THE 1928  
MONTANAN  
PUBLISHED BY THE  
MONTANA STATE COLLEGE  
BOZEMAN

VOLUME  
TWENTY  
ONE

LEADERSHIP

---

# DEDICATION

To the Alumni of Montana State College whose domineering leadership in the school and the nation coexistent with their character and scholarship has enabled them to uphold the high standards of Montana State College---This volume--The nineteen twenty-eight Montanan--is dedicated.

# FOREWORD

To bring back memories of  
some of the former students---  
To draw accurately an account  
of the activities, organizations  
and accomplishments of one  
year----To place in a lasting  
form such an account-----  
These have been our aims in  
compiling the nineteen twenty-  
eight Montanan.

ADMINISTRATION

## THE CHANCELLOR

My cordial greetings and good wishes to the members of 1928. May your present adventure in education train you to scrutinize rigidly every doctrine proposed by yourself and others. May you recognize and avoid whatever is false and confusing in written and spoken words. May you acquire a noble enthusiasm for truth and the welfare of society. May you be worthy of the pioneers of Montana who wrought supremely well in conquering the frontier, in building a state and in achieving the economic, industrial, social, educational and political liberty with which our heritage is now endowed.

*Melvin A. Brannon*

## PRESIDENT OF THE COLLEGE

Your theme of "Leadership, Character and Scholarship" which means a well rounded college experience and an earnestly taken college course; is so effectively described by William DeWitt Hyde in his "Offer of the College", that I desire to quote his words, as conveying my greetings and hope for those who attend Montana State College.

"To be at home in all lands and ages; to count nature a familiar acquaintance and art an intimate friend; to gain a standard of appreciation of other men's work and the criticism of your own; to carry the keys of the world's library in your pocket and feel its resources behind you in whatever you undertake; to make hosts of friends among the men of your own age who are to be leaders in all walks of life; to lose yourself in generous enthusiasms and cooperate with others for common ends — this is the offer of the College for the best four years of your life."

*Alfred Peterson*

## ACTING PRESIDENT OF THE COLLEGE

TO THE STUDENTS OF THE STATE COLLEGE PAST AND PRESENT, GREETINGS:

It is most fitting that the Montanan should, year by year, emphasize some particular purpose or object. Very appropriate it is, that a college publication should make leadership its slogan. Leaders are born not made.

Leadership is built on honesty, ability, initiative, confidence in self, and a measure of aggressiveness, or a determination to keep working at the job. To a large extent it is this group among the young people of the country who decide to go to college. Many do not fill the requirements and fall by the way. Many manifest their leadership through association with their fellows in college. Others, developing more slowly, make their place later in life. However, it is largely those who persist to the end of their college course, that we depend upon to take the lead in the social, business, industrial and professional life of the State and Nation.

College is but a preparation, an aid towards more efficient work. Attainment is the result of continued hard, persistent endeavor, thoroughly and skillfully performed. For most of us this is the task of a life time. "Be not weary in well doing."

*F. B. Lufela*

## THE DEAN OF WOMEN

GREETINGS TO THE STUDENTS OF MONTANA STATE COLLEGE:

We may now look back on the record of things done during the past year with pride and a certain degree of satisfaction.

Great people have not always reached their goal just because of their natural endowment, but because of that certain peculiar quality of being able to decide what they want and have used system and industry in getting it.

Montana State College has a just pride in the women who have gone out to the world's service because they are establishing a type that is recognized in the social, commercial and industrial world.

Montana State College women are filling positions of trust and responsibility and they have gained their high places because they have applied brains and a steady will to their processes of living in such a way that in return they have found the kind of happiness which in their innermost souls they know they really want.

*Una B. Herrick*

## THE DEAN OF MEN

A leader is one who in facing a new problem knows what is best to be done. There is an old saying that "the world steps aside for the one who knows where he is going". Formerly most leaders were developed by experience in practical life and came up through the ranks and there are now outstanding examples of self-made leaders.

Scholarship as developed in the class room and the laboratory is an essential factor in leadership, but it is only one factor. Just as important as scholarship are the qualities of leadership that come from team work and human contact on the athletic field, in the student councils, in successfully managing a fraternity house, or in editing a college publication. Professor T. S. Adams of Yale says, "Thinking is only the beginning of wisdom; action is essential to its consummation. Truth as it emerges from the closet is largely hypothesis. It must be refined and tested in the laboratory of life." After Luther Burbank had created a new plant in his greenhouse he tested it out in a real farm field before putting it on the market. The student activities are the best testing fields that colleges possess for their prospective leaders.

*J. M. Hamilton*

## COLLEGE OF AGRICULTURE

In a geography of the United States published in 1876, or fifty years ago, there is the following reference to this State: "Montana is yet to a great extent unexplored. It is known to have a fine climate, much rich soil and great mineral wealth. It already produces a large amount of gold." The two principal towns were Helena and Virginia City. The population of Montana in 1870 was 21,000. Cattle were the principal agricultural product of the country.

DEAN LINFIELD

Seventeen years later, or in 1893, the State College of Agriculture and Mechanic Arts and the Agricultural Experiment Station were established; but ten years later, or in 1903, only four students had graduated in agriculture, which showed the little interest at that time in agriculture.

From its establishment the College of Agriculture and the Experiment Station took an active leadership in the agricultural development of the State, particularly in calling attention to her agricultural resources and pointing the way to their development. The work of the institution also developed leadership among many farmers over the State, men who aided the institution in pushing forward our agricultural program.

About twenty-five years ago a beginning was made to enlarge the agricultural faculty and provide adequate equipment for instruction without which students in the agricultural course could not be expected. Ten years were needed to accomplish this task, during which practically all the present agricultural buildings were provided.

The more complete knowledge of the agriculture of the State which the work of the Experiment Station brought forth led to a large influx of new farm settlers, and from this an increasing student attendance in the College of Agriculture.

This training of leaders is, and should be, a large part of the work of the College of Agriculture. By so doing, it very greatly broadens the agricultural service it can render to the people of the State and Nation. It is the only institution in the State that is equipped to train these students for this wide range of service. We are trying to do the job as effectively as possible.

# AGRICULTURE

Montana has been recognized in recent years as a state prominent in agriculture. Farming, stock raising, dairying, and fruit growing have developed to such an extent that they form the basic industry of Montana.

The vast area of this state includes all varieties of climatic and soil conditions which present many problems peculiar to each locality in which they are found. Difficulties in finding nearby adequate marketing facilities and means of transportation of agricultural products are encountered.

The College of Agriculture stands as the pivot of this great industry. With the staff of trained instructors in the department to give students technical knowledge and practical experience, the corps of extension workers who are in charge of courses of instruction in agriculture for those who are unable to come to college, the Smith-Hughes men, field workers in direct contact with the people who are engaged in this industry, the college maintains service for those actively interested in the various branches of Agriculture. Through these agencies diversified farming, introduction of varieties of crops, better breeds of livestock, improved marketing conditions and better agricultural methods have established farming on such a prosperous basis that Montana is becoming important as an Agricultural state.

Men entering this profession find that the College of Agriculture with its well-equipped buildings, adequate supply of farm machinery and tools, and the experimental farm, is able to provide a thorough technical training and can give experience in practical problems at the same time the department of Agricultural education emphasizes the most desirable phase of this training, that of Leadership. A man can be a prosperous farmer, but unless he can assist others and share his ideas with them, he is not utilizing all his opportunities for success. A man who has taken work in agriculture should be an authority in his community. He can serve the people by bringing about better farming and living conditions.

The College of Agriculture and the people of the state are closely connected. Hundreds of calls come in yearly for advice on problems and for men to go into communities to do Smith-Hughes and extension work, thus representing their department in that they serve.

This demand for information encourages the work in the experiment station. It augurs well for the future greatness of Montana because without the high quality people agriculture and stock raising this great state of Montana cannot be maintained.

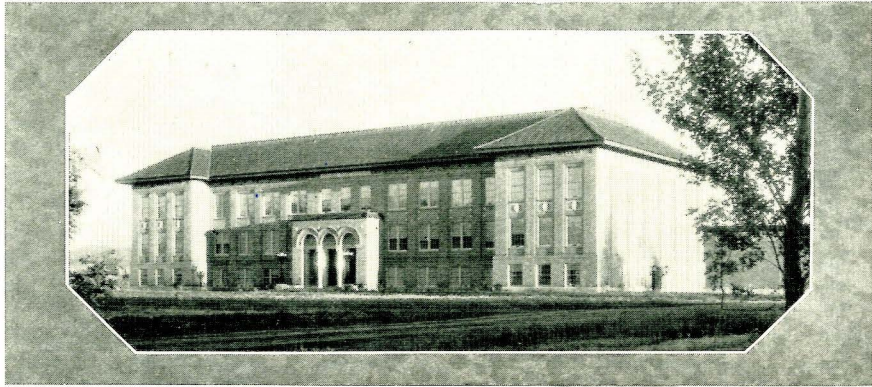

THE GREENHOUSE

IN THE DAIRY LAB

## ENGINEERING LEADERSHIP

Among the predominant features of our present day industrial life certain trends are of especial significance to engineering education.

Never before have industry and commerce worked as closely, hand-in-hand with "pure science". The most fantastic dreams of the abstract scientist require but a few weeks or months to be put to work for the benefit of mankind.

DEAN NORRIS

The scientific curiosity of today is the household article of tomorrow. The engineer must take the discoveries of the scientist and, with a full comprehension of their significance, convert them into useful articles of commerce. More than ever before, therefore, must the engineer have a thorough understanding of those sciences which are contributing in such great measure to our material welfare and advancement.

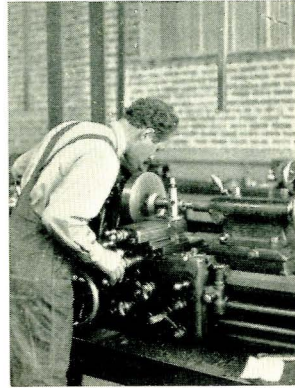

In the conduct of modern industry the workman is now recognized as a member of society whose well-being and contentment are as important as those of the capitalist. The engineer who aspires to leadership in the industrial world of the future must understand the factors which control human relationships.

He must inspire those whom he is to lead with his integrity, his fair-mindedness and his loyalty both to those who serve him and those whom he serves.

The leader of tomorrow's industrial life must have Science, that he may understand the forces and materials with which he works; Humanity that he may understand those who work with and for him; and Honor, that those who work for him may respect him and that those for whom he works may have confidence in him. Without all three the attainment of Leadership as an engineer is impossible.

# ENGINEERING

Engineering has always been and will still continue as one of the greatest industries of Montana. Railroads bringing settlers and transporting products have been made possible through engineering. Thousands of acres of land have been brought into cultivation through vast irrigation projects. The development of one of the most abundant natural resources, that of water power has taken place in the last twenty years and has not yet reached maximum capacity. Through a network of roads and highways reaching all parts of Montana, the scenic grandeur of the state has been made accessible to tourists.

MACHINE SHOP

All the resources of Montana are just in the infancy of utility. The engineer must make these resources accessible and make plans for their utilization. The engineer must have a thorough technical training and experience to be able to discover, develop, and put at the people's disposal the wealth of this state in natural resources and industry.

That engineering is an attractive field to young men is proved by the fact that the College of Engineering with all its branches enjoys the highest enrollment of all the Colleges on the campus. Through the departments of Civil, Electrical, Industrial, Chemical, and Architectural Engineering, many young men of Montana are taking training to prepare themselves for this profession.

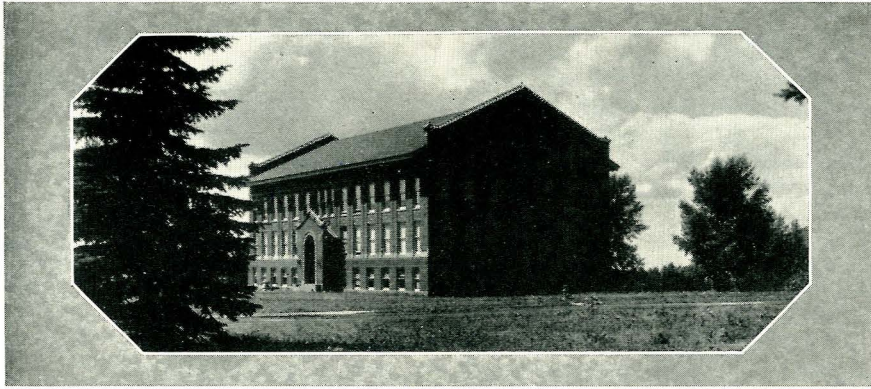

The equipment for these departments is excellent. The new Engineering building is complete with all types of apparatus. From time to time large industrial concerns send models of the latest machinery they have to give the students an opportunity to be familiar with the most modern equipment.

Research is the foundation of engineering development yet the engineer must be a man that can present his developments to the world. Engineering must therefore be so taught as to enable the man who does make these discoveries to present them in a plain forceful manner. It is therefore seen by those in charge of engineering that the whole stress is not laid on the technical side of the education. Thus Montana is trying to produce engineers who have a broad training as well as a good professional knowledge.

Some of the graduates of the College of Engineering have gone into research work, others hold executive positions with large industrial plants, and many have accepted places in the teaching profession. All of these have received technical training, but they also know how to serve.

ELECTRICAL EXPERIMENT

## COLLEGE OF APPLIED SCIENCE

In these modern days the scientist holds a commanding position. This is the age of science. Much of our progress has come through the development of science, especially in chemistry, biology, and physics. These sciences are fundamental in the development of agriculture, medicine, the industries, and in social progress. A course in applied science gives the basis for important professional work in life. Scientific thought has a far-reaching influence upon the whole social order.

PROFESSOR COOLEY

Montana State College has taken a prominent place in engineering and agriculture largely because of two facts; first because the departments of engineering and agriculture are themselves well equipped, well organized and well taught; and, second because they are based upon sound collegiate training in science. Particular attention is being given to maintaining science upon a high level of efficiency at Montana State College, the institution being rated in class "A" in the North Central Association of Colleges.

In truth the college of applied science is a challenge for the young man or woman who has just finished high school. It is indeed a great task to pick the profession for which students are going to be best fitted. A course in applied science gives the basis for important professional work in many of the walks of life. It requires thorough work and close application but its rewards are generous.

# APPLIED SCIENCE

The College of Applied Science at Montana State College is playing a very important part in producing well trained college men. This department gives instruction and training in the fundamental sciences as applied to agriculture, engineering, and home economics. A large and important part of the student's work in the majority divisions is given in the science department.

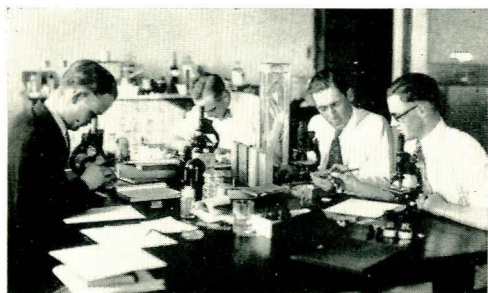

IN THE CHEMISTRY LAB

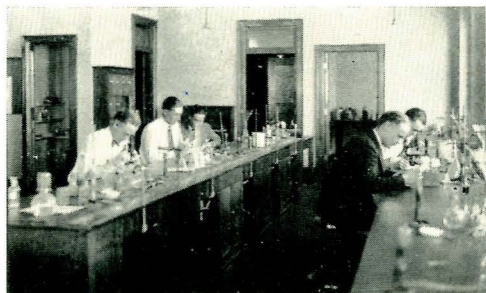

It is the policy of the department of botany and bacteriology to give the best possible undergraduate work, sending its best products to the larger universities for graduate work. The department is also designated to give pre-medical work. Its graduates have been found very acceptable for fellowships in postgraduate schools where they have never failed to make good.

Entomology and zoology are playing a big part in the sciences today. It is estimated that five-sixths of the animals in the world are insects. They have much to do with man's economic welfare, his health and happiness. From a scientific point of view they are among the most profitable forms of study. The entomologist now takes his place with the engineer, the chemist, the doctor and the lawyer in the professional field.

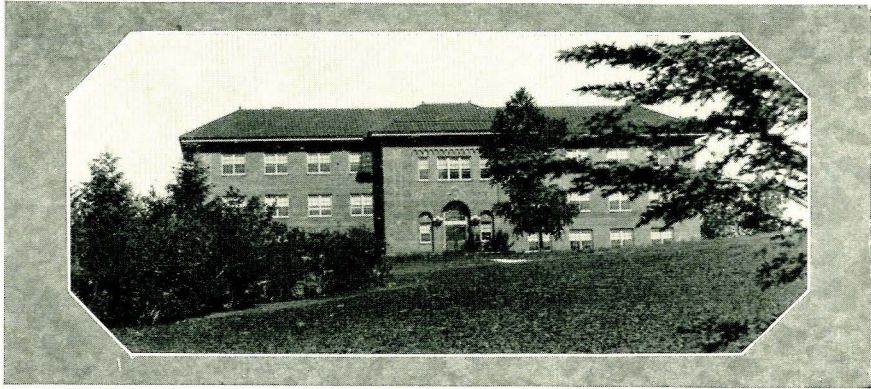

The department of Chemistry takes a very important part in a technical school. Chemistry is applied to the various phases of agriculture, home economics, engineering and many other important industries. To prepare students to take a leading part in the development and operation of those industries and pursuits which are based on the application of chemistry, this institution offers three collegiate courses. These courses are designated as Chemical Engineering, Industrial Chemistry and Bio-Chemistry. The Chemistry building is one of the most modern in the country and is equipped with all the necessary laboratories and facilities for carrying on instructional and research work in chemistry.

ENTOMOLOGY

BOTANY

## THE COLLEGE OF HOUSEHOLD AND INDUSTRIAL ARTS

The College of Household and Industrial Arts is indeed proud of its Alumnae as they have gone out to real service and positions of trust and filling their places with honor to their Alma Mater.

Rapid indeed has been the evolution of women's progress. The old order is changed and because the woman student today is living in an age that has emerged, quickened and tempered out of a great war she is more likely than her Sister Alumna of a few years ago, to choose the career that is best suited to her taste and talent.

DEAN HERRICK

From Applied Art, Home Economics and Secretarial Departments, women are graduated each year, to go into various occupations to prove their strength and understanding in the beauty and manifold duties of life.

In the Book of Proverbs is found: "Through wisdom is an house builded and by understanding it is established. And by knowledge shall the chambers be filled with all precious and pleasant riches."

A woman's happiness comes not from satisfying a passing whim but in her everyday contacts with the high and low the lame and the halt, particularly her own family to whom she may give of her resources.

This is life abundant and a precious heritage.

# Household and Industrial Arts

The College of Household and Industrial Arts at Montana State College is a field of applied knowledge hence its curricula need always to include generous provisions for basic courses in art and sciences.

It is the ultimate purpose of the Home Economics course to improve the home not only in its various physical phases but also in its aesthetic, economic, educational and social aspect. The home, which is our most conservative social institution, is undergoing many and far reaching changes which eliminate much that was essential in the past but at the same time introduces a host of new and unsolved problems. The home is intended to serve the various needs of the family group and must therefore be sensitive in its adjustment to changing conditions yet consciously conserving its heritage of emotional and spiritual values. It is the aim of the Home Economics Department to equip their graduates with a measure of functional knowledge and also to develop within them ideals, appreciations and an inquiring and open minded attitude which will enable each to work out a solution to her life problems and yield her a satisfying personal philosophy.

The Department of Secretarial Science not only prepares men and women for business fields, but also allows elective studies in education sufficient to meet the requirements for teaching of commercial subjects in school. Where the engineer, the chemist, and the farm specialist work in the realm of production, efficiency measured in terms of physical results, it is the province of the accountant, the statistician, and the business executive to translate this work into terms of financial efficiency in the business enterprise by an analysis of production cost and the forecasting of market values. Good secretaries are always in demand, therefore the course offers training for the business secretary in the keeping of business records, and in the work of the office in the carrying out of the routine of communication between the executive and his contacts both within and outside of the business organization.

SECRETARIAL SCIENCE

COOKS

ARTISTS

# AGRICULTURAL EXTENSION

DIRECTOR TAYLOR

The Cooperative Extension Service of the Montana State College and the United States Department of Agriculture was organized as the last of three principal divisions of the College, to conduct extension work defined in the Smith-Lever Act of May 8, 1914, as follows:

“Sec. 2. That cooperative agricultural extension work shall consist of the giving of instruction and practical demonstrations in agriculture and home economics to persons not attending or resident in said college in the several communities, and imparting to such persons information on said subjects through field demonstrations, publications, and otherwise; and this work shall be carried on in such manner as may be mutually agreed upon by the Secretary of Agriculture and the state agricultural college or colleges receiving the benefits of the Act.”

Extension agents are the local representatives of the State College and the United States Department of Agriculture, and the local people wherever extension work is carried on cooperatively. These extension workers are public teachers paid with money largely raised from all of the people by taxation, and are charged with giving instruction and practical demonstrations in agriculture and home economics.

Extension work deals not only with agricultural production, but also with economic problems, including marketing and cooperative associations, and with the interests of the farm, home and rural community. The extension service, including the extension agent, is as much interested in the marketing, distribution, and utilization of farm products as it is in production, and it may properly give information and help in all of these lines.

The Extension Service in each state is under the administrative management of the director, who is the joint representative of the College and the Department of Agriculture. Under the Director are State Supervisors, the Extension Specialists and County Extension Agents. The Extension Director is authorized to enter into cooperative agreements with county boards of commissioners with reference to financial support for the maintenance of extension work in the county and the plans for the use of the cooperative funds in the extension work within the county.

FARM AND HOME WEEK

The 1925 Federal farm census credits Montana with 46,000 farms. Of this number better than 34,000 or more than 75 per cent of the total farms in the state, are located within counties that are now served by county extension agents. During a period of fourteen years extension work in Montana has developed from three extension agents to a total of forty, including both men and women agents located in thirty-two counties.

# AGRICULTURAL EXPERIMENT STATION

Associated with the State College is the Montana Agricultural Experiment Station. This Station was established by an Act of Congress, (Hatch Act), passed in 1887, and supplemented by another act, (Adams Act), passed in 1906. In 1925 the United States Congress passed the Purnell Act which provides still further support for the agricultural experiment station.

These Acts define and limit the work of the Agricultural Experiment Station. It must be directed towards the solving of the agricultural problems of the state and making that industry more profitable to those engaged in it.

The appropriations from the federal government have been supplemented by state appropriations.

It can easily be seen that the experiment station covers a very large field if we will stop to consider that it operates under twelve departments, namely: Agronomy, Animal Husbandry, Poultry, Horticulture, Agricultural Engineering, Chemistry, Entomology, Botany and Bacteriology, Veterinary, Agricultural Economics, and Home Economic Rural Life.

The College and Experiment Station farm consists of 320 acres of irrigated land adjoining the campus, and the Fort Ellis farm of about 600 acres of non-irrigated land, some four miles out. Well equipped laboratories are also provided for the various departments, while all the farm buildings are arranged so as to facilitate the experiments with livestock. The equipment and facilities of the Experiment Station are available to a limited number of students for graduate work.

The great variation in the climate of the state makes necessary the establishment of branch stations to study the crop possibilities and livestock problems of various sections of the state. At present five such stations are in operation, viz: In the Judith Basin, near Moccasin; in the Yellowstone valley, near Huntley; in northern Montana, near Havre; U. S. Range Livestock Experiment Station at Miles City, and in the Bitter Root Valley, near Corvallis. The last station is for the study of fruit and garden crops only. While not covering all the climatic regions of the state, these branch stations afford opportunity for more complete study of the state's agricultural possibilities and particularly of the crops adapted to particular sections of the state.

The results of the studies and observations made by the station staffs are published in bulletins, circulars, leaflets, posters, etc. They are distributed free of cost to the people of the state who apply for them.

E. B. STANLEY,  
B.S., '19; M.S., '23

E. B. Stanley, was appointed as an instructor on the University of Arizona faculty and also Assistant Animal Husbandman in 1920. During 1922-23 he obtained a year's leave of absence to secure an M. S. degree in Animal Nutrition at Iowa State College. Upon his

return to the University of Arizona in 1923-24 he was made acting Animal Husbandman and the following year Animal Husbandman, which position he now holds.

About two thirds of his time is devoted to experimental study and the balance to teaching.

Perry R. Gage, two months after his graduation from M. S. E., was employed by Gilbert Stanley Underwood and Co., Architects and Engineers, Los Angeles, California. During the first nine months he was employed as an engineer and draftsman, at the end of that time he was promoted to Assistant Office Manager. Five

months later he became Office Manager and has held that position for the last two years. His work includes the designing and construction of hotels, factories and various types of large buildings. In 1926-27 he was superintending architect of the Ahwaanee Hotel constructed in Yosemite National Park.

William Bradley Freeman, has had a varied career as an engineer since leaving M. S. C. Until 1912 he was in hydraulic work for the United States Geological Survey at Denver. From 1913 to 1916 he was superintending engineer in the department of ways of communication of the Siamese Government at Bangkok, Siam.

As major in the Engineer Corps of the A. E. F. he commanded the 509th Engineers. Major Freeman received citation from General Pershing for "Especially Meritorious and Conspicuous Services." Since 1919 he has been branch manager of the Lock Joint Pipe Company at Denver, Colorado; also consulting hydraulic engineer.

M. A. Lamme, obtained his Master's degree at Columbia University, the following year. He was an instructor in the Department of Mineralogy at Columbia University for eight years, during which time he obtained his doctor's degree. During the time from 1912-19 he was Director of Instituto de Geologia y Perforaciones, at Montevideo, Uruguay, which work involved the formation and equipment of an organiza-

tion for the study of the natural resources of Uruguay. In 1919-20 he acted as assistant director of the Research Laboratory of the L. D. Cauk Company at Milford, Delaware. The year 1921 he spent his time in a placer mining district of Alaska and then went to Venezuela as field geologist for Standard Oil. In 1923 he became development Engineer with the Western Electric Co. at Chicago, and just recently was transferred to Kearny plant.

ANKER L. CHRISTENSEN,  
B.S., '20

Anker L. Christensen, since graduating from M. S. C. has been employed by Worthington Pump and Machinery Corp., Harrison, New Jersey. During his five years in the Material Division, he re-organized their tool control system. He is now Equipment Engineer in charge of maintenance of machine and small tools, for the factory. He obtained his M. B. A. de-

gree from New York University in June, 1924. His thesis for this degree was published by the Ronald Press, New York, in 1926, in a book entitled, "Tool Control."

He has applied for several patents on tools and the royalties have actually paid for fees connected with filing the patents.

W. V. KING,  
 B.S., '11; PH.D., '15

Since his graduation at Mont-  
 tana State College Mr. W. V.  
 King, has been with the U. S.  
 Bureau of Entomology except  
 for parts of three school terms  
 spent at Tulane University in  
 New Orleans on graduate work  
 in Medical Entomology and  
 where he received his Ph. D. de-  
 gree in 1915.

During the first few years

with the Bureau he worked on  
 Rocky Mountain Spotted Fever  
 in the Bitter Root Valley and  
 on Pellagra in South Carolina.  
 Later he was stationed in New  
 Orleans at the Tulane Medical  
 School, and at the present time  
 is in charge of the Bureau's  
 field station for the study of  
 malaria and malaria-carrying  
 mosquitoes at Mound, Louisiana.

**KENNETH M. KING,**  
 B.S., '20; M.S., '26

Kenneth M. King from April, 1920 until August 1922 has been Scientific Assistant in the employ of the U. S. Bureau of Entomology located at Charlottesville, Virginia, in the investigation of corn insects. In 1922 he accepted the position of Entomologist in Saskatchewan for the Canadian Entomological Branch. This

position has involved a variety of work, the duties corresponding very closely to the State Entomologist in Montana. The Universities in Canada do not have professional coaches so Mr. King has been basketball and football coach beginning in 1924. His basketball teams have won three out of four championships.

### DORIS B. PHILLIPS, B.S., '25

Doris V. Phillips, after graduating from M. S. C. went to Cook County Hospital, Chicago to take a six months graduate work in Dietetics. From December, 1925 to the present time she has been Dietitian at the Illinois Masonic Hospital, Chicago, Illinois. She has charge of seventeen employees, plans

all the meals for patients and nurses, and assists in buying for the dietary department.

During her stay at the Masonic Hospital she has been in charge of equipping seven diet kitchens with all the modern up-to-date hospital equipment.

Each school year from September to April she teaches Dietetics to the Student Nurses.

RUTH SWEAT, B.S., '16

Miss Sweat aspired to poli-  
tics, served two years as county  
Superintendent of Schools, Tet-  
on County, and then returned  
to Montana State College as In-  
structor in Foods for two years.  
She entered Commercial work  
as field worker for Washburn  
Crosby Co., conducting cooking  
schools in Georgia and Ohio.  
She also conducted large cock-

ing schools in Ohio for the  
Food Shows sponsored by Ohio  
Growers Association. At the  
present time she is in charge  
of GOLD MEDAL Test Kitchen  
where samples of flour and food  
products are submitted for trial  
bakes. Radio recipes broadcast  
by Betty Crocker find their  
origin in this kitchen. Between  
times she has done extensive  
work in Boys' and Girls' Clubs.

GEORGE W. MORGAN, B.S., '12

George W. Morgan has been associated with the United States Department of Agriculture since his graduation in 1912.

Immediately after graduating he was at the Akron Experiment Station in eastern Colorado. From 1913 to 1916 he was located at the Experiment Farm, Huntley, Montana. In

1916 he took charge of the North Montana Branch Station at Havre, which was just being started at the old Fort Assiniboine by the Montana Experiment Station and the U. S. Department of Agriculture. His activities there take him into soils and field crops, dry and irrigated crops, animal husbandry and horticulture.

HENRY OBERLE, B.S., '20

Henry Oberle, entered the General Electric Company Student Test Department Schenectady, New York, the fall after graduation. In 1922 he was transferred to the Pittsfield, Mass., works and later that year to the New York office in the capacity of construction foreman and Service Engineer. While in New York he attended New York University.

Mr. Oberle left the General Electric Company in 1923 going with the Public Service Corporation of New Jersey as substation operating superintendent. In 1925 he became affiliated with the Queens Borough Gas and Electric Company, Long Island, as electric engineer, being promoted to superintendent of electrical distribution in 1926.

HERMAN DICKMAN  
B.S., '20

Herman Dickman graduated in 1920, getting his degree in Agricultural Education. After graduating he taught Smith-Hughes Vocational Agriculture for two years at Glendive, Montana, before going to California where he has been teaching agriculture for the past six years at the Lodi Union High School, Lodi, Calif.

He has developed in the past three years, two State Championship Livestock teams which

competed at the Pacific International Livestock Show, Portland, at the American Royal Livestock Show, Kansas City, Mo.; at the International Livestock Show, Chicago, Ill.

There are 75 boys studying agriculture at Lodi Union High School and at the present time there are three instructors employed in the agricultural department which is recognized as one of the best in California.

H. M. RICE, B.S., '20

H. M. Rice, spent the first two years after his graduation in Northern California teaching Agriculture and doing Assistant Farm Advisor work at McArthur, California. Then came the opportunity of taking the position, Secretary of the Arizona Cattle Growers' Associa-

tion at Phoenix, Arizona. In 1924 he left Arizona to be one of the three original workers to assist in the organization of the cooperative marketing of beef cattle. Early in 1927 he became associated with D. S. Betheme, in the Equitable Life Insurance Society of the U. S.

CAPT. ADDISON N. CLARK  
B.S., '03

Captain Addison N. Clark, now a mining engineer in San Francisco, has "boxed the compass" in a wide and varied experience in civil, electrical and mining engineering during the quarter-century since he laid the foundations for it at M. S. C. He has built railroads in this country peacefully, and in France under enemy shell-fire. During the World War he served as a Captain of Engineers, and holds the same commission in the Reserves today. He has "been everything in mining from mucker to

manager;" and "everything in electricity from wire-skinner to designing engineer." A penchant for printers' ink antedating his editorship of "The Exponent" at M. S. C. led him to serve as Mining Editor of "Engineering News" (New York) and in other managing editorial capacities, as well as write technical articles, short stories, and (whisper) even poems, which have been published in many media. His office address is 522 Mills Building, San Francisco.

GLENN C. BOYER, B.S., '25

Mr. Boyer came to the Kansas City Power and Light Company from the General Electric Company. While with the General Electric, he was a member of the Advanced Course in Engineering, the first man from Montana State to ever be one of the 30 picked annually for this course.

Following this he spent several months in the valuation department working on tax reports and all types of economics

problems relating to a public utility.

He is at the present time in charge of estimating and cost data work for the Underground Construction department of the Kansas City Power and Light Company at Kansas City, Missouri. Here he is required to design concrete mixes, test concrete materials and do such engineering work as is necessary in conjunction with the construction of underground conduit lines and machines.

## THE QUEST OF A TOREADOR

FROM A FAR COUNTRY

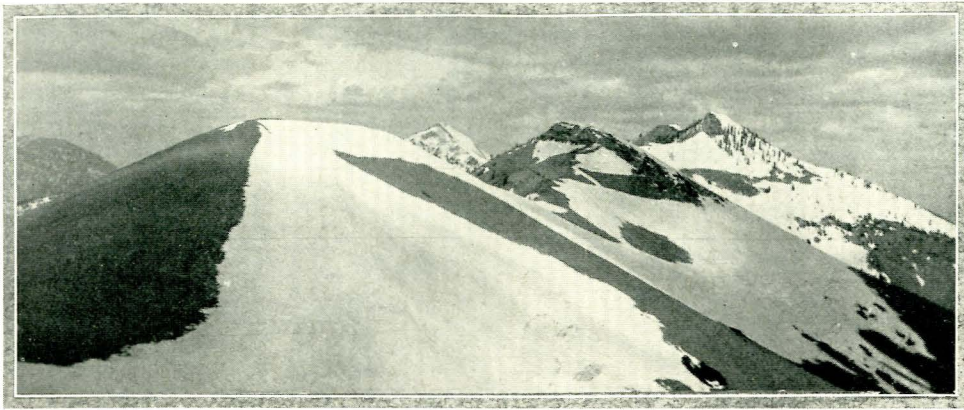

THE HERD

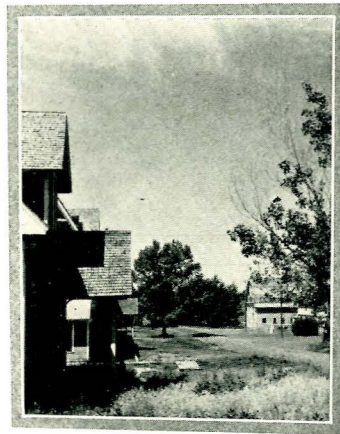

AGGIE BUILDING

FROM BOZEMAN'S ICY MOUNTAINS

THE BARNS

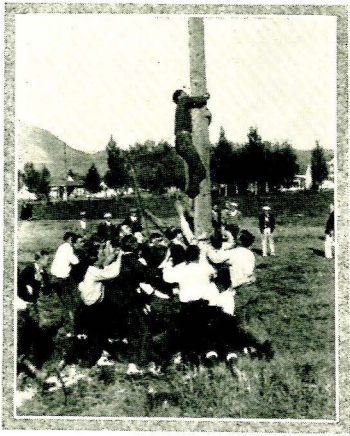

HERRICK HALL

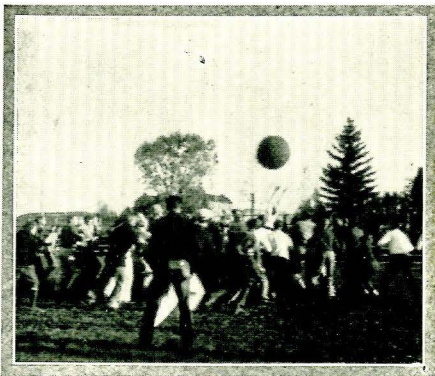

*From a far country set forth a brave youth,  
With a heart filled by grand dreams of fame.  
He had heard of great deeds in outside world  
To be a gay toreador his aim.  
He traveled a-far, singing a ditty  
And finally arrived in a great large city.*

WILLING WORKERS

DETERMINED TO WIN—

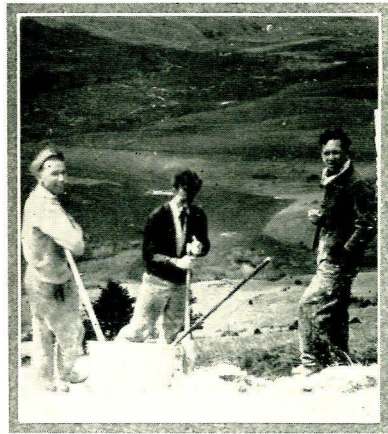

FAME AND GLORY

VAST CROWDS ASSEMBLED

TAKING FIVE

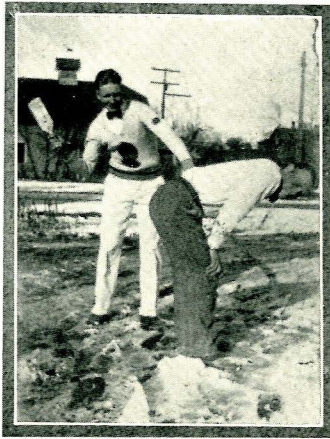

ASSEMBLED

*The vast crowds that were assembled there  
 Made him wish with his whole soul he were home  
 'Tho his heart was filled with dread and despair  
 He soon decided to know everyone  
 Determined to win, as others had done  
 The fame and the glory bestowed on some.*

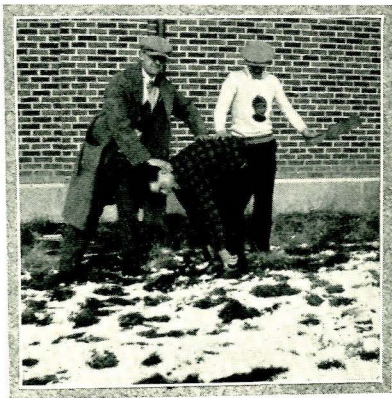

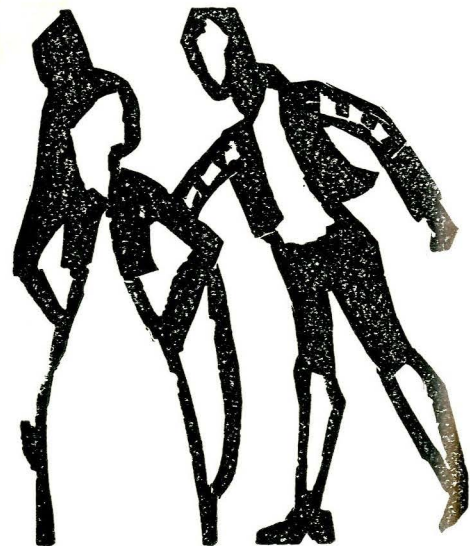

WORKING LIKE SLAVES

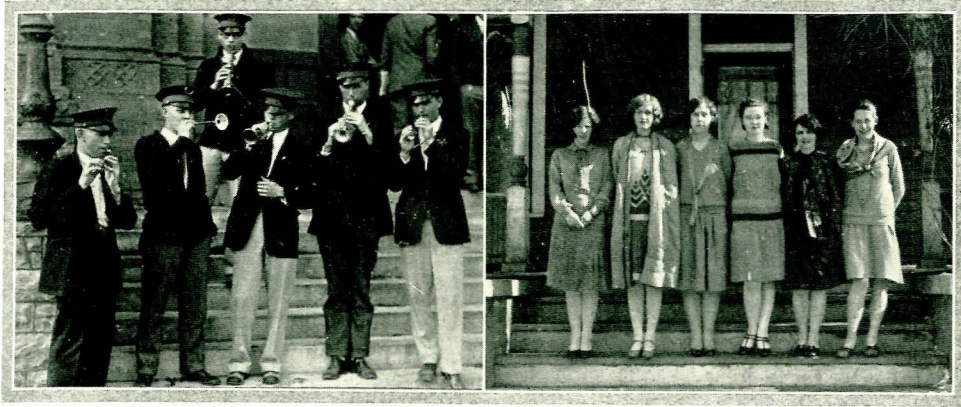

DISCIPLINED ALWAYS

NEVER WAS THANKED

ALL HAIL—

THE CONGRESS COMMITTEE

TOOK UP HIS TASK

THE JOB WAS NO LARK

*With these thoughts in m'nd, he took up his tasks  
 And worked like a slave from daylight till dark.  
 Was disciplined always, never was thanked.  
 And he soon learned that his job was no lark.  
 Vocational Congress brought one happy day  
 He came to know damsels it brought in his way.*

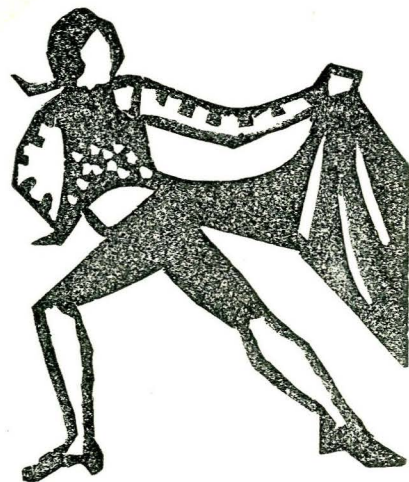

MODELS—

WON MUCH HONOR—

AND A GREAT VICTORY

ON DRESS PARADE—

HIS HEART INSPIRED

*In all his work, this thing he still desired  
A world famous toreador to be  
He took for models those who had aspired  
And won much honor and great victory.  
He watched all the men whom he admired,  
By their example felt his heart inspired.*

MONTANA HALL

MORE PARADE

LIFE CONTAINED WORK—

AND PLAY

WHERE CONTESTS ARE HELD

JOY AND ZEST

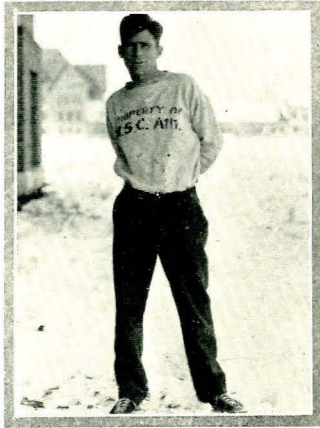

INTO THE FRAY

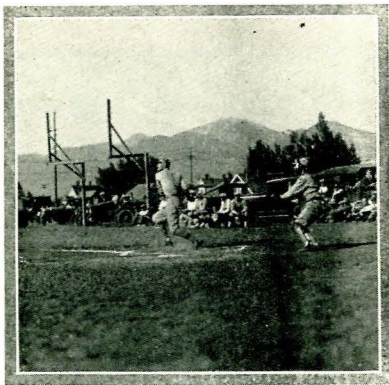

*As time went on, his fame was better known  
He found himself the holder of the right  
To help the rest in contests and to loan  
His help to Y.W.C.A. Stunt Night.  
He soon found life contained both work and play  
And entered with joy and zest into the fray.*

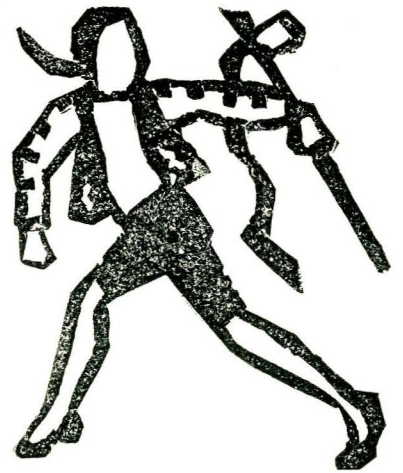

STAFF OF THE INDIAN MASQUE

THE COACH—

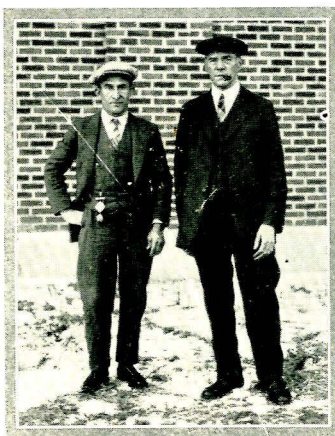

OF GAMES

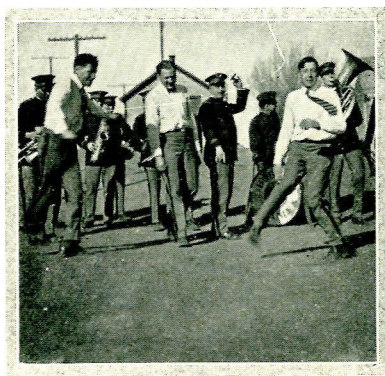

CROSS COUNTRY RACE

THE WRESTLERS

TALENTS DIVERSIFIED

*When spring came round again his interest grew  
 In out-door sports of every kind he tried  
 And tho a lot of useful time he slew  
 He found his talents were diversified,  
 But he was not alone in sport and game  
 For the damsels held their own award of fame.*

THE DAMSELS HELD THEIR OWN AWARD OF FAME

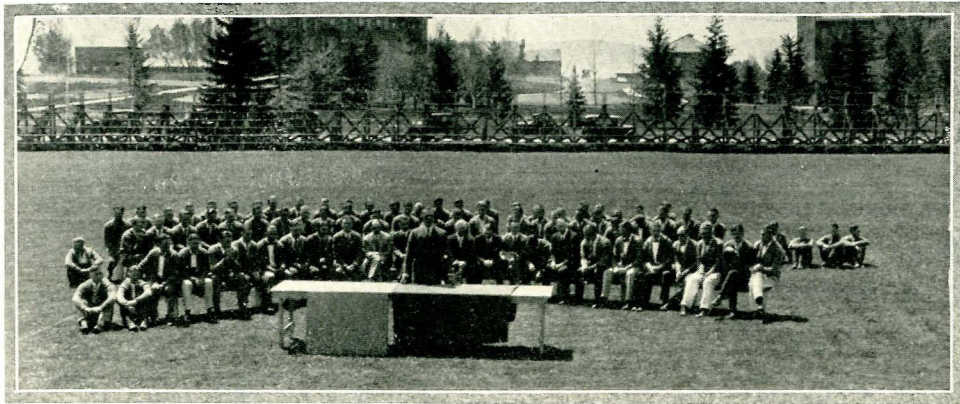

CLASS PICNIC

WHERE MANY RETURNED

A LAST GREAT DAY CAME

THEIR AIM ACHIEVED

MORTAR BOARD

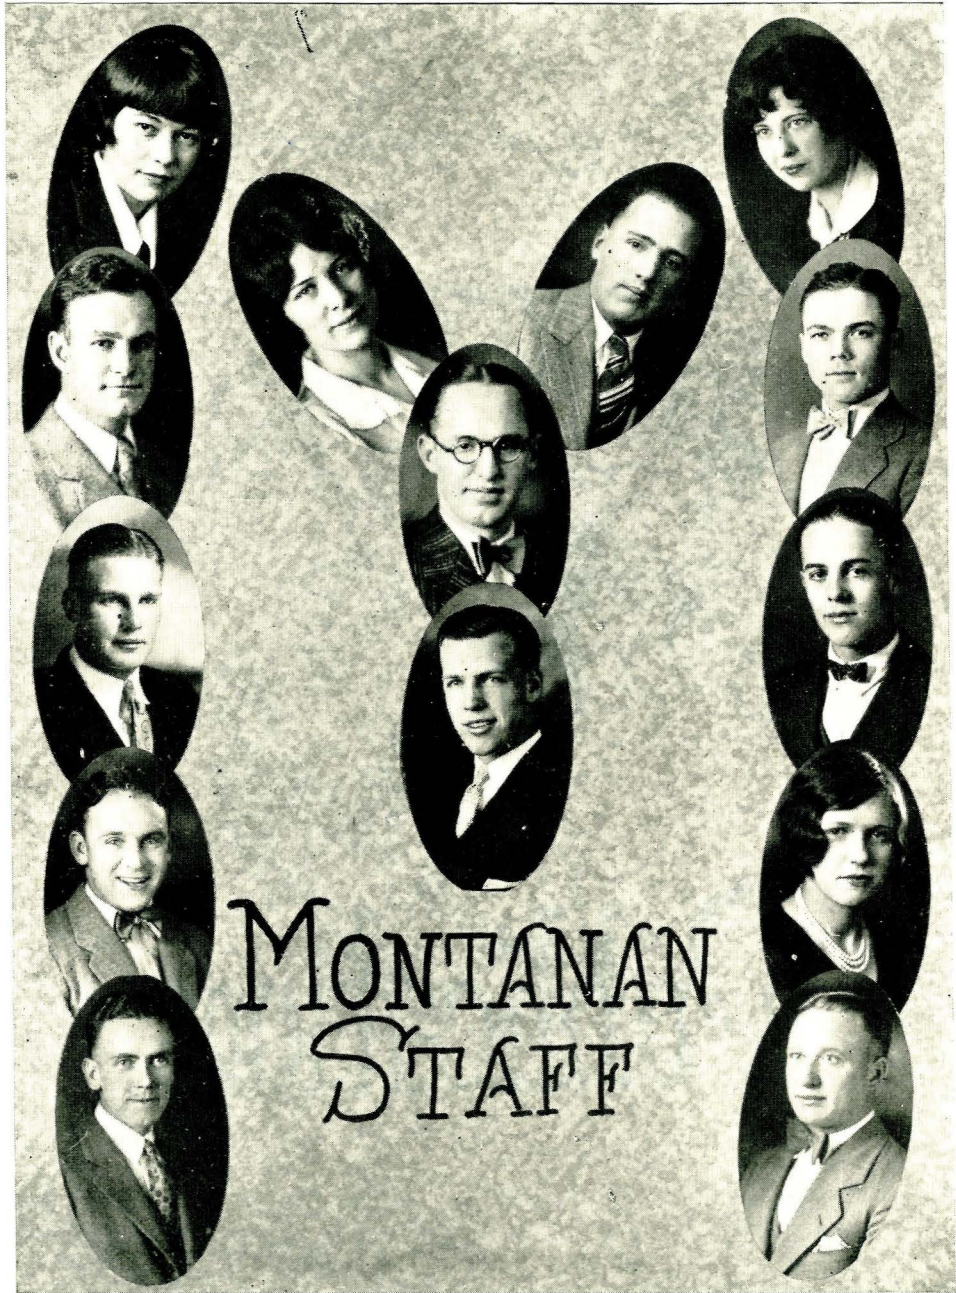

*At the close of the year, one last great day came  
Many old heroes returned to their school  
Awards were given to those who won fame  
By their courage, faith, knowledge of rule.  
The brave youth himself his aim had achieved  
And went into the world to be successfully received.*

## MONTANA COLLEGIAN

The Montana Collegian, issued jointly by the State College publications department and the M. S. C. Alumni Association, has been serving to keep the alumni and ex-students in touch with the institution in Bozeman. This publication now is in its fourth year and is issued six or eight times per year. Any alumnus or ex-student may receive the Collegian free of charge by writing to the editors and requesting that his name be placed on the mailing list.

While it is hoped that the Alumni Association may eventually take over the publication of the Collegian, the College now provides funds for its occasional issue. One page of each issue is usually devoted to letters from alumni and ex-students and to notes about alumni, other pages being devoted to news about student activities and general college affairs. The liberal use of engravings gives the publication an attractive appearance. The editors are urging a greater cooperation from alumni and ex-students, in the way of letters and news about and from those who have attended Montana State College.

The Montana Collegian was to have been published once a month but finances have limited the number of issues this year. President Atkinson is Editor-in-chief; Ray Bowden, Editor; John Dexter, Assistant Editor and H. E. Morris, Alumni Editor.

## BOBCAT BAND

The college can boast of no other organization on the campus that is as active or peppy as the Bobcat Band. The boys are on the job from the first day of school until the last, furnishing music for all the rallies, many assemblies, athletic events, boys' and girls' vocational congress, military parades and other occasions. Much of the success of the band is due to Louis L. Howard, who with his fine sense of humor and wonderful leadership, is a director that everyone admires.

The band traveled to Sheridan, Wyoming and Butte with the football team and helped considerably to raise the spirits of the Bobcats.

They completed the eighteenth annual state tour in April which was said to be the most successful one yet. Concerts were given at Miles City, Wibaux, Sidney, Poplar, Malta and Chinook. They were well received by large crowds at each town and many friends were made for M. S. C. The soloists were Louis True, Euphonium; Ray Patten, Marimba-Xylophone; Kenneth Schwartz, trumpet. The Bobcat Quartet consisted of Stewart Avery, first tenor, Kenneth Schwartz second tenor, Paul Koetitz, baritone and Ray Bowden, bass. During the concert intermission Mr. Ray Bowden explained various courses at the college and also the greater University. He mentioned many graduates who are holding responsible positions in the state and throughout the United States. Director Howard met many high school boys who are interested in band work and are planning to come to Montana State next fall. Alumni scattered over the state, especially the boys who had played in the band, came to the different towns to again hear the hornblowers. There were twenty-two who met at Chinook, some coming as far as two hundred miles to be at the concert.

By these trips they do more advertising than most any other organization, for the good of the college.

DON KINTZ  
*Director*

## COLLEGE ORCHESTRA

The College Orchestra this year was under the direction of Donald Kintz. Mr. Kintz was formerly violin director and for years has been a member of the college orchestra.

The Orchestra gave concerts at Belgrade and Manhattan and was active during the Girls Vocational Congress. It also furnishes the music at the commencement exercises.

The Orchestra in a way acts as a utility organization serving whenever and wherever possible. It has been adapted to local talent but this year has what might be termed a high grade string ensemble.

THE COLLEGE ORCHESTRA

# THE COLLEGE CHORUS

REV. H. G. KLEMMÉ  
*Director*

The interest in the College Chorus is increasing every year as is evidenced by the fact that there were seventy students listed on the first enrollment. The final selection cut this number down to thirty-two. Of these seven were basses, six tenors, six altos, and thirteen sopranos.

The Rev. H. G. Klemme of Bozeman took charge of the Chorus when Prof. Joseph Adam, head of the music department, resigned just before the beginning of the fall quarter.

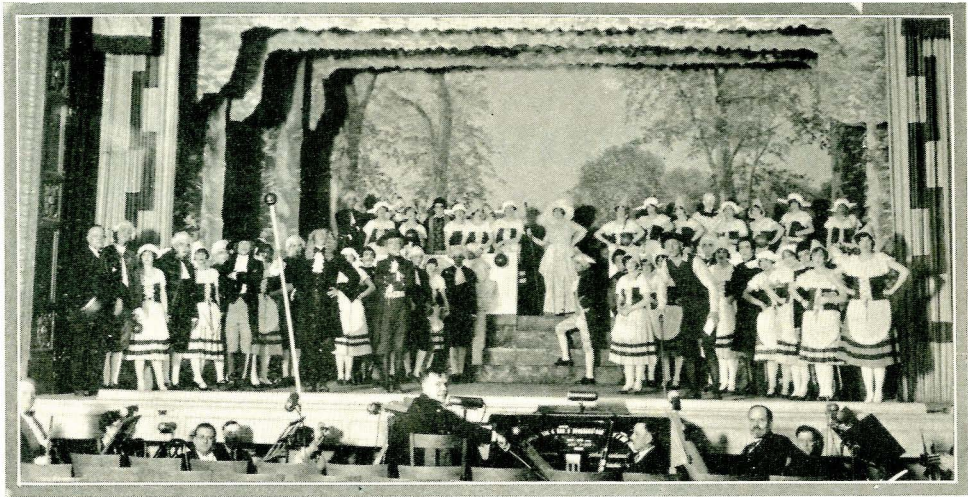

This year the annual tour was made during the early part of April and included Ryegate, Harlowton, Moore, Stanford, Moccasin and Great Falls. Concerts were also given at Manhattan and Livingston.

The programs presented were notable for the variety of entertainment they offered.

THE COLLEGE CHORUS

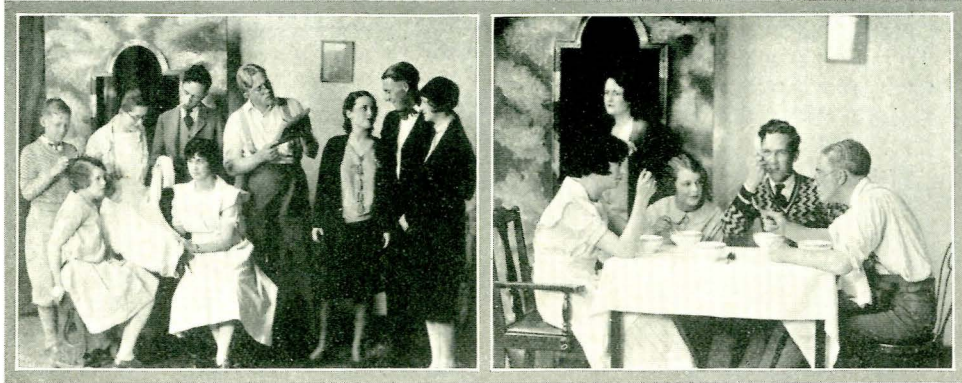

## LOOTERS PRODUCTION

The Looters production last year was "The Chimes of Normandy." The setting for the play was the land of wooden shoes and windmills. Beautiful costumes and many beautiful dutch girls added greatly to the production.

It was directed by William Hatheway of the Bozeman Chamber of Commerce. The music for the production was furnished by the enlarged college orchestra under the able direction of Prof. Joseph Adam of the Montana State College Music Department.

The comedy was an unusual success appealing especially to the music lovers of Bozeman.

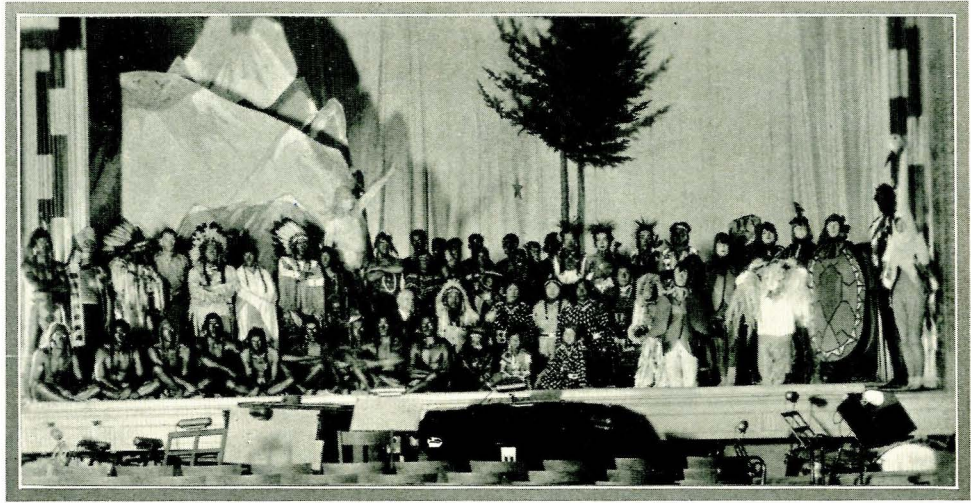

## TORMENTORS PRODUCTION

This year the Tormentors presented a three act play "The Family Up Stairs." The play depicted the life of a middle class American family. The mother is making a great attempt to get into high society and in so doing tries to marry off her daughter as she fears she is getting past the marrying age. In her excitement she leads the family to many complications which are finally settled by the daughter.

The play was well received in Bozeman as well as Butte, Deer Lodge, Belgrade, and Manhattan. The Tormentors have set a high standard in the past and always play before capacity houses wherever they present their shows.

Mrs. Beatrice Freeman Davis, Coach of Dramatics, directed the production.

## THE MASQUE OF THE ABSAROOKEE

"The Masque of The Absarokee" was presented by the Eurodelphian Literary Society in a direct attempt to preserve the traditions and customs of the Crow Indians.

The Masque was written by Martha Maxey Boles, a student at Montana State College, and the music was written especially for the production by Dr. Derrick N. Lehmer of the University of California.

Dr. Lehmer came to Bozeman and directed the music assisted by Prof. Joseph Adam of the College. The production was directed by Miss Jessie Donaldson, of the English department and William Hathaway of Bozeman.

The Masque was an outstanding production of the year due to its originality and the large cast that took part. Eighteen Indians from the Crow Indian Reservation added life and color to the production.

People from all over the state attended this production while there were also some patrons of national importance.

# THE LAND OF NEVER TO BE

*Story and Music by "Dolly" Tripp*

## CAST OF CHARACTERS

<i>The Wizard</i>	- - - - -	MARCELLA SCHNEIDER
<i>The King</i>	- - - - -	PATRICIA KNOWLES
<i>The Guards</i>	- - - - -	MARY HACKELA HAZEL TOMPSON
<i>The Captive Maidens</i>	- - - - -	GERTRUDE WILKINS GRETCHEN THORNTON DORIS KUHNS MILDRED HACHER KATHERINE FISHER MARY TAYLOR GLADYS ELLIOT BERNICE CRANE
<i>The Boy</i>	- - - - -	DOROTHY GARRETT
<i>The Girl</i>	- - - - -	"DOLLY" TRIPP

"The Land of Never To Be" was a delightful fairy story acted out in pantomime with the proverbial fairy tale ending, "And they lived happily for ever after."

## MRS. NOAH GOES IN

<i>Prof. Cobleigh</i>	- - - - -	EMIL JONES
<i>Twins (singers)</i>	- - - - -	S. RIVERS—D. RICHARDS

A most interesting and original sketch entitled, "Mrs. Noah Goes In," was presented by the Omega Beta Fraternity at the annual stunt night program which is held each year at the Emerson Auditorium under the auspices of the Y. W. C. A.

Social

NORMA SMITH  
*Queen of the Prom*

## JUNIOR PROM

The class of 1928 gave its Junior Prom on May thirteenth, nineteen hundred and twenty-seven at the Elks Hall.

The hall was artistically decorated in green and purple. The feature of the evening was the crowning of Miss Norma Smith, Queen of the Prom.

Donald Bennett, President of the Associated Students, gave the presentation speech and Ray Ball escorted her to the throne of honor. Patsy Purdy and Jack Romney carried the crown with which Mr. Bennett crowned Miss Smith "Queen Norma The First."

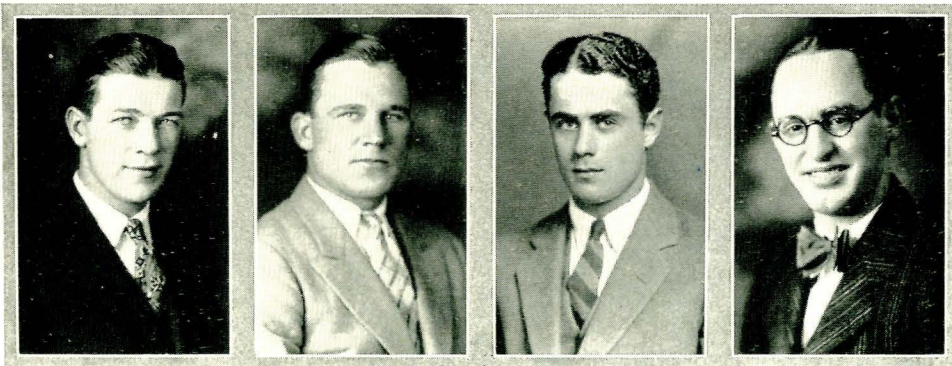

OFFICERS AND SPONSORS

## MILITARY BALL

The annual Military Ball, sponsored by Scabbard and Blade, honorary military fraternity, was held at the Rose Garden on Friday evening, February the twenty-fourth, nineteen hundred and twenty-eight. The dance was informal for all except officers and their ladies.

The feature of the evening was the presenting of the Battalion and Company sponsors and the announcing of the Scabbard and Blade pledges. A feature dance by David Rivines was the special entertainment of the evening.

After the ball a banquet was held at the Bozeman Grill in honor of the new pledges to Scabbard and Blade.

KOBBE

## OPENING OF THE LITTLE THEATRE

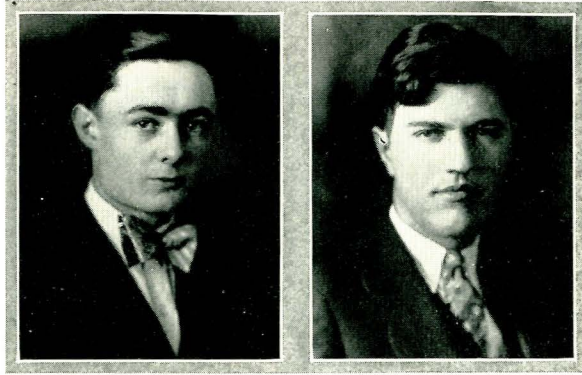

The Little Theatre of Montana State College was formally opened on Friday and Saturday evenings, March 9 and 10. It was a most auspicious occasion as the citizens of Bozeman were most delighted to accept their invitations and express their appreciation of the plays produced for the occasion. The stage settings were designed by John Kopp, Jr., and made by the class in play production. The stage decoration was the work of Miss Sarah Louise Tripp and Orland Oakland. The program consisted of two one act plays, a pantomime, and three readings.

“One of Those Things” by George Kelly was directed by Miss Alberta Mitchell of the Play Production Class.

“Ingenuity—And How” was an original one-act play, written by Ellis Oakwood of the play production class. It is an ultra-modern play. A modern college junior, Jimmie Blackwell, wishes to marry Billie May Parilla, but his wealthy father, Mr. James W. Blackwell, who is on his death bed, refuses to have his son marry a modern flapper, and threatens to give his entire fortune to the Associated Charities of America if his son marries this girl. When the ultra-modern flapper, Billie May, appears, Mr. Blackwell swoons, and upon recovering from the swoon, wills his entire fortune to charity. Finally, Jack Walters, Jimmie’s college pal, suggests that Billie May reappear attired as an old fashioned girl—long skirts, curls, and natural complexion.

Before his death, Mr. Blackwell is extremely grateful and happy to find out that Jimmie has at last come to his senses, and he apparently dies. In the midst of the confusion that followed and due to the fault of Anna Jones the housekeeper, Billie May takes off her false curls. Mr. Blackwell recovers long enough to direct Mr. Roy Wilcoxson, the lawyer, to destroy The Will. The audience is left in doubt as to the outcome of the play. The people were to use their imagination and decide for themselves the ending of the story. Mr. Oakwood received many congratulations upon the success of his play.

The characters in each play were well taken, the pantomime was especially well received and the readings were greatly enjoyed by everyone.

MOWERY

HOWARD

## THANKSGIVING DANCE

The annual Thanksgiving eve dance given by the class of '29 in honor of the senior class was held November 23, at the Rose Garden. The feature of the dance was the raffling off of a turkey which according to tradition was furnished by the freshmen. This year the prize was won by John Thompson. Balloons were given as favors.

The Thanksgiving dance is given by every fourth freshman class and is carried through their senior year in college.

## LEAP YEAR DANCE

The "ladies choice" dance sponsored by Mortar Board with the assistance of the Spurs was a huge success. The Gym. was transformed to S. S. Mortar Board. The guests were taken up the gang plank and around the world on a musical tour. After the three mile limit was passed the bar was opened and Life Savers given out.

Special features were: Chimes dance by Adena Schumacher and Martha Casey; Song of Spain, by Wilda May O'Neil; and a French Doll dance by Muggs Rowe and Norma Flick.

This dance was given as a leap year affair but proved so successful that Mortar Board now plans on making it an annual dance.

BABCOCK

## M. DANCE

The M. Club held their annual dance at the Rose Garden on Saturday evening, March 3rd after the second B. Y. U. game. Much credit is given the M. Club for sponsoring one of the finest dances of the year after the Bobcats had completed the Western Division games by defeating B. Y. U. twice on the Bobcats' home floor.

## FANG SPUR DANCE

An outstanding social event of the season was the Fang and Spur dance given in the Gym. Friday evening, February 3rd, after the Bobcat-Utah University game.

The Gym. was decorated with Fang and Spur emblems. Colored spot lights made the waltzes very popular. A prize balloon dance furnished a great deal of merriment and many skinned shins. Many boxes of candy were given to holders of lucky numbers during the evening.

RUTLEDGE

BECK

FLYNN

JONES

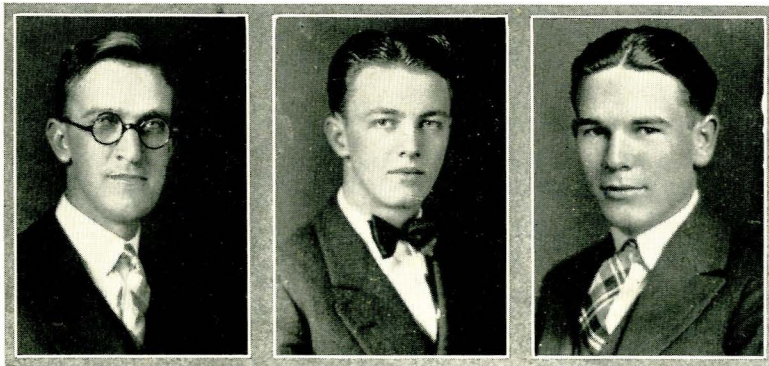

## LES BOUFFONS

The annual Les Bouffons formal was held April twenty-second, nineteen hundred twenty-seven at the Rose Garden. The hall was formally decorated in black and white and the large electric lighted emblem was placed at the north end of the hall. Red carnations were given to the ladies during the Grand March. New features were the awarding of the scholarship cup and the announcing of pledges. The scholarship cup idea originated when there were only four men's fraternities on the hill. At this time it was arranged that any fraternity winning it three times in succession should keep the cup. With the rapid increase of groups complications arose, so this year it was decided that the group having the highest long-time average should keep the cup. Only those already represented on it were eligible. These were Sigma Alpha Epsilon, Omega Beta, and Beta Epsilon. Beta Epsilon won the cup by a small percentage.

The pledges announced were: Arthur Olsen, Francis Cashmore, Henry Gardiner, Wayne Kobbe, Robert Downing, Keith Sime, Lawrence Anderson, Francis Wilson, Gerald Sullivan, Raymond Ball, Tenny Babcock and Hardy Tharp.

## INTERFRATERNITY DANCE

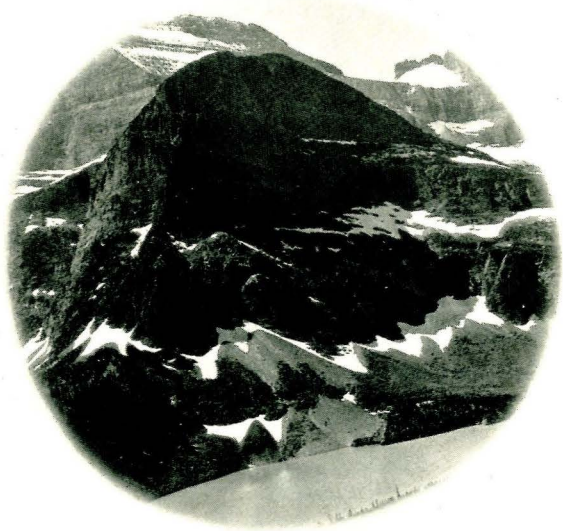

Each year the interfraternity council, representing all the men's fraternities on the campus, sponsors a dance. This year the dance was held at the Rose Garden on Saturday, March 10th. The attendance this year was much larger than usual which added greatly to the success of the affair.

PROFESSOR STONE, *Coach*

## DEBATE

Mr. W. C. Stone is again in charge of the debate work at Montana State College. He also has charge of oratory. Has done a great deal to create new interest in debate and oratory.

Mr. Stone received his B. A. at Baylor University, Texas, and did debate work at Decature Baptist College, Texas, before entering Baylor. He also spent one year at the University of Colorado, and has received his Master's Degree at the University of Chicago.

As head of the history department and coach of Decature Baptist College Mr. Stone developed one of the three championship teams in Texas.

LIVERS

GARDINER

## VARSITY DEBATE TRIP

Henry Gardiner and Joe Livers representing Montana State College in varsity debating made a trip east as far as Tiffin, Ohio.

On the trip east the team debated four well known teams. Three of these were non decision debates. The fourth and only decision debate was lost to Marquette University whom the team defeated earlier in the decision.

At Tiffin, Ohio, the team participated in the national Pi Kappa Delta tournament. Pi Kappa Delta is a national debating fraternity with a membership of one hundred and nineteen chapters in America. Montana has two chapters, one at Montana State College and the other at Intermountain College.

The Montana State College team went out of the competition after losing to the Texas Christian University of Fort Worth, Texas. There were over four hundred in attendance at the tournament. The honors went to the St. Thomas University of Saint Paul, Minnesota.

# VARSIY DEBATE

Many of the debates this year followed the Oxford plan, whereby no decisions are given, while some were decision debates.

The varsity schedule for this year has been very heavy consisting of eight debates besides participation in the National Pi Kappa Delta contest.

The Sophomores debated with the State Normal School besides taking part in the annual Freshman-Sophomore debate.

The national Pi Kappa Delta question which was used this year was, "Resolved that the United States should cease to protect by armed force, capital invested in foreign lands except after formal declaration of war."

## THE VARSITY SEASON

This year's varsity debating squad was composed of Joe Livers, Henry Helland, and Henry Gardiner. All the members of this team are seasoned debaters having had at least one year's previous experience in debating.

## HOME SCHEDULE

DATE	OPONENTS	PLACE	DECISION
Feb. 28	Utah Ag. College	Bozeman	Won
March 14	Brigham Young U.	Bozeman	Lost
March 21	Marquette U.	Bozeman	Won
March 24	State School of Mines	Bozeman	Lost

March 31	Wheaton College	Wheaton, Illinois	No Decision

## SOPHOMORE DEBATING TEAM

The Sophomore debating team debated the State Normal School at Dillon, March 16th. The debate was non-decision. The members of the Sophomore team are Jo Delaney, Henry Eagle, and Edwin Eagle.

This team defeated the Freshman team consisting of Donald Farris and Joe Cullan in the Freshman-Sophomore debate.

HELLAND      E. EAGLE      STONE      H. EAGLE      DELANEY

# ORATORICAL CONTEST

Jessie Helm represented Montana State College in the Rocky Mountain Oratorical Contest which was held at the University of Wyoming, Laramie, Wyoming, last year. The title of his oration was, "Twentieth Century Christianity."

Montana State College was represented at the State Oratorical Contest, which was held at Billings, by Hjalmer Landoe. His speech, "The Challenge to Democracy," won third place.

This year the Rocky Mountain Oratorical Contest met in Bozeman, April 20 and 21st. Margaret Dewey represented Montana State College speaking on, "What of American Culture." Other schools which were represented were; Brigham Young University, Utah University, Colorado University, University of Wyoming, and the Colorado Aggies.

Not only was this an oratorical contest in which the schools participated but it was also a Speech Conference in which the coaches took part.

This year Professor Stone is president of the Rocky Mountain Oratorical League.

# BOBCAT BATTALION

R. O. T. C.

Established  
1919

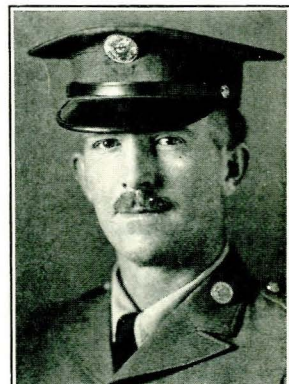

COLONEL C. R. W. MORISON

With our military policy and organization definitely settled by law, the mission of the Reserve Officers' Training Corps is clarified. We can now say that the young men of the Reserve Officers' Training Corps are being trained to serve in a definitely organized Army of the United States should the necessity arise to defend our country. The Reserve Officers' Training Corps will always be one of the most important agencies for training our citizen soldiers. Our ex-service officers and enlisted men will not always be with us,

so that provision must be made to replace them; accordingly, we maintain Reserve Officers' Training Corps units in various schools and colleges. We thus prepare the young men who may be called upon to serve in the future, with selected leadership, than which nothing is more necessary to the proper conduct of a successful campaign.

CAPTAIN ZECH

SERGEANT ELLSWORTH

# THE BATTALION

T. L. ACKERMAN  
*Cadet Major*

The beginning of each school year the executive staff of the military department at Montana State College selects the Cadet Major. This officer is selected on the basis of military training and ability to organize the battalion. This year Theron Ackerman was selected for Cadet Major.

In accordance with the established custom, Miss Helene Maxey was chosen battalion sponsor. The selection for this office is made by popular vote of the student body at a special election during the winter quarter. The selection is kept secret and the battalion sponsor is presented at the Military Ball.

## RIFLE TEAM

Never before in the history of M. S. C. has rifle marksmanship been awarded such keen interest as in the past year. It can also be said that never before have such satisfactory results been obtained not only in scores but in the development of the sport.

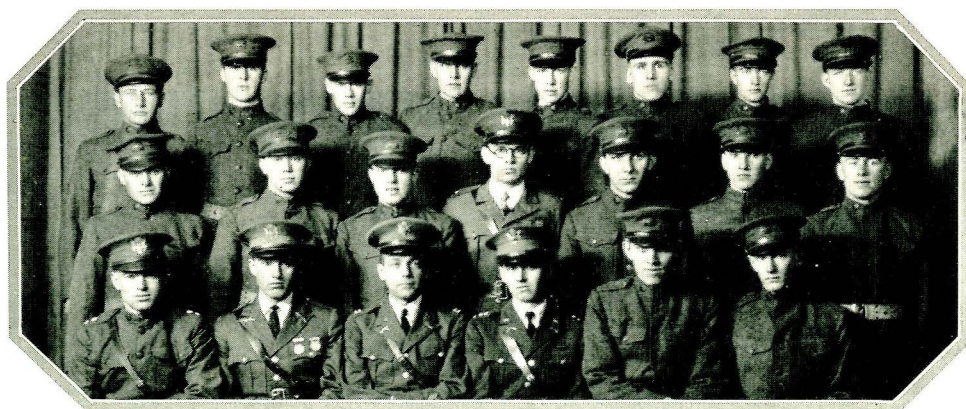

All through the season the teams were carefully trained and improved by Captain Zech and his able assistant Sgt. Ellsworth.

High interest, much enthusiasm and a determination to win dominated the competing men from start to finish.

A total of 23 matches was contracted and fired, M. S. C. winning 12, losing 10 and forfeiting 1. The Ninth Corps Area Match was fired and completed Feb. 25. There were 20 teams entered but only 17 completed the match. In this Montana State won 10 and lost 6 matches. The University of Idaho and M. S. C. were tied for sixth place but in accordance with the rules of the match, sixth place was given to Idaho.

In accordance with rules for individual medals presented by Scabbard and Blade for first and second high point men of the team and also for first and second high underclassmen, the following men were designated, W. H. Armstrong and M. Lynch, high men of the team; H. York and J. G. Nye, high underclassmen.

A number of the veterans will be lost through graduation but it is expected that the underclassmen will more than maintain the high standard already set.

# Women's Athletics

MISS EVA PACK  
*Director Women's Athletics*

## THE PHYSICAL EDUCATION DEPARTMENT

The Physical Education Department for Women at Montana State College primarily provides for the required six quarters of physical education for all women. Fall quarter is generally devoted to instruction in swimming, hockey and volley ball; winter quarter to drills, tactics, folk dancing and basketball; and spring quarter to baseball, track and field, swimming and tennis.

It also offers a three quarter elective course in theory of Athletics for juniors and seniors. This course fits those who take it to organize and coach girls athletics in secondary and high schools, and includes coaching of play ground games, hockey, volleyball, baseball, basketball, track and field and swimming.

The secondary and more important function of the department is to interest the women of the campus in all such activities as are sponsored by the Women's Athletic Association, under the supervision of the department.

Died April 25, 1928.

MISS RUTH ASBURY  
*Asst. Director Women's Athletics*

## W. A. A.

The Woman's Athletic Association is one of the largest women's organizations on the campus. Any woman student of M. S. C. is eligible to membership. The elective offices of W. A. A. include managers for rifles, swimming, tennis, hiking, and winter sports, and manager at large.

Miss Pack during her last two years here perfected a system of points and awards for participation, service, and supremacy. The medals for tennis, hiking, track, rifle, basketball, swimming, and individual high score, are given by different prominent women of Montana and are awarded on Women's Day. The Bobcat Swimming Suit is given to any girl who earns 40 points out of a possible 50 of the Bobcat Swimming test. The Blue and Gold Sweater is an award for participation and service and may not be received until the end of the Junior year. The W. A. A. miniature silver cup is given to any girl having won four first places, either in four different activities or in the same activity during four different years.

The annual election of officers is held at the W. A. A. Jamboree which is held early in the fall quarter. This is a party for women only which is usually a masquerade.

IRMA MONROE  
*Winner of Laiste Medal*

## Laiste Medal

Each year a gold medal is awarded to the girl scoring the highest number of points in all branches of women's athletics. The medal for 1926-1927 went to Miss Irma Monroe, a freshman at Montana State College. Mrs. Laiste of Anaconda awards the medal each year on Women's Day.

## Swimming

The interest shown in swimming is growing each year and is now one of the most important branches of Women's Athletics at Montana State College.

Any woman averaging forty points is awarded a Blue and Gold swimming suit at the Women's Day exercises. Points for this award are gained by passing certain tests in speed, diving, floating, life saving and general swimming form.

Another award given at the Women's Day exercises is the Blue and Gold sweater given to all women who make seventy points in all athletics. Swimming offers an excellent opportunity to make points toward this award. Competition is very keen in this sport as many excellent swimmers have been developed. Miss Mila Parkins placed first in the swimming for 1926-1927 thus winning the Miller Medal.

## Basketball

The freshman basketball team has won the class championship for the past three years. Each year the former freshman team organizes as a sophomore team in hope of repeating their former performance and each year a better freshman team steps in and wins the championship. Thus the competition in girls' basketball is continually growing.

This year the rings presented to the winning team by Mrs. A. E. Brown of Bozeman went to the freshman team composed of Dorothy Garrett, Captain; Marjorie Fisk; Lucile Crist; Gretchen Thornton; Mary Crest; Helen Fecter; and Hattie Fallmer.

## Tennis

Tennis is the most popular sport of the spring quarter and attracts a great many women. The season is usually short but at least one tournament is always run off. Last year Mila Parkin '29 won the singles championship and received the medal given by Mrs. Mills of Livingston. There was no doubles tournament last year.

## Volleyball

This is only the second year in which volleyball has been an event in women's athletics at Montana State. Much enthusiasm is being shown between the various teams composed of women from all four classes.

## Rifle

Under the able direction of Captain Zech, keen and widespread interest in rifle marksmanship was shown during the past year. Several matches were held and then the competition for individual honors. Dorothy Garrett of the class of '31 took first honors receiving the Anceny Medal. Elizabeth Gardiner of the class of '30 took second place.

## Hiking

There are a large number of contestants in both the distance and speed hiking events. Mary Williams placed first in the distance hiking event last year, and Sarah Kendall, and Eula Thompson tied for first honors in the speed hike, each receiving a Martin Medal on Women's Day.

## Track

All Track events prove very popular spring quarter. Last year the Draper Track Medal was won by Esther Stockton of class of '30.

The Dean's cup awarded to the Women's fraternity having the highest number of points for Athletics was awarded to Pi Beta Phi on Women's Day.

## BASKETBALL TOURNAMENT

Butte High School won the state high school basketball tournament held March 7-10, 1928, although this team was invited into the play at the last minute when Forsyth High School withdrew. The State Tournament of 1928 was held in Butte at the School of Mines Gym, the change being made because of conflicting schedule in Bozeman that would have made the tournament a bad financial venture.

The winning of this tournament places Billings and Butte on an equal footing each having won the tournament four times. Helena ranks next having taken the honors three times.

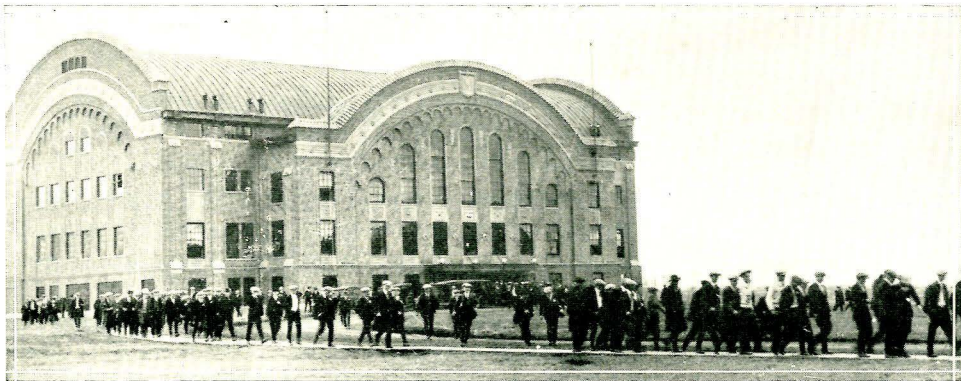

The two Butte teams, Butte and Butte Central, played the final game of the tournament. This was unquestionably the most spectacular grand final that could have been given to the show. These teams had met three times during the season, Central winning twice but in the three games there was only five points difference in the total scores of the teams. The fact that Butte was able to defeat Billings and Great Falls to reach the finals proved that they were an outstanding team, and certainly justified the tournament committee in their action which gave Butte a chance to compete even though they had not placed in their district.

Two interesting features of the tournament were the awarding of the Klosterman trophy and the Bobcat Fobs which replaced the Bobcat Medal. Custer County High scoring a total of one hundred and thirty points, won the Klosterman trophy. The Bobcat Fobs went to six men who were chosen to make up the all-state team. The choice was made by Ott Romney, Coach McAuliff of the School of Mines, Coach Stewart of Montana University and a

composite vote of all sports writers covering the tournament. This all-state team consisted of: W. Robinson, Manhattan, forward; Harding, Gallatin, forward; Johnson, Butte High, center; Knutson, Great Falls, guard; McNally, Butte High, guard; and Hanlay, Butte Central, utility man. The second team consisted of: G. Robinson, Manhattan and O'Leary, Butte Central, forwards; Kennedy, Billings, center; Krapper, Billings and Tobin, Custer County High, guards.

## GIRLS' VOCATIONAL CONGRESS

Two hundred delegates from over one hundred high schools, attended the 13th Annual Girls' Vocational Congress. This year the system of representative delegates was again carried out. This plan, which was inaugurated in 1925, allows only two delegates from each high school to attend the Congress. Selection of delegates is made on the basis of scholarship to count two-thirds and activities one-third. With this limitation on the delegates we find that the attendance still tends to increase each year.

The Housekeeper's Club and the Woman's Club were hostesses to the high school delegates as well as the college girls.

The speakers this year were outstanding professional women who came from all parts of the State of Montana.

The annual Pageant of Promise presented the second night of the congress was by far the most successful ever presented.

The Vocational Congress, as all past congresses, had as its guiding light Una B. Herrick, Dean of Women at Montana State College. Dean Herrick originated the Vocational Congress and has proved it to be very successful.

Miss Irene McDonald was chairman of the Congress this year and handled the entire affair in a very business-like manner.

PROF. M. J. ABBEY

## BOYS' VOCATIONAL CONGRESS

The ninth annual Boys' Vocational Congress was held at Montana State College from January 29th to February 2nd under the direction of Professor M. J. Abbey. Over fourteen hundred boys attended representing practically every high school in the state of Montana. Delegates were also present from Washington, Oregon, Idaho, Dakota and Wyoming.

Many expert speakers and professional men were present to give the delegates a knowledge of the professions offered to high school and college graduates. Such outstanding men as H. H. Sauters, Manager Bankers Life; W. F. Lasly, Dean of Dentistry at the University of Minnesota; Neil E. Gordon, Editor of the Journal of Chemical Education; H. D. Williams, Regional Director B. and S. Federation; C. B. Atzen, National Chairman on Osteopathy; Robert W. Gammon, Secretary of Congregational Churches; Rutledge Parker, State Forester; J. W. Haw, Director of Agricultural Department N. P. Railroad; and J. V. Dwyer, Legal Department of A. C. M. were among the speakers.

The Fangs had charge of housing the delegates and took care of the matter in fine shape. Many delegates were housed in Pullman cars furnished by the Northern Pacific and the Chicago Milwaukee railroads. The townspeople also cooperated in furnishing rooms for the delegates.

Professor M. J. Abbey is to be congratulated on the success of the Vocational Congress as the large delegation and the financing problem have grown enormously since the holding of the first Congress.

## Speaking Contest

The State Speaking Contest held in connection with the State Basketball Tournament, was held at Butte High School this year. Sixteen orators, representing practically every part of the state of Montana, participated. First place in the contest went to James Sonsteele of Flathead High School, Kalispell, Montana.

## Essay Contest

Miss Ethel Armstrong, Junior in the Whitehall High School, won first place in the State Essay Contest. Her subject was "Saturday Afternoon in our Town." Betty Foot, of Helena, writing on "Shoes", took second honors and James W. Laist, of Anaconda with the subject, "The Tyranny of Punctuality," won third place. This contest was held in connection with the State Basketball Tournament in Butte this year at The School of Mines under the supervision of Professor W. F. Brewer, of the English Department of Montana State College.

## State Scholarship Contest

The fourth Annual Scholarship Contest was held at Montana State College, April twenty-ninth and thirtieth, nineteen hundred and twenty-seven. Whitefish High School won first place and the State Championship cup.

Eighty-two high schools were represented with two hundred and forty-two students attending. Competition in the academic subjects was held Friday and in the commercial subjects Saturday.

Whitefish scored a total of eighteen points to win the contest. Custer County High School, of Miles City, won first place in the commercial subjects.

John C. Hark, of Granite County High School, won first place in the pentathlon and thus received a four year scholarship to any of the educational institutions in Montana. Winners in the academic contests were awarded one year state scholarships.

The contest closed on Saturday evening with a special program held in the gymnasium. Several addresses were made and the awards were presented.

ATHLETICS

G. OTT ROMNEY  
*Director of Athletics*

## ATHLETIC COUNCIL

Athletics at Montana State College are directly in charge of a Board known as the Athletic Council. The Council comprises six members; Professor Dean B. Swingle, Chairman; Eric Therkelsen, faculty representative and treasurer; G. Ott Romney, Director of Athletics; Jack Taylor, Alumni representative;

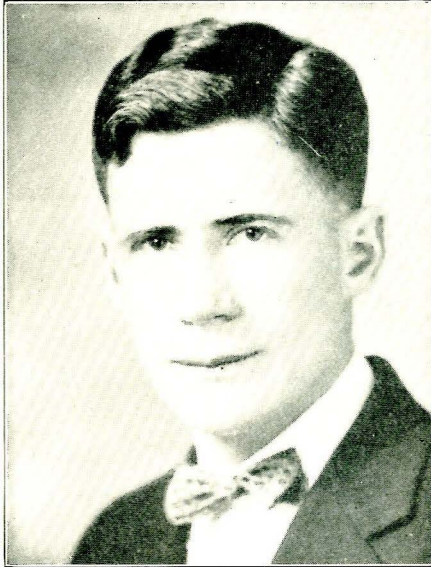

John Breeden, Commissioner of Athletics from the Student Senate; and the manager of the major sport during that sport's activity. The Athletic Council formulates the athletic policies of the institution, supervises control so that the policy is in harmony with that of the school, ratifies schedules, nominates the managers of the major sports to the student body, and furthers the interests of athletics.

D. B. SWINGLE  
*Chairman*

ERIC THERKLESON  
*Treasurer*

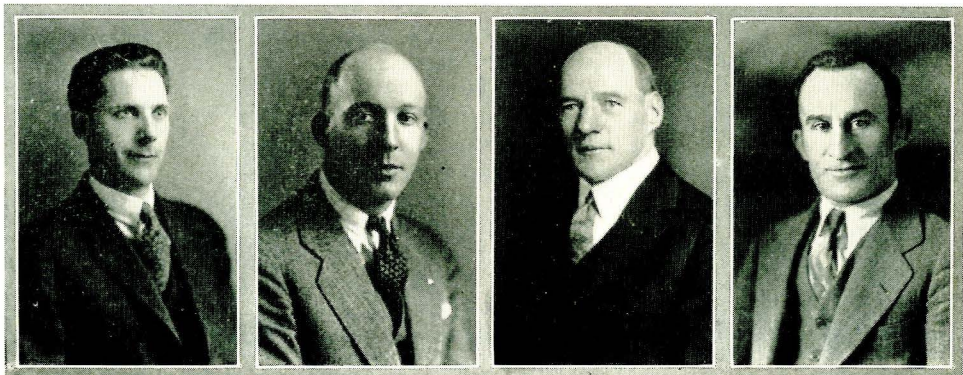

## ASSISTANT COACHES

Coach Ott Romney has had as his chief assistant Schubert Dyche who has acted in the capacity of varsity trainer and coach of baseball and freshman football.

Coach Dyche has turned out some very fine teams and it is hoped that he will remain to take up the duties of Director of Athletics when Coach Romney leaves us this year.

SCHUBERT DYCHE  
*Freshman Coach and Varsity Trainer*

Ott Romney will leave Montana State this spring after leading the Athletic destinies for eight years, during which time he instilled into the student body a new spirit of consciousness and inspired the teams to greater victories than ever before. His basketball teams have gained nationwide recognition and his last two football teams have been undefeated in the conference.

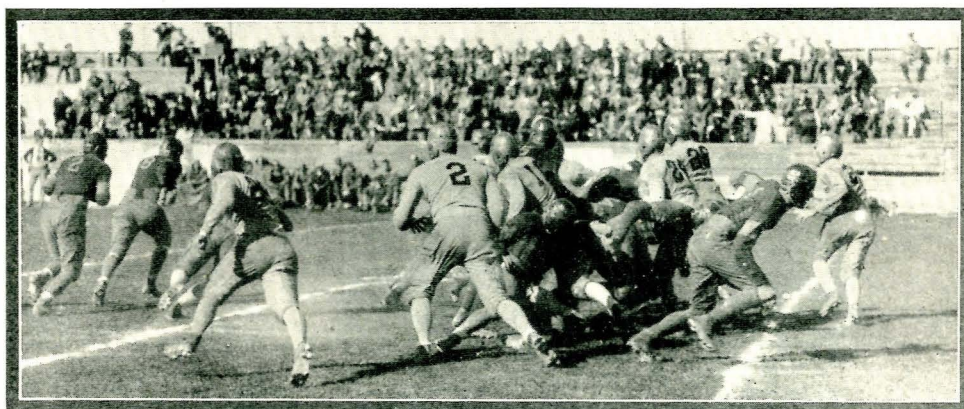

Through the Montanan we wish him luck in his future endeavors. He will coach at Brigham Young University next year.

THE SQUAD

CAPTAIN  
*Jenny Babcock*  
1927  
FOOTBALL

## FOOTBALL 1927

The 1927 season was one of the most colorful and successful in the history of the school, and on par with last year's undefeated schedule. The team did not win every game but they played one of the hardest schedules ever attempted, meeting four teams in and four out of the conference and showing themselves as real contenders in the gridiron sport, by placing third in the Rocky Mountain Conference and playing on equal basis with leading teams of the Big Ten, Pacific and Missouri Valley Conferences.

Beginning with a 22 to 0 victory over the Bisons from North Dakota, the team journeyed to Moscow the following week and gave the strong Idaho team, who ranked with the leaders in the Pacific Conference, a scare, losing by six points after the Vandals scored on the last play. A week later Colorado University was met in the first conference game of the season and vanquished 12-6

repeating last year's triumph. In next conference game Utah Aggies were defeated at Ogden in a game full of thrills. The Bobcats returned home, took one workout and returned again to the south to meet their third conference rival in as many weeks. The fast pace they had

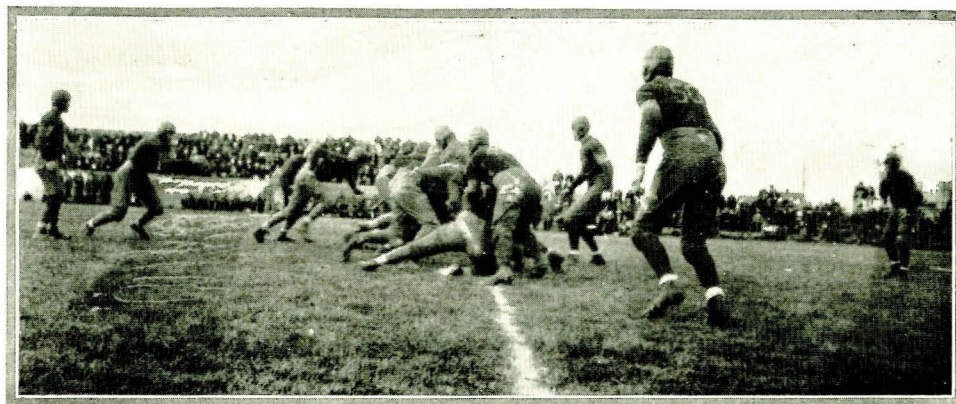

CHEZ  
*Captain-elect*

RICHARDS

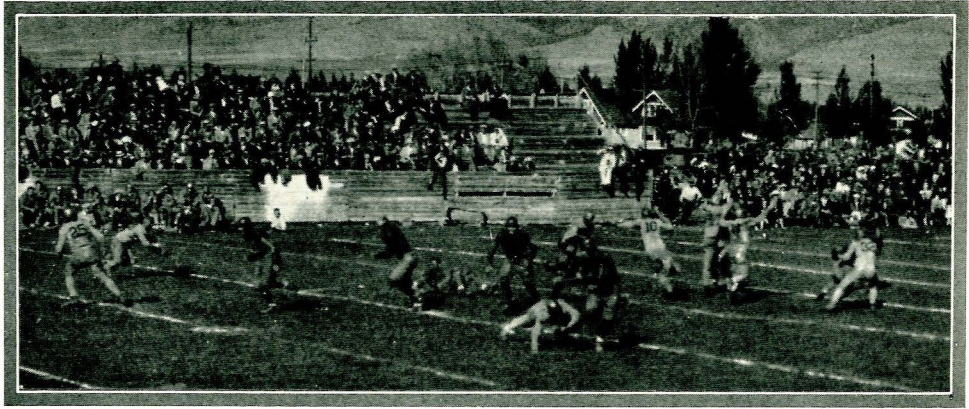

OLSON

HURD

been setting told against them and they lost to Colorado College who were in better condition, and who didn't have as many men out of the line up. Direct from Colorado Springs the Blue and Gold traveled to Lafayette, Indiana, stopping on the way to scrimmage at Northwestern University, at Chicago. They met Purdue University, the Big Ten contender and conqueror of Harvard earlier in the season. The eastern Team won 38-7 after rallying in the 2nd quarter. The Bobcats made the first touchdown after a few minutes of play but the long train ride and extremely hot weather told against them, and they gave way before a brilliant passing attack. After resting a week, Wyoming University was taken into camp 6-0 on a field covered with a foot of mud and water which made handling the ball difficult. To finish the season Montana University took the top position 6-0 after a lucky catch of a pass over the goal line. The Bobcats had twice as much yardage and first downs and threatened more often but punch in pinches was lacking together with the advantage in any of the breaks in the game. With a number of veterans returning, reinforced by Frosh, the team should go far next year.

### SEASON'S SCORES

Bobcats 22	No. Dakota Aggies 0
Bobcats 12	Idaho University 19
Bobcats 12	Colorado U. 6
Bobcats 13	Utah Aggies 6
Bobcats 7	Colorado College 27
Bobcats 7	Purdue U. 38
Bobcats 6	Wyoming U. 0
Bobcats 0	Montana U. 6

#### BOBCATS 22, NORTH DAKOTA AGGIES 0

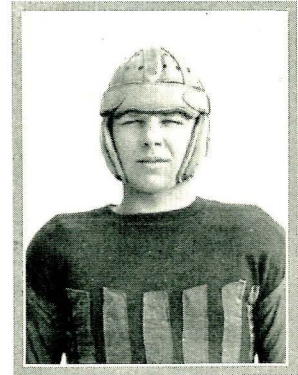

Opening the 1927 football season with a decisive display of strength, the Bobcats smashed through the strong North Dakota Aggies for a 22-0 victory. The new Bobcat backfield combination, consisting of Chez, Gardner, Eikrem and Babcock, showed all the indications of the great offensive ability that was later so evident.

Gardner, Bobcat quarterback, made a beautiful 65 yard run for a touchdown on a received punt, for the outstanding individual effort of the game. North Dakota found themselves unable to make a real threat at the Bobcat goal due to the alert and well organized defensive strength of the veteran Bobcat line, who displayed the same "stone wall" of defense as they had done in previous years. Rip Wilson, Olson, Ario, Dobeus and Vogt playing their usual good game.

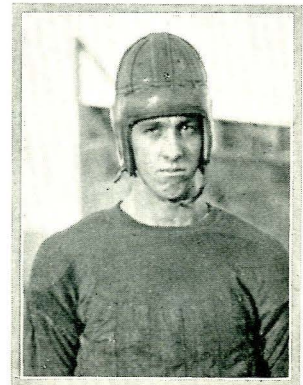

MONTANA STATE 12  
IDAHO UNIVERSITY 19

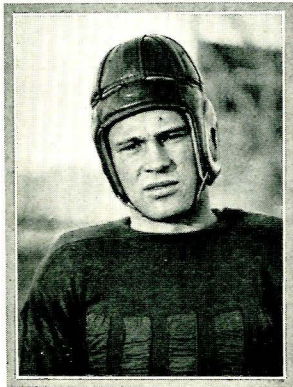

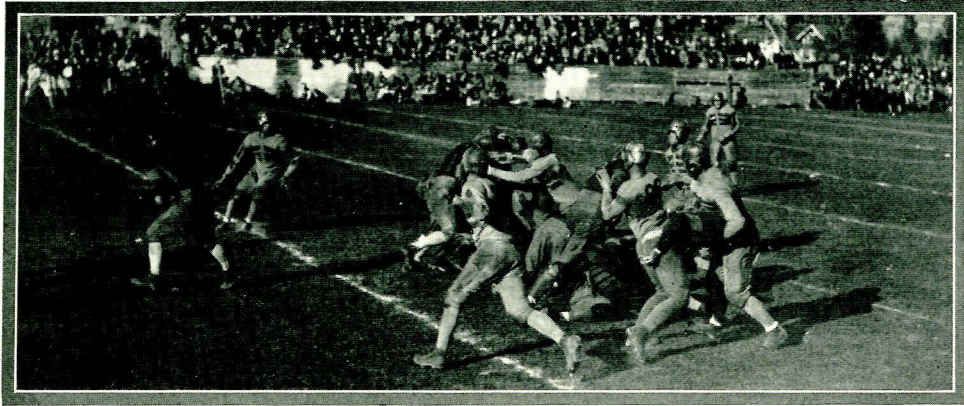

Playing against a string of tough breaks the Bobcats lost

SEMMINGSEN

VOGT

BALL

WILSON

their second encounter of the year to the Idaho Vandals. Outplaying their opponents but handicapped by a crippled backfield, Montana made eleven first downs against nine for their opponents. The Bobcats also gave an exhibition of their aerial strength, gaining one hundred forty three yards by use of the pass, while Idaho was unable to complete a single one.

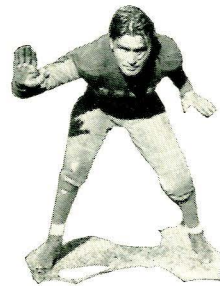

Eikrem made a pretty sixty-five yard sprint through a broken field, while Richards, Chez and Eikrem composed the efficient Bobcat passing combination with Richards doing most of the tossing.

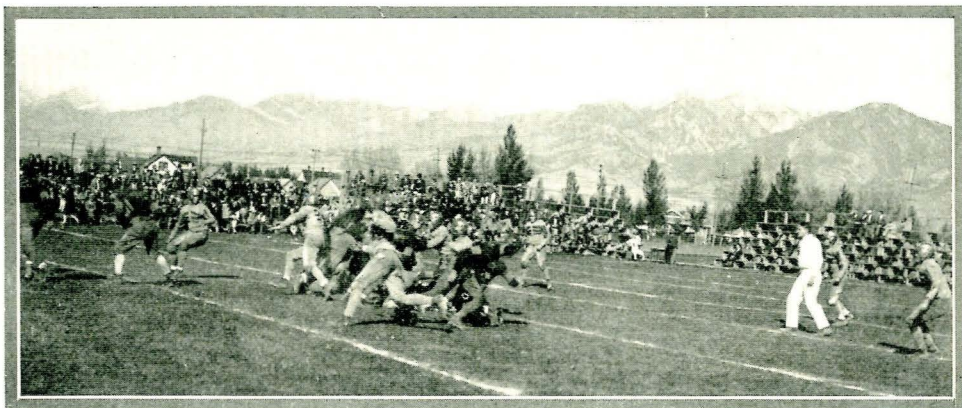

#### BOBCATS 12, UNIVERSITY OF COLORADO 6

The Bobcats opened their 1927 Conference season on Gotton field with a 12-6 win over the fast Colorado U. team. Both teams played a snappy variety of football, and furnished a game replete with thrills for the spectators. Buck Smith, versatile Colorado half-back, turned in the feature of the day with a 74-yard run for a touchdown and Colorado's only score.

For the Bobcats, Gardner turned in his usual fine game, making both scores and being a persistent threat-man at all times. Chez, Eikrem and Babcock also rendered him able support in the backfield.

The Montana line, famous for its defensive and offensive power, functioned as the proverbial "stone wall" holding the Southerners repeatedly and often stopping

plays behind their line. Wilson, Dobeus and Olson carried the brunt of the defense and did much to distinguish themselves. Hurd at end also played a fine game.

#### BOBCATS 13, UTAH AGGIES 6

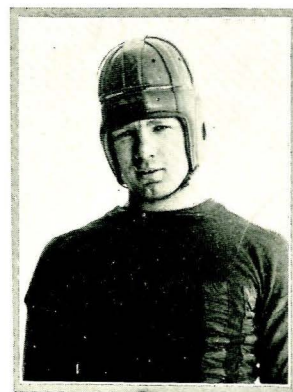

A fact that makes this game particularly outstanding is that all of the scores were made as the result of sensational plays. In the second quarter Chez tossed a beautiful thirty-five yard pass to Hurd who trotted five yards for a touchdown. In the third quarter Bergson of Utah picked up the ball on a blocked Bobcat punt and galloped forty yards for Utah's lone score. On the following play "Curly" Gardner, who was playing one of his most brilliant games, made good use of the perfect interference given him by his team mates and tore off a beautiful ninety yard run for Montana's final touch-down.

Every man on the squad played super-football throughout the whole occasion. Repeatedly Utah was stopped, with only inches to go, by Montana's powerful, "stone wall" defense. Gardner's kicking was outstanding and was capped with a beautiful seventy yard punt. Every man was at his best and as a result the team was unbeatable.

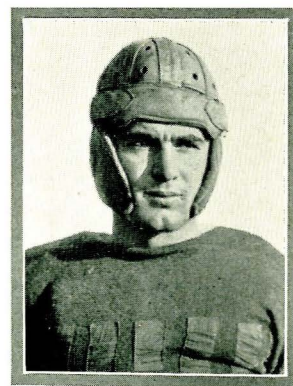

#### BOBCATS 7 COLORADO COLLEGE 27

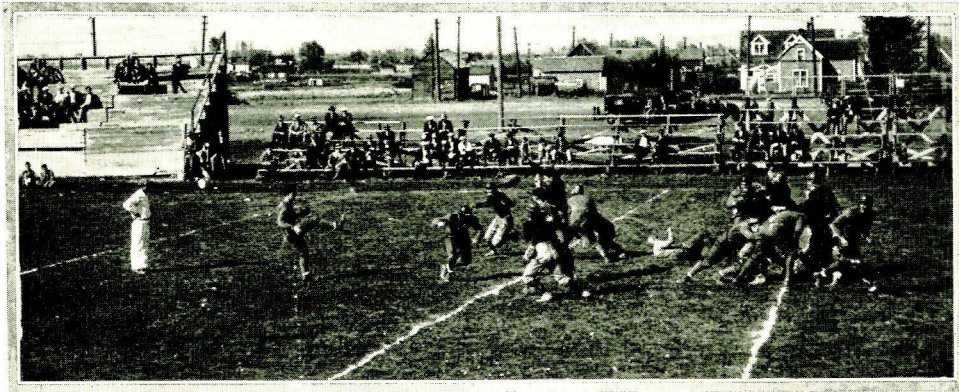

Colorado College stopped the winning streak of the Golden Typhoon by vanquishing them in their fifth game 27-7, at Colorado Springs, thereby avenging their basketball defeats of last winter.

GARDNER

PRESTON

Clark, giant Colorado fullback and Field Phelps, half-back, hit the line and ran the ends for long gains. For the Bobcats, Wellington, Hurd, Ario and Captain Babcock shone.

#### BOBCATS 7, PURDUE 38

When the Bobcats met Purdue University, October 29, at Lafayette, Indiana, they faced one of the finest machines in the country. Captain Wilcox and his Boilermakers had defeated Harvard earlier in the season; the latter finished with the leaders in the Big Ten conference.

The Bobcats made the Eastern critics sit up and take notice when they organized their attack and pushed the ball over for a score before the game had hardly begun, but Purdue rallied and with the long train ride and hot weather against them, the Montana team gave way before a brilliant Purdue passing attack.

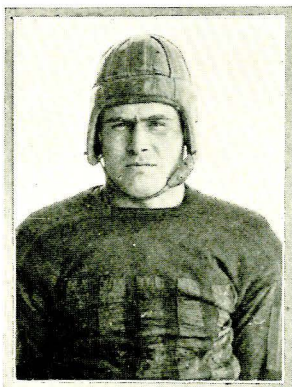

The Blue and Gold line refused any gains and "Rip" Wilson assisted by Vogt, Ario, Dobeus, Olson, Hurd and Cashmore forced all plays through the air.

#### MONTANA 6 WYOMING U. 0

This game was played in a field of mud and as a result, flashy football was impossible. In the first quarter Sem-

ARIO

EIKREM

mingsen blocked a Wyoming punt; Olson scooped up the ball and went over Wyoming's line for the only score of the day. From then on Montana played a punting game, allowing Wyoming to pile up a large margin in yardage and first downs but keeping the Blue and Gold posts well out of danger.

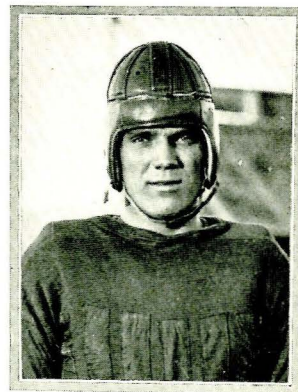

MONTANA STATE 0, MONTANA U. 6

Playing before the largest and most colorful crowds ever assembled in a Montana City to witness an athletic spectacle, the Bobcats lost a grueling 6-0 game to a fortunate Grizzly team, who after being outplayed throughout the major portion of the contest, completed a single daring pass, which turned a tie battle into a victory. This annual game is not only a real football spectacle for the people of the state, but also serves to introduce to them the type of student being produced by their institutions. This contest is in reality the insignia of the Montana ideal of sportsmanship and fair play.

The game this year marked the end of the careers of men who have made football history at Montana State. Captain Babcock, Wilson, Olson, Dobeus, Cashmore and Ball, all played their last game for the Bobcats, and all deserve the sincere commendation of the school, for their brilliant contributions to its reputation.

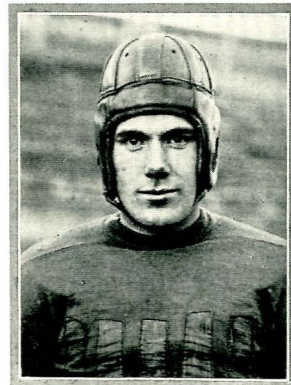

WELLINGTON

DOBEUS

CASHMORE

BREEDEN

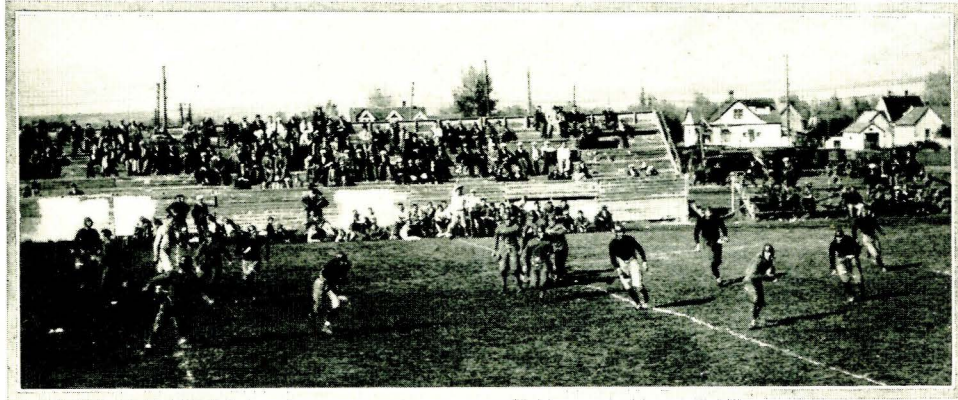

## BOBKITTEN FOOTBALL

Continuing the pace that was set by the Bobkitten team of 1925 and maintained by last year's Freshmen squad, the Kittens of 1927 went through their season with six victories and no defeats.

Hard fought games were won from Butte High School and Billings High School, both teams of high scholastic standing. But the sensational game of the season was the decisive defeat of the Cubs from the University by a 25 to 0 score. Outweighed by a large margin and playing on a muddy field the Kittens, nevertheless, exhibited a brand of football that was far too fast for their opponents.

Coach Dyché has turned out this year not just a winning team, but a squad of hard hitting freshmen, well coached in the rudiments of college football and capable of providing the varsity eleven with a scrappy type of scrimmage. In the process he has uncovered a number of stars who will probably prove to be desirable additions to next year's varsity.

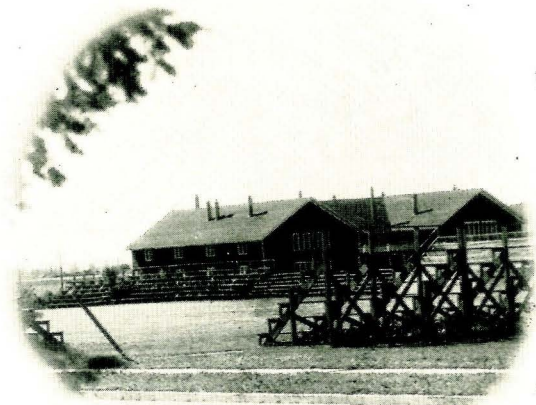

Men earning their awards were: Anderson, F., Anderson, E., Bilant, Bohart, D., Bohart, F., Bruner, Coday, Crossen, Cunningham, Cullen, DeFrate, Freese, Harrer, Hawkins, Honnold, Howell, Johnson, M., Johnson, L., Kleffman, Lanham, Leland, Lucke, Martin, Millis, Popham, O'Leary, Rovreit, Skinner, Stanich, Vertil, Wagner, Wert, Wheat, Winner, Worden, Worthington.

The games of the season and scores follow :

Kittens 27	Butte High	14
Kittens 26	Gallatin High	6
Kittens 19	Billings High	0
Kittens 7	Billings Poly.	0
Kittens 28	Billings Poly.	0
Kittens 25	Cubs	0

# Basketball

## CONFERENCE CHAMPIONSHIP

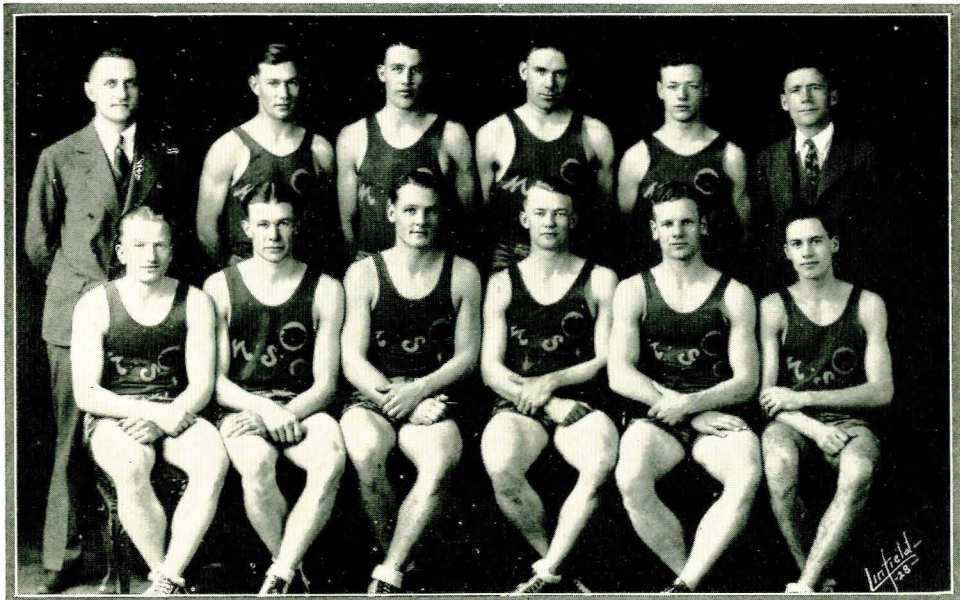

Repeating their performances of last year and adding new laurels the Bobcat wonder team swept to another Conference Championship in dazzling manner when they took Wyoming University, champions of the Eastern Division, to camp every game of the Championship series which was held at Bozeman.

Although touted to win because of their victory over Colorado College, last year's Eastern division Champions, the Blue and Gold ran wild over the Cowboys in every game and not until the last game were they in danger.

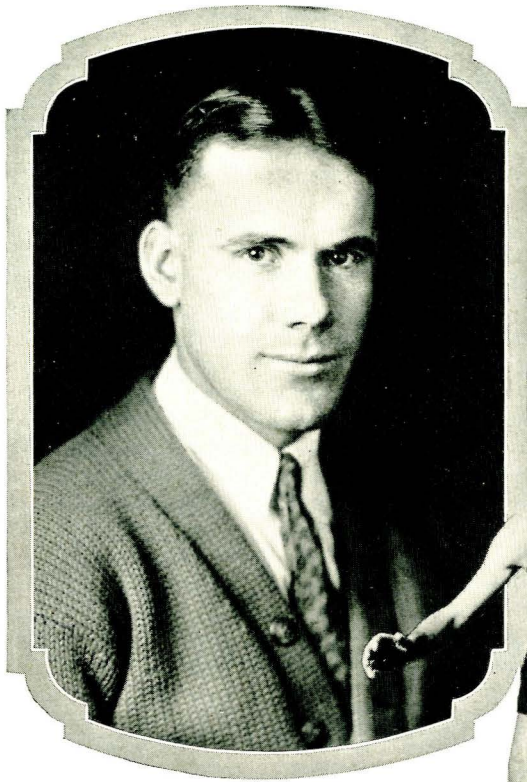

The first game was a slow one with both teams feeling each other out and unwilling to take chances. Wyoming took the lead and appeared threatening at the onset, but the Montana team organized their attack and swept to victory in decisive manner, 43-27.

The second evening the Bobcats began a dazzling attack and continued throughout the game to pile up a big score on the bewildered Cowboys who couldn't cope with the Bobcats' swift attack. The final gun showed Montana 59, Wyoming 31, thereby cinching the Conference Championship a second time in as many years.

The final game found Wyoming fighting desperately to win one of the three games and the Bobcats ran into a different team from the one they had played the two preceding nights and only in the last few minutes did they cinch victory to send the Cowboys' hopes glimmering. The score was tied often throughout the game and only one of the fighting finishes, for which the Bobcats are famous, pulled them from behind to win. The Wyoming team was one of the cleanest and most sportsmanlike quints which have ever performed on the local court and deserve praise for their fight and playing.

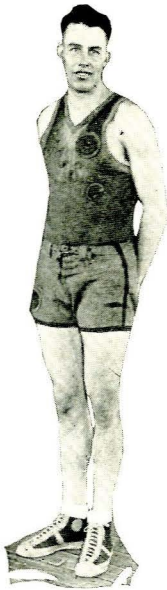

THE SQUAD

CAPTAIN  
*"Brick" Breeden*  
1928  
BASKETBALL

# ALL CONFERENCE MEN

F. WARD  
*Captain-elect*

“Brick” Breeden, Frank Ward, and “Cat” Thompson were the three Bobcats’ stars chosen for the all Conference team on the annual Spauldings guide team picked by “Poss” Parsons, Sports Editor of the Denver Post. Max Worthington, Frank Worden and Orland Ward were given honorable mention. It is clearly evident that the Montana team was indeed a wonder team for it is seldom when every man on the team is selected for an all star team and the institution should be proud of the quint which represented them in the hoop sport and of Ott Romney who developed as good a scoring combination which averaged over 50 points per game the entire season. “Brick” Breeden was chosen as captain of the All Conference team, which is a tribute to a great leader and basketball player. Breeden has another season and should add new victories to those already his.

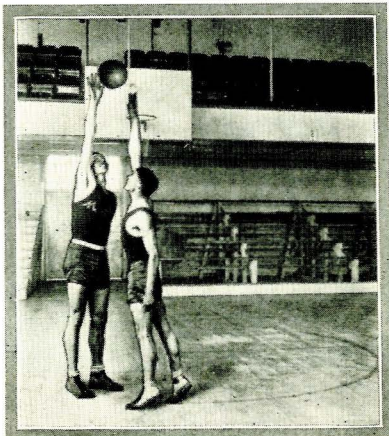

THOMPSON

## BASKETBALL

### MONTANA STATE-BRIGHAM YOUNG SERIES

Although the Brigham Young team finished their season at the bottom of the Western Division percentage column they were, nevertheless, one of the most powerful teams in the district and throughout the season were regarded with some concern by prospective opponents. The Bobcats were extended by the Cougars in the two games at Provo but their clever passing and extremely accurate shooting proved just enough to nose Brigham Young out of victory

### CONFERENCE GAMES

Bobcats 57	B. Y. U. 41

WORTHINGTON

on her own floor. The last two games of the series were played on the home floor and in spite of the fact that the Division championship was already cinched by the Bobcats both teams played hard basketball. All of the games were won by Montana.

### MONTANA STATE- UTAH AGGIE SERIES

The four-game series with Utah Agricultural College provided the most spectacular basketball of the Western Division and were of a caliber that would stand up well in

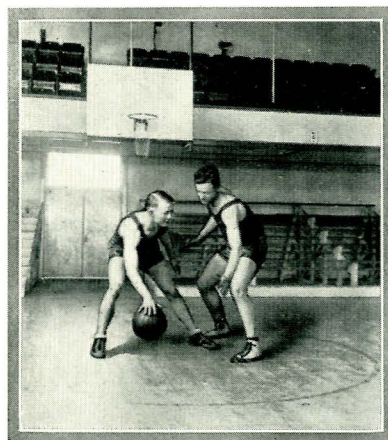

O. WARD

comparison with the Conference Championship series. The first two games were played on the home floor and resulted in one victory for each team. The Bobcats were caught in the depths of a slump following a heavy barnstorming trip and were as a result, playing a slower, more cautious game

than their usual style. The first encounter resulted in a decisive victory for the Bobcats. In the second, Worthington of the Aggies played a beautiful game and gave his team such a lead during the early part of the second half that, in spite of the fierce comeback of Montana, the Utah team held the upper hand in a 44-47 score. This was the second and last Bobcat defeat of the season and the only Conference defeat. The two games at Logan resulted in very tight victories for the Bobcats to cinch their supremacy over their most powerful foes on the basketball floor.

## MONTANA STATE COLLEGE-UTAH UNIVERSITY SERIES

The four-game series with Utah University ended in a complete string of

victories for the Bobcats. The home games which were played just after the Utah Aggie series and while the Bobcats were still in their mid-season depression were played in a listless fashion, the Blue and Gold stars just exerting themselves enough to keep the lead. The second half of the series which was played in Salt Lake City proved a much different type of basketball. In these games a rejuvenated Bobcat team was forced to the limit to squeeze victory from the desperately battling Utes. The type of the games is well indicated by the final scores, 44-39 and 27-22.

WARDEN

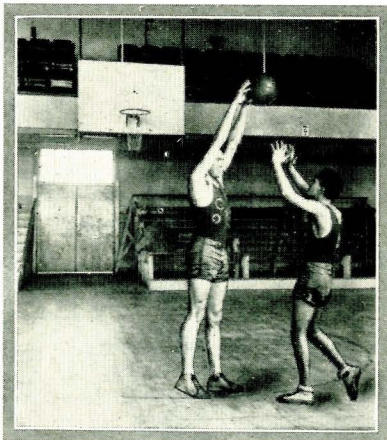

SADDLER

## MONTANA STATE-PHILLIPS "U" SERIES

Phillips University of Enid, Oklahoma, stopped off at Bozeman from a barnstorming trip during which they met many of the big schools on the coast and in the Rocky Mountain region and were defeated by the Bobcats 48-22, and 38-31, the only defeats they sustained on the whole trip. The Eastern team placed second in the National Open Tournament in 1927, losing by two points to Kansas Hillyards and, defeating them, placed the Blue and Gold on even terms with the Nation's leading teams.

## MONTANA STATE-IDAHO SERIES

During the holidays Idaho University visited Bozeman on their Holiday tour for three games with the Bobcats and left in the lower position with two defeats and one victory, losing the first and last games to a fast breaking five-man offense of the Blue and Gold. Idaho placed high in the Pacific coast conference and had the Winners of that conference accepted the Bobcats' challenge for a post season series the Blue and Gold would have stood a chance to defeat the seaside hoopsters.

H. HURD

### MONTANA STATE- WASHINGTON STATE SERIES

The Washington State Cougars were no match for Montana State Bobcats and dropped two slow games 58-31 and 57-42 when they came over after taking the University to camp twice by large scores. The Blue and Gold defeated the Cougars by a larger score than did Oregon State and Washington University.

GARDNER

### MONTANA STATE- OREGON AGGIES

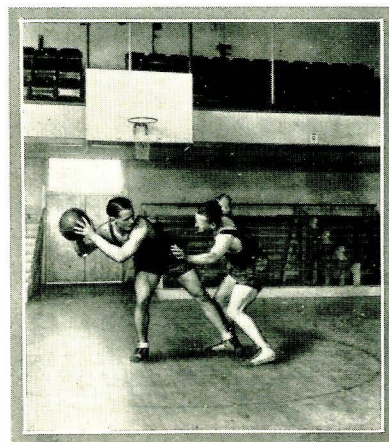

Oregon Aggies with their percentage system of basketball and a large number of victories in the East, stopped off at Bozeman on their way home and left after having tasted of the Bobcats' claws; being snowed under 56-33, thereby showing the superiority of Ott Rom-

ney's style of five man fast breaking offense over the slow breaking and spot shooting of the percentage system. The Oregon Aggies placed very high in the Pacific coast conference and beat the best teams in the East and the victory of the Bobcats again showed them to be among the Nation's best hoopsters.

### STATE CHAMPIONSHIPS

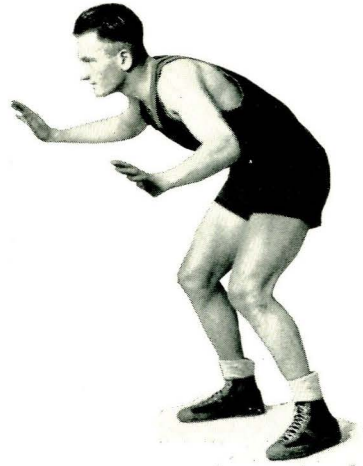

The Bobcats had very little trouble in winning the State Championship as the only serious contenders were the Mines and Mount Saint Charles whom they defeated by top side scores. The other teams, Montana Normal and Montana University were met and taken to camp handily by the Rocky Mountain Champions.

Bobcats 57	Denver U. 34
Bobcats 38	Phillips U. 22
Bobcats 48	Phillips U. 31

Bobcats 58	Washington State 31
Bobcats 57	Washington State 42
Bobcats 77	Montana U. 26
Bobcats 52	Montana U. 39

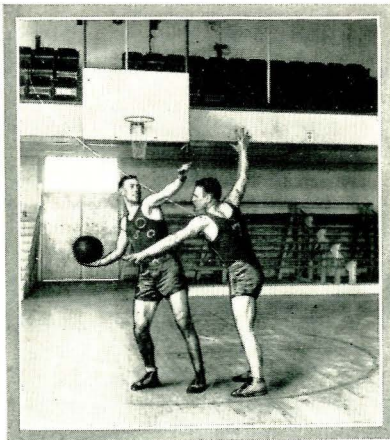

## BARNSTORMING GAMES

At the end of the Christmas holidays the Bobcats went on their annual barnstorming expedition and this year their schedule included some of the fastest teams in the country. The first game was played against the Billings All-Stars at Billings and resulted in decisive victory for the Bobcats to the tune of 93-38. Denver University next went down to defeat before the early season onslaught of the Bobcats. This victory indicated a very promising season for Montana since Denver University was playing at the top of the Eastern division of the Rocky Mountain Conference. Two more victories were won from Colorado Teachers, a team which also was ranking high in the Eastern district at the time. The Sheridan All-Stars were defeated by a score of 51-13. The final game of the trip was played against the fast Pratt's Book Store team. This aggregation held the 1927 independent championship of the Rocky Mountains and it was predicted that the usual 40 point total of the Bobcats would not be piled up against them. Nevertheless Montana won by the score of 48-42.

BROWNING

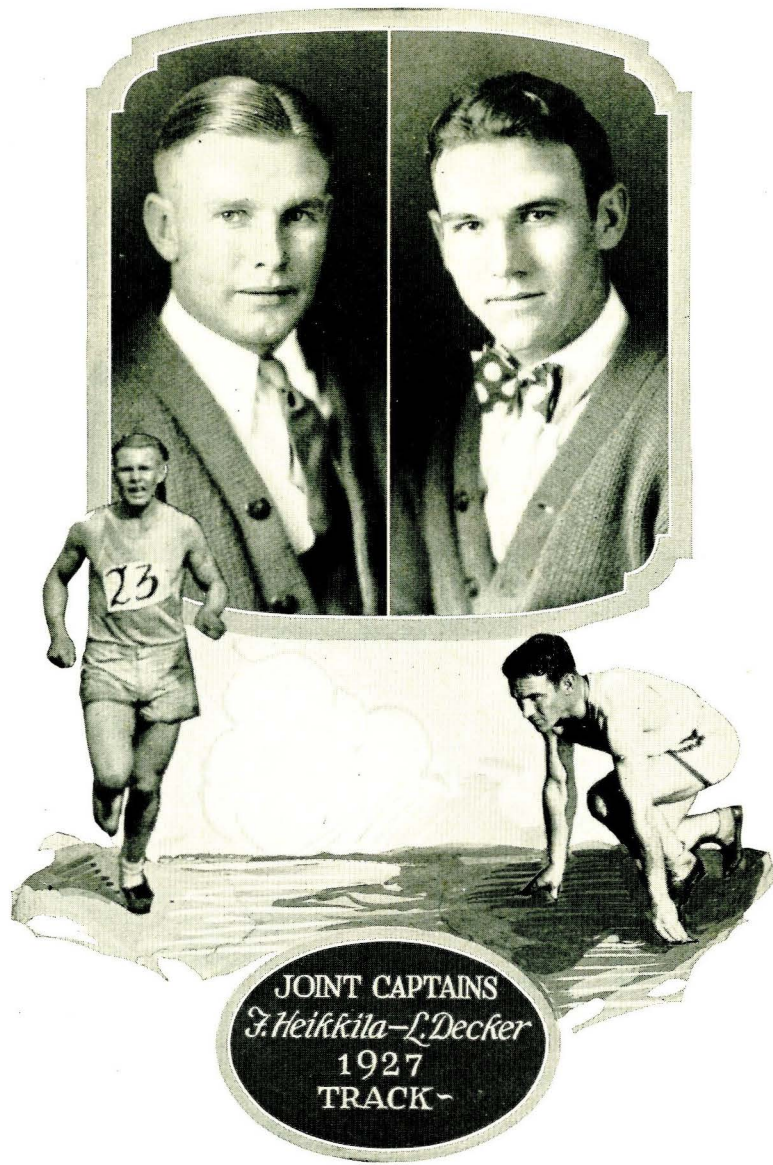

Every man who wore a Blue and Gold suit emblematic of the basketball squad will return again next year but the man who put the fight into them and developed the man to man defense and five man offense, G. Ott Romney, will be leading one of our chief competitors, B. Y. U., and we wish him luck as he leaves Montana State College after leading our athletic destinies for eight years. With every man back reinforced by Frosh the team should uphold their record of this year.

Bobcats 81	Montana Normal 23

QUILLIN

## TRACK 1927

A late spring accompanied with the usual snow and mud, and a track that was in very poor shape proved to be the main stumbling blocks to a thoroughly successful season for the Bobcats in track and field last year. But in spite of these handicaps, Coach Romney succeeded in chipping into shape a squad of field and cinder artists which was well able to hold its own against the majority of the Rocky Mountain Conference teams.

Of the twenty-five men who turned out for the team the only veterans were Heikkila and Decker, both of whom earned their letters in nineteen twenty-six. These two men were also joint captains of the squad, Heikkila taking the helm in the field events and Decker taking charge on the track. Last year was the first that this system of Leadership for the track squad had been tried, and from all indications, its seems to have been very successful.

The first meet of the season was a handicap event with Gallatin County High School. The liberalness of the handicaps coupled with the fact that a number of the Gallatin athletes were possessed with exceptional ability, served to make the competition very keen for the Bobcats. Nevertheless, they succeeded in defeating the high school by a decisive margin. In the intramural meet, which was conducted this year on a class basis, interest did not run as high as in former years though all of the classes were fairly well represented.

The first real test against collegiate opposition came when the Bobcats met the powerful Grizzly squad in Missoula. Although their op-

CATES

F. WARD

ponents included such stars as Gillete, Coyle, and others who gave the University a decided advantage in the track events, the squad nevertheless showed up very well, amassing a total of forty one and two-thirds points to eighty nine and one-third for the Grizzlies. The fact that the Blue and Gold captured the first places in all but one field event indicated that they would afford a much harder type of opposition were they able to secure equal opportunities to train on the track as in the field.

On the way to the Conference track meet the Bobcats stopped off at Laramie to compete with the track squad of the University of Wyoming. Owing to a cold, strong wind fast time was impossible at this meet. The Bobcats ran away with the first places in the majority of the events, followed up with numerous seconds and thirds, and took the meet handily by a score of eighty-five and one-third to fifty-four and two-thirds.

The Rocky Mountain Conference track meet last year was the fastest ever held in this conference and was numbered among the fastest in the country. Records in seven events, namely the mile run, the four-forty, the shot-put, the pole vault, the low hurdles, the high hurdles, and the mile relay were shattered.

Ward and Hurd succeeded in gaining points for Montana in the high jump and the pole vault.

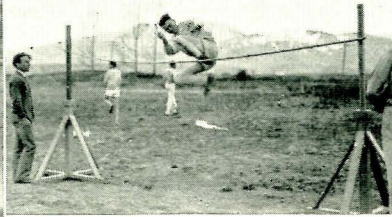

VOGT

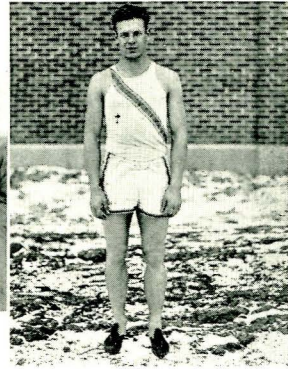

This ended the track season for the Bobcats—a very successful season considering the obstacles that the track squad is forced to face each spring. The athletes who earned the official track "M" for the season were: Decker, Ward, Cates, Thompson, Vogt, Bade, Heikkila, Hurd, Sparrenburger, Olsen, Semmingsen, Quillin, and Gardner. At the close of the year Frank Ward was elected captain of the squad of nineteen twenty-eight.

GARDNER

### PREVIEW OF TRACK 1928

The season of 1928 is in full swing as the 1928 Montanan goes to press with many varsity tracksters working out regularly and several Frosh candidates showing real form.

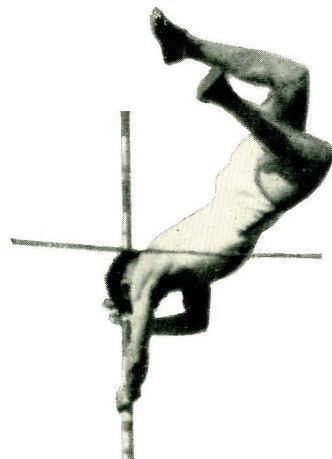

The prospects indicate one of the best track teams in the history of the school and there will be five intercollegiate meets to test that power of the Blue and Gold cinder artists. Montana University, Inter Mountain College, Wyoming University, Colorado Teachers, and the Conference Meet will test the prowess of Montana State's tracksters, who will have a veteran team. Captain Ward is high jumping and running the 440 in good form and Heikkila, captain of last year, looks good in the javelin and distance runs again. Ott Gardner and Vogt are stepping over the sticks in fast time and Cates, and Cline are doing well in the middle distances. Semmingsen is on deck to put the shot as is Hurd in the pole vault.

New men include Georgeivich, interscholastic star from Butte and Renn, a speed king from the Bitter Root. Kleffman is putting the shot and Foster, Brunner, Cody, Maxon, Skonnered, and Johnson will most likely break into places during the season.

#### WYOMING MEET

Two-twenty	- - - -	Gardner second, Sparrenburger third
High jump	- - - -	Ward first (tie), Hurd third (tie)
Javelin	- - - -	Heikkila first, Ward second
Low hurdles	- - - -	Gardner first, Cates second
Two mile	- - - -	Bade first, Heikkila second
Mile run	- - - -	Cline third
Hammer throw	- - - -	Quillan first
Hundred yard dash	- - - -	Decker first, Sparrenburger second
Pole vault	- - - -	Hurd first, Gardner third (tie)
Four-forty	- - - -	Ward first
Shot put	- - - -	Semmingsen, Olsen, Ward
High hurdles	- - - -	Vogt, Gardner, Cates
Discus	- - - -	Olsen first

The relay was won by Montana. Thompson, Ward, Vogt, and Cates composed the team.

## CROSS COUNTRY 1927

Last year the annual Cross Country race was run for the first time on an inter-class basis. Without the stimulus of the old spirit of fraternity rivalry, interest in the event slumped considerably and only twelve starters entered the race as compared to the two hundred and three for the year before. It is fervently hoped that this old "Spring Classic" will not die a natural death at Montana State College.

Fast time was impossible in last year's event owing to the very muddy condition of the course. Frank Heikkila, sophomore and winner in nineteen twenty-six, broke the tape again leading by over two hundred yards. His time was fifteen minutes and fifty-six seconds which, under the very unfavorable conditions prevailing, was exceptionally good. Dobler and Torrence finished second and third. The sophomores won the event with nineteen points to their credit; the juniors and freshmen tied for second place with fourteen points each.

No competition was held in this sport with other schools last year. Letters were awarded to Heikkila, Dobler, and Torrence.

*Val Glynn*  
1927  
BASEBALL

## BASEBALL 1927

When Coach Dyché issued a call for candidates for the 1927 baseball team, he found on hand a large number of men who had played ball and the prospects indicated a well balanced team and strong reserve. Captain Glynn, Tenny Babcock, Twilde, Bowen, Stone and Briscoe had worn Bobcat uniforms in former years and to aid these were Thompson and Eikrem, who played ball in Utah. Sullivan and Cannon tossed the pill around the lot on famous Bitter Root teams.

Out of this large aggregation of aspirants Coach Dyché developed a team that played good ball throughout the season. Against the University, they performed in wonderful style and won one and lost one to that powerful nine. On a training trip into Idaho, the Bobcats met some very strong collegiate and independent aggregations and won a majority of the contests. The team went through the season fullfilling expectations and discounting for the bad weather they showed up very well. Captain Glynn starred on the mound and was ably assisted by Tenny Babcock. Eikrem, at the position behind the plate, showed up very well for his first year of competition and batted very ef-

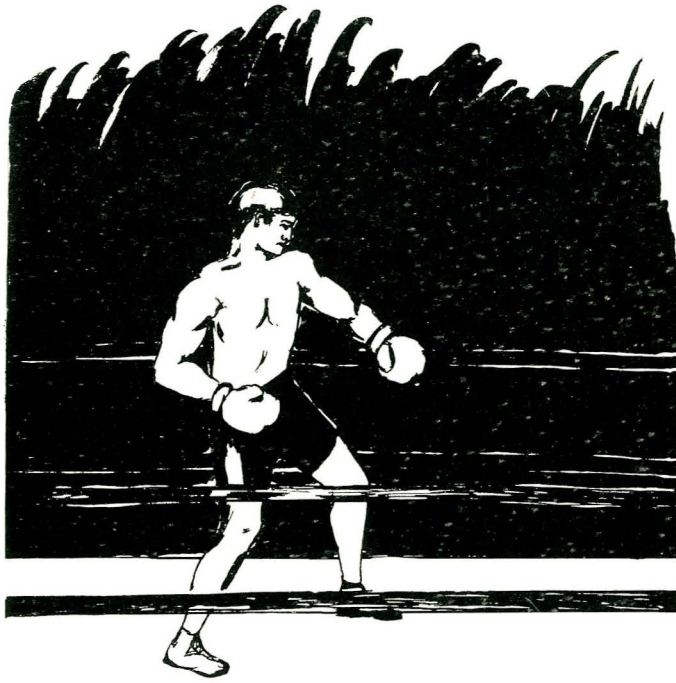

fectively throughout the season. Stone led the club swingers with an average of .417, which is very remarkable considering the very limited practice available due to bad weather. Twilde at first base and Thompson at shortstop worked in fine manner, as did Briscoe at second and Cannon at third. Stone, McFarland and Bowen covered the outfield in efficient manner.

The squad played sixteen games in all and won most of them. Only two games were played against the University as the Bozeman series had to be abandoned because of stormy weather, after the Grizzly squad spent most of a week in Bozeman waiting for suitable weather, for playing.

Throughout the summer vacation nearly every man on the squad played ball on independent teams in the state and outside. Coach Dyche played ball with the championship team in Havre. Glynn played with the San Francisco Seals and pitched fine ball while on the mound. Tenny Babcock pitched for the Helena Independents, winning every game. Ivar Twilde won the individual medal for highest performance while playing with the North Side Team in Missoula's twilight league, and Cannon and Sullivan played third and shortstop respectively on Stevensville's team which won the open championship of Western Montana. If these players had better weather their performance indicated that they would have had a wonderful team but Gallatin Valley's spring weather is very unsuitable to any kind of spring sport and baseball especially.

It is very hard to carry out a baseball schedule at Montana State due to the weather and the heavy schedule attempted in the other major sports. The team has to travel such great distances to get games that it is not practical to even attempt a season, but during the past few seasons the Bobcats have overcome these barriers and played ball with everyone within a few days' travel and have showed up in creditable fashion. There will be no baseball season in 1928 due to reason that it has been a very unprofitable sport in former years.

# Minor Sports

## SWIMMING 1928

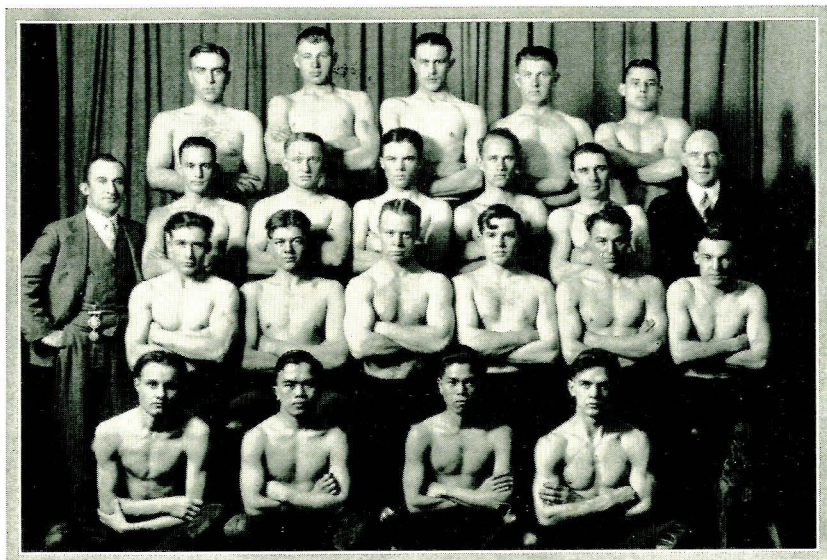

During the past few years, swimming has been gradually gaining in interest at Montana State College, and this year, for the first time, a team was picked to represent our school in this activity. Due to the untiring efforts of Coach Dyche a number of stars were developed from a large field of inexperienced men and a very capable squad was the result. At the beginning of the season Frank Heikkila was elected captain.

The first competition was held in Butte against the Butte Y. M. C. A. At this meet Flannagan won the 100-yard back stroke, Wilke was nosed out of first in the 100-yard breast stroke, Lewis took third in the diving, and Lennon came third in the 40-yard dash. Heikkila captured individual honors by winning the 40-yard dash in 21 seconds and the 100-yard free style.

A return match was held here two weeks later in which the Bobcats gained 35 points to 26 for their opponents. Captain Heikkila again took individual honors winning three firsts: namely the 40-yard dash, the 100 yards, and the 220 yards. First in the back-stroke was won by Flannagan.

Montana was represented at the Western Division Swimming meet at Salt Lake City by Heikkila, Wilkie and Flannagan. In spite of the fast competition a good showing was made by the men. Second place in the relay went to the Bobcats.

Next year the Western Division swimming meet will be held here and a very strong representation is expected from the Bobcats since only one man, Wilkie, will be lost by graduation.

## WRESTLING 1928

This year wrestling has occupied a higher place among activities at Montana State College than ever before. A squad of forty-two men have been working out faithfully throughout the season under the competent instruction of Coach Swingle and his assistant, Mr. Albert Cote, who is an Olympic champion. Two district teams were chosen from the squad to compete in the contest held with the Butte Y. M. C. A. In the first of these meets the Bobcats did not lose a single match; in the second only a few matches were lost but the Bobcat victory was still very decisive.

The men who made the trip to Logan, Utah, to participate in the Conference meet were K. Freese, heavyweight; T. V. Dolan, Captain and light-heavyweight; B. Mull, middleweight; L. Williams, welterweight; J. Copeland, light-weight; H. Morton, specialweight; and E. Etow, bantamweight. Morton was handicapped by a broken rib early in the meet and Etow suffered from a slight indisposition throughout the whole affair, both of which facts helped to keep the Bobcat total down. Montana placed fourth with eight points.

Next year the squad will be enabled to participate on its own floor in the Divisional tournament since the year nineteen twenty-nine is Montana's turn to act as hosts to the competing teams. Only one man, Williams, welterweight, will be lost by graduation so a strong showing may be expected.

Men who made their letters are Captain Dolan, K. Freese, B. Mull, and J. Copeland.

MURPHY

## HANDBALL 1928

In the much delayed finals of the handball tournament W. Murphy defeated J. Byrne two straight. The scores were 21-19 and 21-14. It is quite interesting to note that these two men met in the finals at the School of Mines three years ago with the victory going to Murphy at that time also. This is Murphy's first year in handball competition at M. S. C. and he has ably proven himself one of the best and most skilled devotees of the sport of all who ever entered competition here. This year a fairly large list of enthusiasts was entered in the tournament and keen rivalry was a strong feature of all of the games.

## INTRAMURAL BASKETBALL 1928

After one year of basketball on an inter-class basis it was decided to return to the old system of inter-fraternity competition; as a result a considerable increase in interest in the sport was observed. Each fraternity entered two teams in the league and a complete schedule was played by each team. Due to the fact that there were so many games played the season lasted from the beginning of the winter quarter until several weeks after the beginning of the spring quarter. During this time over one-third of the total enrollment of men students, two hundred and twenty-nine players, took part in the competition. Throughout the season the rivalry among the various teams was of the keenest type, but in spite of this fact clean playing and a high caliber of sportsmanship was always displayed. The series was one of the most successful ever conducted at Montana State College and argues strongly for a continuation of this year's policy in intra-mural basketball.

Due to the hard competition the leadership in the race changed at various times during the season. The final games found the Sigma Chi Fraternity on top and the proud possessors of the basketball cup for this year. Second place

SIGMA CHI "A" TEAM

was taken by the Omega Beta fraternity and third place by the Amigo Club. The Omega Beta "A" team was the only squad to finish its schedule without a defeat, the Sigma Chi and Amigo "B" teams finished with only one loss each. The season's average for the Sigma Chi aggregation was .894, for the Omega Beta .850, and for the Amigo Club .727.

This year eligibility was restricted only to men not on the varsity and a better and fairer

opportunity was thus given to organizations possessing athletes of only mediocre ability. It is hoped that the spirit of friendliness among the fraternities with which this series was conducted will continue in this and all other sports in the future and that intra-mural athletics will, thereby, remain a desirable policy on the campus of Montana State College.

## Baseball 1928 Preview

For various reasons it has been decided not to have a varsity schedule in baseball at Montana State College this year. But from all indications a very interesting intra-mural program in this sport is promised. The competition is to be placed on an intra-fraternity basis in continuation of last year's policy and each organization will enter one team. Whether or not men who have earned their letters in this activity in former years will be allowed in the competition during the coming season is not yet decided. Already interest is being shown in the sport and various fraternities are beginning to "limber up." It seems that whether varsity men will or will not play with the teams the competition will be slightly affected. As yet nothing definite can be said concerning the outlook for the majority of the teams. The Independents, a team which last year overcame a very poor start to creep up among the leaders and finally won the championship in a series of post-season-games, are returning with their team intact. Omega Beta, last year's runner-up, has lost a number of men by graduation but, nevertheless, has promising prospects.

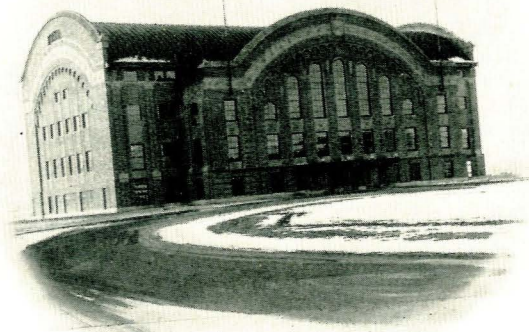

This year the President's cup will be competed for as will the regular championship pennant. Since the organization that first wins this trophy three times wins it permanently and since there are one or two fraternities that have already possessed it twice, this fact will no doubt, prove to be a wonderful incentive to the keenest type of competition among the various teams for the championship.

The Interfraternity Council is composed of two members of each fraternity. Its purpose is to handle the general fraternity affairs which comprise the entire group and to bring the fraternities into closer relationship for the general benefit of all. This council sponsors the annual interfraternity dance.

# Clubs

# PRESIDENTS' CLUB

*Founded 1927*

## OFFICERS

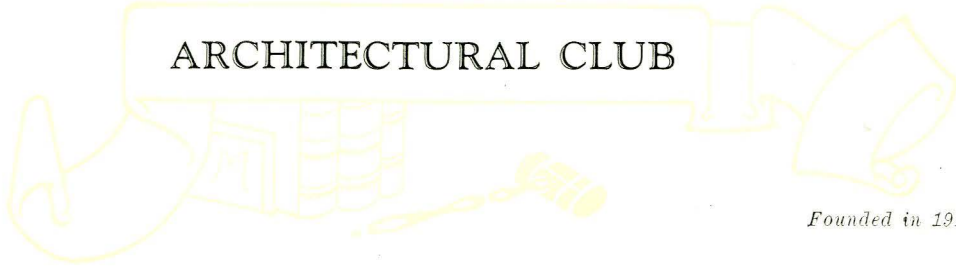

WAYNE F. KOBBE - - - - - *President*  
RUTH RUTLEDGE - - - - - *Vice President*  
HAZEL MELLON - - - - - *Secretary, Treasurer*

The Presidents' Club was organized for the purpose of bringing the presidents of all campus organizations into closer relationship. The president of each organization on the campus is a member. Meetings are held in the form of a banquet once each month. At these banquets a faculty member or an outside speaker talks on college problems.

KOBBE, HOWARD, GARDINER, SPENCE, FULLER, THARP, SUNESON, PAISLEY, GLYNN, MARES  
WEST, BRISSENDEN, MISKIMMIN, CLARK, LIVERS, BARTSCH, JOHNSON, ACKERMAN, BALL, NOEL  
GILL, NORDQUIST, GAYLORD, DEWEY, CRANE, BECK, RUTLEDGE, TATTAN, O'CONNOR, HODGE

# ARCHITECTURAL CLUB

*Founded in 1919*

## MEMBERS IN FACULTY

W. R. PLEW

H. C. CHEEVER

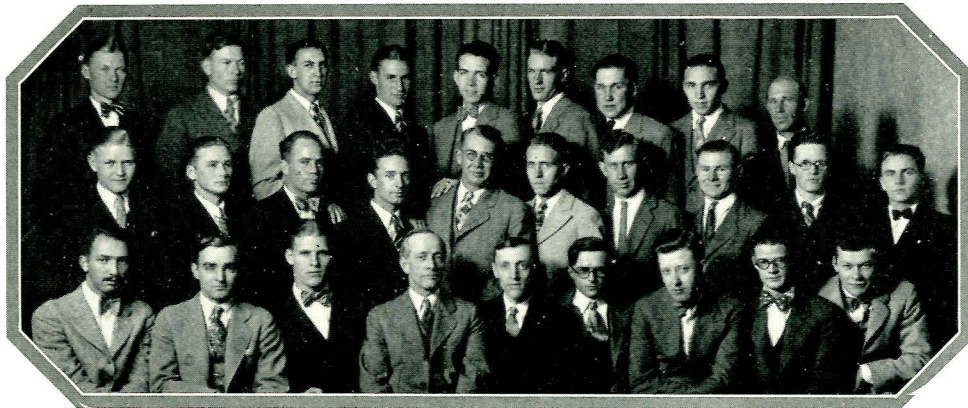

## OFFICERS

ARTHUR HERRINGTON - - - - - *President*

RALPH WAGNER - - - - - *Vice President*

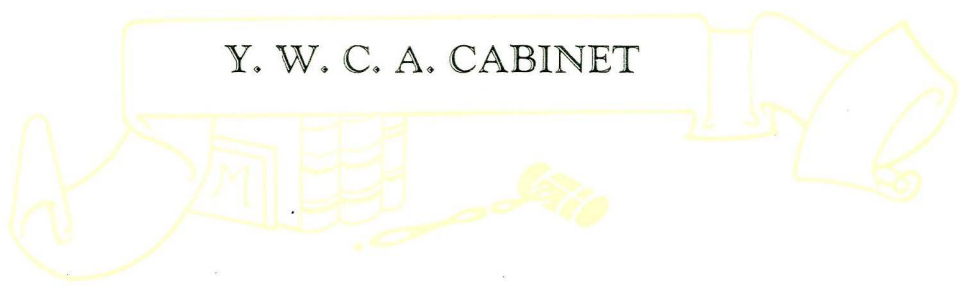

WILLIAM WALL - - - - - *Secretary and Treasurer*

The Architectural Club was organized for the purpose of bringing together the members of the various classes and to promote a general interest in architecture and the allied arts. All students registered in architecture are eligible for membership in the organization.

GUTTERSON, BOTTCHEER, TERRELL, SCHULER, HAMILL, WALKER, KIRK, PAPPIN, BEATTY WALL, MALLON, JOHNSON, LEASE, JACKSON, DECKER, HOLMES, VACHE, KOPP, DAVISON HOFFMAN, WAGNER, TORRENCE, PLEW, CHEEVER, MOWERY, KATHARY, HERRINGTON, LENNON

# Y. W. C. A. CABINET

## OFFICERS

THELMA GAYLORD	- - - - -	<i>President</i>
SHIRLEY FABRICK	- - - - -	<i>Vice President</i>
AGNES ORR	- - - - -	<i>Secretary</i>
MARTHA HERLEVI	- - - - -	<i>Treasurer</i>

The Campus Y. W. C. A. is a branch of the National Young Women's Christian Association, which is the largest Women's organization in existence. Each year the Y. W. C. A. sponsors the annual stunt night in which all fraternities and sororities take part. The organization also offers a scholarship each year to the young woman who exhibits best character, ability and sense of responsibility during the college year.

# AGRICULTURAL CLUB

*Founded 1920*

## OFFICERS

HARRY NOEL	- - - - -	<i>President</i>
LESTER SUTHERLAND	- - - - -	<i>Vice President</i>
HAROLD TOWER	- - - - -	<i>Treasurer</i>
FRANCIS McCORMICK	- - - - -	<i>Secretary</i>

The Agricultural Club has for its purpose, a more cooperative spirit among students of Agriculture. The club very often meets with the short course students to discuss timely topics of agricultural interest. The Annual "Ag. Fair" held in the fall and the "Ag. Day" stock and grain judging contests held in the spring are some of the original activities of the club.

# CHEMISTRY SOCIETY

Founded 1911

## FACULTY MEMBERS

W. M. COBLEIGH  
EDMUND BURKE

O. E. SHEPHERD  
D. L. JOHNSON

P. C. GAINS  
S. G. SCOTT

## OFFICERS

ERNEST MARES - - - - - *President*  
MARJORIE RITCHIE - - - - - *Vice President*  
WAYNE BROWN - - - - - *Secretary and Treasurer*

The Chemistry Society serves the purpose of both a social and technical organization for the Chemists. Its purpose is to bring the Chemistry students into closer contact with their profession and its possibilities.

# HOME ECONOMICS CLUB

*Founded 1895*

## OFFICERS

ANN NORDQUIST	- - - - -	<i>President</i>
EUGENIA PROVIN	- - - - -	<i>Vice President</i>
RUBY GILL	- - - - -	<i>Secretary</i>
HAZEL MELLEN	- - - - -	<i>Treasurer</i>

The object of the Home Economics Club is to develop a professional spirit among the members, to bring the students into contact with state and national home economic organizations, and through meetings and programs to promote greater interest and understanding of the scope of home economics and to keep in touch with the current problems and activities of home economics.

# MECHANICAL ENGINEERS

*Founded 1800 at New York City*

## STUDENT BRANCH

*Established 1920*

### MEMBERS IN FACULTY

DEAN E. B. NORRIS

R. T. CHALLENGER

ERIC THERKELSEN

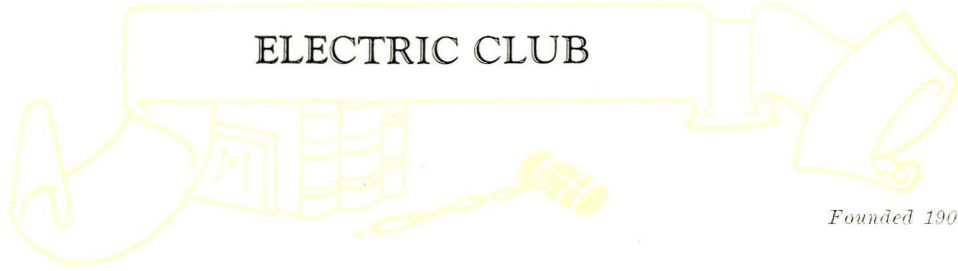

### OFFICERS

FRANK HOWARD	- - - - -	<i>President</i>
FRANK CLINTON	- - - - -	<i>Vice President</i>
RALPH HODGE	- - - - -	<i>Secretary</i>
GILVIN QUILLIN	- - - - -	<i>Treasurer</i>

The old Mechanical Engineering Club, founded in 1914, was established in 1920 as a branch of the American Society of Mechanical Engineers. The membership includes all Mechanical and Industrial Engineering students. Meetings are held weekly during the seminar hour at which time engineering problems and projects are discussed.

# ELECTRIC CLUB

*Founded 1907*

## FACULTY MEMBERS

J. A. THALER

W. A. MURRAY

## OFFICERS

WAYNE KOBBE	- - - - -	<i>President</i>
JOSEPH NORDQUIST	- - - - -	<i>Vice President</i>
FRITHIOB JOHNSON	- - - - -	<i>Secretary</i>
FRED BROWNING	- - - - -	<i>Treasurer</i>

The Electric Club was organized in 1907 as a student branch of the American Institute of Electrical Engineers. It is the oldest of the engineering societies. All students registered in Electrical Engineering automatically become members. Meetings are held weekly during the seminar hour.

# LOOTERS

*Musical Comedy Management*

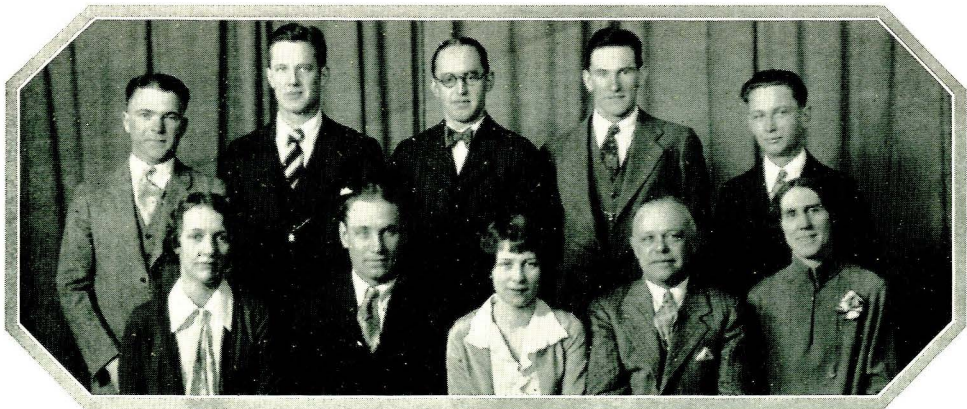

## OFFICERS

RAY JOHNSON - - - - - *President*  
 WAYNE KOBBE - - - - - *Business Manager*  
 MRS. B. F. DAVIS, W. A. MURRAY - - - - - *Faculty Advisors*

## MEMBERS

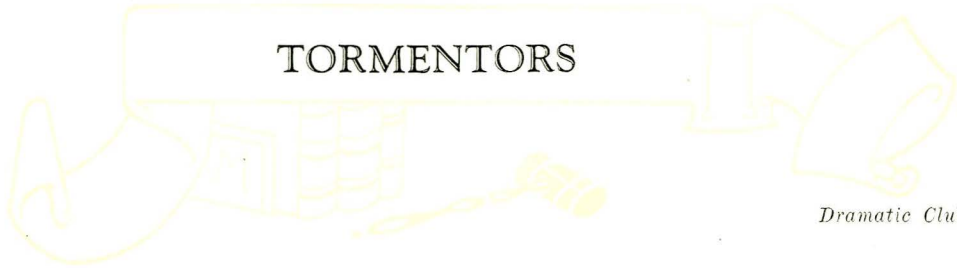

EDWARD COOPER	HARDY THARP	LAWRENCE ANDERSON
WELCH WALL	RAY JOHNSON	WAYNE KOBBE
HARRY NOEL	JIM WOODROW	JOE DELANEY
FRIEDA HENDRICKSON	NORMA SIGWARD	MARCELLA SCHNEIDER

The Looters' Club of Montana State College sponsors the production of a musical comedy each year, the proceeds of which are turned over to the college athletic award fund. The Looters' Club was organized in the spring of 1922, after the production of the musical comedy, "Loot," a comedy which was written and produced entirely by the college students who later became members of the organization. It is from this production that the club takes its name. The "Looters' Show" is now considered one of the leading events of the year.

NOEL                      SHARP                      KOBBE                      ANDERSON                      DELANEY  
 SCHNEIDER              JOHNSON                      HENDRICKSON              HATHAWAY                      DAVIS

## OFFICERS

TOM McCABE	- - - - -	<i>President</i>
JAMES BYNNE	- - - - -	<i>Vice President</i>
MARY LAUSON	- - - - -	<i>Secretary</i>
PAUL WINNER	- - - - -	<i>Treasurer</i>

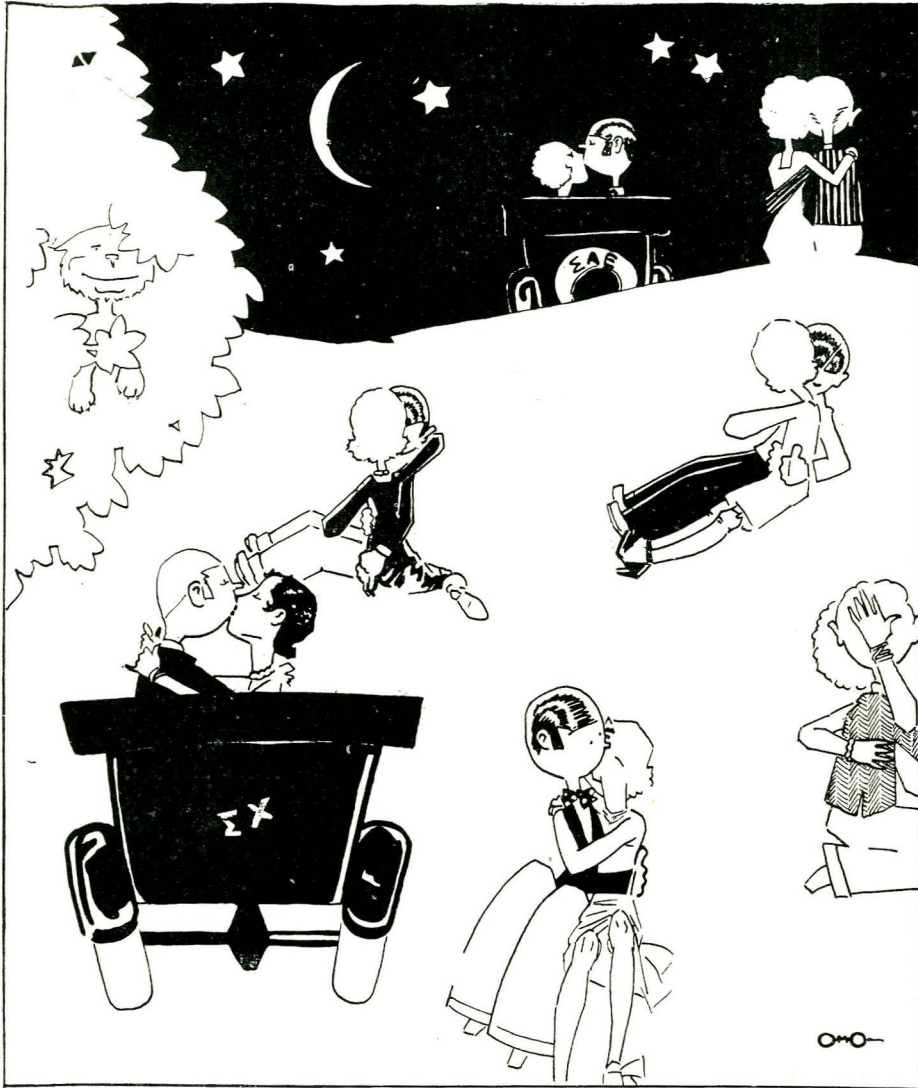

The purpose of the Newman Club is to promote a feeling of fraternity and friendship among Catholic students, to dispel any occasional misconceptions concerning Catholicism that may arise, and to promote a feeling of good will between Catholic and non-Catholic students at Montana State College.

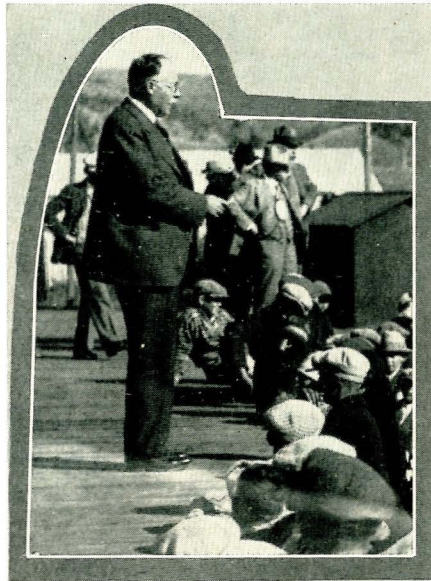

KELLEY, RADCLIFF, OBERHAUER, CHESAREK, OSWEILER, ROLLINS, HAGGERTY, BUZZETTI, GEORGEVICH, HOLDGRAFER, KOPP, O'CONNOR; FAGAN, MACCORMICK, FLYNN, GALERNEAU, MCKAY, FLICK, SULLIVAN, QUINN, O'LEARY, KINNEY, ALBRECHT, NEAL; ROY, CONNORS, BYRNE, LAUSON, McCABE, HALEY, WINNER, GARY, WETZSTEIN, BACHELDER.

STUDENT LIFE

# BOBCAT OBSERVATIONS

## PRESIDENT'S MESSAGE

Students, Alumni, Fellow-Sufferers and What Not:

Basing my opinion on this great age of ours I have come to the conclusion after a year of research investigation that our college is not keeping up properly with the times. Our college is pitifully behind times with the trend of modern Education. I am taking up our weaknesses and backwardness with the higher University authorities and I can already assure you that many remedies will be in effect by next fall. The recommendations I am taking up with the higher authorities are as follows:

1. Substituting mugology, asethetic dancing and billiards for Chemistry, Physics and Math.
2. Giving college credit for athletics and activities.
3. Making a six-hour day for college students.
4. No classes before 10 A. M.
5. No examinations or quizzes.
6. More social activities with at least one college dance a night.
7. To do away with neckties, hats and garters.
8. Bigger and better davenport for sorority houses.
9. Deaf and dumb house mothers.
10. Fewer and dimmer lights in all houses.
11. To do without deans of men and women.

With the application of these new recommendations next fall I next assume we will be on the par with all greater colleges and universities throughout the universe and so should triple our enrollment in a short time.

—THE WILLSON STORE—

## What Ever You Pay Us---Pays You

No matter what item of merchandise you buy at Willson's it is sold only with the intent that the satisfaction of the purchaser shall be in the fullest sense complete.

We do not expect you to be satisfied with  
**STYLE** alone

We do not expect you to be satisfied with  
**QUALITY** alone.

We do not expect you to be satisfied with  
**PRICE** alone.

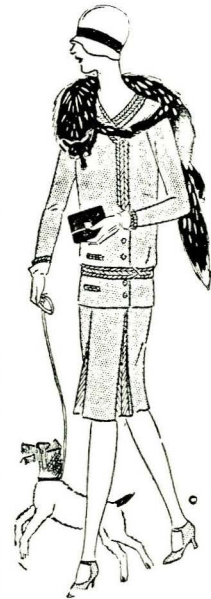

But to demand uncompromising satisfaction in all three.

We want what you pay us to pay you not in the restricted sense of an exchange of money for merchandise, but in the liberal sense that you shall be happy with the things you buy.

*Just a Few Words About*  
**“VALUES”**

What is “Value?” It is that which renders something useful. It is a higher degree of certain quality or excellence. Or it can be quality at an attractive price.

Value has been and always will be, the dominating factor in a woman’s purchasing experience. And value is ever present, to the largest possible degree—here.

It is our painstaking planning and our knowledge of merchandise values that allow us to offer the right goods in the styles of the right quality at the right price.

If you are not getting our monthly magazine regularly, please tell us so. It’s a part of our service to you.

## ***EVERYBODY BENEFITS***

——

The Montana consumer is now saving approximately \$50,000 annually by using "GW" beet sugar. Its exclusive use would increase this saving to \$75,000 or more and, under the sliding scale beet contract and normal conditions, would increase the returns of the Montana beet growers at least \$100,000 annually. The use of "GW" sugar, therefore, works to the advantage of everybody—the consumer, the beet grower and the manufacturer as well as the community in general.

*Use "GW" Sugar and ask for it by name*

*Adieu to thee again; a vain adieu!  
There can be no farewell to scene like thine;  
The mind is colored by your very hue.*

*More mighty spots may rise, more glaring shine,  
But none unite in one attaching maze  
The brilliant, fair, and soft—the glories of old days.*

—Byron.
