E DICATION

Successful institutions are the product of ideas, and ideas are born of the minds of men. However, mere ideas do not make great institutions. Without ideals, success cannot pass beyond a certain limitation. ¶The noteworthy growth and achievements of Montana State College have given her the right to be called a successful institution; but her success is not ordinarily attributed to the thing which is truly responsible for it. It does not lie in the generous support which the people of Montana have always given to her, not in her expanding buildings, nor in the ever increasing numbers of men and women that go forth from her halls every year. Rather, it lies in the greatness of her ideal, adherence to which has given the justification for all these other things. ¶That ideal is pregnant in the minds of every man and woman who has ever attended the institution. Acting on teams and as individuals they have alike, in the face of victory and defeat, on every form of life's battlefields, shown qualities that could only arise from the inspiration of a truly great ideal. ¶The Bobcat Spirit is not an athletic concept alone. It is Montana's ideal. It stands for fighting spirit and for sportsmanship, for honor and integrity. But more than this, it is the will to do. It entails self-sacrifice for the common good, and it embodies the idea of never-ending progress. It is the finest thing that the College can give to anyone. ¶With the sincere hope that in the more fruitful years to come it may not be lost, we dedicate this volume to

THE BOBCAT SPIRIT.

FOREWORD

This volume contains the story of the past school year. It has no greater aim than to put in lasting form that which Montana students will want to remember of the Blue and Gold days of 1930-1931. ¶This is a far cry from the policy of many Montanans of the past, for it has long been the custom of each incoming annual staff to attempt to outdo its predecessor in the use of an original and magnificent theme. However, Volume twenty-four must remain out of the competition. Its theme is the College itself, and the staff has attempted to eliminate anything not in harmony with this. It is a college annual and it has no wish to be anything other than collegiate. ¶In order to keep the book on an artistic level with those of the past, and to preserve unity throughout, a decorative theme has been introduced and the accepted principles of bookmaking followed, while events have been arranged in their natural order and an index added so that it may also serve as a reference volume. However, the following out of the ideas embodied above has not been allowed to interfere with the attainment of the real object—that of recording accurately and faithfully the events of the college year. ¶This is a loyal Montanan. If it seeks to be collegiate, it also seeks to depict our own campus life just as it really is. It believes in the greatness of its own college. It cherishes the ideals and traditions which make distinctive and dear to us, life at Montana State, and it upholds the Bobcat Spirit as a vital living thing.

Alma Mater

Fling wide your colors bright and true
Sunset gold and ether blue.
Fit emblem of our college days
Proudly we our banner raise.

When years have borne us far away,
Memory will keep today.
We'll gladly owe to M. S. C.,
What we are and hope to be.

Oh, M. S. C., right loyally
We offer songs of praise to thee.
Long may thy power enduring be
Alma Mater, hail to thee!

THE COLLEGE

THE lower campus is dominated by Morrell Hall. Set among beautiful shrubs and fine trees, this building has perhaps the finest setting of any one on the campus. Familiarly known as the "Ag Building," it has for a quarter of a century occupied the place in the life of the College which its name suggests.

ALMOST severely plain in architectural treatment, yet possessing a beauty and dignity peculiarly its own, is Hamilton Hall, the women's dormitory. Serving for years as the place where the characters of Montana women are molded, it has become endeared to women students and surrounded with traditional lore.

HERRICK Hall, although one of the newer buildings on the campus, occupies a prominent place in the affections of the students. It houses the College of Household and Industrial Arts, but all the students are familiar with it, because it is here that the Organization and Fireplace Rooms are located.

IN the Fall or early Spring, snowstorms of Gargantuan-like flakes sometimes leave the campus in a strange state of beauty that one does not easily forget. Here Lewis Hall and a corner of the lower campus are shown after such a snowstorm had left them looking like a part of Fairyland.

THE great M, weathering the mighty storms upon Mount Baldy year after year, stands as a majestic symbol of the greatness of Montana, the College and the State. This sight, familiar to all Montana students, is probably dearer to them than any other one.

HERE are coupled one of Montana's oldest traditions and one of her newest. The Sundial, fondly remembered by all alumni, and now standing in its new place in the Iris Gardens, is silhouetted by the lights of a great Christmas tree which was erected for the first time in 1930.

TO the students of Montana State, the campus extends through all of the wonderful country which surrounds Bozeman. During Fall and Spring quarters, picnics and outings play an important part in their lives. Taylor Falls, shown here, is one of the beauty spots of the Gallatin, scene of many a gay holiday.

RAMSHORN Lake is typical of the many lakes located in the mountains around Bozeman. These cool, crystal clear pools, often abundant with fish, are the delight of all nature loving students, and are frequently visited by outing parties as long as King Winter does not make them inaccessible.

Faculty Administration

The President's office,
where all the major ad-
ministrative problems find
their solution.

MELVIN A. BRANNON
Chancellor University of Montana

CORDIAL greetings to the editors and readers of the 1931 Montanan. Your annual has a function that is unique. It is similar to the public service performed by the Town Crier in the age antecedent to printing. It is the only voice that announces outstanding achievements in the social, cultural, and athletic events of the current year to the members and friends of collegiate communities. Society today is critically examining the service and worth of education. Insistently and repeatedly the question is asked, "What does education do for a person, and is it worth what it costs?" It is the opportunity and responsibility of the 1931 Montanan to assist in giving a convincing answer to this query which is common in market-place and press.

A seer has proposed to measure an "educated person" by five characteristics: "(a) Correct and precise use of the mother tongue, (b) refined and gentle manners which are the expression of fixed habit and action, (c) the power of reflection, (d) the power of growth, and (e) the power to do."

Permit me to express the hope that the 1931 Montanan will affirmatively witness that the collegians at Montana State College possess the five characteristics which I have quoted in this greeting.

Melvin A. Brannon

ALFRED ATKINSON
President Montana State College

THE economic life in prospect, during the years just ahead, will call for many trained people, and it is a pleasure to extend greetings to those who are being equipped to undertake the important responsibilities which are to be met under these conditions. More and more the unthinking work of the world is being done by machines, and the finest opportunities are for those who are trained to consider problems fully, in order to reach sound conclusions and find right solutions. Modern conditions require dispassionate consideration of problems, in place of prejudice and tradition. The young people now in college are to be congratulated that they have recognized the opportunities afforded, and are fitting themselves with a sound foundation of information and right intellectual habits. For the trained person, with correct habits of industry, the years ahead promise much.

J. M. HAMILTON
Dean of Men

A student at Montana State College may be graduated with honors and never have participated in any of the activities offered by the institution outside of the class rooms and the laboratories. Such a student never will have experienced the inspiration that comes from contact with a public audience, nor the thrill of winning a contest. Leadership grows out of successful competition, and the skill acquired on an athletic or a judging team, in holding the attention of an audience in a debate or the leading part in a drama, may be the determining factor in the successful performance of a task after college days are over. Leadership in a fraternity or any other group of students is a sure indication of future leadership in business or professional life. Herbert Spencer, the great English philosopher, said that education is a preparation for living, but John Dewey, America's outstanding educator, went a step further and declared that education is life itself. Of all the opportunities offered by a college, the student activities are most nearly real life.

J M Hamilton

UNA B. HERRICK
Dean of Women

AS I look back across the past few years, I am conscious of the substantial growth of Montana State College campus affairs and the increased interest of the students in the larger and vital world of events.

I sincerely appreciate our affiliation with the A. A. U. W., which is the finest possible connection and inspiration for our graduate women after they have gone out from college.

It was after years of planning, correspondence, and inspection that the Mortar Board chapter was granted the women of attainment at Montana State College.

Besides the departmental honors, Montana State College has an outstanding interest in the Spur organization—for here is the Mother chapter. It is with deep pride we point to their motto of "Service," and I look forward to their expansion.

These, with many other interests, give impetus to women student movements which will, no doubt, mean greater growth in future years.

Una B. Herrick

W. M. COBLEIGH
Dean of Engineering

CUSTOMS and practices transmitted orally from one college generation to another constitute in time the traditions of the institution. Traditions assist one generation to maintain the high standards of excellence set up by a previous generation. Traditions of special virtue and merit have a profound effect in shaping the character of life on the college campus, and in providing the basis for an institutional spirit so distinctive in its nature, that the same spirit does not seem to exist elsewhere. This spirit contributes to effective performance in the educational process, and to the social life of the campus. It helps to develop desirable traits of personality and a determination to render efficient service. Civilization has gone through, and will continue to go through, many phases. We are now in the economic phase of the world's history. During each phase, control passes from one group to another. The scientist, the engineer, and the technologist now occupy a foremost position in present day affairs.

The educational processes of the Montana State College will place its graduates in commanding positions for service under modern conditions.

W M Cobleigh

F. B. LINFIELD
Dean of Agriculture

A COLLEGE, its plans, its service, and its visions, are the creations of its faculty. Buildings provide places for work, while libraries and equipment are needed as aids to the service the faculty can render. Legislators and Boards establish college and provide the means from which buildings, etc., are made available and a faculty employed; but the creation of a college is the responsibility of the faculty. We might particularize still further, and say that men and women make a college, or, in other words, the college is the product of the vision, the learning, and the service which individual men and women put into the college instructions.

The College of Agriculture of the State College has been built around this ideal. Men first—men of ability, of vision, and high training in every position, and these coupled with experience, in positions of leadership; and the only limitation on this has been the inability to interest men of the quality desired, because in a competitive market our finances and the opportunities we could offer were inadequate. With such men and equipment provided, students know they can depend upon the high qualities of the opportunities for study, and for the enlargement of their powers during their college careers.

North Entrance
Roberts Hall

THE College of Engineering is probably the most popular of all the branches of Montana State College. It has more students than any of the others and has conferred degrees upon more than five hundred engineers, most of whom are employed by leading engineering concerns throughout the world.

Engineering education in the world today is an outgrowth of a popular movement early in the last century to promote the "application of science to the common purposes of life." During the

early part of the nineteenth century, the engineers were self-taught, as there were no opportunities for them to secure a scientific education in the engineering fields. The College of Engineering at Montana State, which was founded in 1893, was made possible by the Land Grants of Congress in 1890.

The fundamental purpose of the College of Engineering is to fit the engineer for "a worthy place in human society and to enrich his personal life." Undergraduate activity may be divided into three main headings, namely:

The control and utilization of forces, materials, and energy of nature;

The organization of human efforts for these purposes;

The estimation of costs and appraisals of values, both economic and social, involved in these activities.

An engineering education is a good general education; there is no warrant for assuming that the two have different ultimate purposes which necessitate two distinct programs for the engineering student. The distinction between pure and applied science is rapidly being broken down, and it is realized that the engineering education is not crass and materialistic philosophy which merely lends efficiency to selfish acquisition. The College of Engineering plans to further "upright character, correct living, service to society, agreeable personality, and good citizenship."

The engineering instruction covers the fields of mathematics, fundamental sciences, and engineering principles. Courses in chemical engineering, architecture and agricultural engineering are included in the curricula.

The College of Engineering includes not only the academic curriculum, but also conducts the Engineering Experiment Station. This year the Station has conducted experiments with various motor fuels, and is installing a seismograph for cooperation with the United States Geodetic Survey in the study of earthquakes. Results of these and other experiments will be made available to the public through cooperative meetings and the publications of bulletins and circulars.

THE College of Agriculture at Montana State College was organized to give Montana men and women a practical training in modern agricultural methods. The long distance from the large markets, and adverse natural conditions, have made the demand for these trained workers very great. The many superior products which Montana now raises, and the efficiency with which she markets them, is a fitting memorial to the success of these workers.

East Entrance
Morrell Hall

The College of Agriculture was founded at the same time as the rest of Montana State College, in 1890, which for many years was known as Montana State Agricultural College. The College was made possible through the Land Grants made by the national congress in the Morrell act of 1887. It is from this bill that the present "Ag" building takes its name. The early growth of the College of Agriculture was very slow, and in 1903 but four students had been graduated. The administrative officers of the college realized the need for a more modern school, and between 1903 and 1913 much new equipment in the form of barns and pavilions was added to the campus. This modern equipment, combined with the growing faculty, has placed the college on a par with the best schools of its kind in the West, and since 1913 the College of Agriculture has had close to twenty graduates each year.

Students of Agriculture have a choice of majoring in many diversified subjects. The present curricula provides for the conferring of degrees in: Agronomy, animal husbandry; agricultural education, the Smith-Hughes work; dairy manufacturing; horticulture; agricultural engineering; economics; poultry raising and veterinary science. A course is also offered in which the student may become an Irrigation Specialist. This course is becoming popular and as Montana's Reclamation projects are developed, will become more important.

At the present time only one-fifth of the graduates of the College of Agriculture are engaged in actual farm practice. The remaining four-fifths find their careers in teaching, county agent work, experiment station work, positions with the United States department of agriculture, or with the various packing companies and cooperative societies. This latter division absorbs the greatest number of graduates.

The evolution from hand and animal labor to the application of powerful machinery and improved methods of technique in agricultural practice will create many new places which cannot be filled except by trained workers. In the future the call for these agricultural technicians will be even greater than in the past

East Entrance
Lewis Hall

THE College of Applied Science is divided into five major departments under the present system of education at Montana State College. These departments include Applied Science, Botany and Bacteriology, Chemistry, Entomology, and Physical Education. Courses in these departments all lead to the degree of Bachelor of Science.

Upon this college rests the responsibility of acquainting the students, including those who are registered in other colleges than the College of Applied Science, with the fundamental sciences. With the help of a capable staff of professors, the student is afforded the opportunity of becoming acquainted with everyday science, and preparing himself for entrance into the struggle of life either in a general way or as a specialist. In

this way the student is allowed to choose that type of work for which he is best fitted. If he desires to enter a profession, he will find himself capable of grasping the more specialized subjects because of his firm foundation in the rudiments of science and its applications. On the other hand, the courses in history and modern languages place the student in a position to meet people of a high social caliber and to talk to them in terms that will indicate the possession of true culture.

In carrying out the plan of education in this college, an effort has been made to combine as much practical work as possible with the theoretical studies that are offered. Well equipped laboratories facilitate high grade practical scientific work. There is an added incentive to good work in the fact that the best students in certain departments are given the opportunity of working in the laboratories of the experiment station, where valuable knowledge of science, in its relation to agriculture and industry, may be obtained. Theory, in quantities which would take a good many more than the usual four years to cover, is obtainable in the libraries of the several departments in the form of the best books on general and specialized scientific material. The quality of the library books insures accuracy and aids greatly in developing the desired proficiency of the student.

The College of Applied Science thus takes its place among the highest ranking divisions of the institution. Here it is that the student learns the story of the past in order that he may profit by the experience of others, and here it is that he learns those subjects which constitute a broad education and fit him at once for active participation in college life and, finally, in everyday life.

THE College of Household and Industrial Arts at the present time embraces the departments of Home Economics, Applied Art, and Secretarial Science. The story of the development of this college from its conception, to the present well organized branch of our institution, is interesting and worthy of note.

Twenty years ago there were about one hundred women students on the campus, with few common interests. The only event which brought all the women together was the initiation of the "Does," an organization of women that fostered fraternalism among the women students and carried out the plan of initiating into the organization the freshmen women who had completed their first semester in college.

About that time Hamilton Hall was built and named for Emma Scheidler Hamilton. The wonderful growth of the women's division of the college may be partially realized when we note that at the beginning of the history of Hamilton Hall only sixteen women took residence there.

Following the World War there was a reorganization of the college into a quarter basis under the chancellor system which made it necessary to organize the college into divisions or separate colleges of work. At that time Home Economics, Art, Physical Education, and Applied Science were included in the women's division. Later, when the new gymnasium was built, the Physical Education Department took over all physical education for women. Still later, the Applied Science course for women enlarged its borders and became the College of Applied Science. In conjunction with this change, men students were admitted to this division of scientific education.

In the autumn of 1925, Herrick Hall became the headquarters for the women's division. Since that time the Department of Secretarial Science has been added to the College of Household and Industrial Arts.

From this college have come numerous activities and worth-while additions to the curricula of the women students, among them being the course in Freshmen College Life. The Vocational Congress for Girls originated here, the ideals of which later found expression in the development of a Boy's Vocational Congress, and finally resulted in the evolution of High School Week. It is also to this college that must be accredited Women's Day, that event which is such a fitting celebration for the finale of the school year.

Herrick Hall

Montana Extension Service

THE Montana Extension Service, one of the units of the Greater University of Montana, is the medium through which the teachings of Montana State College and the United States Department of Agriculture, as they relate to agriculture, are carried into the homes of farmers and stockmen of the state.

Some of the states in the country boast over twenty years of extension work. Extension work actually started in 1785 in the early agricultural societies, the first of which was formed that year in Philadelphia. The work has been nation-wide only since the passage of the Smith-Lever act about sixteen years ago.

Extension work, in an educational sense, is teaching; in a business sense, it is selling ideas. In the early efforts to establish and develop a nation-wide cooperative extension service, the officers were guided largely by the teaching profession. Later, because it had to "sell" ideas, it brought salesmanship into its activities. In Montana, extension work is supervised by J. C. Taylor, who holds the office of director of extension. His office and all the offices of the administrative officers are in the Extension building, which was the home of Montana State College in 1893.

Montana, being such a large state, has wide variations of soil, climate, and rainfall. For that reason, extension specialists in the various lines of agriculture are kept continually busy finding improvements suitable to all the sections of the state. There are specialists in agronomy, livestock, dairying, poultry, home economics, horticulture, economics and other fields. These specialists keep in touch with the work of the college and experiment station, work out practical applications for agriculture, and then distribute the information through the regular extension channels. At present thirty-six of the fifty-six counties in Montana have agents of the Montana Extension Service.

EXTENSION BUILDING

Montana Agricultural Experiment Station

THE beginning of scientific research in agriculture was scarcely one hundred years ago. Before the dawn of the historic period, man had discovered and improved most of the common grains, vegetables, fruits, and forage crops now in general use, and the same is true of many agricultural practices necessary for increased crop yields. There was, however, no explanation of the results obtained beyond the occult, nor was there any effective means of bringing the improved methods to the great mass of producers. Most of the farmers were groping in the dark. Out of this condition came the demand for colleges of agriculture, and agricultural experiment stations.

In Montana, the Agricultural Experiment Station was organized in association with the State College, when the latter was established in 1893. Its first mission was to change the general vision of the state's agricultural resources into concrete possibilities for the various districts of the state.

Decided progress has been made in finding the varieties of grains, forage crops, vegetables, potatoes, fruit, etc., that may be produced to greatest advantage. The possibilities and limitations of dry farming and irrigated farming have been pointed out, and the methods of crop rotation and fertilization necessary to maximum yields demonstrated.

The value of Montana grains and forage crops in feeding and fattening all classes of livestock has been studied. That we can produce, and finish for market, animals and animal products of the highest quality has been fully illustrated.

The station has kept abreast of the need, in devising methods of controlling insect pests and plant diseases, and is making progress in the study of animal diseases peculiar to Montana.

The studies on farm organization and the efficient use of farm equipment have pointed the way to more efficient farm practices, and to lower production costs.

AGRICULTURAL EXPERIMENT GARDENS

The Montana Collegian

THE Montana Collegian is the official paper for alumni and former students of Montana State College. Its purpose is to acquaint these persons with the most recent activities of the college and to keep in touch with the personal activities of the alumni themselves, who correspond with the alumni secretary who is also the alumni editor of the Montana Collegian. The most interesting experience of the former students of the college are thus brought to the attention of the editing staff, and they in turn give the story to the other alumni through their paper.

The staff includes: Dr. Alfred Atkinson, who is the editor-in-chief of the publication; John Dexter, editor; Lewis True, assistant-editor; and the alumni secretary, Willis Wood, who is the alumni editor. It requires a considerable amount of work on the part of these men to publish a paper which tells as much as possible in very little space. There are a great many things to write about, and the result appears in the form of a small newspaper which has established an enviable record among alumni association publications. The material for each number of the paper is gathered over a period of about three months, for there is but one issue during this time. At present, issues are sent out to the alumni in September, December, March, and June.

The Montana Collegian has assumed the responsibility of keeping in touch with four thousand alumni and former students. Every three months, four thousand copies of the paper are sent to all parts of the world, taking to those people a message of good will from Montana State College and asking for their continued support of the college in return. The alumni always respond nobly to the sentiment expressed in the paper.

To the Montana Collegian and to those people who are so vitally interested in its existence, Montana State College owes a debt of gratitude that is difficult to pay.

JOHN DEXTER

WILLIS WOOD

Student Administration

Student elections, the familiar ballot box, and the election crowd lend an air of activity to old Montana Hall.

LEONARD WING
President of A. S. M. S. C.

IN reading the records left by the Association's founders, I have concluded that the following principles have guided and directed their efforts:

"We should achieve a spirit of coopertion among the students of Montana State College by giving careful consideration to all questions affecting student interests."

"We should develop an intelligent student opinion on questions concerning their mutual relationships, and those between each student and the college."

"We should foster understanding among the students of the college and between the students and the faculty, in furtherance of the lasting benefits derived from attending college."

I warmly commend your assistance and generosity in the work that the Association is now doing. Its future is in the hands of you, the students of today, and you must spare no efforts in directing yourselves in the ways of cooperation and good will.

Leonard A. Wing

LILLIAN TUBB
President of A. W. S.

IT is a pleasant thing to look back and view the accomplishments of the administration of my predecessor, the president of A. W. S. of last year. Now, as the present year draws to a close, I feel grateful for the cooperation and many pleasures which have been afforded me by the council members and their various organizations.

Each year has seen improvement in the organization of the A. W. S., and it is with justifiable pride that we witness the realization of our project for this year, the purchasing of a concert grand piano for the Fireplace Room in Herrick Hall. This project was made possible by the generosity of the fraternities, sororities, and other organizations, as well as through an assessment on the women students.

Now, after working together for four years, the Senior women are going out to a life of service in their own worlds. We shall all follow one another with pride and interest.

To my successor I wish every possible accomplishment during the coming year

Montana State College is one of the few colleges that has its student publications under a centralized board of control. This board is provided for in the Student Association constitution and is responsible to the Student Senate.

The Board of Publications is made up of seven members. The chairman is the Commissioner of Publications on the Senate, and is elected by the student body at general elections.

Election to editorship by the students places the Montanan and Exponent editors on the Board. Appointment by the college president, to the position of Montanan or Exponent Advisor, places the other two voting members. The business managers of the publications are very often asked to advise the Board.

Financial and editorial problems are discussed, and suggestions made by the Board. Budgets and accounts are approved or returned for further work. During the past year open meetings were sponsored at which news writing and other features of publication work were discussed by people who have had special training along the various lines.

A. S. M. S. C. Committees

POINT SYSTEM COMMITTEE. During the winter of 1929-30 it was realized that some few students were holding the majority of offices in extra-curricular activity. The Point System was adopted by a general election last spring and the Point System Committee was appointed to carry out the work. It is designed to prevent one student from over-burdening himself, and to distribute the many responsibilities among more students.

The Chairman of the Committee, who is appointed by the Student Senate, is assisted by the Vice President and the Secretary of the Associated Students. This year, Clarence Connell was chairman of the committee, with Dorothy Garrett and Marie Hakala as other members.

Records of all students are kept for each quarter of the year, thus leaving a permanent record of each student's extra-curricular activity.

HANDBOOK COMMITTEE. In the past the registrar and the A. W. S. printed handbooks containing some of the rules and traditions of the college, and these books were supplemented from time to time by the Intramural Athletic handbook and mimeographed song sheets. It has been realized that these publications might well be combined in one book, and for this purpose the Handbook Committee of the Senate was appointed. The committee this year consists of Vera Ann O'Neil, chairman, James Gannaway, Lillian Tubb, and Robert Long.

The proposed handbook will contain The Constitutions and By-Laws of the Associated Students and of the Associated Women Students; the activity coupon; rules and traditions of the school; and the various songs and yells. A special section will be devoted to house and rushing rules and a directory of student and administrative officers. The Student Handbook will be of very material assistance to incoming students, and as its purchase will be compulsory, it will do much to perpetuate the traditions of Montana State College.

O'Neil, Gannaway, Connell, Garrett, Hakala

A. S. M. S. C. Committees

SOCIAL COMMITTEE. During the fall of 1930, the necessity for some student group to confer with the faculty on matters of social interest was very keenly realized. With this end in view, the present social committee was appointed. The committee is permanent and is composed of three members of the Student Senate; the President of The Associated Students, the Commissioner of Social Affairs, and the Commissioner of Demonstrations; and two students at large. The object of this body is to confer with the faculty social committee of five members before new rules regarding social regulations are announced. The members of the Student Social committee are permitted to register their approval or disapproval relative to present rules and to any proposed changes, before such changes or new rules are announced.

This year's committee is composed of: Leonard Wing, Harold Greiner, Elizabeth Pope, John Coey, and Clara Roat.

BOOK STORE. One of the most ambitious undertakings of the Student Senate during the past year has been the incorporation of The College Book Store, under student management. A committee composed of Harold Lee and Jack Bartlett was appointed to draw up the articles of incorporation and to arrange for the details of the project. Heretofore The Book Store has been run under faculty supervision, but in as much as it intimately concerns every student on the hill, the Senate felt that the students should take over its management.

The Book Store will be run by a directory composed of three students, two faculty members, and a non-voting graduate manager. Each student registered at the college will be a stock-holder in the store, and the proceeds will go toward the establishment of a Union Building Fund. The Book Store will not only handle new books, but second-hand ones as well, and will in this way be of real service to every student.

Coey, Pope, Wing, Roat, Greiner

Buzzetti, McElliot, Hakala, Dyer

Class Officers

CLASS OF 1931. In the fall of 1927, the class of '31, then the Freshmen, rigorously defeated their Sophomore opponents in the traditional class scraps. This spirit of vim and enthusiasm has since characterized the class in all its activities at M. S. C. This class has seen the winning of two Rocky Mountain Basketball Championships, and has witnessed the breaking of the Grizzly "jinx." They have 37 members in Phi Kappa Phi, 17 in Tau Beta Pi, and nine in Alpha Zeta.

The officers for the year were:

President.....	ED. BUZZETTI
Vice-President.....	DON McELLIOTT
Secretary.....	MARIE HAKALA
Treasurer.....	KENNETH DYER

CLASS OF 1932. To the Junior Class each year falls the greatest burden of extra-curricular activity. The Class of '32 has admirably upheld this tradition. As Freshmen it fell to this class to entertain the outgoing Senior Class at a Thanksgiving dance. It has handled this and other dances with much enthusiasm and efficiency. Seven members of the Class of '32 were this year members of the Student Senate, and in all activities the Juniors have played an important part.

The officers for the year:

President.....	BOBBY LONG
Vice-President.....	KATHLEEN BIRD
Secretary.....	HARRY ADAMS
Treasurer.....	ERIC BLANNIN

Long, Bird, Adams, Blannin

Gannaway, Thompson, Ball, Frisbie

CLASS OF 1933. Seldom in collegiate history does one class contribute so much to school activities as has the class of '33. Both as Freshman and as Sophomores this class has won its class scraps, and as Freshmen their Kitten football team had a most successful season, defeating the Missoula Cubs and many of the major high school teams. This year they have contributed very substantially to varsity teams. Besides their athletic achievements, many members of the class have taken prominent parts in journalism, dramatics, and scholarship.

The officers for the year were:

President.....	JAMES GANNAWAY
Vice-President.....	LORRAINE THOMPSON
Secretary.....	FRANK BALL
Treasurer.....	GLENN FRISBIE

CLASS OF 1934. Despite the much heralded "hard times," the class of '34 entered Montana State with more than 400 members, one of the largest classes in our history. The Freshman Class has this year taken an unusually active part in collegiate activities.

The officers of the year were:

President.....	HENRY FOX
Vice-President.....	BOB PETRIE
Secretary.....	RED HUBER
Treasurer.....	TOM MARSHALL

Fox, Petrie, Huber, Marshall

COLLEGE LIFE

Interscholastic

The capable Fangs and Spurs welcome all visitors to the campus, but all the students help entertain them.

CLARENCE CONNELL
Chairman Boys'
Vocational Congress

State High School Week

FAITH in Montana is the theme of the High School Week program carried out each spring by the students and faculty of Montana State College.

For the purpose of elimination in the scholarship contests, Montana is divided into many districts. Each district holds preliminary contests each spring to determine who shall take part in the final contests in Bozeman. Three hundred and nineteen contestants were elected to come to the State Contest at Montana State College, May 1-3, 1930. Of these, 208 participated in academic contests, 93 in the vocational subjects, and 18 aspired to the pentathlon honors.

Only those students who had won first places in the district contests were allowed to compete in the State Contest.

Most of the subjects taught in high schools were included in the official events.

Last year Custer County won the "Sweepstakes" award with a total of 32 out of a possible 180 points. Whitefish won second place in the contest, and Havre third. The Pentathlon, the winner of which receives a four-year scholarship at any of the units of the Greater University of Montana, was won by Sam Eagle of Gallatin County. Duane Dugan, Whitefish, was second, and Stuart McKenzie, Havre, third.

Each year, in connection with the Scholarship Contest, the Vocational Congresses for boys and girls, and the extemporaneous speaking and writing contests are held. Two representatives from each high school in the state are invited to the Congress. The Vocational Congresses are meetings addressed by vocational leaders to inform on the possibilities of a life work.

The extemporaneous speakers are chosen by the district contest system. They are given a choice of three subjects and are allowed two and one-half hours to prepare a five to eight-minute speech. Harry Hofner, Butte, was the winner of last year's contest, with Joseph Piram, Billings, second, and Franklin Gilchrist, Great Falls, third.

Each year every high school holds extemporaneous writing contests. Each contestant is given two and one-half hours in which to write an original theme. The writers of the four best manuscripts are invited to come to Bozeman during High School week, at which time a final contest is held. In the 1930 contest Marely, Glendive, won first; Honey Halligan, Great Falls, second, and David Brenemer, Anaconda, third.

DOROTHY GARRETT
Chairman Girls'
Vocational Congress

4-H Clubs Conference

On June 17 to 20, 1930, Bozeman and Montana State College were hosts to the first State 4-H Club Convention. The object of the convention was to provide instruction, to develop a spirit of cooperation, to promote new friendships, and to develop leaders.

Each county is entitled to send one boy, one girl, one man, and one woman delegate. These workers must have completed some outstanding project during the past summer, and must be actively engaged in another at the time of the Convention. Last year about 150 registered.

THE Twentieth Annual State Interscholastic Basketball Tournament was held at Bozeman March 11-14. Teams representing sixteen of Montana's towns battled it out for the championship. This year's tournament was featured by the early elimination of Chinook, last year's champions, who came to the Tournament with a much-touted team. The final game saw Miles City and Whitefish competing for the title. Miles City came out on top by the score of 35-26. Billings, by virtue of defeating Butte in their last game, placed third; Butte taking sixth. For the second consecutive time, Park County took fourth place, defeating Forsyth, which placed seventh. Twin Bridges defeated Poplar and took fifth place; Poplar placing eighth. This year's tournament was one of the most closely contested in recent years, a majority of the games remaining undecided until the final gun.

Due to the wealth of excellent material, all-state selections were very difficult to make. The following men, however, were finally placed on the all-state team:

Lyons, Park County,	Forward
Larimer, Miles City	Forward
Hileman, Whitefish	Center
O'Blizalo, Butte	Guard
Casey, Miles City	Guard
Swanson, Forsyth	Utility

Taylor of Whitefish was the high scorer of the tournament, amassing 60 points in four games.

The tournament was ably managed under the expert leadership of John Dexter. The concessions were handled by Bobcat lettermen, who furnished refreshments and amusements for the audience.

Blue and Gold

Of all the "Blue and Gold"
days that we know, we like
just "Spring Days" best.

FROM Freshmen in green caps to Seniors in Cap and Gown—only four years, but every day leaving cherished memories. Fall days with the thrills of football games. Winter days with picnics and serenades. Days when honors are announced. Days that are traditional. Days in the classroom and laboratory. Campus days. Social days. Days that will be remembered as the most happy of our lives.

As a picture of representative days at M. S. C. that may serve to preserve our traditions, record the accomplishments of the year, display our activities to others, and provide intimate pictures of college friends, we present "Blue and Gold Days," symbolic of life at Montana State College.

ESTHER STOCKTON
Prom Queen

BETH POPE
Battalion Sponsor

Prom Queen

According to custom, Junior Prom Queen is a senior girl chosen at a special election by the juniors and seniors. Last year Miss Esther Stockton of Strathmore, Alberta, Canada was accorded this honor. She was officially crowned Prom Queen, May 10, 1930, with appropriate ceremonies at the Hotel Baxter. Miss Stockton graduated from the Department of Secretarial Science last June. She is a member of Pi Beta Phi.

Battalion Sponsor

Battalion Sponsor is elected by the army personnel during the winter quarter. The name of the girl granted this privilege is not announced until the night of Military Ball, when her presentation with the Company Sponsors is the feature of the occasion. Miss Beth Pope of Butte was elected Battalion Sponsor this year. She is a junior and belongs to Alpha Omicron Pi sorority.

Formal Dances

The annual formal dance sponsored by Les Bouffons is one of the oldest traditions at M. S. C., and is one of the leading social events of the year. This function was held at the Hotel Baxter, April 19, 1930. The new members announced were: Ed Buzzetti, Austin De Frate, Wm. H. McCall, Jr., Frank Ralph, Harrel Renn, Skee Rivers, Harold Sadler, Leonard Wing, Sam Winn, and Max Worthington.

The Junior Prom sponsored by the class of 1931 in honor of the graduating class was one of the most successful which has been given in recent years. The outstanding event of the evening was the coronation of Miss Esther Stockton as Prom Queen. The procession was led by Luvina Maybell. Bernard Brown, president of the student body, crowned the Queen, with Tommy Sears acting as crown bearer.

The annual Military Ball sponsored by Scabbard and Blade, was held at the Hotel Baxter, February 20, 1931. As a special feature, the music for the evening was furnished by the Salt Air band, an eleven-piece orchestra, from Salt Lake.

Battalion and Company sponsors presented during the evening were: Battalion Sponsor, Beth Pope; Company Sponsors, Mrs. Keith Sine, Kathleen Bird, Jo Gary, Doris Torongo, and Kay Willard. A corsage was presented to each of these girls.

The Scabbard and Blade pledges announced were: Lieut. Jackson, Jack Bartlett, Nick Grebeldinger, Harry Adams, Henry Fox, Leonard Johnson, and Sam Winn. Immediately after the ball the members and pledges of Scabbard and Blade held their annual banquet at the Hotel Baxter.

Informal Affairs

In addition to fraternity and sorority functions, social life at M. S. C. is greatly enhanced by the many informal dances which various student groups sponsor during the year. The "M" Club gave the first dance of the year at the gymnasium.

According to tradition, every fourth freshman class has charge of the annual Thanksgiving Dance honoring the seniors, until their fourth year. This year the dance was given by the class of '32 at the Elk's hall, November 26, 1930.

In accordance with a custom established last year, Fang pledges were spiked at the Fang Pledge Dance held at the Playmor ballroom November 20, 1930. About 150 couples attended this dance at which twenty-one freshmen were pledged by Fangs.

The winter social season was opened by the Fang-Spur Dance at the Hotel Baxter, January 17, 1931. A large illuminated spur left by the outgoing Spurs in memory of Mr. Rutledge was the feature of the occasion.

Delta Phi sponsored its second annual Artist's Hop, January 31, 1931, after the Bobcat-Grizzly basketball game. Programs in the form of artist's palettes, and the use of colored balloons and easels holding gay pictures as decorations, made the affair distinctly artistic.

Probably the most popular informal dance of the year is the Ladies' Choice Dance sponsored by Mortar Board. It is the one occasion for which the girls assume all the duties of escorts. The Fourth Annual Ladies' Choice Dance was held January 24, 1931 at the gymnasium.

FALL Days—The latest in sport models—The Iris Gardens in fall—Alpha O's as they might have been—A more ancient transportation facility, the pride of the Sig Alfs—Two hunters in appropriate garb—A bit of surveying—All inspired by fall days.

M. S. C. Frosh unite in song—Shanley and the two Chi O's evidently happy in their strange vehicle—Some picnic while others beat rugs—"Rosie" becomes horticulturally inclined—Others just lean against the buildings and enjoy the delight of fall days.

ORGANIZATION Days—Collegiate room in the Kappa Sig house—Kappa Delts in an unusually playful mood—Completing preparations—but for what? These Sigma Chis seem carefree anyway—Pi Kaps in an informal session—Two charming Chi O's—A decidedly coy group of Sig Alfs—All emphasizing the aspect of fun in getting an education.

ACTIVITY Days—Huntley apparently takes his makeup very seriously—Mounted on the lofty heights of a stump with such pleasing support, who wouldn't smile?—Work doesn't seem to bother this staff member—The inevitable combination—Lora, her roadster, and several Pi Phi's—Lords of all they survey—Three attractive coeds—A study in expressions by Rivers, Gary, and Johns.

ATHLETIC Days—Three well-known football players—Featuring gloves at the Butte game—The unveiling of the Gatton Memorial at the entrance of the field, a tribute to "Cy" Gatton—Award Day, the culmination of all athletic days, with Max addressing the crowd—The Crowd, the band, and the yell leader ready for action.

BUTTE Days—A few of the many cars at Clark Park—Bobcats on parade—The rival bands entertaining the eager crowd just before the fray—Bobby Morris and the opposing captains—the most important trio of the game—Everything ready for the most thrilling of all college days—The annual Bobcat-Grizzly classic at Butte.

“M” Day—Husky frosh tug ten-gallon water cans up perpendicular slopes to the tune of Fang Paddles—Young men gladly assist these Spurs in their hike up the mountain—A timely lunch served by Spurs—While the more ambitious climb up to the scene of activity, others relax.

“M” Day on the slope—Hazen, Facer, Murdock, McArthur, and Johns graciously consent to be photographed—Editor Dewey with his faithful kodak—Lime mixers hard at work—The line views the sunrise—Once again the “M” proudly looks down over Bridger, clean and white.

STRIKE Days—"Actions speak louder than words!"—Morning finds the boys huddled around blazing fires guarding the drag—Fair coeds satisfy hungry appetites with refreshments—Noon finds men homeward bound—Daily theater parties add the variety that is "the spice of life"—A few characteristic scenes in M. S. C.'s great fight for freedom.

WINTER Days—Van and the girl friends enjoying a wintery day—Happy crowds revel in tobogganning—Cooperation helps in trudging through the deep snow—An open window reveals a happy trio—Evidences of snow fights—In winter everyone's fancy seems to turn to thoughts of sports.

SPRING Days—Coeds don housedresses for leisure hours—S. A. E.'s enjoy a sun bath—A return to more youthful days—Acrobatic feats for the men—A O Pi's in lounging pajamas—At ease—whether in an old Ford or under the trees—Fresh air and warm sun cause an adjournment of the art class to an out-of-doors studio.

WORK and Play Days—Sig Alfs beat rugs—Dozing beneath an umbrella—Dorm girls in an outburst of affection—Isaac Walton alias President Wing—A return to dolls?—Kappa Sigs rest from their lawn spading—Others devote their time to tennis—Judging by appearances all are happy.

DIVERSION Days—Les Bouffons bring forth the Adonises of today with costumes more revealing than suggestive—Nurse maids, African savages, mother's sons, Tarzans in various poses—Phat never at a loss for a unique mode of dress dons a barrel—All furnishing entertainment galore for enthusiastic and adoring coeds.

DAZY Days—M. S. C. students reveal striking similarity to the monkey—The two in one theory as demonstrated by Capt. Jahant (according to the label)—A night in a barroom—Musician or would-be—New methods of experiment in chemistry—A Kappa Sig in a new style of attire—Note the pipe.

M. M. Day—Groups of students eagerly scanning the pages of the new Montanan—Others enjoying lunch and reclining on the campus—Lou Howard and his band furnishing the music for the day—as for every gala occasion at M. S. C.

UNDER a shady tree a happy crowd enjoy their Montanans—Montana Hall—The Kappa Sigs deeply interested in the pictures which represent another year—The long line of students eager to receive copies of the latest annual—Another delightful day, the inspiration of Mortar Board.

ARMY Days—The band adds a bit of variety—Cadet Seitz models the new uniform very strikingly while Crouse presents an emphatic contrast in the discarded one—Other cadets demonstrate their military knowledge—Ready for inspection.

R. O. T. C. Day—Over the top!—Ready for the signals—Exhibiting speed and proficiency in wall scaling—The Army Sponsors add the necessary color and charm for the day—The only feminine note in Army Day with its parade and military maneuvers.

ENGINEERING Days—Trying the glider—Typical engineering construction—Two engineers at work—Some of the powerful devices of the Machine Age—Providing the finishing touches before the flight—Just a few wires but a lot of electricity—Things that engineers learn about—The imposing marble stairway in the palatial building of the engineers.

WOMEN'S Day—The Senior women in Cap and Gown—The Spurs in uniform
 —The long line of women dressed in white marching from Montana Hall to the
 gymnasium—An impressive spectacle for the onlookers—The gymnasium where the
 honors for the year are announced—The old sundial—now the center of the A. W. S.
 Iris Gardens.

The Bloodhound

THE BLOODHOUND, campus scandal and razz sheet, is the latest addition to the list of Montana State College student publications. Issued for the first time in 1930, the idea being inaugurated by Pi Delta, local honorary fraternity for journalists, the sheet acquired an immediate popularity and widespread fame.

Pi Delta both sponsors and edits the publication, which up to the present time has remained an annual one, although plans have been made to make it a quarterly. At the time of its issue, one thousand copies printed on yellow paper are sold on the campus by the pledges of the order at a purchase price of one dime.

Stories written in a humorous vein, razzing faculty members, sororities, fraternities, and individual students fill its columns. Based partly on fact and partly on fiction, these stories aim both to furnish amusement and to bring about change and betterment. The Exponent is withheld the week the razz sheet comes out, and students read the fun paper with no little interest and amusement.

In 1931 the Bloodhound was issued in the third week of April, and its pages flaunted all the scandal and the mistakes of individuals and organizations which the members of Pi Delta had been able to get hold of during the year. This, the second issue of the sheet, was thought to be an improvement over its illustrious predecessor of 1930.

Military

The Barracks, silhouetted by a setting summer sun, lose all that grim, warlike aspect by which we know them.

Captain Jahant

Captain Butler

Lieutenant Jackson

Bobcat Battalion

The Bobcat Battalion of the R. O. T. C., a part of the National Defense Chain created under the administration of President Wilson, in 1920, has shown a decided increase in the ranks during the year. This increase necessitated the formation

Sergeant Ellsworth

of a new company making a total of three freshmen and two sophomore companies, and at the same time created more positions of responsibility for students officers to fill.

The year 1930 witnessed a change in the uniforms issued to cadets. Since the formation of the Bobcat Battalion, the standard uniform has been the regular issue army uniform, but during the past year these were all replaced with a new type cadet uniform. This new uniform consists of trench caps, roll collar blouses with blue lapels, and long trousers. It adds considerably to the appearance of the Battalion in parade and on exhibition drills.

ERB
Cadet Major

POPE
Battalion Sponsor

HOULD
Adjutant

The purpose of the R. O. T. C. is to secure large numbers of capable leaders trained in the proper conduct and execution of a campaign without the enormous expenditure of funds necessary to maintain a sufficiently large Regular Army. By training college men, educated leaders of sound physique are developed in accordance with the above policy. All men students in the two lower classes at Montana State are members of the Bobcat Battalion. In addition to these, a limited number of upper-classmen are also members, taking training in advanced drill. These advanced students serve in the more responsible positions as student officers.

The executive staff of the military department consisting of Captain Butler, Captain Jahant, and Lieutenant Jackson, have chosen Robert Erb as Cadet Major, George Hould as Adjutant, and Keith Sime as Executive Officer of the Bobcat Battalion.

In accordance with the established custom a battalion sponsor was elected by the student body during winter quarter. Miss Elizabeth Pope was formally presented as battalion sponsor at the Military Bill, along with the company sponsors.

Ag Judging

Ag Judging is one of the activities supported through the student activity fund, having been placed on that basis in 1930.

Grain Judging Team

MONTANA STATE COLLEGE Grain Judging again won first honors in hay and grain judging at the Northwest Hay and Grain Show held in conjunction with the Pacific International Livestock Exposition, at Portland, Oregon.

The team, which consisted of Frederick Crouse of Dillon, Earl Bjork of Simms, and Horace Bolster of Plentywood, met with keen competition from Idaho and Oregon teams. Frederick Crouse was second high point man of the contest, first place going to a member of the Oregon team.

This year's winning makes six years out of eight that the grain judging teams from Montana State have taken first place at the Pacific International. Seven out of these eight years, Professor A. H. Post of the Agronomy Department has been coaching these teams. His ability in developing winning teams is the envy of many of the larger schools, and much credit is due him for his excellent work.

Crouse, Bolster, Bjork, Post

Dairy Judging Team

JOHN G. Howe, Jr., Eric Holmen, and Rayno Penttila, coached by Prof. G. C. Sands, placed third in Dairy Products Judging Contest held in connection with the Pacific International Exposition. The team placed first in the butter judging, first in the milk judging, and second in ice cream judging. Howe was the high individual in the butter scoring contest, Penttila was second, and Holmen tied an Oregon man for sixth place. For the milk judging, Penttila placed second, Howe fourth, and Holmen seventh. For the ice cream judging, Holmen placed second, Howe fourth, and Penttila seventh. In the final ranking for the judging of all products, Howe placed second, Penttila fifth, and Holmen eleventh. As a result of this good work the team carried home the Milk Plaque presented by the International Association of Milk Dealers, the Butter Plaque presented by the American Association of Creamery Butter Manufacturers and John G. Howe, Jr., as second high individual, carried home the Loving Cup presented by the Dairy Machinery Company of Seattle, Washington.

Sands, Howe, Penttila, Holmen

Stock Judging Team

THE stock judging team consisting of Keith Sime, Dan Nicholson, Harold Dusenberry, William Corkins, Alton McIlhattan, and George Reese, placed third in the stock judging contest. They also won the Rambouillet and Swine trophies for being high point team in those divisions. Keith Sime was high point man of the contest with 905 points out of a possible thousand. This is the first year that a Montana man has won this distinction in livestock judging. The team was coached by Professor Ross Miller of the Animal Husbandry Department.

University of California sent the team that won first place, and the University of Idaho won second place. Washington State College, Oregon State College, and the University of British Columbia were also represented.

Reese, Corkins, Dusenberry, Miller
McIlhattan, Sime, Nicholson

Forensics

The Cambridge-Montana State debate drew the largest crowd to ever attend a forensics contest on the hill.

PROFESSOR BREWER

PROFESSOR COBB

Debate Coaches

Varsity Debate

THE varsity debate schedule for the year opened when a Montana State team composed of Donald Faris and Charles Johnson met a team representing the Association of Universities of England, at Bozeman, late during the fall quarter. The discussion was on the question, Resolved: That the world has more to hope than to fear from the further development of machines. The visiting team, upholding the negative, won the decision.

The second debate on the schedule brought Mt. St. Charles College, of Helena, and Montana State together on February twelfth at Livingston. James Halloran and Donald Faris upheld the laurels of Montana State, arguing the negative of the national Pi Kappa Delta debate question, Resolved: That the nations should adopt a policy of free trade. Montana State won a two to one decision in a closely contested debate.

North Dakota State Agricultural College met the Montana State team in Bozeman to complete a two-year series between the two schools. The question used was the Pi Kappa Delta question. The visiting team, upholding the affirmative, won the decision from a Montana team composed of Sam Eagle and Donald Faris.

DONALD FARRIS

JAMES HALLORAN

Pi Kappa Delta Debate

THE Province Convention of Pi Kappa Delta, national forensics fraternity, was held at Linfield College, in McMinnville, Oregon, this year. Sam Eagle and Lewis Allison represented Montana State College in the debate tournament. The delegates left on March twenty-fifth, accompanied by Professor Brewer. All the schools in the northwest province were represented in the contests, which were held on March twenty-seventh and twenty-eighth. These included Linfield College, College of Puget Sound, College of Idaho, Intermountain Union College, and Montana State College. In the contests for men, the College of Puget Sound won first place, and the College of Idaho second.

Following the convention, the debaters took part in two more debates on the return trip. In the first of these, with Spokane University of Spokane, Washington, they gained the decision; while in the second, with Whitworth College, also of Spokane, Whitworth was the winner.

JOHN GARY

SCOTT HARRISON

Freshman Debate

Following a custom of many years standing, a dual debate was held this year between the freshmen of Montana State College and the University of Montana. Any freshman was eligible to compete in the tryouts for the teams, the results of which placed Sam Eagle and Allen Schwartz on one team, and John Bonner and Dana Houston on the other. The first mentioned team journeyed to Missoula and took the negative, while the other remained in Bozeman and upheld the affirmative. The topic for discussion was the regular Pi Kappa Delta debate question of the year. Both debates were won by the University freshmen after hotly contested discussions.

The debate for the Pi Kappa Delta individual freshman debate cup was held during the winter quarter. Two teams took part, with Dana Houston, Lewis Allison, and George Misevic upholding the affirmative, and Sam Eagle, John Bonner, and Allen Schwartz, the negative. Dana Houston was judged the best individual debater and was awarded the cup. Second and third places went to Sam Eagle and Lewis Allison respectively.

HOUSTON

MISEVIC

ALLISON

KNAFF

WIGGENHORN

Sophomore-Freshman Debate

The traditional freshman-sophomore debate was one of the high spots of the forensic year. Much rivalry was shown between the two classes at the well-attended debate, and throughout the contest the debators were keyed to a pitch in harmony with the spirit of the audience. James Halloran, Scott Harrison, and John Gary represented the sophomores, and Sam Eagle, Allan Schwartz, and John Bonner upheld the freshman cause. The Pi Kappa Delta question was used. The freshmen were victorious, but the debate was well fought and evenly contested throughout.

CO-ED DEBATE

Constance Wiggenghorn and Julia Knaff comprised the girls' debating team for the year. The annual debate with the State Normal College of Dillon was held on February nineteenth, at Dillon, on the Pi Kappa Delta debate question, Resolved: That the nations should adopt a policy of free trade. The debate was a non-decision affair with Montana State supporting the affirmative. Both teams presented sound arguments which proved the value of continuing this annual forensic's feature.

SCHWARTZ

BONNER

EAGLE

ARMIN HILL

Extemporaneous Speaking

An extemporaneous speaking contest was held during the winter quarter of 1931, and was conducted on an interfraternity basis. Many aspirants took part in the preliminary contest which was held on February eleventh in the Little Theatre of Main Hall. The winners of this contest, Carolyn Delaney, Donald Farris, Armin Hill, and John Pope, took part in a final contest at an assembly on February twenty-fourth, speaking on various topics assigned to them. Pi Kappa Delta, national debating fraternity, gave a cup to the winner, Armin Hill of the Amigo Fraternity, who spoke on "The Soviet Experiment Has Justified Itself in Russia." Donald Farris, who discussed "Why Military Science is Beneficial" placed second.

The silver loving cup which was presented to the winning fraternity is a three-year cup and will become the permanent possession of the fraternity winning it three times.

Armin Hill represented the college at the extemporaneous speaking contest held in conjunction with the Pi Kappa Delta Province convention, and was awarded first place. The College of Puget Sound won second place. Armin Hill is deserving of much credit in winning laurels for Montana State College in this contest, since, previous to this time, Montana State College has not entered a delegate in the extemporaneous speaking contests held in conjunction with the debates.

Dramatics

The thrill of being made up is a real one, and one that a true actor never loses.

BERT HANSEN
Director

"The Show Off"

George Kelley

"The Show Off" was presented by the Montana State Tormentors as an exchange play with the Missoula Masquers.

The scene for the entire play is the living room of the Fisher family in Philadelphia. Scenery and properties were gathered and arranged by members of the play production class under the supervision of Director Bert Hansen. The story of the play centers about Aubrey Piper, the "Show Off," who unwelcomely enters the home and life of the Fisher family and causes much anxiety and trouble.

The part of the Show Off was very ably played by John Coey, who afforded the audience many laughs. Dorothy Miller was excellent in the role of Mrs. Fisher, who was faced with the problem of her daughter Amy's marriage to a man the family despised. As Amy, the daughter who could see only the likable side of Aubrey, Kathryn Smith was a distinct hit. Lora Brown was pleasing, as always, in the role of Clara, the older married sister.

A great contrast in type was this play, which was purely a comedy, to the tragic dramas presented by the Tormentors last year. It was received with favorable comment by the audiences.

CAST

Aubrey Piper.....	John Coey
Mr. Gill.....	Dale Bohart
Mr. Rogers.....	Henry Scovill

"Juno and the Paycock"

Sean O'Casey

"Juno and the Paycock" was brought to the Bozeman stage by the Masquers of Montana University, under the direction of Mr. William Angus. The story, portraying the hopelessness of the life of Captain Boyle's typically Irish wife, is a realistic tragedy of Irish tenement life, cruel in its humor. The scene of the play is laid in the home of the Boyles in Dublin, Ireland, a sordid environment with the typical filth of tenement life much in evidence.

The second act, the setting of which is changed somewhat by the efforts of the family to doll up their home to fit their new position of wealth by inheritance, is cheap and tawdry in its gaudiness. The entire staging of this play was worked out by Missoula students.

The atmosphere of the play is most amusing, although sordid and drab. The Boyles' idea of wealth and its obligations is crude, even to the laughing point. Captain Boyle, the hypocritical liar who dodges and back tracks, and is content to let his wife provide for the family, was portrayed by William Brown. Marian Hobbs was splendid in the role of Juno Boyle, the wife who slaves to keep the family together while her good-for-nothing husband plays around town. The other characters with their fine acting contributed much to the gripping and intense realism.

Mrs. Tancred.....	Martha Kimball
Needle Nugent.....	Michael Kennedy

"Granite"

Clemence Dane

"The best play of the year" is not too much to say for "Granite," the play produced by Tormentors, winter quarter. The scene throughout the entire play is the living room of a farm on Lundy in the second decade of the last century. Dismal background representing, in a most realistic fashion, hard, gray, granite walls made the tragedy even more gripping and realistic.

Alice Vandenhook as Judith showed wonderful ability in a difficult role. She was the nervous, high strung, quick tempered, pitiful woman, caged in a stone prison. Jordon Morris, Judith's husband, himself like a dismal granite wall, sturdy and cold, was played by Jack Bartlett. Dale Bohart portrayed the difficult role of the nameless stranger, who appears from the sea and shapes the destinies of those on the island. Chet Huntley, half brother of Jordon, the tender lover of Judith, was a fine character. Mary Metheny was sweet and innocent in the role of Penny Holt, and Melvin Schneider was excellent as the clergyman.

"Sun Up"

Lulla Vollmer

"Sun Up" marked the climax of the Tormentor plays of last year under the direction of Bert Hansen, who, with his remarkable ability in choosing casts and directing, brought the dramatics of Montana State to a higher level than ever before.

This three-act comedy of American Folk Life is the story of a North Carolina mountaineer who went to war. The ignorance, the strange and interesting customs, and the peculiarities of these Allegheny mountaineers serve to produce the humor in the play. Their feuds, rivalries, utter disrespect of the law, and lack of knowledge of current events provide the intriguing situations and furnish the action.

Arthur Roberts and Clemen Peck designed the realistic setting, while much credit goes to James Ovens for the excellent lighting effects which brought out the transition from sunset to sunup, and so mutely, yet clearly, helped to explain the title of this American folk drama, "Sun Up."

Loot Show

"The Loot" was the first musical comedy written and produced by Montana State College Students. In 1922 several men of the college organized to produce this hit of the season which was such a success that they decided to carry on the work annually.

This year the musical comedy presented by the "Looters" was "Take It From Me," an outstanding show. The "Tanglefoot" number was one to be remembered and talked about. The "Take It From Me" chorus and song was clapped back many times. Due credit goes to Miss Kimball who directed the chorus and dances.

Under the direction of Mr. George Davenport, this musical show about the trials of a young spendthrift to meet the requirements of his uncle's will was a success. The plot centers about Tom Eggett, a young, idle spendthrift, who in accordance with the will, takes charge of the "Eggett" store for one year. If he makes a success of the business he is to receive five million dollars and the business, but if he does not, Mr. Crabb, the manager, is to receive the legacy.

Seeing himself blocked at every point from making a success by Mr. Crabb, Tom Eggett and his pals do everything to wreck the store so that Mr. Crabb will receive nothing but a wrecked business. The many changes and events which take place in the store in the attempt to destroy it, and the final results which stimulate trade and business and lead to the success of the store and to the success of Tom Eggett are exciting and different. The climax which puts a sudden twist and turn to events straightens out in a charming finale.

Keyes, Sadler, Harrington, Busch, Anderson, Burkhart, Douglas, McNeil

"Take It From Me"

MAJOR CHARACTERS

Tom Eggett, leading man.....	Jimmy Ovens
Vernon Van Dyche, Tom's pal.....	Jimmy Loftus
Dick Roller, Tom's pal.....	Jack Bartlett
Barney, butler.....	Ben Frost
Sheriff Doyle.....	Scott Harrison
Horace Turner, Tom's lawyer.....	Allen Schwartz
Wilkins, a very old clerk.....	Eric Blannin
Cyrus Crabb, Manager of "Eggett's".....	Everett Peterson
Gwendolyn Forsythe, Tom's fiance.....	Evelyn Mattmiller
Ella Abbott, eccentric comedienne.....	Doris Rector
Grace Gordon, Crabb's secretary.....	Kathryn Miller
Queenie LaBelle, a movie star.....	Wilma Van Horssen
Miss De Wit, a kleptomaniac.....	Kay Rivers

Jimmy Ovens was particularly pleasing in the role of Tom Eggett, the young spendthrift who, in trying to make bad, succeeded in making good. Coupled with Jimmy as his pal, Dick Roller, was Jack Bartlett. These two men who have been teamed together before in Loot shows were funnier than ever. Jimmy Loftus in the part of Vernon Van Dyche with his clever tap steps was both funny and pleasing. Cyrus Crabb, manager of "Eggett's," portrayed by Everett Peterson, was the typical, old-fashioned crank too often found in a modern business office. Doris Rector as Ella Abbott, a secretary, was the eccentric comedienne of the show. Grace Gordon, Mr. Crabb's, and later Tom Eggett's secretary, and finally fiancee, was played with ability by Kathryn Miller. Wilma Van Horssen was fine in the part of Queenie LaBelle, a movie star.

Music

Inspiration, Pep, Enthusiasm. These are symbolic of the part the Band plays in our campus life.

LOU HOWARD
Director

The Bobcat Band

THE Bobcat Band is the foremost organization at Montana State College for creating and fostering enthusiasm at athletic contests, rallies, military parades, and tournaments and conferences of all kinds. It is called upon frequently during the year to lend color and pep to many collegiate gatherings, and is one of the most prominent of the factors which make the annual football game with the State University, at Butte, so attractive and give it a truly collegiate air. Each year the Band makes a State tour during Spring quarter. The 1931 tour included stops at Big Timber, Columbus, Forsyth, Glendive, and Miles City, at all of which places the Band played to capacity crowds. These concert tours furnish an effective means of advertising the College.

Next year will see the bandmen appearing even more colorful than in the past, for they will be decked out in new uniforms consisting of blue and gold caps and capes. This change will be a great improvement over the military uniforms which are now used.

Lou Howard, who has been the leader of the band since its inception many years ago, is responsible for the wonderful work done. His personality and jovial manner, combined with a wide knowledge of music, have raised the organization to its position among the leaders on the campus.

DONN KINTZ
Director

THE College Chorus at Montana State College is the most popular vocal musical organization on the hill. The Chorus is directed by Donn Kintz and is composed of about thirty-five of the best voices in the school. Each spring it makes a tour of the state, during which time concerts are given at several of the cities. This spring, Columbus, Worden, Big Timber, Red Lodge and Livingston were included in the itinerary. In addition to the state tour, the chorus takes a pleasing and prominent part in the musical assemblies and recitals given from time to time during the year.

THE College Orchestra, under the direction of Donn Kintz, serves as an auxiliary musical organization for all students interested in playing orchestral music. It offers them an excellent opportunity to develop their musical talents, and to gain recognition in the field of music.

The orchestra often appears with the chorus, and gives special entertainment at musical assemblies and recitals during the year. Using the talent among the students, Donn Kintz has developed the College Orchestra into a musical organization of the highest calibre.

The orchestra often appears with the chorus, and gives special entertainment at appreciated by the music lovers of Bozeman, as well as by the students of the College.

ATHLETICS

COACH DYCHE
Director of Athletics

COACH DYCHE, you have played a responsible part in placing Montana State College athletics on the plane which they are primarily intended to occupy. You have at all times reminded your teams that sportsmanship is the true foundation and vital element of all intercollegiate competition. You have stressed that to win is at all times desirable, and to lose is the inculcation of a valuable lesson. You, through your tireless work and inspiration in the moments when the going was difficult, have made possible great Bobcat basketball teams and fighting football elevens."

"You have gained the confidence of the student body. Loyal supporters know well that you will always send a resolute and sturdy team on the field or court. It is you that is responsible for the maintenance of that Bobcat spirit in the hearts of both alumni and under grads."

MAX WORTHINGTON, Captain of Football and Basketball.

HARRELL RENN, Captain of Track.

LEONARD WING, President of Student Body.

Coaching Staff

THE system of competitive athletics is handled a little differently at Montana State College than in many other schools, in that there are no authorized assistant coaches. If the coach of a respective sport wishes some assistance, he may obtain it from some of the members of the faculty in the Physical Education Department. Coaching of the various sports is handled by instructors of this department.

Schubert Dyche is coach of the two major sports, football and basketball. He is also often considered as head coach since he is the director of athletics at this school. Varsity track and freshman football are coached by Bob Adams, a graduate of Knox College. Varsity wrestling, swimming and boxing are coached by Pat Dolan of Montana State College. Dolan also acts in the capacity of trainer and assistant for varsity football.

Through the effort and tireless energy of the above men, this college has one of the best systems of intramural athletics of any institution in the country. Harry Ellis is faculty supervisor for this phase of athletics. Coach Dyche, Harry Ellis, and the other members of the faculty of this respective department have been praised highly by leading coaches and physical education instructors throughout the country for the very efficient system of intramural athletics which they have established here.

Adams

Ellis

Dolan

Yell Kings

WHITE clad leaders of student vocal expression, in the form of the college yell kings, are much in evidence wherever student enthusiasm and pep are needed. At every athletic contest and pep gathering they lead the yells and battle songs, and in general convey the spirit of the spectators to their team engaged in combat.

A chief of the yell leaders is elected by the student body each year. Conditions necessary for election are a majority vote and previous experience as an assistant. His duty is to lead the rooting and the college songs, and to formulate new yells and songs.

"Jimmie" Ovens held the coveted position of yell king during the 1930-31 school year. His assistants were Phil Roberts, Ben Frost, and "Hi" Greiner.

As seen by those who know of the things which must be possessed by the holder of such a position, it is apparent that plenty of enthusiasm, the action of an acrobat, and unlimited ability to control the reactions of the audience are necessary for success. Such attributes were possessed by those in charge of student body expression this last year.

Ovens

Greiner

Athletic Council

ATHLETICS at Montana State College are supervised and controlled by an athletic council composed of seven members who represent the students, faculty and alumni. The Council, usually meets once each quarter to discuss and act upon any usual questions, and it may meet at any time for a special purpose. All letter and numeral awards are approved by the council, which also exercises jurisdiction over rules of eligibility, finance, and conference problems which may arise.

This year members of the council are: Fred Bennion, Chairman (during the absence of Professor Swingle); Eric Therkelson, Faculty Finance Advisor; Schubert Dyche, Director of Athletics; Pat Dolan, Graduate Manager; Jack Taylor, Alumni Representative; Max Worthington, Student Commissioner, and the manager of the major sport which is in progress at the time of the meeting.

The Faculty Finance Advisor holds a very important position relative to the expenditure of the money which comes from the purchase of student activity tickets. It is his duty to authorize all expenditures, no matter what they may be for. Students are urged to become acquainted with the manner in which this money is handled and spent. They at all times have the privilege of examining the books of the athletic department.

Other schools have found this system of controlling athletics a successful one, and thus far the experience of Montana State has been the same. At all times with such a plan the students are keeping check on the expenditures and the manner in which the sport then in progress is being supervised. At the same time the faculty is given the opportunity of checking the student part of the management. Instead of working independently and toward different objectives, the students and faculty under this system are working toward a common goal which is the financial success of athletics, the one hundred per cent participation of the students, and the raising of the standard of athletics to the plane which they should occupy and for which they were inaugurated into the calendar of the College.

Worthington

Managers

EACH major sport claims its own manager. These sports are football, basketball, and track. Intramural athletics claims a manager, with intramural baseball having a separate one. A managership is also created by the minor sports such as boxing, swimming and wrestling.

The manager for football this year was Frank Ralph. Harry Adams was the manager for basketball owing to the failure of Robert Cunningham to return to school. Adams will also occupy this position next year if he wishes. Intramural manager was Harold Greiner, and the manager of baseball was Wall. Henry Lund filled the capacity of track manager. Next year Coach Dyche expects to add several managers to the department, including an equipment manager and an assistant for intramural and baseball.

It is the duty of a manager to be on hand for as many practices of his particular sport as possible. He must take care of equipment, pack equipment for trips, supervise men who are working for a managership, handle the transportation of his own team to other places, and provide for visiting teams. A good manager can be of the utmost assistance to the coach.

The managers of all sports at Montana State are seniors unless by chance the manager fails to return to school for his senior year. In that case the junior man next in order takes the position and holds it for two years. Managers must start from the bottom and work up. Freshmen are brought together at the beginning of each year and given certain sports for which they work until they reach their ultimate goal their senior year. The work is not easy, and the gaining of a managership is a distinct achievement, although an opportunity is given to gain real experience. As a reward for their work, managers are given an "M" sweater adorned with a distinctive letter.

Gatton Field

DEDICATION of the Gatton memorial athletic field took place on October 4, 1917. The field was named in honor of Cyrus Gatton, one of the greatest athletes in the history of Montana State College, whose exploits on the gridiron were brought to a close by his entrance into the World War as an aviator, and his subsequent death while in action.

The entire student body, the faculty, members of the Gatton family, and friends and schoolmates of "Cy" were present for the ceremony.

The day on which the dedication took place was a typical autumn day, a warm day of late fall, and one in which the spirit of football seemed to live. It was the day of the game with St. Regis College, and the contest following the dedication ended in victory for an inspired Bobcat team.

After a brief introductory address by President Atkinson, the flag covering the bronze plate in the memorial entrance way was furled. Then Fred Bennion, who was coach during the time of Gatton, delivered an eulogy on Cyrus Gatton. He spoke of the unconquerable fighting spirit which imbued "Cy" at all times, which even in the face of defeat glowed all the stronger. Incidents reminiscent of the departed one on the field of combat as well as in ordinary life were recalled by the speaker and in the messages from afar which were read.

The memorial entrance way was built through the efforts of the mother of Gatton and was presented to the college by her on the day of the dedication of the athletic field.

Memorial Entrance—Gatton Field

Football

Fighting football teams of the past have made the name "Bobcat" synonymous with that of Montana football elevens.

MAX WORTHINGTON came to Montana State College with a marvelous athletic record behind him. He was a valuable asset to the Bobkitten team of four years ago. In 1929 he was awarded with an end position on the All-Conference eleven. He captained the 1930 football season through a hard season, but one which was successful in every respect. He also captained the 1931 basketball team. Max is one of the few athletes to ever captain both the football and basketball teams in one year. In future years when the team is hard pressed, he will be missed. It is with a great deal of pride that Montana State

College can say that Max Worthington attended the school and defended her many times upon the court or the turf. Here is a man who can grin in the same pleasing manner after a defeat as he does after a victory. When utter defeat was staring him in the face last fall; when it was almost inevitable, he still drove, charged, blocked, and tackled just a shard and true as if the annual Bobcat-Grizzly game had only begun. His name shall go down in the annals of Montana State history as a student, a man, and an athlete.

Captain Max Worthington

COACH DYCHE and the 1930 Football Squad deserve much credit for the admirable manner in which the season was completed. Coach Dyche has well earned the compliments of the student body by the manner in which he built a team out of the material at hand. Some of the material was composed of veterans, but most of it was green. Congratulations are also due the squad on account of the way in which it responded to the instruction and guidance of the Coach. At the very beginning of the year a team was whipped into shape that went out to Idaho and defeated the Vandals there. The inspiration of Coach Dyche was apparent in the Bobcat team during the last half of the annual Bobcat-Grizzly game. The high points of the season were: the defeat of Wyoming in the third quarter, the defeat of Idaho in the closing seconds, the sensational 80 yard run made by DeFrate against Nebraska, and the second half attack of the Bobcat against the Grizzly. In the game against Mount Saint Charles, the following men played their last bit of football for the school: Worthington, DeFrate, Bruner, Best, Dowell, Leland, Wagner, Dyer, McFarland, and O'Leary.

Coach Dyche

Centerville

Burns, halfback
Dyer, guard

THE first game of the season was with the Centerville squad of Butte. The Bobcats received the kick-off and marched steadily down the field to score as the gun sounded for the end of the initial period. Cheever made the touchdown, and Worthington failed to convert the extra point. Keenan then broke through the line for a sixty-yard run to score. Worthington kicked goal, and the half ended with the Bobcats leading 13 to 0. The reserves played most of the last half. In the third quarter Sadler and Breeden both scored, to bring the count up to 31 to 0. The reserves did remarkably well in going through the Centerville line for seven first downs. In the final quarter the reserves opened a hole in the line to let DeFrata through for a 75-yard race to the goal line. Keenan also scored on a long run by racing through a gap in the line. The game ended with the Bobcats on the Centerville 5-yard line. DeFrata was the mainstay of the Bobcat attack, while Worthington starred on defense.

Anodes

ON the same day that the Varsity Bobcat team met and defeated the Idaho Vandals in Idaho, the Varsity Reserves played the touted Anaconda Anode eleven on Gatton Field. Some idea of the comparative strength of the Grizzly and Bobcat teams was gathered from this game, as the Anodes had been barely defeated in the closing seconds by the university eleven the week before. The Bobcat reserves started nicely under the guidance of Saptain Cheever. Two first downs were made in rapid succession after the Bobcats had received the kick on their five yard line. The ball was lost on the next play due to a bad pass, and the visitors scored. From then on the Anodes were continually on the offense, with McLean and Buzzetti bearing the brunt of the attack.

The Anodes garnered 6 points in the initial period, 13 in the second, 0 in the third, and 6 in the final quarter. As the final gun sounded the Bobcats were being pushed rapidly down on their own goal line. The final count was 25 to 0, Anodes.

O'Leary, Fullback

University of Idaho

DESPITE the fact that the press and fans had picked the unusually light but shifty Vandals to outscore the Bobcats, the wearers of the Blue and Gold upset the dope as Captain Max Worthington converted the point after touchdown. The Bobcats won the game in the last few seconds of play by a 7 to 6 score.

The Vandals took the offense with the opening gun, and twice during the first quarter saw the very shadow of the Cats' goal posts. The close of the initial period found the ball in midfield in the possession of Idaho.

In the second quarter the Vandals again came within inches of scoring.

Early in the third quarter the Idahoans scored on a series of line bucks and off tackle plays. Their back failed to convert the extra point.

With about four minutes to play in the last period, the Bobcats started a one last mighty drive down the field. Yard by yard they neared scoring territory. A 17 yard pass from DeFrate to Long was completed. After three attempts from the four yard line, DeFrate went over tackle to score. Worthington won the game as he directed the ball between the uprights on a place kick.

Montana State 7, Idaho 6.

Regis College Attempts to Pass

University of Wyoming

AFTER being outplayed and outscored in the first half of the annual Bobcat-Cowboy game, the Cats came back in the last half to win by a 20 to 13 count.

The Cowboys started strong and gave the homecoming crowd a thrill as they put over a touchdown in the opening minutes of play by a steady march down the field. The remainder of the first quarter found the Cowboys on the offensive.

Early in the second period, the Wyoming eleven again slipped away for a 37 year run to Montana's 5 yard line. Here the Cowboys lost the ball on downs. Montana punted out of danger as the half ended 6 to 0 for Wyoming.

With the start of the third quarter the Cats held Wyoming and forced them to punt. The kick was short and Sadler took it back to the 33 yard line. Burns and Sadler each received a pass, and Worthington received one in the end zone. Max converted and the score stood Montana 7; Wyoming 6. On the first play after Wyoming had received, Worthington intercepted a lateral pass and raced 45 yards for a touchdown. Then in the last few minutes of the third quarter Sadler received a pass in the end zone to bring the count up to 19 to 6. Worthington converted the point.

After losing the ball on downs several times during the final quarter, Wyoming finally scored and converted the point.

University of Montana

WHILE 8,500 howling fans looked on, the Bobcats tried in vain to repeat their victory over the Grizzlies. The Staters had a fast and driving backfield—so did the Grizzlies. The Bobcat line was outweighed 20 pounds to the man. However, the Cats clawed and fought hard to vanquish again the formidable Bruins, but the lead that the university camp had established in the first half sufficed to turn back the lighter Bobcats by a 13 to 6 victory. The Bobcats were unable to gain an inch over the Grizzly line, and found the air and around the wings their only avenues of gain.

The game opened with the Grizzlies being repulsed twice on less than the one yard line. Finally on the fourth attempt, and the third time of their being within easy scoring distance, the Bruins drove across the stripe.

The Grizzlies scored again in the second period on a series of line bucks and one pass. The half ended with the score 13 to 0, Montana U.

The Bobcats came back strong in the second half. De-Frate passed to McFarland over the goal line early in the quarter. Time after time the Cats came within inches of scoring. McFarland caught three passes on the goal line during that half, only to be tackled and lack inches of being able to push the ball over. The final gun found the Bobcats in possession of the ball on the Grizzly 31 yard line; first, and 10 to go.

Montana State 6, Montana University 13.

The Grizzlies Go Over for Their First Score

University of Nebraska

AFTER leading the Cornhuskers of Nebraska 7 to 0 at the end of the first quarter, Montana State's flashy Bobcats yielded before the crushing offensive of superior weight and came out on the short end of a 53 to 7 score in Lincoln.

The Bobcats were badly outdistanced in yardage gains, but their dogged resistance brought forth considerable comment. In the opening period DeFrate intercepted a long Cornhusker pass on his own 12 yard line and dashed 88 yards for the Bobcat's only score. The Cats fought hard to score again, but every attempt was stopped before it materialized.

Nebraska scored twice in the second stanza, four times in the third, and twice in the final. The Bobcat passing attack gave the Nebraska squad plenty to worry about as they gained yard after yard by short passes, with DeFrate doing the tossing and Worthington on the receiving end.

As the Cornhuskers were scheduled to play Pittsburgh the next week, Coach D. X. Bible used his A string only in segments and for short intervals.

DeFrate, O'Leary, Worthington, and McFarland figured strongly in Montana State's long defensive stand, with DeFrate and Worthington figuring as a pair of constant threats.

A crowd of 10,000 attended the game which was played in such warm weather that the Bobcats were bothered not a little with the heat.

Nebraska 53, Montana State 7.

Brigham Young University

THE outcome of the B. Y. U. game was something of an upset to many of the Montana fans. A week before the game the Mount St. Charles eleven had fought the Cougars to a 13 to 13 tie in Butte. As the St. Charles eleven was reputed not to be so exceptionally strong, the Bobcats were slated to win over the B. Y. U. squad. However, it seemed that the Montana men never gained their power or their stride during the game in Provo. Yardage was not exceptionally hard to gain, but weak defense proved the undoing of the Bobcat eleven. The Bobcat's only score was the result of an aerial attack with DeFrate, Burns, and Worthington figuring.

The first half of the game was close. The two teams fought on nearly even terms despite the fact that the Cougars came out with the score 6 to 0 in their favor.

The Bobcat score came in the third quarter when the score was 13 to 0 against them. The Cougars came back strong again in the final period to bring the score up to a 19 to 6 count in their favor.

Paul, Long, Marrow, and Young were outstanding for the Cougars, while DeFrate, Worthington, and Burns did some good work for the Bobcats.

Brigham Young University 19, Montana State 6.

Grizzlies Are Stopped on the 1-Foot Line

Mount St. Charles

AFTER the B. Y. U. Cougars had upset the Bobcats and Mt. St. Charles had tied the Cougars, fans expected the annual St. Charles-Bobcat game to be a hotly contested battle. The last game of the season for the Cats found them on their toes and playing consistent football, however. The 21 to 0 defeat which the Bobcats dealt the Hilltoppers settled the controversy for second place in the state intercollegiate championship race. The Bobcat line was extraordinarily powerful against the Saints, and the backfield clicked like machinery on every play. The plunging attack of the Cats interspersed with accurate passes proved the defeat of the Saints.

DeFrate carried the ball to scoring distance on his first trip in the game. The touchdown came a few seconds later.

The second touchdown came after O'Leary hit the line four times in succession for long gains.

On a fake spinner by Keenan and a double back pass, DeFrate tossed to Long who was wide open. Long evaded the safety man and skampered across the goal line. A few seconds before the final gun the same play was tried again with nearly the same results.

Gelhausen led the Saint attack while Worthington, O'Leary, Keenan, and DeFrate starred for the Bobcats. Worthington successfully kicked three goals for extra points.

Bobkitten Football

THE Bobkitten football team failed to make as impressive a record as the team of the year before. The entire team was exceptionally light and was composed of few men of all-state mention. However, against opponents who failed to have them outweighed decisively, the Bobkittens had a great deal of punch and speed. Six games were played during the season, three of which were won. The 32 to 0 defeat which the Kittens suffered at the hands of the University Cubs rather evened up the list of Cub defeats of the last three years.

The first game of the season was played against the Varsity Reserves. The game was nothing short of a grudge battle. Lack of coordination on the part of the Reserves spelled their defeat.

Against Butte High School, the Kittens were swamped by a well organized team in comparison to their own team which did not yet have its signals learned.

Billings Polytechnic with a good team defeated the Kittens by a decisive score in the Kittens' last game of the season.

Men who were prominent in freshman football of the last season were: Haley, Kravik, Conway, Fitzsimmons, Petrie, Shubat, Barry, Bruckner, Dyer, Tibbs, Burgess, Parks, Huber, and Dyche.

The Bobcat Line Holds Against Regis

Basketball

The Gym! From whence
on many a wintry night a
victor's cry rings upward
to the sky.

TO Captain Max Worthington fell the task of leading the remnants of a "wonder team" through the 1931 basketball season. Unfortunately his captaincy was not over a team like that on which he played for three years before. There is a great deal of satisfaction in winning. There would be a great deal of satisfaction, perhaps, in being the captain of an undefeated team. However, the problems of a winner are trivial compared to those of a loser. To a winner, what does it matter if his team seems a little bit off form sometimes? With the loser, there is everything to fight against; despair, discouragement, and utter defeat. There are hundreds of little problems that the captain of a losing team must settle quickly out there on the floor. As it was, during this last season, victory was

sweet and defeat was never more honorable. Victory was never more emblematic of the altruistic qualities of sport than during the 1931 basketball season.

It is to Captain Max Worthington that the students wish to extend their hearty congratulations for the veteran-like manner in which he led the 1931 basketball team. Students are conscious of the hundreds of problems he solved out there on the court, and the energy, sweat, ache, and despair he underwent for the sake of the school.

Captain Worthington

COACH "Schube" Dyche experienced a very different basketball season during the year of 1931 than he has dealt with since he became the mentor at Montana State College. For two years Coach Dyche had charge of a team that could probably defeat any quint in the world. This year, outside of one or two veterans, the entire team was composed of green material. There were loads of material at hand, but none which completely outclassed the other. It was this year, and not the ripe years, that the challenge was thrown to Coach Dyche. Despite the fact that he had green material out of which to carve a team, despite the fact that the support of fans and school was on rather wobbly foundation, and that the press did not recognize the Bobcat team any more, Coach Dyche faced the problem squarely and answered the challenge given him by turning out one of the most dangerous teams the school has ever had. True, they occupied the cellar position in the division rating all year, but they succeeded in defeating every team of the division except one.

In this book the student body can adequately express their sincere appreciation to Coach Dyche for the manner in which he guided the 1931 basketball team for the betterment of the school and the spirit of the students.

FOUR games were played with Utah State; two on the home floor, and two in Logan, Utah. The first games were played in Bozeman and provided an opportunity of seeing the Bobcats in the preliminary conference games at home. One game was characterized by the Montanans trailing by a decisive margin at the end of the first half, but rallying in the second half to lack only four points of riding over the visitors. It was in this game that Worthington and Ario held the fans on their feet with spectacular guarding. Set-ups were missed regularly by the Bobcats. In the second game the Cats were defeated by a small margin after a breathless rally. The third game was marked by the fact that the Cats were defeated by one point after an over-time period, and that the game was tied four times during the course of the scoring. Ninety-nine points were made in this game, Ario taking honors with 15. In the final game of the conference play, Boothe and Buzzetti were put out of play on personals. Captain Worthington played his final game for the Bobcats in this tilt.

THE four-game series with the Montana University Grizzlies was divided into two games at each school. The Bobcats came out victorious in three of the four games. The Grizzly victory in the second game was their first on the court for five years. For nine years the Bobcats have reigned supreme in the state intercollegiate basketball race. The first game was marked by a scoring spree on the part of R. Buzzetti, who tallied 19 points. At the same time, Ario and Worthington proved themselves to be a veteran pair of guards. The second game was marked by the bare defeat of the Bobcats, who were not able to quite overcome the Grizzly lead. In the third game Wally Wendt saved the day by tallying 6 points in quick succession in the final seconds. In the fourth game the Bobcats rode over the Grizzlies on ability to convert free tosses. In all of these games R. Buzzetti was high point man with 19, 13, 11, and 14 points respectively. Boothe, Wendt, and Worthington took turns trailing in points.

THE series against Utah University was divided with two games each at Salt Lake City and Bozeman. The first game was the first conference tilt of the season for the Cats. The game was characterized by the phenomenal long range shooting of the Utah forwards and center. R. Buzzetti got off for a good start for the season by leading the scoring. Different combinations were used by Coach Dyche in experimenting for the best five. The Cats were again defeated in the second game by a decisive score. Hopes of a surprise basketball team dwindled. Buzzetti again emerged high point man for the Bobcats. Clark, of the Utes, put on a scoring exhibition that was nothing short of being phenomenal. Again Coach Dyche experimented with different combinations. In the third game, and the first on the local floor, the Bobcats were again given rations consisting of defeat at the hands of the Utah Redskins. The Utah lead was not threatened after the first eight minutes of play. However, in the final game with the Utes, the entire Bobcat line played excellent basketball to send the visitors home with their only conference defeat of the year. This was Worthington's and Ed Buzzetti's last game on the home floor. Both of these veterans glorified themselves in that game.

FOUR games were played with Brigham Young University; two at each school. The first game, which was played in Provo, was marked by the high scores of each team. One hundred fifteen points were made in this game. The Mormons never during the remainder of the season played such brilliant ball as they did that evening. R. Buzzetti led the scoring for the Cats. The second game was characterized by the fact that the Cats came a little closer to their first conference victory, and the hopes of Bobcat fans raised a little. In the third game the Bobcats gained their first conference victory. Throughout the entire game B. Y. U. was completely outplayed. Worthington and Wendt starred for the Cats. In the final game the Mormons revenged themselves of the drubbing they received the night before and gave the Cats a lesson in the same field.

Jump Ball Under Mormon Basket

Pre Season Games

FOUR games were played with the Mount Saint Charles five in the play-off for the state championship. These games were played before the conference schedule began, and provided Coach Dyche with an opportunity of finding an effective combination for a team from the squad. All of these games were won by wide margins. Two games were played with the Livingston Railway Club, providing good scrimmage practice for the hoopsters. The Big Timber Independents were also easily defeated. The Bobcats played a two game series with the Wichita Henry's, National Amateur Champions. The first game was marked by an easy victory for the visitors, but the second tilt nearly proved the first defeat of the champions. The margin was only one point, and the Bobcats missed an opportunity of tying that with a gift toss after the final gun. The reserves defeated Intermountain Union College by a large score in a preliminary game.

Track

Indoors training through the winter months keeps the track men fit for the spring meets.

HARRELL Renn was elected as the 1930 track captain. Past performances on the track won for him this distinction. Renn first started adding laurels to his crown when he was a senior in high school. At the state interscholastic meet in Missoula that year, Renn maintained his superiority in the sprints. The next year found him at Montana

State and out for football and track. Last year he reached the peak of his achievements by winning the 100 yard dash and the 220 yard dash in extraordinary time in the state intercollegiate meet in Missoula. There is no denying that no better man could have been selected to act in the capacity as captain of track. His coaches, team mates, and associates will long remember him as an outstanding athlete and thorough sport.

Captain Harrell Renn

THE coach of varsity track is Bob Adams, a former star athlete of Knox College. Coach Adams during his instruction here has raised track from a very low standard to the outstanding spring activity and one of the three major sports of the campus. It may be safely said that it is chiefly through the interest which Coach Adams has aroused that Montana State was equipped with an up-to-date track and field last spring. Last year he developed a track squad which came the closest to defeating the Grizzly that any track team of the school has ever done. In fact, so close was the margin that for a while it looked as if the long cherished track crown of the U's was due to change hands. Coach Adams expects to develop a good track team in the next year with old material, new contenders, and a new track and field on which to work.

Coach Adams

THE third State Intercollegiate Track and Field Meet held at Missoula saw, perhaps, the best Bobcat squad ever in action. The squad of 1930 came within thirteen hard-fought points of wresting from the hands of the University the state track and field crown, the closest of any team the school has ever sent out to compete with the Grizzlies. Strengthened by their star hurdler, who was not able to take part in the meet, there is but little doubt that the Bobcats would have won. Seven points off of the Grizzlies' added on to the score of the Bobcats would have turned the tables. However, as it was, the Bobcats could only provide the Grizzlies with a real struggle and let them know that they had engaged in a real track and field meet.

The contest was the third of the annual state intercollegiate meets which are held at Missoula. Five colleges were represented including the State University, the State Normal, Mount Saint Charles College, the State School of Mines, and Montana State College.

Buzzetti Goes Over

The meet started with the Bobcats annexing twenty points in about as many minutes. With this the Grizzly crowd woke up to the fact that they had something new to contend with. Burke of the University started their scoring when he counted in the pole vault. Point by point the University score crept up until the Grizzlies had quite a margin. Then the Bobcats started getting their counters in bunches. The relay was the last event, but already the University had gained too large a margin to make the College's victory in that event of any special consequence as far as winning the meet was concerned.

The placings of the five schools were as follows:

Montana University.....	68 5/8
Montana State College.....	55 5/6
Montana State Normal.....	3
Mount Saint Charles.....	2
School of Mines.....	1 1/3

One of the highlights of the meet was the mile run. Holst of Montana State maintained a steady pace and kept the lead. He crossed the line first in good time, to be followed by DeVries, who was in turn followed by Smith. All of these men were on the Bobcat squad.

Another event of interest was the 100 yard dash. Captain Renn of the Bobcats suddenly let loose a burst of speed and ran the 100 yards in 10 seconds flat, which is very unusual and comes rather close to the class of nationally known sprinters. Renn then turned around and won the 220 yard dash without much apparent effort.

The Bobcats won the 100 yard dash, the 220 yard dash, the mile run, and the relay. In addition to that, they placed one or two men in every one of the track events. However, the inability to garner points in the field events was the cause of defeat. Ward placed in the high jump, and Semingsen easily took the shot put, although he could not reach the record he set the year before.

Perey, of the University, was high point man with $10\frac{1}{2}$ points. Renn followed with 10 points.

Men of Montana State who figured in scoring were: Renn, Ward, Bruner, Hixson, Semingsen, Holst, Smith, and DeVries.

Ward Clears 6 Feet

IN the Rocky Mountain Conference meet held at Boulder, Colorado, the Bobcats took seventh place in a field of eleven teams. The Montana State squad gathered nine points. Semingsen, Smith, and DeVries counted for nine points. Semingsen placed second in the shot put, Smith got fourth in the mile run, and DeVries placed third in the two-mile run.

The University of Utah won the meet with $57\frac{1}{2}$ points. The scores of all the schools were as follows:

Utah University - - - -	57 1/2	Montana State - - - -	9
Colorado University - -	46	Denver University - - -	8
Colorado Aggies - - - -	44 1/2	Wyoming University -	25/16
B. Y. U. - - - - -	30 1/3	Colorado Teachers - - -	1
Utah Aggies - - - - -	30	Western State - - - - -	0
Colorado College - - -	11		

Grant of the University of Utah won the individual scoring with a first in the high jump, first in the high hurdles, and second in the broad jump; a total of 14 points.

Six new records were set, including the high jump by Grant of Utah University, the pole vault of C. A. C., the hammer throw by Clark of Colorado College, the shot put by Beattie of C. A. C., the discus throw by Beattie of C. A. C., and the broad jump by Hamilton of Colorado University.

Beattie broke two of his own records that he had established the year before.

Minor and Intramural Sports

For the majority of college men, minor and intramural sports must take the place of major athletics.

Intercollegiate Wrestling and Boxing

INTERCOLLEGIATE wrestling has become an important minor sport at Montana State College. The Bobcats have turned out several conference champions since they started entering the conference meet. Out of the regular wrestling class instructed by Dolan, the men who seem best in their respective weights are chosen to represent the school in the meets with other teams. Just before meets, elimination contests are held to decide who shall take the trips.

Intercollegiate boxing does not attract the attention which the other minor sports create. For one thing, boxing requires the strictest of training rules and students find it difficult to train for many long months for the sake of a minor letter. Also, boxing has been dropped from the conference list of intercollegiate competition. The motive was to reduce all competition to sports which were less antagonistic.

A wrestling meet was staged this year against the Southern Branch of Idaho University in which the Bobcat matmen emerged victorious with three falls, three decisions, and one draw; a total of $25\frac{1}{2}$ points to the Idahoans' $4\frac{1}{2}$. Thraikill, Claire Freese, and Brewer won their matches by falls. Reed, Pepper, and Clarence Freese won by decisions, and Wagner matched with "Oat" Brado fought to a draw in two over-time periods.

In the conference divisional meet this year, Montana State took fourth place with 14 points. Brigham Young University wrestled the grappling crown from the hands of Utah University by scoring 32 points to Utah's 22. The Utah Aggies tied with Utah U. with 22 points. The Bobcat wrestlers captured only one divisional championship. Everett Pepper threw Marvis Jonas of Utah in the course of a very

Hutchinson, Thraikill, Grebe, Freese, Brewer, Hoadley
Dolan, Dyer, Cammack, Freese, Kessler, Tripp, Mull
Hazen, Wagner, Read, Harrison, Petrie, Pepper

few seconds. The Utah man had never been thrown before he climbed onto the mat with Pepper.

Several of Montana's grapplers made creditable showings but lacked experience. The men who competed in the divisional meet were: Hazen, Pepper, Clarence Freese, Clair Freese, Brewer, Hoadley, H. Dyer, and Thrailkill.

In the intercollegiate meet with the University of Montana, the Bobcat wrestlers made a remarkable showing. The Montana grapplers lost only two of their bouts. Pepper, Rocky Mountain Conference Champion, won his bout in 2 minutes and 45 seconds from Mikalson of the University. The other results were:

165 lb.—Clarence Freese threw J. Mola of the University in 1 minute and 35 seconds.

125 lb.—H. Dyer threw Johnson of the University in 7 minutes.

Vedro threw Hazen of the College in 2 minutes, 30 seconds.

Brewer won from Banfield of the University.

The final count for the wrestling contests was Bobcats 29; Grizzlies, 12.

The points which the Montana State wrestlers took in their respective bouts was equalized by an equal clean sweep of the University's in the boxing bouts. The Grizzly pugilists won all five of their bouts. Myers and Egan of the College were won over by knockouts. The results were:

George Haney, 167, won from Harrison, 200, in 3 rounds.

Grover stopped Egan in the second round in the 135 lb. class.

Crowley won over Petrie in 3 rounds in the 165 lb. class.

Jones defeated Read in 3 rounds in the 125 lb. class.

Krause won over Myers in the second round in the 155 lb. class.

A minor sports carnival is held alternately at Missoula and Bozeman each year. Wrestling, running and boxing are included. The final result of this year's carnival was a 66 to 66 tie.

Dyer, Thrailkill, Hoadley, Freese, Mull, Dolan
Brewer, Papper, Freese, Hazen

Intercollegiate Swimming

INTERCOLLEGIATE swimming is perhaps the most important of the minor sports. A regular class in swimming is conducted with Pat Dolan as instructor. This class provides a means of finding material for the swimming teams. However, a place on the aquatic squad is not confined only to members of the regular class, for any student may try out for a berth on the team. The swimmers of Montana State College usually experience two meets every year. One is the divisional conference meet, and the other is the meet in the minor sports carnival against the University of Montana. Montana State usually takes the crown of the state in the minor sports program. Last year the Bobcat swimmers took a clean sweep of the events, but this year the Grizzly got away with two events.

The 1931 aquatic team was greatly strengthened this year by Fox. He completed his preparatory work at Shattuck Military School and came here this year as a freshman. In the divisional conference meet he set a new record for the 60 yard dash, one which will be hard to equal in the future by other contenders. In the carnival with the University, Fox broke two records. He set a new record of 19.6 seconds in the 40 yard free style and a mark of 56 seconds in the 100 yard free style. In the divisional meet held at Provo, Utah, Fox won the sixty and one hundred yard dashes and collected a point and a half in the relay to come through as a dark horse and win the individual scoring with $11\frac{1}{2}$ points. In the meet with the University, Fox was also high point man with 15 points, while Misevic was second with 11.

Dolan, Misevic, Roberts, Wall, Foster, Erkkila, Garry, Barry, Fox

The captain of this year's swimming squad was Jack Erkkila. He assisted in winning the relay in the divisional meet in which the Bobcats took second place, and against the University he won the 220 yard free style.

In the divisional meet the Bobcat paddlers were somewhat held back by the fact that the bottom of the pool at Provo was dark in contrast to the white bottomed tank at Montana State.

Men who made the trip to Utah were: Fox, Gary, Erkkila, Misevic, and Roberts.

The divisional meet was won by Utah University. They collected 67 points. The Utah Aggies were second with 25 and the Bobcats gathered 17.

In the meet with the University Grizzlies the results were as follows:

40 yard free style—won by Fox, College; second, Ruth, U; third, Misevic, College. Time: 19.6 seconds.

220 yard free style—won by Erkkila, College; second, Cooney, U; third, Gary, College. Time: 2.42.

100 yard back stroke—won by Haye, U; second, Misevic, College; third, Schroeder, U. Time: 1: 18.8.

100 yard free style—won by Fox, College; second, McCarty, U; third, Turrell, U.

Diving—(swan, jack-knife, V, back and four optional) won by Dean, U, 83.7 points; second, Roberts, College, 71.8 points; third, Gary, College, 69.1 points.

100 yard breast stroke—won by Cooney, U; second, Barry, College; third, Erkkila, College. Time, 1: 8.6 .

160 yard free style relay—won by College. Time: 1: 25.8.

Misevic, Garry, Fox, Erkkila, Roberts

Rifle Team

THE R. O .T. C. rifle team of Montana State College, in charge of Lieut. C. E. Jackson, completed the 1931 season after making a creditable showing. The team won 17 out of 36 matches with teams from institutions like Kentucky, California, Washington, Stanford, Cornell, and Purdue.

The team competed in the Hurst Trophy match and placed fourth in the ninth corps area, qualifying it for the national intercollegiate match. It was one of twenty teams in the area. The National Rifle association awards medals to the members of the teams placing among the first three.

Robert Erb won highest individual record and Clarence Holst was the winner of highest underclass record. The awards for these records are given by Scabbard and Blade, national honorary military fraternity. This year the military department is also awarding a trophy to the winner of high individual record, the trophy to be kept in the department, with the name of each successive winner being engraved upon it.

The men who received letters are: Erb, Holst, Gillette, Johnson, Romo, Howard, Quist, Daley, O'Meara, and Bauer.

Rifle matches are different from most sports in that the competition is remote. The contestants from the various schools shoot for high score on their respective ranges, the results being sent to the corps area commander to determine the placings. Competition among schools is not limited to size, the larger institutions having no better chance to win than the smaller.

O'Meara, Wamsley, Bauer, Daley, Quist
Skonard, Pepper, Erb, Johnson, Jackson

Intramural Handball

INTRAMURAL handball doubles was played this year for the first time, and proved to be of great interest. Each fraternity entered a doubles team, and the tournament was conducted along the direct elimination plan.

Joe Sonntag and Don McElliott, representing the Amigo fraternity, were victorious over the S. A. E. team composed of Orville Bauer and James McArthur. In the spring these two men, Sonntag and McElliott, will be presented with medals emblematic of the college championship in doubles handball.

Joe Sonntag, for the third consecutive year, emerged the winner in the singles handball competition. Sonntag, an Amigo, won the championship through his defeat of Wenaas in the finals.

Intercollegiate Golf

INTERCOLLEGIATE golf was played for the first time during the spring of 1930. Harold Lee won the intramural championship by defeating Egan in a 36-hole match. The champion and runner-up then composed the team which would play for the intercollegiate championship. The 36-hole match was held at Missoula in connection with the state track and field meet. On the Missoula course and against strong competition, the Montana State golfers lost to Wadum and Davis of Montana University. The score of the winning team was 371 for the 36 holes, which is the record intercollegiate score.

Lee

Joe Sonntag

1930 Intramural Track

THE intramural track last spring was one of the most closely and fiercely contested meets that ever went on record here. Only non-lettermen are eligible for this activity, but there being plenty of good material among the Freshmen, as well as the upper classmen, each event saw its dark horses. Sigma Alpha Epsilon, Beta Epsilon, and Sigma Chi vied strongly with each other in total points up to the last event, when the Sigma Chi tracksters pulled out in front by a close margin.

The intramural meet is run off in the afternoons of two consecutive days. Last year saw rather unfavorable weather with a strong cold wind and over-clouded sky. The track on the new Gatton Field had just been put in shape, and was still very soft. In spite of these handicaps, some good showings were made in some of the dashes and field events.

Bruner and Drazich (S. A. E.) had everything their own way in the sprints. Hixson (B. E.) took second in the high hurdles, third in the low hurdles, and first in the high jump, in which he went out on 6 feet. Faxon, F. Buzzetti, E. Buzzetti, Coey, Wellington, and Ball garnered points for Sigma Chi. Holst and Smith maintained their superiority in the distance runs. Popham (S. A. E.) gathered points in the discus and javelin. McFarland (S. A. E.) took the broad jump.

Intramural track is one of the largest intramural programs on the campus. This activity necessarily requires several weeks of training, and for an organization to win it demands that that organization have a very versatile group of athletes.

Bruner and Drazich Fight for the Tape

1930 Intramural Volleyball

VOLLEYBALL, although a new intramural sport on the Montana State College campus, proved invaluable as a competitive game during the fall of 1930. Each of the ten frats on the "hill" established its volleyball team and went out after the trophy. These frats furnished some teams of high calibre and a splendid brand of competition resulted.

Three games were played each evening of the school week, and all the Saturday afternoon hours were spent in this competition. Large audiences attended all the games and a high brand of fellowship and sportsmanlike conduct was noticeable in the relations of the fraternities to one another.

The games were played in the small gymnasium and were handled in fine manner by Intramural Manager, Harold Greiner, and Assistant Manager, Albert Pettibone, who officiated all of the contests.

Sigma Alpha Epsilon fraternity won the championship by winning all of its nine contests without so much as the loss of a single game. Kappa Sigma fraternity, champions of volleyball in 1929, also had a fine team and succeeded in holding the championship S. A. E. team to 16-14 and 15-13 scores in the championship play-off.

The results of the series:

1. Sigma Alpha Epsilon.
2. Kappa Sigma.
3. Amigo.
4. Sigma Chi.

Garry, Adams, Wendt, Mencer
Worthington, Ario, McFarland

S. A. E. Baseball Champions

1930 Intramural Baseball

EACH year since the abolition of varsity baseball on the M. S. C. campus, intramural baseball has demanded the attention of the student body and many of the city residents. The keen competition in the 1930 series brought to light many outstanding players and teams. Throughout the entire series there was every evidence of good sportsmanship among the fraternities.

The series was conducted by the "Round Robin" method of play off. This system demands that each team play every other team. The team finishing the season with the highest percentage is automatically the winner of the trophy.

Sigma Alpha Epsilon fraternity won the championship by defeating Beta Epsilon in the last game by a 2 to 0 score. Sigma Chi placed second in the series, nosing out the B. E.'s, who finished third.

The President's Cup, awarded yearly to the championship team, must be won three times in order to assure its permanent possession. To date, S. A. E. and B. E. have two legs on the trophy. Each of these frats reports good prospects for the coming series, so there should not be any lack of competition over the holding of the trophy.

1930 CROSS COUNTRY

Gus Holst, letter man in track and member of Sigma Chi, won the cross country which was held November 1, 1930. Holst ran a pretty race and with the aid of a dry day and hard competition came close to the record of Lester Bachman, whose official time stands at 15:06. Holst's time was 15:09.

Wilder, S. A. E., and Homme, B. E., forced the winner all of the way and finished in second and third places respectively.

Fraternity standings were determined on the number that finished, times their points, divided by 10. Pi Kappa Alpha placed first with 342 points, Sigma Chi was second with 257 points, and Delta Tau finished in third place with 183 points.

Sixty runners started the race and fifty-three finished, all in good condition and in average time. Officials for the cross country were: Judges — Coach Dyche, Prof. Renne, Prof. Kirk, and Pat Dolan; Starters—Harry Ellis, Max Worthington, Vic O'Leary, and Hi Greiner.

Start of the Cross Country

Intramural Swimming

THE intramural swimming meet ended with Pi Kappa Alpha and the independents each gathering 35 points. Swimming has always drawn much attention from the fraternities, and many of the intramural contests have been well contested, but this meet was so close that out of all the possible points in different events two teams tied for the leading score. Pi Kappa Alpha was declared the winner by virtue of winning more first places. Sigma Chi placed third with four points, and S. A. E. fourth with two points.

Start of Intramural Relay

Fox was high point man of the contest and the leader of the Pi K. A. team. He annexed four first places including the 40 yard dash, the 100 yard free style, the 100 yard back stroke, and the 100 yard breast stroke. In addition to that he swam as last man in the free style and medley relays.

Misevic placed second in the diving, 100 yard free style, 100 yard back stroke, the 40 yard dash, and was lead-off man in the free style and medley relays. Misevic was the mainstay of the Independent team.

1930 INTRAMURAL WRESTLING

Intramural wrestling was received at Montana State College last spring with such favor that it promises to be one of the major intramural sports. All the fraternities and the independents entered full teams and the competition was exceedingly keen. Elimination matches were run off on Wednesday, April 3, and the championship bouts on the following evening. Professor Dye, Coach Swingle, and Coach Dolan refereed all the matches. A handsome silver cup was awarded to the team scoring most points. Points were given for falls, and first, seconds, and thirds in each

weight. Kappa Sigma took first place with 27 points, Sigma Chi followed with 24, and S. A. E. third with 23 points. Kappa Sigma took three championships, Sigma Chi and S. A. E. each took two, and the Independents won one.

Professor Swingle announced that to stimulate interest in the sport a letter will be awarded to any man taking a championship in his weight three times. A large crowd of students and townspeople witnessed all the matches.

K. S. Wrestling Team

Intramural Basketball

INTRAMURAL basketball is divided into two leagues in order that the race for the championship will include more students of the campus. Each fraternity enters a team in each league. The two leagues have been named after the two colors of the school, the Blue league and the Gold league.

This year found plenty of strong competition in both leagues. In the Blue league, the Amigo fraternity team emerged victorious with one loss and nine victories. Kappa Sigma was runner-up in the same league with eight victories and two losses. Kappa Sigma defeated the Amigo team to throw both quints into a tie. The Amigos won the final game by a 21 to 14 score.

In the Gold league the S. A. E. team came out on top of the scramble for the title with a percentage of one thousand. The last two games of the S. A. E. team were close ones in which they nosed out the Independents 20 to 18 and in the championship game won over the Sigma Chi team by a 14 to 12 score.

Intramural basketball is perhaps the most important activity on the intramural program. Not only is it important because basketball is "the" game at Montana State, but because more students are engaged in this particular sport than in any of the other sports on the intramural calendar.

A fine type of sportsmanship and fair play was prevalent throughout the entire series.

Amigo Team

S. A. E. Team

Co-Ed Sports

To the modern College Woman, co-ed sports are becoming of ever-increasing importance.

Pearl Kimball

W. A. A.

The Women's Athletic Association is the active sponsor of co-ed athletics. It includes every woman at Montana State College who pays the annual dues. Each year the organization sponsors a Jamboree, and contests, creating interest and sportsmanship in all fields of women's athletics.

The W. A. A. Council consists of the officers and sport managers. It has charge of the business affairs of women's athletics and promotes the various sports. This year an intramural system was devised for competitive athletic games.

Miss Pearl Kimball has been the advisor of W. A. A. during Miss Stuart's leave of absence. Under her guidance, the organization has made great advancement.

W. A. A. COUNCIL

President.....	M. Roscoe
Secretary-Treasurer.....	B. McNeil
Manager at Large.....	M. Foote
Assistant Manager.....	P. Wirak
Assistant Manager.....	N. Cole
Swimming Manager.....	H. Oliver
Rifle Manager.....	S. Barringer
Winter-Sports Manager.....	L. Bowman
Tennis Manager.....	H. Fechter
Hiking Manager.....	C. Kunkel

McNeil, Fechter, Foote, Roscoe
Barringer, Bowman, Henkel, Oliver

LAISTE MEDAL

Each year on Woman's Day awards are made for achievements in athletics. The Laiste Medal, awarded by Mrs. James Laiste of New York, goes to the winner of the highest number of points during the year. Sarah Barringer won the medal for 1929-1930 with a score of 136. Second place went to Erma Monroe.

DEAN'S CUP

Dean Hamilton presents a cup to the sorority that wins the greatest number of points in athletics. In 1929-30 Alpha Omicron Pi obtained the cup permanently after winning it three consecutive years. The new cup was won last year by Alpha Gamma Delta.

Sarah Barringer

W. A. A. AWARDS

Cups are awarded by W. A. A. to women winning four first places in college athletics. Last year cups were awarded to May Boyd, Helen Fechter, Martha Hawksworth, Agnes Nugent, and Aleda Tokerud.

BOBCAT SWEATERS

Girls winning 87 points by participation in athletic activities are awarded Bobcat sweaters. These are the emblems of the all-round co-ed athlete. Bobcat sweater winners for 1929-30 were: M. Foote, M. Roscoe, H. Bradbury, M. Richards, M. Hawks, N. Cole, A. Tokerud, M. Crest, L. Tubb, R. Platt, M. Porter, C. Delaney, M. Smith, C. Henkel, L. Bowman, C. Smith, G. Anderson, and M. Nye.

Bowman, Henkel, Bradbury, Roscoe, Smith, Delaney
Tubb, Anderson, Hawks, Richards, Crest

Recreation Swimming Hour

SWIMMING

The sport that probably holds the most interest for M. S. C. women is swimming. It is a tradition at Montana State that every girl who is physically able should learn to swim. Beside efficient class instruction, swimming meets are held to create more interest among college swimmers. Capable student supervisors have charge of the plunge during pleasure swimming hours. Those for 1930-31 were: Dorothy Garrett, Helen Oliver, Sarah Barringer, and Anne Harrington.

BLUE AND GOLD SUITS

Each year swimming suits are awarded for diving, racing, and form achievements. Each girl passing 40 points in swimming test is entitled to a blue and gold suit. Winners for 1929-30 were: Sarah Barringer, Anne Harrington, Mary Wisner, Kathryn Gibson, Harriet Tullock, Gail Avery, Elizabeth Smith, and Ruth Platt.

Barringer, Gibson, Tullock, Harrington

Foote, Paulson, Flanigan, Johnson, Harrington, Roat

BASKETBALL

Basketball is the outstanding major sport of the winter quarter. This year the intramural system was used for the tournament, and at the end of the basketball season an all-star team was chosen from among the participants. Mrs. R. E. Brown annually awards little silver basketballs to each member of the championship team so chosen.

BASEBALL

This year the baseball season was held during the fall quarter. Such increased interest has been shown in the past few years, that soon baseball will be classed among the major sports for women. Competitive games were held on the interclass basis. Tri-letters were awarded to each player on the all-star team.

Wilson, Weider, Berven, Talmage
Kunkel, Anderson, Monforten, Ward

Murdock, Nelson, Ward, Albright, Harrington, Weider, Wirak

VOLLEYBALL

The intramural system has created a greater interest in volleyball among co-eds in general. The winning team for 1930-31 was that of Alpha Omicron Pi. The championship team consists of the best players in the tournament, regardless of the sorority team winning. W. A. A. tri-letters are awarded to the volleyball players chosen for the championship team.

TUMBLING AND TAP-DANCING

Efficient instruction in dancing and tumbling feats is given by Miss Kimball and Dorothy Garrett, respectively. Practical use is made of the instruction by asking members of the various classes to assist in school entertainments. The interest shown during 1930-31 has been exceptionally keen, and it is hoped that the activities will become permanent.

Lyman, Harrington, Keyes, Meyers, McNeil

Co-ed Sports

WINNERS

RIFLE—Alpha Gamma Delta won the sorority meet last year, and Erma Monroe the Anceny medal for individual honors.

HIKING—Winners in distance and speed hiking are awarded by Mrs. E. Broox Martin. Esther Riddell won first, and Mildred Richards a close second, in speed hiking. Selma Roys was awarded first in distance hiking, and Edith Oatey second.

SWIMMING—Sarah Barringer was awarded the Miller medal for individual achievement in swimming with a score of 84 points. Erma Monroe was ineligible for first because of winning last year.

TENNIS—Clara Roat was awarded the Miles medal for first place in tennis, and Carolyn Delaney was second. Martha Hawksworth defeated both winners but was ineligible for the medal, having won the preceding year.

Roys

Barringer

Roat

ORGANIZATIONS

Omega Beta

Founded at Montana State College, 1915

Colors—Green and Gold

Flower—Red Rose

Omega Beta, founded May 14, 1915, was the third fraternity to be organized at Montana State College. At that time it was known as the Anatnom Club, due to the objection of the faculty to Greek letter organizations. The name Omega Beta was chosen the fall of the following school year, after the faculty regulation was removed. There are sixteen charter members: Anker L. Christensen, Charles W. Cook, Rolland Brooks, Hilmer L. Dahl, Renan DeCamp, Ralph Jorgenson, Raymond Kuhns, Carl Borton, Ray C. Hagen, Robert Clarkson, David S. Thomas, Homer Taylor.

At the time of the World War, the fraternity had sixty-seven members, and sixty-two of these answered the call to the colors. Many of them became officers. This depletion temporarily weakened the active chapter, but in 1919 the fraternity was reorganized, and with the strong alumni organization behind it, regained its place as one of the leading social groups on the campus. The alumni chapter roll numbers well over one hundred men. The fraternity has an alumni board of directors who assist in the advisory capacity. In 1928 several lots were purchased near the campus with the expectation of building in the future.

Beta Epsilon

Founded at Montana State College, 1919

Colors—Black and White

Beta Epsilon was founded May 10, 1919 for the purpose of petitioning Sigma Phi Epsilon, but in 1923 this petition was withdrawn and one was submitted to Phi Delta Theta immediately.

Beta Epsilon was the fourth fraternity on the campus, and was organized in response to the need of a new social group for the many non-fraternity men of high standing, numbered among the increased enrollment of the College. The charter members are: Lester Bachman, Wesley Brown, Ralph Kenck, Oliver Pouder, Ambrose Ryan, Thomas Shoebotham, and Eugene McLaughlin.

The fraternity now has over one hundred forty alumni, indicating the steady growth of the group.

Beta Epsilon leased a residence immediately after its founding, and in 1920 the present home was purchased. Additions and repairs were made through the efforts of the members.

The fraternity has had many members in the faculty.

Amigo Club

Founded at Montana State College, 1923

Colors—Crimson and Gray

Flower—Pink Carnation

The Amigo fraternity was founded in the fall of 1923 by two members of Alpha Tau Omega fraternity who were anxious to see their national represented on the Montana State Campus. These men, John Loy, formerly of Washington State College, and Wilbur Vaughn, who had attended the University of Montana, interested eleven independent men in their plan and began the organization of the new local. The eleven charter members are: Leroy Powers, Dave Savage, Alvin Cleveland, Grove Dutton, Louis Newman, Luke Dagnall, Lyle Wood, Lawrence Wilson, Robert Tootell, Al Constans, and Ray Miller.

The name "Amgio" was chosen rather than some Greek letter due to the fact that Alpha Tau Omega, like many other fraternities, at that time looked with disfavor upon the adoption of Greek names by petitioning locals.

Since 1923, the fraternity has grown steadily, and twenty-nine alumni have taken their degrees from Montana State College. During the course of its existence, Amigo has furnished many members to the faculty.

The fraternity owns its own home.

Honoraries

In the spring, the pledges of many of the honoraries are made to furnish amusement for the entire campus.

Septemviri

Founded 1920

ACTIVE MEMBERS

WILLIAM ANDERSON	DON McELLIOT
RICHARD BRUNER	GERALD WENTWORTH
EDWARD BUZZETTI	HERBERT ZWISLER
	HAROLD LEE

Septemviri, honorary senior men's organization, was established in 1920 for the purpose of enforcing and safeguarding the customs and traditions of Montana State College. The organization supervises the work of the Fangs.

Each spring a faculty committee chooses the seven outstanding junior men on the basis of scholarship, leadership, activities, and personality, to compose Septemviri during their Senior year.

Zwisler, Bruner, Lee
Wentworth, McElliot, Buzzetti, Anderson

Mortar Board

Established 1927

ACTIVE MEMBERS

GRACE ANDERSON	ELIZABETH SEITZ
ESTHER BOWMAN	ALICE TAYLOR
KATHERINE FISHER	HAZEL THOMPSON
KATHRYN KELLETT	HELEN SCHULTZ
ALICE VANDENHOOK	

Mortar Board is an organization rich in tradition. Some of the most colorful prevailing campus customs are Mortar Board sponsored, among them M. M. M. Day; the impressive tapping of new members on Woman's Day; the monthly formal dinner meetings at the various houses; and the ceremonious unveiling of the chapter's annual gift to Herrick Hall.

HAROLD SADLER	MAX WORTHINGTON
HARRELL RENN	AUSTIN DEFRADE

Les Bouffons, the oldest established honorary social society on the campus, was founded in 1900 for the purpose of promoting good-fellowship among the students by active participation in the social affairs of the college. Membership is limited to a selection of upperclassmen of proved character, social qualities, and enjoying wide popularity. The organization assists in sponsoring several informal dances throughout the year, while their formal patry given in the spring is the climax to a season of dances.

Phi Upsilon Omicron, honorary home economics fraternity, was organized at the University of Minnesota in 1909, for the purpose of encouraging professional work in home economics. Members are taken from the upper two-fifths of the class and are chosen either at the end of their sophomore year, or during their junior year.

The Epsilon chapter grants a scholarship for juniors and seniors in home economics. It has also established the library in Herrick Hall. A limited number of banquets are served each quarter in Herrick Hall.

Phi Kappa Phi, national scholastic honor society, was founded at the University of Maine. Seniors in all departments who rank in the upper one-fifth of their class are eligible to membership in Phi Kappa Phi. Elections are made on the basis of scholarship and character from the upper one-tenth of the class during the fall quarter, and from the second one-tenth during the winter quarter.

Phi Eta Sigma, national scholastic honorary for Freshmen men was founded at the University of Illinois in 1923. It now has 23 chapters in leading colleges and universities throughout the country.

The members, who are chosen on a basis of scholarship from the Freshman class, serve as actives throughout their two years as underclassmen.

Dean Thomas Ardle Clark of the University of Illinois was the founder of the organization, and is at present the national president.

Tau Beta Pi, national honorary engineering fraternity, was founded at Lehigh University in 1887, for the purpose of creating higher standards among those students majoring in engineering. Montana Alpha chapter of Tau Beta Pi was installed in 1926 and has since become prominently active among the engineering groups at the college. Membership in the organization is recruited from the upper one-eighth of the junior class and the upper one-fourth of the senior class.

The Tormentors, honorary dramatics organization, was founded in the year 1921-22, being an outgrowth of the old Dramatic Club. It was organized for the purpose of sponsoring and staging plays for Bozeman and college audiences. The organization aims to put on one play each quarter, and to foster a keener interest among college students for high class dramatics, by producing only the best plays. Membership in the organization is limited to students who have taken a major part in one or more three-act plays, or have done noteworthy work in managing plays.

The "M" Club

OFFICERS

President.....	Richard Bruner
Vice-President.....	Ed Buzzetti
Treasurer.....	Harold Sadler
Secretary.....	Paul Winner

The "M" Club, established in 1917, is an honorary organization of all men who have earned a letter in any major or minor sport. As an organization, the "M" Club strives to promote the interests of athletics at Montana State College, to bring into more intimate relationship, the men earning letters, and to secure for its members the privilege due them as athletes of the college.

Business and social meetings are held each month. Each year the "M" Club sponsors a dance as a means of bringing the college athletes into closer relationship with the student body. The club also sponsors an annual "Award Day" each spring; the House Decorating Contest during the state basketball tournament; and a luncheon for the entertainment of its members.

American Society of Civil Engineers

Founded at New York City, 1822

STUDENT BRANCH

Established 1922

FACULTY MEMBERS

R. R. DYE

H. T. NELSON

OFFICERS

President.....Joseph Sonntag

Vice-President.....Albert Pettibone

Secretary-Treasurer.....Harold Hanson

The student chapter of A. S. C. E., whose membership includes all students registered in Civil Engineering, was originally the Civil Engineering Society, organized in 1908. The organization is active in procuring speakers and films on industrial subjects, for engineering assemblies.

American Society of Mechanical Engineers

Founded at New York City, 1810

STUDENT BRANCH

Established 1920

FACULTY MEMBERS

ERIC THERKELSON

R. T. CHALLENGER

OFFICERS

President.....Kenneth Dyer

Vice-President.....James Shepard

Secretary-Treasurer.....Arthur Seiler

The Student Branch of the A. S. M. E. was established in 1920 as an outgrowth of the old Mechanical Engineering Club. All Mechanical and Industrial Engineering students are included in its membership. Weekly meetings are held at which problems and projects are discussed.

Architectural Club

Founded 1919

FACULTY MEMBERS

W. R. PLEW

H. C. CHEEVER

OFFICERS

President.....	Norman Hammil
Vice-President.....	George Graham
Secretary.....	James Loftus
Treasurer.....	Gordon Pappin

All students registered in architecture are eligible for membership in the Architectural Club, which was organized for the purpose of bringing together the members of the various classes and to promote a general interest in architecture and the allied arts. Meetings are held at specified dates for the discussion of business and subjects of special interest in architecture.

Agricultural Club

Founded 1920

FACULTY MEMBERS

J. A. NELSON CLYDE McKEE A. H. POST F. M. HARRINGTON

OFFICERS

President.....CLAUDE WINDECKER
Vice-President.....EARL BJORK
Secretary.....MELBOURNE KNOX
Treasurer.....BEN SLANGER

The Agricultural Club was organized in 1920 for the purpose of promoting a wider acquaintance among students of agriculture, a broader interest along agricultural lines and for providing discussions on up-to-date phases of agriculture by recognized leaders.

The Club sponsors "Ag Day" and the "Ag Ball." Meetings are held in the Agricultural Assembly.

American Institute of Electrical Engineers

MONTANA STATE COLLEGE BRANCH

Established 1907

FACULTY MEMBERS

J. A. THALER

C. F. BOWMAN

E. B. HEATH

OFFICERS

President.....	BRUCE MULL
Vice-President.....	AL GREINER
Secretary.....	WILLIAM MCKAY
Treasurer.....	ALBERT GREINER

All students majoring in electrical engineering are members of the A. I. E. E. The object of the organization is the advancement of the theory and practice of electrical engineering and of the allied arts and sciences. Weekly meetings are held during seminar hour. Each year the members stand the expense of sending the president to the Pacific Coast Conference of A. I. E. E.

Newman Club

Established 1917

FACULTY MEMBERS

MISS LENORA SULLIVAN	CAPTAIN GEORGE JAHANT
MR. JAMES KIEFER	MR. JOE LIVERS

OFFICERS

President.....	JOE SONNTAG
Vice-President.....	BOB EMMETT
Secretary.....	EVELYN FREESE
Treasurer.....	KENNETH FREESE

The Newman Club is a national organization for Catholic students. The club was organized at Montana State College in 1917, and became a member of the national in 1925.

The club sponsors a mixer each quarter, and the first Sunday of each month a breakfast is given for the members.

Home Economics Club

Founded 1895

FACULTY MEMBER

GLADYS BRANEGAN

OFFICERS

President.....	HAZEL THOMPSON
Vice-President.....	EMALINE GOULD
Secretary.....	LILLIAN MABRY
Treasurer.....	MARGARET CHOATE

The Home Economics Club was organized in 1895 for all students of home economics. The purpose of the club is to stimulate interest in the field of home economics.

Business and social meetings are held each quarter. The club sponsors a food sale during the year to raise money.

Art Club

Founded 1919

FACULTY MEMBERS

MISS JANE MOSS MRS. OLGA ROSS HANNON
MISS ANNA MUSSER

OFFICERS

President.....MARY FRANCIS SPAIN
Secretary-Treasurer.....DOROTHY MILLER

All students majoring in Applied Art are members of the Art Club, which was organized in 1910. The club meets every two weeks for the discussion of art subjects.

The club has the object of stimulating a better appreciation of art, not only among its own members, but among all the students on the campus. Each year it sponsors several art exhibits. In 1930 it was active in bringing Lorado Taft, noted lecturer and sculptor, to the college, as well as several fine exhibitions of painting.

Engineering Physics Club

Founded 1928

FACULTY MEMBERS

A. J. JOHNSON

J. A. KIEFER

OFFICERS

President.....H. JOHNSON
Vice-President.....N. BUNDI
Secretary-Treasurer.....A. LUNDQUIST

The Engineering Physics Club has as its purposes the bringing together of students majoring in physics and the maintenance of an up-to-date knowledge of the latest discoveries and developments that have taken place in the field of scientific research. The membership includes all faculty members of the Physics Department, and all students taking the Engineering Physics Course.

White, Kutzman, Crossthwaite, Lundquist, Warner, Horning,

FEATURES and ADS

Look at the smile on this pan. He has just received his jeweled Amigo pin for selling Exponents. Previously he has won several pairs of roller skates, and a tandem bicycle.

Leonard Wing Did It— Why Can't You

Any afternoon or evening you can find this young man sitting on a CHI O davenport telling how he won many beautiful things by a few hours work each week. He has developed himself so much along this line that he is now champion hog caller, calf judger and horse collar.

Perhaps you can do even better than this, for "one in the hand is worth two on the 'Wing'."

If you cannot succeed selling Exponents, perhaps you can be Editor and let someone else worry about selling them. If you are in doubt call the Amigo house anytime between 6:15 and 6:30 p. m., and ask for Leonard and say that a girl wants to talk to him.

THE WEAKLY EXPONENT

Phone—Long Distance

Freshmen Women?

You are only getting the surface dirt. . . .

Remember that there is always dirt collecting underneath which you never see but always know is there. This dirt can be collected only by my patented process.

Guaranteed for four years, but will give satisfaction for a lifetime.

It will actually get dirt from places where there is no dirt!

Useful as well as entertaining to your friends. What could be more amusing than showing people dirt collected on them which they never dreamed of?

Ask for a free demonstration.

Thirty days' free trial with no obligation but not responsible for misuse.

\$5000 Reward

Five thousand dollars offered by the Student Senate for the apprehension and conviction of the notorious striker, John Coey, last seen talking his way out of the Sig House. It is believed he was suffering from heartburn and was headed for the Kappa Delt House for sympathy and understanding. His excuse in leaving was that he was looking for some lost blue prints which he had left on some girl's neck. Gopher poison was left at all drug stores but according to latest reports all squirrels in this vicinity are in good health.

It is rumored that a Sig alumnus (name withheld for obvious reasons) has offered a reward of \$2.98 and a case of beer for the apprehension of the man who placed a pledge pin on this man.

I am glad a few fellows at Montana State
Are not wise enough to graduate;
For don't you know that next year's crop
Will have to be told just where to shop.
And if you think that we have been fair
Just tell them who, and why, and where.

FRECKLES ARE BUT PIGMENTS IN THE SKIN

Consult a freckle expert

Miss Lillian Tubb has had years of experience at freckle removing and is considered to be an authority. Her new cream has been developed from the top soil of the Alpha Gamma Rho lawn which has been dug up recently to allow her to experiment instead of to raise wheat as is generally supposed. Wheat was planted only as a ruse to keep innocent bystanders from asking embarrassing questions.

If this cream does not remove your freckles, as a last resort consult a photographer.

TUBB'S CREAM
Alpha Gamma Delta House
"Fresh From Tubbs"

PUP TENTS

Keep your pups warm in our body heated, air cooled tents. Can be used as pajamas for any number, or as a garage for an Austin. Also useful as scarecrows as shown in picture. No family complete without a tent and no tent complete without a family. The tent alone costs \$14.00 and the grievance and legs will be sent on receipt of 25 gum wrappers.

One fact of great importance in these days is the stabilizing effect of thrift when practiced by millions of people . . . Universal thrift would tend so to stabilize business as practically to eliminate all alternatives of boom and depression.

120 W. Park St., Butte, Mont.

We are old in years of service, but there is nothing old-fashioned about us except our business principles as laid down by our founder, General L. S. Willson, sixty-four years ago.

Our creed is an absolute guarantee of quality and satisfaction on all merchandise sold.

That its selling price is based on sound value and service, keeping in mind that true worth commands a price and that real economy lies in buying quality.

That we recognize that by performance alone may we continue to merit the good-will and confidence of our friends and patrons.

In dealing with us please be assured that you are getting the best of the money expended, and that every transaction carries our unqualified guarantee.

Our stocks are complete in the following departments:

Ladies' Ready-to-Wear and Millinery

Hosiery and Lingerie

MONTANA STATE COLLEGE STUDENTS have come to look upon Hauseman & McCall's as a store vitally interested in college affairs, and ready and anxious to serve M. S. C. and its students in any way possible. It is an institution which supports the college in all of its activities as well as serves the students in their needs.

It is evident from the careful consideration given to the college element that every effort is being put forth to make this concern worthy of the patronage of M. S. C. students.

FOR SALE

My Reputation as a Lady Killer

Would like to place it in a good home with pleasant surroundings. It is almost new, having been used on a few special occasions. Besides killing ladies it has kept the Pi Phi House free from rats for almost two years.

Results guaranteed and the victims are able to crawl outside to die.

Can be used on any girl of average intelligence or below.

For further particulars address Bob Gjullin, Pi K. A. House.

A GOOD CLEAN GAME

The fun of this game is to dunk or not to dunk.

Much thought has been given to the subject of what to do with the extra fifteen minutes allowed women on Friday and Saturday nights.

As a result this fine new game has been invented. Here you see two people who prefer to dunk. The more dunker you are the more fun you have. Get tanked up and try this new game.

Anyone wishing to demonstrate this game call the Bozeman Fire Department.

WANT PRETTY TEETH??

Use Dr. Kerck's nitric acid dental cream twice a day and forget the Dentist.

Contains no sand or alkali which injure the delicate molars and cuspids.

Useful as ink eraser and will also take off buttons.

Competitors advertise that this solution started the B. E. fire but this is not true.

Perfected after years of experiment
by

Dr. Kerck B. V. D., P. D. Q.

They Hooted When I Offered to Play

But the laughter stopped when I walked up to the stool, gave it a couple of twists and began clicking the ivories. At last I felt the thrill of contributing to the party. Instead of sitting idly by I found I had contributed a knockout to the party.

When I stopped there was a moment of silence, and then I was deluged with questions. When had I learned to play? Where had I studied? Who was my teacher? Could I show them how?

If you want to learn how to play and have a host of friends—tear up this book and send it and ten dollars in at once. If you are not satisfied we will gladly return the book.

Plans and Plates

IDEAS like airships, come towards us out of the haze. Modern airports have every facility for the convenience of airmen and their crafts. Similarly, we have every modern equipment and years of engraving experience to bring into concrete form the ideas of our hundreds of clients who publish school and college annuals.

Developing a theme for such issues which will thrill whenever seen, and bring back happy memories in years to come, calls for understanding, and a wide range of experience. You will find that sort of understanding and experience, as well as unsurpassed workmanship when you commit your publication to the
