FOREWORD

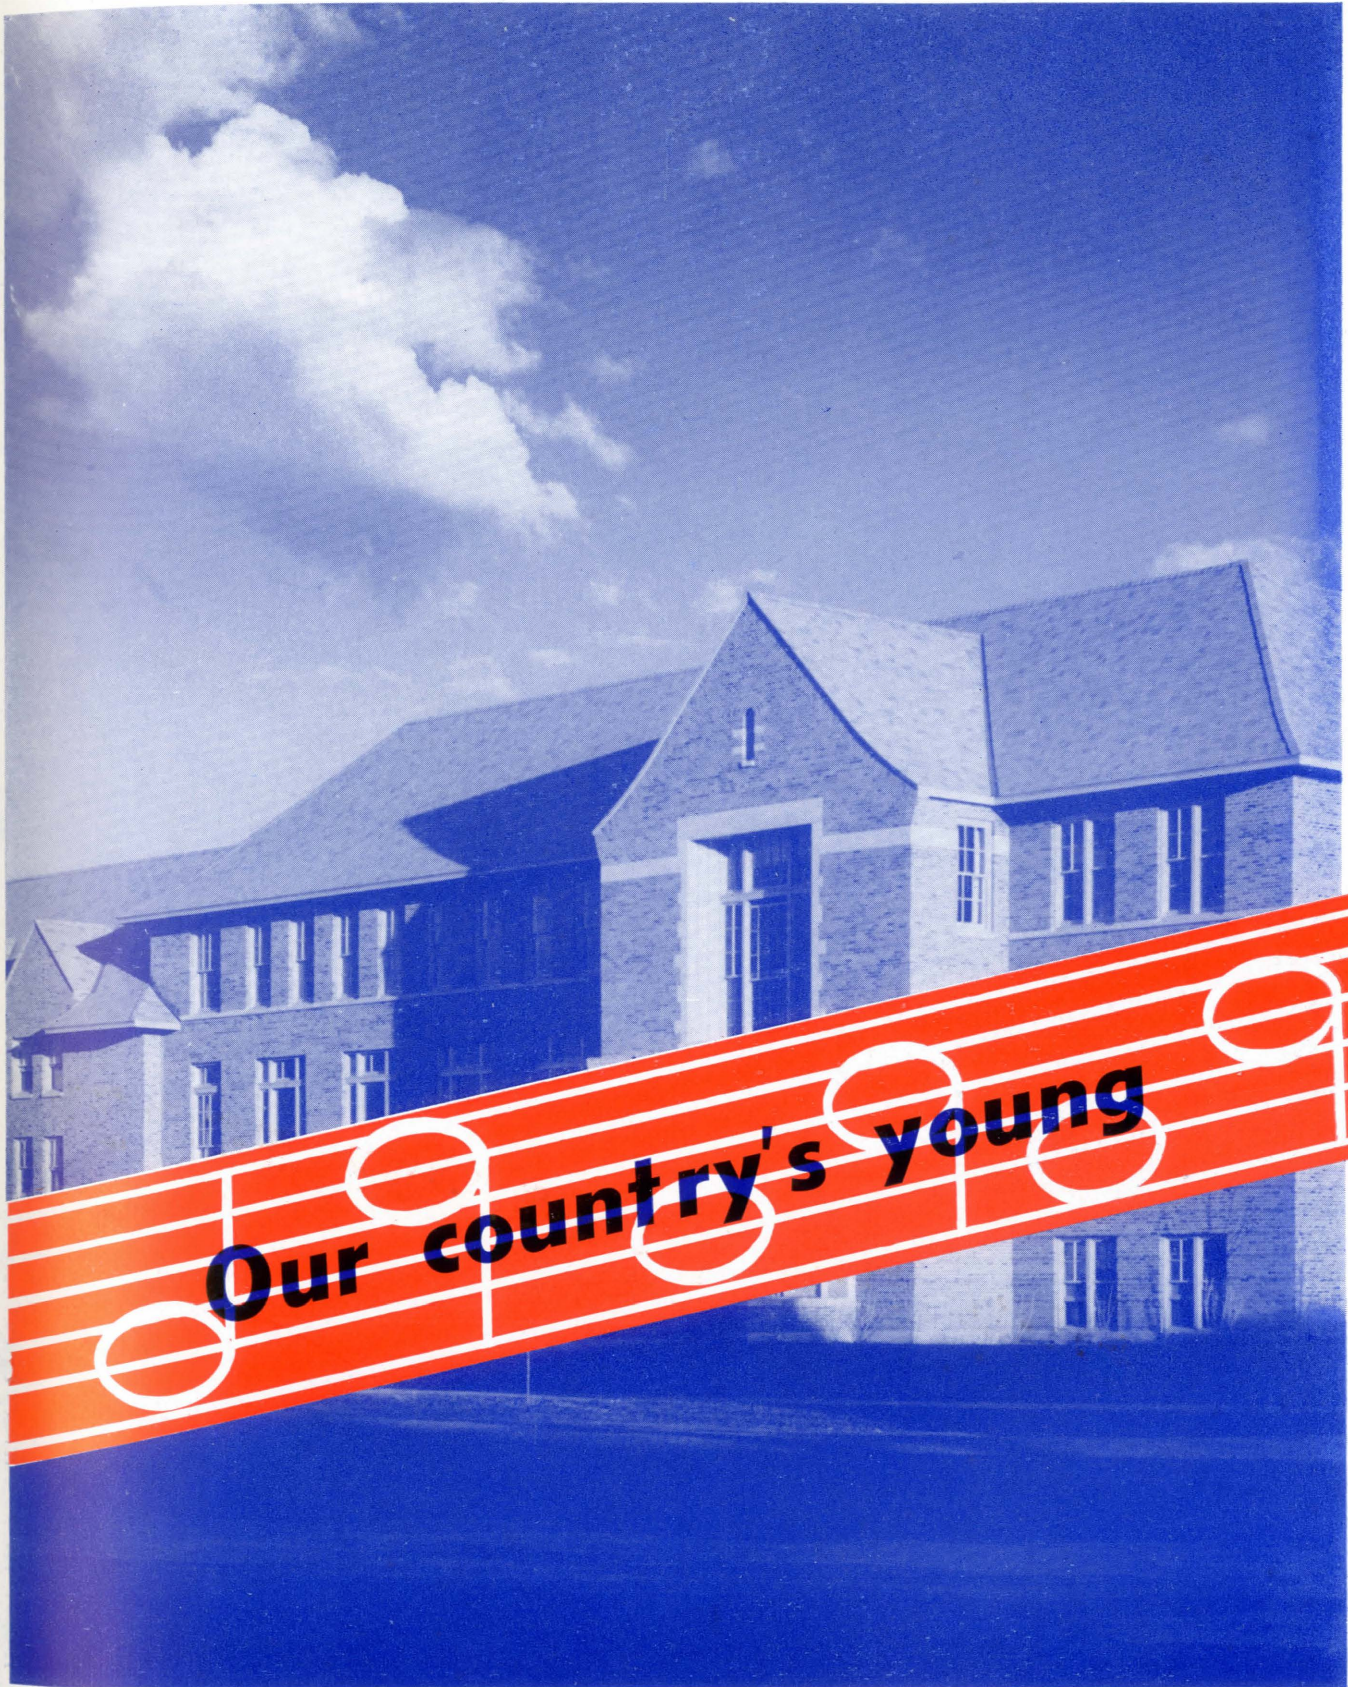

“Our country’s strong, our country’s young and her greatest songs are yet unsung. From her plains and mountains we have sprung, to keep the faith with those who went before.”

In our college “those who went before” established and entrusted us with a certain set of ideals and traditions. To keep their faith, we must build on this heritage and prepare it for those to come after, who shall sing those greatest songs which are yet unsung. For them we must remain American, not only because of a war, but in spite of a war. In our deadly serious struggle for life and liberty, we cannot forget the pursuit of happiness; for what is life, or liberty, without happiness? We must think about what it means to be an American and how to go about being one. And we must act on these thoughts.

Our country's strong

Our country's young

And her greatest songs

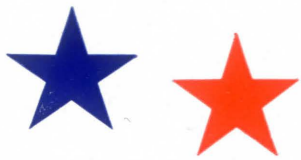

Are still unsung

From her plains and

mountains we have sprung

**WE'RE THE
"ETCETERAS"
AND THE
"AND-SO-FORTHS" ...**

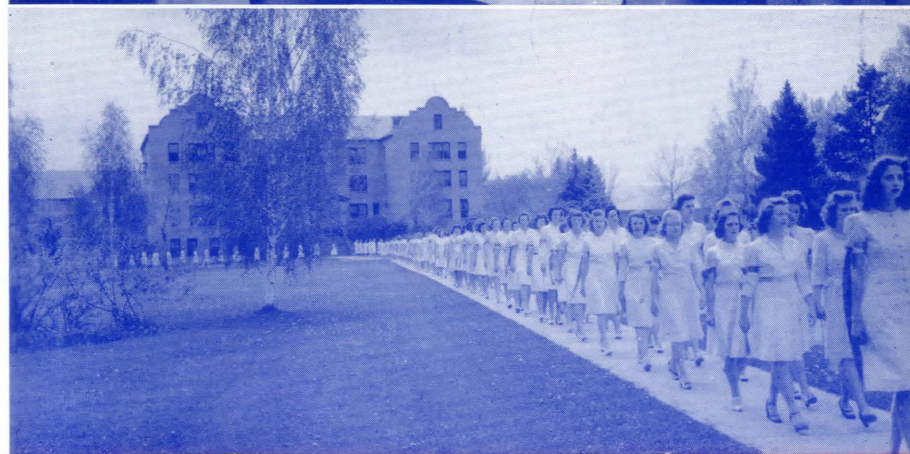

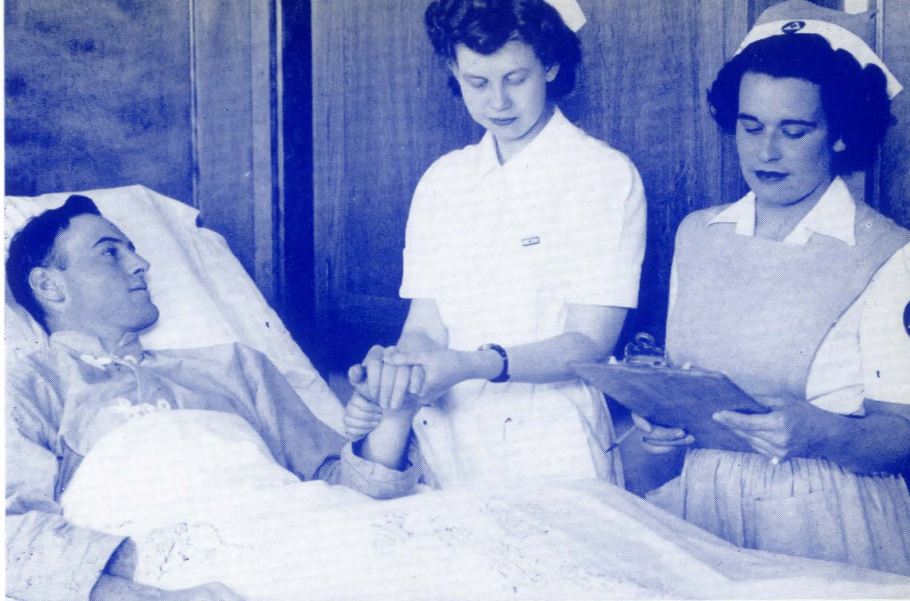

Yes, we are the "etceteras" and the "and-so-forths" too. We are Americans working for that day of Peace when our fighting Bobcats will come home again to help us keep our Alma Mater alive.

.. THAT DO THE WORK

But we can play too—we play to keep our spirit quickened and we play so that we can work harder that we may show those who have gone before that we have not failed.

Students of Montana State College:

I remember with great pleasure my visit to Montana State College and am very happy and privileged to make this dedication:

We live in a time when we of America can greatly influence the course of human history. The greatest responsibility falls upon the adult youth of our nation--those in the Colleges and Universities and those who are now fighting and will soon, one hopes, have an important voice in the shaping of the Peace.

The basic Principles are clear--the decisive one--the indivisibility of Freedom.

All men, including the hitherto oppressed, have been promised a greater measure of liberty and the opportunities for a richer life.

I would dedicate myself and hope that these students would dedicate themselves to working toward such a realizeable ideal.

SECOND ROW—Dean B. Swingle, Dean of Science, deceased; J. C. Taylor, Director of Extension Service; Gladys Brangan, Dean of Household and Industrial Arts.

To all the other members of our MSC faculty too numerous to list here, we wish to pay a tribute. You have carried a double load this year, under trying circumstances. We, your students, have been more difficult than ever, too, because we have had so many non-academic things on our minds. Now that the year is almost over and we look back we can realize that we have learned more than ever this year—more, because it is on a larger and broader scale. And so, to you, the students of MSC pay a tribute—a tribute because you are the loyal scouts that you are.

In Memoriam

DR. DEANE B. SWINGLE
Dean of Science

In the death of Deane B. Swingle January 18, 1944, we lost a distinguished scientist and eminent teacher and an excellent administrator.

As a man, Dr. Swingle was loved, respected, and admired by students and faculty alike. His greatest satisfaction was derived from his association with students and in teaching, for he was above everything else a teacher. He believed in people and found the finest delights of his experience in developing and furthering the interests of others. Although he saw their imperfections he never slackened his efforts to help them to be more nearly the men and women they were capable of being. His work was therefore conceived to be an opportunity for a service that would assure a continuing influence. In this way developed the kindly, sympathetic, personal philosophy that so charmed his friends and acquaintances and laid the foundation for a true memorial—not in stone or steel, but in the hearts of those who knew him.

*"It will come again—
Our marching song will come again
Simple as a hit tune—
Deep as our mountains
Strong as the people who made it."*

RUTH MARIE HOLMES

We know it is just as hard for the believer as for the non-believer to stand in the presence of death, but when He comes to us in that solemn hour, the listening ears of Faith hear the rustling of the Angel's wings and there is something in the heart and something about us that keeps this from being the last act or the last thing that happened in life; I would ask you to remember that Miss Holmes, herself, prepared us by her way of living, in her ideals, in her ever striving for perfection and in her way of teaching—she prepared us to think in terms of continuing, that things go on and on. It was a desire for perfection and for things to be well done that her students know her best. The art of living is infinitely more difficult than the art of teaching, but when the art of teaching is employed in making or teaching students to realize the beauty and the fullness of life, as did Miss Holmes in her teaching, her instruction, her guidance and the helpfulness with which she handled the affairs of her students, then we have come not only to the place where the art of living is a marvelous thing, but we have lifted the art of teaching unto its highest level.

(From memorial address given by Dr. H. G. Klemme.)

R. T. CHALLENGER
Division of Engineering

No words can begin to encompass the grief and loss suffered at the passing of a loved one. The death, late last fall, of Professor R. T. Challender leaves the writer particularly at a loss. To say that Montana State has lost a figure and educator irreplaceable, a man loved by all who knew him or of him, is not enough. Perhaps the greatest tribute to Professor Challender is the keen loss felt by so many students and friends.

Stories of his classroom ambidexterity instilled a healthy respect in underclassmen long before they had the good fortune to become pupils of the "Big Lefthander." He and his students were friends.

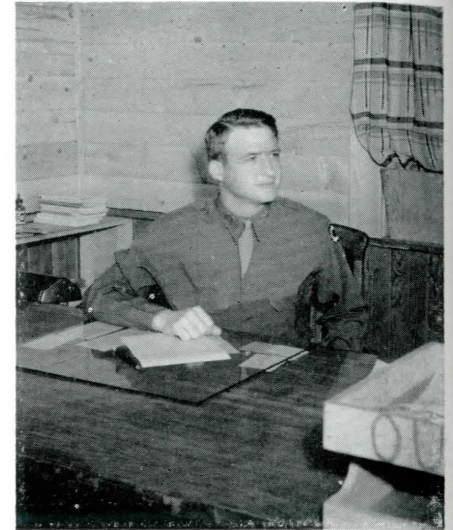

*"His heart was high and his faith was strong
But he hated oppression and he hated wrong . . ."*

A tribute meant to express gratitude for something or someone often tends to become trite and perhaps a little insincere in the meaning it conveys. That statement was made because what is about to be said is meant with perfect sincerity and solemnness.

To us the word tribute does not sufficiently express the feeling that goes from us, the students of MSC, to those men of the Army Air Corps and ASTU that were on our campus this year. Without them there would never have been a college feeling, and indeed there may have been no school at all. They were our friends and our firmest hope is that wherever they are now, they will remember us as we do them. We hope they will have pleasant thoughts of MSC and that perhaps some day they will come back. May that time be soon and may it be Peace that brings them. Until that time, we thank you, men of khaki, for being here and helping us to preserve our Alma Mater and for keeping *our* morale up. May God be with you.

M. S. C. Servicemen

Dear Bobcats gone to war:

The following military section is a cross section of you MSC fellows who were on the campus last year—those of you who aren't here now, because you are fighting for something typified by the Alma Mater you left behind.

Our gratitude goes to your parents and friends who answered our inquiries so promptly with such an abundance of material. We only wish we could publish every interesting letter.

The section had to be cut down to these few pages and therefore much of the material could not be used. In some cases there is very little left and probably now most of you aren't doing what it says here. Maybe its better that way, because it was probably a military secret anyway.

At any rate we want you fellows to know how much we miss you here. Even though things are on a small scale, we are proud to say that most of the traditions are being kept alive. Some that took place too late to go in the book were the re-pledging of Fangs and an M Day coming up. The M should be very glad to see us because she hasn't had a new dress since the fall of '43.

As I write this I can hear an uproar outside—it's coming from Fang initiation. The three active Fangs really are taking a beating today. Glenn Kennedy has been thrown in the fish pond three times already.

And so—we just wanted to let you know that we are very anxious to give the strings of the campus back to you; the strings that give life and variety, as well as function, to our campus—things like painting the Senior Bench when you were Freshmen, passing cigars and five-pounds, and all those things not mentionable here. You are the rightful owners of these strings, but we are glad to keep things "cooking" while you are away.

Sincerely,

Your fellow Bobcats

Each year the Montanan sponsors a dance at which the "Big Five" Queens are presented. These girls are selected from a group of twenty-five by a figure of national importance. This year we send our deepest thanks to Paul Whiteman for the excellent job that he did in selecting the girls by their pictures. The five girls are pictured on the succeeding pages and if you don't think MSC has pulchritude, just view the bonnie lasses above. A glance at them tells that Mr. Whiteman had a difficult task, so we send our double thanks and hope that perhaps some day he will visit our campus.

Panhellenic Council

STANDING—Amy Tunicliff, Margrette Gray, Marilyn Thorpe, Thelma Skaalure, Gloria Fallan, Alpha Dowling, Jo Lampen.

SECOND ROW—Helen Cogsley, Gale Ueland, Dorothy Allen, Dwayne Austin, Billie Buchman, Margaret Ann Stevens, Patty Flynn, Ruth MacDonald.

FIRST ROW—Peetey Balzhiser, Marjorie Johannsen, Caroline Gullickson, Betty McPherson, Marilyn Hoole, Beatrice Grettenberg.

The Panhellenic council is composed of two members from each of the five sororities on the hill. It is the governing body for sororities and strives to promote inter-sorority fellowship. Outstanding among their activities this year were exchange dinners. Ten girls from each House dined at another sorority house at periodic intervals. Officers are elected by rotation among the groups and representatives are chosen by their own sorority.

Junior Panhellenic is composed of the pledge president and a pledge representative from each sorority. This junior group is in charge of the annual banquet held in the spring at which time all engagements made during the year are announced. Needless to say, this is a very thrilling evening for everyone. More power to you, Panhel!

ORGANIZATIONS

Alpha Gamma Delta

With Gale Ueland ably holding the gavel the Alpha Gams spent a season to be remembered in their home at 502 South Grand. Outstanding in the P. E. department is Eleanor Vanatta, enthusiastic prexy of WAA. AGD also boasts of Billie Buchman, managing editor of the Exponent and president of Panhellenic; Bea Grettenberg, president of Junior Panhellenic; Barbara Jo Wilson and Ruth Dobler, co-editors of the Froshponent. We place our bets on Ann Mahan, Tag Grettenberg and Jane Matzke for future campus success.

SIXTH ROW—Betty Ann Haeckel, Marla Stafford, Irene Gillette, Catherine Van der Pas.

Alpha Omicron Pi

The A. O. Pi ship, piloted by Margrette Gray as president and Miss Mary Ritchie as housemother, found smooth sailing over the rough seas of grade points and athletic achievements. President of AWS, Helen Rae McDermott, and Phi U president, Margaret Noble, are two of the outstanding of more than sixty Alpha O.'s. Margaret Linfield held down the position of business manager of the Exponent, and Loretta Peters and Jean Stehlik were Montanan queens. The sorority was well represented in Phi Kappa Phi, Mortar Board, Spurs and Alpha Lambda Delta. Peety Balzhiser and Win McDermott were outstanding in the pledge class.

EIGHTH ROW—Betty Summerville, Claire Trueworthy, Frances Vanden Biesen, Marjory Wampler, Shirley Ann Wilson, Martha Wright.

Chi Omega

The big rambling house at 119 So. Sixth, formerly the AGR house, is now home to all Chi O's, be they "house" girls who live there all the time, or "town" girls who occasionally move in for a night or two. Guided by Dorothy Allen as prexy and Mrs. Louise Crooks as housemother, the Chi Omega chapter prides itself on its ability to have fun, work hard, its variety of girls, and its skill in singing. Prominent as always in campus activities with members in Alpha Lambda Delta, Spurs, Phi Upsilon Omicron, Pi Omega Pi, Spartanians, Mortar Board, and Phi Kappa Phi as well, Chi O boasts two of this year's five Montanan Beauty Queens—Beth Tow and Elaine Burke.

Looks like test week . . . slide down my cellar door? . . . easy to look at but hard to do . . . Mrs. Crooks, housemother . . . Chi O House . . . house duties . . . Punkin', Prexy, and Bunny . . . due to gas shortage.

Kappa Delta

Thelma Skaalure did a grand job of leading the active Kappa Delta sorority through an eventful year. During winter quarter they had a sleigh ride and a dance at a country school house. Later on in the quarter they held their annual Winter Party at the Student Union. Bettie Ryder and Thelma Skaalure both vied for honors at the Montanan Dance. Margaret Morris played a very important part in making a big success of Funlandia. Margaret and Gladys Gaines were pledged to Phi Kappa Phi. Rose-Claire Hansen was pledged to the art honorary, Delta Phi Delta, while Mary Embleton made Phi Upsilon Omicron. Dorothy Christiansen was pledged to Phi Sigma. The most beloved member of the household is Mrs. Torrence, the housemother.

Ah sweet mystery of life . . . Thelma smiles . . . Fern, our WAC . . . Lois . . . Mrs. Torrence, housemother, and Miss Hapner, faculty advisor . . . Kappa Delta House . . . it was winter time and what fun . . . twins—not quite, Inis and Bettie.

FIRST ROW—Thelma Skaalure (president), Gladys Gaines, Carolyn Gullickson, Alice Kellogg, Inis Matson, Mary Ann Metcalf.

SECOND ROW—Margaret Morris, Bettie Ryder, Mary Embleton, Rhoda Hoverson, Betty Jane Lauer.

THIRD ROW—Harriet Schugg, Florence Venetz, Dorothy Asbury, Dorothy Christiansen, Genevieve Gallagher, Rose Claire Hansen, Mary Leonhardy.

FOURTH ROW—Dorothy Asbury, Virginia Draper, Ruth Harlan, Lois Hopkins, Josephine Lampen.

FIFTH ROW—Doris Plymale, Anne Jeanne Sockness, Mina White.

Pi Beta Phi

Prexy Patty Flynn gave the orders to the Pi Beta Phi's and was one of the best as an O. D. Also president of ASMSC, she was a busy gal but mastered her arts, with a capital A. Outstanding junior honors go to Ginny Howell and Helen Talcott. A leader of the sophomore class is found in Betty Germeraad, president of Spurs. Freshmen predicated to "go places" are Dorothy Underseth, Alpha Lambda Delta, Jean Kalousek, and Marilyn Thorpe, pledge president. The house at 722 So. Willson was tops in bond and stamp sales in the two drives. It also had its tragedies—the stove blowing up and almost causing one listed as "casualty." The room on second floor with the Sigma Chi's dedication and the wine and blue murals gives an added attraction.

Patty and Fawn, which belongs to who? . . . Erys and Beryl . . . look pretty, smile, hold it, thank you . . . Mrs. Stranahan, housemother . . . snug as a bug in a rug . . . Fire? no, just washing windows . . . Sigma Chi and Pi Phi House(?) . . . three smart girls . . . look at those smiling faces!

FIRST ROW—Patty Flynn (president), Arlene Weedman, Peg Waite, Lucille Westlake, Margaret Ann Stevens, Betty Settle, Mary Jane Robinson Orleman, Peg Moore, Loraine Lowry.

SECOND ROW—Ruth Dawson, Jean Chestnut, Helen Birkeland, Beryl Garrison, Virginia Howell, Marian Lamberg, Winifred Johnson, Matilda Maris.

THIRD ROW—Pat Purdy, Erys Smart, Shirley Smith, Helen Talcott, Margaret Birkeland, Roseanne Crowley, Betty Germeraad, Suzanne Hinman, Shirley Mahan, Althea Maris.

FOURTH ROW—Eleanor Marx, Betty Jeanne MacMurray, Fawn Marie Murray, Jeanne Poirier, Judy Barringer, Kathryn Batch, Elinor Arneson, Mary Vaughn, Ellen Rue Brown, Helen Cogley.

FIFTH ROW—Jean Kalousek, Pat Cavanaugh, Betty Labrie, Helen Lloyd, Annette O'Leary, Joy Reeder, Pat Robinson, Mary Ruzicka.

SIXTH ROW—Rausie Lou Solberg, Frances Teslow, Marilyn Thorpe, Dorothy Underseth.

FRATERNITIES

In the early part of this year our three functioning fraternities were actually more of a memory of the good old days than a true realization. Then somehow, as the months went by, an undercurrent began to develop—one that was bent on trying to revive, in part at least, some of those dying MSC traditions.

The Sigma Chis organized their handful of men for chapter activities in their "rooms" in the Evergreen Apartments on Koch. Occasionally they would get together with the Pi Phis in "their" house for an evening of fun, or to celebrate a pin hanging.

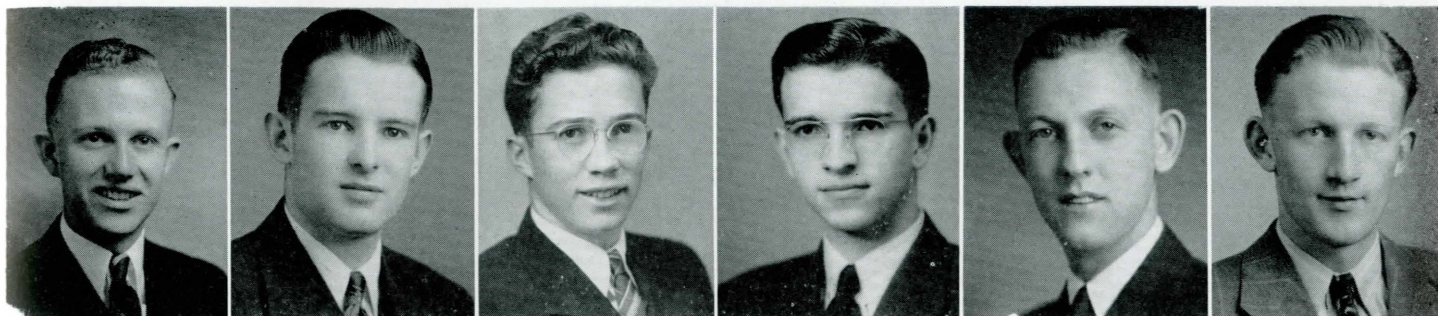

With pre-nursing students occupying the SAE house, the Sig Alf's still held their meetings there, and initiations, too. When the nurses left at the end of winter quarter, the fellows—thirteen strong, and with the loyal support of "Mom" Travis—moved home for spring quarter, just in time to give their traditional Easter breakfast.

Although the boys of Kappa Sigma have not been organized to any extent this year, they did an excellent job with their scholarship average.

The AGRs, Pi Kaps, Phi Sigs and Lambda Chis were in a state of complete inactivity but we know where they are, and why they are there.

And so, to all of you, wherever you are, we pay a tribute, and wish you God-speed. "So Proudly We Hail."

A small but active group on the campus this year was Kappa Sigma, with a grand total of six actives and pledges. What used to be the Kappa Sig House now is a convenient home for those beautiful and numerous A O Pi pledges.

Lambda Chi Alpha

When the Lambda Chis left, they really left. They boarded up their house and bid MSC au revoir, while they fought for their country. We'll be glad when, again, there can be Lambda Chis on our campus and the whole world can take the boards down from windows that tried to shut out War.

LEO McNULTY
President

FIRST ROW—Henry Webking, Walt Kelly, Kenneth Frazer, Myron Walker, Glenn Kennedy, Lyle Larson, Francis Burgess.

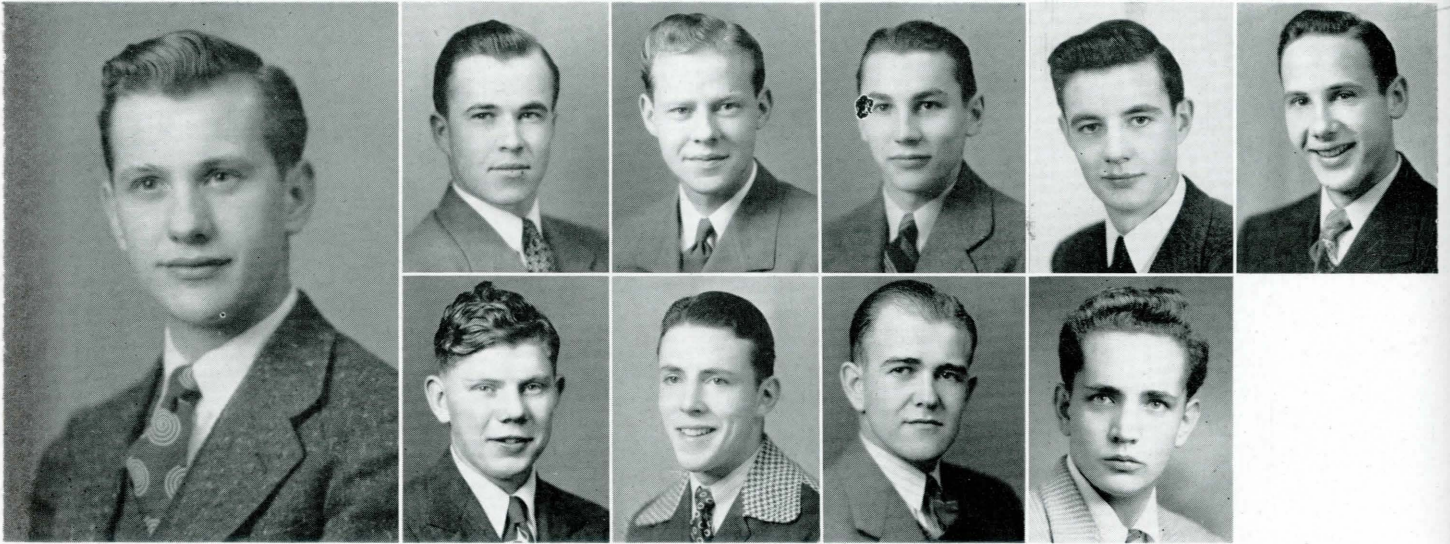

SECOND ROW—Fred Sherwood, Bud Maras, Bradford Clark, Joe Miller, Maurice Guay, Lloyd Abraham, Frank Gibbs, Martin Farris.

Operating on a much smaller scale, SAE continued to remain on the campus as an active fraternity. After a somewhat unpredictable fall and winter quarter, they climaxed the year by moving back to their home for the spring quarter. To Ken Frazer, Hank Webking, Glenn Kennedy, Walt Kelley, Leo McNulty and Myron Walker, go the deepest congratulations for carrying the ideals of SAE through one of its trials.

BOB SCHEELER
President

FIRST ROW—George Eusterman, Kenney Johnson, Bob Fredericks, Ted Marley, Bob Brust.
SECOND ROW—Miles Swan, Bill Sipple, Ned Gearheart, C. E. Whitehead.

Depending on a handful of deferred and reserve men, a strong group of last year's ROTC officers, and visiting ASTU Sigs from seven other schools, Sigma Chi spirit flourished throughout this school year. Notwithstanding, Sig activities were numerous and included parties, serenades, and smokers. After victory, Sigma Chi will return in its full strength and help in the rebuilding of MSC.

Independent Club

The Independent Club, representing approximately one-half the student body, was very active this year. Meetings were held once a month, where interesting round table discussions, pictures, and fun prevailed. The club sponsored two mixers and a picnic held during spring quarter.

Mabel Krebs led the Independents as president; Anna May Harris, secretary-treasurer; Alma Ryffel, social chairman; Lucille Murray, points manager. Mr. Armin J. Hill was the faculty adviser.

These are a group of self-governing, independent girls who make and enforce their rules, manage all finances, have parties, dinners, serenades and athletic teams. A DRAMATIST'S DAY

"Ah Wilderness!"

by
EUGENE O'NEILL

The fall quarter dramatic production this year was Eugene O'Neill's comedy, "Ah, Wilderness!" The subtle humor of the play was exceptionally well received by the audience. This year's cast was unusual, in that a number of enlisted students took part. Both the male leads were held by members of the local AST group. Another unusual addition to the cast was little seven-year-old Buddy Bolinger, whose energetic portrayal of Tommy, kept the cast and the audience in an uproar.

"The Father"

By AUGUST STRINDBERG

The winter quarter play, although morbid and not too well received, nevertheless disclosed some exceptional dramatic talent. Pvt. Tom Mathews, in the title role, Jo Pruitt, as the domineering wife, and Jean Stehlik, as the daughter, turned in excellent performances. The plot of the play reflects the life and thoughts of its author, August Strindberg, who, himself fought a life-long battle against wife and mother tyranny.

Chorus and Orchestra

L. E. OPP
Director of Music

Under the skillful direction of Mr. Opp the Chorus and Orchestra this year combined their talents to form what they called the "Radio Symphonette." They are especially remembered for their fine performance at Funlandia. Mr. Opp's witty personality and understanding make all those under his direction like and admire him. As head of the music department at M. S. C. he has developed that department considerably.

Tradition was broken this year when girls were allowed to play in the Bobcat Band for the first time. Under the able direction of "Lou" Howard, they proved that there is no weaker sex. The band was unable to make its annual concert tour and was thoroughly missed throughout the state. Synonymous with the name "Bobcat Band" is the name of Lou Howard. Without his fine spirit there may have been no band at all this year.

Sports

AN ATHLETE'S DAY

Women's Sports

Fortunately we still have some athletically inclined women on the campus to keep up the sports tradition. The girls this year took part in softball, basketball, swimming, track and modern dance, with a little extra-curricular hair pulling on the side. Intersorority competition ran high, with all sororities and organized women's groups taking part. A trophy is given at the end of the school year to the group with the outstanding record in women's sports.

We pass the time

One sport which didn't disappear from the campus was skiing. The Bear Canyon run enjoyed unparalleled popularity, and so did the doctors who had to set the broken bones and mend the torn ligaments. Skiing is fast becoming Montana State's most popular sport, and with the excellent run so close to town, more and more coeds and joes are learning to walk on crutches.

Seen Around the Gym

The famous lawn, of which there is so little left Say now Funlandia principles The Hawaiian influence When they were little kids this was fun.

Since both the Montana State College gym *and* the Montana State College student body have been taken over by the armed forces, the athletic section of this book is slightly limited this year. In spite of the fact that we had a good enough basketball team last year to last any school for at least two years, the campus activities seem dead without any intercollegiate sports to make for a little interest. The place won't seem the same until basketball, football and baseball again resume their place on the campus.

"And lots more"

NURSES

Nursing is advancing by leaps and bounds. With the aid of the Federal Government through the Cadet Nurse Corps, many young women are turning to nursing as a career. The Cadet Nurse of this school spends the first three months on the college campus preparing for her hospital experience. Funds for her education and a monthly stipend are provided for her under the Bolton Act. She is eligible to wear the Cadet Nurse uniform and may spend the last six months of her training period in an Army hospital.

Nurses graduating under this program may graduate with a diploma or with a bachelor of science degree. Arrangements may be made for a graduate with a diploma to go on to school and thus earn a bachelor of science degree.

The Army and Navy Nurse Corps await the graduation of Cadet Nurses so that they can fill their ranks making available more nurses for overseas duty.

Many alumnae of all units of the Consolidated Deaconess School of Nursing are now serving in both the Army and Navy Nurse Corps. They may be found in all theaters of service, both home and abroad. Each graduating class swells the ranks. We salute our alumnae in the Army and Navy Nurse Corps.

Nursing Education on the Campus

In response to our country's plea for more and better nurses, Montana State College is doing its part. A course leading to the degree of B. S. in Nursing is given in the Department of Science. Students spend two years on the college campus and two years in the affiliated hospitals.

A Pre-Nursing Quarter is also given on the campus, and already hundreds of student nurses have enjoyed a quarter of campus life and studied some of the science courses necessary for nursing. Most of these students are members of the United States Cadet Nurse Corps and have pledged themselves to serve in nursing for the duration of the war.

Editor's Acknowledgement

It is impossible for an editor to begin to express her gratitude to all those who have helped to make this book possible. Many of you have worked hard on the Montanan. To merely thank you is not enough, but I hope that some feeling of satisfaction comes to you when you see your work finished and bound, in your own hands.

I wish to thank you for the privilege of editing the book; it has been an experience like none other and a complete education in itself. Through the Montanan I have learned much about our campus and about you, its students.

To Mr. Albert P. Salisbury of Western Engravers and to Mr. C. L. E. Remington of the Gazette Printing Co., known to us as Al and Bill, go my deepest appreciation for everything they did. They were so much more than a representative of their companies, and without their personal interests the yearbook could never have been.

The same goes for our photographers—Linfield's, Schlecten's, and Lovelace's. Chris and Bertil's "priority for the Montanan" is one reason your book came out on time—not forgetting "Pop" Schlecten's cheery disposition which always made the most drastic affair seem funny, and also the promptness and efficiency of Lovelace's.

Then I hope that you, as the students of MSC, will accept this wartime yearbook, realizing that it is a product of wartime activity and inactivity, too; that it has been adjusted and readjusted many times to meet production specifications. But as you look through these pages, remember that your Alma Mater did not fail during a difficult year.

—GLORIA FALLAN, *Editor.*

Business Manager's Acknowledgement

The Montanan for this year of 1944 is tangible proof that the standards and traditions of Montana State continued to live in this "war year." The campus has seen many changes during the term, and the students, faculty, and advertisers have all helped to support the staff in its belief that a record of these changes should be recorded permanently in a traditional yearbook.

Many copies of the 1944 Montanan will go to alumni who are now in the armed forces. I would like to thank all of these boys and their parents for their interest and support. To these men in the armed service the book will be a reminder of days past and the promise of days to come, for many of them will be back to finish someday.

This yearbook would have been impossible to publish without the financial support of the advertisers; the willing guidance of Ed Howard's office; the hard work of Karl Fye; and the assistance of "Al" Salisbury of the Western Engraving Co. and "Bill" Remington of the Gazette Printing Company. My thanks and sincere appreciation to them all.

**RIGHT DRESS — FOR AMERICA
AT HOME**

This Army at Home, like that on the fighting fronts, must be fed, clothed, warmed and housed . . . and this is the part played by the merchants who provide these civilian needs. This big, important job is vital to the success of the war effort.

Forty years of serving the typical American family has taught us much that is helpful in times like these.

That is why, in over 1600 communities from Coast to Coast, the people on the Working Home Front turn to Penney's for what they need . . . knowing they buy it right in quality and price.

Backing the Attack With Montana Manpower, Metals and Forest Products

Metals from the Montana mining front are making for victories on the battlefronts.

Montana lumber is doing duty in war industry plants.

Montana manpower has set and is maintaining high production of these vital war materials.

Montana copper, zinc, lead, silver, manganese, molybdenum and vanadium are constantly employed in the aggressive warfare of the United Nations. Industrial plants all over the country are being fed with Montana metals that go into the manufacture of aircraft, tanks, howitzers, ammunition, fighting ships, signal corps equipment and other army and naval ordinance.

The many thousands of Montana men and women on the Anaconda Copper Mining Company payroll, employed in mines, reduction plants, offices, forests and mills, are also backing the attack with purchases of war bonds.

produces the best

Montana produces the barley that makes the malt for GREAT FALLS BEER, and this particular barley is of world prize quality. And because the original grain has this outstanding quality, the beer produced from it has exceptional merit. Ingredients plus skillful brewing and proper ageing puts flavor people prefer in GREAT FALLS BEER.
