, Cornell University, 1905-07; First Assistant to the Chief Veterinarian, New York State Department of Agriculture, 1907-09; Professor of Veterinary Science, Montana State College, since 1909; Member, American Veterinary Medical Association; Member American Society of Bacteriologists; Member, Montana Veterinary Medical Association, President, 1911-12; Sigma Xi.

FRANK W. HAM, M. S.

*Head of Physics Department,  
Professor of Physics.*

B. S., Montana State College, 1903; M. S., Montana State College, 1905; Graduate Student, University of Chicago, summers 1908 and 1911; Assistant in Chemistry, Montana Experiment Station, 1905-06; Instructor in Chemistry, Montana State College, 1906-09; Assistant Professor of Physics, 1909-11; Professor of Physics, since 1911; Associate Member, American Physical Society.

## Faculty—Continued

CHARLES E. F. MOLLETT, Ph. C.

*Head of Pharmacy Department,  
Professor of Pharmacy.*

Ph. C., Kansas State University, 1904; Pharmacy Chemist for W. D. Webb, Manufacturer, St. Joseph, Mo., 1904-05; City Salesman for C. D. Smith, Wholesale Druggists and Manufacturers, St. Joseph, Mo., 1906; Assistant Professor of Pharmacy, Montana State College, 1907-08; Professor of Pharmacy, since 1908; Member, American Pharmaceutical Association; Montana Pharmaceutical Association.

UNA B. HERRICK.

*Dean of Women.*

Attended, Missouri Wesleyan College; Chicago Conservatory; Kelso School of Musical and Dramatic Art; The Sargent School, Cambridge, Mass.; Instructor in Gymnasium and Vocal Expression, Trinity University, Texas; Private Studio, Carnegie Hall, New York City; Ott Schools of Expression, Chicago, Ill.; Instructor in Physical Education of Women and Public Speaking, North Dakota State Normal School, 1905-1911; Instructor in Physical Education for Women and Public Speaking, Montana State College, since 1911.

MILO HERRICK SPAULDING, A. M.

*Assistant Professor of Zoology.*

A. B., Leland Stanford University, 1903; A. M., Leland Stanford University, 1906; Assistant in Zoology, Stanford University, 1901-02; Special Field Assistant, Bureau of Fisheries, Alaska Salmon Commission, 1903; Assistant Naturalist, Bureau of Fisheries Steamer "Albatross," 1904; Graduate Student and Assistant in Zoology, Leland Stanford University, 1903-06; Resident Zoologist, Gulf Biologic Station, Louisiana, 1906-08; Assistant Professor of Zoology and Physiology, Montana State College, since 1908; Sigma Xi.

HELEN RICHARDS BREWER, A. B.

*Assistant Professor of History and Latin.*

A. B., Grinnel College, 1887; Assistant Principal and Principal High School, Sutton, Neb.; Instructor in Botany and English in Worthington, Minn.; Graduate Student, University of Nebraska, 1895-96; Bureau of University Travel, abroad, 1905; Assistant Professor of History and Latin, Montana State College, since 1898; Phi Beta Kappa.

MAY AGNES CANTWELL.

*Principal of Preparatory School.*

Principal of the Preparatory School and Assistant Professor of English, since 1895.

## Faculty—Continued

FRANK C. SNOW, C. E.

*Assistant Professor of Civil Engineering.*

C. E., Ohio State University, 1906; U. S. Bureau Rivers and Harbors, 1906-07; City Engineer, Findlay, Ohio, 1907-08; Engineer in Charge of Pavements, Elyria, Ohio, 1908-09; Instructor in Civil Engineering, Montana State College, 1909-10; Assistant Professor of Civil Engineering, since 1910.

ROY CARROLL JONES, B. S. A.

*Assistant Professor of Animal Industry.*

B. S. A., University of Vermont, 1908; Assistant in Animal Nutrition, Pennsylvania State College, 1908-10; Assistant Professor of Animal Industry, in charge of Dairy, Montana State College, since 1910.

LANA A. BALDWIN.

*Head of Art Department,*

*Assistant Professor of Art.*

Graduated from Woman's Art School, Cooper Union, New York City, 1904; Designer, C. C. Beaxman, Manufacturing Jewelers, New York City, 1905; Instructor in Art, Gallatin County High School, Bozeman, Montana, 1908-10; Graduate Student, Handicraft Guild, Minneapolis, Minn., summers 1909 and 1911; Assistant Professor of Art and Head of Art Department, Montana State College, since 1910.

FLORENCE BALLINGER.

*Assistant Professor of Home Science.*

RUFUS A. BARNES, A. B.

*Assistant Professor of Chemistry and Geology.*

A. B., University of Wisconsin, 1908; Graduate Student, University of Wisconsin, 1908-09; Instructor in Chemistry, Rose Polytechnic Institute, 1909-10; Assistant in Analytical Chemistry, University of Wisconsin, 1910; Instructor in Chemistry and Geology, Montana State College, 1911-12; Assistant Professor of Chemistry and Geology, since 1912; Member, American Chemical Society; Alpha Chi Sigma.

## Faculty—Continued

CAROLINE MAY CEHRS, A. M.

*Assistant Professor of German.*

A. B., University of Denver, 1904; Graduate Student Work, University of Berlin, 1905-06; A. M., University of Denver, 1907; Professor of German, Mount Union College, Alliance, Ohio, 1907-11; Instructor in German, Montana State College, since 1911.

WILLIAM F. SCHOPPE, B. S.

*Instructor in Poultry Management.*

B. S., University of Maine, 1907; Instructor in Poultry Management, Montana State College, 1907-11; on leave of absence for Graduate Student Work, University of Maine, since 1911.

FRIEDA MILDRED BULL, M. S.

*Instructor in Mathematics.*

B. S., Montana State College, 1907; Graduate Student, Montana State College, 1908-09; M. S., Montana State College, 1909; Instructor in Mathematics, Montana State College, since 1910.

RALPH THOMPSON CHALLENGER, B. S.

*Instructor in Mechanical Engineering.*

B. S., Kansas State Agricultural College, 1908; Instructor in Manual Training, Kansas State Industrial Reformatory, 1908-09; Instructor in Mechanical Engineering and Foreman of Wood Shops, Montana State College, since 1909.

ABIGAIL M. HESS, A. B.

*Instructor in Home Science.*

A. B., University of Illinois, 1910; Graduate Student, University of Illinois Summer School, 1911; Dietitian at Cook County Hospital, Chicago, Illinois, 1910; Instructor in Home Science, Montana State College, since 1910.

## Faculty—Continued

LYMAN G. SCHERMERHORN, B. S.

*Instructor in Horticulture.*

B. S., Massachusetts Agricultural College, 1910; Instructor in Horticulture, Montana State College, since 1910.

HERBERT B. BONEBRIGHT, B. S. A.

*Instructor in Agricultural Engineering.*

B. S. A., Iowa State College, 1906; Auto Salesman and Demonstrator, Seattle, Washington, 1907; Instructor in Farm Mechanics, Colorado State College, 1908-09; in charge Farm Mechanics Department, 1909-10; Instructor in Agricultural Engineering, Montana State College, 1911-12; Senior Member of American Society of Agricultural Engineers; Professor of Agricultural Engineering of the American Correspondence College of Agriculture.

FLORENCE W. WALLIN, B. A.

*Instructor in French.*

B. A., University of Iowa, 1907; Graduate Student, University of Chicago, 1908; Student in Paris, 1910; Instructor in French and Spanish, Montana State College, since 1911.

IRWIN T. GILRUTH, B. A.

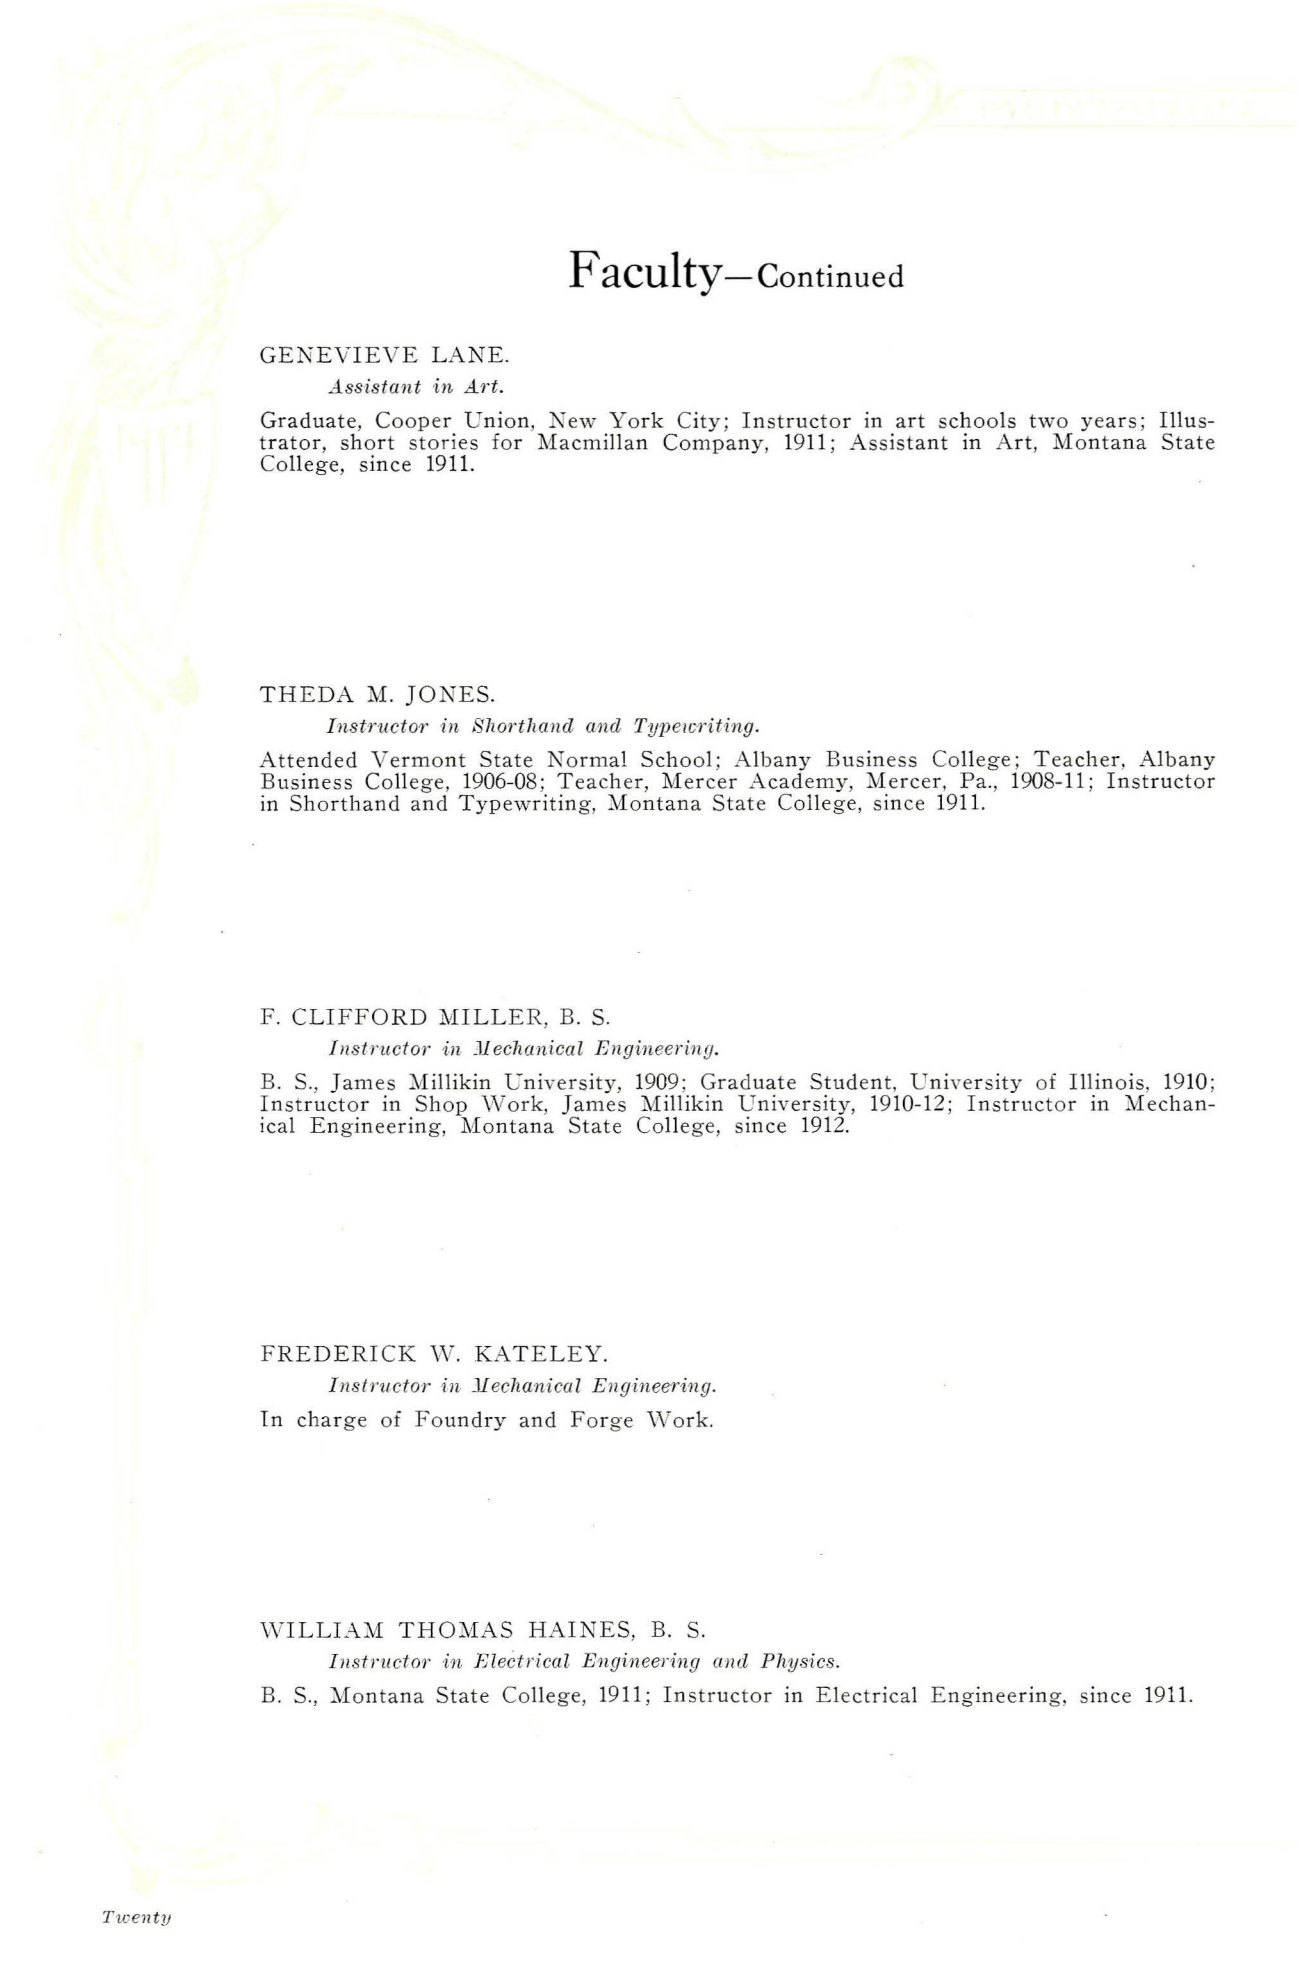

*Instructor in English.*

B. A., Ohio Wesleyan University, 1910; Assistant in English, Ohio Wesleyan University, 1909-10; Instructor in English and Civics, College School of Chicago, 1910-11; Instructor in English, East Chicago High School, Chicago, Ill., 1911; Instructor in English, Montana State College, since 1911; Delta Sigma Rho.

HARRY MILLIKEN JENNISON, M. A.

*Instructor in Botany and Bacteriology.*

B. S., Massachusetts Agricultural College, 1908; Instructor in Botany, Massachusetts Agricultural College, 1908-10; Instructor in Botany, Wabash College, 1910-11; Graduate Student, Wabash College, 1910-11; M. A., Wabash College, 1911; Special Work at Marine Biology Laboratories, Woods Hole, Mass., summers of 1909-10-11; Instructor in Botany and Bacteriology, Montana State College, since 1911; Member, A. A. A. S.; American Phytopathological Society.

## Faculty—Continued

GENEVIEVE LANE.

*Assistant in Art.*

Graduate, Cooper Union, New York City; Instructor in art schools two years; Illustrator, short stories for Macmillan Company, 1911; Assistant in Art, Montana State College, since 1911.

THEDA M. JONES.

*Instructor in Shorthand and Typewriting.*

Attended Vermont State Normal School; Albany Business College; Teacher, Albany Business College, 1906-08; Teacher, Mercer Academy, Mercer, Pa., 1908-11; Instructor in Shorthand and Typewriting, Montana State College, since 1911.

F. CLIFFORD MILLER, B. S.

*Instructor in Mechanical Engineering.*

B. S., James Millikin University, 1909; Graduate Student, University of Illinois, 1910; Instructor in Shop Work, James Millikin University, 1910-12; Instructor in Mechanical Engineering, Montana State College, since 1912.

FREDERICK W. KATELEY.

*Instructor in Mechanical Engineering.*

In charge of Foundry and Forge Work.

WILLIAM THOMAS HAINES, B. S.

*Instructor in Electrical Engineering and Physics.*

B. S., Montana State College, 1911; Instructor in Electrical Engineering, since 1911.

## Faculty--Continued

WILLIAM O. WHITCOMB, B. S. A.

*Instructor in Agronomy.*

B. S. A., North Dakota Agricultural College, 1909; Bureau of Plant Industry of the United States Department of Agriculture, 1909-11; Graduate Student Cornell University, 1911-12; Instructor in Agronomy, Montana State College, 1913; Member, Alpha Zeta.

CARL A. GOTTSCHALCK, M. S.

*Assistant in Chemistry.*

B. S., Montana State College, 1909; M. S., Montana State College, 1910; Chemist for Washoe Copper Co., Storrs, Mont., 1909; Assistant in Chemistry, Montana State College, since 1909; Member, American Chemical Society.

DRURY L. WEATHERHEAD, M. S.

*Assistant in Chemistry.*

B. S., University of Illinois, 1908; M. S., University of Illinois, 1909; Chemical Laboratory, Illinois Geological Survey, summer, 1909; Chemical Laboratory, Union Pacific R. R., Omaha, Neb., fall 1909; United States Food and Drug Laboratory, New York, 1909-12; Assistant in Chemistry, Montana State College, since 1912; Sigma Xi.

PAUL PIERRE McNEELY, A. B.

*Director of School of Music,*

*Teacher of Piano and Musical Theory.*

Mus. B., Washburn College, 1907; A. B., University of Kansas, 1909; Teacher of Piano, Topeka, Kansas, 1909-10; Studied under Josef Lhevinne, Berlin, summer 1912; Instructor in Piano and Musical Theory, Montana State College, 1910-11; Director of School of Music and Teacher of Piano and Musical Theory, since 1911.

LOUIS LEO HOWARD, B. Mus.

*Leader and Instructor of Band.*

B. Mus., New England Conservatory of Music, Boston, Mass.; Instructor of City Bands, 1893-1906; Instructor, University of Montana Band, 1906-07; Instructor of Regimental Band, Montana State College, since 1907.

U. HOLMES BISHOP, B. Mus.

*Instructor in Voice.*

B. Mus., New England Conservatory of Music, Boston, Mass., 1910; Assistant Instructor in Voice, New England Conservatory of Music, 1909-10; Instructor in Voice and Conductor of Choral Societies, Montana State College, since 1911.

## Faculty—Concluded

H. BLANCHE McNEELEY, B. Mus.

*Assistant Piano Teacher.*

B. Mus., Missouri Valley College; Graduate Student, Missouri Valley College; Studied under Madam Fuchs and Emil Liebling, Chicago, William Sherwood, New York and Josef Lhevinne, Berlin; Teacher of Music for twelve years; Assistant Piano Teacher, Montana State College, since 1911.

FRED O. JACKSON.

*Instructor in Violin,*

*Leader of Orchestra.*

Studied at National Conservatory of Music, New York City, 1892-97; Played in Symphony Orchestra of Conservatory, under Anton Dvorak, 1893-97; Symphony Orchestra, Hartford, Connecticut, 1904-06; General Orchestra and Theater Work, since 1897; Instructor in Violin and Orchestra Leader, Montana State College, since 1912.

ERNEST AMBROSE DOCKSTADER, A. B.

*Athletic Director.*

A. B., Colgate University, 1911; Director of Athletics and Physical Training for Men, Montana State College, since 1911.

MRS. MARY K. WINTER.

*Librarian.*

GEORGE R. CALLAWAY.

*Secretary.*

R. O. WILSON.

*Registrar.*

## OFFICERS

ARTHUR E. SEAMANS - - - President.  
 MYRTLE ALDERSON - Secretary-Treasurer.  
 MARGARET BOLE - - - Vice-President.

Colors: Orange and Black.

Motto:—"After all, when it rains, it settles the dust; and when the sun shines, it dries up the mud."

ARTHUR E. SEAMANS, Wauwatosa, Wisconsin.

Wauwatosa High School. Agronomy. Thesis (with Joseph Soper): Formalin Gas as a Fumigant for Grain Smuts. President Class (4); Managing Editor, Exponent Supplement (3); Student Senate (3), (4); Vice-President, (4); Semi-Finals, Tennis Tournament (3); Associate Editor 1913 Montanan; Interclass Basketball (3), (4); Agricultural Club, Treasurer (3); K. N. Club, Les Bouffons.

19-13

RALPH S. BRABROOK, Indianapolis, Indiana.

Rockford (Illinois) High School. Civil Engineering. Thesis: Design of Station for Calibrating Water Measuring Apparati. Track (1), (2), (3); Basketball (1), (2); Finals, Tennis Tournament (2), (3); Athletic Association, Class Representative (2); Treasurer (3), (4); Civil Engineering Society, President (4); Vice-President (3); Secretary-Treasurer (1), (2); Interclass Basketball (1), (2); Interclass Track, (1), (2), (3); Interclass Cross Country (3)..

MYRTLE ALDERSON, Marysville, Montana.

Helena High School. History-Literature. Thesis: The Art of the Practical Dramatist. Secretary-Treasurer Class (4); Y. W. .C. A. Cabinet (1), (2), (3), (4); Reporter, Exponent (1), (2), (3), (4); Interclass Debate (1), (2); Third Place, Extemporaneous Speaking Contest (2); Wesleyan Debate (1); Debate Council, Secretary (4); Jack-O-Lanterns, Vice-President (4)..

THOMAS B. BROOK, Bozeman, Montana.

Montana State College Preparatory School. Mechanical Engineering. Thesis: Design of a Machine Shop Plant.

STANLEY E. DOUGLAS, Ringling, Montana.  
 Gallatin High School. Electrical Engineering. Thesis (with Joseph Truman): Hydro-Electric Development of Springhill. Football, Second Team (1), (2), (3); Y. M. C. A. Cabinet (2); Secretary (3); Electric Club, Treasurer (2); Manager, Engineers' Book Store (3); Assistant Manager (2).

MARGARET BOLE, Bozeman, Montana.  
 Montana State College Preparatory School. Mathematics, Physics. Thesis: Representation of  $f(x, y) = 0$  for all values of  $x$  and  $y$ , both real and imaginary, by means of a linear complex in space. Class, Secretary-Treasurer (3); Vice-President (4); Exponent Supplement Staff (2); S. N. L. Club, Secretary (1); President (2).

FRED E. GORDON, Bozeman, Montana.  
 Corning (Iowa) Academy. Agronomy. Thesis: Farm Management—Study of a Gallatin Valley Irrigated Farm. President Class (2); Business Manager, 1913 Montanan; Business Manager Exponent (4); President Student Senate (4); Debating Council, Vice-President (3); International Stock Judging Team (3); International Grain Judging Team (2); Winner State Stock Judging Cup (2); Arena, Treasurer (2); Triangle X Club; Les Bouffons; Agricultural Club.

19 - 13

BROOKE HARTMAN, Bozeman, Montana.

Montana State College Preparatory School. Mathematics, Physics. Thesis: A Problem in Point Groups. Basketball (2), (3), (4); Second Team (1); Captain (3), (4); Football (3), (4); Class President (1); Student Senate (4); Interclass Basketball (1), (2); Interclass Track (2); Interclass Cross Country (3); Triangle X Club.

OLIVE L. CLARK, Bozeman, Montana.

Montana State College Preparatory School. Home Science. Thesis: A Study of Textile Fabrics on the Local Markets. Boosteries, President (4); Vice-President (3); Does, Vice-President (3); Home Economics Club, President (4); Y. W. C. A. Cabinet (1), (2), (3), (4); S. N. L. Club, Secretary (2).

WARREN C. MACKAY, Anaconda, Montana.

Montana State College Preparatory School. Electrical Engineering. Thesis (with Walter Willson): The Electrification of the Butte, Anaconda and Pacific Railway. Electric Club.

JOSEPH R. SOPER, Bozeman, Montana.

Gallatin County High School. Horticulture. Thesis (with Arthur Seamans): Formalin Gas as a Fumigant for Grain Smuts. Band (1), (2), (3), (4); Mandolin Club (1); Agricultural Club; Triangle X Club.

RHODA DAWES, Bozeman, Montana.

Gallatin County High School. Home Science. Thesis (with Alda Smith): Application of Science to Domestic Science in Secondary Schools or First Year College. Exponent Staff (1), (2), (4); Basketball (1), (2); Arena, Secretary (2); Y. W. C. A. Cabinet (1), (2), (4); Cook Book Committee (2), (4); Home Economics Club, Secretary (2); Jack-O-Lanterns, Advisory Board (4); Boosters, President-elect (3); Athletic Association, Secretary-elect (3); Student Senate (4); S. N. L. Club, President (1); Home Economics Club.

JOSEPH K. TRUMAN, Bozeman, Montana.

Gallatin County High School. Electrical Engineering. Thesis (with Stanley Douglas): Hydro-Electric Development of Springhill. Jack-O-Lantern Club, Treasurer (4); Advisory Board (4); Electric Club.

19-13

LEROY D. WILLEY. Briston, Montana.

Beaverhead County High School. Agronomy. Thesis: Moisture Coefficients of Plants. Class. Vice-President (1); Agricultural Club, President (4); Secretary (1); Interclass Track (1), (2), (3); Interclass Basketball (2), (3); Champion Middleweight Wrestler (2), (3); Manager Agricultural Club Book Store (4).

RUTH HARTMAN, Bozeman, Montana.

Montana State College Preparatory School. Home Economics. Thesis: A Collection of Charts for Food Study. Girls Glee Club (3), (4); Basketball (1), (2); Does, President (4); Home Economics Club; S. N. L. Club, Vice-President (2); Secretary-Treasurer (4).

JOHN C. WHARTON, Butte, Montana.

Butte High School. Agronomy. Thesis: Feeding Value of Big Hole Basin—Native Hays by Chemical Analysis. Athletic Association, President (4); Class Representative (3); Stags, President (4); Agricultural Club, Secretary (2); Third Place at State Stock Judging Contest (3); Interclass Track (2), (3); Les Bouffons.

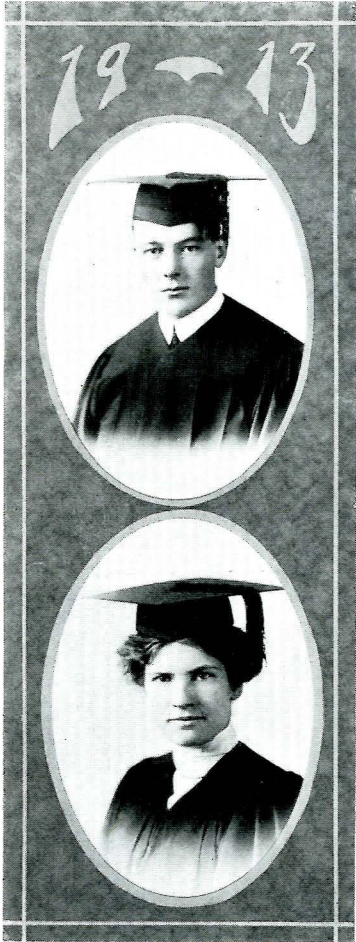

ELMER J. WILLIAMS, Great Falls, Montana.  
Great Falls High School. Electrical Engineering. Thesis: Design of Transformer for Two Phase—Three Phase Transformation. President Class (1); Editor Montanan (3); Athletic Association, Secretary (3); Football (2); Track (2); Electric Club.

NATHALIE F. SACKETT, Bozeman, Montana.  
Gallatin County High School. Civil Engineering. Thesis: A Study of Office Filing Systems with Recommendations for Engineer's Office. Civil Engineering Society, Vice-President (3).

LAWRENCE WYLIE, Bozeman, Montana.  
Gallatin County High School. Electrical Engineering. Thesis: Design and Installation of Wireless Telegraph Station for Montana State College. Electric Club, President (4); Vice-President (3); Class, Vice-President (3); Student Senate (4); Glee Club (3), (4); President (4); Band (1), (2), (3), (4); K. N. Club.

WALTER G. WILLSON, Bozeman, Montana.

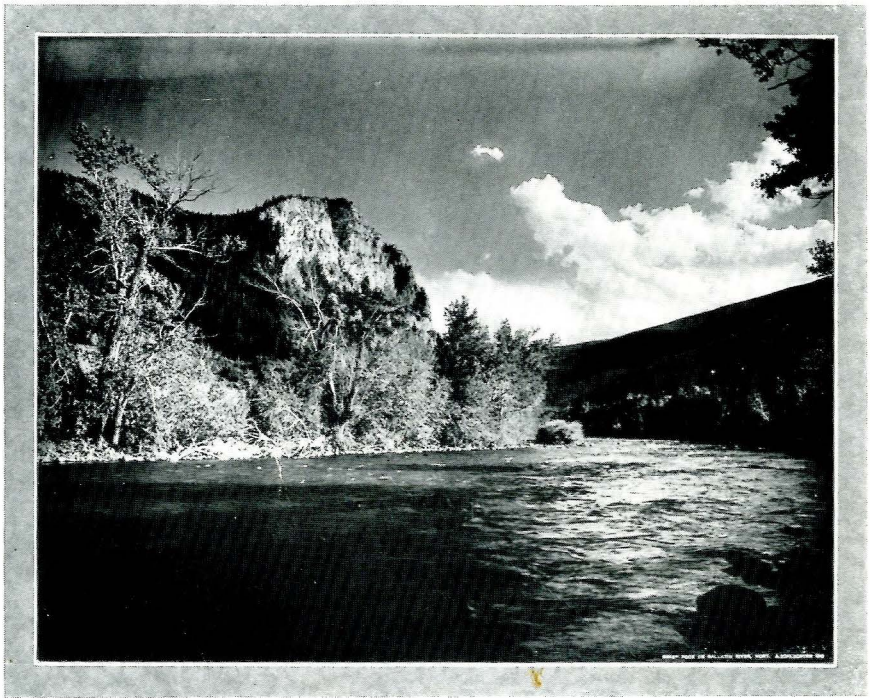

Gallatin County High School. Electrical Engineering. Thesis (with Warren Mackay): The Electrification of the Butte, Anaconda and Pacific Railway. Electric Club, Vice-President (3); Jack-O-Lanterns; Glee Club (4); Interclass Cross Country (3); Interclass Basketball (3), (4).

M. ALDA SMITH, Savannah, Ohio.

Beaverhead County High School. Home Science. Thesis (with Rhoda Dawes): Application of Science to Domestic Science in Secondary Schools or First Year College. Athletic Association, Secretary (3); Associate Editor, 1914, Montanan; Home Economics Club, Vice-President (3); Y. W. C. A., President (4); Cabinet (2); Cook Book Committee (4); Boosterines, Secretary (2); Jack-O-Lanterns; S. N. L. Club, President (4); Secretary-Treasurer (2).

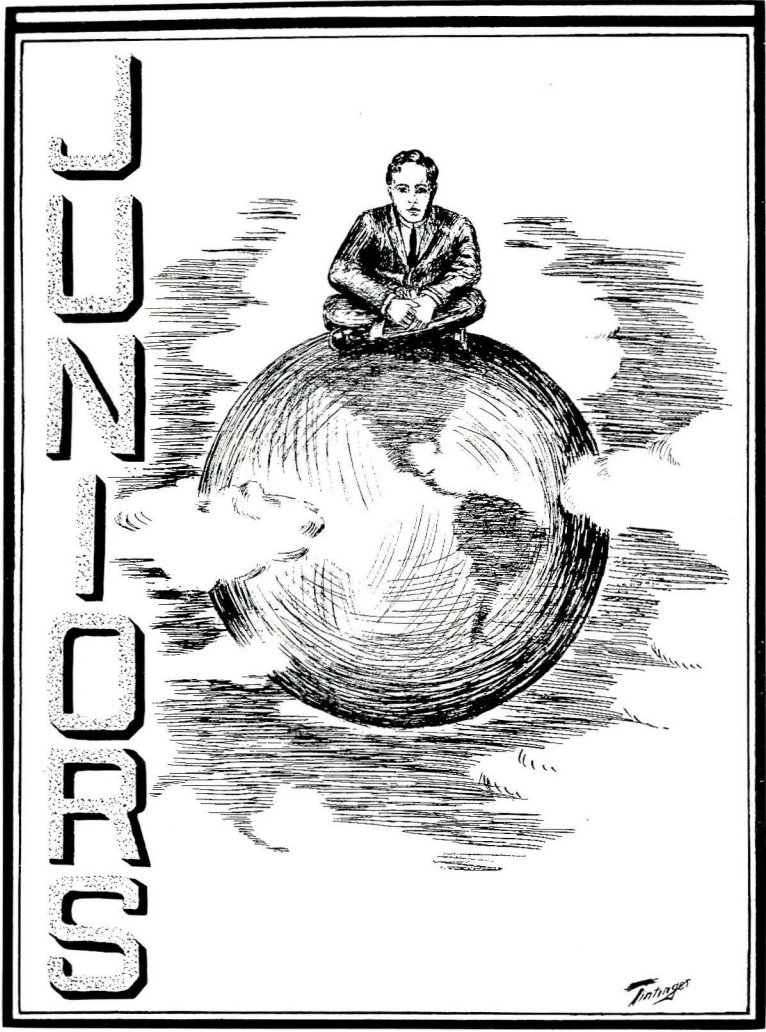

The Seniors, stately creatures,  
 Prancing 'round in cap and gown,  
 Their educated features  
 Wrinkled up in wiseman's frowns,  
 How we'll miss them when they  
 leave us.  
 Though they aggravate and peeve  
 us,  
 Though they tantalize and grieve us,  
 We'll regret it, do believe us,  
 When they leave this good old town.

1914

# Junior Class

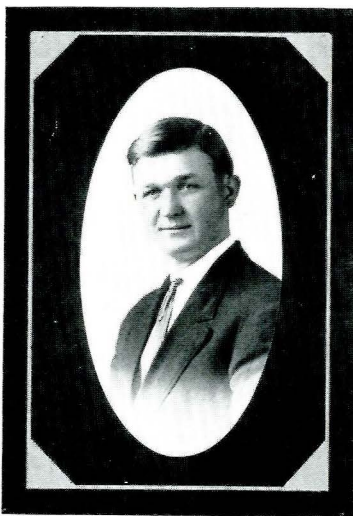

## OFFICERS

C. ALONZO TRUITT	-	-	-	President
VIOLA FOWLER	-	-	-	Vice-President
CLARA FLANDERS	-	-	-	Secretary
MAX W. KENCK	-	-	-	Treasurer

Colors: Silver Gray and Green.

Motto: "Yo Heave."

Flower: Pond Lily.

C. ALONZO TRUITT, Bozeman, Montana.

*Civil Engineering.*

Is better known as "Tubbs." Although he is the Junior President, the sophs lay claim to him. They never have a test that is hard for Tubbs.

1914

THOMAS BUCKLEY, Belgrade, Montana.  
*Civil Engineering.*

Seen but little and heard less. Is getting gray-headed from overstudy. Further than this there is but little to be said of him.

GEORGIA CULLUM, Helena, Montana.  
*Home Science.*

Always happy and busy and everybody's friend. Hobby No. 1, collecting pins. Hobby No. 2, wearing them. At present favors the leader of the Progressive party.

ROY CLARK, Chinook, Montana.  
*Agriculture.*

"Climax" or Roy will get him and he can be found almost any time at the "Shorthorn" Club. He is always ready to help in a pinch.

1914

1914

INEZ EVERETT, Big Timber, Montana.

*Home Science.*

Part of her course left college at Christmas time. Does better in the rest of her studies now, however. Inez is a true man-hater (?).

FREDERICK DISSLY, Sugar Creek, Ohio.

*Agriculture.*

Big and good-natured. An ardent Grange worker and some senator. Took Shorthorn subscriptions for the Montanan.

MILDRED ECKLES, Forsyth, Montana.

*Home Science.*

Some call her "Freckles." Is dangerous to do so however. Combines forces with Mrs. Winters to break up afternoon tete-a-tetes in the library. Writes poetry for the Montanan.

1914

CLARA FLANDERS, Bozeman, Montana.

*Home Science.*

If there is anything that you don't like in the calendar, lay it to "Flary." Is a good Indian but neither a dead one nor a wooden one.

WILLIAM L. HODGSKISS, Choteau, Montana.

*Agriculture.*

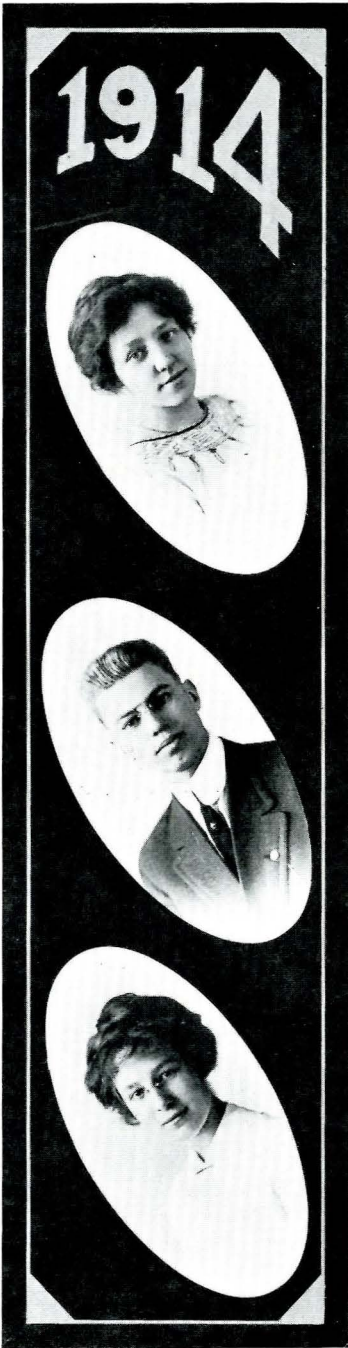

Is big and husky and bashful but will talk to a girl if cornered. Bill aspires to be a great athlete. Captained the class basketball team.

VIOLA FOWLER, Bozeman, Montana.

*History-Literature.*

Call her Vi for short. Never keeps hall classes and never makes herself conspicuous. In short, she possesses the virtues our grandmothers would be proud of.

ELLA HARMON, Helena, Montana.

*Home Science.*

Lives at the "Annex" and takes home science—a good combination. Also interested in the work of the "shoemaker."

MAX W. KENCK, Butte, Montana.

*Electrical Engineering.*

Max is an artist and a fusser—and say, he is sure some fusser. Is thinking of having a home on a farm next year. Max is named "The Big Noise," and it fits the person.

PEARL HEIGHTON, Choteau, Montana.

*Home Science.*

Was very fond of "Read"ing last year. Has taken to chemistry this year. We know of nothing further to say about her, so therefore she must be a good student.

1914

JAMES KIEFER, Bozeman, Montana.

*Mathematics-Physics.*

Swears something awful and has been heard to violently exclaim, "O joy." Tried out for class basketball and made the team. May sometimes be found with less than six text-books under his arm.

ELLA OLSEN, Butte, Montana.

*Secretarial.*

They call her "Ole." She is a good scout and loves things that deal in chemistry. Is a stenographer but takes some home science as she expects to do practical work along these lines soon.

CLAUDE MARTIN, Stockett, Montana.

*Civil Engineering.*

Adopted from the 1913's. Is a plugger and will get through before he quits. Has been heard saying, "She loves me, she loves me not; but now she went away."

# 1914

WILLIAM A. PAPKE, Bozeman, Montana.  
*Civil Engineering.*

Not much of a student but a mighty good huntsman. Is one of the few boys who prefers a deer to a deer. Has but little to say in class or out.

RAUSIC ROECHER, Bozeman, Montana.  
*Home Science.*

Was queen last fall and the title fits the person. Assisted in the art work on the Montanan. Is Vice-President and natural born leader of the Suffragettes.

HOMER D. MILLEGAN, Millegan, Montana.  
*Agriculture.*

Sober as a preacher. Best known in Y. M. C. A. circles. Therefore no extensive write-up of him here. Is said to fuss but it must be on the quiet.

1914

ROY SPAIN, Bozeman, Montana.

*Agriculture.*

Prominent this year as a senator and a member of the Stags Initiation committee. Star forward on the basketball team.

PHYLLIS M. SWITZER, Bozeman, Montana.

*Home Science.*

Phyllis Marguerite is her name but everybody calls her Madge. Has been accused of changing her name at another time but not to Madge. Did you ever see her when she wasn't giggling and playing cupid?

FREDERICK W. SCHUMACHER, Argenta, Montana.

*Agriculture.*

A busy little man. Secured ads for the Montanan this year and hopes the book will be good. Mr. Schumacher believes in "Harmon"izing work and play.

SELMER H. SOLBERG, Big Timber, Montana.  
*Electrical Engineering.*

Works on the "Excuse" and on the Montanan and on his lessons—once in a while.

VIE H. VALLEAU, Livingston, Montana.  
*Art.*

This little girl is an artist. And she spent a part of the year in the art rooms working for the Montanan and the rest in answering "dailies."

WILLIAM B. VESTAL, Jr., Indianapolis, Indiana.  
*Civil Engineering.*

Bill is editor of the Montanan. Is Irish and thinks he should have been called "O'Vestal." Favorite saying, "She's a mighty fine little girl."

1914

ALDEN WEBSTER, Bozeman, Montana.

*Electrical Engineering.*

Can explain any theory or problem ever heard of and some that have never been heard of. Is one of the few "A" students in the class.

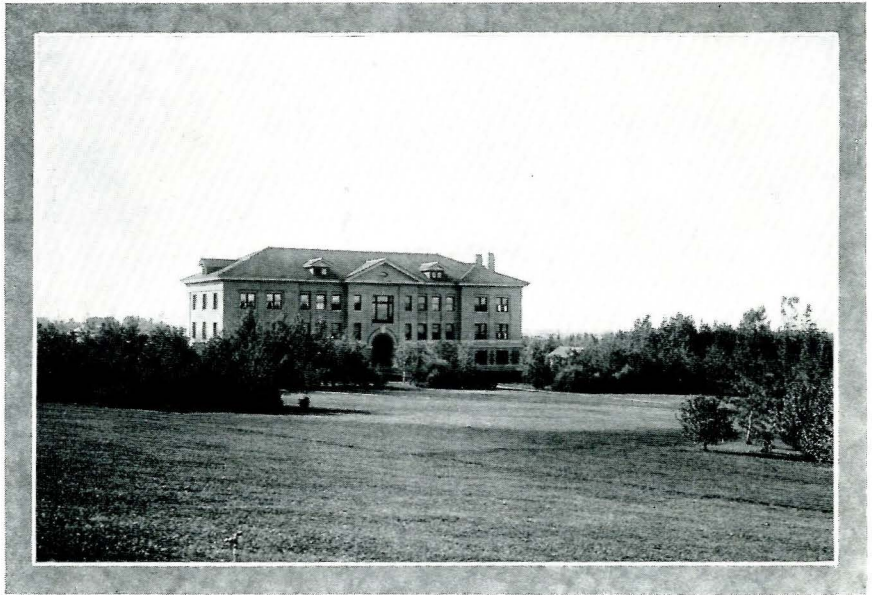

WILLIAM J. WHITWORTH, Deer Logge, Montana.

*Electrical Engineering.*

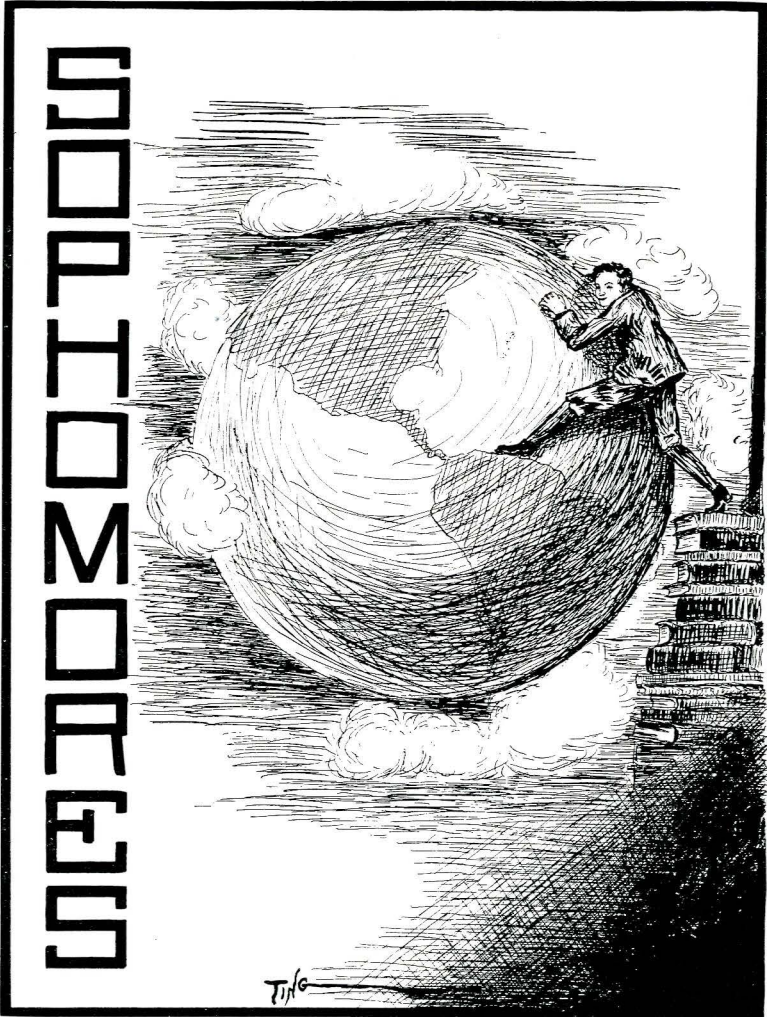

Bluffed his way out of college. His greatest interests—that is his social interests—were not on the hill anyway.

Three cheers for the jolly old Junior bunch,  
Good-natured at breakfast and happy at lunch;  
You'll find them the pushers wherever you go,  
The Boosters, the Ousters, the Stickers and so  
Nine rahs for the jolly old fourteen true,  
The green and the gray for the gold and the blue.

Colors: Maroon and Grey.

Motto: "Go get 'em."

ROBERT T. KELLEY, President  
*Civil Engineering.*

## The Sophomore's Side of the Story

After a wonderful record in the Freshman year, the class of '15 returned to school last fall and immediately began the initiation of the Freshmen into the mysteries of a college education. Our first stunt was to introduce to the girls of the dormitory the boys of the class of '16 in an original minstrel show written especially for the occasion by the play-writers of our class. A few weeks later the '15's huskies easily walked away with the tug-of-war; this being the second time that we have won this event. We lost the annual debate, but we felt that the Freshmen must be given something to write about so we did not complain. In athletics the class of '15 has always been well represented. We have had men on all of the first teams of the institution. Due to the fact that three of our men were on the basketball team we were unable to win the class series and had to be contented with defeating the Freshmen. So far we have made an enviable record and even greater deeds await us in the future.

R. T. K., '15.

# The Freshman Class

## OFFICERS

ALEXANDER CHRISTIE - - President  
GEORGE R. MILBURN - - Vice-President  
VEDA FERGUSON - - Secretary-Treasurer

Colors: Yale Blue and White.

Motto: "No matter how hard it rains,  
the water is always soft."

## As told by a Freshman

If one were to report on the activities of the Freshman class it would be necessary to tell of the activities of the school in general. The Freshmen are represented by some one or more of their number in every activity that exists in the college. They were well represented in athletics. In football they had four men on the regular team and one substitute player. More men turned out from the Freshman class for this kind of sports than from any other class. It is due to the fact that so many of the Freshman huskies were out for football and could not enter into the tug of war contest and class scraps that they lost to the Sophomores. In basketball the Freshmen were also well represented on the regular team. In the class basketball series they tied the Sophomores and the Seniors for second place with a percentage of .33.

The Freshmen not only excel in athletics but also intellectually having defeated the Sophomores in debate by a unanimous decision. They also hold a good record in their class standing having lost but three of their members at the semester finals.

Thesis: The Psychology of Music.

MISS GLADYS GRIFFITH, Bozeman, Montana.

Thesis: The Aesthetics of Piano—Forte Playing.

# Seniors in Pharmacy

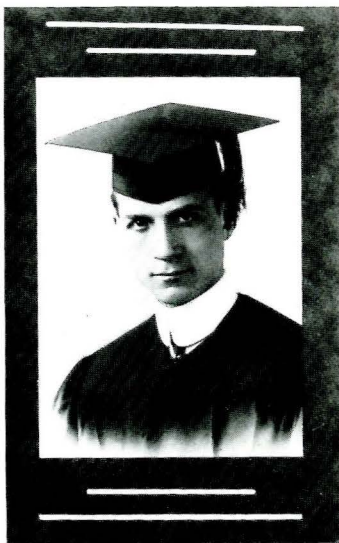

---

## OFFICERS

ROBERT LAPEYRE - - - President  
HAROLD SOLBERG - - - Vice-President  
CLYDE STIEB - - Secretary-Treasurer

Colors: Blue and White.

Motto: "Onward and Upward."

ROBERT LAPEYRE, Great Falls, Montana.

*President Class (2); Les Bouffons (2).*

Bob has been one of the workers on the Montanan this year, having furnished the staff with a number of the best drawings and cartoons appearing in the book. He is a quiet lad but always ready for whatever fun may be going on and usually wants to take a hand in it. Bob is leader of the four whose motto is, "Onward and Upward," and will be found working by that motto in his profession upon graduation.

EARL CONVERSE, Anaconda, Montana.

*Pharmaceutical Society, Secretary Treasurer (1); President (3).*

Mr. Converse, having plenty of time at his command, chose the three-year course in pharmacy and will finish this spring. Is a shy sort of a fellow and no fusser. Maybe the reason is that he has a girl waiting at home for him but this couldn't be so for he would not then have taken the three-year course. "Con" is a man to be counted on when in need of a good booster.

HAROLD G. SOLBERG, Big Timber, Montana.

*Vice-President, Class (2); Member K. N. Club.*

Is one of those quiet fellows who takes care of his own business and bothers no one else's. Is a "shark" at pulling down high grades but has so many good qualities that this don't count greatly against him. Formerly had a double on the hill and this fact often caused some of the girls to speak to him in the halls much to his annoyance. Is a good fellow though and a good pharmonic.

CLYDE STIEB, Hamilton, Montana.

*Yell Leader (2); Stags, Secretary-Treasurer (2); Pharmaceutical Society, Secretary-Treasurer (2); Class, Secretary-Treasurer (2); Band (1), (2); Orchestra (2).*

As a yell leader Stieb is a success. Also as a pharmonic, else he would not receive his sheepskin this spring. Stieb entered with the class two years ago but dropped out. On his return he commenced work with a will, and should make a success in his chosen profession. Stieb is also a bandman and is noted for his slippery performances on the trombone.

This is a one-year course in home science subjects offered for those who do not care to take a regular four-year course. Those enrolling in it must have completed an eighth grade education or its equivalent. Those having completed high school are not urged to take this course, but it offers much of value to those desiring to get a grasp of home science in a short time especially if unable to take a long course.

The members enrolled in the work this year joined with the School of Agriculture and together with them have held several parties, all of which have been most enjoyable and have added much to the social life of those taking either course

# Special Short Courses

---

Along with the regular courses offered at the college are a number of short courses of about a week's duration. These courses are given during the week called Farmer's Week, and attract a large number of people from all parts of the state. This year in addition to the courses offered by the college, seven in number, several farmers' organizations held meetings on the Hill. These proved an added drawing card for the week.

The meetings extended from January 22nd to January 31st, and upwards of two hundred people attended some part of them. Besides the members of the college faculty a number of prominent speakers with national reputations made addresses and a number of meetings of general public interest were held and thrown open to all. In the course eighty or more lectures were given and were divided between the following divisions: home science, horticulture and biology, beekeeping, animal husbandry, veterinary science, farm management and road building. These courses were composed of lectures and demonstrations and were so arranged that any person taking any one course could get all of the lectures and work offered in that particular course, although it was impossible to arrange things so they could attend all of the lectures given during the week. During the afternoon and evening, meetings of general interest were held at which the more prominent speakers made talks.

These general meetings were arranged so that on each day some particular topic would be taken up. The program by days follows: Wednesday, January 22, was Horticultural day; The Montana Horticultural Club held meetings. Talks were given by a large number of practical orchardists of the state and in the evening an illustrated lecture on the Lewis and Clarke expedition through Montana was the principal feature. Music by students of the college was another feature of the evening. Thursday was Good Roads day and the State Grange held a number of meetings. Among the speakers were J. H. Durston and Hon. Oliver Wilson, master of the National Grange. Friday was Co-operation day. Interesting addresses were made by Hon. Perry G. Holden, the famous agricultural philosopher of Iowa, Hon. L. R. Alderman, state superintendent of Oregon, and one of the ablest men in this position in the United States, and O. C. Gregg, one of the best known men in farmer's institute work in the United States.

Saturday was Rural School day and one of the leading features of the day was an address by President J. H. Worst of North Dakota Agricultural college. Sunday was Country Church day. The program was held in one of the churches of the city. Monday was Better Seed day. The leading addresses were made by A. E. Chamberlain, formerly director of Farmer's Institutes in Minnesota, and P. G. Holden. Music was furnished that evening by the college glee clubs and was much appreciated.

Tuesday was devoted to farm homes and was largely filled with topics of interest to the women present. Among the speakers were Mrs. Mary Deem of the Valley City Normal School of North Dakota; Mrs. Alice Peloubet Norton of the University of Chicago, and Joseph E. Wing, one of the best known travelers and agricultural writers in the United States. During the evening the college orchestra furnished music, this being their first appearance. Wednesday was Recreation and Health day and Thursday was Dairy day. A number of prominent speakers took part in the meetings on these two days and the band assisted in the entertainment.

Professor Cooley had general charge of the Country Life conventions and Professor Alfred Atkinson had charge of the courses offered by the college. This is the first year that anything of this magnitude has been attempted and it will undoubtedly be a regular part of the year's program from now on as this farmer's week was most successful.

**IN MEMORIAM**

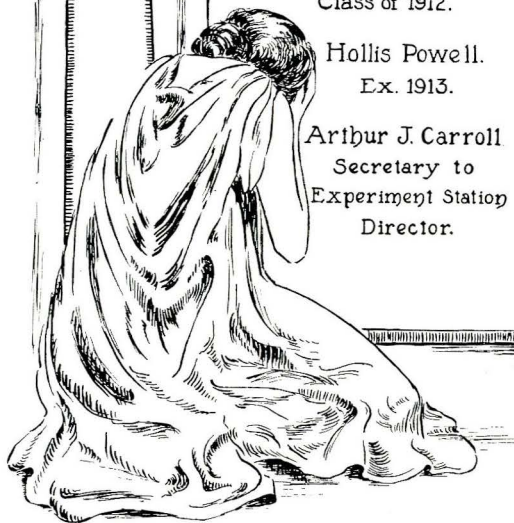

Mrs. F. E. Marshall.  
Former Head of

## The "M" Club

---

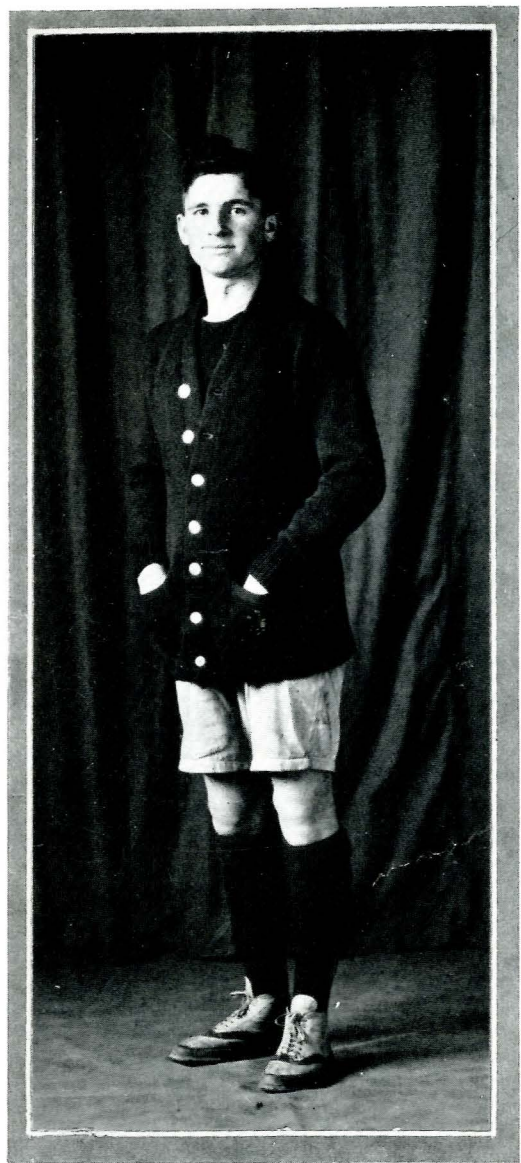

In the fall of 1912 the "M" Club made its appearance. The letter winners of the college may now meet and talk over old war stories of how the trick was turned on the Varsity or how the "U" rubbed the mud in our faces or got a basket more than we intended they should. It is the intention that a feed be given each spring and plans made for the coming year in athletics. Through this club the entertainment of visiting teams can be handled and the lighter questions in athletics be answered. The 1914 Montanan hopes for the greatest success and the highest future for this newest organization.

J. EDWARD HODGSKISS  
*Football Captain.*

"Bing" came back. After three years on the college team he took a Post Course to play his fourth year and captain the 1912 team.

W. BROOKE HARTMAN

*Basketball Captain.*

Captain Hartman commanded the perfect confidence of his team and at all times played a sterling game at either forward or guard.

1914

GEORGE W. BLINN

*Track Captain.*

Besides being a constant point winner, Blinn has that natural ability of putting the fight in every man on the squad. The 1912 track victory was due to that Irish fighting spirit.

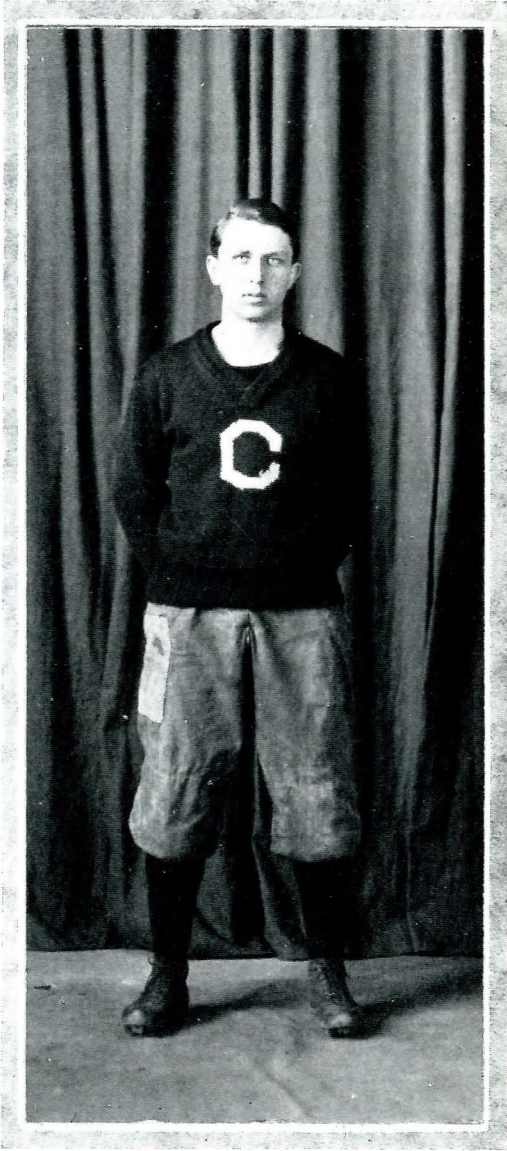

GEORGE M. GOSMAN

*Baseball Captain.*

Like the field the game is played on, Gosman is a rare gem. The team's good is never hampered by a desire for individual glory.

1914

E. A. DOCKSTADER

*Director of Athletics.*

Coming from Colgate University "Doc" has given us the best that is in him. Conscientious, consistent and a hard worker.

# FOOTBALL 1912

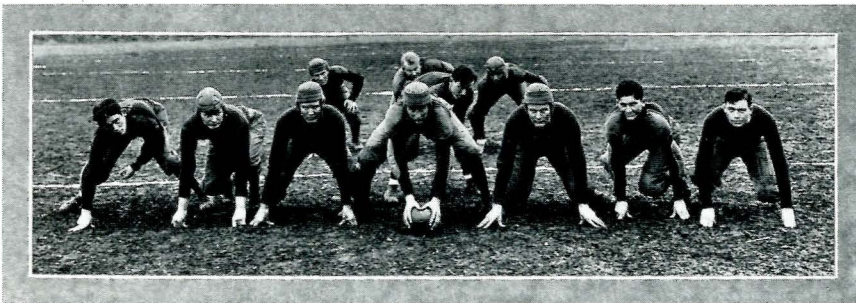

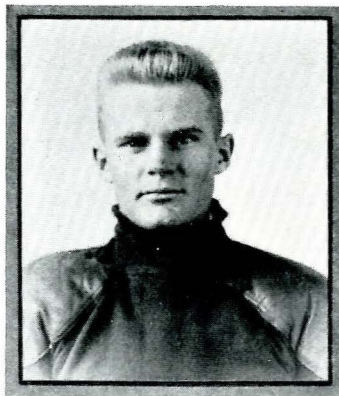

## Season of 1912

The practice season opened at the State College with optimism on all sides. The call for candidates brought out six of last year's team, J. E. Hodgskiss, Truitt, Hartman, Noble, V. S. Connors, and Grimes, and besides these men to build a team about, were such men as Christie, MacDougal, and Osenbrug of the Butte High School, Cotner of Billings High School, Maddox of Kansas Wesleyan, and Heagrey and Carr of the Gallatin team. Things never looked brighter and enthusiasm was never higher with this able material and "Doc" Dockstader on the job for his second season. Never did a squad start practice with better support. Then things started to the bad. Truitt, last year's guard, was ruled out on account of lack of credits and Osenbrug went on the bench with a bad leg. Yet work never slackened and when the team met the university on our home field the whole college and city turned out. It was a game fight that the boys put up and, though defeated by a single touchdown and goal kick, it was a fight from start to finish with the blue and gold playing in the game every minute of the time. There was no one or two men whose playing stood out above the work of the team; they all fought like demons.

The result of the return game on the university's field told a different story. The gold and blue went down to a 37 to 3 defeat with all the subs in the lineup before the game ended. Carr succeeded in boosting the pigskin over from placement for our only score.

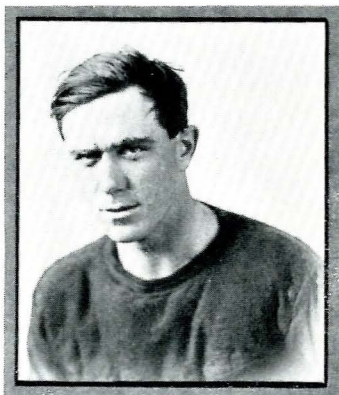

Again we are looking forward to next season with the same hopes that some day we can slip one over on our old rivals as in the days of old.

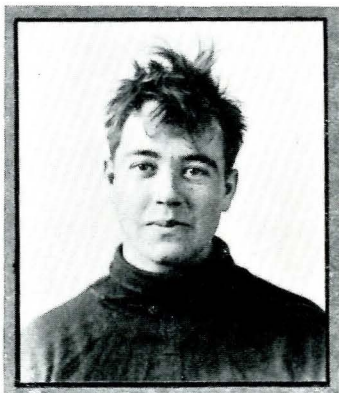

J. EDWARD HODGSKISS, Captain and left tackle.

At the close of the 1911 season "Bing" was elected captain of the 1912 squad and he returned to M. S. C. last fall for post graduate work in order that he might lead the blue and gold on the gridiron. He worked hard and conscientiously with the team and was himself a tower of strength in the line. Montana tackles were exceptionally strong last season but "Bing" was the equal of any in the State. His place will be hard to fill next fall.

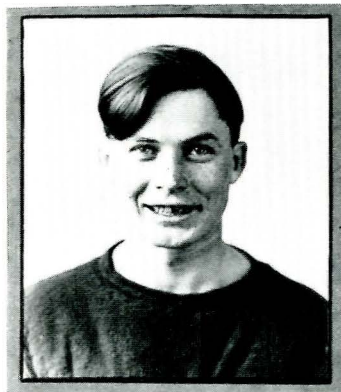

WALTER W. GRIMES, Quarterback.

In 1911 Walt played a good strong game at quarter whenever he got into the lineup. Last fall he came back with more "beef" and plenty of fight. His handicap in weight was made up in his ability to run the team and his work as safety man was good. In the manipulation of the forward pass Grimes was strong and at all times picked out the weak places and hit them at the right time.

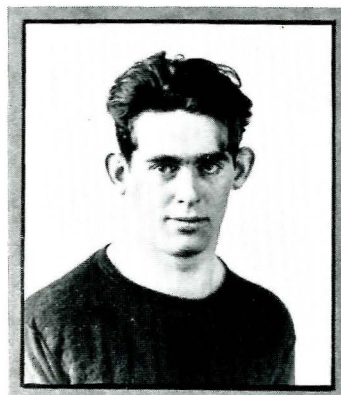

ALEXANDER CHRISTIE, Left end.

In Christie, M. S. C. had one of the best ends in Montana. Hailing from the Butte High School where he received his preliminary training, Alex entered Montana State as a freshman last fall and was immediately assigned a position on the team. Either on the offense or defense he was a valuable man but his defensive work shone most prominently. Sure, hard tackling and speed in getting under punts were his chief virtues.

EDWARD G. NOBLE, Right tackle.

After a season at center, which he played during his freshman year, Ed was shifted to tackle and proceeded to play the same sterling game as he did the previous season. A combination of speed, shiftiness and aggressiveness made him a capable man for the position. Although playing against some of the best men in Montana in that position, Ed was at all times equal to the task and could be depended upon at all times to meet the unexpected. Noble was elected captain of the 1913 team at the close of the season which insures a capable, energetic and determined leader for the Blue and the Gold next fall.

WILLIAM HEAGNEY, Right end.

As a running mate for Christie, M. S. C. had in Heagney another end which the equal of any in the state. Bill had played a stellar game for the Gallatin High and the position which he won was not a new one to him. His versatile attack and his strong defensive playing made him an excellent man under all conditions. Bill's one ambition was to beat the Varsity and with three years yet to play he can be depended upon to do his share in accomplishing that end.

GEORGE M. GOSMAN, Left halfback.

After a triumphal season on the basketball team, Gossy determined to extend his conquests to football and proceeded to grab a job as halfback. His playing through the season stamped him as a speedy, heady and consistent backfield man. While not as valuable in advancing the ball as some of his team-mates, "Ole" showed his worth by his clever and skillful handling of the ball in passes.

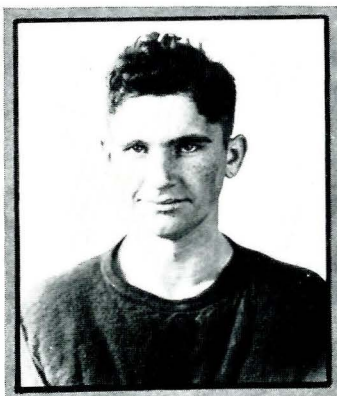

WILLIAM MADDOX, Right halfback.

After a year on the Kansas Wesleyan squad, Bill decided to try his fortunes at M. S. C. and his work in the backfield stamped him as one of the best ground-gainers for the Blue and Gold. Around end or off tackle he seldom failed to advance the ball and when once fairly under way he was a hard man to stop. With two more years to play Maddox should devolep into one of the best halfbacks in the state.

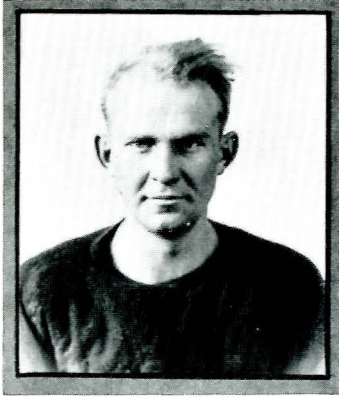

WILLIAM HODGSKISS, Right guard.

After two years on the scrubs, Bill landed a regular position on the team last fall. His weight made him a valuable man on the line and he was in the game every minute doing his best for M. S. C. Bill is still improving and with another year to play he will undoubtedly be one of the best men on Montana State's line.

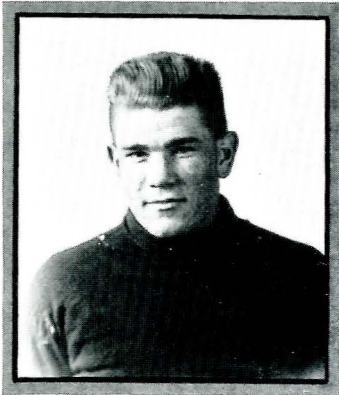

W. BROOKE HARTMAN, Tackle.

Playing tackle or end with equal ability. Brooke was used as a utility linesman on the 1912 aggregation. He was one of the smallest linesmen in the state, but size is not all as some of his opponents can testify, as his shifty and aggressive playing kept many a heavier man continually watching him. Brooke leaves M. S. C. this year and in him the college looses a sterling gridiron warrior.

MYRON L. CARR, Fullback.

Another product of the Gallatin High. Carr came to M. S. C. with the reputation of being one of the best high school fullbacks in the state. His work on the college team fully upheld all previous reports, for he played a marvelous game for the Blue and Gold. When called upon, he seldom failed to carry the ball for a gain and his trusty toe scored the only points for M. S. C. in the second Varsity game. Carr is another man to whom the college will pin her faith next fall.

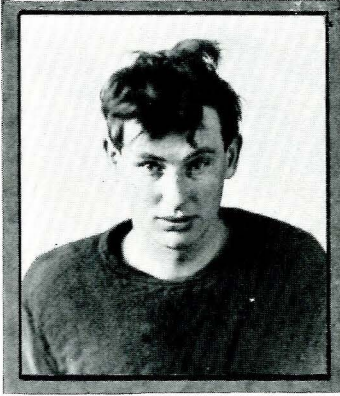

V. S. CONNOR, Halfback.

Built along lines that suggest his nickname, "Pug" he was the best ground gaining back on the team. He was an exceedingly hard man to stop and was never down until buried under an avalanche of players. His defensive work was not quite as strong as when carrying the ball, but he was always in the game working his best. Pug has three years yet to play and in that time there is every reason to believe that he will develop into one of the best backs that ever played for the college.

WILLARD E. ATKINS, Quarterback.

The "Atom," for such he was, weighing only one hundred and twenty-seven pounds, could play the game with any man on the team. He was absolutely fearless in his plays and was ready to take any sort of a chance to aid his team. He helped to instill this spirit in the team and when things were going badly he could be seen fighting the hardest and "quit" was not in his vocabulary.

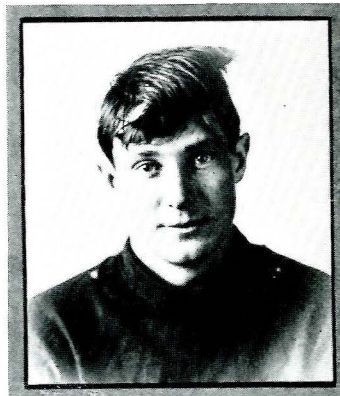

WILLIAM PINK, Center.

Graduating from the subs where he played the year before, Pink filled a regular position on the eleven last fall. His work throughout the season was consistent. His passing of the ball was good and he was a capable man on the defensive. He still has several years to play which secures a valuable linesman for the college.

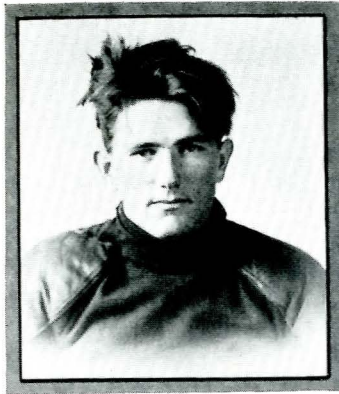

ALBERT OSENBRUG, Guard.

Osenbrug entered school last fall and won a position at guard, where he played for half the season, being forced to quit during the latter part owing to an injury. He showed his ability as a player in the game with the varsity by his magnificent work on the defensive. He will be back again next fall ready to take up his sterling work on the line.

VICTOR COTNER, End.

"Cot" donned football togs and picked out end as the position most suited to his ability. However, unexpected competition for these positions prevented "Vic." from landing a regular berth. The manner in which he handled the forward pass made him a valuable man and with a year's experience, look out for "Cot." this fall.

A. S. CONNOR, Guard.

Connor showed enough last fall to make him a substitute linesman and when given a chance played a strong, steady game. He is another man that a year of experience will greatly aid in making a regular next fall.

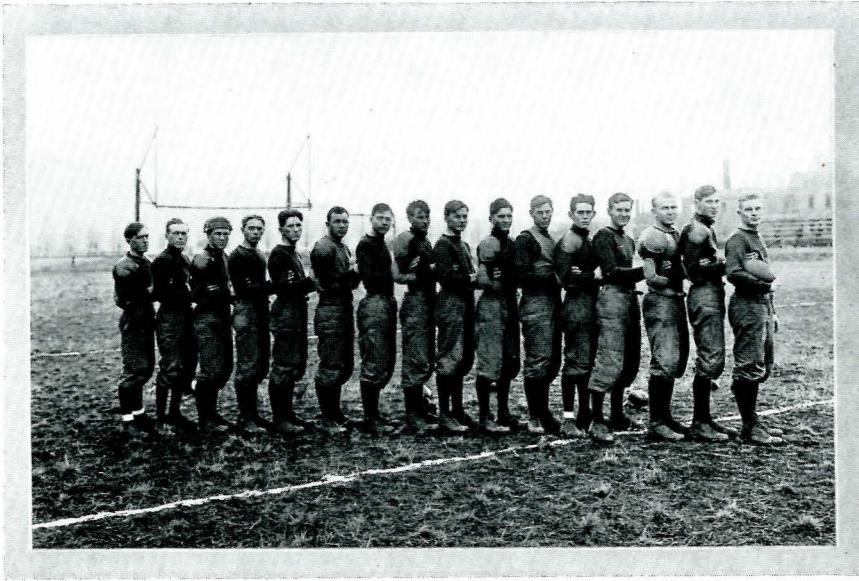

EDWARD JACOBS, Utility.

Like Connor, Jacobs failed to make a regular position owing to the lack of experience. He is strong, fast and heady, and should make a strong bid for a regular position on the 1913 aggregation.

### UNIVERSITY 7, COLLEGE 0

The college lost the first game of the season to the university on a forward pass followed by a series of line bucks, each of which netted substantial gains. Throughout the first half the college outplayed their opponents, although at each time when close enough to try for points the university would brace. Then again in the second half the college came back strong. However, after a few minutes of playing similar to that of the first half, Owsley intercepted a forward pass on the college thirty yard line, several shift plays through one point netted the rest of the distance and the university won the day. Craighead kicked goal. The college held together the rest of the game and no further scoring resulted. Heagney and Christie at the end positions played wonderful ball and Carr and Maddox were always in the fight, while Grimes played the pivot position in good shape.

### UNIVERSITY 39, COLLEGE 3

The second and last game of the season was played Saturday, November 9th at Missoula and the university came off with the big end of the 37 to 3 score. The college started in with fight and for the first few minutes played the better game of the two teams. However, the university soon struck its stride and Owsley got away for a long run around end and a touchdown. The college stayed with the game, however, and pushed the ball down close to the university's goal when Carr made three points on a kick from placement. However, the university had the better of it from this time on and it seemed impossible for the college men to stop their opponents when plowing through the line.

The university had just returned from a trip to Utah and used the experience gained to good advantage. However, what really lost by such an enormous score for the college was the fact the men lost heart when their opponents got away with the first touchdowns.

1914

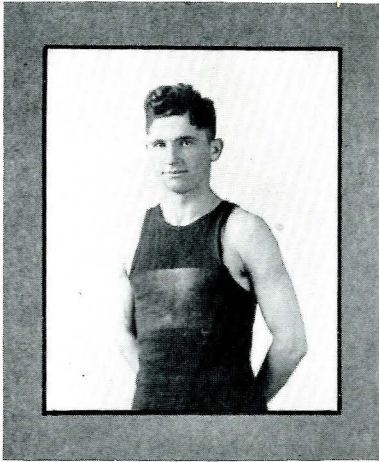

## Basket Ball at Montana State

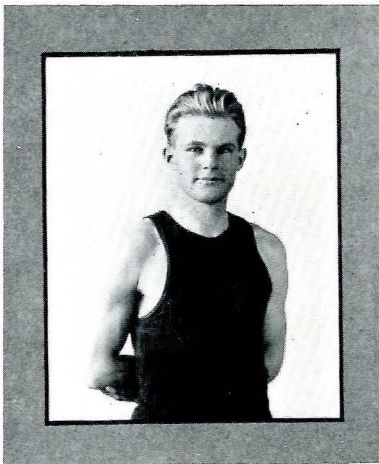

The first notice of basketball at the college was in an Exponent back in 1899. At that time two teams called the "Reds" and "Yellows" were organized and they played three games during the season. In 1901, teams were organized at other schools of the State and since then it has been mostly win, win, win for M. S. C. Since the introduction of the sport, Wesleyan won the championship one year, the college at Deer Lodge another. Outside of this the championship has rested every year at Montana State. The game won by the university this year was the first that was over won by that institution from the college and although that was surprise enough for one season another surprise awaited the students when the same team defeated the Triple B's on the college basketball floor. This was the first college team to win a victory over the Billings aggregation, and in fact it was the first Montana team to win from them. Although the season has not been the brightest the fact that the college won the above game and the state intercollegiate championship helped a great deal and now all that can be done is to see that a better showing is made in the field next year.

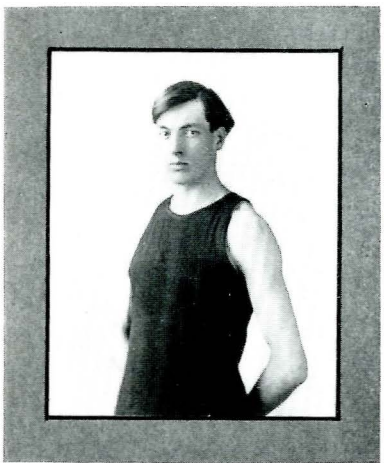

BROOKE HARTMAN, Captain.

After annexing the championship for the seventh successive time in 1912, Brooke was again selected to captain the five this year. Owing to his versatile ability he played both guard and forward during the season with equal success. His determination and fighting spirit tided the team over many a tight place and due to these qualities he held the complete confidence of the five. M. S. C. will say good-bye to Brooke this year and in him she loses a captain and player whose place will be hard to fill.

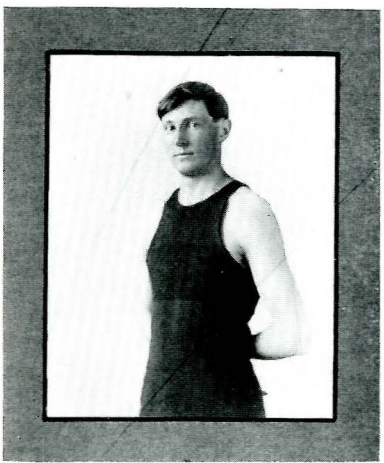

J. EDWARD HODGSKISS, Guard.

Although "Bing's" aspirations as a basketball player were never very high, he was persuaded to don a suit to fill a place after the first disastrous defeat last year. The applause which greeted him upon his first appearance has never died; for Bing plays a better game every time out, and his worth as a guard is unestimable. When there were any "big" fellows to be taken care of he was right on the job and his whole enjoyment in the game seems to be in trying his favorite holds on some opposing player. To find a player of equal strength, endurance and speed will be difficult, for "Bing" leaves M. S. C. this year.

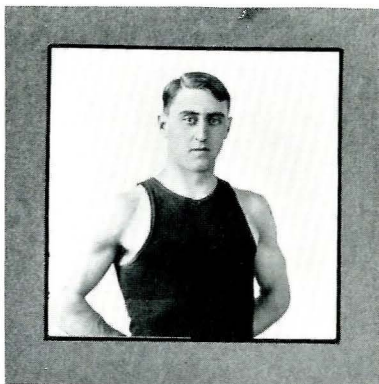

MAXWELL WILCOMB, Center.

Although handicapped somewhat by sickness early in the season, "Slim" pulled through with flying colors and finished up in whirlwind style. Slim is one player who has few "off" nights and on account of this consistent work he was one of the most dependable men on the team. His extreme height gave his team the advantage of being able to get the jump, which accounts for many of the signal plays worked during the season. The highest tribute that can be paid to his playing is to say that every rooter in the school hails his appearance on the floor with delight.

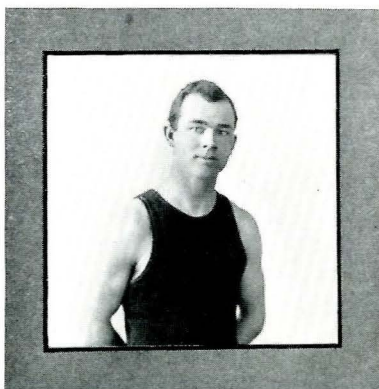

VICTOR COTNER, Forward.

After winning the highest possible honors in interscholastic basketball, "Vic." gained new laurels during his first year at M. S. C. by playing a wonderful game at forward. His dazzling speed, wonderful passing and basket shooting proved to be too much for every guard that played against him and when the individual scores of the season were counted up, "Vic." lead the Blue and Gold scorers. At no time did he sacrifice team work for individual playing and this was one of the factors that counted so heavily in his success. With three years yet to play any predictions may fail to tell of his phenomenal success on the basketball floor.

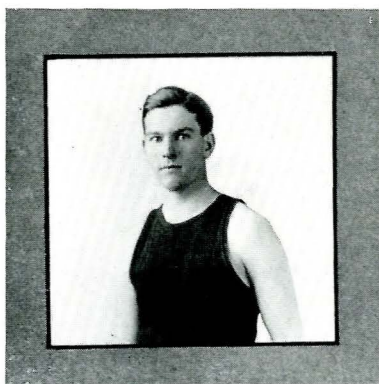

WILLIAM FLUHR, Forward.

"Bill" played his first game of college basketball with Montana State and his work through the season was of first class order. Bill loved to hear the crowd cheer when he heaved a basket from near the center of the field and this sometimes lead him to sacrifice team work for long shots. These slips did not occur very often, however, and as a determined, hard working player Bill has few equals.

WILLIAM MADDOX, Guard.

"Bill" began his basketball career at M. S. C. as a sub on the first team. About the middle of the season he was given a regular berth as guard and his work in the Triple B game and Varsity game stamps him as an excellent guard. His best game is played when fighting for the ball and although he was able to handle his share of the team work, his defensive playing was much the better. With two years yet to play the college is assured of a good guard for some time.

MORTIMER LOTT, Forward.

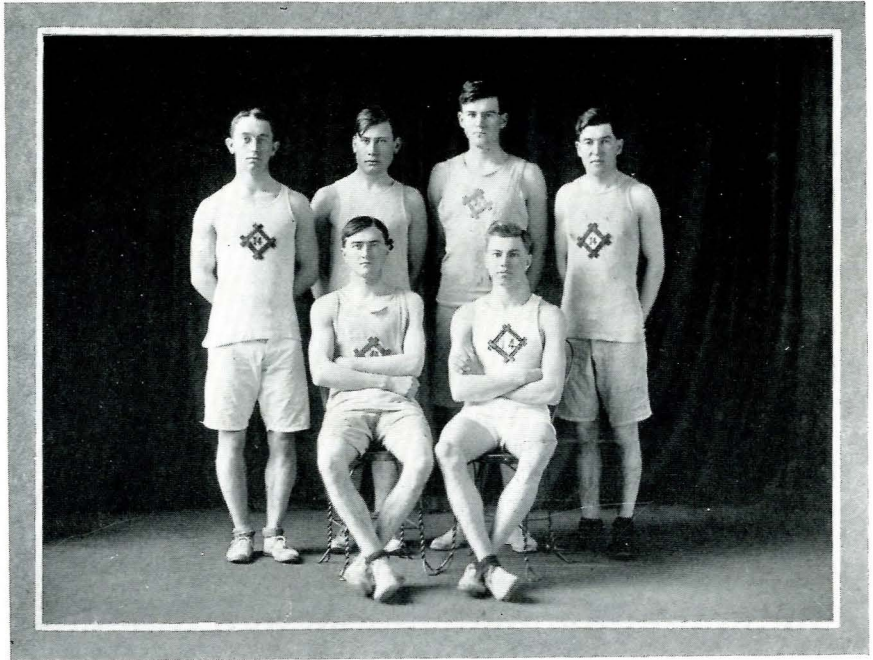

Lott was the reserve man on the 1913 aggregation, but when given a chance he never failed to make good. Although somewhat weak in playing the floor he was a "shark" on baskets and very few of his attempts at the netting went wide of their mark. His work in the second Varsity game was of high order, scoring nearly all of the points made by the team. With such men as Lott to fill vacancies, losses by graduation will not fall so heavily on the team.

# Season, 1913

Wednesday, December 11th, the college five were given the first public workout when coach Dockstader sent his proteges against the Carroll Club of Helena. Although the first game of the season it was even slower than anticipated and if a barrel had been used instead of a basket it is doubtful if the college forwards would have been able to find it consistently. When the forty minutes of playing were finally up the score stood 31 to 17 in favor of the college. Extra sized hats were ordered by all the men next morning, and even when a schedule was announced against some of the best Wyoming and eastern Montana fives the players failed to see where they could lose a game. Just for the sake of making this book a complete record of college activities during the year, do we mention the scores of these games. The first was lost to the Cowley aggregation by a score of 32 to 19. Lovell played rings around the college and won 23 to 9. By this time it dawned upon the blue and gold quint that they were not the champions of the world and they went against the famous Triple B's for the last game of the trip fully determined to redeem their former defeats. Wilcomb was able to get back in the game against the Sugar Beeters and his presence seemed to add new life to the team. In a game that was a whirlwind from whistle to whistle, and in which the college led until the last few minutes, the Triple B's nosed them out by a score of 33 to 21.

After a two weeks rest during the holidays the college quint limbered up on the Helena athletics, easily winning the game by a score of 32 to 16. The Varsity was next and the outcome of that game will long be remembered by the student body of M. S. C. With the team apparently working at its best and all of the men in fine shape, a rather easy victory was looked for. When a score of 19 to 16 was announced against the college, the students were long to awake to the fact that the college had been trounced by the Varsity for the first time in basketball. The defeating of the Carroll Club the next evening by a score of 56 to 25 failed to atone for the defeat at the hands of the university. The next game was played with the University of Utah, and the college was in anything but the best of condition for that game. Although flashes of their regular form was shown at times, they seemed unable to get into the contest with the proper spirit and Utah walked all over them to the tune of 41 to 19. Second only to the surprise of the defeat by the Varsity was the result of the game with the Triple B's played in Bozeman. Even the most ardent supporters of the college five predicted a score of two or three to one in favor of the Billings aggregation. In a complete reversal of form over the previous week the college machine got busy and in the fastest forty minutes of basketball that was ever played at Montana State the blue and gold emerged victors by a score of 19 to 17. Cotner, originally from the city of Sugar Beets, did most of the scoring for the college in this game, making eleven points for his team. Every man on the five played the game of his life and there were absolutely no weak points in the whole lineup. This was the first time the Billings team was ever defeated by a college team. The next game away from home this season was played with the Helena Independents. The college had little trouble in winning from the Senators by a one-sided score of 51 to 11. The Varsity made their appearance in Bozeman on March 8th for the second game with the college. Although it was the poorest exhibition of basketball played by the college during the year they won from the Varsity, 24 to 17. Bing was the only man on the whole team that played anywhere near his usual form, and this fact somewhat accounts for the closeness of the score.

The championship game between the university and college was played March 21 in Helena, the college winning eight consecutive championships by a score of 24 to 18.

Sophomores .....	1	2	333
Freshmen .....	1	2	333

# The Games

---

The Juniors won the interclass basketball championship for the second consecutive year by defeating each of the three other class teams. The Juniors played three games and had four points more than their opponents in these games. This leads most people to say it was luck that won for them and undoubtedly it was, but the fact remains the same. Who stands second in the race would be hard to say for first the Seniors won from the Sophomores, then the Freshmen won from the Seniors and in the last game, the Sophomores won from the Freshmen.

In the first game of the series, the Sophomores lost to the Seniors by a single field basket. The game was fast and rough. The lower classmen took the lead and held it to the end of the half. Then presto and the Seniors covered their men and played better ball, winning by a score of nine to seven.

That same afternoon, February 14th, the Juniors won their first game from the Freshmen by ten to eight. At the end of the regular time the score was tied at eight and additional time was needed when Kenck slipped up and made the deciding toss. The game was one in which guarding was the feature, neither side getting opportunity for many easy throws.

On the afternoon of February 21st, the next two games were played. In the first the Freshmen won from the Seniors with a score of 19 to 8, the largest of the series. In the first half the game was slow and at the end the Freshmen led by two points. They then warmed up and during the second half played rings around their opponents.

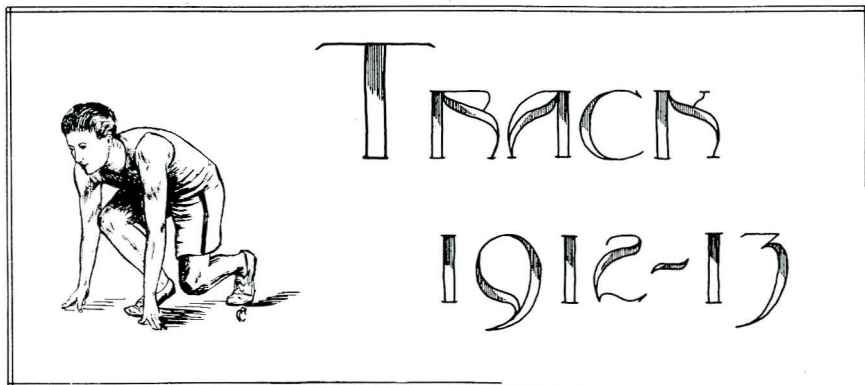

The second game of the afternoon was won by another horseshoe for the Juniors, the score at the end being, Juniors 7, Sophomores 6. This game was also slow. At the close of the half, the Juniors led by a single point, the score standing five to four. Then the lower classmen came back to win and within a few minutes tied the score and then led by a single point. It looked as though the game would be one of passing the ball throughout this half but just before the whistle blew, the Juniors by a burst of speed got away for a basket and the game.

In the first game of the last day, February 28th, the Juniors won from the Seniors by a score of eleven to ten and thereby won the championship. The game was one of the best of the series as well as one of the roughest. First the Juniors secured four points to the Seniors none, then the Seniors tied their opponents and just as time was called, Spain added another to the Juniors on a free throw. The second half was a repetition of the first with one team a point ahead and then the other, the Juniors being fortunate in having the point on their side when the whistle blew.

The last game was won by the Sophomores after the lower classmen thought they had the game won. The score was 19 to 14. The Sophomores made the first basket followed by four for the Freshmen. It looked easy for the lower classmen but probably due to this, the Sophs got busy and were but a point behind at the end of the half, the score being 14 to 13. In the second half the Freshmen were shut out and the Sophs added three field baskets to their score.

1914

## Track at Montana State

Owing to the wet spring weather at Bozeman, the college has been unable as a rule to whip a good enough team into shape to win from their other State rivals. However, not daunted by weather the boys and coach Dockstader set about to do this very thing last spring and they did. They commenced training rather late and were handicapped by the weather. Everyone turned in to help. Three times during training season, the snow was shoveled off the track that the boys might run. The whole atmosphere seemed charged with the spirit that the college must win. Plans were made for a big celebration, the spike in the cannon was drilled out and a large crowd of students were at the train to see the boys off. How could the team resist the spirit? They could not and they won by a margin of ten points. From the very first they led sometimes by few and at times by many points.

The collegians clearly had the university men outclassed and out of the fourteen events took nine firsts. Blinn got away in the quarter after losing the two twenty which was his race. Atkins secured a first in the half and Schumacher in the mile with Morgan adding five points in the two-mile race. The hurdles both went to the college, Kenck taking the high and Vestal the low. Davis made the hammer throw and Wilcomb was first in the discus. Brabrook made the first position in the high jump.

And when the telegraph wires clicked off the final score Montana State College 68, University of Montana 58, there was joy in Bozeman. The cannon was fired, walks were burned and spirits flowed free.

Training is again commenced for the track meet this spring and although the college is greatly handicapped by the loss of Captain Blinn and several of the other sure point winners are gone, things point to a mighty successful season as the Freshmen boast of a number of good men and there are others who have developed since last year. But most important of all the men are out to fight it out as they did last year.

*Start 1 Mile Run*

*Finish 1 Mile Run - Schumacher*

# “M” Men In Track

GEORGE W. BLINN, Captain.

After a fine showing in 1911, George was elected captain of the 1912 track team. A better choice could not have been made, for besides being a crack sprinter, Blinn had that Irish fighting spirit that stimulated his team mates and urged nine different men to win their events. Blinn won the 440 in fine style and pushed his men in the 220 and 100 yard dashes.

RALPH S. BRABROOK.

Having had four years of experience in high school at Rockford, Illinois, “Bra” came to M. S. C. well prepared to put up a strong bid for track honors. Last spring he went into the state meet determined to land several points and none of us were disappointed. First place in the high jump was taken easily. Kenck was pushed in the high hurdles and won by only a hair over “Bra.” In the broad jump Ralph took second a fraction behind the winner. A clean athlete and a good sportsman describes him well.

JOSEPH D. MORGAN.

For an example of bulldog tenacity and consistent training Joe Morgan may well be placed in the lime light. For four years Joe worked out on the cinders, each year gaining in strength and speed. In 1912 the realization that this was his last year stimulated the little two-miler and the style in which he ground off the distance won much applause for him. Setting a pace that placed him in the lead from the start, Joe never changed his stride and after the finish he seemed to regret that his race was over even though he had won a ripping good victory.

W. B. VESTAL, Jr.

Vestal wandered into Montana from the Hoosier State, coming with some experience in track and a natural desire to run. After hobbling over several flights of low hurdles in 1911 he came back on the job again in 1912, maybe a little more infirm and a little more bald, yet in fair form, managing to lead the field at the state meet.

MAX KENCK.

Max received his early training in the high hurdles in the Butte High School. When the migration to the cinders began Max was among the leaders and stayed on the job throughout the season. From the crack of the gun at Missoula, Kenck led the race in the high hurdles and won by a fighting finish over a team mate. Kenck is conscientious and a hard worker. We may well expect much from him this spring.

## WILBUR SCHUMACHER.

A good little distance man coming to us from the University of Oregon. Schumacher knows the game and plays it well. The mile is his race and he runs it like clock work. He took his event at the state meet with plenty of margin to spare, finished strong and entered the two-mile event immediately after his race. This lad will come out strong this spring and will bid for a place in his race.

## MAX WILCOMB.

A first year man from the Dillon High School. Good, not from any past history but from the class he shows at present. In the dual meet last spring he won the discus throw easily with plenty of margin. The tangential force with which the discus leaves that long arm of Max's is just about right to win. Max will be out strong this spring and we all look for him to add several feet to his last season's hurl.

## LEON DAVIS.

Leon was not only a good weight man but one of the best liked men in the '15 class. At the meet with the University, Leon easily carried off the honors in the hammer throw and it is said that he enjoyed the meet in general more than any other member of the team. It is to be regretted that Davis is not with us again this spring as his absence from the team will necessitate the development of a new man to take his place in the weights.

## WILLARD E. ATKINS.

The "Atom" is an old hand at the game and runs a heady race from start to finish. The 880 yard run is his favorite race and in the state dual meet he showed his ability in the middle distance event, winning by a good fifty yards. "At" is the proud possessor of one hundred twenty-eight pounds avoirdupois but his race was won on confidence. The loss of this little man will be keenly felt this spring in track work.

# MUTT AND JEFF Track Meet

Friday  
Afternoon  
3:30

# Third Interscholastic Basket Ball Tournament

Held Under Auspices of Montana State College, March 6th, 7th and 8th.

## FORMER TOURNAMENTS.

The third annual interscholastic basketball tournament was held at Montana State College March 6th, 7th and 8th of this year. This event, which is one of the leading events of the year among the high schools of the state, was begun three years ago. It was felt that there was a need of having something that would draw a number of high school students to Montana State each year in order that they might become better acquainted with each other and Montana State. It was further felt that such an event might be the means of inducing many a student to continue his education on the completion of his high school course.

Accordingly plans for this first tournament were made before Christmas, as it was seen that the undertaking was one of enormous magnitude. And it was rather discouraging for it seemed as though it would be impossible to raise the necessary funds. However the Booster Club was thoroughly aroused and with the aid of members of the faculty the town and the students were canvassed with the result that funds were pledged and the invitations sent out. However it was too late for all the high schools to prepare for the event and that year the college entertained sixteen teams at the meet which was held March 2, 3 and 4.

The first preliminary games were held Thursday, the second round and semi-finals Friday, and the final game was played off Saturday afternoon. Billings carried off the first honors with Anaconda second. Granite and Flathead were given the bronze medals as they were the ones to compete in the semi-finals.

The success of that first basketball tournament eclipsed the dreams of its most sanguine supporters and all who took part in it or attended seemed to have enjoyed the event thoroughly so it was immediately decided to plan for a better and bigger event than ever for the next year. And the high schools of the state planned for the same.

Twenty-four high schools appeared the next time to compete for the championship and the cup, and the teams were better trained than the year before. Every one of them was here to fight it out for the cup. However, after twenty-four games had been played, Anaconda was declared the winners, having won from the team representing the Flathead County High School. Butte and Helena got as far as the semi-finals that year.

This year twenty-six high schools appeared for the event. The visitors commenced to arrive Wednesday afternoon, March 5. The first of the preliminary games was played off Thursday afternoon and evening. The next day more were played off in the forenoon, afternoon and evening. Saturday morning the visitors made an inspection of the college grounds and buildings and later the semi-finals were played off. In the afternoon the extemporaneous speaking contest was held, and in the evening the final game was played giving Sweet Grass County High School the championship and the cup. Billings placed second with Helena and Anaconda playing in the semi-finals against these two teams.

Everything went off most satisfactorily except that the College was unable to properly accomodate the crowds that appeared for some of the games. And now it is hoped that even a better meet may be held next year.

1919

### THE WINNERS

After playing five games Sweet Grass County High School was able to claim the championship at the third interscholastic tournament. Their first game was with Flathead. When time was called the score stood tied at fifteen. Seven minutes were necessary to play off the tie, Sweet Grass scoring three points in this time. Then they were declared victors over Fergus and Missoula and entered the semi-finals against Anaconda, winning from them by a score of 23 to 10. The last game was with Billings and it appeared during the first half that the Sweet Grass lads would lose out here. However, by a brace in the last quarter and some whirlwind basketball they bewildered the Billings team and the final score stood, Sweet Grass 26, Billings 14.

The team won by team work of high order, coupled with brilliant work on the part of each individual player. Kress and Lamb at forward were sure shots and able to get away from most guards. Esp had the jump on every center he played and Hoyem and Pound at the guard positions covered their men every minute of play.

### BILLINGS HIGH

After winning the first tournament and losing out in the first round of finals at the second, the Billings High aggregation came back to win their lost laurels this year.

In the first contest of the meet, Billings met their old time rivals, the Butte High team. Billings scored a good lead during the first half and the Butte lads came back fighting mad and played like demons, all but recovering the lead. The final score stood, Billings 15, Butte 14. The Sugar Beeters next met Gallatin and then Chinook, winning each game easily. They then barely nosed Helena out of the long end of the score in the first of the final games, which ended with a score of 23 to 22. In the final game they lost to the Sweet Grass team.

The individual work of the Billings men was excellent, although they did not show the cool headedness of the winners of the meet when losing. Allen rarely missed a try for a basket and Goucher played a wonderful game at forward, although held to a single basket in the last game. Branger was good at center. Nelson played a wonderful floor game at guard and Chrysler covered his men well, rarely letting them get a try for a basket.

# Third Annual Interscholastic Basket Ball Tournament

March 6th, 7th and 8th.

## TEAMS COMPETING

Anaconda High School, Anaconda.  
Beaverhead County High School, Dillon.  
Belt Valley High School, Belt.  
Billings High School, Billings.  
Broad Water County High School,  
Townsend.  
Butte High School, Butte.  
Carbon County High School, Red Lodge.  
Chinook High School, Chinook.  
Columbus High School, Columbus.  
Dawson County High School, Glendive.  
Fergus County High School, Lewistown.  
Flathead County High School, Kalispel.  
Forsyth High School, Forsyth.  
Gallatin County High School, Bozeman.

Granite County High School, Phillips-  
burg.  
Great Falls High School, Great Falls.  
Havre High School, Havre.  
Helena High School, Helena.  
Jefferson County High School, Boulder.  
Missoula County High School, Missoula.  
Park County High School, Livingston.  
Pony High School, Pony.  
Powell County High School, Deer Dodge.  
Stevensville High School, Stevensville.  
Sweet Grass County High School, Big  
Timber.  
Teton County High School, Choteau.

## RECORDS.

### First Round of Preliminaries.

Billings 15, Butte 14.  
Fergus 23, Powell 12.  
Helena 26, Teton 4.  
Great Falls 26, Stevensville 10.  
Carbon 19, Belt 4.

Missoula 18, Columbus 7.  
Sweet Grass 18, Flathead 15.  
Park 32, Broadwater 8.  
Anaconda 17, Granite 9.  
Beaverhead 20, Havre 6.

### Second Round of Preliminaries.

Anaconda 32, Great Falls 16.  
Carbon 25, Beaverhead 8.  
Sweet Grass 33, Fergus 20.  
Chinook 14, Park 9.

Forsyth 32, Pony 2.  
Helena 23, Dawson 16.  
Missoula 35, Jefferson 4.  
Billings 32, Gallatin 3.

### First Round of Finals.

Sweet Grass 18, Missoula 14.  
Helena 26, Carbon 9.

Anaconda 28, Forsyth 10.  
Billings 26, Chinook 7.

### Semi-Finals.

Billings 23, Helena 22.

Sweet Grass 23, Anaconda 10.

### Final for Championship

Sweet Grass 26, Billings 14.

# The 1914 Montanan

STAFF.

WILLIAM B. VESTAL	- - -	Editor-in-Chief
SELMER H. SOLBERG	- - -	Assistant Editor
FREDERICK W. SCHUMACHER	-	Business Manager
CLARA FLANDERS	- - -	Associate Editor
RAUSIE ROECHER	- - -	Associate Editor
VIE VALLEAU	- - -	Associate Editor
MILDRED ECKLES	- - -	Associate Editor

The first year book of Montana State College appeared seven years ago in the spring of 1906. Then, as now, it was published by a staff selected from the members of the Junior class.

The first annual went under the name "The Blue and the Gold." It was a modest little volume of 150 pages and was edited by James A. Peterson with Wilbur Robinson as business manager, Phoebe Morgan as associate editor and Carl Gottschalck as cartoonist. Since then each junior class has put out a year book. The second volume went under the name of "Montanian" and was published by Orville S. Peters. The next year the name of the book was changed to Montanan and since then Montanans have been published by Eugene Quaw, Elmer J. Williams, Charles H. Draper and Frank McGuire. Each year since its foundation the book has shown great improvement.

As to the book itself, little need be said. It is intended to be a record of the happenings of each year, showing the lighter as well as the more serious sides of a college education. It is also a record of the advancement of the college from year to year, showing the new enterprises undertaken, the new clubs and organizations started and the athletic progress of the year, along with a fair record of each person's achievements and failings.

The publication of the book is no small enterprise in itself, as it requires in the neighborhood of fourteen or fifteen hundred dollars to finance it and requires no small part of the editorial staff's time. The work commences in the spring of the sophomore year and for one year there is nothing but work. Then the members of the staff join in the chorus of the little song entitled, "Never Again!"

1914

# The Weekly Exponent

## STAFF

SELMER H. SOLBERG '14	-	-	-	-	-	Editor-in-Chief
FRED E. GORDON '13	-	-	-	-	-	Business Manager
LYNDALL P. DAVIDSON '15	-	-	-	-	-	Managing Editor
J. ERNEST BORDER '15	-	-	-	-	-	Circulation Manager
ROY E. MALSOR '15	-	-	-	-	-	Assistant Business Manager
HARRELL H. HIBBARD '16	-	-	-	-	-	Assistant Business Manager
RHODA DAWES '13	-	-	-	-	-	Intercollegiate Editor
ROBERT T. KELLEY '15	-	-	-	-	-	Athletic Reporter
R. LESLIE PETTIGREW '13, CHARLES A. WHIPPLE '15,						
MYRTLE ALDERSON '13, A. PAUL THOMPSON '15						General Reporters

The Exponent, now published each week, was founded as a monthly paper away back in 1891. At first the paper was published by members of the faculty and was intended more as a literary production than as a newspaper. Very soon, however, the paper went into the hands of students. It contained from twenty to thirty pages, each about the size of a page of this volume. As time went on but few changes were made in the paper. Each editor, however, made the publication a better one with bright covers, attractive stories, and cuts.

Then in the fall of 1909 the staff held a series of meetings for the purpose of discussing the feasibility of printing a Weekly Exponent. There were many difficulties to be met. However, on the morning of January 7, 1910, the first issue of the Weekly Exponent made its appearance following Assembly. The first paper was a four-column, fourteen-inch sheet and was met with great approval. Another issue of this size was put out and then the great demand for advertising space and the amount of news that had to be left out caused the staff to enlarge the paper to a five-column, eighteen-inch paper. It remained this size for the remainder of that year. However, next fall it was again enlarged, this time to its present size of six columns, twenty inches long. This monthly was continued in the form of a supplement after the weekly was founded, but owing to the lack of interest and finances this was abandoned last spring.

June Hartman, '11, was first editor of the weekly, Charles H. Draper, '12, being managing editor and Edgar Allen, '11, business manager. The next two years the paper was edited by Charles H. Draper, '12, with Charles Hansen as business manager, and for the past year has been cared for by Selmer H. Solberg, '14, as editor and Fred E. Gordon, '13, as business manager.

As a means of securing valuable experience, work on this enterprise is of inestimable worth. It demands a large amount of time and attention of those comprising the staff and the work is entirely of a voluntary nature, no remuneration being connected with staff positions. However, the practical worth of the work has always attracted enough to properly care for the publication.

## Y. W. C. A. Cook Book

---

Two years ago the Y. W. C. A. hit upon a new idea for raising funds with which to partly defray the expenses of sending representatives of the organization to the summer conference. That idea was to issue a cook book of recipes gathered from the college girls and others connected in some way with the institution. The first book met with an enormous sale and the advertising space was well filled. In short the book was a success in every way and helped to fill the coffers of the organization with funds.

It was not thought best to put a cook book out each year, however, so last year the idea was dropped. This year, however, a second book, larger and better than the first was prepared by the young ladies of the organization and placed on sale in the middle of February. It had been hoped to put the book out before the holidays, but owing to delays in the printing, this was impossible. The book this year was five by seven and a half inches in size and contained a hundred pages of recipes, furnished by members of the student body, for the most part by girls although in one or two instances the young men of the school handed in recipes in order to show that they would make good "husbandettes."

The publishing of the book is one of the best enterprises undertaken by the girls of the institution and means a great amount of work for those in charge. At the same time they derive a great deal of pleasure and valuable experience from it.

# The Debate Council

I. T. GILRUTH, Debate Coach.

## OFFICERS.

LYNDALL P. DAVIDSON  
President.

KYLE JONES  
Vice-President.

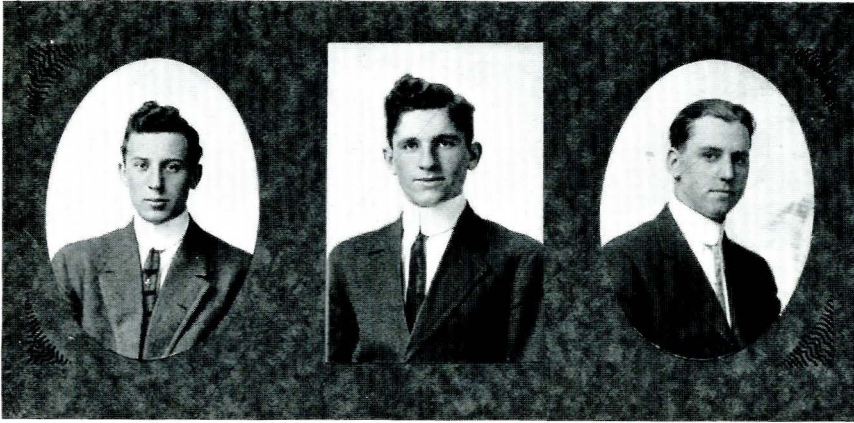

MYRTLE ALDERSON  
Secretary-Treasurer.

## MEMBERS.

Myrtle Alderson	Kyle Jones
Lyndall Davidson	Joe Morgan
Mildred Eckles	Selmer Solberg
Fred Gordon	Leroy Willey
J. E. Hodgskiss	Roy Clark.

The purpose of the Debate Council is to make arrangements for debates and other literary activities carried on at the college. This was formerly done by the Arena Literary Society and a little history of that organization may be of interest.

The Arena was the first college organization founded in Montana, the date of its birth being the fall of 1893. Both men and women were eligible to membership and great interest in the organization was taken. Then in 1896 the girls left the Arena and founded the Clonian which went the way of all literary societies at M. S. C. in 1901. Three years later the Hamiltonia was organized by the girls but in 1909 they again joined the Arena. The Arena was now too far gone though to be revived, and so in the spring of 1911 the work of a literary nature that had to be cared for was placed in the hands of the Debate Council.

## Debate Squad

### ALFRED M. EBERLE

As we rush to press we remember that the debate with the University of Montana occurs in the very near future. One member of M. S. C.'s team will be Eberle.

Now, Eberle is above all else, a talker. True at the present writing he has never defended the college against a foreign foe in debate, but he is well and favorably known to the Sophomores at least as the member of their Public Speaking class who always took up half of the hour to prevent the necessity of flunking on the part of others who had not had the privilege of long residence in either Butte or Bozeman, the cities that develop the extemporaneous speakers.

We have remarked that Eberle is above all a talker—well he talks sense, and an exceptionally good voice, a faultless presence, a pleasing manner and a never fading smile make him a very safe person to entrust with the platform reputation of M. S. C.

### BROOKE HARTMAN

After the strain and stress of guiding the destinies of the Woodrow Wilson Club through the campaign and electing his man Brooke began to look around to see what other worlds were needing conquering. He had already completed a highly creditable connection with the football team, had ordered the basketball championship to be delivered to the hill in regular form, so he put his shoulder to the wheel and began to help on debate.

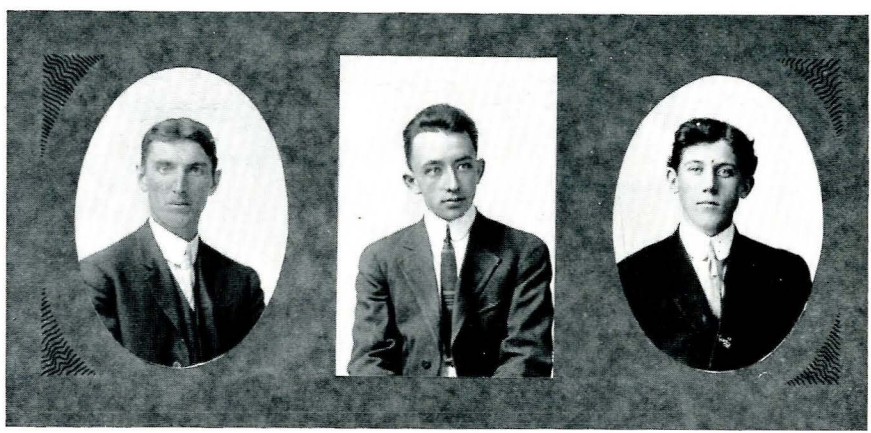

It was unavoidable, you see, that Brooke should sooner or later become a public speaker—he is a Hartman.

Brooke and Steel face our hardest debate problem this year; they leave home and meet the Helena people on their own platform. Wesleyan is an unknown quantity this year but Brooke is an old campaigner among the enemy and to his ability as a debater he adds the wariness and strategy born of many contests. We expect that he and Steel will return with the scalps from Helena.

### ROWLAND W. HAEGELE

Haegele could not be persuaded to come out of retirement last year, but a summer on the plains of Wyoming has in some unaccountable way made him talkative. At present he is slated to help Linfield with the Mormons.

As a debater Haegele's qualities are evenly balanced, but any special emphasis that you have you may place on his clearness and smoothness. He is as pleasing on the platform as he is on the campus and this is plenty pleasing. It was said of the immortal William that he formed his first associations with actors by holding their horses out in front of the play house.

## Debate Squad—Continued

We do not suppose that Rowland ever held such but we doubt not that since he hails from Helena the home of politicians and the rendezvous on either side of any question, he is but proving true to his training in turning debater.

### ALFRED LINFIELD

If you were to ask this debater what is the biggest word in the language, the answer would be "logic." Now, Linfield is logical or he isn't anything, and he doesn't care to speak unless it can be done logically.

Being logical and fluent Linfield is convincing and this quality we shall soon depend on to win for us in the debate with the Mormons from Logan, Utah. Like Eberle, Linfield was one of the strong contestants in the local oratorical contest last year and this year will be twice as good. Whatever else may be said about this debater he knows what he thinks and why.

Linfield is a member of the Class of 1915 and so will be heard from again before leaving.

### A. PAUL THOMPSON

Thompson is the other member of that Missoula team and like Eberle he is strong on the talk. He has not had the advantage of long residence in the Copper City but he does hail from Leadville, Colorado and there must be some incentive there to talk for the Thompson family, though new to M. S. C., has already walked away from one contest with the prize.

When it comes to platform presence we will have to admit that Eberle has curlier hair than Thompson but as to other qualities they stack up pretty evenly. Thompson's voice is clear and strong and his information on public affairs is quite extensive. Besides he has more than a few of the other qualities that go to make up a good debater.

### DAVID STEEL

Not content with making the Glee Club, the band—to say nothing of a church choir or two—Steel assumed the roll of king pin in the Freshman debating team so successfully that the Sophomores did not get a single strike. Although this is achievement enough for one year Steel has been chosen to stand on another debate platform—this time to represent the college.

Steel has such qualifications as a splendid voice, a good command of language and a good presence. But above all Steel is persuasive. There is something in the way that he quotes statistics even, that makes one think that they are true.

We are watching this man with great interest and the common prediction is that a little experience will make him an invincible platform man.

# Montana State College Debates

UNIVERSITY OF MONTANA vs. MONTANA STATE COLLEGE

Friday, March 14, 1913, at Bozeman.

## QUESTION

Resolved, that a minimum wage scale to be operative in workshops, department stores and the sweated industries should be provided for by law throughout the United States, constitutionality conceded.

Affirmative, U. of M.

Will Long  
Payne Templeton

Negative, M. S. C.

Alfred Eberle  
A. Paul Thompson

Won by Affirmative.

UTAH AGRICULTURAL COLLEGE vs. MONT. STATE COLLEGE

Friday, April 25, 1913, at Bozeman.

## QUESTION

Resolved, that a minimum wage scale to be operative in workshops, department stores and the sweated industries should be provided for by law throughout the United States, constitutionality conceded.

Affirmative, M. S. C.

Alfred Linfield  
Rowland Haegele

Negative, U. A. C.

Won by \_\_\_\_\_.

MONTANA WESLEYAN vs. MONTANA STATE COLLEGE

Friday, April 18, 1913, at Helena, Montana.

## QUESTION

Resolved, that a minimum wage scale to be operative in workshops, department stores and the sweated industries should be provided for by law throughout the United States, constitutionality conceded.

FRESHMEN vs. SOPHOMORES

Monday, December 16, 1913, in college assembly hall.

## QUESTION

Resolved, that all disputes between capital and labor should be submitted to a state board of arbitration with compulsory powers.

Affirmative, Freshmen.

Miss Mollie Allen  
David Steel  
Frank Cassidy

Negative, Sophomores.

Robert Kelley  
Alfred Eberle  
Alfred Linfield

Won by Affirmative.

## Montana State Oratorical Contest

Held at Helena, May 3, 1910, under the auspices of the Montana Wesleyan and the State Intercollegiate Association.

### SPEAKERS

WM. J. WINTER, Montana State College.  
*"Russia's Great Leader."*

IRENE R. ELDRED, College of Montana.  
*"The Heathen Chinese."*

FLORENCE DE RYKE, University of Montana.  
*"William, the Silent."*

ALVIN TAYLOR, Montana Wesleyan.  
*"Terrorism."*

IDANHA BAKER, Montana State Normal College.  
*"Mothers of Men."*

Won by Wm. J. Winter, Montana State College.  
Second Place, Irene R. Eldred, College of Montana.  
Third Place, Florence De Ryke, University of Montana.

# Interscholastic Extemporaneous Speaking Contest

Held at Bozeman Opera House under auspices of Montana State College,  
March 9, 1913.

## SPEAKERS

JOSEPH MILLER, Chinook High School.

"The Chinese Republic Gives Promise of Permanence."

JEAN KELLY, Anaconda High School.

"Every State Should Have Strict Employer's Liability Acts."

HAWLEY WYMOND, Flathead County High School.

"Turkey in Her Present Position Does Not Deserve the Sympathy of the  
European Powers."

CLARENCE STREIT, Missoula County High School.

"The Church is Failing in Its Social Duties to the Masses."

MISS HAZEL BAIRD, Stevensville High School.

"The United States Should Not Arbitrate the Disputes Regarding Panama  
Canal Tolls."

DON LANGOHR, Gallatin County High School.

"Each State Should Have Control of the Public Forests Within Its Borders."

PHILIP CRAWFORD, Billings High School.

"The Motor Truck is a Practical Investment for the American Farmer."

HAZEL ARTHUR, Butte High School.

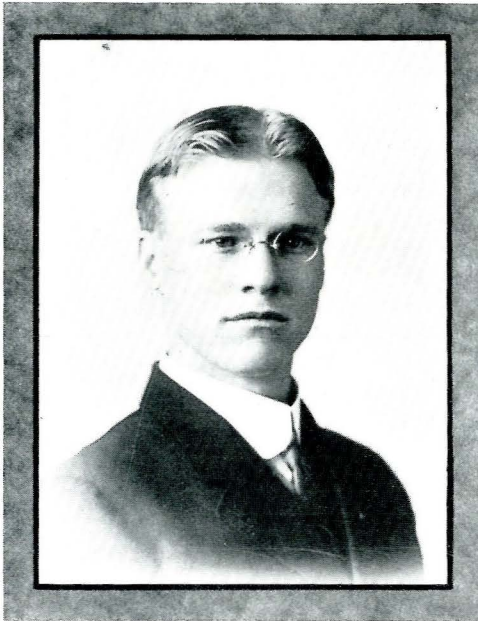

"It Is Time that the United States Officially Recognized the Chinese Republic."

Won by Miss Hazel Arthur, Butte High School.

Second Place, Don Langohr, Gallatin County High School.

Third Place, Clarence Streit, Missoula County High School.

# Jack-o-Lanterns

The Jack-o-Lanterns were organized in the fall of 1911 after the successful presentation of the play, "The College Widow" under the direction of Mrs. Una B. Herrick the previous spring. Until this time but little interest had been taken in dramatics by the students on the hill. "The Toastmaster" was given in 1906 with alumni such as Carl Widener, Whitfield Spain, Bill Hartman, and Wilbur Robinson in leading roles. Again in 1908 the Freshmen class under the leadership of Elmer J. Williams staged a burlesque on "The Merchant of Venice." The following year the Freshmen again put on a play, "The Cricket on the Hearth." The Sophomores who had bought up all the cabbages, turnips, and other vegetables in town secured most of the enjoyment out of this production, however, and for two years there were no more dramatics at Montana State. Then in 1910 and 1911 with the advent of Mrs. Herrick, a most excellent coach, the work was revived and the "College Widow" was given for the Montanan that year. The following fall the Dramatic Club, now known as the Jack-o-Lanterns, was organized and now gives two plays each year, the proceeds of which go to the erection of memorials about the campus and a big banquet for club members each spring.

# ORGANIZATIONS AND CLUBS

*A View of the Campus*

# The Student Senate

## OFFICERS

FRED E. GORDON  
President.

ARTHUR E. SEAMANS  
Vice-President.

ELLA K. OLSEN  
Secretary.

The Student Senate was founded in the spring of 1911 largely through the efforts of David Higbie, then president of the Booster Club. The purpose of the new organization was the management of strictly student affairs by the students. The organization has passed through two years of existence with varying success in the several lines of work that it has taken up.

In the matter of customs it has been very successful. One of the leading customs established by the organization is that of having the members of the Freshmen class act in the capacity of rubbers and general helpers during the football season. The Senate has also made it possible to regulate class fights and care for other student affairs.

The Senate is called on at different times to settle troubles among the students and has discharged this duty very well. The organization is representative of the entire student body. The president is elected from the senior class and the members are selected as follows: four from the Seniors, three from the Juniors, two from the Sophomores and one from the Freshmen.

John C. Taylor was the president of the student body last year and Fred E. Gordon has headed the organization this year. Both took good care of the position and it is hoped that the organization may attain the same value and prestige to Montana State that similar organizations have reached in other institutions.

## Montana State College Regimental Band

LOUIS L. HOWARD, Director.

One of the oldest and one of the best organizations of which Montana State can boast is its regimental band. The band was launched in the year 1907 under the efficient leadership of Louis L. Howard, who has since then constantly been working to make it a leading musical organization of the state.

During the first winter of the organization every possible means were used to raise funds and when spring came the boys had enough money in their treasury to enable them to make a weeks' tour of some of the leading cities of the state. The band made a trip to Missoula with the members of the track team one spring and has done something of this nature each year with the exception of last when most of the old members had left and it was impossible to make the trip. However, the organization will probably make another tour this spring. It has been working all fall and winter to raise money for the tour; first the boys played for political rallies, then they gave a number of dances, a big carnival and the show, "The Tulip Girl," written by Eugene Quaw, was staged under the auspices of the band. The organization spent four hundred dollars for new uniforms also this winter.

In the event of the band making the trip the men will have a private car and will stop at several of Montana's cities. They will give their exhibition under the auspices of the high school at each place, and all the proceeds that may be made from the performance by the band will go to the high school for whatever purpose they may desire to put it. Giving their services free, in addition to advertising the college, makes a large number of friends among the high schools of the state.

The organization offers valuable training to the man who has musical talent as well as a large amount of pleasure during the years spent in college.

LOUIS L. HOWARD, Director.

## INSTRUMENTATION

Lawrence Wylie, cornet.  
 Lyle Tintinger, cornet.  
 David Steel, cornet.  
 Louis Dahling, clarinet.  
 John Potter, clarinet.  
 Glenn Willson, clarinet.  
 Edward Jacobs, clarinet.  
 Otto Batch, clarinet.  
 Robert Clarkson, clarinet.  
 Hamilton Steel, piccolo.  
 Claude Martin, alto.  
 Charles Whipple, alto.  
 Leo Wallace, alto.

Louis Udem, alto.  
 Alex Christie, alto.  
 Taylor Lescher, tenor.  
 Parker Stone, tenor.  
 Frank Stone, tenor.  
 Oscar Miller, tenor.  
 Clyde Stieb, trombone.  
 Wm. T. Haines, baritone.  
 Joseph Soper, bass.  
 Alfred Eberle, bass.  
 Rowland Haegele, bass.  
 Archie Miller, bass drum.  
 Roy Malsor, trap drums.

## The Orchestra

---

F. O. JACKSON, Director.

Outside of the Band there has been but little done along musical lines at the college. Some four or five years ago the college boasted a Mandolin Club, which was a leading organization in its day. However, its leader left, the old members dropped out and the organization died about the year 1909.

After a large amount of preliminary work, however, an orchestra was organized last fall and F. O. Jackson, of this city, was secured to lead it. Mr. Jackson is eminently fitted for the position and under his direction the orchestra has developed beyond the hopes of its most ardent supporters.

The organization is now composed of sixteen members as listed on the opposite page. They appeared on an Assembly program and also gave a dance this spring, both of which were much enjoyed. It is hoped that the organization may reach the same stage of perfection as that attained by the Band and make an occasional tour of the state. Owing to the short time it has been organized, this will probably be impossible this spring, but every effort will be made to have their hopes realized next year.

The orchestra provides recreation for its members and together with other musical organizations on the hill offers great opportunities for those with musical talent to develop under efficient teachers. Mr. Jackson now holds a regular place on the faculty so that instruction in violin may be had from him.

# Orchestra

F. O. JACKSON, Director.

## INSTRUMENTATION

Robert F. Miller, first violin.

Georgia Cullum, first violin.

Hazel Coffey, first violin.

Herbert Hudson, first violin

Alfred Eberle, second violin.

R. A. Barnes, second violin.

Robert Clarkson, second violin.

Paul Davidson, second violin.

M. H. Spaulding, flute.

Lyle Tintinger, concert.

David Steel, cornet.

Hamilton Steel, piccolo.

Edward Jacobs, clarinet.

Otto Batch, clarinet.

Leah Hartman, pianist.

Clyde Stieb, trombone.

## Glee Clubs

U. H. BISHOP, Director.

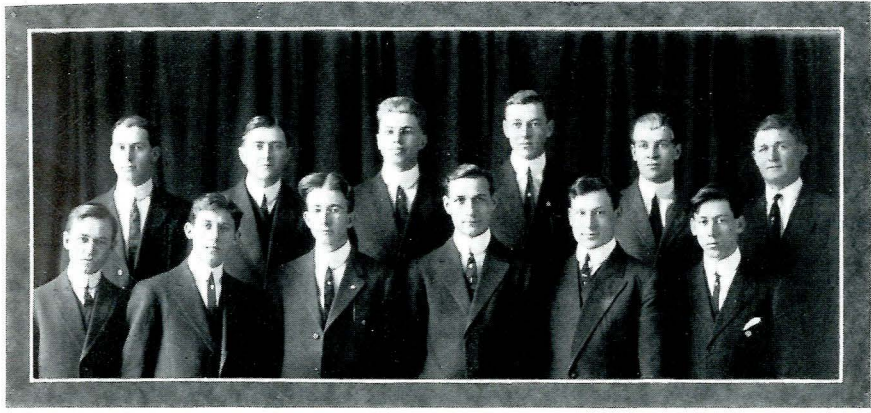

This year the college has had two glee clubs, one for the men and the other for the women of the school, and both of them have reached a high standard in this line of work. Musical organizations of this sort have been a part of the college at one time or another since it was organized. However, these two organizations are of a very recent nature. The Male Glee Club was started in the fall of 1911 and for a short time all the men students of the college were eligible to belong to it. Then it was decided that it would be better to have fewer members and to put more time in on the lesser number that they might become more proficient in the work. Accordingly regular tryouts were held and the number in the organization reduced to twelve, three persons to each part.

At the same time the girls were organized into the Hamilton singing society, to which all of the girls of the institution were eligible. Two assembly programs were given by the organizations last year, both of which showed a great amount of training and high merit.

At the commencement of school again last fall it was decided that the girls should be organized into a regular glee club the same as that of the boys. The result was the ladies' glee club of sixteen voices. All fall they practiced and shortly after Christmas gave an assembly program jointly with the Male Glee Club which was organized at the commencement of the college year. The program was divided into two parts, the first being of standard selections and the last of college songs. The clubs are both to be given credit for giving a most excellent program.

In addition to this the clubs have appeared on a number of special occasions.

U. H. Bishop, teacher of vocal music at the college is the director of the organizations and for those who have any talent along musical lines the clubs furnish the means of much valuable training and pleasure.

## Boosters

Since its advent to Montana State in the fall of 1909, the Boosters Club has been one of the liveliest organizations of the institution. Through this club the cheering sections for the college in athletic contests have been organized, better feeling between the rival teams and institutions has been brought about, improvements have been made on the college grounds and buildings, work on the athletic field was commenced, tennis courts were built, a piano was purchased for the college gymnasium and it was largely through the Booster Club that the first tournament was held. For although the idea had been thought of and planned by the faculty it appeared that it would be impossible to raise the necessary funds for the big interscholastic event and it was then that the Boosters got in and canvassed the town, raising funds and arousing interest. The club has also been a factor for good in the college through the boosting spirit which it has disseminated throughout the general student body. The club has been the general body before which all questions of general import to the college have been carried and it is the one organization where all of the students can get together to upbuild the institution, no matter what the course or what his other standing may be as long as he is a four-year college man. The motto of the club is "Boost, boost, boost and then boost some more."

The first president of the club was David DeMuth. Then came Marvin Spain. However, since then things have developed in such a way that the club is now the place for the members of the lower classes to show their spirit and the last three presidents have been members of the freshmen or sophomore classes. And the spirit in the club has never been better. This year the club has turned the dances, which are generally given by the organization over to the band to aid that organization in raising funds for their trip in the spring. They have also been prominent in the work attendant upon the tournament and other propositions for the boosting of the college.

## Boosterines

---

Not content to stand by and watch the men of the school doing all of the boosting the co-eds organized the Boosterines on the seventeenth day of February, 1910. And since that day the Boosterines have been a most effective organization for the upbuilding of Montana State. At the two annual workdays that were held when the work on the athletic field was started and other improvements made to the college grounds the Boosterines took a most prominent part, taking it upon themselves to furnish the tired and hungry workers with a feed at the close of the day. This feature of the day contributed largely to the success of the two work days that were held. And the Boosterines could have been counted upon to have been ready with another feed last year had it not been that there were so many conflicting dates that it was necessary for the day to be abandoned.

Further than this the Boosterines have had singing sections at the college athletic games and have been prominent on the sidelines during the strenuous days of practice. They have never been induced to keep away from the games by the weather and many a game has been attended by a large body of the members of the club when even the boys thought twice before going. Last year the Boosterines took a prominent part in the entertainment of the high school students at the tournament and during the spring they sent personal letters to the girl graduates of the high schools of the state, telling them something of the college. Similar work is being done again this year and the Boosterines can always be counted upon as loyal to the Blue and Gold whatever may befall it.

## Civil Engineering Society

The Civil Engineers' Society was organized in 1908 with a charter membership of thirty. All students at the college taking a course in civil, sanitary or architectural engineering are eligible to membership in this organization. The prime object of the society is to keep such students interested in the engineering progress of the day.

Since the founding of the society it has always been one of the most active on the hill, and from time to time has had a number of speakers address its members. The last two years a civil engineering journal has been published by the members of the society. Roy B. Williams and William G. Tremper were responsible for the first one and Harold Wolpert and William E. Chapman for the second. This enterprise was dropped this year, but it is possible that the Electric Club will join hands with the C. E. Society to put out an engineering journal next year.

The society has given several assembly programs and has been one of the first to help at such a time as when the tournament is staged.

## Electric Club

---

In 1907 a student branch of the American Institute of Electrical Engineers was established at Montana State College. However, it was not expected that all of the students would care to join this organization, so a club to take in all of the students was organized at the same time, this latter club being known as the Electric Club. The membership reached thirty-five the first year.

The purpose of the organization is to promote interest in the electrical engineering profession and to secure good speakers to address the members of the club from time to time. The club has also been active in other ways. Several electrical shows have been given by the club at which times the apparatus of the department as well as a great number of commercial appliances and novelties prepared by members of the club, have been on display for the large crowds that attended. The club has also put out several special issues of the Exponent, has helped in making the tournament a success, and in general has been one of the most active and alive of all the organizations on the hill.

The student branch of the A. I. E. E. located at Montana State College is the only one in the states of Montana, Idaho, Wyoming and North and South Dakota, and it together with the Electric Club has proved of enormous value to the students registered in the Electrical Engineering course at the institution.

## Agricultural Club

---

In looking through past Montanans and documents concerning the Agricultural Club there seems to be some question as to the exact date of its birth. However, it was first organized back in 1904 and was composed for the most part of short course men. Then it appears that the organization died in the 1907, according to one authority, of a weak heart and moss on the back. In 1909 it was reorganized and in 1911 its membership was limited to the men enrolled in the regular four year course of the college. Since these later changes the club has taken on a new life and new spirit and now meetings are held regularly every two weeks, at which time interesting programs are given by members of the club and of the college faculty.

The club has also been active socially and has entertained the Home Economics Club on several occasions during the past year. Further than this the club has been of immense value because of the bookstore run under its supervision. By means of the bookstore, which is sort of a stock corporation, the text books used by the students and faculty members are furnished at lower rates than would be possible in any other way. During the past year the club has been one of the most active on the hill.

## Home Economics Club

---

A Home Science club was organized at Montana State as early as 1895, with four year students as active members and short course students as associate members. This organization died in 1907. For five years the department had no organization.

Then in 1909, with a membership of eleven, the present Home Economics Club was organized and since that time has held a place in the first rank with other college organizations. Like the other departmental societies, all who belong to the department whose name the club bears are eligible to membership in the society. Meetings have been held at intervals more or less irregular and programs given. On several occasions different members of the faculty have addressed the members of the club on the more interesting topics of the day.

The club has also met with the members of the Agricultural department organization and at all times the report has been that the two organizations have had the best of times. One of the leading events was a masquerade given the Agriculturalists during the early months of school this year. Just after the commencement of the second semester, the "Aggies" reciprocated with a big feed and informal party.

# Pharmaceutical Society

## Pharmaceutical Society

---

The years 1907 to 1909 seemed to be particularly important because of the organization or reorganization of a number of departmental societies, and one of these was the Pharmaceutical Club. All of the students taking pharmacy are eligible to become members of this organization, and owing to the value of such an organization its college is recognized by the Montana State Board of Pharmacy, and membership generally consists of everyone taking the course.

A word or two in regard to the high standard of the course in pharmacy may not be out of place here. The course offered at the a person on completing the course and having four years of experience can become a registered pharmacist without examination. The course offered by the college is also recognized as standard by the New York Board of Pharmacy. Not only is the course recognized as being of a high standard throughout the country, but the graduates are always in demand and are often tempted to go into practical work before the completion of the course. Taken all together the outlook for the club and the department is the brightest ever known in the history of the state.

# Chemical Club

---

Ray Jones	

## Chemical Club

---

Although small in numbers the Chemical Club is big in spirit, and can always be counted on to do just a little more than its share of the work. The club was organized last year in time to do its share towards making the basketball tournament the best ever. The club has been in a flourishing condition this year and has maintained a regular seminar in connection with the club, at which times subjects of importance to the men in this profession are brought up and discussed.

Anyone studying chemistry or chemical engineering may become a member of the club. This is the first organization of this kind at Montana State and it would be safe to predict a most rapid growth for the society in the future.

William D. Ross

## Triangle X Club

---

The club now bearing the name "Triangle X" was organized in the fall of 1911 as the Delta Chi local fraternity with a charter membership of thirteen. Meetings were held twice a month during the first year and plans were made for securing a house the next year. This was left in the hands of a committee and cared for during the summer of 1912.

On the return of the members of the organization in the fall everything was in readiness and they moved into their new home. The prospects for a bright year for the organization were most promising, but some of the members of the faculty did not approve of the idea of having fraternities, local or otherwise at Montana State, and the faculty jumped on this one with both feet. The result was the re-organization of the fraternity as the Triangle X Club. This was done at Christmas time and since then it has gone under the latter name.

## K. N. Club

---

In March of the year 1912 a number of the young men of the college organized the Kappa Nu local fraternity and held regular meetings for the rest of the year. It was planned to have a house the present year, but the members were unable to secure a suitable one during the summer. However, they continued their organization this fall until they met with the same opposition from the faculty as that encountered by the members of the Delta Chi local. The result was their reorganization as the K. N. Club. The membership of the club is now nineteen.

John Wharton	Alonzo Truitt
Arthur E. Seamans	Robert Lapeyre

## Les Bouffons

---

Les Bouffons Club was organized in 1900 as a local honorary fraternity with a membership of sixteen. The purpose of the club was to give several invitational dances each year, principally for the students of the college. James Arnold was elected the first president of the club and the name Les Bouffons, meaning merry-makers or jesters, was selected for the organization.

Since that time the membership of the club has been cut down to ten and from custom they must be selected from the junior or senior classes of the regular college courses or from the senior class in pharmacy. Thus the club has become the honorary junior and senior club of Montana State. The activities of the club have changed somewhat since the organization of it also. At first it was the plan to give one dance each month. However, the ever increasing activities of the college have made this impossible and now the club gives but two or three dances each year. For a time it was the custom for the members of the organization to meet at the homes of the members for social times. However, this has changed also, and now in place of meeting at the homes of the members of the organization, the members of the club hold two or three informal stag parties and business meetings each year at the Bozeman hotel.

## S. N. L. Club

---

During their freshman year a number of the girls in the class of 1913 organized the S. N. L. Club, and throughout their four years of college have succeeded in keeping the meaning of those three letters from the rest of the students on the hill. Rhoda Dawes was the first president of the organization and it held regular meetings, chiefly of a social nature. It has been active throughout its four years of existence and many are the pleasant times that the girls have had.

The club will go out of existence this year, at least as an active student organization of Montana State, as they have initiated no one into the mysteries of the order outside of the regular members of the class of 1913.

## Keseke Club

---

This club was organized last spring and is composed of eight girls from the junior and sophomore classes of the college. Meetings and jollifications are held from time to time at the homes of the members of the club, and many pleasant times in the form of house parties, dinners, sleigh rides and other events have been held in the short time the club has been in existence.

## T. 15 T. Club

---

This club was organized last fall as a sewing club and it was the intention of its members to hold regular meetings, which could be spent most profitably and pleurably. However, the sewing part of the purpose has been partly lost sight of and the club meets every once in a while for a short social time. All are members of the sophomore class and the mystic name has been generally interpreted as "The 15 Toughs." The membership of the club is now eleven.

## MEMBERS

All the men at the college in the four year courses.

## Stags

Founded nine years ago by a small group of freshmen, preps. and high school students who were left out when the bids for a leap year party were sent out, the Stag Association has grown to be one of the regular college organizations and the Stag party held each year just after the mid-year examinations is an event that has always been looked forward to. At this time joy reigns supreme and during that evening the students are able to get back to normal after the strenuous work of taking the exams the fore part of the week.

The festivities usually commence at about seven o'clock on Friday evening and continue throughout the night, coming to a close only when the dawn of the next day appears. The first event of each program is the initiation when the freshmen are converted from young and tender fawns into full-grown stags. A number of stunts are gone through each year and the end of the first act for each freshman comes when the stag brand is clapped on and he is allowed to go free among the other members of the organization. Although the initiation program varies from year to year, it always tests the nerves of the bravest and the trials and terrors which each of them must undergo are such that he is glad when they are over, but the smile of satisfaction at being called a Stag shows that he feels amply repaid for all of it.

Following the initiation the members of the organization have a big banquet at the Bozeman hotel and after stories, toasts and "chuck," all depart for one of the local playhouses where vaudeville stunts of various sorts are pulled off. The program here completed the crowd repairs again to the hall where initiation is held and the rest of the night is spent in "Monte Carlo," which is an imitation of the West in the early days and of Monte Carlo itself, where fortunes are lost and made every hour.

## Does

Not to be outdone by the men of the school who hold an annual Stag party the young women met on the evening of January 26, 1907, at the home of Miss Mary Kirk, '06, for their first Doe party. The first party was composed of four year college girls to the number of about twenty-five and ever since the party has been an annual affair much looked forward to and enjoyed by the fair ones of the institution. At the first party, although there were no boys present, each girl had an escort, part of the girls having borrowed their brother's clothes, pipes and other equipment. Stunts by the members of the organization were introduced as a feature of the party and now it is the custom for each class to give one stunt. The initiation of new members has also been added as a part of the evening's entertainment during the last few years and a big feed is served along toward midnight, after which the fun keeps up until the "wee sma'" hours of the morning.

During the early history of the organization the members met at the home of some member, but the growth has been so rapid that it is now necessary to hold meetings in the Agricultural Building. This year the club rooms and the Home Science rooms were the scene of most of the evening's fun. The initiation of the freshmen occupied the early part of the meeting, and although the members of the organization seem reluctant to say much about their party, from what can be gleaned here and there, the tortures to which the freshmen were subjected must have been most trying. Then came the big feed and following this stunts were given by each class. To go into detail concerning them would be impossible, but the reports that are spread about show that the girls keenly enjoy their big party each year.

## The Y. W. C. A.

---

The Young Woman's Christian Association at Montana State College was founded in the latter part of the year 1901 or early in 1902, and since that time has been one of the most active of the organizations on the hill. The first membership of the association was sixteen. Now it includes most of the girls in the institution.

Each year the association sends one or more of its members to the State Conference and also to the National Conference. To do this it raises money by means of candy sales, luncheons, and this year published a cook book which it sold to members of the student body and faculty, and townspeople.

The organization holds meetings every Tuesday at noon and its purpose is the betterment of the social and moral welfare of the girls attending the college.

PROFESSOR F. W. HAM, '03, Chairman  
HELEN FISHER, '10  
FRIEDA BULL, '07  
EDMUND BURKE, '07  
ELVA WILSON, '09

The Alumni roll of Montana State College now contains 181 names. The school is but twenty years old, so the showing made is good. However, what really counts is what the names stand for. In that light Montana State College has an alumni body to be proud of. Among her members are men and women holding some of the most responsible positions in this and other states and countries. And in this connection it must further be considered that the school is yet in its infancy. Ten years ago the alumni roll contained but eighteen of these names and five years ago but sixty-five of them. As the college grows so will its alumni and if the later graduates from Montana State do as much to further the name of the school in the work they take up, as the first ones, the prestige and power of the school can never die.

# Preparatory School Clubs

## The X. T. C. Club

### OFFICERS

RUTH FLETCHER	-	-	-	President
FLORENCE LINDSTRAND	-	-		Vice-President
PAULINE McVAY	-			Secretary-Treasurer

The X. T. C. Club is an organization of Preparatory girls organized to assist the Boys' Booster Society in its work of boosting their department and the college as a whole. The club holds meetings regularly and has been one of the most active in the department this year.

## The Prep. Argoes

### OFFICERS

ALBERT NELSON	-	-	-	President
BINGHAM WELLMAN	-			Vice-President
FRANK STONE	-	-	-	Secretary
CHARLES COOK	-	-	-	Treasurer

The Prep. Argoes is the booster organization of the boys of the preparatory department. It has been active throughout the year and helped throughout the tournament in making that event a success. It has been one of the most enthusiastic clubs on the hill and has filled the place in the preparatory department that the Booster Club fills in the college.

## Prep. Stags

### OFFICERS

CHARLES COOK	-	-	-	President
WILLIAM MONSON	-	-	-	Secretary
SYLVER WHITE	-	-	-	Treasurer

Following the example set by the members of the four year college courses, the boys of the preparatory department started the custom of having an annual stag party last year. The party follows the lines layed out by the college men. The first part of the evening is given over to initiation, then comes the feed and then entertainment and "Monte Carlo." This year the party was held in Maxwell's hall and a most enjoyable time was the general report. The organization means much to the Prep. boys and their party is talked of by them for months before it takes place.

### College Life

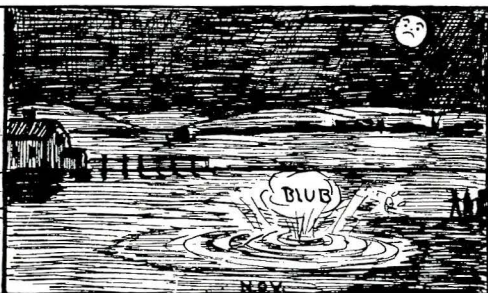

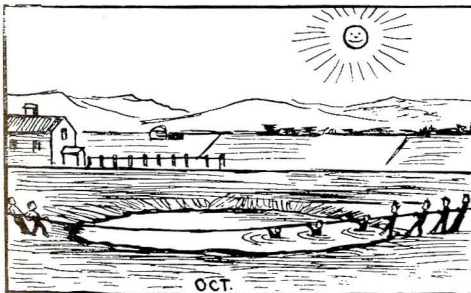

It's just one grind upon a grind,  
 I'm getting mighty thin;  
 The way I burn the midnight oil,  
 Is sure a mortal sin.  
 I'll bet I've studied this half year,  
 At least a night a week;  
 And barely pulling through the course,  
 It's sure a narrow squeak.

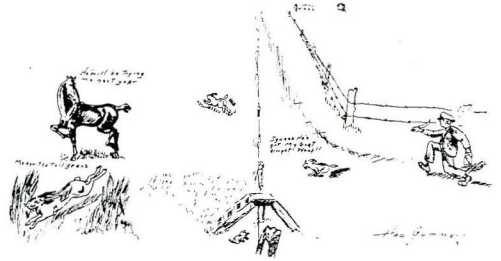

Why, what's the use of getting sore,  
 Because you like to prance;  
 Or grab a few at Jimmie's place,  
 And do a song and dance

Upon Main street's decrepit pave,  
 Where chance to be some profs.;  
 Who glance at you and loudly rave,  
 About those drunken sophs.

And yet a thrill of manly pride,  
 Rises, oretops it all;  
 My loyalty I cannot hide,  
 For this, my college hall.  
 I may not be a greasy grind,  
 But for the Blue and Gold;  
 I'll do my best and ne'er forget,  
 Those college days of old.

—W. E. Chapman, 'ex '13.

THE KILLER ON THE TRAIL

be stretched to make a passing grade for some of the unlucky ones.

Of the ninety-nine experiments on guinea pigs all were successful—that is, they all died.

Last week the most successful operation that was performed was when seven ounces of round steak was transplanted into the stomach of a healthy cat. That animal shows every sign of improvement as a result.

An awful flirt was Spaulding, to get a bride  
Have you heard of what he tried?  
To keep two hearts at the same time,  
He pickled them in strongest brine  
Of pure formaldehyde.

## The Halls of Agony

IT IS a well known fact that in the cold and unkind medical world the paper hospital patients are of the greatest service in the investigation of the non-contagious diseases. Here is where the vivisection workers of the college are greatly hampered as there are no paupers in Montana. For this reason and because of the high cost of importing monkeys for this use, the corps of killers must resort to the use of domestic cats, dogs and faculty members.

While the operations of this department are as a rule kept dark, it has been learned that the brains of a worn-out draft horse were recently removed and transplanted into the head of one of the members of the faculty. The latter shows great improvement but it is understood that the local humane society has handed in a complaint of cruelty to animals, as the horse has become very stupid. It has been suggested that if the stone heart of a mountain could be exchanged for that of some of the college faculty members, their hearts might melt a wee bit and a third of a point

Snipe Hunters—MALSOR IS A GOOD SHOT WHILE SHORTY PREFERENCES TO BAG THEM

Roy Malsor—"Say, I saw her today."

College Days

I N college days we dream,  
Such happy dreams you know  
Those bully times we have,  
Set all our hearts aglow.

Here are so many things  
To exercise the brain,  
It really is a wonder  
How we stand the strain.

To study all our books  
And profs. in all their moods,  
To have college pals,  
And pass exams—Gad Zooks,

But anyway we're here,  
And will be till we're canned,  
For though our bodies surely  
shrink,  
We know our minds expand,

And it's really pleasant when  
At morn we make you know  
To find new bumps of know-  
ledge  
Though a little short of  
dough.

O yes, we love our prexy,  
Though he's sometimes on the  
prod,  
And like all of our teachers,  
For they never use the rod.

Our landlady is in great stand-  
ing,  
Though the grub is on the  
bum,  
And everything about the place  
Is surely on the hum.

Yes, yes we're glad we're here,  
No place so sweet my dears,  
Our empty wallets have no ter-  
rors,  
Our failings bring no tears.

We take it all for granted  
That this is what we need,  
More knowledge, more troubles,  
Less money and bum feed.

Wm. Kremer, '10.

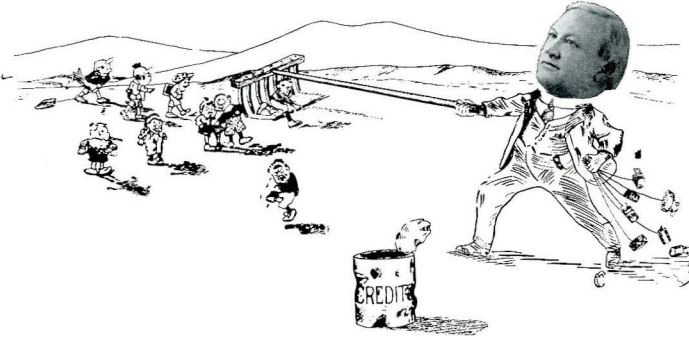

Dear little Art  
Lost his heart  
And can't tell where to find it.  
Leave it alone  
It will come home,  
Bringing the girl behind it.

Blest be the tie that binds  
The faculty to the school.  
Blest be the tie that binds  
The student to break a rule.  
Blest be the tie that binds  
And doesn't get into a knot;  
Blest be the tie that binds  
It takes the prize of the lot.

BURKET'S FAVORITE SHOT

Such a dear little girl named  
Lessel  
Of the dormitory, she was the  
belle,  
She'd go out with dear "Lyn"  
And flirt with George Blinn  
O say, but wasn't she swell?

## College Life

A COLLEGE is a place to separate yourself from a large sum of money and in return secure a large sum of knowledge, or perhaps a wife or maybe only experience and a good time. Many a student selects one of the latter returns for his money only to regret it afterward, and then he goes about doing all the harm he can by giving advice.

But work or play, college days are longer remembered and with more pleasure than any others in a man's life. You may get stacks of knowledge and make a fortune. When you think of it you remember college days. How you boned to work that made your fortune. If you get a wife there are two of you to enjoy the memories of those college days. And while the effort may have caused a few flunks and low grades they are forgotten. Or maybe all you got was experience. The "tinware" was presented to you. Well, you had the good times anyway, and you learned that a man must make good or fall. You fell then, and if you could learn a lesson the experience was your making. Or maybe your experience showed you that you had to work and the inherent laziness was driven out of your system. So much the better.

So whatever the outcome, a person can look back on those old college days, the fusses with the faculty, the cramming for tests, the problems you couldn't work, but had to and did, and mixed with all of this the big parties, the staunch friends who would tide you over until the next check came from home, and loan you his girl if you wished it, the big celebrations, and in short the most pleasant days of your life. Truly college days are a wonderful time and should be arranged so that none of their pleasures or benefits may be lost.

## Criminal Carelessness

In another part of this issue is chronicled a wreck due to criminal carelessness. Such accidents as these happen daily. A person forgets the enormous responsibility that rests upon him and lets some one absolutely inexperienced and incapable take the throttle or watch his work while he takes a nap, or steps out to drop around the corner for a drink. The result—well, you can see the result from the picture later in this issue. Thousands of lives are lost, millions of people are injured for life, billions of dollars worth of property is destroyed and all because some incompetent, careless person is allowed to take the place of a person

just as careless while the latter loafs.

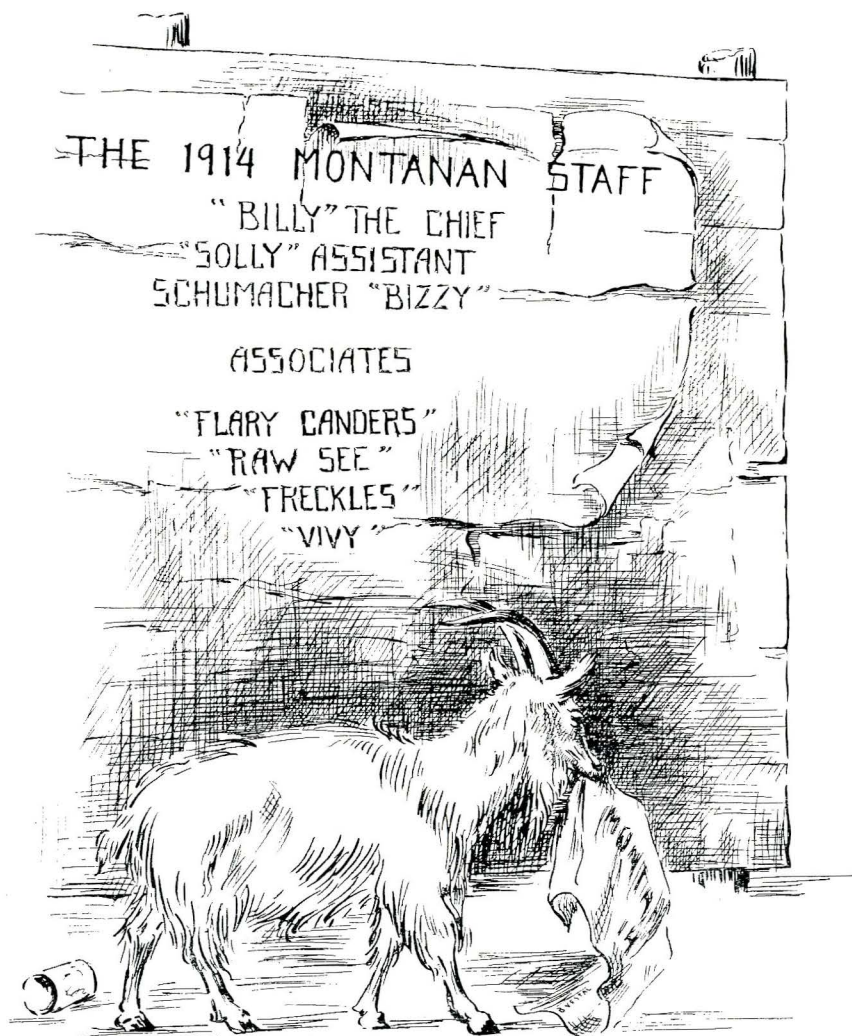

It is time these things were stopped. The laws must be made more strict. We have got to have less of this criminal carelessness if we have to have all of our jails filled with the perpetrators of such outrages. And now after all has been said by the papers throughout the country it is more than likely that within a week some one else will run a car off the track and break down two telegraph poles.

## The Value of a Frog Pond

Can you imagine a college complete without a frog pond? No. Well, it must be admitted that it would be difficult to see how a school could run on such a basis. For where could the tug of war be held with one-quarter as much interest attached to it? A tug of war without a pool of slimy water between the contestants would be about as interesting as a school without a faculty to cuss.

Then there are other uses for such a convenience about a college. Suppose for a minute that there were no frog pond. Would threats against the freshmen have any force? 'Tis doubtful if anything holds more terror for the freshmen heart than the frog pond with its moss covered bottom, every inch taken possession of by turtles and other water inhabitants.

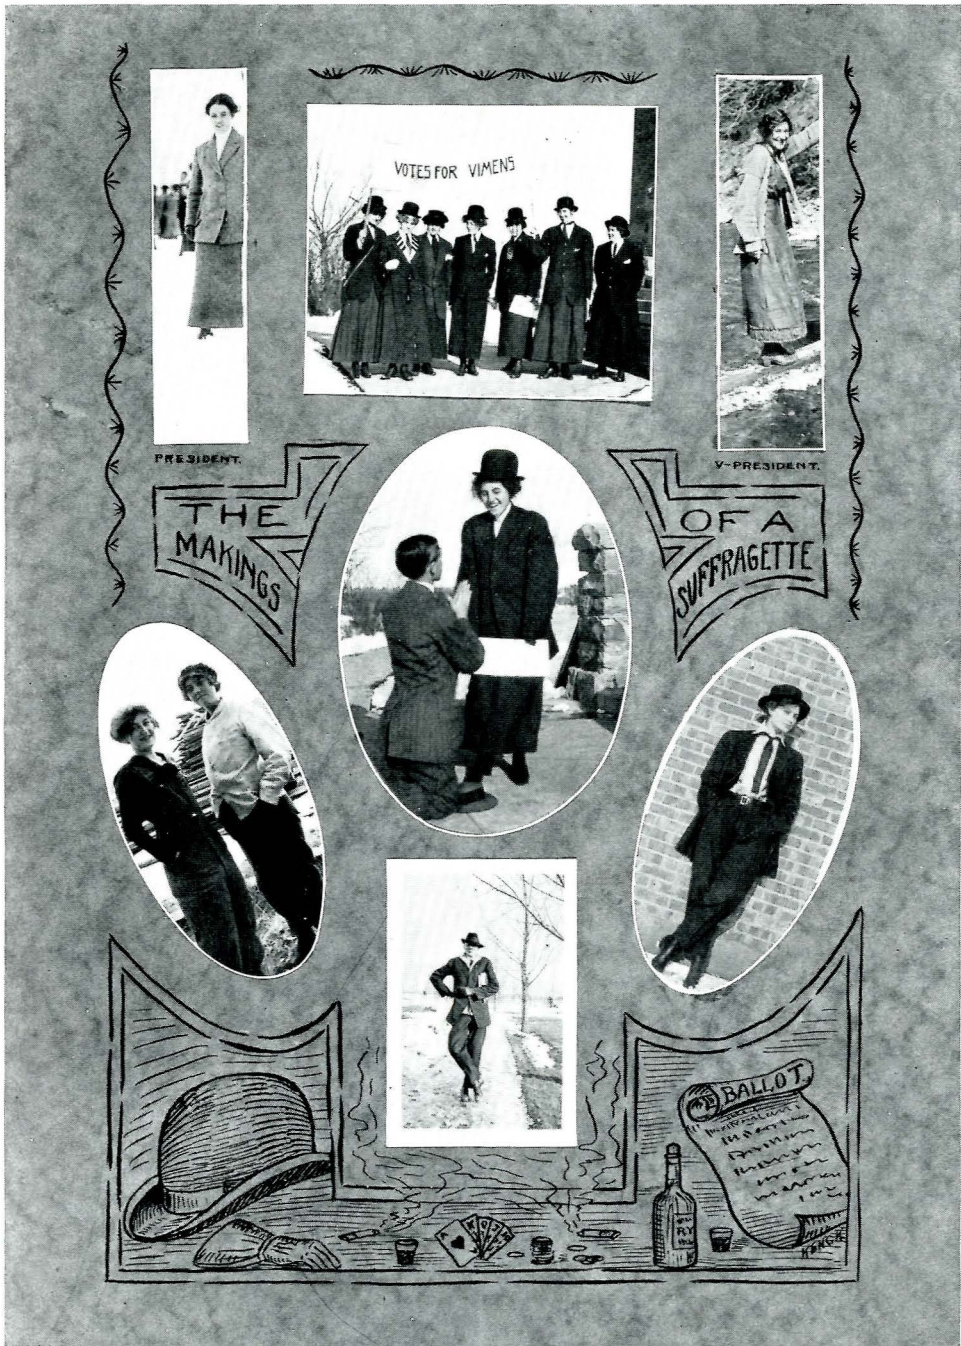

And what could be done with students who must needs be dealt with severely for their misdemeanors? The frog pond fills the bill. A wild chase through the dark night and a chilly bath in the pond will cure many an evil. So it must be evident that it would be most difficult to do without a frog pond and the idea of filling up the one on the college, as promulgated by members of the faculty, should be discouraged.

L. P. Davidson—"Langohr gets most of my money."

Clara Flanders—"We girls go down to watch the football men and to help them, just by being there."

Prexy (in Economics)--"If girls want to work and vote, let them go to the D---1."

## The Professor's Malady

OWING to the fact that no complimentary tickets were sent to the staff, we had no critic at the production of "The Professor's Malady." Since it was deemed necessary that a criticism of this play be offered, we have borrowed the views of Mrs. Winter on the subject and offer them. It is true that they have been altered somewhat, but we believed that they have been improved by our corrections and additions.—*Editors.*

The production of the dramatic club, "The Professor's Malady," was not the success it should have been. To begin with, there was a note of frivolity and levity that is not fitting in a production worthy of being staged in the opera house. Mae Myers had no sense of modesty to allow herself to be carried off the stage in the unseemly manner that was seen in the play.

Kyle Jones was a disgrace to the college faculty. He made love to the girl in public and as a self-respecting mother, I could never let any of my children attend any of his classes after some of the language that he used. The faculty should dismiss him at once.

Teddy Roosevelt should have had better sense than to have powdered his hair up in the way that he did. It is not fitting for any person, let alone a young man, to try to make himself more beautiful than the Lord intended, and so that is another bad part of the play.

The one bright feature was the way that Alonzo Burkett behaved. I have known that boy ever since he was a little child and the way that he behaved is a credit to his mother's bringing up. He was dignified and grave; he displayed a seriousness that is a very fine thing for one of his age, and his attire was sober and becoming. In a midst of a comedy of errors he was the one bright spot. I can't waste any more of my time on the rest. They were awful. Now let us be careful about talking in the library.

### Synopsis of The Comedy of Errors

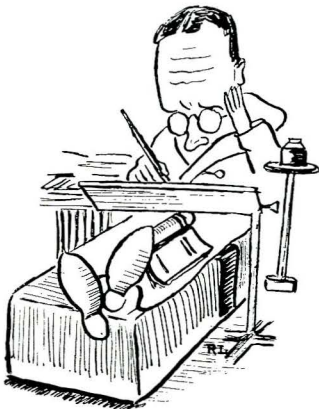

Act 1, scene 1.—Scene a football gridiron in Bozeman. Company, with Bing Hodgskiss staring in the role of Ted Coy, staging the annual Comedy of Errors with the Varsity.

The whistle blows and the curtain rises showing Bing starting the action by booting the ball into Varsity territory. Actions spoke louder than words at this point of the play and the two forces rushed madly into the battle as the audience yelled itself hoarse. The first attempt of the Varsity to gain attention of the audience failed, shoving Bing and his chorus into the limelight. Compliments of this sort were interchanged for some ten minutes by the two companies. The crowd finally became enraged at this inaction and began to shower the players with the boquets of cabbages, lemons, cowardly eggs, etc. At the command of their leader the college artists began

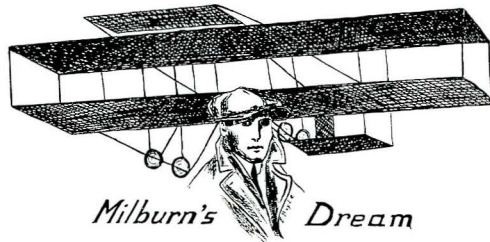

to shove the Varsity vaudeville players off the stage. They became stubborn, however, and refused to budge, the act closing with the college fighting for the possession of the stage.

Act 2. Same scene.—Curtain rises showing actors in same positions and crowd began to swarm to the box office demanding rebates. Manager Vestal, of the college troupe, rushes upon the stage and implores his company to get busy. Bing calls his huskies together for a short council of war and then tears gamely into the opposing forces. Little is accomplished, and in order to save himself from utter ruin, the manager rings the curtain down. (Crowd leaves seats to gather up boquets for future use).

Act 3. Scene reversed.—The curtain rises on a scene of utter confusion. The Varsity have become incensed over the treatment from the college troupe and are taking matters into their own hands. They seem to little care how they handle the college celebrities, and even Bing in all the raiment of a star, was ruthlessly walked over by the "supers" of the Varsity's company. The comedy of errors was fast changing into a tragedy, when Lou Howard realizing the situation, called upon the band to strike up "Everybody's Doin' It." At this point the crowd called for the playwright, Oscar Hammerstein Dockstader, who had been previously informed as to their malicious intentions and left the performance by a back entrance, beating a hasty retreat to the N. P. depot, boarding a side-door Pullman for parts unknown. The college company were all but killed by the rushing Varsity troupe and the curtain was rung down just as the crowd was again getting ready to heave more unwelcome compliments on the weary actors.

THE BOOK WORM—Whitworth

## Confidential Guide of M. S. C.

*Stude*—Who put the ham in Hamilton?

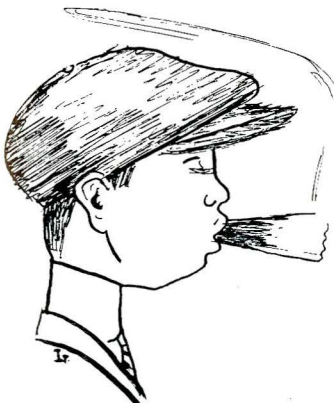

*Bright boy*—His landlady.

*Freshman*—Who put the brew in Brewer?

*Experienced one*—Sh— mustn't suggest such a thing.

*First student*—Who put the "Ale" in Kneale?

*Second student*—Ask some one who attended the firemen's banquet.

A FAMILIAR FACE

Georgia Cullum— "I bet a cookie, I'm not the shortest girl in school."

*Actors*—Most prominent on the stage is Kyle Jones; off the stage is Bill Fluhr.

*Students*—There are none at Montana State.

*Athletes*—James Kiefer with Bill Maddox a close second.

*People That Do Things*—Woods—he sleeps and endeavors to see that all the girls get to go to the Aggies' parties.

*Electrical Engineering*—Watch yourself in electrical machinery or you will slip.

*Mechanics*—Get ten every day in class, 99 on each weekly test, 100 on the final and you stand a chance to get through.

*Books*—Not only buy them but cultivate the habit of carrying same, it looks well.

*Cafes*—Red's and Shorty's roof garden.

### To Get a Stand-in With

*Cobleigh*—Work like H—l.

*Mrs. Winters*—Don't even think out loud in the library.

*Brewer*—Try to dodge him unless you have time to listen.

*Lou Howard*—Agree that a band hall is what is needed on the hill.

*Mrs. Herrick*—Speak nice of her girls and take them out occasionally.

*The Senior Girls*—No chance. They're crabs.

*Gilruth*—There ain't no such thing as a stand—in there.

*Janitor Jack*—Help him cuss the dom bloody bloomin' profs. Put some more chickens in the main hall. Jack enjoys them for dinner.

*Barnes*—Smoke Lucky Strike tobacco and be generous.

*Burkett*—Keep away from the billiard table.

*Red and Shorty*—Pay Cash.

*Spaulding*—Donate cats.

*D. Whitmire*—A Carroll cigar.

*Shorty Whipple*—Ask him how "our" girl is getting along.

*Prexy*—Attend assemblies.

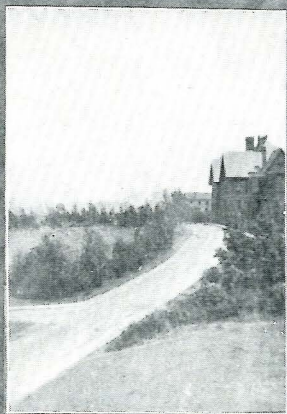

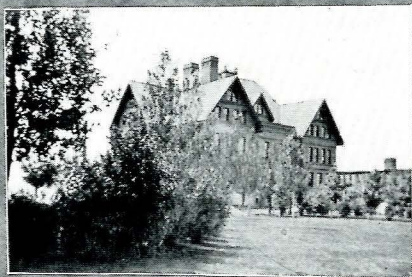

*Carr*—Help him press his pants.

*Roosevelt*—Talk chemistry to him.

*Harkins*—We plead ignorance.

*Eorder*—Introduce Teddy to his girl.

*Davidson*—Get three galleys in for the "Excuse" on Tuesday night.

GLIMPSES OF H—L

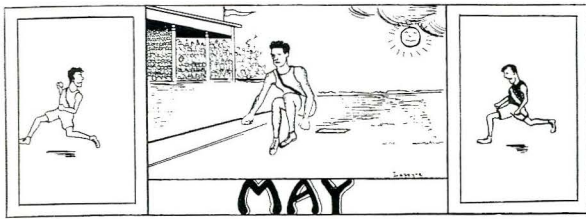

There was a young fellow named Tait,  
Who was so exceedingly swate  
He fermented within  
And seldom got in,  
Until it was frightfully late.

(Reaction  $C_6 H_{12} O_6 = 2 C_2 H_6 O + 2 C O_2$ )

Roy Spain (who is a senator)—“The paths of glory are sure H—L.”

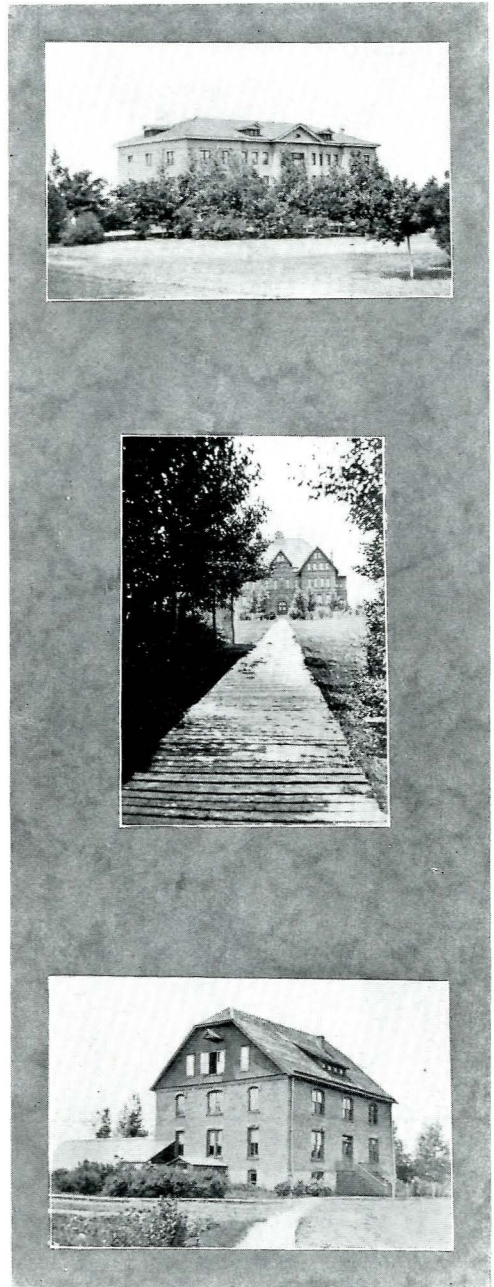

- Apr. 1. “April Fool”—Dormitory girls wear sorority ribbons.  
Miss Wallin finds class room empty.  
Track men out in real earnest.
- Apr. 2. Gillis departs for Butte. Delta Chi pledges Bob Kelly, Albert Anderson and Bill Ross.
- Apr. 4. C. O. Glisson chosen as assistant track coach.
- Apr. 5. President of Boosters awards football sweaters.  
Dockstader awards A's. Will Hartman presented with college sweater for his able assistance during tournament.
- Apr. 6. Old cannon from Fort Ellis arrives on campus this morning.
- Apr. 7. Easter—Most everyone goes to church.  
George Blinn caught smoking near grave yard.
- Apr. 8. Woman's Club witnesses Japanese dance by the gymnasium class at the drill hall.
- Apr. 10. Tennis players start work.
- Apr. 12. Bouffon's give spring dance. George B. helps serve punch.  
Hettie Schumacher graduates from music department.
- Apr. 13. Annual Staff for 1913 go to Bute to submit proofs.
- Apr. 15. Will Winter wins oratorical contest. Willard Atkins a close second.
- Apr. 16. Baseball men take out kinks by warming up between chemistry building and drill hall.
- Apr. 18. “Final Word” at Opera House by the Jack-O-Lantern Club.
- Apr. 19. Football team entertained at home science department by “Prexie” and coach.
- Apr. 20. Sophomores and freshmen dance at Elk's Hall. Mamie McJilton arrived a little late.
- Apr. 23. Lee Anderson decides to leave our institution. Too much salt meat in his diet.
- Apr. 26. Track meet called off on account of weather. Gordon and Seamans nominated for President of Senate.  
“Roundup.”
- Apr. 27. Mutt and Jeff Meet. Mutts wins by 67 to 58 points. “Shorty” Wolpert shows wonderful skill in shot put.

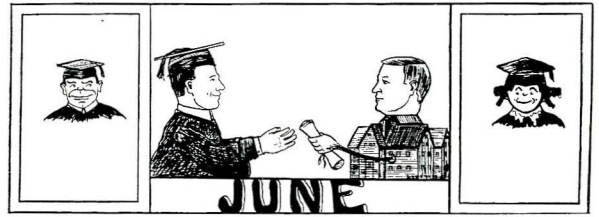

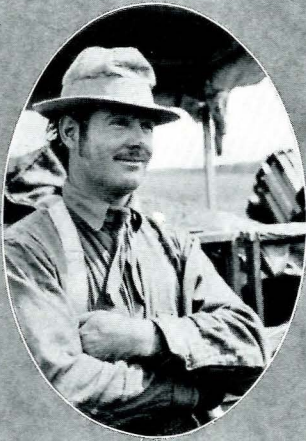

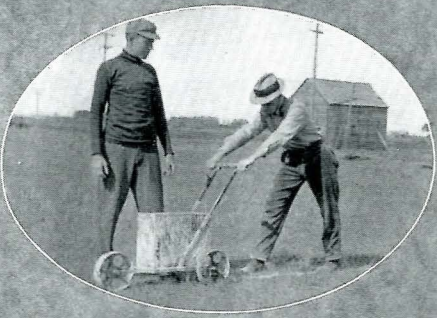

- May 1. "Lon" Truitt entertains a few friends at dinner.
- May 2. Glee Club gives concert in assembly hall.
- May 3. Will Winters wins Oratorical Contest at Helena. Sophomore girls entertain Miss Wallin and Miss Cehrs at dinner.
- May 4. Crowd of young people leave for Limespur Cave despite the fact that there were several inches of snow on the ground.
- May 6. Big snow storm. Encouraging for track men. "Solly" spends afternoon drilling spike out of cannon.
- May 7. Track men leave for Missoula. "Solly still drilling."
- May 8. M. S. C. wins at Missoula. Big doings on the hill. Rally on Main Street. Students fire cannon, burn dormitory walk and have "hop" at drill hall.
- May 10. New Senate chosen for coming year.
- May 11. Track team returns.
- May 13. Electric show at college. Track team celebrate their victory and Boosters give dance in their honor at the drill hall. Band concert.
- May 14. Track men re-elect George Blinn Captain.
- May 15. Les Bouffons hold annual banquet. Seaman, Truitt, Gordon and Solberg elected as new members.
- May 17. Faculty wins baseball game from city officials.
- May 18. 15's win over 14's in baseball.
- May 21. Fred Gordon leaves for Butte to do annual work.
- May 22. Steel, Wilcomb and Fisher taken into Kappa Nu.
- May 23. Senate holds final meeting.
- May 24. Junior Prom.
- May 25. Exams begin.
- May 29. Home Economics Club entertain Agricultural Club at drill hall. Feed in home science rooms.

Joe Soper—"Some say that dancing is no better than hugging. I don't think it is half as good."

GLIMPSES OF H—L

Eveleenie, a charming young leddie,  
 Grew weary of having a steady,  
 She sent him away  
 Was sorry next day,  
 But now he's come back, dear Alfreddie.

- June 1. Rally and bonfire on campus.
- June 2. Baccalaureate address by Rev. Mills.
- June 4. Senior Class Day.—Presentation of Jack-O-Lantern memorial.  
President's reception. Alumni banquet.
- June 5. Commencement Day.—Walter S. Hartman gives address.
- June 6. Closed college.

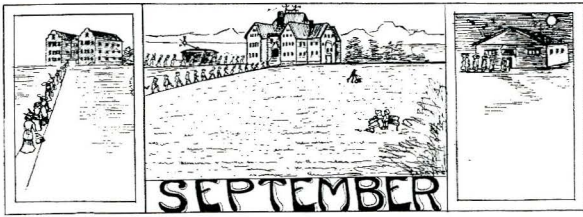

Young Cotner from down the Big Horn  
 In that country 'twas said he was born,  
 He could play basket ball  
 And would go out on a call,  
 O you kid from the Little Big Horn.

Bob Kelly, he was quite a sport,  
 To Miss Piedalue he used to pay court,  
 He loved her so well  
 He'd oft miss the bell,  
 And in grades he would be very short.

Big blonde baby, eyes so bright,  
 That means Malsor, his head is white,  
 He longs for one fair  
 To come to his care,  
 And he longs with all of his might, might, might.

Talcott—"Well, now I think I can do better in finance."

HAIL TO BING.

- Sept. 9-10. Registration at M. S. C.
- Sept. 11. Freshmen pay fees but forget to register; result, about 35 lost.  
Green hats on sale in hall. Few football men out.
- Sept. 13. Charley Hansen gives demonstration on pole-climbing with the street car. Prof. Brewer welcomes new students in assembly.  
Y. W. C. A. and Y. M. C. A. give reception to new students.
- Sept. 14. Sophs brand freshmen with green ink. "Prexie" returns from Europe.
- Sept. 20. College Faculty give reception to students in the home science rooms.
- Sept. 25. Football game between high school and college. Score 5-0, in favor of high school. Poor game. Lack of spirit.
- Sept. 26. Rousing assembly by students. Organization of three political parties. Band boys serenade Hall girls.
- Sept. 27. Welcome "hop" by Boosters and Boost-erines for new students.
- Sept. 28. Blinn's heart is caught on the rebound.

Who got the diamond?  
"I," said the singer,  
"On my fourth finger,  
I got the diamond."

Who put it there?  
"I," said the Don,  
Just slipped it on,  
I put it there."

*Honk, Honk* in the distance.  
*First person*—What is that?  
*Second person*—Why, that is Gwen.  
and her new Car(r).

Ruth Fletcher ne'er had made a tone,  
Until at last her heart had flown,  
From morning till dark  
She'd sing like a lark,  
"I'm in love with the slide trombone."

ROY CLARK ON FRIDAYS.

Ruth Sweat (at freshman-junior basketball game)—"You gotta quit kickin' my 'Pug' around."

THOSE FINE MOONLIGHT DANCES.

The night is cold and dark and starless;  
 It snows and the wind seems ever tireless,  
 The maiden clings to the fire escape,  
 The wind makes sport of her flying cape,  
 And the night is cold and starless.

The youth is cold and tired with waiting;  
 It snows, but the wind seems ne'er abating;  
 The maid still clings to the cold iron round,  
 But loses her hold and leaps to the ground,  
 For the youth is tired of waiting.

The night is cold and dark and starless;  
 It snows and the wind seems ever tireless;  
 The maid has gone to her studies again,  
 The youth has gone down town with the men,  
 And the night is cold and starless.

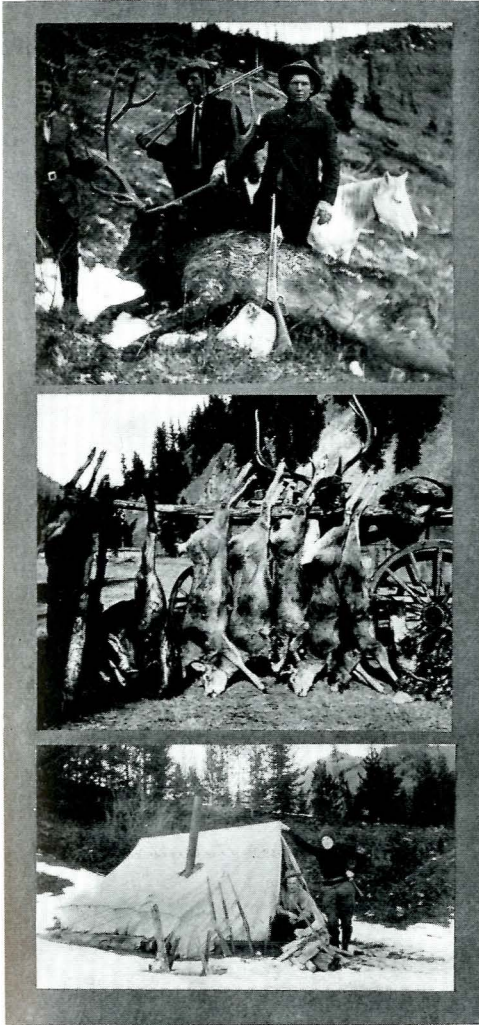

BOOSTERS.

Bill Ross—"Barnes talks? They must be good for I always wake up very much refreshed."

- Oct. 1. "Straw vote" taken at college. Suffragists allowed to vote.
- Oct. 2. Football game with Gallatin High. No score.
- Oct. 4. Big storm. "Tug of War" at frog pond. Sophs come out victorious. Big scrap on campus started by Fred Gordon and freshmen girls and ended by sophomore and freshmen boys fighting for possession of flag pole.
- Oct. 5. Sophomores give party at drill hall for the "Tug of War" team.
- Oct. 6. "Gossie" surprises his friends and goes "fussing."
- Oct. 7. Gov. Norris speaks in Assembly. Athletic meeting in which "M" is adopted in place of "A."
- Oct. 8. Sophomores elect George Roosevelt for Editor-in-Chief of next year's annual.
- Oct. 9. Snappy games played with Gallatin High. No score, but decided improvement on part of college team.
- Oct. 11. Reception to Faculty by "Prexie" at Hamilton Hall.  
 Boosters organize "Non Partisan Political Party."
- Oct. 14. Boosterines practice songs for coming game.
- Oct. 15. Death of Mrs. Marshall.
- Oct. 16. Sophs and freshies clash for possession of green hats.  
 Fred Gordon is easy money for the fair sex. Eight of them worked him for treats today.
- Oct. 18. Mr. Newell lectures on reclamation work. Miss O'Neal of Butte, speaks to young women. Equal Suffrage League is organized by Mrs. Herrick. Bob Kelly goes to meeting, but gets kicked out. Football rally on Main Street. Mart Kelly leads snake dance. Both teams are entertained by Manager of Lyric.
- Oct. 19. Football game U. of M., M. S. C. Score 7-0, in favor of U.  
 Dance to Varsity men at Elk's Hall.
- Oct. 21. Roundup week.
- Oct. 22. Miss Rankin addresses Equality Club in assembly hall.
- Oct. 25. W. E. Harmon gives interesting talk in assembly. Delta Chi entertain at their home.
- Oct. 26. Spaulding takes up first bag of cats.
- Oct. 27. Death of Arthur Carrol.
- Oct. 28. M. R. Wilson treats students to apples.
- Oct. 29. Senate meeting. New club rooms discussed.
- Oct. 30. Hamilton Hall girls indulge in a snake dance.
- Oct. 31. Home science girls entertain Aggie Club at a masquerade in the drill hall.

- Nov. 1. College has practice game with high school. No score. Freshman party in drill hall. Strange odor does not interfere with their good time.
- Nov. 3. Hamilton Hall has new window hangings—also well fumigated.
- Nov. 4. "Election." Students all busy. Willard Atkins controls student vote.
- Nov. 5. Senate agrees to accept rules for new club rooms.
- Nov. 6. Home Economics Club and "Aggies" visit flour mills. Girls want an elevator established in College Hall. First meeting of Montanan Staff. Editor-in-Chief was present. Fred G. misses dinner. Is out "detecting."
- Nov. 7. Prexie leaves for Georgia. Miss Fox speaks in assembly.
- Nov. 8. Boosterines and Boosters escort football team to depot. Game in Missoula results with scores of Missoula 39, M. S. C., 3.
- Nov. 9. Crowd at station to meet football men. "Gossie" cuts date with his girl.
- Nov. 14. Mysterious "doings" on campus about midnight. Loud splash in frog pond. No one knows what happened.
- Nov. 15. Junior girls hold early morning breakfast at home science rooms.
- Nov. 16. Fred attends Bouffon's meeting and forgets to meet his girl after show.
- Nov. 17. "At" goes out driving. He and his girl get cold plunge in the Gallatin.
- Nov. 20. Gallatin County teachers are entertained by home science department.
- Nov. 22. Faculty members give short talks in assembly. Booster's dance after Grange supper. Blue and gold football suits win first game this year. (Borrowed by high school team).
- Nov. 23. Keseke Club leaves for house party at Flander's Mill.
- Nov. 27. Horace Davis visits M. S. C. (?)
- Nov. 29. Thanksgiving recess.
- Nov. 30. Hamilton Hall girls entertain with annual dance at the drill hall.

Did David steal Kate? Or weren't such means necessary?

THE BLUE AND GOLD SUITS WIN. (GALLATIN HIGH WEARS THEM.)

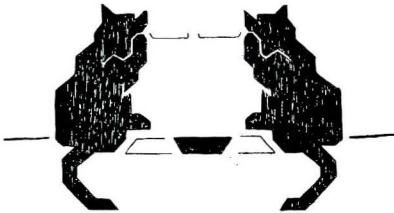

Answers to Correspondents

R. George—The honor of The Montanan staff is unimpeachable, therefore we are compelled to decline your offer of forty-five cents for each time your name appears in The Montanan. Money is the one thing that we cannot accept under any circumstances.

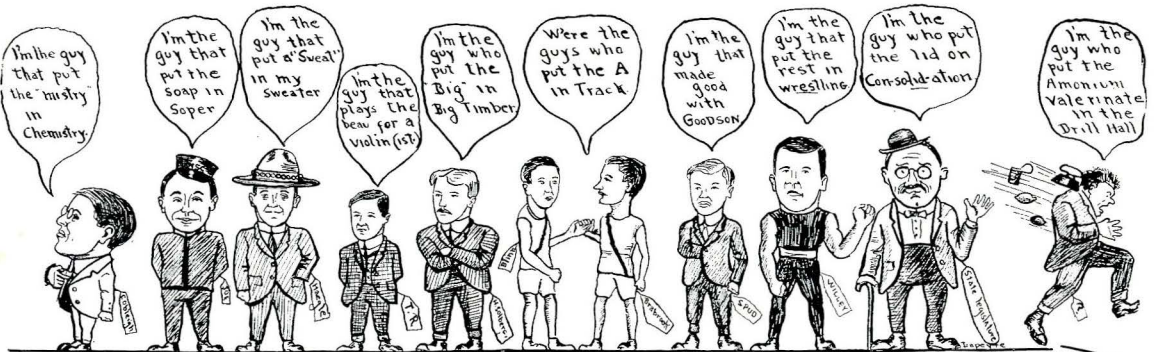

Willey—It is one of our greatest regrets that we are unable to roast you in The Montanan. We all realize your greatness and importance in this great and glorious institution of ours, and in view of your earnest solicitations have left no stones unturned to hatch up a roast on you, but have had to abandon the attempt as useless.

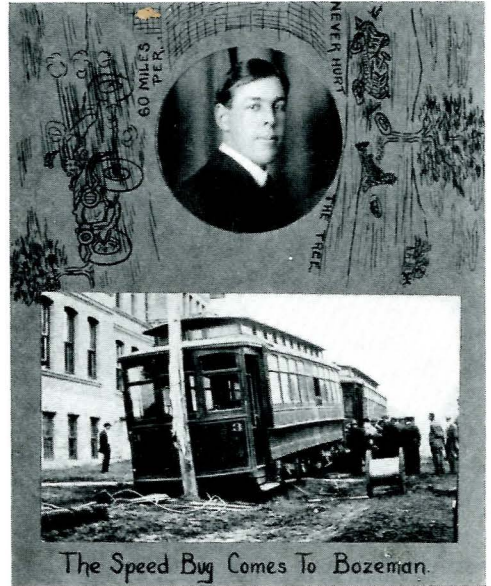

Miss Sackett—Why, my dear Nathalie, I assure you that I shall do everything in my power to keep your name out of The Montanan. I can hardly understand how you can even think of me telling tales out of school, and as for the times you wore Bra's suit on surveys, never a word. As for hurdling of fences, stealing apples and smoking in cement lab., mum's the word.

- Dec. 2. Martin Kelly elected as Soph. "Yell Leader."
- Dec. 3. Dinner given by junior girls.
- Dec. 4. Frank Wight renews old acquaintances on the hill.
- Dec. 5. John Farrell "ditto." Bulletin board notice said he would speak at special assembly.
- Dec. 6. Successful play, "Professor's Malady," by Jack-O-Lanterns.
- Dec. 7. Delta Chi gives straw ride and oyster supper.
- Dec. 8. Lost—Somewhere between Bozeman and Belgrade, Prexie and Miss Ballinger. Said to be caused by melting of snow.
- Dec. 9. Non-fraternity men hold meeting. All officers of Grange re-elected with one exception.
- Dec. 10. Kyle Jones hit by flexible flyer while escorting lady from Dramatic Club. No serious damage to sled.
- Dec. 11. M. S. C. wins from Carroll Club by score of 31 to 17.
- Dec. 12. "Sleuth" misses dinner again on account of detective work. Criminals who put live stock in college hall are still at large.
- Dec. 13. Clever band program. Boys dress at Chefs. Suffragists appear in costume. Kappa Nu gives dance at Elk's Hall.
- Dec. 14. Keseke girls entertained at Hamilton Hall.
- Dec. 16. Freshmen win debate over sophomores.
- Dec. 18. Bouffon's dance. College wins (?) at Lovell by score of 23 to 9.
- Dec. 20. College loses basketball game in Billings Score 33 to 21. Vacation begins.

George Blinn—"My object in coming to M. S. C.? Let me see—I have forgotten."

THE MAN AND THE DEED.

- Jan. 7. Football sweaters are presented. Fraternities get it in the neck.
- Jan. 10. Band Carnival at Drill Hall is a big success. Billy V. wins a duck.
- Jan. 11. First Euphonic Club dance.
- Jan. 14. Miss Sanford gives address in assembly.
- Jan. 15. Burglar scare at "Dorm."
- Jan. 17. Montanan Staff meeting. Whole staff present.
- Jan. 18. Debate tryout. Six chosen.
- Jan. 20. New lunch room opens. Girls excluded.
- Jan. 21. Pres. Main speaks in assembly.
- Jan. 22. Farmers' course begins. Home science department gives demonstrations.
- Jan. 23. Joe Soper takes friends for a delightful straw ride.
- Jan. 24. M. S. C. wins over Helena Athletic Club by score of 32-16.
- Jan. 26. Keseke girls are entertained by Rausie Roecher.
- Jan. 27. Exams. begin.
- Jan. 28, 29, 30. Exams. continued.
- Jan. 31. Exams. at an end. Does and Stags give annual parties.

*St. Peter*—And your name is Robert Davis Kneal. Well, my man, I have very good reports of you from the few M. S. C. people who have succeeded in entering here, but for the permanent peacefulness of my kingdom, I will have to ask you not to worry us with technical mechanics; don't build any concrete improvements, don't install a central heating plant, don't put our water supply on a meter basis and above all don't tear up our golden pavements and lay bithulithic.

*Satan*—Who have you here?  
*Doorkeeper*—A sophomore of M. S. C.  
*Satan*—Stick him into a vat of ammonium valerianate and let that bunch of freshmen enjoy the sport.

James Keifer—"O joy, I only got 99 on that test."

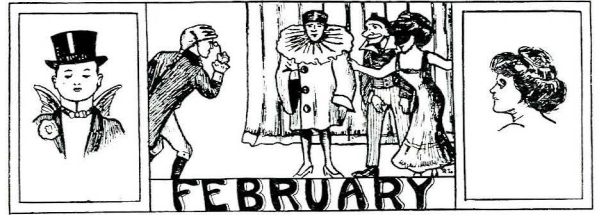

Willie Louise, and her last name is Fenner,  
 You sure would have been tickled to death  
 to a se'n 'er.  
 It took place on the train  
 Who was the young swain?  
 Why, it was Roosevelt, the boy that sings  
 tenor.

Georgie, Georgie, in a fret,  
 Anna caught him in a net;  
 Prexie put him in a can,  
 Georgie scrambled out again.

AT THE BAND CARNIVAL.

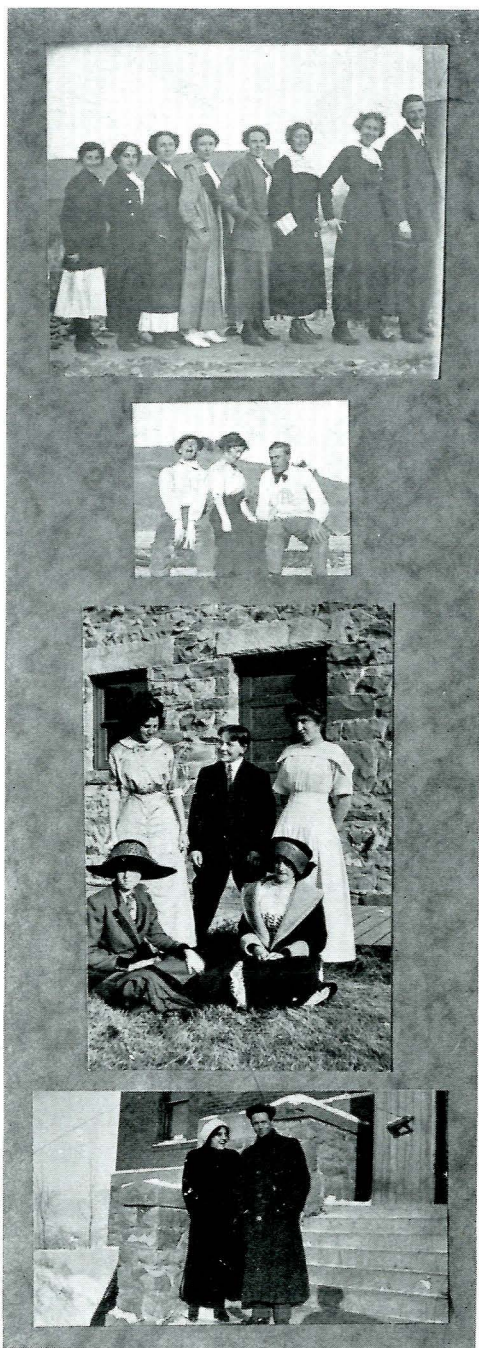

Bill Maddox—"Dad burn it, who put that stink in the gym?"

- Feb. 2. Gordon, Seamans and Blinn are guests at Hamilton Hall.
- Feb. 3. Boosters give lively "hop" at the drill hall.
- Feb. 4. Registration for second semester.
- Feb. 7. Draper guest at college. Farewell spread at Hamilton Hall for Olive Selin.
- Feb. 9. Dee takes Hall girls for sleigh ride.
- Feb. 10. Special edition of Exponent distributed to those who would bite.  
 Miss Patten reads in assembly.
- Feb. 12. Marsa Riddell entertains friends at Hall. Keseke girls entertain guests on straw ride to Fowler's Ranch.
- Feb. 14. Seniors win basketball game from sophs and juniors from freshmen.  
 U. of U. wins from M. S. C. by score of 41-19. Orchestra dance after game. Glee clubs give entertainment in assembly.
- Feb. 15. Aggies give party for home science girls. Wood has serious accident with automobile and eight colts.
- Feb. 16. "Tubbs" gives birthday party to a few friends. "Tubbs" is twenty-one years old, but doesn't look it.
- Feb. 17. Sophs. witness killing of first biology cat.
- Feb. 19. Girls give "Ole" a shower. Carl sends a gift (?).
- Feb. 21. Special assembly to arouse interest. Little aroused.  
 M. S. C. wins from Triple B's by score of 19-17.
- Feb. 22. Many students attend pioneers' dance.
- Feb. 24. Band makes big haul with "Tulip Maid."
- Feb. 26. Art editor flashes new diamond. "Congratulations."
- Feb. 27. Everyone busy for tournament.
- Feb. 28. Euphonic Club gives "Tulip Maid" dance.

- Mar. 1. Civic League at Opera House. Hazel Hill a visitor at the Hartman home.
- Mar. 2. Y. W. C. A. girls return from Missoula.
- Mar. 3. M. S. C. wins from Helena Independents by a score of 51-11.
- Mar. 4. Boosterines hold meeting and appoint committees to meet Tournament trains. Every one busy for Tournament.
- Mar. 5. Boosters busy meeting trains. Crowds of visitors flock to Tournament.
- Mar. 6. First round of preliminaries. Billings, Fergus, Helena, Sweetgrass, Beaverhead, Great Falls, Carbon, Missoula and Park are winners.
- Mar. 7. Anaconda, Carbon, Sweetgrass, Chinook, Helena, Billings, Forsyth and Missoula are winners. Mrs. Herrick gives exhibition with Indian clubs.
- Mar. 8. Visitors are shown over grounds. Miss Arthur of Butte, and Mr. Langohr of Bozeman take first and second place in the speaking contest. Billings loses final game to Sweetgrass, and College wins over U. of M. by a score of 23-16. President Hamilton awards medals and cup at the drill hall. Visiting faculty members are entertained at home science department.
- Mar. 9. Visiting high schools leave for home.
- Mar. 11. Biology class begins on cats.
- Mar. 12. Band boys take a little trip on the Milwaukee. Georgia gets called down by Prexy for disturbing his Economics class.
- Mar. 13. Big snow storm.
- Mar. 14. U. of M. wins annual debate from college.
- Mar. 15. And the calendar is done.

There was a young fellow called Fred,  
 Quite a lady's man, so it was said,  
 One day out to dine,  
 He only brought nine,  
 Maybe something is wrong with his head.

Tabbs (on receiving a "C" in Costs)—"Say, Professor, you just spoiled a D flush."

### The Suffragette March

IT is with great pleasure that "Life" is able to chronicle the triumphant march of the suffragettes on to Belgrade. Under the leadership of Vie Valleau and Florence Wight they have started on their tramp. It was the hope of "Life" that we might issue daily bulle-

tins of their progress as we kept tab of their march, but owing to the speed of the marchers and the fact that the printers are shouting for copy, we are forced to omit this feature.

The march is under the leadership of the two ladies mentioned above, but credit is also due to many of their trusty lieutenants, among whom we might mention Willa Sultzer, Myrtle Alderson and Pearl Heighton. Miss Sultzer is in charge of the anti-men league and at the latest reports the campaign being carried on under her direction is proving highly successful. It is her plan to finally

eliminate mere man from this earth, retaining only a few specimens as a concession to the zoology department of the college.

Miss Alderson is in charge of the temperance department of the crusade. It is her duty to see that no tobacco or other forms of disgusting edibles are placed on sale and at latest reports it seems that the Wrigley Gum company has an option on her services, as she has displayed special talent in introducing this article of commerce among the male members of the community where the crusade is passing.

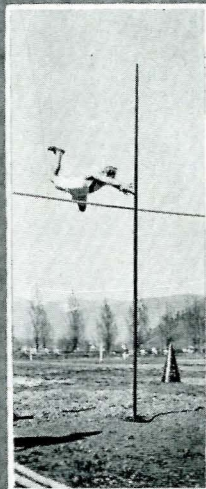

Miss Heighton will act as special chaperon for the party. It is her duty to see that none of the younger and more frivolous members of the procession so far forget their duty to the cause of equal rights as to smile on and encourage the young man. In order that they may have some of the pleasures that formerly were their lot, she loans special copies of Life to them for an hour at a time on Sunday afternoons. This goes far in helping her in her work.

In the next issue of "Life" we will give a more detailed account of the success of this movement.

### The Future

*Satan*—Now what, more students?

*Doorkeeper*—John Tait, your honor.

*Satan*—Pickle him for four years in Monogram No. 6 and then allow him to explain to Brother Woods the elevating effects of the Stags for the rest of his days.

*Satan*—What, a co-ed?

*Doorkeeper*—Y. W. C. A., sir.

*Satan*—Send her to Africa, that is worse than I have here.

*Satan*—What, who do you say?

*Doorkeeper*—Head of the English department at M. S. C.

*Satan*—Kick him out, we have a peaceful household here at present and wish it to continue such.

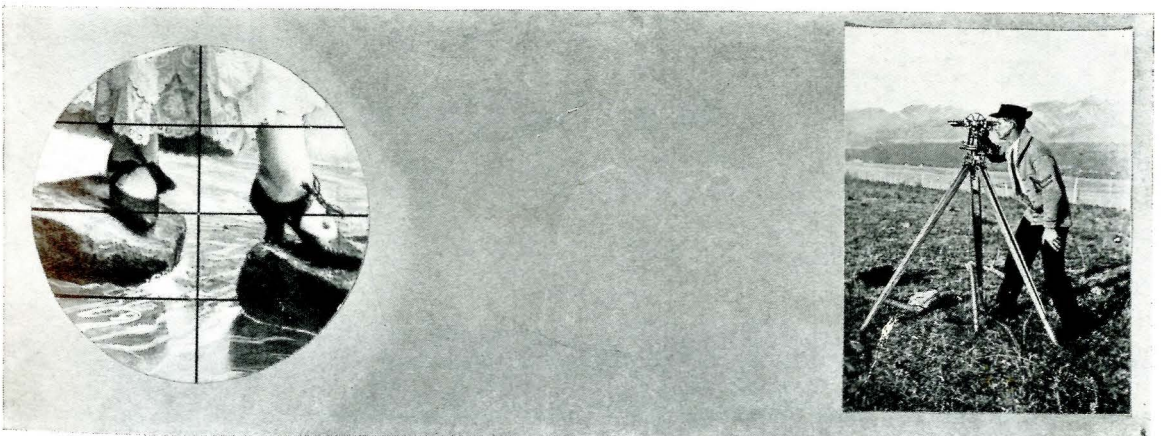

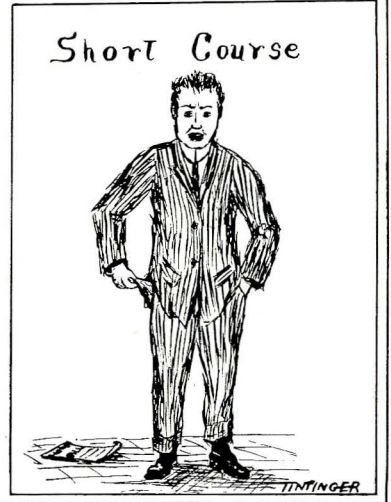

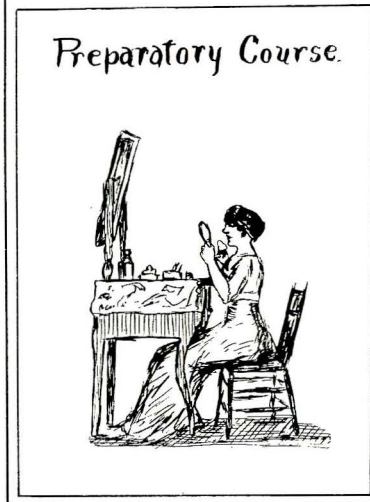

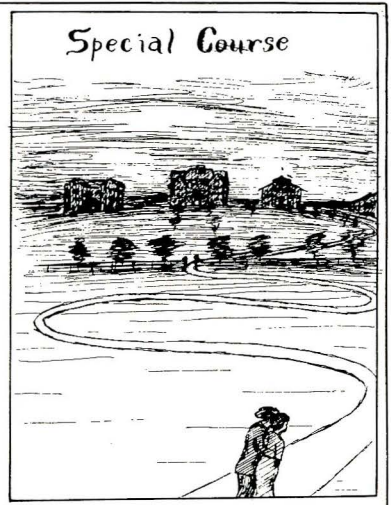

*Satan*—Who are you, young man?

*Student*—Thomas Buckley.

*Satan*—Where have you been?

*T. B.*—For the past year under Kneale in mechanics.

*Satan*—You have had Hell enough. Pass on above.

## The Band

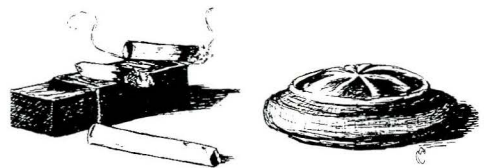

NO, ladies and gentlemen, this is not the seventh annual meeting of the chefs of America, nor is it the meeting of the Sons of Herrmann. It is the first and only collection of musicians that the celebrated Louis von Howard has amassed in this city. Among them we are pleased to note some of the most famous musical artists.

The peculiarity of garb is due to the fact that Louie was compelled the last minute to stay at home and take care of the baby while his wife was attending a suffragette meeting and did not return in time so Lou could get his clothes back. He was seen in this dress and so ridiculed that he compelled the band to don it in order that he might not be alone in his misery. In this he was ably assisted by Red Undem, who saw a chance

to get uniforms for his collection of chefs at the "Shorthorn" Club rooms.

After the performance had ended Louie came to the conclusion that the uniforms might need some explanation and so stated that they had been worn as a hint that the band needed other suits. As a result a philanthropic student body came to the rescue and so now they are seen as those little pests commonly known as bell hops. Many of the faculty members have complained that the uniforms have disturbed their classes because certain students make wagers as to what the uniforms were originally intended for and this disturbs the dullness of the classes.

It was due to the prominence that these uniforms gave the band that they were able to give so many dances after the basketball games. In this manner they were able to arouse sympathy aside from that which comes from having to hear their own music.

Florence Wight's favorite song—"Waiting for Robert E. Lee."

## The Civil Engineer

IN the early dawn of history  
when mankind did appear,  
Things were indeed quite differ-  
ent, for there was no engineer.  
The aggies owned the country  
and had an easy time,  
For there were no ladders of  
ambition for the patriarchs to  
climb.

The planets in the garden, un-  
folded to the sun,  
With fruits and plants and  
dainty things, the world was  
overrun.

Old Adam would, from day to  
day, leaning on his hoe,  
Gaze upon his orchards and  
watch his apples grow;  
Or if in need of some new  
clothes to dress him for the  
ball,  
He would simply pluck some  
foliage or wait for the leaves  
to fall.

There were no scientific books,  
teaching conservation of the  
soil,  
Everything grew quite plentiful,  
without a bit of toil;  
And so they lived in pleasure  
under heaven's sky sublime,  
Enjoying many blessings in this  
bright and happy clime.

So the world might yet be go-  
ing, had there not come a  
fatal day

When everything was changed  
and the old things passed  
away.

The blue skies turned to dark-  
ness and over all was gloom,  
The earth was hushed and silent  
as the silence of the tomb.

Then the rain began to pour  
and Noah built his brig;

But he found he couldn't do the  
job without calculus and trig.  
So he started in to figure the  
bending moments in the  
beams,

The weight of wood and iron  
and many other things.

He kept a night school of en-  
gineering, working on his boat  
by day,

Until the stately ark was

launched and proudly sailed  
away;

She was the finest brig on any  
sea afloat;

Which has given Noah the  
honor of being an engineer of  
note.

And ever since the time of  
Noah the world has loved to  
hear

Of all the wonders contracted  
by the Civil Engineer.

Not very prepossessing in his  
boots and overalls,

He's found in every clime  
wherever duty calls,

Sinking piles into the quicksand  
on which to build a pier,

To hold the mighty thousands  
when the mighty ships draw  
near;

Building jetties in the ocean to  
keep the land intact,

Supplying things to Nature  
which the dear old mother  
lacked.

He has builded all the railroads  
that encircle this old earth,

The tunnels in the Andes, the  
mighty bridge at Firth,

Upon the arid prairies this ge-  
nius then has chose

To bring the needed water  
which makes them blossom as  
the rose.

By looking through his transit  
and working probs in math,

He keeps the world a-moving  
and in its proper path.

Now when again you see an  
engineer dragging consolation  
from a pipe,

Don't forget that he's the one  
that has set everything aright;

And that while you are dream-  
ing by a cheerful fireside,

He is bunking on the prairies  
with a tarp about his hide;

Working on from day to day  
with a purpose good and true,

Leaving monuments of fame  
when his toils on earth are  
through.

Let us hope that when the cur-  
tain rises on that happier day,

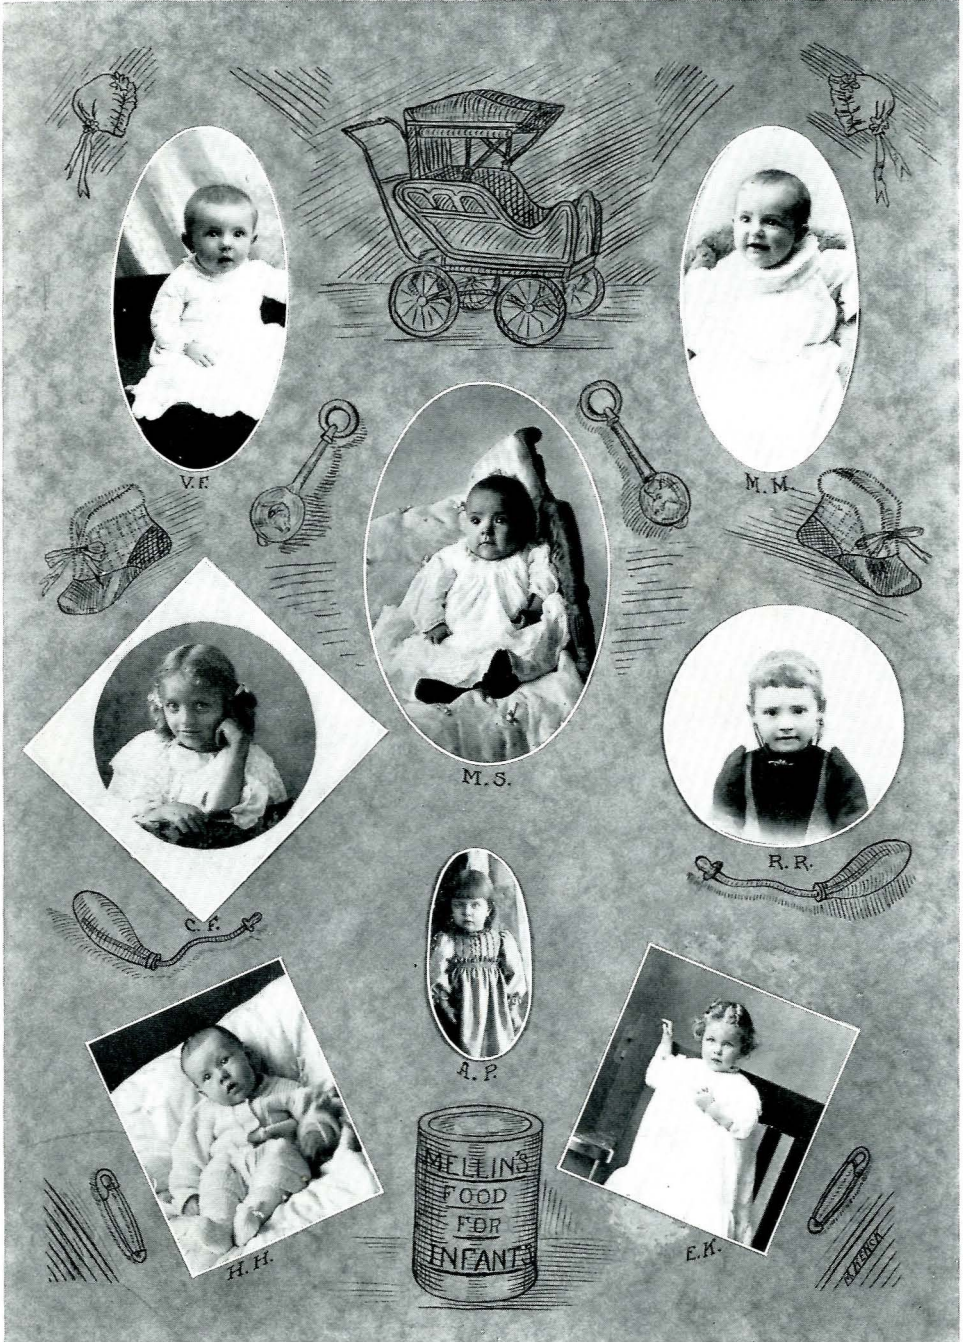

When the mist and clouds of  
centuries will at last have  
cleared away;

When we gather in that city  
which we all do hold so dear,  
We'll be welcomed at the gate-  
way by a civil engineer.

—Wm. J. Kremer, '10.

When first he spied  
Her height, he cried.  
"So long, so long, O gee."  
Perhaps if she  
Knew it was he  
She'd say "So long" to Lee.

New Song for Glee Club

Tune, Nut Brown Maiden.

Young Vic. Cotner, thou hast the Hazel, Hazel eye,  
 Young Vic. Cotner, thou hast the Hazel eye.  
 The hazel eyes are thine love,  
 They hold a light divine love,  
 Young Vic. Cotner, thou hast the Hazel, Hazel eye,  
 Young Vic. Cotner, thou hast the Hazel eye.

A little girl named Wight, Wight, Wight,  
 Of figure though tall was slight, slight, slight,  
 But say a thing against Lee  
 And then you'd better flee,  
 Because for him she would fight, fight, fight.

*Pupil* (coming into the laboratory)—Will you tell me what I got in the bacteriology quiz?"  
*Prof. H. M. S.* (on departure of student)—"There it goes again. Just when I get this Bacterium Acid Lactici counted up to ninety-nine billion, two hundred forty-eight million, six thousand, four hundred and seventeen, some one has to come in and interrupt so I forgot where I was. Now I've got to begin again. One, two——"

Shanks didn't believe in steadies, 'tis true,  
 Alas too true.  
 But changed his belief, as most boys do,  
 O yes, they do.  
 On Friday and Saturday eves he would call,  
 On Sunday he'd tarry the longest of all;  
 It lasted all spring 'tho commenced in the fall,  
 They're happy, too, toot toot.

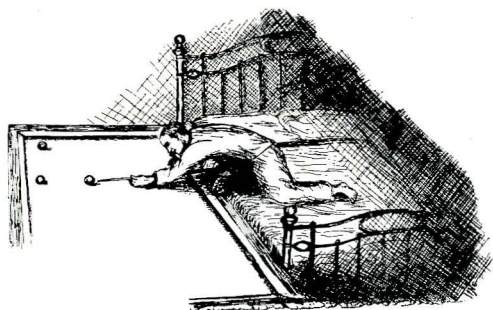

BUT SHORTY GOT A LADDER.

Little Shorty Whipple, poor boy, couldn't reach  
 That girl at the dorm, that all know is such a peach,  
 He wasn't very tall  
 And that wasn't all  
 And for blocks and blocks you could hear her  
 loud screech.

Miss Sweat, my friends, there was a winner,  
 She couldn't be better, but she might have been thinner,  
 She did not seek fame  
 But to her many came,  
 And many would have bought her a dinner.

P. Kolbe was such a lovely boy,  
 Too bad he had to go;  
 At least that's what two girlie's say,  
 And they're the ones to know.

Schumacher—"Well, let's see, it's like this.

A SNAKE DANCE ON GENERAL PRINCIPLES

### The Microbes Serenade

A LOVE lorn microbe met by chance  
 At a swagger bacteroidal dance  
 A proud bacillan belle, and she  
 Was the first of the animalculae;  
 Of organisms saccharine  
 She was the protoplasmic queen,  
 The microscopical pride and pet  
 Of the biological smartest set.  
 And so this infinitesimal swain  
 Evolved a pleading low refrain.

Refrain:

O lovely metamorphic germ,  
 What futile scientific term  
 Can well describe thy many charms?  
 Come to these embryonic arms.  
 Then hie away to my cellular home  
 And be my little diatome.

His epithelium burned with love,  
 He swore by molecules above  
 She'd be his own gregarious mate  
 Or else he would disintegrate  
 This amorous mite of a parasite  
 Pursued the germ both day and night.  
 And 'neath her window often played  
 This Huxley-Darwin serenade:  
 He'd warble to her every day  
 This rhizopodial roundelay.

Refrain:

O most primordial type of spore,  
 I never saw your like before;  
 And though a microbe has no heart  
 From you, sweet germ, I'll never part;  
 We'll sit beneath some fungus growth  
 Till dissolution claims us both.

SHORT HORNS INTRODUCE NEW METHOD OF SECURING DORM GIRLS.

THE INTERESTING PART OF THE CLASS SCRAP

### St. Peter at the Gates

Bell rings—St Peter opens the gates—  
 Well, well, who are you young people?  
 The Leader—The 1914 Montanan Staff.  
 St. Peter—Why, come right in, I have  
 been expecting you people for a long time.

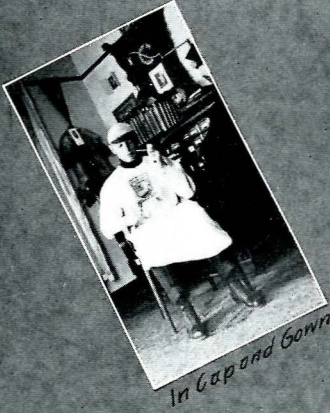

BUSTED

There was a man in our town,  
 Who never wore a cap;  
 He went about in rain or shine,  
 And didn't care a rap.

And when he found his hair did grow,  
 Like a ball right off the bat;  
 He turned around, he swore an oath,  
 And never wore a hat.

## THE WEEKLY EXCUSE.

Vol. 1

FRIDAY, MARCH 32, 1913

No. 1

### FACULTY UNCOVERS FRATERNITY AMONG COLLEGE STUDENTS

The student body was generally horrified and shocked this morning to hear that, as a result of some diligent detective work by some members of the faculty, a secret Greek letter fraternity was discovered flourishing in the college. The organization will, according to the statement of the committee in charge, be disbanded immediately.

It was generally known among the student body that some form of social club existed among a number of the students, but it was generally thought that this was an unorganized gathering that met by accident at certain places of refreshment in the city, and while the same persons were nearly always present, nothing was thought of it.

Then it became noticed that some of these members were wearing pretzels, and when asked concerning this, refused to answer any questions regarding the emblems. The faculty committee which has charge of such matters, quietly took the matter in hand with the astonishing finding that the pretzels were the Greek letters Alfalfa and Ieta, and that the organization, that had in sport been called the Ieata Pretzels, was a full-fledged Greek letter fraternity.

It was further ascertained that the chapter house was located at 19 West Main street and that the seeming public place there, was in reality the meeting place of this pernicious organization, and the proprietor and his employees were the patrons of the fraternity.

When interviewed by The Excuse, the chairman of the faculty committee had the following to say: "Yes, it is true that the faculty is taking steps to abolish this organization and will, in all probability, forbid the members the use of the college union until such time as they sign a pledge guaranteeing membership to at least three members of the faculty. We foresee no difficulty in taking this step unless the pretzels are given to the women of the institution to wear, in which event we will be obliged to call for the assistance of the home science department. I have nothing more to say."

The names of the students connected with the organization are:

(Continued on Page 3.)

### ANNOUNCEMENT

The editor of The Excuse desires to announce that beginning with the next number, a column devoted to the home, manners and fashions will be conducted. We have secured to edit this column at great expense and trouble, the following well known persons: Mrs. W. B. Herrick, Miss Lana A. Baldwin and Miss Lilla Harkins.

Mrs. Herrick will give advice on good manners and good form. She has been known for years as an authority on this subject, and it is with great pleasure that The Excuse announces this addition to its staff.

Miss Baldwin will conduct the beauty portion of this column. She has given lessons in this difficult subject for several years and we can state that her pupils have unsurpassed reputations in their line all over America and in parts of Belgrade.

Miss Harkins will conduct the secret service department and will tell weekly how to get around the little annoying things of life and to get what one is searching for. There will be other contributors, but these will be the main standbys of the column.

### PROMINENT COLLEGE STUDENT IS CAUGHT STUDYING AT HOME

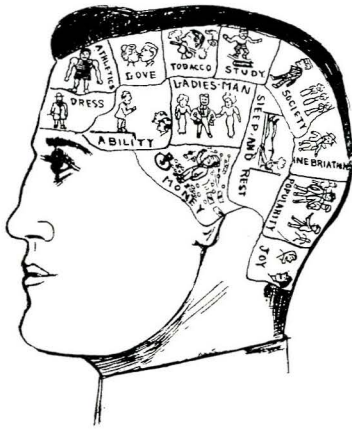

It was with a distinct shock that the college body learned late yesterday afternoon that one of the best known students of the college was discovered studying at his home at 715 South Grand. The guilty party was none other than the celebrated Bull Mooser, Teddy Roosevelt.

It had been noticed for several days that Mr. Roosevelt had seemed rather preoccupied, and even in the presence of several of his closest friends had seemed to be so absent minded that even his room mate had remarked at his preoccupation.

Yesterday afternoon his room mate appeared on the campus, his head wrapped in a large Turkish towel, and mumbling unintelligible words to himself. When questioned by his anxious friends, he would answer nothing but, "Teddy, Teddy."

Becoming alarmed, some of them went to his room, and after forcing the door discovered Mr. Roosevelt deeply absorbed in Martin's "Physiology," and upon being asked the cause of his strange actions, he refused to utter a word.

At the time of going to press nothing further has been learned regarding this mystery, and officers of the city report that there is a slight chance that the room mate of Mr. Roosevelt will recover. The unfortunate man was taken charge of by the city health officer and at the time that we go to press is still in his care.

THE COLLEGE BOYS BRAIN AS FATHER SEES IT

### The Alumnus' Dream

A FEW nights ago, a week or so,  
I had a wonderful dream.  
It took me back o'er the shadowy track,  
To a well remembered scheme.

There were students and profs. and freshies and  
sophs.

A review of former years,  
The pleasure and fun, and work by the ton,  
Were mingled with hopes and fears.

I entered the door as in days of yore,  
Just as the last bell rang;  
It sounded clear to my startled ear,  
And had a studious clang

I peered in books and in hidden nooks,  
The library's sole estate;  
Then strolled 'cross the hall for the trig roll call,  
As Prof. Tallman came in late.

I wandered around, all over the ground,  
I visited cow and horse.

ON HIS WAY TO AN EIGHT O'CLOCK CLASS

I came up the walk and heard Cobleigh talk  
On the object of his course.

And Miss Harkins grasped my arm and gasped,  
And led me back once more,  
To see and admire to rapture and fire,  
Over her brand new floor.

Had just missed the car and noted how far  
The walk was clear to town,  
When patient and slow came a voice from below,  
"Breakfast is ready, come down."

### Cheer Up

THERE little girl, don't cry,  
You are going to flunk, I know,  
In your chemistry  
And biology,  
With your class you cannot go,  
No use for you to try,  
So there little girl, don't cry.

There little girl, don't cry,  
Your French is hard, I know,  
And the golden gleams  
Of your graduating dreams  
Will fade as on you go,  
But you have what money won't buy,  
So now little girl, don't cry.

There little girl, don't cry,  
There is someone waiting I know,  
For your culinary arts  
Will win many hearts,  
As they did in the long ago,  
So cheer up for the "bye and bye,"  
There little girl, don't cry.

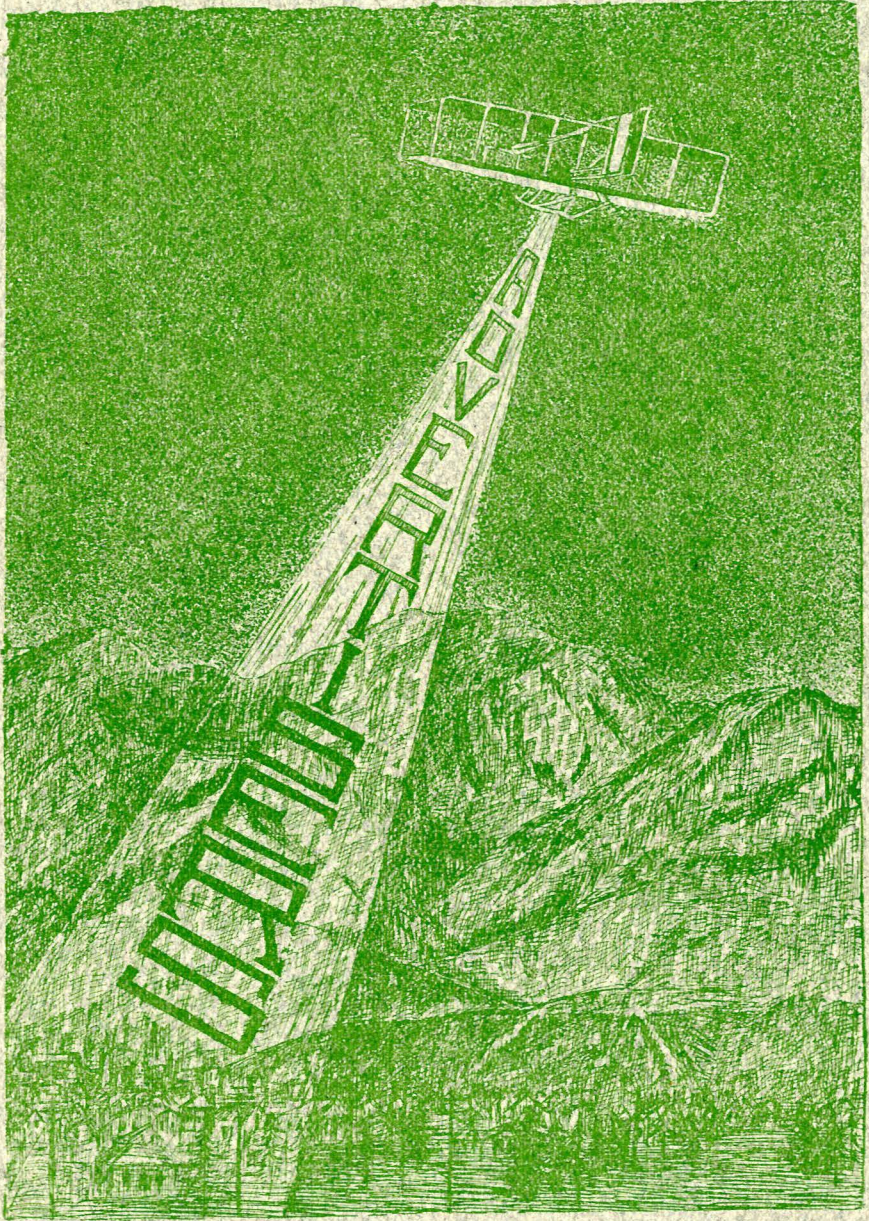

"CANNED."

**NEVER AGAIN!**

1914 Montanan Staff (in chorus)—“Never, never, never again.”

## College Boosters

THE pages following are filled with a few words from some of the persons who have made the publication of the 1914 Montanan possible. The staff wishes to say that it certainly appreciates the interest that they have shown in the college and its year book, and thanks them for the assistance they have given.

And the staff would urge that every student, every person interested in the forward progress of the institution remember that the people whose ads appear in the following pages are the ones who help out on the tournament, make the college publications possible and do everything possible to make college life worth while for either students or faculty. It is then urged that all loyal supporters of the college do what is fair by these people and support them in return for the support they have given us.

And, before going further with this volume, the staff desires to thank those who assisted in the work that has been finished, particularly those who helped in the art work. All of the art work in this volume was done under the supervision of the art department and Miss Baldwin and Miss Lane deserve special mention. Others who assisted to a greater or lesser extent are Mildred Cline, Lyle Tintinger, Evelyn Boyle, Robert Lapeyre, Jack Milburn, Max W. Kenck and Hazel Coffey.

# Did You Know That the Famous Gallatin Valley

*“The Egypt of America”*

comprises the richest agricultural land in the world; that it raises more grain to the acre than any other section of the United States or Canada; that grain from the Gallatin Valley has won prizes in competition with that from all parts of the world, and that many trainloads of Gallatin Valley grain are annually shipped to foreign markets because of its superior qualities?

*Here Are Some of the Average  
Yields Per Acre:*

Wheat, irrigated	- - - -	65 bushels
Wheat, non-irrigated	- - - -	40 bushels
Oats	- - - -	70 bushels
Barley	- - - -	45 bushels
Potatoes	- - - -	200 bushels
Timothy hay	- - - -	4 tons

THESE ARE FACTS

It is also a fact that approximately \$6,500,000 worth of farm products were shipped into Montana in 1911 simply because of the lack of people to properly develop the agricultural resources of the state and thus supply the demand created for these products by the mining and stock raising sections. Bozeman, the metropolis of the Gallatin Valley, is only 98 miles from Butte, the greatest mining camp on earth, and only 96 miles from Helena, the capital of the state; hence, there is always a ready cash market for all products of the Gallatin Valley farm and garden.

For these and many other reasons, the Gallatin Valley offers unsurpassed opportunities and inducements to both the homeseeker and the capitalist.

If you are looking for a location where you can buy A-1 improved farming lands, irrigated or non-irrigated, at bargain prices; where crop failures are absolutely unknown, and where energy and ability are sure to meet with a substantial reward, then come to the Gallatin Valley. There is no better field in the Northwest today for profitable investment.

For further information regarding farm lands, timber lands, water power, industrial opportunities, business openings, railroad rates, or other things of interest to the investor and homeseeker, address

# You are on LONDON BRIDGE Today

\$5000.00 a year  
from ten acres  
Six Months'  
Vacation

## Do You

remember the experience of the philosopher who offered English sovereigns for pennies on London bridge a century ago without finding a taker—how the passers-by *ignored* the opportunity and *lost the profit* because they thought it *too good to be true*?

And do you realize today that *YOU* are face to face with an offer, every whit as profitable to *YOU* as the exchange of copper for gold—if you are quick to grasp it?

### FIVE THOUSAND DOLLARS A YEAR

net income from ten acres of matured apple and cherry orchard in the *frostless* and *wormless* Bitter Root Valley with a *home and six months vacation* annually in one of the most magnificently endowed natural environments on the Creator's footstool, with *golf links, hunting, fishing and mountain climbing* and with neighbors of culture, education and refinement—is the opportunity we offer you.

We believe you will *investigate* this opportunity because this appeal for investigation is directed to broad-minded and sensible readers, living in an age of scientific progress which has made the impossible of yesterday the reality of *today*. This is *not* an offer of something for nothing. It is an opportunity for you to make an immensely profitable compact based on mankind's partnership with Nature.

### \$5,000 YEARLY FOR LIFE FROM 10 ACRES

A Bitter Root apple orchard bears commercially in its fifth year. Ten acres, fully developed, should be capable of returning you during early maturity, strictly net, a profit of from \$2,000 to \$5,000 yearly. Beginning with the 10th year from planting, judged by experience of others, 10 acres should net you an *income of \$5,000 yearly and employ only half your time*.

If you have a fair-sized income now and are willing to improve your condition, you *do not need much capital* to possess one of these big-paying orchards.

### OUR PROPOSITION AND PLAN

briefly stated is this: We will sell you a CHOICE 10-ACRE ORCHARD HOME TRACT (spring of 1913 planting) best standard varieties apples and cherries—with the *company's definite written contract* to care for and develop your orchard under expert horticultural supervision for five years from date of planting, including

Here is the chance of your lifetime you have been looking for—it demands your consideration. We invite your fullest investigation. **START TODAY** by writing for the whole interesting story.

## BITTER ROOT VALLEY IRRIGATION COMPANY

ROBERT S. LEMON, General Sales Manager

848-350 First National Bank Building, Chicago, U. S. A.

all land taxes and irrigation charges—for \$500 an acre. The land should easily be worth, conservatively stated, in fair comparison with other improved lands, \$1,000 an acre. There's a clean profit to you of 100 per cent on a 5-year investment to count on at the outset. Only a \$300 cash payment required now to secure your orchard tract—balance in easy payments divided over a ten-year period. Your payments for the first few years are practically ALL the cash outlay you will have, as *your orchard tract should pay for itself while in commercial bearing during the buying period and yield you a handsome profit besides*.

**RESPONSIBILITY OF OUR COMPANY.** We are the largest orchard planters and grovers in the Northwest. The presence of our advertisements in this magazine and in magazines like the Outlook, World's Work, Review of Reviews and others which maintain a strict censorship over their advertising is abundant evidence of our responsibility.

Prof. Cobleigh—"The scientific spirit consists of openmindedness and a desire for the truth."

## EYESTRAIN THE CAUSE OF MANY HEADACHES

Of all the causes that produce headache, eyestrain is probably the most common.

Any eye that departs from normal in it's depth, curves, strength of the various muscles attending the act of seeing, is almost sure to be called upon to do an abnormal amount of work, which results in eyestrain.

In trying to remedy this strain, nature directs an extra amount of muscular effort to this organ, causing a greater fullness of the bloodvessels of the head.

It is now very easy to understand why this excess of blood to the brain would result in those dull, persistent headaches.

Drugs are of no benefit in these cases, you have to get at the cause.

Properly fitted glasses supply the remedy.

See that your eyes are examined by a qualified Optometrist.

An Optometrist is one who measures your eyes and adapts lenses for same, without the use of drugs.

An Optician is one who attends to the mechanical side of the work, such as lens grinding, frame adjusting and repairing, etc.

## *Thousands of Bright People Have No Opinions*

Yes, let us say it over again. No opinions of their own. You will find it true that thousands of men did not know when they were having breakfast on Election Day Morning for whom they were going to vote.

Again as to the women and shopping a simple plan for the shopping day would save a lot of time and dissatisfaction and "dawling" really what ought to be the Vital question of shopping:

First—which is the safest, cleanest, most convenient, roomiest most refined store?

Second—which is the store in which one is not embarrassed by expectations of selling something to those who are merely visitors?

Third—where is the best assorted, most extensive and freshest stock of desirable goods?

Fourth—where did the *one price system originate in Bozeman?* And where is it always lived up to?

Fifth—where were the systems of exchange and return of goods for refund of cash established as a rule for every transaction?

The answers to these questions—at
